SUPPLEMENT TO

The Enderby Progress

FRIDAY, JULY 27, 1906

LOCAL NOTES.

Miss McGregor, who has been visiting at Mrs. J. E. Crane's, left on Monday for her home in Victoria.

The services of H. McDonald, who has been principal of the public school here for some months, have been retained by the school trustees at an enhanced salary.

A. Fulton has secured the contract for the plumbing and heating work of C. Hardy's new house at Armstrong.

At the recent election of the Reeve and Councillors held in the municipality of Salmon Arm, J. W. McCallum was elected Reeve, and F. B. Shaw, J. Johnston and C. S. Edwards councillors.

Friends of Mrs. E. C. Simmons will be sorry to learn that she had a sunstroke at Okanagan lake last Sunday. We are happy to report that she is rapidly recovering from its effects.

Every dealer ought to have good stationery. By good is not meant extravagant, for good stationery costs little more than the kind that is a discredit to the dealer. The PROGRESS turns out the good kind.

We are in receipt of the premium list of the Provincial Exhibition which will be held at New Westminster under the the auspices of the Royal Agricultural and Industrial Society, on October 2nd, 3rd, 4th, 5th, and 6th. Entries close on September 19. $50,000 is offered in prizes and attraction.

The finals in the men's singles was played Wednesday afternoon between Congreve and D. Nairn. The result being a win for Nairn of three straight sets. Some very fast play was indulged in and the enthusiastic spectators were not dissappointed, the game being a good exhibition of tennis.—Mail-Herald.

The manufacturers of gloves say they make a No. 6 woman's glove larger than they did five years ago. Women have become more athletic and thin hands have grown larger but they insist on wearing the same size of gloves.

Don't forget to record your vote on the Waterworks By-law on Tuesday next.

Messrs. Robinson Bros. are erecting a house on the four acres of land which they recently acquired from F. H. Barnes. We understand that it is the intention of the new owners to engage in market gardening.

The members of the Enderby lacrosse team journeyed to Armstrong on Wednesday night, and played a game with the Armstrongites. Victory rested with the latter by a score of 12 to 0. We hope that our boys will not be discouraged at losing a game in such a manner, but that they will be spurred on to harder practice. Considering that Armstrong has been playing the game for a whole season, our boys show commendable pertinacity now in thus going up against so much stronger an aggregation.

W. Tomkinson brought into the PROGRESS office on Wednesday morning some samples of wheat and timothy heads which were truly wonderful to behold. The wheat, which was Jones' Fife and Velvet Chaff, had heads fully seven inches in length, on which was an average of from eight to sixteen grains per row. The timothy was six feet four inches in height, and the heads measured up to nine inches in length. The farm upon which this was grown is offered for sale, particulars of which may be seen in our advertising columns.

SOIL EXPERT COMING.

Professor Shutt, chemist, Central Experimental Farm, Ottawa, and J. R. Anderson, Deputy Minister of Agriculture, at Ottawa, will drive to Armstrong from Vernon on Monday, August 13th, and possibly on to Enderby, thence proceeding to Sicamous by the evening train. Professor Shutt's visit is principally for the purpose of studying the soil and kindred conditions, giving advice on such matters as come within the provisions of his Department, and to address any meetings that may be arranged, on soil conditions in reference to the successful growing of crops. Since they will not be able to spend the night in the district, an evening meeting is out of the question, but if it is desired, they will be pleased to attend an afternoon meeting, but it is expected that Professor Shutt will be allowed to give all his time to a general inspection of the valley. The visit will afford a good opportunity to obtain an expert opinion (not an analysis) on soils and water, and it is therefore desirable that the date of the Professor's visit be borne in mind, and that samples be submitted for inspection. Further particulars will be announced later, if a meeting is to be held.

WHEN IN ENDERBY

..STOP AT..

THE KING EDWARD HOTEL

THE LEADING HOSTELRY OF THE OKANAGAN VALLEY

Visitors to the northern part of the Okanagan Valley, whether land hunting, or for pleasure and sport, can do no better than make this house their headquarters. Table and cuisine unexcelled. Bar replete with finest wines, spirits, liqueurs, cigars

Ladies!
Batchelors!!
and EVERYBODY using
MAPLE SYRUP
Don't YOU wish you could make your own?
YOU CAN NOW!

