LATE PERSONAL ITEMS

Mrs. Smith of Vernon is visiting town, the guest of Mrs. McCormick.

Mrs. Gaylord visited friends in Armstrong on Wednesday last.

Mr. and Mrs. Dayton, of Furgerson, are visiting in Enderby, the guests of Mrs. Godsoe.

The Ladies' Aid of the Presbyterian church meet with Mrs. F. H. Hale on Wednesday.

Mr. Heggie, manager of Stepney ranch, left for the coast on Thursday, to meet Sir Arthur at the Fair.

Mr. A. Ford and the Misses Lee of Knob Hill left on Thursday en route for the Fair.

Eugene Rhian, editor of Armstrong Advance, was a passenger on Wednesday's train on a trip to the Fair.

Col. Herchmer and bride were on Friday morning's train en route for Penticton.

T. Ellis, who one time owned the Penticton townsite, passed through on Friday on his way home from an extended trip.

Mr. Howard Gillett, sawyer for the Kamloops Lumber Co. at Kamloops, spent Monday and Tuesday in town, the guest of his brother, L. N. Gillett.

Mayor Bell and Alderman Bradley returned Tuesday from attending the conference of the Union of Municipalities held last week at New Westminster.

Early risers on Sunday were much astonished to see the portly but still comely figure of F. V. Moffet superintending the insertion of a tee in the main pipe of the waterworks system.

Mrs. Long, of Armstrong, spent Sunday visiting her daughter, Mrs. H. Greyell, returning on Monday, accompanied by her grand-daughter, Miss Gladys.

A second crop of raspberries is now the order. In J. W. Evan's garden in town were seen last week several fully ripe, well matured raspberries, as well as a number of blossoms that gave promise of a fair crop.

Mrs. A. Richardson, who has spent the summer at her home here, leaves today for the south to join her husband in Summerland. Mrs. Richardson will be much missed by her many friends in Enderby.

One of the boys of the R.O.B. Camp, No. 1, while out hunting struck the trail of a deer, and after following it for fourteen miles ran it to bay and stayed with it till Monday, when he returned to camp all smiles.—The Mara Sentinel.

Mrs. P. Greyell left on Thursday to accompany her mother, Mrs. Proctor, who has been visiting here all the summer, to Chilliwack, where she will spend the winter at the home of her son. Mrs. Greyell will spend a few days there before returning.

Mr. and Mrs. W. T. Leslie, who were married at the Presbyterian church on Tuesday last week, and who have been the guests of Mr. and Mrs. J. Leslie the past week, left on Monday for their future home at Okanagan Landing.

J. F. Smith, editor Vernon News, was a passenger to New Westminster on Thursday. There were also noticed on board F. de Harte, L. Pridham, C. Harvey and S. T. Elliott of Kelowna, C. F. Costerton of Vernon, and D. Matheson of Hull Car.

The Literary Society will meet again on Thursday, October 12 at the residence of Mrs. F. H. Hale. The society has been reorganized after an adjournment lasting all the summer, and should prove a means of pleasant recreation and instruction for the long winter evenings.

Fair Echoings

Wednesday last witnessed the formal opening of the Dominion Exhibition at New Westminster by His Honor Sir Henri Joly de Lotbiniere, Lieut.-Governor of the Province.

That Manager Keary has achieved a success may be known by the unstinted praise of every visitor to the grounds. It is an exhibition that is truly national in scope, with British Columbia in the foreground, having as its object the bringing together of the manufacturer and capitalist of the east and the natural wealth and material production of the west.

The visitors found plenty of occupation inspecting the display of the resources, industries and manufactures of Canada. In the evening Queen's park is a blaze of light, numerous decorative lights beautifying the grounds. The playing of the Irish Guards Band is a feature.

The fruit exhibits show that B. C. is second to none for the production of the best fruit, and entirely free from any taint, which cannot be claimed elsewhere.

