In Praise of Chamberlain's Cough Remedy.

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croup and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children as it is pleasant to take and contains nothing injurious. Mr. E. A. Humphreys, a well known resident and clerk in the store of Mr. E. Lock, of Alice, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croup and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommended it." For sale by All Druggists.

ELECTRICAL.

In reply to a petition, an all-night light has been promised, viz.: from 4 p.m. to 7:30 a.m.

The B. C. E. R. Co. is making a strenuous effort to supply us with light but are meeting obstacles at every turn. They now have their expert bridge builder, C. Allen, at work endeavoring to put in a solid foundation under the machinery installed at Wadham's cannery.

Last evening we were treated to a little exhibition of electric lighting but the foundation was not sufficiently strong to permit of the machinery being run at more than half speed. But with the new foundation it is hoped to supply the juice by Monday next.

Great headway has been made during the past few days on the towers and with a continuance of the present fine weather the power will soon be brought across the river instead of having to be supplied by the temporary power house ere.

Honest John Speaks

The public meeting called by John Oliver, M. L. A., and held in the Town Hall, Ladner, on Thursday evening last was largely attended by both political parties and a very pleasant and instructive evening was spent by all. It was a matter of regret that Mr. McKenzie, the government candidate, was prevented by the exigency of his business from attending, however, that gentleman came in toward the latter part of the meeting and was given an opportunity of addressing those who remained at that late hour.

F. W. Howay, Liberal candidate for the City of New Westminster, who was in the audience, was invited to the platform by the chairman and started the ball rolling by a short address wherein he touched lightly on several matters of political concern and eulogized Mr. Oliver who, he said, was a representative of whom Delta could well be proud. Mr. Oliver's ability and energy and fearlessness, coupled with his well known integrity, had made him a power in the province and he strongly urged the electors to again return Mr. Oliver at the coming election.

J. D. Taylor, of New Westminster, who appeared for Mr. McKenzie, was allowed 45 minutes by the chairman, which time he fully occupied. Our space does not permit us to give in detail any of the speeches which is a matter of regret as Mr. Taylor's speech was well delivered and proved very interesting, he made as good a case as possible for the present government and, although he showed a lack of information on some of the matters discussed, his speech on the whole justified the wisdom of Mr. McKenzie's action in staying away himself and having Mr. Taylor appear for him.

Mr. Oliver then took the platform and it is needless to say his address was listened to with great interest by everybody, even his political opponents could not help but admire his thoroughness in taking up every subject which is of public interest, every statement he made he was prepared to substantiate by public documents and records, and his grasp of the situation and knowledge of public affairs showed that he had devoted a great deal of his time in the public interest. Although the hour was getting late and the temperature of the hall uncomfortably low he was listened to with great attention and frequently applauded.

Mr. McKenzie, who came in toward the latter part of the meeting, asked to be allowed to speak for a short time, which time he occupied by making a personal attack upon Mr. Oliver, and which was as violent as his somewhat slight ability as a speaker would permit. Amongst other nonsensical charges which he made was one that Mr. Oliver had advised the Trustees of Langley not to supplement the government grant to their schools with the result that Langley was without teachers, every teacher having resigned. This Mr. Oliver denied, stating that he even did not know who the Langley Trustees were, but that he had advised the people of Langley to keep up their schools to as high a standard as possible and cited his action in connection with the East Delta school where he had personally given $100 towards securing the greatest efficiency possible.

The meeting dispersed with cheers for the King.

WESTHAM ISLAND—BRIDGE OR FERRY.

This paper has been consistent in advocating the necessity of some positive means of transportation between Westham Island and the Mainland. Both the candidates at the last Provincial election spoke in favor. Mr. Oliver was elected by a large majority and it is pertinent to ask what Mr. Oliver has done and what the McBride Government has done. According to Mr. Oliver he took this question up with the Government, procured from the Dominion Government engineer soundings and other information necessary to have in considering whether bridge or ferry was most advisable. The question was fully discussed with Mr. Green, the Chief Commissioner, with the result that Mr. Green authorized Mr. Oliver to confer with the electors on Westham Island in regard to the construction of a ferry, stating most positively that the Government would not consider the proposition to build a bridge for a single instant. Mr. Oliver called a meeting of the electors, laid the position before them and also a proposition to establish a ferry similar to the one in operation on the Pitt River.

In view of the refusal by the Government to consider the proposition to build a bridge a petition was prepared and signed by practically all the residents of the Island praying for the establishment of a ferry similar to the one over the Pitt River. This petition was endorsed by the Municipal Council and duly presented to the Government. The matter has been pressed upon the Government by Mr. Oliver, at each of the last three sessions of the legislature, but the Government has, up to the present, made no provision for carrying out this work. Who is to blame, Mr. Oliver or the Government? Probably Mr. McKenzie will enlighten us upon this matter.

THE TRUNK ROAD.

The ratepayers of Delta will undoubtedly approve of the action of the Council in deciding to reproduce the original surveyor's lines, over that portion of the Trunk road from the River bank, to the Township line in the village of Ladner, and to establish the fact as to whether there was or was not any obstructions existing, at the time this highway was established, which operated as a bar to the resumption by the Crown of the whole of the land as defined by notice in the British Columbia Gazette.

There can be no reasonable doubt that portions of the Highway as established by the Chief Commissioner of Lands and Works has been PURPORTED to be sold by the original owner, but this is not a matter for present concern. The duty of the Council in the premises are clear. First to define the highway as originally established. Second, to ascertain what portion (if any) of said highway, the Crown was debarred from resuming by reason of the covenants contained in the grant from the Crown to the original grantee. Third, to clear the highway of all obstructions other than those (if any) which operated as a bar to the resumption by the Crown. Fourth, After defining the highway and clearing it of all illegal obstructions as above, the Council will be in a position to decide whether or not it is advisable to obtain by expropriation proceedings that portion (if any) of the highway as gazetted which the crown was debarred from resuming so as to make the highway of a uniform width.

As the present Reeve, as opposed to a large number of other ratepayers, is personally very much interested in this question we venture to suggest to him and to the ratepayers generally that it would be better that some other gentleman without any pecuniary interest in this question should be selected for the Reeveship pending the settlement of this question.
