

September 19, 1948

Dear Miss Upham,

At long last, the United States immigration authorities have granted me the necessary permit and, if all goes well, I hope to arrive in New York on my way to Baltimore on Friday, September 24th. I have got a room at the Henry Hudson Hotel and Miss Stewart has promised to go over the material regarding Miss Nutting's early days which she has in her possession and that ought to lend more life and colour to the opening chapters of the JHH history. I am also getting into touch with the authorities at Bellevue in the hope that similar material can be obtained regarding Isabel Hampton.

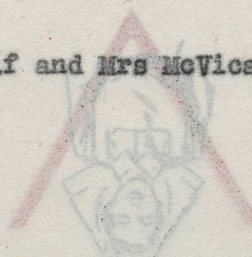

As soon as the New York program clarifies itself a bit more, I will send you word regarding the exact date of my arrival in Baltimore. I hardly think it will be necessary to spend much time in New York.

Looking forward to making a new start on our mutual task,

yours very sincerely

Ethel Johns

P. S. I am also writing to Miss Wolf and Mrs McVicar by this mail.
