THE EDENOGRAPH

VOLUME 2. NUMBER 16. ENDERBY, B. C., AUGUST 30, 1905. PRICE, $2 A YEAR

Enderby Doings

Monday next, September 4 is Labor Day.

Friday is the First. "Are you ready?" "Fire!"

T. Brynes left on Tuesday last week for Michel, where he will reside in future.

T. Linton, representing the Sun Fire Insurance Company, was rusticating in town last week.

D. Hyslop returned on Thursday from a vacation trip spent at the coast.

Messrs. H. W. Harvey, F. H. Hale, Heggie and Rosaman went to Sicamous on Friday returning on Saturday.

Enderby has now a brand new sidewalk, running from Cliff street to the new hotel! The cost was defrayed by the property owners whose premises it serves. It is strictly home production

Posters are out announcing a Labor Day Celebration at Hedley. An attractive programme has been arranged and visitors to the Similkameen city on that day will no doubt spend an enjoyable day.

On Sunday next will be held the harvest festival at St. George's church Service will be at 11 a.m., and gifts of grain, flowers, etc., with which to decorate the church, are asked, which should be at the church by next Saturday afternoon.

F. H. Hale returned from Fernie on Monday, where he has extensive business interests. In Fernie business is very brisk, and at the present time it is perhaps the best business place along the Crows Nest Pass line.

On Sunday last week Rev. R. W. Craw resigned from the pastorate of the Presbyterian church at Vernon. Rev. Mr. Craw has no definite plans for the future, but will proceed on an extended visit to the east as soon as he retires from his present charge.

M. Patterson was brought before Geo. Bell, J.P., on Saturday last on a charge of starting a fire and not taking steps to see that it did no damage. W P. Gooch defended. The accused was fined $50 and costs. The fire was started on Patterson's ranch at Deep Creek.

A very sad drowning accident happened on August 21, when Alfred Sanford, aged 17, and his baby brother, aged four years, were drowned in the south Thompson river, at Kamloops, a short distance above the sawmill. The mother is said to be nearly frantic with grief.

Sir A. Cowell Stepney, Bart., who is at present at Banff, whither he had gone to meet his agent, is expected to visit Enderby this week. Sir A. Stepney, who is well known as the owner of the Stepney ranch, just out of town, has been stopping at the coast, paying a visit to his extensive hop yard at Agassiz.

Jerry Eagles, an inmate of the Vernon branch of the hospital for the insane, escaped from custody on Tuesday last, and was captured by Basil Gardom, who was wired for from Armstrong, near Cherry Creek. Eagles is the man who was responsible for the wiping out of Armstrong by fire some years ago. His speedy capture was a relief to the residents of our neighbor, as he had expressed his determination to set fire to the place again.

The special Dominion Fair write-up of the Okanagan Valley, which is to be issued by the Vernon News Printing and Publishing Company is nearing completion, and promises to be a very creditable production. Special attention is being paid to details of the general get-up, to arranging for first-class illustrations, and to making the accompanying articles as practical as possible The cover design will be particularly attractive, and several of the advertisers have made their spaces very fetching with cleverly designed cuts.

T. Smith, of Vernon, passed through on Saturday bound for the coast.

September 7 will be a day of land nd water sports at Kelowna.

Graham Rosoman has been appointed secretary-treasurer to the Enderby Coal Mines, Limited.

Hair cutting on Saturday night will be charged at 35 cents at Hendrickson's barber shop.

Mrs. Wiseman, and her sister Laura left on Wednesday for the coast, on a trip to the Portland fair. They expect to return early in September to engage again in business.

J. Bluton, of Mara, was in town on Tuesday outfitting for a hunting trip in the mountains to the north of Shuswap lake. He will act as guide to a party of English sportmen on their annual hunting trip.

A copy of "A White Elephant," written in Cy. Warman's characteristic style, and published by the Canada Publishing Company at Montreal, has been received at this office. As its name suggests, it deals with government owned railways in Canada.

H. A. Baxter was a pleasant caller at the office on Saturday. Mr. Baxter has a ranch some six miles up the Mabel Lake road, and although having been here only a year, has done considerable clearing, and planted a garden, which is doing well. He is quite satisfied with the country, and thinks the climate just right.

