Ladies! Batchelors!!

and EVERYBODY using

MAPLE SYRUP

Don't YOU wish you could make your own?

YOU CAN NOW!

TO-DAY (Friday) & TO-MORROW we will have a Lady right here in our Store to show You how to make MAPLE SYRUP in your OWN HOME

COME IN and SEE IT DONE. IT COSTS YOU NOTHING We will give you a Free Sample and YOU can go back home and DO IT

Come and see what MAPLEINE will do for You

With "MAPLEINE" You can make

Three Kinds of ICE CREAM

"MAPLEINE" Fudge "MAPLEINE" Pinoche "MAPLEINE" Parfait
"MAPLEINE" Pudding "MAPLEINE" Sauce for Puddings
"MAPLEINE" Cream Sauce "MAPLEINE" Cake "MAPLEINE" Jelly
"MAPLEINE" Biscuits "MAPLEINE" Marguerites Filling for Cakes
"MAPLEINE" Caramel Pudding "MAPLEINE" Caramel Custard
"MAPLEINE" Sundaes "MAPLEINE" Bisque "MAPLEINE" Pumpkin Pie
"MAPLEINE" Frosting or Icing

You can do all this for 50cts. IS IT WORTH IT?
You can see it done for nothing IS THAT CHEAP ENOUGH?
Don't forget the date--Friday and Saturday THIS week, August 3 and 4

HARVEY @ DOBSON

GENERAL MERCHANTS - ENDERBY, B. C.

LOCAL NOTES.

The Ladies of S. George's Guild will give an ice cream social on Friday afternoon and evening next week.

Mrs. H. W. Harvey and children returned on Thursday from an extended visit to friends at Victoria.

W. Hancock brought into the PROGRESS office on Tuesday some fine specimens of cucumbers, which measured from seven and one-half to ten inches in length. They were grown on Mr. Hancock's ranch, about a mile and a half north of town on the Mara road.

We would respectfully suggest to the Editor of the Week that he hang a list of the Okanagan papers over his desk within easy reach of his optics, for at times he makes some hopeless tangles out of the names of the Armstrong and Enderby papers! For, in his issue of July 28th, he has a quotation from the Enderby "Advance." Forsooth!

The Spallumcheen Farmers' Institute have ordered a second car of stumping powder, which will be on hand in about two weeks from date. It can be had from the secretary, J. B. Bird, Armstrong, and the price will be $6.50 per case, to members of the Institute.

While it is no trouble to locate one of the citizens who polled a "nay" on Tuesday, some great speculations have been rife as to the owner of the other. Nearly every voter in town has at one period of the game, had it tacked on to him or her; but the great unknown remains undiscovered. However, "Baldy" Wright says that it would seem that concensus of opinion leans towards the idea that the name of George Bell should be coupled with that of W. A. Dobson as the owners of the two "nay" votes! If his deduction is not correct, he hopes that the rightful owner will come forward, and save a fair reputation.

Today is Mapleine day. See Harvey & Dobson about it.

The regular meeting of St. Andrew's Ladies' aid will be held at the home of Mrs. Moffet, on Wednesday, August 8th, at 7 p.m.

There will be choral evensong at S. George's Church on Sunday next at 7.30 p.m. Sunday school as usual at 10 a.m.

The BY-LAW PASSES

The bylaw authorizing the borrowing of $18,000 to provide for the installation of a waterworks system was carried by an overwhelming majority.

The polling, which took place on Tuesday, was brisk, and that great interest was taken in the question is apparent from the fact that a big vote was polled. At the close of the poll Returning Officer Rosoman was able to announce:

For the Bylaw -	60
Against the Bylaw	2
Majority in favor	58

The passage of the bylaw has given general satisfaction, and all hope that it will be possible to instal the system this year.

W. Bailey, son of Mr. and Mrs. R. Bailey, was married in Kamloops on Wednesday, to Miss M. Cocker, of that place. The ceremony took place at the home of the bride's brother, and there were present besides Mr. and Mrs. Bailey and the groom's brother, R. N. Bailey, a large number of relatives and friends of the contracting parties. The honeymoon will be spent at the coast, and a visit will also be paid to Enderby before Mr and Mrs. Bailey take up housekeeping in Kamloops, where the groom is employed as a brakesman on the C. P. R. His many old friends in Enderby will offer their hearty congratulations and wish both Mr. Bailey and his bride every happiness and all prosperity in the future.