OKANAGAN GROWS BEST FRUIT

The Okanagan Valley proved itself to be the banner fruit section, T. W. Stirling of Kelowna carrying off the silver cup and \$2000 purse for the best commercial display of fruits, consisting of 16 varieties of apples, 1 crab apple, 6 pears, 3 grapes, 2 prunes, 1 plum. W. Middleton of Vernon was fourth, who also took first in provincial board of horticulture's special prizes for commercial fruits.

The main attraction on Monday was the lacrosse match between New Westminster and Vancouver, which resulted in a win for the Royal City team by a score of 4 goals to 1.

OKANAGAN EXHIBITS

Armstrong and Spallumcheen, always to the fore in the matter of district exhibits, displays a remarkable collection of roots and fruits. Gracing the centre of the exhibit is a modern Venus, carved in standing grains artistically fashioned. The fruits are very tastefully shown.

Fruit and dairy products, grain and vegetables, constitute the display from Salmon Arm, and judging by the specimens exhibited the fertility of this region is not over rated. Potatoes that for cleanliness could not be matched, and some fine watermelons, grapes and citrons are features. The exhibit is very tastefully arranged.

The Okanagan exhibit, arranged by H. P. Lee, of Vernon, is comprehensive and unusually fine. Features of the exhibit are the tobacco and cigars made from leaves of plants grown in the valley, opening up a vast possibility. Some of the best fruit at the fair is at this stand.

Miss Wheeler left on Friday to spend a few days with Miss Francis of Armstrong.

Mr. G. McCormick left on Tuesday on a visit to the fair. Mr. Price Ellison was also on the train.

Mr. and Mrs. Tapley left on Friday for Penticton, where she will make her home, Mr. Tapley having bought the Penticton Hotel.

Mr. Carlin, manager of the Columbia River Lumber Co., Golden, Mr. Kilpatrick, superintendent Revelstoke division C.P.R., and Mr. McDonald, assistant land agent, Kamloops, came in Wednesday last in Mr. Kilpatrick's private car, spending a few days in the vicinity of Enderby.

The business men and property owners along the lower end of Cliff street who decided to provide fire protection for themselves, will soon have that object accomplished. A four inch pipe, running from the flour mill main at the foot of the bridge, and along Cliff street as far as the Matthews & Evans livery stable, is being laid, with three hydrants, located in front of Harvey's store, the Bell block, and at the end. The new hotel is connected with the main, and will use the water for domestic purposes. However, it is galling to learn that it will not entitle them to a reduction on fire insurance premiums.

UNION OF MUNICIPALITIES

Some 32 delegates representing the cities and municipalities have formed a Union of B. C. Municipalities, affiliated with the Canadian Union. The officers are: President, Mayor Stevens of Kamloops; Vice pres., Mayor Barnard, Victoria; sec-treas, Mayor Keary, New Westminster; executive committee, Reeve Paisley, Chilliwack, Reeve Ladner, Delta, Reeve Sproat, Burnaby, and Mayor Bell of Enderby. Thus Mayor Bell will have the honor of voicing Okanagan sentiment on the committee.

The papers read at the several sessions were full of instruction, and were listened to with interest. The union is a forward step, and cannot but be without benefit to those in the union.

The convention next year will be held at Kamloops.

Execution at Edmonton.

Edmonton, Alberta, Sept. 30.—Charles King paid the full penalty of the law at seven o'clock this morning for the murder of Edward Hayward at Lesser Slave lake in September, 1904. He went up to the scaffold quite unassisted, and was quite cool.

MARA NOTES.

Among the pleasant visitors to lower Eden last week were H. Hanson and Jas. Dale, both of Enderby.

W. Witala has just completed the erection of a large barn on his farm here.

Howard Logan, Chas. and Ray Hancock, Enderbyites, have been camping on Mara Lake after the wary game.