R. Yule, of Tacoma, Washington, left on Friday for the coast, after an extensive tour of the valley. Mr. Yule spent some time looking over this end of the valley, and was struck with the green appearance of the vegetation around Enderby. Walter E. Truesdale drove Mr. Yule through the country, who seemed satisfied and pleased at all that he saw.

Chief Constable Simmons has been laid up with a painful, though not serious injury, during the past few days. On Thursday night last, he was rowing on Okanagan lake, when he caught a crab, falling backwards with considerable force against the centre-board casing, and rupturing the muscles of his back. He is recovering rapidly and is now able to be about again.—News.

Following are extracts from the game laws of interest to sportsmen: Open September 1 to March 1—duck, snipe, bittern, meadow lark, heron, plover. September, October, November, December—kill grouse, prairie chicken and ptarmigan, bulls of moose, elk, caribou, wapiti and rabbits. September 1 to December 15—deer, mountain goat or ram of big-horn. November 1 to March 31, take land otter and marten.

An extremely interesting address was given by Rev. A. M. Shearer, B.A., in the Methodist church on Friday last. Mr. Shearer is an entertaining speaker, and gave an account of the work of the Lord's Day Alliance. A local branch of this association was organized on Friday night, with Rev. H. N. Miller as president and Rev. D. Campbell as vice-president. Other officers were also elected, and good work is hoped to be accomplished.

Business Locals.

Fresh fruit in season at Metcalfe's.

Those new stoves and ranges at Harvey's are the finest in the land.

Self-sealers galore at Harvey's.

The very latest in felt hats for men men at Harvey's.

New arrivals in fall hats now opened up at the E. T. Co.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse schools of telegraphy in this issue and learn how easily a young man or lady may learn telegraphy and be assured of a position.

Serious Accident.

A shocking accident occurred on Saturday to the four year old daughter of W. J. Keuu, a farmer residing near Salmon Arm. Mr. Keuu was cutting a very tall field of oats with the binder when he was agonised to see his little child suddenly thrown on to the table of the binder amidst the falling oats. Her feet were completely severed just above the ankles. Dr. Sutherland, of Revelstoke, came within two hours of the accident, managing to catch a westbound freight. The little sufferer was later conveyed to Revelstoke hospital for treatment, but up to Monday was to weak to operate on.

Mrs. Keuu is at present sick in Kamloops hospital, and has not been told of what has occurred.

Much sympathy is felt for the parents in their trouble by the inhabitants of the district.

Fall Fair

A fall fair will be held at Salmon Arm on September 22nd, 1905. At this, it is anticipated, a very successful show of the products of the Arm will be made, and a selection from the prizewinners at the local event will form an exhibit to be sent to the Dominion exhibition at New Westminster. A capable and energetic committee is in charge, who may be trusted to prepare a first-class advertisement of this growing district to show to the visitors at New Westminster next month.

Wedding Bells

Invitations are out announcing the marriage of Miss M. L. Palmer to Mr. William Savage, to take place at the home of Mrs. A. J. Palmer, Coldstream ranch, Salmon Arm, on September 6th.

Business at Council Meeting, Aug. 23

Present. Mr. Geo. Bell, Mayor (in the chair), Messrs. Ald. Bradley, Evans, Kenny, Sharpe, Smith.

Minutes. The minutes of the previous meeting held August 16th, 1905, were read and confirmed.

Road Tax. The by-law to amend by-law No. 10, text whereof is set forth in the minutes of the meeting of Aug 9th recorded herein, was brought up for consideration, and on the motion of Ald. Bradley, seconded by Ald. Smith, was read for the third time.

Fire Protection. The clerk read a letter from the secretary of the Mainland Board of Fire Underwriters, stating, in answer to enquiries of the council in reference to the board's requirements in the matter of street hyurants, that their inspector, Mr. Lawry, would be passing through Enderby in the course of about two weeks and would be pleased to discuss the matter with the council.

The complaints of Messrs. J. C. Metcalfe and I. C. Jones were postponed for further consideration pending the receipt of a report from the fire inspector.

Sidewalks. A letter was read from Mr. H. W. Harvey requesting payment of the deficit amounting to $41.81, which had been standing over since the construction of the city sidewalks.