Next week--next Friday and Saturday--we will have a Lady right here in our Store to show You how to make MAPLE SYRUP in your OWN HOME

COME IN and SEE IT DONE. IT COSTS YOU NOTHING
We will give you a Free Sample and YOU can go back home and DO IT
Come and see what MAPLEINE will do for You

With "MAPLEINE" You can make

Three Kinds of ICE CREAM
"MAPLEINE" Fudge "MAPLEINE" Pinoche "MAPLEINE" Parfait
"MAPLEINE" Pudding "MAPLEINE" Sauce for Puddings
"MAPLEINE" Cream Sauce "MAPLEINE" Cake "MAPLEINE" Jelly
"MAPLEINE" Biscuits "MAPLEINE" Marguerites Filling for Cakes
"MAPLEINE" Caramel Pudding "MAPLEINE" Caramel Custard
"MAPLEINE" Sundaes "MAPLEINE" Bisque "MAPLEINE" Pumpkin Pie
"MAPLEINE" Frosting or Icing

You can do all this for 50cts. IS IT WORTH IT?
You can see it done for nothing IS THAT CHEAP ENOUGH?
Don't forget the date--Friday and Saturday next week, August 3 and 4

HARVEY & DOBSON
GENERAL MERCHANTS - ENDERBY, B. C.

WATERWORKS.

A very important change in the proposed waterworks system has been decided upon by the City Council.

It has been deemed necessary to abandon Hassard's creek as a source of supply, and, instead, to draw water from Brash's creek. The reason for this change is that the smallness of the volume of water which is running in Hassard's creek at the present time has given rise to serious doubts as to its reliability. This change, as will be seen by our report, was decided upon at last Saturday's meeting. But since then another most important reason has presented itself; this is the receipt, by the City Clerk, of the report of an analysis of the water, wherein it is condemned by the Provincial Board of Health as being unfit for domestic use. This precludes all further controversy as to the wisdom of the Council's decision to abandon Hassard's creek.

The creek from which it is now proposed to draw water, is situated, as our readers well know, due east of the town, about four and one-half miles. As to the reliability of this stream there can be no doubt. We, in company with three members of the Council, inspected Brash's creek on Thursday last week. We found running a large volume of water, which was estimated at about 100 miner's inches. Such a volume flowing at the present time of year, proves, as far as it is possible to judge, that this creek will furnish the town with all the water that is needed, the year round. At the point where it is proposed to tap the stream there is an excellent site for a dam. The creek here emerges from a canyon, and by building the dam across its mouth, a reservoir of enormous capacity can be obtained.

It is worthy of note that the amount of water available in this district need not be measured only by that afforded by Brash's creek. Another, called Ashton's creek, having its source in the same watershed, runs parallel with it, about a mile and a quarter further east; and we understand, that, in case of necessity, it would be no great or expensive price of engineering to augment, from this source, the supply obtainable from Brash's creek.

We are convinced that the substitution of Brash's creek for Hassard's creek will be viewed by our voters with much satisfaction, and that the certainty of a reliable source of supply will ensure for the Waterworks By-law their undivided support at the poll on Tuesday next.

Will Oppose City's Action.

Messrs. Harvey & Dobson will oppose the registering of a street between their store buildings and the river bank, and have instructed their solicitors, Messrs. Davis, Marshall & McNeil, to act for them in this matter.

LOCAL NOTES.

There will be Choral Evensong at S. George's Church on Sunday next at 7.30 p.m. Sunday School as usual, at 10 a.m.

Mrs. J. Morrison, of Kelowna, passed through on this morning's train, returning from a short visit to main line points.

R. Race returned this morning from Three Valley.

We issue a supplement this week. This is made necessary on account of Messrs. Harvey & Dobson's demand on our space. Read their big ad. on this page, and take advantage of what is offered therein.

Some severe storms have visited us this week, one on Sunday evening and another on Wednesday afternoon. The latter one was marked by a very high wind. The heat is not so intense as heretofore.

We are in receipt, from the provincial Department of Agriculture, of a valuable little pamphlet entitled "Model Farm Buildings," by F. M. Logan, B. S.A. It contains up-to-date plans and descriptions of barns, stables, dairies, etc., and a farmer contemplating building should be able to gather many useful hints from its pages. It will be distributed to members of Farmer's Institutes.