T. Gray has a very large frame barn in course of construction. E. Waterson of Enderby, having the masonry work in hand.

The FARMERS' EXCHANGE

As we go to press we have read a letter from Mr. Jackson, of the Armstrong Exchange, in which he says that the time is fitting for the formation of a branch here. Only half of purchase price of the shares need be paid now, the balance to be paid next spring. This is a liberal concession, and it all wish to see Enderby district produce reaching the most profitable markets with the minimum of trouble and expense—thereby insuring greater profit—they should help the scheme to form a branch here to successful issue by taking up what shares they can.

Subscription lists have been placed with the Enderby Trading Co. and H. W. Harvey, and all are invited to take one or more shares.

DOMINION

G. T. P. Route West.

The Grand Trunk Pacific has filed plans with the Government for the route of its proposed line between Touchwood Hills and Edmonton.

It was reported some time ago it would follow the Saskatchewan, in which case the C.P.R. and C.N.R. will no doubt object to their lines being paralleled.

PROVINCIAL

Strike Called Off.

Nanaimo, Sept. 30.—The Nanaimo miners to-night sustained the committee's negotiations with the colliery company by a vote of 259 to 93. The strike which for the past four months has waged bitterly was consequently called off. The settlement is in the nature of a compromise, and a working agreement for two years has been reached and signed. Work will be resumed on Monday, October 2nd.

BC. Fruit in London

It has been decided by the Provincial Government to be represented this year, at least, at the Royal Horticultural Society's show of colonial fruits in London, England. Last year the display made by the province on two different occasions won the gold medal each time. This year it has been decided to go farther and send a large commercial shipment of fruits. Mr. R. M. Palmer will take charge and will carefully investigate the conditions of the fruit market in England and report to the government with regard to regular shipments being made. The co-operation of the Canadian Pacific Railroad has been of great assistance in arranging the details.

Kettle River Camp

Triple Camp is the name of a new mining camp recently ushered into existence. It is situated some 50 miles from Midway up the west fork of the Kettle river. Many rich locations have been made in this camp, among which is group of six claims, the Moonlight and the Dawn being the two chief properties. A twenty-five pound sample of copper ore and an exceedingly rich sample of molybdenum were brought into Midway.

The ore sample runs over \$40 per ton in copper and other values, while the molybdenum sample was very rich.

FOREIGN

Trouble in India

Calcutta, Sept. 29.—Fifty thousand Bengalees assembled at the temple of Kalighat have sworn by the goddess Kali to boycott British goods as a protest against the partition of the province of Bengal.

The administrative work of this province had become so unwieldy as to necessitate a division of labor, hence its partition.

TOPICS OF THE WEEK.

What about a Farmers' Exchange, now? The time is propitious for making a move, and so be in readiness to do business from Enderby next season. Let us apply, as well as taking, "Forward" as our watchword, and see there be no turning back this time. Have you not seen the necessity this year?

The Dominion Fair at New Westminster opened last week before a brilliant assemblage and a good attendance. Reports state that the excellence and variety of the exhibits exceed all expectations, and in many instances far surpassing the much advertised Portland Fair. And why can't we surpass Washington, Oregon and other Pacific states in lumber, grain and fruit? It is only of late that all have awoke to the fact that we can. The exhibits of fruit made by the Provincial Government at the principal prairie fairs was a step in the right direction, their quality and variety surprising. Given the opportunity this year, British Columbians have been encouraged to accomplish greater things, of which the magnificent displays in all departments of the Dominion Fair is the result. The dawn is on the horizon of an era of prosperity and expansion for this Pacific Province; and if our industries are given adequate and just protection, the dawn will soon turn to noonday. All have seen clearly its capabilities—that they are of the best—and hope should lead us on, to spurn us to greater efforts.

John Burns, a Labor M.P. in the Imperial House of Commons, who is at present touring Canada, said while at the coast that the Conservatives would be beaten at the next election. He also said that Chamberlain's fiscal policy was a dead issue. We wonder whether J. B. can ken the difference in feeling between hope and conviction?