Trade licences are now past due, and a number who have not yet renewed are requested to do so at once.

C. Brookland has disposed of his six acres of land north of the city to D. Forbes, of Revelstoke, for a consideration of $2,000. Mr. Forbes accompanied by Mrs. Forbes and child will be in Enderby in a week's time and take up their residence on the property. Mr. Forbes, had previously visited other sections of the valley before finally deciding to locate in Enderby. Mr. and Mrs. Broobland will leave shortly for New Westminster, where they will remain for a short while, and in all probability will make a trip to New Zealand, to visit relatives resident in that colony.

COUNCIL BUSINESS.

The city council held their usual weekly session on Wednesday evening. All members were present, with the Mayor in the chair.

A letter from Harvey & Dobson was read, which stated that they had instructed their solicitors to oppose the gazetting (!) by the council of a road between their store buildings and the river bank. Filed.

The final adjustment of the boundaries of the city school district having been received, it was considered necessary that a plan of it should be made, showing the names of the owners of the property included in the district, but outside the city limits. On motion it was decided that Major Burnet be instructed to prepare a plan.

The report of the returning officer at the recent polling on the waterworks bylaw was adopted. The bylaw, on motion of Aldermen Bradley and Kenny, was finally passed, and the clerk instructed to affix thereto the seal of the Corporation.

Major Burnet presented a profile of the pipe line route to Brash's creek, and was authorized to prepare plans and specifications, and the clerk was instructed to send such to each of the firms who had expressed a desire to tender on the work.

A team of Enderby lacrosse players journeyed to Kamloops on Tuesday to give battle with the Kamloops team. The game was played on Thursday afternoon before a fair number of spectators, being won by Kamloops by a score of 9-5. The game is said to have been a good exhibition of lacrosse, and that it was characterized by good feeling on both sides, and gentlemanly conduct. The scores made during each quarter were: Kamloops, 2, 3, 2, 2; Enderby, 0, 2, 1, 2. Enderby was represented by R. E. Wheeler, W. Miller, R. Blackburn, W. T. Broderick, R. Hancock, C. Hancock, E. Evans, C. Johnson, A. Wilson W. Duncan, R. Hamill and F. Barnes, and the game was refereed by J. W. Robinson and C. W. Kerr. All the members of the local team speak in highest terms of the way in which the members of the Kamloops team treated them, and thank them for the entertainment received while at the Inland Capital.

1/2 ct per Drink

A barrel of Lime Juice on Tap. 20c per pint, 75c per gallon, 35c per large bottle.

Use it in the harvest field. Use it on the table

This lime juice is freshly imported and is of extra strength and purity. It is excelled by none. A dessert spoonful to a glass of water makes a most refreshing drink. For sale at

Notes and Comments

WATERWORKS

Enderby ratepayers voted for water in no uncertain manner on Tuesday. This is very gratifying to us and to all who are working for the advancement of the town and district, and who have its welfare at heart.

The council, having received such a unanimous and hearty backing in their efforts to provide the city with a water supply, must feel amply repaid for the trouble they have taken over the matter, and should go ahead with renewed vigor with the scheme and rush it through as fast as it can be done. It must be gratifying to them to receive such magnificent endorsation of their efforts from the ratepayers, and should spur them on to further work for the advancement of the community of which they are the government.

The handsome majority for the by-law also shows that all are awakening to to needs of the town. Outside of the installation of the wrterworks, many other improvements have been made, which all go to show what can be done for Enderby. Though the total amount of road work accomplished this year is small, yet it has made a great change for the better in the appearance of the place, and is but an earnest of what the appearance of the town will be in two or three years time if the same intelligent manner in making public improvements is carried out. It is a matter of extreme gratification that such a unanimity of opinion was shown in favor of the waterworks by-law, and we hope that in all matters which may present themselves in the future, concerning the advancement of the city and district, the same one-mindedness will be shown. With such a spirit existing throughout a community, all things are possible.