For weeks past the inhabitants of Yorkton have been in a state of shame by the nightly marchings of Doukhobors. In semi-nude condition they took entire possession of the streets, yelling and singing. The leaders were arrested.

CIVIC BUSINESS

The City Council met in special session on Saturday evening. All the members were present.

Some considerable time was taken up by a discussion of the dispute between the city and Messrs. Harvey & Dobson as to the ownership of the roadway between their store and the river bank. After long discussion, it was decided that Messrs. Harvey & Dobson be informed that it was the intention of the Council to register a street from a point four feet from the south-east corner of their store, following the contour of their store and warehouses to Mill street, the width of said street to be from such line to the river bank.

Another motion which was adopted was that Mr. Basil Gardom be, and he is hereby, appointed Constable, Sanitary Inspector and Fire Inspector to the Corporation, at a salary of $15.00 per month, such appointment to date from last month. At the same time the Clerk was instructed to enclose with the notice of his appointment the following letter:

Basil Gardom, Esq.,
Dear Mr. Gardom,

In handing you the enclosed copy of a resolution passed by the Council at our last meeting, I wish to express our appreciation of the thorough and impartial manner in which you have always performed the duties of your office, and to convey to you, on the occasion of your marriage, our unanimous congratulations and best wishes for your happiness and welfare. Believe me,

Yours very truly,
GEO. BELL, Mayor.

The subject, for which the meeting was called was next to claim attention. It was considered advisable to abandon Hassard's creek, and, instead, go to Brash's creek as a source of supply for a waterworks system for Enderby. It was decided to place a record on this creek for 100 miner's inches, and Mr. Burnet be instructed to take levels for the pipe line and prepare plans and specifications.

M. Carlin, of Kault, was in town today.

Dr. Tolmie was in town on Thursday. A number of horses were inspected, but none tested. From what can be gathered testing for glanders is likely to be shortly resumed.

1/2 ct per Drink

A barrel of Lime Juice on Tap. 20c per pint, 75c per gallon, 35c per large bottle.

Use it in the harvest field. Use it on the table

This lime juice is freshly imported and is of extra strength and purity. It is excelled by none. A dessert spoonful to a glass of water makes a most refreshing drink. For sale at

Notes and Comments

For some considerable time the Phoenix Pioneer and several Alberta papers have been carrying on a campaign looking to improvements in the postal service. It seems that wherever we may happen to be, the same complaint is to be heard about the Canadian postal service. We have had a little experience with it, and though heretofore no mention of it has been made, yet, considering the number of complaints we are continually receiving re the non-delivery or late arrival of the PROGRESS to our subscribers, in defence of ourselves we must add our "kick." One instance has just lately came very forcibly under our notice. The PROGRESS, which is put into the mail here on Friday afternoon, invariably does not reach Edmonton, Alberta, till Thursday and Friday of the week following. Again, two subscribers, one at Calgary, Alberta, and another at Claremont, Ontario, write complaining of the persistant non-arrival of their papers. Both of these subscribers have private boxes, too; and so we could go on, if we chose, compiling a long list of similar experiences. "Where is the leak?" we would like to ask, "and is it going to be stopped?"

"You must advertise"—with considerable accent on the 'must' "—is a common adjuration to business men. The expression is too strong. "Must" is not the word. "You should anvertise" is better. No man is obliged to advertise. He can do the other thing—which is usually nothing—if he prefers. He can go along, not ahead, striving to hold the trade he already has and to catch such business as happens to come in his direction. He may be content to do just that; he may prefer to take it easy and to avoid the arduous work demanded of those who advertise and make their advertising pay. He may not care to increase the volume of his business, being satisfied with what he has and unwilling to assume the responsibility attendant upon the management of large affairs. To such a man it is idle to say, "You must advertise." But to the progressive, alert, ambitious and far-seeing merchant, advertising is indeed the breath of life. It is part of "the game," and a most fascinating part. The true advertiser finds in it all the enjoyment which the hunter or angler derives from his favorite pastime. To him it opens up new possibilities, new fields of endeavor, and new outlets for his activity. And it is also foolish to say to him, "You must advertise." As well say to a sportsman, "You must hunt," or to an angler, "You must fish."—Advertising World.

THE IDEAL CITY OFFICE.

By the City Clerk.