The terms of the Anglo-Japanese Alliance will give us think satisfaction throughout the whole British Empire, and though making for peace, the alliance is at once offensive and defensive. It insures to Japan the fruits of her victories in her war with Russia; integrity to China, and removes the danger of war among European nations over the Celestial Empire. To England is given a renewal of trade prestige in the east, and German aspirations have sustained a powerful setback. With England abandoning Wei

ha-Wei and Russia ejected from Port Arthur, Germany is left in splendid isolation at Kiao-Chiao as the one sore spot of China's integrity; and the world wonders and watches for the move of the peace disturber of Europe. The climax of England's foreign policy was reached with the announcement that Singapore is to be made a great naval base, and by which England now commands the trade route to the east. The Province well says the situation is romantic for two small island kingdoms joining hands across two continents for the peace of the whole world. England's policy in the Far East during the past four years has culminated in a masterful position, and marks her statesmen as diplomats without equal.

Council Minutes, September 25th.

Present: Mr. Geo. Bell, Mayor (in the chair), Messrs. Ald. Bradley, Evans, Kenny, Sharpe, Smith.

The minutes of the previous meeting were read and confirmed.

Drainage. The Clerk was instructed to make application to the C. P. R. Co. for permission to carry the drain, which it is proposed to lay along Mill street, under their right of way, at a depth of nine feet below the track.

Assessment. On the motion of Alderman Bradley, seconded by Alderman Kenny, it was decided to hold the first meeting of the Court of Revision on Monday, October 30 next, at 10 o'clock, a.m., and the Clerk was instructed to insert the usual notice in the B. C. Gazette and The Edengraph.

Municipal Conference at New Westminster. On motion of Alderman Kenny, seconded by Alderman Smith, it was resolved that Mr. Alderman R. P. Bradley be appointed to attend the Municipal Conference at New Westminster, as a representative of this city, in addition to Mr. Bell, Mayor, who was appointed at the last meeting. The council adjourned at 9:50 p.m.

Text of Anglo-Japanese Alliance

The governments of Great Britain and Japan, being desirous of replacing the agreement concluded between them on January 1902, by fresh stipulations, agreed upon the following articles, the objects being: (1) Maintenance of peace in the Far East; (2) Preservation of common interests by ensuring integrity of China; (3) Maintenance of the territorial rights of both nations in Asia and India, and defence of either's interests in said regions.

Article 1 says that if in the opinion of either Britain or Japan any of their interests referred to are in jeopardy, the governments are to communicate with one another and consider means to safeguard them.

2. Should either of the high contracting parties be involved in war in defence of its territorial rights or special interests, the other party will at once come to the assistance of its ally, and both will conduct war in common and make peace in mutual agreement.

In Article 3 Great Britain recognizes Japan's interests in Korea and her right to take such measures for the guidance, control and protection of Korea.

Japan in Article 4 recognizes Great Britain's right to take any measures for the safeguarding of the frontiers of her Indian possessions.

5 Provides that neither shall enter into agreement with another Power without consulting the other.

6 provided that in the war just ended Great Britain would remain neutral unless others joined against her, when England would come to her assistance and conduct war in common.

7 Provides for consultations of the military authorities of both powers to determine the means and conditions under which armed assistance shall be rendered.

8. The treaty to be in force for ten years.

The treaty is signed by the foreign secretary, Lord Lansdowne, on behalf of Great Britain, and by Baron Hayashi, the Japanese minister, on behalf of Japan.

The V. V. & E.

President Hill, of the Northern Pacific, when in Vancouver last week, said that the work of construction of the western section of the V. V. & E. will be started this winter and rushed with all possible despatch. All preparations are now under way. A start will be made at Cloverdale, where the new road will join the New Westminster & Southern railway, now part of the Great Northern, and the contractors, dividing the work into large sections, will work east over the Hope mountains to connect with the other section now being built from the Boundary into the Similkameen. It will be an all-Canadian line with terminals at Vancouver.

Jim Hill adds: "Mark my words: We will do more to upbuild Vancouver than any railway corporation has done yet."

Mayor Houston Located

Mayor Houston, of Nelson, has been located at Goldfields, Nevada, where he is working as a journeyman printer in a newspaper office. He has apparently carried out his oft-repeated threat that he would quit British Columbia.

