THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions When treated in any other way these complaint only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patien a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throat
Bite of Moschetoes and Sand-Flies	Fistulas	Skin diseas
coco-bay	Gout	Scurvy
chiego-foot	Glandular Swellings	Sore heads
		Tumors
Chilblains	Lumbago.	Ulcers
Chapped Hands	Piles	Wounds
		Yaws

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Practical and Analytical Chemist, Lowell, Mass.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommen its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker,
Liver Complaint,
Dyspepsia or Indigestion,
Cramp and pain in the Stomach,
Bowel Complaint,
Painters' Colic,
Asiatic Cholera,
Diarhœa and Dysentery.

Taken externally cures

Felons, Boils, and Old Sores,
Severe Burns and Scalds,
Cuts, Bruises and Sprains,
Swelling of the Joints,
Ringworm and Tetter,
Broken Breasts,
Frosted Feet and Chilblains,

TUESDAY EVENING, OCTOBER 9, 1866.

Our Future Legislature.

The character of the men who are about to take charge of the government of the united colony of Vancouver Island and British Columbia is a matter of serious speculation just now. The head and front of the oligarchy is Governor Seymour, a man so childish, that because the people of Victoria did not feast him and take off their hats every time he came threading his way through our intricate harbor in his steam yacht (royalty's representative must of course ape royalty); and because the Victoria newspapers were insolent enough to criticise his heaven-born statesmanship, was determined to wreak his vengeance on the people of the island, even if he had to depart from the path of truthfulness. Thanks to the supreme contempt which those intellectual and patriotic giants of the English Colonial Office have for the British colonist, the word of Seymour stood against the colony, and we were obliterated. It is to this man, guided by so erratic a mind, moved by such ungenerous and puerile impulses, we are to look for a policy to stay the present exodus and to allure an immigration to our shores! And who are to be his assistants in this great project? Thirteen salaried officials, who are as destitute of legislative ability as they are of colonial experience—who have about as much idea of the wants of a new country as a Flathead Indian has of astronomy—and whose great aim is to put their hand as deep into the public pocket as it can go, and to perform as little other labor as they possibly can. They are the very essence of that "haw-haw" class which *Punch* has so immortalized, and which form the ludicrous side of English national character. Give them a pair of kid gloves, a little brandy and a few cigars, and they will while away the tediousness of their ten to four office hours, with the air of martyrs. Talk to them about fishing, you know, and shooting, you know, and they will grow "H"-less eloquent; but bore them with business, bring their enlarged minds down to the transactions of ordinary public affairs, and they will show you by their grimaces and their actions, that the people were made for them, you know, not they for the people.

Does any reasonable man expect wisdom from such a quarter as this? Does he expect that liberal and enlightened measures, if they be brought forward by the people's representatives, will meet with official support? We have had a sample of official liberality and intelligence already in the Legislative Councils of both colonies—we have seen how similar were the instincts which guided both bodies—how their selfishness was only equalled by their narrow-mindedness, and how the great aim was to thwart public opinion rather than support it. Can the leopard change his spots? Can these men become in the twinkling of an eye sagacious men, prudent men, liberal men? Surely reason is against the hypothesis. And what have we to hope for? Are the nine or ten popular members by a new process of legerdemain to outvote the majority; or are the officials desirous of so reconstituting the Council that the people will be their masters, not they the people's?—that their salaries and positions will cease to be under their own or the Governor's control? This would certainly be a phase in the official character as novel as it would be refreshing. We are afraid, however, that those who depend on so extraordinary a phenomenon will be disappointed, and that the constitution of the united colony will long remain in its repulsive form.

Let us direct our attention to even the popular element, and what do we expect from it? Does not past experience in the British Columbian Council teach us that it is next to impossible to get independence in an official chamber? How many of the elected members will be found bold enough to advocate measures for the public welfare, if those measures, as they are most likely to do, trench upon the powers or emoluments of the officials We are afraid they will be very few. The official influence over the popular members will be greater than the influence of the constituencies, and we are quite prepared to see a majority of the members elected throw themselves on the side of the Executive. If all the representatives were taken from Victoria city, it would not alter things one iota; the flunkey proportion would still be maintained. And then the great question of the capital, although for our part we think it a most insignificant one, who fancies for a moment it will be anywhere but where Governor Seymour says? And is His Excellency going to stultify himself in the eyes of the Colonial Office by making his capital in the very town whose harbor is not wide enough or deep enough, according to his despatch, to admit the Leviathan? Has he carried out his own, Colonel Moody's and other gentlemen's schemes to increase the value of property in New Westminster only to undo what he has done, to deceive his friends, expose himself, and make his abode among a people whom he has belied, and who cannot therefore be supposed to entertain for him any very great respect. It is evident enough that Governor Seymour is not a philosopher, but we can scarcely imagine a man who has shown so much method in his antipathy to this place and in his friendship for New Westminster, reversing his whole policy, turning suddenly round, and laying his ill-gotten trophies, for which he has fought so strenuously, at the feet of the hated, the despised, and the vanquished.

A large proportion of the children of the working classes in England now being christened are named 'Gladstone.'