The official abode of a City Council is not a place ordinarily associated in the imagination of the public with ideal circumstances of any kind. The usual idea of a Municipal office is that it is a place where taxes and other vexatious impositions have to be paid, and consequently a place which repels rather than attracts.

On deeper consideration, however, it is seen that the City Hall, being the seat of self-government of a free people, should, in reality, constitute headquarters for the whole community; irrespective of party or creed, it should be a centre of all civic and district interests.

The City Hall should contain, not only dry details of revenue and expenditure, but should be a treasure-house of local and general information of every kind; here should be found reliable maps and plans shewing all City streets and lanes, and the roads trails, streams—in fact, every geographical feature of the surrounding country; geographical charts, properly-named samples of minerals, preserved specimens of the flora and fauna of the district, meteorological records, files of the local newspapers, registers of cattle and horse-brands, lists of persons seeking employment or employees, encyclopedias and other books of reference, together with a collection of well-selected standard books—no cheap trash—covering the various fields of literature. In fact, it should be the centre and home of everything calculated to be of use, and to enhance the welfare of the community. It should be a point from which should radiate knowledge and enlightenment, and good influences of every kind.

It would not require very much money to carry out these plans; the chief requisite is *to have the right ideas*. Some money it would require, however; and for that reason, and on account of the instability of voluntary organizations, such an institution as I have portrayed could only be successfully and permanently maintained by the City government.

I may say that for years—long before the incorporation of the City—I cherished the idea of such a municipal institution, and I have, from time to time, spoken of it to various people, and have always hoped that the time would come when I could assist in its realization.

But our City has only enjoyed the privilege of self-government for a short time as yet; it has, so far, been obliged to give its attention to laying the foundation, as it were, of the corporate structure; and the time has not been opportune to bring forward such suggestions as are given above.

I have been induced to write these lines at the present time, however, because, through the well-meant but inconsiderate action of some of my friends and fellow-workers for the public weal, I have been made to appear, in connection with this matter, in a false light; and the hurts that are inflicted by our friends are the worst of hurts. The rest, most of us are stoical enough to take in silence.

Communications.

The Editor does not hold himself responsible for opinions expressed under this heading.

Enderby, July 23, 1906.

Editor PROGRESS.

Sir, Your correspondent in last issue, signing himself "Rising Gorge," is in a bad way. He should do something for a complaint like that. Let him take an emetic, bring the thing right up and then lose it, if nobody else finds it that will be the end of it. Poor old "R. G." has evidently found a mare's nest. I don't believe the poor old dear has ever been near the river, for, if he had, he would have observed that the current from Mill Street runs towards the sawmill, in fact if he threw a stick in it would travel towards the bridge and under it, and this would be sufficient to convince him that his favorite beverage is still drinkable; of course, there are four sweat-boxes within a mile of the intake pipe, and fifteen or twenty Indian women and children who bathe several times daily just above the bridge, but of these he does not complain, being apparently only anxious that the swimming of clean white men should be sacrificed on the altar of his gymnastic anatomy.

Yours truly
W. ALLAN DOBSON.

Editor PROGRESS.

Dear Sir, I read with interest "Rising Gorge's" letter re the pollution of the river. But, I would like to ask you if something cannot be done to prevent the dumping of all kinds of refuse into the river both by white men and by the Indians. We poor ranchers who live down the river have to get all our water from the Spallumcheen, and many a time have to swish the water to remove the scum of oil, sawdust, etc., which accumulates on its surface. Water, intermixed with oil, screenings and sawdust, served up on our table, is no more palatable than bath water.

I am yours truly
A RANCHER.

Enderby, B. C

WRECK NEAR NELSON.

Nelson, July 21.—The Great Northern express running north from Northport to this city about 5 p.m. crashed through a bridge at Beaver Canyon, about six miles north of Waneta, at at the international boundary. The known dead are; Judge W. B. Townsend, formerly of Rossland, right-of-way agent for the Great Northern Railway, residing in this city with his wife and son-in-law; K. B. Smith, Kaslo, bar proprietor on the steamer Kaslo; and M D. McKinnon, purser on the steamer Kaslo. Seven others are reported more or less seriously injured. A special train was sent from Rossland with doctors and nurses, and the whole party arrived here at about 2 a. m. Sunday.

SUICIDE AT CHILLIWACK.