The council, after considering the matter at some length directed the clerk to write to Mr. Harvey in reply, stating, that while they regretted that he should have had to carry this deficit for so long, and felt most decidedly that the amount should be paid out of some public fund, they were of opinion that as the work was done long before the incorporation of the city, it was impossible for them to make an appropriation out of the Corporation funds for this purpose.

By-law No. 12. (Trade license by-law). Ald. Evans having obtained leave introduced the by-law to amend by-law No. 12, and, seconded by Ald. Bradley moved that same be adopted as follows:

"That by-law No. 12 shall be, and is hereby, amended by the addition of the following clause, to be inserted between sections 28 and 29: 'No person or persons shall, within the limits of the municipality, sell or barter spirituous liquors by wholesale or retail without having taken out and had granted to him a license on that behalf, under a penalty, upon summary conviction before the Mayor, Police Magistrate, or any two Justices of the Peace having jurisdiction in the City of Enderby, not exceeding the sum of $250 for every such violation of this by-law, together with the amount which should have been paid for such license, which said amount and penalty shall for the purposes of recovery under this by-law, be held to be one penalty; and no person shall use, practice, carry on, or exercise within the said municipality, any trade, occupation profession or business described or named in this by-law, without having taken out and had granted to him a license in that behalf, under a penalty, upon summary conviction before the Mayor, Police Magistrate, or any two Justices of the Peace having jurisdiction in the City of Enderby, not exceeding the sum of $50 for every such violation of this by-law together with the amount which should have been paid for such license which said amount and penalty shall, for the puposes of recovery under this by-law, be held to be one penalty; and it shall be lawful for the Mayor, Police Magistrate, or Justices to levy the said penalty and costs by distress and sale of the offender's or offenders' goods and chattels, and in case of no sufficient distress to satisfy the said penalty and costs, it shall and may be lawful for the Mayor, Police Magistrate, or justices convicting as aforesaid to commit the offender or offenders to the common jail or lock-up house for a period not exceeding three calendar months for the first offence, and not exceeding twelve months for any subsequent offence. Passed.

The Council adjourned at 11.12 p.m.

General News

Fruit-Growers' Picnic.

At Salmon Arm on Friday, the 25th, under the auspices of the Salmon Arm branch of the Fruit Growers' Association a very successful picnic was held. Most of the residents of the Arm were present, the attendance numbering between 120 and 150. An excellent program of amusements had been arranged for the day and consisted of the usual sports for such an outing. A hotly contested game of baseball was played, the day being finished up with a tug-of-war. Dinner was partaken of on the picnic ground and in the evening everybody returned home, tired, but with the satisfaction of having spent an enjoyable day.

Fernie's Fourth Fire.

Aug. 26th.—Very early this morning Fernie was again visited by a disastrous fire, which caused the destruction of $35,000 worth of property.

The fire swept an entire block of buildings, 300 by 240 feet, which consisted of the Queen's hotel, the Baptist church, sodawater factory, a small store, hay warehouse, four boarding houses and several residences. The C.P.R. watertank was also ruined. The property was insured for about $17,000. The water supply, as at the previous fire, was very poor.

Kamloop's Man to Rescue.

Aug. 26.—At the risk of his life W. C. Clarke, of Kamloops, rescued a little, brown Siwash baby from certain death beneath the wheels of a street car at the corner of Abbott and Cordova streets at noon to-day. As it was, Mr. Clarke suffered a badly wrenched shoulder and bruised hip through being hit by the car as it whirled past.

Russo-Jap Peace Conference

Portsmouth, N.H., Aug. 28.—Definite knowledge has come through that several days ago Japan had agreed to waive all claims for indemnity or reimbursement for the cost of the war, and to cede to Russia the north half of Sakhalien island, leaving the "redemption price of the same to the arbitration of a mixed commission."

The Czar's reply is announced as "partially responsive."

S. Petersburg, Aug 28—The Sviet of to-day says: The Japanese conditions of peace would only be accepted if a Japanese fleet was threatening S. Petersburg and a Japanese army occupying Moscow.

B.C. on Top.

Ottawa, Aug. 28—The first match of the Dominion Rifle Association matches opened at Rockcliff ranges with an attendance of 4,443. The first match was won by the B.C. Rifle Association with 152.

Those who have had occasion to visit Halcyon Hot Springs are loud in their praise of the manner in which that popular resort is being conducted by Harry McIntosh. The popularity of the place is also evidenced by the increased patronage being accorded the hotel, and of course the springs, which do so much to heal the ills that the flesh is heir to.—Pioneer.

