AT MISS GARNETT'S

LOCAL NOTES.

Col. Tracy is preparing plans for a sewerage system for Kamloops.

Mr. G. McCormick returned on Wednesday from a business visit to Toronto.

Do not forget the ice cream social and concert on Mr. Lawes' lawn, on Tuesday, June 19th. An enjoyable time and a first class programme of music are promised.

Hugh Rose, of Kelowna, was a passenger to Kamloops on Thursday, returning on Friday.

Miss E. Wright returned on Friday from Tacoma where she had been attending the Annie Wright Seminary.

The High School entrance examinations were held in the public school on Friday and Saturday last week under the presiding of School Inspector Gordon. Thirty-nine pupils sat for the examinations, of which fourteen were from Armstrong, thirteen from municipality schools, one from Lansdowne, eight from Enderby, two from Mara and one from Falkland.

E. J. Coyle, assistant general passenger agent of the C. P. R., was a passenger on Saturday's train, on a business visit to Vernon, returning north the same afternoon. Mr. Coyle said that traffic on the main line was very heavy, especially the freight tonnage, which was far in excess of any previous year.

Messrs. Elsom & Kirby, real estate agents, of Armstrong, were in town on Thursday. It is most likely that they will open an office in Enderby.

S. Teece announces that he intends to take up the dairy business, and will be prepared to supply the town with milk, cream, etc. Milk to start at six cents a quart.

The licensing commissioners held their quarterly meeting on Wednesday afternoon. Present: Mayor Bell and F. H. Barnes. The inspector reported that the licensed houses had been well conducted and no complaints received.

Post Office Inspector Greenfield, of Vancouver, was in town today. Mr. Greenfield is on his regular tour of inspection of the post offices of the province.

The ladies of St. Andrew's church will hold a strawberry festival on Mrs. Moffet's lawn, on Thursday, June 28th.

Premier McBride returned to Victoria on Saturday, from a trip into the south-eastern portion of the province. In an interview with a Colonist reporter he said that he and his party were welcomed everywhere and that on all sides he saw abundant evidence of of progress and prosperity, and was much pleased with all that he saw.

J. M. Miller, an old-time resident of this district, and a well known prospector, returned to Enderby last week. Mr. Miller and his partner, J. McConnel, have just concluded a deal whereby they have disposed of their interests in the Golden Sovereign group of claims, in the Nicola Valley, for a consideration said to be over one hundred thousand dollars. This ore is a copper proposition, carrying small gold and silver values. The ore is reported to be very rich, samples of native copper taken from some of the veins assaying as high as 97 per cent. pure metal, and shipments of this will be made direct to the refinery. This property which is about nine miles in length, is situated on the summit of the divide between the Nicola and Similkameen, at the headwaters of the Otter. Though at present conditions will not permit of the economical working of these claims, the day is not far distant when it will be so. The railway which is building from Spence's Bridge to Princeton, will pass right through this property, solving then the transportation question. At present the rail head is fifteen miles from the claims. The new owners, who are a number of Montreal capitalists, headed by R. J. Inglis, have now twenty men working on the property. Mr. Miller, who has a ranch at Mount Ida, intends to take a holiday after the arduous work of the past three years, and engage for a time in farming pursuits.

PUBLIC MEETING.

To Discuss the Question of Installing a Waterworks System in the City of Enderby.

The Mayor has called a public meeting for Monday night, June 18th, in the Orange Hall, Bell Block, at 8 p.m., for the public discussion of the proposed scheme for the supplying of the city with water from Hassard's creek. This will be set forth in detail at the meeting, and it is hoped that every ratepayer and householder will endeavor to be present.

KING COMING TO CANADA.

The London Daily Telegraph in a recent issue contained a long leading article on "The Canadian Invitation to King Edward to visit Canada." To all Londoners, the Daily Telegraph is a "Personae Gratia" with royalty, and from the importance the paper gives the subject, it can be taken as an assured thing that the visit will be made, and in all probability continued into the United States.

Hold Meeting in Enderby.