His continued absence will probably create a vacancy in the Provincial Legislature for Nelson, and also for the mayoralty of Nelson.

City of Enderby.

NOTICE is hereby given that the first sitting of the annual COURT OF REVISION of the Municipality of the City of Enderby will be held at the Court house, Enderby, on Monday, 30th day of October, 1905, at 10 o'clock a.m., for the purpose of hearing complaints against assessments as made by the Assessor, and for revising and correcting the assessment for the City of Enderby.

Price 50 cents.

With The Owl

MANY FABLES IN THE DARK WOODS.

IT

MAY seem strange, but it is true, nevertheless, that many a man has been condemned by the priest and ostracised by the Christian church and consigned to everlasting hell fire, who will occupy a soft seat in paradise—if there are any soft seats—while those who passed judgment on him are shown a corner away over there with the goats.

It is related of the monk Basle that, being excommunicated by the pope, he was at his death sent in charge of an angel to find a fit place of suffering in hell; but such was the eloquence and good humor of the monk that wherever he went he was received gladly and civilly treated, even by the most uncivil angels, and when he came to discourse with them, instead of contradicting and forcing him, they took his part and adopted his manners; and even good angels came from afar to see him, and took up their abode with him. The angel that was sent to find a place of torment for him, attempted to remove him to a worse pit, but with no better success; for such was the contented spirit of the monk that he found something to praise in every place and company, though in hell, and made a kind of heaven out of it. At last, the escorting angel returned with his prisoner to them that sent him, saying that no phlegmation could be found that would burn him; for that in whatever condition Basle was found, he remained the incorrigible Basle. The legend says his sentence was remitted and he was allowed into heaven. There's a moral.

A Dressy Makeup

Is a necessity for a man who would succeed in business or society. Although the clothes do not altogether make the man, they certainly add to his appearance if they are of the right kind, such as we carry in stock and are selling all the time.

Our Clothing

Is noted for its correct style, fit and little price. Let us help you along by clothing you well.

A QUESTION

Long since, there lived a man reputed wise
(Some better things were said of him,
Who made his life a tireless quest to know
The way and Wherefore of the universe.He wandered through solutions intricate,
And old and new philosophies he read;
This one converted, but another spoke,
And made his faith apostasy instead.His life was girt with vain analysis,
And subtle disputations he'd in thrall
His soul, that wildly dreamed to overleap
The mystery laid before him all.But when Age left him twisted, gray and
Worn,
He felt the barren purpose of his quest,
And longed to quite forget his mocking
Doubts.And live his last, few, trembling days at
Rest.But Death had watched him with a cynic's
eye—
And marked his shuffling feet, his slight
grow dim.
And one still evening stood before his chair,
And smiled, half kindly, as he beckoned
him.

ALL SORTS.

Blood oranges are sometimes arti-
ficially produced by injecting a few
drops of elixir through a small aper-
ture in the rind.The lock step has been abolished at
Sing Sing prison, and now the prison-
ers are marched about in their com-
panies in double file.A Japanese Christian minister, writ-
ing of the divorces in Japan during
a recent year, says there were 354,349
marriages and 116,775 divorces.

Room in the Penitentiary.

Clara—Dear Isabel, you are at last
a successful artist.
Isabel—Oh, Clara, I don't feel my-
self a success; I've just moved up a
little, because a lot of older struggles
have got tired and quit.—Detroit Free
Press.

A Forage Plant

When alfalfa was first introduced into America, says the Farmers' Advocate, certain soils and climatic conditions were cited as being particularly favorable to its growth, and in fact it was first believed that only in the warm, semi-arid districts and the warm valleys of the Pacific coast it would grow. Later, since the plant has had a chance to adapt itself to the American climate and soil conditions, it has been successfully grown in almost all kinds of soils, and from the northern settlements of Canada to Mexico. Of late years it has also been introduced into Great Britain. On hillsides, especially where the climate is warm, no other fodder crop is quite as good as alfalfa, both in its adaptability to the location and in quality of food it produces. It excels the other clovers and grasses in that when once established it remains in the soil a long time and yields heavy crops. It is more particularly a fodder crop and should be cut as such, as it does not stand pasturing as well as some of the grasses. It can be induced to grow anywhere, and being a very deep-rooted plant, can flourish in the driest of soils.