Death of an Old-timer

It is with extreme regret that we have to chronicle the death of Mr. Caleb Woodward, father of Mrs. N. H. Kenny of this place to whom the sympathy of the entire community goes out in this her sad bereavement. We take the following from the Victoria Colonist:

A pioneer of the Island has just passed away in the person of Caleb Wood ward, who died at Nanaimo on Tuesday. He was 75 years of age and a native of Ontario. Arriving at Nanaimo thirty years ago, he remained eight years, leaving then for Enderby, where he remained until a couple of years ago, when he returned to Nanaimo, where he has since resided with his wife and one daughter. Besides these, he leaves three daughters, Mrs. Samuel Gough, Mrs. Kenny of Enderby, and Mrs. Barber of Zion City, and one son, Mr. Herman Woodward.

Mrs. Kenny left on Thursday for Nanaimo to be present at the funeral.

Death of Mrs. O. J. Vail.

We regret to chronicle the death of Mrs. O. J. Vail, which occurred on the 17th inst, at Bisbee, Ariz., at the residence of her cousin, A. Anderson, well known in the valley. Mrs. Vail had been ailing for some time and her recent trip south had been taken on the advice of the doctor, who thought she might be benefited by the change. Although details of her last illness are not yet to hand, it is believed that death followed an operation.—News.

The funeral took place at Vernon on Saturday.

Senator D. Wark Passed Away

Fredericton, N.B., Aug. 21.—On Sunday the hoisting of flags at half-mast shortly before 9 o'clock announced that Hon. David Wark, the oldest legislator in the empire and possibly in the world, had passed away. He suffered from no disease, weakness and extreme old age being the only complaints. He was born in Londonderry, Ireland, in 1804, and came to Canada in 1825, settling in New Brunswick. After holding many public offices he was called to the Senate in 1867, and had sat as a member ever since.

Mr. F. H. Hale has in his possession a letter written by the deceased senator when in his hundredth year, which is now a prized possession; and has also many interesting reminiscences to tell of the late aged legislator.

Premier Up North

Hon. R. M'Bride, Premier, and Hon. R. F. Green, Chief Commissioner who left for the north on the 5th inst., returned last evening by the steamer Charmer, having come down on the Camosun to Vancouver. They went as far as Hazelton, calling at a number of way points, to inform themselves respecting the situation along the coast and in the Skeena district, now attracting so much attention. They express themselves as greatly pleased with the result of their visit. A feeling of confidence was general among all the people they met, and times generally were good. The canneries have been doing a good business this season. The only complaints in this respect they heard were at the Balmoral, the plant of which is extensive, and the cost of operation in proportion. The mining prospect around Hazelton is very bright and many promising samples of copper ore have been brought in from along the copper river.

For Sale

House and seven lots at north end of town. Set out with fruit trees. Apply to J. Arland, Enderby.

A "TIME-MARKER."

In 1834 the little steamer, the "Beaver," was built on the Thames, and in the same year was launched, in the presence of the Sailor King, William IV. The destination of this steamer was to be the British posts on the Pacific coast of North America. In it Sir James Douglas, with a party of stalwart Scots, embarked on their long voyage around Cape Horn, finally reaching the western coast of Canada. Here for 54 years the little vessel plied the coast, and nosed her way into every bay and inlet on the western shores of both Americas. Since that first early Government formed by Sir James Douglas, wonderful strides have been made in British Columbia. Indicative of Western progress it is that so early in the history of the Province should be held in one of her coast cities a great national fair, such as that which opens at New Westminster on September 27th, and continues for ten days; yet this new sister of confederation is abundantly prepared to welcome and entertain visitors from all over the world.