Meetings of the British Columbia Fruit Growers' association will be held early in July at Kaslo, Nelson, Creston and Cranbrook, and will be addressed by Thomas A. Brydon, president of the association, on "Planting and Pruning," by J. C. Metcalfe, on "Small Fruits," and by Maxwell Smith, Dominion fruit inspector, on "Orchard Cultivation." Concurrently, meetings will be held at Fairview, Keremeos, Penticton, Summerland, Armstrong, Enderby and Salmon Arm, and will be addressed by R. M. Palmer, on "Marketing and Transportation," by Henry Kipp, on "Cultivation of the Orchard," and by W. J. Brandrith, on "Spraying" and the "Work of the Association." The whole executive committee will wind up the itinerary by a meeting at Revelstoke. The exact dates of these meetings will be announced at an early date.

CARD OF THANKS.

P. H. Murphy desires to thank all who so kindly assisted him in the care of William Stubbs during his long period of sickness, and also all who so kindly remembered, and assisted, at the funeral.

Desire Brothier, wanted in Vancouver on five charges, two of forgery, two of theft and one of procuring, was arrested in Seattle on Tuesday morning on the request of the Provincial Police in Vancouver.

New York was visited by a $500,000 fire on June 11th.

Sir Hector Langevin, former minister of Public Works in Sir John A. Macdonald's cabinet, died at 9:10 p.m. on June 11th.

Miss Francis and Miss Murray, of Armstrong, were visiting in town on Thursday afternoon.

Mr. N. O'Leary, head miller at the Columbia Flouring Mills Co.'s mill at Vernon, has taken the position of night miller at the company's mill here.

COUNCIL MEETING

The City council held their usual weekly meeting on Wednesday evening. All the members with the exception of Alderman Kenny were present.

This meeting was a most interesting one, seeing that the waterworks question was brought to a climax, as it were, by the receipt of a price from the Canadian Pipe Co., of Vancouver, for which they would install a system of waterworks in Enderby, bringing the water from Hassard's creek. The figure is $15,523.00, for which amount they will complete the whole work.

Mr. Atkinson, representative of the company, was present. He answered all questions in a most straightforward manner.

During the course of the discussion of this subject, it was shown that at a very conservative estimate of the revenue to be derived from the sale of water, the undertaking would be self-supporting from the start, and so would not be a burden on the rates.

It was decided to draw up a petition to be signed by all the ratepayers and others who would take water, and so find out the sentiment of all with regard to it.

The trades license amendment was defeated on its third reading.

It was decided to call a public meeting for Monday evening, for the discussion of the waterworks scheme.

DEATH OF W. STUBBS.

With sorrow we are called upon to record the death of William Stubbs, which sad event happened at 11 a.m., on Tuesday. The deceased, who came from Sandon to here last fall, to take charge of the bar of the King Edward, when that new hotel opened, had for some time passed been undergoing tent treatment for consumption, and death has come as a merciful release to his suffering body. The late W. Stubbs came from Birmingham, England, where we understand his mother, sister and brothers reside. "Chauncy," as he was known around town, was liked by all with whom he came in contact, his kindly nature and unassuming manner making for him many friends. The mortal remains were laid in their last resting place at Lansdowne cemetery on Wednesday morning. Service was held in S. George's church by Rev. F. V. Venables, previous to the interment, at which a number of friends were present to pay their last respects. Mr. Murphy of the King Edward Hotel, did all that was in his power for the sick man. Under his direction a tent was secured with the hope that the open air treatment would give him renewed strength and vigor; but it was all in vain, for the sick man got weaker and weaker, till at 11.30 o'clock on Tuesdaymorning he passed peacefully away.

Notes and Comments

BROADMINDEDNESS

In large centres of population persons of similar ideas and sympathies naturally come together, forming associations or parties, and public opinion becomes massed and compacted as it were, and people are not constantly rubbing shoulders with others holding different or opposite views.

Their opponents are to them merely "the opposite party." But in small communities people of all shades of opinion and belief are in daily contact; and matters which in a large city are merely party or public questions, become in these small places matters of personal difference.