It may be that some will think that to grow a big piece of alfalfa is all they need. It is however, best to go slow, and sow a small piece the first year, and add to this as they learn more about the most valuable forage plant that a kind Providence has blessed us with. There is a great deal about growing and handling alfalfa which cannot be learned in any other way than by actual experience, and all are advised to try it in a small way unless it is known for certain that it cannot be grown in their locality.

The following catechism on the growing of Alfalfa may be useful to any who have or are contemplating the growing of this valuable forage plant:

Q. What kind of soil or land will raise alfalfa?

A. Most any land, provided it is not too low and wet, which has been well tilled, and is apparently free from any weeds.

Q. When should alfalfa be sown?

A. Any time from the 20th of April to the 1st of June—about the middle of May would perhaps be best.

Q. How much seed should be sown per acre?

A. On well prepared ground twelve to fifteen pounds is sufficient. On twelve pounds goods can be relied upon providing first class seed is used.

Q. Should the seed be sown alone or with a nurse crop?

A. It is as well to sow a nurse crop of say a bushel and a half of oats per acre. Let the oats grow up about eight inches, then turn your cattle on—sheep would be better—for three or four hours each day or as often as necessary to keep the cover crop in check. Keep them off in wet weather, for then they will tramp up the ground and kill the tiny plants.

Q. How long should pasturing be continued?

A. This depends somewhat on the season. However it is not advisable to continue later than August 10. In a dry season the 1st of August would be better.

Q. Should the growth from that time be left on the ground or a crop of hay taken off?

A. By all means leave it on the ground, as a good covering for winter protection is of vital importance, especially the first year.

Q. What is considered a good stand?

A. If the plants are eight inches apart each way or even more, you need not worry about a poor stand. It will surprise you after a few years.

Q. Will the stand improve or thicken?

A. Yes, but not after the same fashion as clover will, by reseeding itself. Alfalfa will send out shoots or runners from the main stem for twelve inches or more, which will in turn send up sprouts, and in this way covers the ground which would, were this not the case, otherwise be vacant.

Q. Is it necessary to inoculate the soil with alfalfa bacteria?

A. A liberal application of good barnyard manure well worked into the soil will be inoculation enough.

Q. When should alfalfa be cut?

A. When it begins to bloom. It would be a great mistake to cut it later than the early blooming period, as new shoots begin to make their appearance at this time, and they should be given full possession of the ground.

Q. How should the hay be cured?

A. The best way is to rake it as soon as this can be done, then put it in rather small, high cocks. Leave it stand in these cocks until well enough cured so it won't get dusty and mouldy in the shed or barn. By following the above method you will secure hay of first quality.

Q. How often can it be cut in a season?

A. Three times, and in an ordinary season will yield at least five tons to the acre, and often more.

PASTURE FOR HOGS

Many hog raisers have yet to learn the great value of pasture for growing swine. It is safe to say that not one-half of the hogs are provided with a sufficient supply of succulent pasture, and the losses thereby sustained are beyond comprehension. Pasture is not only economical from the standpoint of making more pork with much less grain, but it furnishes succulence and variety, and keeps the hogs in a more healthy condition. The Kansas experiment station proved that it took seventy-one pounds more grain to raise 100 pounds of pork without pasture than with it. A large per cent of the barren hog pasture could easily be sown to rape and made to yield a handsome profit on the investment of seed and labor.

Enderby Flour

A WORD FOR THE LOCAL PAPER

Do you want your district to be well advertised?

Do you want it known as a district with a progressive community at the back of it, fully alive and anxious to exploit it's many industries?