British Columbia is, in many respects, a phenomenal province. It's extent, resources and variety of climate baffle description. It is practically an undiscovered continent. The largest province of Canada, it's wealth is virtually incalculable and untouched, and its possibilities beyond the horizon of the most vivid imagination. Under her hills are buried an untold wealth of coal and precious minerals while her surfaces are clothed with the largest forests on the continent, if not in the world. These forests are 182,750,000 acres in extent and comprise trees of the most valuable kinds. With minerals, fuel, water power and timber in such abundant quantities as are to be found in British Columbia, and in a locality situated so conveniently to the trade with the Orient, and the expanding American markets, it is not too much to expect that mammoth manufacturing industries will spring up in the near future. To all these commercial advantages the possibilities of agricultural pursuits must be added, and when one begins to enquire into the suitability of British Columbia soils and climate for fruit, grain and stock production, the prospect is beyond comprehension. There, in the valleys and upon the hillsides, may be grown fruits of every variety to be found in the temperate zone—apples, pears, peaches, grapes, cherries, berries, etc.—while the mildness of the climate and the luxuriance of the herbage make the rough lands ideal for stock-raising.

It is this empire, within the Dominion, with its vast opportunities and advantages of climate, soil and resources, to which the Dominion Exhibition directs attention. To those sick of the rigors of winter, tired of the toil and strife of cities, desirous of living in a new, free, open country, with a climate of one's own choosing, the Province of British Columbia opens its arms and invites close inspection.

The occasion of the fair, fixed for the first week in October affords the opportunity to visit this land of promise, and those to whom such a country appeals should not miss the privilege of seeing it at first hand. The special excursion rates advertised by the railway companies place the trip within the reach of people of moderate means.

"VERY MUCH" LIMITED.

The record of the train service last week was one of delays, breakdowns and freight left behind. Two evenings it did not come in from the south till after eight o'clock in the evening, and truly earned the sobriquet of the "Molasses Limited." The need of a freight, run through at least three times a week at this busy time of the year was doubly emphasized. The officials of the C. P. R. who visited this valley last week were full eoniums for the way in which the fruit-growing industry had expanded, and declaring that the adaptability of this valley for the growing of fruit was what they had preached for twenty years. If so, why do they choke its growth by giving it an inadequat and unreliable service, instead of fostering its growth. Of a truth, it is a conundrum beyond our ken.

To some extent, perhaps, the apathy of the people to make any move as a whole, has somewhat to do with the present condition of things, but we are glad to note that the Vernon Board of Trade has dared to lay the needs of the valley before them. But nothing definite could be learned regarding the intentions of Monopoly, and (to quote the News) "the polite and evasive generalities of Mr. Ker are not to be considered the definite assurances that we should have before it is too late to place our claims before the Railway Commission, and must not be allowed to lull us into a false and baseless security."

The Commission meets at New Westminster on September 19, and a statement of the claims should be in the hands of the secretary of the Board not later than September 2.

TOPICS OF THE WEEK.

Politics in the provinces of Alberta and Saskatchewan are being whipped into shape along definite lines. Hon. Mr. Haultain will stand for a constituency in Saskatchewan, and will undoubtedly be the leader of the Opposition. Mr. Walter Scott, M.P., of Regina, is the chosen leader of the Liberal party, and no doubt will be called upon to form a government. Mr. R. R. Bennett, a well-known lawyer of Calgary, will lead the Conservatives in Alberta. Everything is in the hands, however, of the government at Ottawa, and if Messrs. Haultain and Bennett "can beat the machine," then their victory will be a remarkable one indeed.

Notice of Assignment.

NOTICE is hereby given that William Boswell Steele, of Grafton Farm, Hall Car, in the Province of British Columbia, farmer, has, by deed dated the 30th day of August, A.D. 1905 assigned all his real and personal estate, credits and effects which may be seized and sold under execution, save and except the household goods, furniture and effects, wagons, sleighs, farm implements and machinery, horses, cattle and farm produce of the said debtor up to the value of Five Hundred Dollars (500), to Henry William Harvey, of the City of Enderby in the Province of British Columbia, merchant, and Francis Gosney Wellington, of the Town of Armstrong, in the Province of British Columbia, flour mill manufacturer, in trust for the payment rateably and proportionately and without preference or priority of his creditors. The said deed was executed by the said William Boswell Steele and by the said Henry William Harvey and the said Francis Gosney Wellington on the 30th day of August, A.D. 1905.

Notice is hereby given that the first meeting of the creditors of the said William Boswell Steele will be held at the General Store of Henry William Harvey, of the City of Enderby, in the Province of British Columbia, on Monday the 4th day of September A.D. 1905, at the hour of 2 o'clock in the afternoon. All persons having claims against the said William Boswell Steele are required to file the same with the undersigned verified together with particulars of the security (if any) held by them, to William Henry Harvey, one of the said assignees, addressed to him at his store, Enderby, B.C., on or before the 1st day of September, A.D. 1905, and all persons indebted to the said William Boswell Steele are requested forthwith to pay such indebtedness to the said Henry William Harvey at his said store.