The vote of the people having placed at the disposal of the council the large sum of $18,000, the whole question is now raised above the region of "if" and "buts," and now it becomes a matter of practical business. As long as it was uncertain whether the by-law would carry, the council certainly was not justified in expending any large amount of money in preliminary investigations. The position is now entirely different, and it behoves the council to justify the confidence which the taxpayers have placed in them, by proceeding with circumspection.

If a matter of law were to be decided we should go to a lawyer; if a question of finance, we should consult a banker, and it is equally necessary, when the installation of a waterworks system is contemplated, to call in a hydraulic engineer to assist.

The employment of a hydraulic engineer of provincial standing, is, we think, the proper course for the council to pursue, and one which would meet with general approval. From the remarks which have been made to us by not a few of our citizens, we are convinced that it is the general wish of the taxpayers that the plans and specifications should be prepared by, or at least submitted for the approval of such an engineer, before being finally passed by the council.

The Toronto News has opened a fund for the erection of a memorial in Gladstone avenue school to the memory of the late Alexander Muir, author of "The Maple Leaf Forever," whose death occurred so suddenly a couple of weeks ago. The cooperation of all Canadians, especially that of school children, is asked. Mayor Coatsworth, Chairman Shaw, of the Board of Education, and Inspector Hughes will be a committee to carry out the movement. Newspapers throughout the Dominion are asked to co-operate with the News in this tribute to the memory of the man who did much to unify Canadian manhood.

A reduction in the British postal rates will give Canadians a chance to get a few magazines untainted with un-British sentiments. The majority of publications coming from the other side of the international boundary are so redolent of contradictions,as to be amusing were such not also pitiable. On one page we read a sentence to the effect that 'we are the greatest people under the sun' which might be continued by reason of the subject matter on the next page for trusts, graft and drugs. 'Save imperialism' might be applied to cheap postage between Canada and the motherland. It is not good sense to feed the younger minds of the community with the trash that finds its way across the border, and which quite frequently takes a fling at some of our cherished ideals, British institutions.

If the prediction that the world's wheat yield will be short this year turns out to be correct, Canada should enjoy a harvest in two senses of the term—harvest in the ordinary use of the word, and harvest in the fact of being a big producer while the other nations have a shortage. The Canadian wheat crop will undoubtedly be larger than ever before, and with a good demand from outside countries, our farmers ought to be assured of a good price for their output.

Startling as they are gratifying, are the facts and statistical data announced by the Hon. R. G. Tatlow, Provincial Minister of Finance for our great western province, and the rigor and optimism with which they are couched are calculated to attract universal attention. Captain Tatlow states that the province, last year, produced over $1000 for every able-bodied man in B. C., and the grand total of wealth production was approximately $50,000,000. These figures indicate the vast progress the residents of B. C have made and the wonderful energy brought to bear upon the development of the tremendous natural resources of the country. It is a grand, soul-stirring problem, as to what brilliant result the near future will show. If the comparatively small population of the present day can produce $50,000,000 of tangible and productive wealth, what will be the result at some future time when the vacant of lands thisyear are fully developed, when the earth has yielded her treasures to the science of the miner, and the virgin forests to the skill of the forester. The mind, carried away by such glorious possibilities, dreams of a decade or two hence, which, according to Captain Tatlow's statements, should see over a million people settled in this Garden Province. British Columbia possesses a large portion of the individual resources of each of her sister provinces. Her mines are almost inexhaustible, her virgin forests limitless, her agricultural wealth boundless, and her beautiful lakes and extensive seaboard yield a most valuable return Enthusiasm runs high in the contemplation of such vast treasures, needing, only, the skilful hand of man to put each to its use. The tide of population is rising and bearing its living freight over the barriers of the Rockies to this fair Province where Nature in all her beauty is waiting to give up her treasures to those who would seek them.—Mail-Herald.

The Newspaper Man's Endeavor

The newspaper is for everybody and hence must publish something for everybody. If you see something of little interest to you remember there are others and that the entire paper is not for you. The very little that is dull and uninteresting to you may be the very best thing in the paper for some other reader, and other readers have just as good a right to be pleased as well as you have. There are whole pages in the daily papers that are of no interest to us but they are to others. A paper which contains only such matter as would interest any one or other of us, would have a small number of readers. There are many people of many minds and the paper should have something for all of them.—Exchange.