If so, back up your local paper. It will serve your interests all the time and not with an occasional paragraph wedged in among the all-important, sensational city news.

How many of your friends would like to hear of the country you are developing?

All of them, for you at some time or other broke away from the old home and a little information then would have been welcome.

In connection with the Restaurant a first-class Bakery is es-
tablished from which can always be obtained the choicest from
the oven. Always fresh.

A nice line of Confectionery is carried in stock. Fresh
fruit in season. Don't take bread when busy, TRY OURS.

P. GREYELL, Proprietor, Enderby.

Doings in Enderby

W. Gardner was over from Salmon
Arm Saturday last.

Col. Prior passed through Saturday
afternoon returning from a trip to lake
points.

The Court of Revision for the City
of Enderby will be held at the court
house on October 30.

Rev. Mr. Miller went to Mara on
Monday afternoon to conduct Divine
service.

Some excellent indications of oil-
bearing ground has been discovered on
the Tranquille river, ten miles from
Kamloops.

Peter Burnet, D. & P. L. S. left on
Monday for Kamloops, where he will
engage in extensive survey work near
Grand Prairie.

Mrs. J. H. Coles, of Enderby is
paying a short visit to her mother,
Mrs. P. Schwenger, of Niagara street.
Accompanying Mrs. Coles is Miss
Cole, also of Enderby—Colonist.

Mr. G. A. Henderson, district man-
ager of Bank of Montreal, accompanied
by Mrs. Henderson, passed through
from Vernon on Wednesday bound for
the coast.

F. N. Daniels of Armstrong was a
passenger to Sicamous on Monday,
whither he was going to meet Mr.
Havakston, who has bonded sixteen
claims on the recent galena discovery
near Seymour.

The Government will in the near
future take steps to redeem the worn
and mutilated silver coins in circula-
tion. We only hope that new ones
will replace them, for though they are
bent and battered, they are better than
none at all—and which all is not a
large quantity.

The Salmon Arm annual fall fair,
under the auspices of the Farmer's in-
stitute, was held there on Friday last
week, and was an unprecedented suc-
cess. The popular president, with un-
tiring efforts, to whom alone the suc-
cess is due, wielded his influence for
its successful outcome.

J. Robertson of Enderby was in town
last week on business connected with
the estates of Sir Arthur Stepney in
the Enderby district, of which he is the
agent in charge. Sir A. Stepney is at
present in Vancouver, and about to
proceed to New Westminster for the
purpose of meeting the deputy minister
of Agriculture in order to consult with
him regarding methods to be adopted
for the more lucrative management of
his farms, and with a view to their
possible irrigation and, if need be, a
change in the methods of cultivation.
He contemplates abandoning grain
growing in favor of fruit culture, and
will probably see matters in trim before
returning to England.—Colonist.

This is the time of the year when
mushrooms are on the market. The
danger of the deadly and the whole-
some being mixed is always present.
All mushrooms that are white on the
under surface are to be regarded with
suspicion, the wholesome species being
at first pink, and changing later to dark
brown or black. It may be interesting
in this connection to inform the public
that the puff balls which are frequently
common on the hills are most nutritious
and delicious when cooked. They
must be collected before they are ripe,
at the time they look like cream cheese
when cut. They can be cooked in any
of the ways in which mushrooms are
used and are perfectly safe, for there
is no known puff ball that is poisonous.

Church Notices.

ST. GEORGE'S CHURCH.

Next Sunday—Evansong and Ser-
mon, 7:30.

F. V. Venables, Vicar

ST. ANDREW'S CHURCH

Services at 11 a.m. Sundayschool
9:45 Rev. D. Campbell, Pastor.

Every man owes it to himself and
his family to master a trade or profes-
sion. Read the display advertisement
of the six Morse schools of telegraphy
in this issue and learn how easily a
young man or lady may learn tele-
graphy and be assured of a position.

J. Cooke and Mr. Faulkner left on
Wednesday for the Dominion Fair.

Rev. D. Campbell returned on Sat-
urday from a vacation spent at the
coast.