Miss Olive Robinson, the sixteen-year-old daughter of Mr. J. Robinson, of Chilliwack, committed suclide on Sunday afternoon by taking laudanum. She was discovered unconscious and Dr. Henderson, who was called in, managed, after two hours' hard work, to restore her to consciousness, but shortly after she expired. No reason can be rscribed for the little girl wishing to take her life.

SHIPPING DISASTER AT THE COAST.

The steamer Princess Victoria was in collision off Brockton Point at 2 p.m., on Saturday with the steamer Chehalis of the Union Steamship Company, and nine persons were drowned as a result of the sinking of the latter vessel. Six were saved. The Princess Victoria was uninjured. As far as can be learned, the tide had much to do with swinging the tug in the path of the steamer. Capt. T. O. Griffin, of the Princess Victoria, has been arrested.

MILLIONAIRE DIES.

Russel Sage, the best known figure on Wall Street for many years, died at Rockaway on Sunday. The fortune which he leaves is estimated to be between $75,000,000 and $100,000,000.

PRESTON GETS GOOD POST

Ottawa, July 21.—It is understood that W. T. R. Preston, Canada's commissioner of immigration in Europe, has been offered and has accepted a position with the Department of Trade and Commerce, and will go as trade commissioner to China, Korea and Japan. In addition to working up trade between these countries and Canada, Mr. Preston will endeavor to secure better trade relations with China and Korea.

FIRE AT GRAND FORKS.

The largest fire ever experienced in Grand Forks occurred at 1 o'clock this morning. The big furniture store of J. W. Jones, valued at $30,000, a printing office by F. H. McCarter valued at $500 and three small dwellings belonging to Charles Knapp, valued at $500, were totally destroyed. It is reported that Jones' furniture stock was covered by some $15,000 insurance principally in board companies. Mr. Jones is at present in the Similkameen district.

PROOF POSITIVE.

Dog Tag 13506, Chicago-R. F. C., was found in a can of beef opened and partly consumed at Roxbury, Va., says a Chicago paper, a few days ago. The reporters are now hunting for the dog that owned the tag, or rather, are tracing up the owner. As the same numbers are issued every year and the shape of the particular tag is not known the exact year at present cannot be stated that the tag was given out. So far, three dogs that had the number have been located still alive. A fourth, however, is reported missing. Canned meat is a drug on the market at Roxbury, Va., just at present.

Devastating floods are reported from Japan. The Korfu district is converted into a huge lake.

BRUTAL MURDER NEAR NANAIMO.

Nanaimo, B. C., July 21.—The murdered body of Mary J. Dalton, daughter of John Dalton, of South Wellington, was found this afternoon, and Featherstone, a sawyer at the Wellington mill has been arrested, charged with the murder. Dalton found the body of his daughter lying on her back, her fair hair in a pool of her blood, and the mark of a revolver bullet on her forehead. Featherstone was found lying on a bed sleeping off a drunken stupor with a blanket thrown over him The accused man was not acquainted with the murdered girl. Mary Jane Dalton, the murdered girl, since the death of her mother, nearly four years ago, has kept house for her father. She was always a good girl, and held in the highest regard throughout the whole community. In less than a month she was to have married a Vancouver man, and was preparing her trousseau.

News From Near & Far

A fire in Dundee, Scotland, destroyed $1,200,000 worth of whiskey.

Fire at Yokohama on July 20th destroyed 1000 Japanese houses.

A treaty of peace between Guatamala, Salvador and Honduras has been signed on board U. S. S. Marblehead, on the high seas.

Bids were opened at the U. S. Treasury on Saturday for $30,000,000 of Panama Canal Bonds. The entire issue has been subscribed at an average price of from 103.94 up to 103.96.

The executors of the will of Alfred Beit, the South African millionaire, have gave out a statement to the public of the bequests. They total up to $12,500,000 and include many grants to educational institutions.

Austin Chamberlain, son of Joe Chamberlain, was married to Miss Ivy Nuda on Saturday last. Presents from the King and Queen and Prince and Princess of Wales were among the many.

St. Petersburg, July 21.—The action of the Duma in adopting its address to the country on the agrarian question has aroused a feeling of apprehension here. The resolution is generally taken as a challenge to the autocracy. Troops have been pouring into the city all day to reinforce the garrison.