Verdict in Nanaimo Horror.

The coroner's jury in the Dalton murder case have returned a verdict to the effect that death was caused by shots fired by Robert Stiles Featherstone. Provincial Police Superintendent Hussey says that every possible effort will be made to hang the man who committed one of the foulest murders ever perpetrated in Canada.

Efforts of the revolutionary members of the Russian Parliament to proclaim a provisional government came to an inglorious end on Friday night, owing to the refusal, at the last moment, of the constitutional democrats to join the movement. Count Witte refers to the recent speech of Premier Campbell-Bannerman on Russia as very regrettable. He cannot believe that it expresses the true feeling of the bulk of the British people.

B. C. Salmon is Clean.

J. C. Brown, C. Sweeney, J. P. Babcock and Dr. Fagan, secretary of the Provincial Board of Health, visited the canneries on the Fraser on Monday. This trip was made in response to a request from the department at Ottawa to make a thorough inspection and ascertain in an official way whether the conditions about the canneries were cleanly, etc. The committee were able to report back that everything was in the most satisfactory condition, and that there was as much care taken in the canneries as in most kitchens where food was prepared. This report will be circulated, it is understood, by L. P. Brodeur, minister of marine and fisheries, among the consuming markets of Europe.

Slide at Three Valley.

Owing to the onslaught of wind and rain and during a violent thunder storm on Wednesday afternoon a large mass of rock and earth became detached and crashed down on the track at Three Valley, striking the engine of a freight train (Engineer W. L. Boyd) which was passing at the time. The huge mass derailed the engine and several freight care, which were driven zig-zag across the line.

C. P. R. Agent Held up.

Burnside, Man., July 30.—Two masked highwaymen held up F. A. Anderson, local C.P.R. agent, yesterday afternoon in approved western style. Under cover of two ugly-looking guns Mr. Anderson, threatened with death, surrendered all the cash in his possession. Anderson gave the alarm, and citizens overtook the men, who consented to return the money, but insisted that they could not be held without warrants. This confused the people, who allowed them to go.

Outrage at Kelowna.

A story has reached Vernon, says the Okanagan, of that place, of a brutal outrage on an Indian girl at Kelowna. Seven or eight well known citizens, under the influence of drink, found an Indian camp near the lake at which were father, mother and daughter. After filling the parents with whiskey, it is alleged that the men grossly assaulted the girl. It is said that the matter was reported to the Kelowna police, but practically nothing was done to apprehend the men, one of whom has since disappeared from the Okanagan.

Canada's Great Trade Increase

Ottawa, July 26.—Canada's foreign trade for the financial year ending June 30th, amounted to $553,000,000, an increase of $85,000,000 over the corresponding period of the previous year, and much the best showing in the country's history.

Wholesale Arrests.

Moscow, July 28.—Dozens of persons were arrested here last night while attempting to placard the city with the address drawn up at Wiborg by the members of the outlawed Parliament.

Transvaal Troublesome.

The Transvaal Government is fully alive to the possibility of a widespread native revolt in South Africa. High officials admit that the situation could hardly be more serious than it is today, a general rising is feared. Everywhere the natives are showing symptoms of insolence unprecedented in the history of the Rand. Perhaps the most significant development in the situation has been the seizure of 500 assegais and knobkerries in the mine compounds. One hundred reliable native policemen were detailed to mingle with the mine workers and ascertain the general feeling. The discovery of these weapons is the result. It is significant that the Kaffirs "house boys" as native domestic servants are called, are, almost without exception, imploring their mistresses to hurry to the coast, although refusing to give any reason for the warning.

B. C. FRUIT AT THE FAIRS.

Hon. R. G. Tatlow, minister of agriculture, received the following telegram from R. M. Palmer, who is in charge of the British Columbia exhibition at the Winnipeg fair: "Yesterday's attendance at exhibition was largest recorded. British Columbia exhibit great attraction. Herbert Cuthbert, secretary of the Tourist and Development association who is also at Winnipeg wired yesterday for another shipment of literature, in order to meet the giant demand for information respecting British Columbia.

PREFER CANADIAN INVESTMENTS.