Dated at Enderby this 30th day of August A.D. 1905.

With *The* Owl

MARK KELLAR IN THE DARK WOODS.

GREATEST blessing is not in being idle—having nothing to do but sit and think of his desires and how best to satisfy them. In fact, no worse fate can befall a man than to have nothing to do.

I know; it is a common thing to hear individuals say they will be happy when they have nothing to do but just sit round and satisfy themselves; but, don't you know, this is impossible. An idle person can never be happy. To be happy a person must be at work—doing something to develop his character and thus present to the world that particular part of him that is peculiarly his own.

People who work hard, are inclined to become envious of those they see who do not labor at all, and the idea gets hold of them that when they die and go to heaven, if not before, they will just lie around and do nothing. And they honestly believe they will then be happy. As if happiness were a growth of selfishness!

I do not know, of course, any better than you, but it seems to me that a place or condition that would not afford a man an opportunity to do his utmost in some useful, elevating occupation would be the meanest place in which a human soul could be placed. And if you have an idea, dear heart, that heaven is, or is going to be, a place where you can sit round and do nothing but cater to your whims and selfish desires, you ought to change that conception of things.

There must be advancement if there is to be happiness, and there cannot be any advancement without effort.

PURE DRUGS

The hardest lesson for all of us to learn is "the value of little things." But there is another lesson equally as important and quite as hard to master. It is "the value of pure drugs." If you are ill, no matter how simple the ailment, you will find that it is important to make sure of the drugs—they must be pure.

Fruit in The North-West

Evidence given before the Agricultural Committee of the House of Commons by A. McNeil, Chief of the Fruit Division, Ottawa.

Ottawa Correspondence in the "Farmer's Advocate."

At the final meeting of the Agricultural Committee of the House of Commons, Alex. McNeil, Chief of the Fruit Division, gave evidence on the "North-West Fruit Trade, with special reference to Packing and Packages." The subject occupied two sittings of the committee, both of which were well attended, notwithstanding the hot weather and the rush of business at the close of the session. Mr. McNeil referred to the enormous waste of fruit that goes on, especially in apples and plums, and to the constant increase in the imports into the North-West of fruit which might be supplied by British Columbia and Ontario Several causes contributed to this condition of affairs. British Columbia has yet only a small portion of her available fruit area under cultivation. Railway accommodations and freight rates are far from being satisfactory from either province. The relations of the wholesale distributors and the producers are not altogether harmonious. Cold storage depots for early fruits were needed at Winnipeg, and still more urgently at shipping points. Even the commendable systems of mixed farming militated somewhat against the highest excellence in fruit growing. But no one of these causes has so much influence as the present inferior method of packing fruit, and the kind of packages used by fruit growers in Ontario. It is a pleasure to note that British Columbia fruit-growers are using the most approved packages for their long distance trade, and are disposing of their entire crop at good prices; but it is the testimony of the North-West fruit dealers that even British Columbia fruit is not to be compared in point of grading at least to the American fruit.

A careful analysis of the criticisms of the North-West fruit dealers will show that their complaints may be classed under four heads: (1) Packing and packages; (2) grading; (3) keeping qualities of fruit; (4) business methods.

Ontario packages are quite suitable for the nearby markets, but are too large and weak for long-distance shipments. The ordinary two piece berry box, if made of somewhat heavy veneer, with a neat wooden rim, is a fairly satisfactory package, but the crate must be made much more carefully than at present. The division boards are not sufficiently supported, and frequently slip down so as to throw the whole weight of the upper boxes on the lower tier. Cherries, peaches, plums, and grapes are shipped in the six and eleven quart baskets. These packages are somewhat less than five and six inches deep respectively. So large a mass of fruit not only generates heat, but the bottom layers are crushed by the fruit above.