Lady Curzon, of Kedleston, wife of the former Viceroy of India, who had been ill for some days, died at 5.40 on Wednesday evening. She never quite recovered from he serious illness at Walmer Castle, Kent, in 1904, and the recent hot weather brought on a pronounced attack of general debility. Lady Curzon was Miss Mary Leiter, daughter of the late Levi Z. Leiter, of Chicago. She was in her own right the possessor of $3,000,000.

Russia's first experiment in parliamentary government came to an ignominous end on Saturday, when the promulgation of two Imperial Ukases, the first dissolving the present parliament and providing for the convocation of its successor on March 5th, 1907, more than six months hence; and the second proclaiming the capital of Russia and the surrounding provinces to be in a state of extraordinary security, which is only infinitesmally different from martial law. It is meant to provide for the outbursts which will undoubtedly be provoked by this measure.

Victoria, July 21.—Lieutenant-Governor Hon. James Dunsmuir has won in the final round in the suit brought against him by Edna Wallace Hopper for a share of the Dunsmuir millions. His Honor at Victoria today received a cable from Mr E. P. Davis, K. C. his council, that the Privy Council in London had dismissed the appeal brought by Miss Hopper. Mr. Davis was not called upon to present his argument in the case. The decision given removes the last chance for Edna Wallace Hopper to obtain possession of Alex. Dunsmuir's share of the family's millions.

The V. V. & E. is expected to be operating freight and passenger trains to Oroville by October 1st, says the Similkameen Star. Steel will reach that point about September 1st, and ballasting will require a month to complete. About ten miles of track have been laid west of Midway, leaving about fifty miles to lay to Oroville. From Oroville to Keremeos there will be nothing in the way to retard tracklaying, to which latter point steel will be laid by October 1st, and a month later regular passenger and freight services are expected to be established. The building of camps and clearing right of way between Keremeos and Princeton will begin shortly, but little or no grading will be done until the rails are at Oroville.

All Germany is discussing the bold personal attack upon the Kaiser published in the National Mietung. This grilling of the Emperor is all the more remarkable because the journal was commonly regarded as the mouthpiece of the government. The article charges that the Emperor is losing touch with the people and surrounding himself with fawning courtiers. "They," (the courtiers,) it says, "keep him miserably misinformed as to the real state of public opinion."

When John D. Rockefeller lands at New York on his return from Europe Sheriff Graves will try to arrest him on a charge of being head of the Standard Oil Trust, which has criminally violated the laws of the State of Ohio.

Robert Inches, carpenter, was swept to death of the top of a shaft house at Rossland on Saturday and fell ninety feet to the ground. He fell on his face which was crushed beyond recognition. R. Inches was a brother of David Inches, C.P.R. locomotive foreman at North Bend.

Murderer Thaw's mother has taken charge of his case and has retained the eminent lawyers whom her son dismissed. Specialists Saturday reported Thaw insane and friends of White will unite with Mrs. Thaw in an endeavor to settle the case without trial. Thaw and his actress-wife are fighting against this action.

The Paris Council of the Legion of Honor has refused to grant its permission for Sarah Bernhardt to be decorated.

Get a New Fence

The best fence is the
MANITOBA FROST WIRE FENCE

It is made wholly of heavy hard steel wire. Has all advantages of the woven fences, but surpasses them in appearance, strength, durability and economy. Sole Agent for Okanagan,

K. BAILEY

CITY OF ENDERBY

NOTICE TO CONTRACTORS:

Sealed tenders, marked "Waterworks," will be received by the undersigned up to 6 p.m. on August 1st, 1906, either for the installation, complete, of a system of waterworks for the City of Enderby, or for the materials required for such installation.

Plans and specifications may be seen at the City Office, Enderby. The lowest, or any tender, will not necessarily be accepted.

GRAHAM ROSOMAN,
City Clerk.

CITY OF ENDERBY

Voting on Proposed Waterworks Loan By-Law: Public Notice is hereby given to the Electors of the Municipality of the City of Enderby, that I require the presence of the said Electors at the Court House, Enderby, on Tuesday the 31st day of July, 1906, between the hours of 9 a.m. and 7 p.m., for the purpose of recording their votes, either to confirm or to negative a certain proposed By-law, to wit:

A By-law for raising the sum of $18,000.00, to provide for the construction of a waterworks system in the City of Enderby.

Any person, male or female, being a British subject, and the assessed owner of land or real property within the Municipality, is entitled to vote on such proposed By-law.

Given under my hand this 20th day of July, 1906.