Canadian investments are coming to the front. D. M. Stuart, general manager of the Sovereign Bank of Canada, places at $10,000,000 the amount of money which British and foreign capitalists have decided to invest in Canadian industries. He says these men, after experimenting in the United States, South Africa, Australia and other countries, have reached the conclusion that Canada from the Atlantic to the Pacific embraces the most valued and safe field for investment in industries such as woollens, cotton, pulps, and other products

Another Tug Disaster.

The tug Superior of Vancouver, on Friday night struck an unchartered rock in Howe Sound near Gambier Island, and went to the bottom in a very few minutes. The vessel struck with great force, and the crew, expecting she would founder, at once took to the boat and got away clear and without accident. The crew are of the opinion that she went down in about forty feet of water. The Superior belonged to Captain G. H. French of Vancouver, who left this morning with two scows in tow that the sunken tug might be raised. A diver went with them to investigate the hulk, and if possible place lines around it preparatory to the work of raising. The Superior was in command of Captain Dan. Heritage, formerly mate of the tug Czar. Four or five years ago she sank in Burrard Inlet.

For H. M. S. Dominion.

London, July 28.—The service of plate subscribed for by Canadians was presented to the new battleship Dominion today. Lord Strathcona making the presentation and Captain Kingsmill who is a Canadian, replying on behalf of the ship. The plate bears the inscription, "One life, one flag, one fleet, one throne."

Deadman's Island.

News reached Vancouver on Saturday that the Dominion Government had been confirmed in the ownership of Deadman's Island.

New York, July 28.—Six men were injured last night by a bomb believed to have been thrown from an elevated train at Sixteenth and Third avenue. The explosion occurred in the midst of a crowd of about a hundred plumbers standing outside of Teutonic Hall waiting for a meeting to begin.

News From Near & Far

Fire at Blaine on Monday destroyed the Palace Hotel. Loss, $18,000.

The Klondike Mines Railway has now been opened to the public, and a regular service is being run.

Two hundred and fifty-seven timber licenses were issued during the month of May.

The canneries at the coast are commencing to shut down after a most successful season's operations. Last week the pack amounted to close on 100,000 cases.

Fire, started by sparks from locomotive Friday, destroyed the dry kiln and a million shingles at the Miller shingle mill, one mile south of Clearbrook.

Fire broke out in the upper portion of the north wing of the state asylum for insane near Salem, Oregon, on Friday. There was no panic among the inmates, nor any loss of life. The cause of the fire has not been ascertained. The loss will hardly exceed $25,000.

An exceedingly rich find of native silver ore has just been found on the Duncan property in Wallace Mountain camp on Kettle river. This high grade silver ore runs in seams about twelve inches wide and has been traced for over 1300 feet by various open cuts. Considerable excitement prevails up the West Fork over this unusually rich find of silver ore.

Will Increase Navy.

London, July 28.—The agitation against excessive reduction of the naval construction has proved so successful that Edmund Robertson, parliamentary secretary of the Admiralty, announced in the House of Commons that three new battleships of the Dreadnaught class will be laid down. Four were originally proposed by the late government. Two ocean-going torpedo-boat destroyers will be built, instead of five, as proposed by the Balfour administration, and eight submarines instead of twelve. The total of the expenditure involved is $34,000,000 instead o $46,000,000 contemplated by Mr. Balfour.

Farm for Sale.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section 160 acres or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

TOWN & DISTRICT . NOTES .

H. McDonald, principal of the public school, returned to the city on Saturday.

Mrs. R. Peel returned on Monday from a visit to her parents at Chilliwack.

R. A. Hume of the Armstrong Advertiser, was in town on Friday evening.

H. A. Camble and F. T. Cornwall, of Armstrong, drove up to Enderby Friday afternoon.

Mr. and Mrs. Geo. Bell and family, Mrs. F. Pyman and J. McMahon returned from Tappen Siding camp on Tuesday. All report that they have spent a most enjoyable time.

Messrs. J. N. Grant and F. W. Boyer returned from Kamloops on Tuesday morning.

T. G. Bell was a visitor to Armstrong on Friday. Mr. Bell states that the Armstrong Light and Power Co. are making rapid headway with the installation of their plant, and will soon be able to supply electric light and power to all who want it. Mr. Bell is a member of the company, having been connected with the scheme since its inception.