It therefore needs a special measure of the grace of broad-mindedness, to enable us to live amicably in such close material and mental proximity. Only thus can existence in a small place be free from personal differences in matters of a public nature. For, after all, we are, as it were, one large family; and very applicable is the sentiment contained in the poetry from which the following lines are taken:

"Time doth always sweetly fly
When there's love at home."

We should strive for the attainment of that ideal, and rise above the "cat-and-dog" relationship, which is so characteristic of life in some small places.

There should be a large-hearted, kindly toleration for those whose views or practices are different from our own. We must accord to everyone that personal liberty which we claim for ourselves. There can be no public progress in a community which does not allow of personal liberty, nor extend to each individual the spirit of tolerance. Temperance in thought, word and action is as great a virtue, and is just as necessary as in the use of intoxicating liquors.

Moreover, there is a tyranny of party or creed which tends to "down" those of opposite views—which tends to discredit and injure people whose only offence is that they dare to think and act for themselves, in the exercise of that liberty which men, only a few generations back, thought not too dearly purchased at the price of life itself!

A despatch has been received from the Colonial Office authorizing the armorial bearings for British Columbia. The King's pleasure is announced in the following quaint phraseology: "Know ye, therefore, that we of our princely grace of special favor have granted and assigned and by these presents grant and assign for the province of British Columbia the armorial ensigns following, that is to say: Argent, three bars, wavy azure, issuant from the base of a demi-sun in splendor proper, on a chief, the union device charged in a center point with an antique crown, or as the same are in the painting hereunto annexed more plainly depicted, to be borne for the said province on seals, shields, banners, flags or otherwise according to the laws of arms."

We have received a complaint that some person or persons have dumped a big heap of rotton onions in the gulch which crosses the Armstrong road near town. Besides giving off a most offensive odor, it is also a source of danger to travellers along the road, many horses shying on coming up to the heap. It is suggested that the onions have come from out of the cellar of one of the stores in town. Whether that is so or not, the roadside is not the place to dump rubbish. If any citizen has refuse to dispose of he should take it to the nuisance ground which the city has provided. We hope that the proper authorities will take up this matter, and see tnat this practice of dumping refuse at any convenient spot is stopped.

ON GIVING ADVICE

To what extent is it right for one person to endeavor to influence the decisions of another?

To many people this question will appear an exceedingly simple one; those however who are accustomed to think before they speak, and to delve down, as it were, to the foundation of things, will perceive that there is an important etherial principle involved.

It is a common thing for earnest and well-meaning persons to expend a great deal of energy in the effort to induce others to do, to suffer, or to be, this, that, or the other. They are ever ready to give advice, to urge this or that course, to coax, persuade, convince, overrule.

To him, however, who is accustomed to withdraw from the turmoil of outward life into the deep, secluded chambers of the soul, and there—removed from the swirl of the senses, the clash of mind with mind, the conflict of the external, the superficial—to see things *as they are*, all this is radically wrong, contrary to basic principles.

In the clear light and still atmosphere of that calm retreat, outward considerations fade away, and the solemn fact is disclosed that every human soul must stand alone. Round each there is a line drawn; it is the sacred circle of personality; within that circle let none presume to intrude, for it is holy ground.

The making of a decision, the arrival of the soul at that mysterious point where *a thought* becomes *an action*, is a spiritual event; it is, as it were, an act of creation; for good or ill through all eternity, that act can never be done away; it stands for ever, and the responsibility for it cannot be shared, or borne by others.

The most sacred thing in the world is personality; and, as our brother's keeper, the best service we can render is to give him "elbow-room"—respect his personality, and so far as in us lies, help *him* to respect, conserve and up-build it.

When we are tempted to give advice, when we feel that it is most important that our brother should do what *we* have decided is best, let us pause; let us endeavour to see how far it is *right* for us to influence him.

If we can but sufficiently calm our philanthropic excitement and clear our mental vision, we shall see that our true relation to our brother is that of the respectful, sympathetic on-looker. Give a word of kindly encouragement where you can; quote a known fact when it is applicable; give your opinion, and the reasons for it; then stand aside; you can—you must—do no more. As the Psalmist says:

"No man may deliver his brother, nor make agreement unto God for him."