GRAHAM ROSOMAN,
Returning Officer.

CITY OF ENDERBY

LOAN BY-LAW No. 1

A By-law for raising the sum of $18,000.00 to provide for the construction of a waterworks system for the City of Enderby

WHEREAS it is deemed expedient to construct a waterworks system within the City of Enderby to provide a supply of water for ordinary household and fire protection purposes, and in order to do so it is necessary to raise by way of loan upon the credit of the said City the sum of $18,000.00, payable on the first day of August 1936, bearing interest in the meantime payable half-yearly at the rate of five per cent. per annum, the principal of such sum when raised to be applied for the purposes aforesaid;

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sam of $1170.92 by rate in each and every year;

AND WHEREAS the whole rateable property of the City of Enderby, according to the last revised assessment roll is $172,516.90;

AND WHEREAS there is no existing debenture debt due or owing by the City of Enderby;

NOW THEREFORE the Mayor and Council of the City of Enderby, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Mayor of the City of Enderby to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said City by way of the debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of $18,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said City, for the purposes and with the objects hereinbefore recited;

2. It shall be lawful for the said Mayor to cause any number of debentures to be made for the sum of not less than $1,000.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of $18,000.00, and all such debentures shall be sealed with the seal of the City of Enderby, signed by the Mayor and countersigned by the Treasurer of the said City;

3. The said debentures shall bear date the first day of August, and shall be made payable in thirty years from the date hereinafter named for this By-law to take effect, at the Bank of Montreal, in the City of Enderby;

4. The said debentures shall have coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said debentures and such interest shall be payable half-yearly on the first days of February and August in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed;

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the City, sufficient to pay interest on the debt hereby created, during the currency of the said debentures, and to provide for the payment of the said debt when due;

6. The sum of $900.00 shall be raised and levied annually by a rate on all the rateable property in the City of Enderby, in addition to all other rates, for the payment of the interest on the said debentures;

7. The sum of $320.94 shall be raised and levied annually by a rate on all the rateable property in the said City of Enderby, in addition to all other rates, for the payment of the debt hereby created when due;

8. It shall be lawful for the said City of Enderby from time to time to repurchase any of the said debentures at such price or prices as may be mutually agreed upon, and all debentures so repurchased shall forthwith be cancelled and no re-issue of any debenture or debentures shall be made in consequence of such repurchase;

9. This By-law shall, before the final passage thereof, receive the assent of the electors of the said City of Enderby in the manner provided for by the Municipal Clauses Act, 1896, and Amending Acts;

10. This By-law shall come into force and take effect on the first day of August, 1906;

11. This By-law may be cited for all purposes as "The City of Enderby Waterworks Loan By-law, 1906."

TAKE NOTICE that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Court House, Enderby, on Tuesday, the 31st day of July, 1906, between the hours of 9 a.m. and 7 p.m.

GRAHAM ROSOMAN,
Clerk to the Municipal Council.

Synopsis of
Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section 160 acres or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

TOWN & DISTRICT . NOTES .

W. Elson was a business visitor to Vernon on Friday.

Mrs. J. W. Evans and son, Ernie, returned on Friday from Tappen.

J. H. McVeigh returned on Friday from a short holiday spent at the coast, visiting at Mrs. McVeigh's home. Mrs. McVeigh will visit there for some time longer.

A. Shields returned from the coast on Tuesday.

Mrs. Burnyeat, of Moncton, N. B., is visiting her brother Mr. A. E. Taylor, manager of the local branch of the Bank of Montreal and is stopping at Mr. and Mrs. Taylor's camp along the river, just south of town.

Harvesting has already commenced in some places, the ripening grain being cut on several farms out at Hullcar and Deep Creek.

Mr. Waddell, Mr. Russell and Miss Russell left on Saturday for Wharnock, where they will visit Mr. Russell's son and daughter there for a short time.

Mr. Bush, of Vancouver, was a passenger on Saturday's train en route for Field. Mr. Bush is an ardent naturalist, and been spending a few days at Vernon securing specimens of butterflies, in which quest he was very successful.

This district has long been noted for its success in the production of garden vegetables and the gardens to be seen here at this time of the year are freely remarked upon by visitors from east of Rockies. Vegetables of all kinds have been shipping through the Farmer's Exchange for several weeks now, and no doubt, many tables in the prairie provinces are being supplied with vegetables grown in the Spallumcheen weeks before the home product begins to be fit for use.—Advance.