H. Logan left on Wednesday for Greenwood, where he has secured a position with the Hunter, Hendricks Co., of that place. His many friends here wish him every success in his new position.

The possibilities of the Spallumcheen river as a means for obtaining enjoyment were demonstrated on Tuesday evening by the arrival of one of the Kamloops Lumber Co.'s steamers from Kamloops. We are sure that were the company to advertise an excursion per steamer to Sicamous or Kamloops and back, they would have it well patronized.

Business stationery can be made to do quite as effective work as a trade-mark or a copy-righted brand. Many concerns, after having selected a design for their letter, use it on all their stationery, including billheads, statements, order blanks, etc. Assuming that an attractive design or style has been adopted, its value will be enhanced by persistent and continual use. Of course, as in all other advertising, those which are most striking without being glaring or offensive to the artistic sense are the most effective. The PROGRESS can prepare you an exclusive design.

F. V. Moffet returned from a business visit to the coast on Friday.

The Standard Oil Company has reduced the higher grades of petroleum by three cents, and other grades by two cents a gallon.

J. H. Storey, who operated a bakery shop last summer in the Bradley block, is renewing old acquaintances here for a short while. Mr. Storey is now employed on the C. P. R., with headquarters at Field.

The Penticton Press has found its way to our exchange table. Its columns contain interesting and well written matter of local import and commences with a good advertising patronage. We wish its publisher, W. J. Clement, all success in his venture.

Mr. Acton, late of Revelstoke, has taken the position of druggist to the Enderby Drug & Stationery Co.

J. Doyle fell down the stairs at the Enderby Hotel, on Tuesday night, breaking his leg.

Wm. Allan, late of Field, came in on Tuesday morning to take up his permanent residence here. Mr. Allan timed his arrival in Enderby so as to be able to vote for the waterworks by-law. Mr. Allan, who owns considerable property in town, says that water is all that is lacking to make Enderby a good place to live in. Mr. Allan is an old employee of the C.P.R., from whom he is now drawing a pension, having served them for eighteen years.

For the past three weeks the sawmill has been running extremely steady. Last week a daily average of over 60,000 feet per ten hours was maintained, the highest in one day being 64,000.

The agitation for a provincial sanitarium for consumptives shows no sign of slackening, if the stage of site selection is any indication. The provincial Anti-Tuberculosis Society has appointed a committee to accompany Dr. Fagan, secretary of the provincial Board of Health, to Kamloops, where they will be joined by Mayor Gordon, and proceed to inspect the half-dozen sites recently selected by Dr. Fagan. The society will then make an appeal for more funds, which should meet with a prompt and liberal response, as this will enable the society to realize its hopes of having the sanitarium erected and occupied by the end of the year.

Prof. Shutt, of Ottawa, will be in Enderby on the afternoon of August 10th, from 3 p.m. to train time. Any person wishing to submit samples of soil to Mr. Shutt for his examination, are requested to be in Enderby between the hours named.

A SAD AFFAIR.

A terribly sad occurrence happened on Sunday morning last, resulting in the death of Tom Muffett, who died from heart failure, which attacked the deceased while swimming. The deceased went into the river from off the boat house at 11.15 on the morning in question, with the intention of swimming across the river and back again. He was a good swimmer, and got safely across. He then went into the water again, no doubt, with the intention of returning.

It was soon seen by those who were watching that the swimmer was in difficulties, and a boat was hurriedly launched by Carl Johnson, Jr., and several others, who, though they had no oars, succeeded in reaching the struggling man just as he went under a second time. Johnson made a grab for him but missed, and dived into the water after him, and succeeded after a hard struggle in getting him to the shore. Efforts were at once made to resuscitate the unfortunate man, and, though medical help was soon at hand, all was in vain. The cause of death was given by the doctor as syncope.

The late T. Muffett was born in England, and has a mother in Carnbrae, Cornwall, two brothers in this country, one at Spokane and the other in Idaho, and another in South Africa. He came to Enderby last fall, and for a time was employed by the Enderby Coal Mines, Ltd. He was well known in the Kootenays as a miner and prospector. A letter was found in the deceased man's pocket from his aged mother in Cornwall, who, it is said, is 88 years of age.