The American and British Columbia cherries are packed in boxes holding about 20 lbs, but only about half the depth of our boxes—the cherry box having a partition in the middle. The western peaches are always neatly wrapped in paper, which in itself is a great protection. Plums are packed in tiers, with paper between each tier in five pound tin-rimmed veneer boxes, four of these being crated together. Western apples are never shipped in barrels. The box is the universal package. Great skill is used to secure a full box without resorting to packing material, like excelsior or paper shavings, to fill vacant spaces. As the size of the box does not vary, it is apparent that a slightly different arrangement is needed with each size of apple. When the box is finished the top and bottom is slightly bulged, but this is protected by a narrow cleat across the ends. Pears are sometimes shipped in boxes, but more frequently in half cases, which are boxes just half the depth of the apple box.

These packages are well adapted to load in cars, so as to resist ordinary motion of the train as well as shocks in shunting. To secure proper ventilation, as well as to fix each box rigidly in place in the car, narrow strips are placed between each tier of boxes, and carefully tacked into the end piece of each.

In the matter of grading, Canadian fruit is particularly deficient. No package is wanted with more than one variety in it, and every lot should show freedom from blemishes. Two apples may be equally good, but if they differ in size or color they should be placed in different packages. Dealers claim that it is a great advantage to be able to secure solid car lots of one variety, every package being alike. Even though it may not be possible to secure this ideal condition, much improvement might be worked if growers in particular districts would grow the same varieties. It should be noted, too, that it is a violation of section 6 of the Fruit Marks Act to grade any package No. 1 that has more than one variety in it. Of course, we are still at the mercy of the transportation companies, but the first duty of the fruit growers is to make their own work perfect; then they can with better grace demand improvement from others.

Another complaint from Winnipeg dealers was on the score of lack of business methods. Delivery of an order is promised by a certain day; the wholesaler arranges his business accordingly. The shipment does not arrive on time, and sometimes is never shipped!

As regards the relative merits of the box and barrel, Mr. McNeil said that Canadian apples have been shipped almost universally until recently in barrels. The brokers and middlemen are not familiar with Canadian apples in any other package. It is quite natural therefore that Canadian fruit in boxes should be viewed with suspicion. It is not to be expected that boxes will take their proper place till they are shipped in large enough quantities to impress the market.

WICKEDNESS IN HIGH PLACES

Crookedness among the officials of the U. S. Department of Agriculture has lately been exposed. Professor George T. Moore, who in his official capacity prepared bulletins regarding the enrichment of farms, and who has made himself prominent by giving addresses recommending soil inoculation for clovers and other legumes, has resigned, and his resignation has been accepted. It was charged against him by two representatives of an agricultural paper that he had profited by his wife holding stock in a concern manufacturing these cultures, and that he had made it his business to recommend in his bulletins the particular brand of culture for soil inoculation, in whose manufacture he was interested.

More serious than this, even, are the disclosures concerning Assistant Statistican Holmes, who has been selling the reports on cotton crops to speculators. All the official reports have fallen under suspicion in consequence and many believe that the wheat and tobacco reports have also been manipulated in the interests of speculative buyers. President Roosevelt said that the man was a far greater scoundrel than if he had stolen money from the government, as he used the government to deceive outsiders and to make money for himself and others.

LOCAL NEWS. Continued.

R. Mowat, of the Rothesay Lumber Co., Mara, spent Saturday in town.

H. J. Storey left on Monday on a trip to points in the southern Okanagan.

Rev. F. V. Venables, accompanied by Mrs. Venables, returned home on Thursday from a holiday spent at the coast.

Dr. Vankleek and Walter Wolfenden drove up from Armstrong on Thursday last week.

Mr. and Mrs. Emhke moved into the house lately occupied by C. H. Gibenson last week.

A freight train was run on this line on Sunday, taking out the accumulated freight from the stations along the line.

Mr. E. Mills and son returned on Saturday from a trip to the coast, which included a visit to the Dominion Fair.

Anyone wishing a copy of the prize list of the Dominion Fair at New Westminster can get the same from this office.

Alex. Reid, of Kault, B.C., fire ranger, was in town last week in connection with the fires which have been burning lately in this vicinity.

Rev. A. M. Shearer, B.A., came in on Friday's train to deliver a lecture in connection with forming a branch of the Lord's Day Alliance in Enderby.

Mr. and Mrs. Hendrickson moved into the house that they have rented in the north end of the town the latter part of last week.

Miss Curry, sister of Mr. Curry, Deep Creek, came in on Monday from Whitewood, Assiniboia, and will teach school at Knob Hill.

