October 13, 1948

Dear Miss Wolf,

Thank you for letting me have Miss Nutting's memorandum. As always, it clarifies a situation which otherwise might be somewhat obscure. I do hope that her family will allow Miss Stewart to give you excerpts from the personal letters. These ought to give the warmth and color which, so far at least, are lacking.

I have classified all the material which I got from Miss Nutting's files and when you have a moment to spare it would be helpful if you could just take a look at some of it, especially at those items which concern Miss Ross and Miss Lawler.

With many thanks,

yours very sincerely