The funeral took place on Wednesday morning to Lansdowne cemetery, the Rev. H. N. Miller officiating. His brother, J. Muffett, of Spokane, came in on Wednesday's train, and superintended the interment of the deceased.

The bravery of Carl Johnson in making such a gallant rescue is commended by everybody, for, without any hesitation, he plunged into the river after the drowning man, and it is felt that some suitable reward should be made to him in recognition of his bravery.

G. Heggie and F. H. Hassard were passengers to Kamloops on Wednesday on a business trip.

G. A. Howard, Jr., was hauled up on Friday last at Salmon Arm, before Messrs. Leonard and Johnson, J.'s P., and the Reeve, J. W. McCallum, for supplying liquor to the Indians on the Orange celebration day. Their honors let him off with a fifty dollar fine. The Indians who partook of the flowing bowl are expected to toe the line on Saturday, they having gone away to loose a bad headache.

G. Berg, a well known business man of Edmonton, Alberta, was a passenger on Friday's train. Mr. Berg, who was accompanied by his daughter, was on his way to Vernon, on a visit to Mr. Ricardo, manager of the Coldstream Ranch. He was through the valley six years ago, and says that he sees many great changes in this country, and that it has gone ahead very fast. Mr. Berg, who, until just recently, conducted a fruit and confectionery store at Edmonton, has for years handled and sold Okanagan fruit, firmly believes that before many years the whole valley will be, figuratively speaking, one large orchard. Mr. Berg expects to invest in property somewhere in the northern part of the valley, as he prefers land where irrigation is unnecessary, because his experience in handling fruit shows him that the produce of unirrigated land has greater keeping qualities.

Notice.

STUMPING POWDER.

The Spallumcheen Farmers' Institute have ordered a second car of Stumping Powder, which will be on hand in about two weeks, and can be had from J. B. Bird, the secretary. Price of powder is $6.50 per case to members of the Institute.

GEO. HOOGE, Pres.,
J. B. BIRD, Sec.-Treas.

The Enderby Brick & Tile Co. ENDERBY, B. C.

F. H. Hassard commenced cutting oats on Monday.

Mrs. J. H. McVeigh returned on Monday from a visit to friends at Vancouver.

Basil Gardom, accompanied by his bride, returned on Monday from their wedding trip. We extend our heartiest congratulations and best wishes for their future happiness and prosperity.

Mr. and Mrs. A. E. Johnston visited in Lumby the early part of the week.

Mrs. A. R. Price went to Vernon on Monday to visit her sister, Mrs. E. C. Simmons, who is at present camping at Long lake, near Vernon.

Mr. R. Waddell returned on Monday from a visit to friends at the coast.

Mrs. Blackburn is having a cottage erected on the lots which she purchased some time ago from C. Brookland, who has the contract for the work.

A. E. Elsom and R. D. Kirby, of Armstrong, were in town on Friday, and enjoyed a dip in the cool waters of the Spallumcheen. They said that citizens of Enderby should consider themselves highly favored by nature in having such a beautiful stream flowing past their doors, into which they could tumble during the high temperature of the past few days.

J. A. Mohr was a business visitor to Armstrong on Monday.

T. Gray, manager of the Wood, Cargill Co., was in town on Monday afternoon.

A. J. Lapworth, accompanied by his assistant, L. Patten, came up on Monday afternoon, and is now engaged in decorating the Wylie residence.

Dr. Vankleek, of Armstrong, passed through on Saturday on his way to the coast.

It is said in Rossland that the Great Northern is seeking to effect a merger of several of the well known mining properties there.

The hay crop in this district this year has in most places exceeded expectations, and has, almost without exception, been saved in good condition.

The Okanagan Hotel, Armstrong, will in all probability be sold. An option for 30 days has been taken up, at a price it is understood, of $20,000.

J. C. Campbell, of Vernon, has sold the McQuarrie ranch to Messrs. Foster & Hancock, of North Dakota. This ranch, which is situated about three and one-half miles from town, consists of about 140 acres and is a most desirable property. The new owners have taken up residence on their purchase.