Mr. Phipps came in from Vancouver on Saturday and will take charge of the bread-making at the Enderby bakery.

Mr. Etter, Yaak, B.C., came in on Saturday's train. He is a sawyer of repute, and expects to find employment at the local mill.

Lee Patten and W. Murray, of Armstrong, passed through on Friday for Ontario. Lee goes to study medicine and Billy for law.

We are pleased to be able to state that Mr. Hutchinson is now able to be about again and is contemplating a month's camping for the recuperation of his health.

Aug. 24th.—Mr. F. V. Moffett, manager of the Columbia Flouring Mills Co. of Enderby, arrived by the Imperial Limited this morning and left for Victoria.—Province.

J. Murphy, barrister, of Armstrong, paid a friendly call upon W. P. Gooch, renewing old acquaintances. This office also acknowledges a pleasant call from the "man of learning."

Nothing could be more delightful than the sample of weather that we have experienced for the past two weeks. It is truly Indian summer. The days are bright and sunny, with the mornings and evenings cool and bracing, while at noon a coat is not uncomfortable now!

The C.P.R. have issued a special low rate schedule operative from August 22 to October 3 for exhibits to the Nelson Fall Fair. The reduction is 65 per cent. from the usual inward rates, and includes the free return of the exhibit within ten days. This leaves the actual charge quite nominal and should be of great assistance and encouragement to exhibitors.

The salmon have reached here now and can be seen disporting themselves in the deep water under the bridge. They are running well, and every night residents and Indians may be seen in boats and canoes on the river with flaming torches, seeking to impale the fish. Good catches have been made, and fried salmon has been a favorite dish round town.

F. Jackson, manager of the Armstrong Farmer's Exchange, was in town on Saturday, en route for his ranch at Deep Creek. Business has been extremely brisk this season at Armstrong, and Mr. Jackson sees no reason why a similar institution at Enderby should not be a paying one, if started in time for business next year. A movement is on foot to form one at Vernon.

Fruit Exhibits.

R. M. Palmer, commissioner in charge of the British Columbia fruit exhibits at the Northwest fairs, who has just returned to the city, was yesterday interviewed by a Colonist reporter on the subject of his mission.

He said: "I cannot say very much more about the exhibits than has already appeared except that the success at Winnipeg was repeated at Indian Head and Regina. The displays of apples and plums were much better at the last named places, being much better developed and better colored. It was almost necessary in discussing exhibits with visitors to emphasize the fact that all the fruit shown was this year's production. Visitors from the eastern and central states were perhaps even more astonished than the Northwesterners at the excellence of the fruit. As the direct result of the exhibits, a great many persons are planning to visit the Dominion exhibition at New Westminster this fall. A great many others are planning to visit the province this fall after the grain has been harvested and threshed. The demand for fruit at all points visited was greatly in excess of the supply. This is due not only to the fact that the population has increased but the purchasing power of the people generally is much greater. The entire country is prosperous. The published reports of the good crops are fully confirmed by actual observation, the only complaint being that the crops are so heavy that in many places they are more or less laid and harvesting will be more difficult in consequence. The estimates of crops are based on acreage returns, but as yet these are uncertain.

"However, I saw many fields of wheat that promised thirty to forty bushels to the acre, and given good ripening weather, the average will be high."

They are buying Okanagan Lands

They are after lands in the Okanagan,
They are coming with the cash.
There is no use talking, neighbor,
Land has made a mash
On the people of this country
And it's now in hot demand.
Mines of gold and seams of silver
Hardly rank with Okanagan land.

They are after land in the Okanagan
From the east and from the west
Comes a steady rush of people
Who are looking for the best.
They take a squint at the Okanagan,
And as quickly as they can
They get action on their money
And it's sure a winning game.

For the man who wants to purchase
Title to an Okanagan place
Must get to the front and hustle,
Or he will lose out in the race.
Every day the rates are rising.
And the man who wants to buy
Should trot out his iron dollars
Ere the prices strike the sky.

Send for list of land to-day to

Bear this in Mind

There may be, no doubt there are, features about other parts of the Okanagan that will equal anything we have about Enderby in the way of nature's provisions for home-life, but certainly none can excell us. Climatic conditions are perfect; and for health and beauty, Enderby's location is unsurpassed. No cold damp weather, or hot sultry days.
