

January 27, 1948

Dear Mrs Novicar,

I am very sorry to have delayed so long in sending you definite word as to the date of my arrival in Baltimore. The project sponsored by the Canadian Nurses Association with which I have been associated has been passing through a rather acute stage. Today, however, greatly to my relief, the situation clarified itself and within the next few days I hope to be free from any responsibility in that connection for some time to come.

I am now planning to arrive in Baltimore ready for work by Monday, February 16, and shall do my best to make up for all these exasperating delays. I was very glad to get your letter from Sea Island and to hear that you are enjoying your holiday.

Cordially yours

Ethel Johns