By notice on the walls of the local post-office, we see that the Provincial Government is calling for tenders for the erection of a school building for the recently formed school district of North Enderby. Such methods of calling for tenders is antediluvian, besides being inadequate. It is also a poor compliment to the local newspaper to thus ignore its advertising columns, for when a town becomes large enough to warrant the publication of an advertising medium, everybody, from the government, downward, should use its columns, and not adorn the walls of local post-offices with notices, which, half of the time, are not read.

We understand that Dr. R. I. Bentley has decided to locate in Port Moody.

Lee Patten, son of Mr. Patten, of near Armstrong, passed through on Saturday, returning from College to spend his vacation at home.

The PROGRESS gives its subscribers fourteen feet of reading matter every week. Don't believe it! Tot it up, and see.

Mrs. C. F. Collins left on Thursday last week on a visit to friends at Michel, B. C.

C. Hardy, of Armstrong, passed through on Tuesday afternoon on his way to Ontario, having received the distressing news of the death of his father and the serious illness of his mother.

Mayor Bell came in from the Tappen Siding camp on Saturday to attend the special meeting of the City Council held on Saturday night. He returned on Monday afternoon. During his absence F. Ryman was in charge!

Premier McBride and party were accorded an excellent reception at Hazleton last week. During their visit the first county court to be held there, was formally opened.

Good work was done by the Alpine Club of Canada, on the occasion of their first annual camp in the Rockies. Thirty nine young Canadians qualified for active membership during the five days official ascent. Next year's camp will be in Paradise Valley.

If your business is suffering from that tired feeling so common when your bank account is suffering from the chills caused by an overdraft, try a liberal dose of printer's ink. The brand sold at this office will make even a dead townsite sit up in a few days and reach for the oxtail soup. It is a great reviver.—Greenwood Ledge.

F. N. Daniels, of Armstrong, passed through on Saturday on his way to Seymour Arm, to do assessment work on his claims in the Cottonbelt Group. A discovery of copper has been made by Salmon Arm men within half a mile of the claims Mr. Daniels is interested in, which promises to prove a big thing. The ore consists of grey copper and pyrites, and assays sixteen per cent copper and twelve dollars in gold. Mr. Daniels will also do some prospecting while there, besides shipping out galena from his own claims. He was taking in eight pack ponies for that purpose, as now that the government have built a trail, the ore can be got to the water's edge without undue trouble. Two tons are ready for shipment.

While out last week at Brash's creek, a large black bear was seen by the party of citizens who were inspecting the possibilities of the creek as a source of water supply for the city.

Friends of Rev. and Mrs. Venables will be pleased to learn that their little son is progressing nicely towards recovery after his dangerous illness and operation.

For the life of us we cannot see why our citizens should rush off pell mell to a summer camp many miles away, to reach which, one has to endure many hard hours' work packing belongings from the railway track to the site of the camp, when we have just as good camping sites within walking distance of the town. We know, and so most all of our citizens, of many beautiful spots, just ideally suited for a camp. Why not be loyal to our own district, and if we want to camp, choose one of the many places offering within a short distance of the city. After a visit has been paid to Tappen Siding one seems to think that the old saying, "Distance lends enchantment," is the only advantage that can be claimed for it over our own Spallumcheen shores.

One day last week we paid a visit to the reading room which has been lately opened by the local branch of the W. C. T. U. The room which the ladies have rented, is conveniently situated between J. W. Evan's harness shop and Dr. Verner's office, and was found to be very clean and tidy, comfortably appointed and well lighted. On the tables were to be seen every magazine imaginable, besides a number of publications of deeper and more solid reading. Many comfortable chairs abound, which invite all who pass, having idle time on their hands, to enter and pass an hour or two in profitable or recreative reading. It is apparent that the ladies of Enderby have spared no pains to give as good a reading room as their limited funds would allow, and we hope that generous support will be forthcoming to them to enable the work which they are seeking to do to be carried on.

Farm for Sale.

160 acres of land for sale, situate six miles from town, along the Salmon Arm road; forty-five acres is excellent bottom land, unsurpassed for the production of immense crops of hay, grain or vegetables; balance easily cleared. New house, (32x32) and good barn on the property. Apply to Progress office, or