Kamloops fall assizes open this week
with a light docket. Vernon on Octo-
ber 11.

A meeting of the county court of
Yale will be held at Kamloops on No-
vember 1.

T. Fletcher, of Armstrong, was a
passenger on Friday's train bound for
Revelstoke, returning Monday.

A. E. Sage, of Fisher & Sage, the
Armstrong real estate firm, passed
through Thursday en route to the fair.

E. A. Norman passed through to
Armstrong on Monday from an extend-
ed visit to Manitoba points. He re-
ports a great wheat crop on the prairie.

Among those who returned on Mon-
day from the Fair were I. C. Jones,
and F. Fulton, town; Geo. Lynn, of
Hull Car; and J. Highman, Vernon.

Mr. Dobson paid a flying visit to the
city on Monday, leaving for Sicamous
later to rejoin his family there. As
soon as his house on the Salmon Arm
road is finished they will return and
take up their residence in Enderby.

Mr. Mowat, of the firm of Mowat &
Brindle, accompanied by Mrs. Mowat
and family, came in on Monday's
train from near St. John, New Bruns-
wick, and will take up their permanent
residence in Enderby.

Wedding Bells.

An interesting ceremony took place
in the Presbyterian Church at Enderby
on the evening of September 28th,
when William Thomas Leslie, chief
waiter on the S. S. Aberdeen, plying
on Okanagan Lake, was united in mar-
riage to Mary Harriet Ethelinda, third
daughter of Roderick Munn, Marsh-
field, Prince Edward Island, by the
Rev. John Fernie, at present on a
visit to his daughter, Mrs. Robt.
Bourne, Armstrong, B.C. The bride-
groom was supported by his friend,
Mr. D. M. Layton from Arrowhead;
and the bride by Miss Esther Rachel
Leslie sister to the bridegroom. Both
ladies were dressed in pure white
which showed to great advantage beside
the dark clothing of the gentlemen.
Mr. Fernie, who, in the absence of the
pastor of the congregation, Rev. D.
Campbell, performed the ceremony,
was robed in the Genevan gown and
bands so familiar to those coming
from the eastern part of the Dominion,
and, thus, gave a more home-like ap-
pearance to the proceedings. Through
the attention of friends, the church was
brightly lighted, and the pulpit decorated
with flowers, which greatly added to the
cheerfulness of the occasion. Among
the friends present, were Mr. Leslie,
the father of the bridegroom, and his
sister, Mrs. Blackwood, both from
Kelowna. On leaving the church, the
bridal party was treated to showers of
rice, usual at some times; and both
givers and receivers seemed to greatly
enjoy the fun.

Mr. Leslie was, in the beginning of
the summer, on board the Roadland
plying on the Arrow lakes, but is, now,
chief waiter on board the Aberdeen,
and, in consequence, is well known to
the travelling public for his unfailing
attention and courtesy to all whom he
comes in connection. The bride
comes from the far east of the Domin-
ion, and, at present is a stranger, but,
doubtless she will soon find herself at
home and have as many friends, as
she had in the place whence she came.
Best wishes are cordially extended to
Mr. and Mrs. Leslie in their new
home at the landing.

You have heard of the SMILE that won't come off.
You may HEAR of the COUGH that won't come off.

It's the Cough we're after

NAIRN'S Black Cherry Cough Balsam will cure any cough
and is guaranteed to do it, or money refunded.

This cough syrup is made from the bark of the black cherry, and
this well-known bark when properly prepared and united with syrups
made from Gums and Balsams by a formula known only to ourselves,
produces what we consider the best cough remedy manufactured to-day.
It will please you. Try it.

Bear this in Mind

There may be, no doubt there are, features about other parts of the Okanagan that
will equal anything we have about Enderby in the way of nature's provisions for home-life,
but certainly none can excel us. Climatic conditions are perfect; and for health and
beauty, Enderby's location is unsurpassed. No cold, damp weather, or hot sultry days.