Your brother must stand as absolutely alone as though there were only God and he in the universe; *and so must you!*

It is still true that one of the noblest works of creation is the man who always pays the printer.—Lowery.

JIM HILL AGAIN.

Fourteen thousand tons of steel rails for the Midway and Vernon Railway has just been ordered and continuation of construction of this railway is to be started in a very short time.

It is also reported at St. Paul that James J. Hill, president of the Great Northern Railway, has bought a controlling interest in the Midway & Vernon Railway, expecting to use this as a link in his new line between Kootenay and the coast.

If both these reports and the one published awhile ago, that this railway magnate has secured control of the S. & O. be true, Okanagan people are likely to see something doing in railway circles before many moons.

News From Near & Far

Post Office Inspector Greenfield states that the amount of money stolen at the recent holdup amounted to $15.75. What has become of it is still a mystery.

It is reported that two photographers connected with the German Secret Service have been taking pictures of Vancouver and vicinity.

Thomas McCormack, founder of the McCormack Manufacturing company, of Chicago, died last week near Chicago. He was on his way home from California when he was taken suddenly ill.

The Province says that from a letter received by Premier McBride, the route which the G. T. P. intends to follow through Northern British Columbia is easily followed. The forecasted route is along the old telegraph line from Cariboo to Hazleton.

Owing to a heavy rain storm on the prairies and a wash-out at Maple Creek, trains from the east were suspended for two days, the first train since the wash-out getting through on Monday.

Right Rev. William C. Bompas, for forty years prior to last November bishop of the diocese of Selkirk, died on Saturday night at his home at Caribou Crossing, aged seventy-eight. He was ill only a few moments, death resulting from heart disease. He had labored among the Indians of Yukon for forty-three years.

Sidney, N. S. W., June 11.—Richard John Seddon, Prime Minister of New Zealand, died from heart failure yesterday evening aboard the steamer Owstrey Grange, on which he had embarked to return to New Zealand. The Owstrey Grange put back into Sydney. Mr. Seddon was sixty-one years old.

Advices from Red Lodge, Montana, say that the coal mines of the Northern Pacific Railway company are on fire and that many miners have been overcome by poisonous gases and many have perished.

A heavy wind storm, accompanied by wind and lightning, passed over western Ontario on Saturday afternoon. So far as can be learned there were no fatalities. Trees were uprooted, buildings unroofed and windows broken. The telegraph service was demoralized for a time.

L. Doran and Mrs. Doran, of Sicamous, were visiting in town yesterday. Mr. Doran up till last October was conductor on the local branch of the C.P.R., when he had to retire from the position on account of illness. However, he is now much improved in health and it is probable he will resume his duties some time this summer.—Okanagan.

The decision in the somewhat noted case of Williams vs. Morris for libel has at last been handed down by the trial judge, Chief Justice Hunter. Judgement was given for Dr. Williams for $1 and costs. It will be remembered that at the fall assize here, Dr. Morris sued Dr. William. for $5,000 for slander, getting judgement for $10 and costs. Dr. Williams, at the same assize, sued Dr. Morris for $5,000 for libel, and decision has just now been given in the latter case as above stated.

Desire Brothier is in Seattle and he defies the provincial authorities to bring him back to Vancouver. A warrant for his arrest has been issued.

Orangemen throughout the district are looking forward with a great amount of pleasurable anticipation to the 12th of July celebration now being arranged for at Salmon Arm. The annual interior celebration will be held there, and a good programme of amusements is being prepared for the many visitors who will be present from Kelowna, Vernon, Armstrong, Enderby, Revelstoke, Kamloops and other nearby points.

A despatch from Toronto says that W. P. Tierney & Co., railroad contractors of Nelson, B. C., have been awarded the contract for the extension of the Kettle Valley railroad from Grand Forks up the North fork of Kettle river for a distance of fifty miles to the McKinley mine. The entire contract price including the laying of the steel will represent about $1,300,000. The work of grading will commence immediately. Several railway grading outfits now in Greenwood will be moved to Grand Forks and the work pushed as fast as men and money possibly can. Grand Forks citizens are jubilant over this good news.

T. W. Fletcher, of Armstrong, was in town yesterday. Mr. and Mrs. Fletcher and children will leave Armstong on the 13th inst. for a visit to the east, going first to Vancouver, then to California and from there by one of the American roads east. Mr. Fletcher has been a resident of the valley for twenty years, and thinks it about time he was having a holiday. He expects to be absent eight months, and on his return to the Okanagan will make Vernon his permanent home, building a fine house near D. R. Young's residence.—Okanagan.

W. L. Pratt, manager of the Last Chance Mining Company, Sandon, M. J. Kavanaugh of the Slocan Star Mine, also of the same place, left for home this afternoon, after several days' visit to Vernon, the object of which was to inspect the gold-copper proposition on Okanagan Lake about twelve miles from town and owned by Messrs. Birnie and Hamilton. So impressed were the well known mining experts with the property mentioned that they have bonded same for $20,000, and will very shortly start in development work on a large scale. Mr. Kavanaugh leaves at once for New York in connection with the deal. Besides the five claims of Messrs. Birnie and Hamilton's bonded four more have been secured from individual parties. This forenoon Messrs. Pratt and Kavanaugh visited the British Empire Gold Mines four miles from here. They speak in the highest terms of the appearance of the mine and the richness of the ore, considering the mine has a big future. The ore that is just now being broken into, on the Sarah ledge, was an eye-opener to them. It is pleasing to note they think the management by D. R. Young, of the mine, as shown by the work done, has been wise and altogether justifiable.—Okanagan.

Auction Sale.

Having received instructions from Strickland & Wellman, I will offer by Public Auction their entire

Herd of Dairy Stock,

at their farm one-half mile north of Enderby, along the S. & O. track.

Thurs. June 28

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section 160 acres or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father [or mother, if the father is deceased], of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

TOWN & DISTRICT . NOTES .

F. H. Barnes, F. V. Moffet and S. G. Fladgate were visitors to Vernon on Tuesday.

A goodly number of our own townspeople took in the circus at Vernon on Tuesday. All report a very entertaining performance.

Mr. Ford, of Knob Hill was a visitor to Enderby on Monday.

A. Paul took a business trip to Victoria on Monday.

Rev. A. N. Miller conducted divine service at Mara on Monday evening.

G. Ormesby left for Kamloops on Monday, where he will assist in the office of the Kamloops Lumber Co. there.

A. Paul and R. E. Wheeler have put through a deal whereby the latter becomes owner of Mr. Paul's fine residence and lots situate at the corner of Cliff street and George street, in exchange for 100 acres of Mr. Wheeler's ranch on the Mara road about four miles from town.

The Victoria Week makes favorable comment on the action of the 24th of May Committee in offering prizes for the best decorated residences and business houses.

Thistle and other noxious weeds are beginning to make their appearance. It is the duty of each citizen to see that such pests are not allowed to go to seed. See to it that any that are around your garden or on the streets are cut down.

W. A. Hassard came in last week and is renewing old acquaintances and revisiting scenes of the early history of the settlement of this district. Mr. Hassard is brother to F. H. Hassard, of Scallumcheen Prairie, and has just returned from a lengthy prospecting trip through the Boundary and Nicola countries.

Mr. Atkinson, the energetic representative of the Canadian Pipe Co., of Vancouver, came in on Wednesday, and will address the council with regard to the water system that they have on hand. During his travels last week he was at Chilliwack, where his company operates a water system. As our readers know, that town recently experienced a bad fire. The business men claim that owing to the water system, the town was saved from total destruction, and that the cost of the system was during the few short hours of the fire saved three times over.

The whole province of Prince Edward Island is now under Prohibition law.

A. Paul has greatly improved the appearance of his property on Cliff street by the replacing of the old wooden fence with a neat one of wire.

D. Nairn returned on Wednesday from Revelstoke.

R. Bailey went to Penticton on Wednesday morning, where he will erect a large amount of Frost Wire Fence. He expects to be away two weeks. The demand for this fence has increased so much that Mr. Bailey is kept hustling to keep up with it.

Dr. Fagan passed through on his way home on Tuesday from a visit to Vernon where he spoke at a meeting called for the purpose of forming an Okanagan branch of the Anti-Tuberculosis society.

The ladies of S. George's Guild announce that they will hold an ice cream social on Mr. G. R. Lawes' lawn on Tuesday evening next, June 19th, commencing at 8 p.m. An impromptu concert will also be given by local talent, consisting of solos and part songs. The proceeds will go towards the Bell Fund. It is expected that this will be a bright social event.

D. McKinnon met with a nasty accident on Saturday evening last while working at the sawmill. In passing under the conveyer he he straightened up before he was clear of it, catching the top of his head on it. Dr. Verner was called, and eight stitches were necessary to sew up the wound.

A. J. Lapworth, painter and house decorator, came up from Armstrong on Monday and is engaged doing a little work round town. Mr. Lapworth has also secured the contract for the painting of the Fortune residence. Mr. Lapworth's announcement will be found in our advertising columns.

Mr. A. Paul has commenced the erection of a substantial brick cottage on his property on Russel street, and the foundation is already completed. The house will be 26 feet by 30 feet, and is to contain five rooms, and will, when finished, be a creditable addition to the residences in town. Baird & Ferguson have the contract.

E. C. Simmons, Provincial Constable at Vernon, passed through on Monday, returning from taking the horse-stealer Peone to the New Westminster penitentiary.

J. F. Johnston returned on Saturday from a visit to Princeton and other Similkameen points.

Mrs. J. Leslie is visiting friends in Enderby for a short time, the guest of Mr. and Mrs. J. C. English.

Ira C. Jones is at present engaged in building a residence and barn for J. Bell, of Mara.

R. R. Burns, of Armstrong, accompanied by Mrs. Burns and little daughter, passed through on Saturday on their way to the coast. Mr. Burns will attend the Pharmaceutical conference while there.

J. Johnson, of Salmon Arm was in town on Saturday. Mr. Johnson reports that he has placed a large number of Aylmer pumps, and says that each one has given the greatest satisfaction.

Mr. Carr, of St. John, N. B., passed through on Saturday on his way home. Mr. Carr has been making a tour of inspection of the whole of western Canada, and had to include in his itinerary, the famous Okanagan Valley, if only to visit old eastern acquaintances in Messrs. J. and R. Mowat, of the Rothesay Lumber Co. Mr. Carr expressed himself as being very favorably impressed with the appearance of this district and of the whole valley, and especially with our climate. He thought that there was a great future before it as a fruit producing country considering our almost unlimited market of the prairie country.

Many persons who have occasion to use the Mara road are complaining about its dangerous condition and say that it is time the government made some repairs to it.

A sad drowning accident occurred at Salmon Arm on Tuesday last week, when D. Mantel, an employee of the stone quarry there, lost his life. The deceased was engaged in making a trial trip of a boat which he had constructed, when it overturned and precipitated him into the lake. He was not seen after the boat capsized and though efforts have been made, the body has not yet been recovered.

W. Huppel, accompanied by Mrs. Huppel and daughter, arrived in Enderby on Tuesday to make a visit to his brother Mike Huppel, of Mabel Lake. Mr. Huppel is an acrobat of wide repute, and has lately performed in several of the Sound cities, and in Victoria and Vancouver. But for the San Francisco disaster, Mr. Huppel would be fulfilling an engagement in the stricken city, and on account of it, he is out of engagement for a short period. It has been suggested if suitable arrangements could be made, that Mr. Huppel give a performance in Enderby.

The Aylmer Double Acting Force Pump

Will pump double the amount of water with one-half the power of any other. Its capacity is: No. 2, 1000; No. 3, 1500; No. 4, 2000 gals. per hour.

If you want the best 20th-century, up-to-date pump in the world you will find it in the AYLMER. Give it a trial: it never fails to please; it will convince you of its superiority if you will only give it a chance. We want to say further: If you order one of these pumps you can test it before paying for it. If not satisfactory we will remove it at our own expense. We have made this proposition for years and never had a pump come back. Address—

J. Johnson Salmon Arm, B.C. (Box 644)