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Carturight, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS — FITS — &c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

HEAVY BREACH OF PROMISE SUIT IN SAN FRANCISCO.—A despatch in the *Oregonian* says: General H. M. Naglee has filed his answer in the breach of promise suit brought against him by Mary L. Schell, to recover $100,000 damages. He denies that he ever promised to marry her, and avers that her conduct has been unchaste and immoral since the time of such supposed promise of marriage; that her character and reputation are bad, and that the facts of her bad reputation were not known to him until the time of the supposed promise of marriage.

THIRTY PERSONS were drowned on the 11th September, at Root river, in Minnesota, twenty miles west of La Crosse, by the sudden rise in the river. Twelve of the bodies had been recovered. The Chicago *Times* states that Root river is one of the most remarkable streams of the Northwest. Inclosed in a narrow valley, by upright hills, its waters have been known to rise to a height of thirty feet in a single night, and to subside as suddenly.

FROM PUGET SOUND.—The steamer Eliza Anderson arrived last night at 11 o'clock with 36 passengers and a small freight. The Josie McNear arrived this morning with passengers and freight as per manifast published elsewhere.

FROM PORTLAND.—The steamer Fideliter arrived last night at 7 o'clock with nine passengers and a good freight, flour, grain and fruit. Captain Erskine has our thanks for files of Portland papers.

CARIBOO ELECTION.—A private telegram from Cariboo states that Mr. Walkem, the late member, has a majority at Quesnelle and Soda Creek, and is probably elected by this time.

THE SIR JAMES DOUGLAS broke her piston rod yesterday, and will therefore not go to Nanaimo till Friday.

THE ACTIVE arrived down at 4 p. m., yesterday just after we went to press.

FIRE.—A fire broke out this morning, about eleven o'clock, in a house at the head of View street, recently the property of Mr. J. McCredy, and occupied by the families of Mr. Chas. Kent, hardware merchant, and Mr. Shain, builder. The alarm was speedily conveyed to town and the fire companies, the Deluge leading, closely followed by the Tigers, rapidly made their way to the spot. Meanwhile the occupants of the burning dwellings, assisted by the neighbors, began to carry out the furniture, the greater portion of which, as well as that from the house of Mr. Malandaine immediately adjoining, was saved, although somewhat damaged in moving. When the engines arrived the roof of the house, a two-story one, was all in flames; the firemen, however, at once went to work, and in a few minutes had two streams of water playing on the fire, with fair prospects of speedily drowning it out. But the supply of water began to fail, and during the delay of moving the engines to fresh wells the fire gained headway, and it became evident that the building could not be saved. The Hook & Ladder Co now came into requisition, and a portion of the burning structure was pulled down; a fresh supply of water being procured the engines resumed playing, and soon obtained a mastery over the flames. The house was a complete wreck, but the small dwelling adjoining was saved by the efforts of the firemen. At the commencement of the fire a little son of Mr. Shain, aged 12 years, while running home from school, fell down and broke his collar-bone. The firemen behaved admirably, and had the supply of water at first been sufficient, they would without doubt have saved the building. It would be invidious to particularize when all did so well, but we may give especial credit to the new chief and assistant engineers, who mounted the roof amid flame and smoke and directed the efforts of the firemen. They were ably seconded by the foreman and assistants of the different companies, as well as by individual firemen and many citizens. The department generally deserves the hearty thanks of both the sufferers by the fire, and the citizens for their laborious, dangerous and self-denying efforts. The house was insured in the North British and Mercantile Insurance Co. for $
We are sorry to learn that none of the occupants had any insurance on their property. Mr Neustadt a lodger in Mr. Shain's lost everything he had in the house. The fire is supposed to have originated from a defective flue.

THE RUSSO-AMERICAN TELEGRAPH.—A despatch published in the *Oregonian* says: A letter from the Western Union Telegraph party, dated at St. Michel's, North West Coast, Aug. 2nd, say the ships from San Francisco had not arrived, but were expected daily. The telegraph employees had had no direct news from the outer world for more than a year. Colonel Kennicott, leader of the St. Michel's party, died suddenly at Milato Bay last May. The remainder of the party were well. Stores were plenty and the Russian officials had treated the party with great kindness and hospitality.

ALBION IRON WORKS.—A rumor had got around that this establishment was about to be closed, but we are glad to learn that the trustees have determined to continue it as heretofore under the management of Messrs. Spratt and Kriemler.

RIFLE SHOOTING.—In the monthly rifle match by No. 2 Company last Saturday, Sergt. Woolacott won the cup for the second time this season, scoring 27 points. Private Brown won the second prize with 20 points.

COMOX OYSTERS.—At Buell's oyster stall to-day we saw the largest and finest oysters we have yet seen in the colony. Buell has received 30 sacks of them per sloop, and we would advise lovers of the bivalve to try them.

BEWARE OF FIRE.—Professor Daly says the only way to prevent fires is to have your chimneys properly "excoriated" "A nod is as good as a wink, &c."

MONEY FOUND.—Yesterday, between the Police office and Wharf street, a sum of money in gold.—Apply to the SUPERINTENDENT of Police. *

THE CAREY PETITION.—This petition was taken round to-day by the American Consul and Mr. Adams and was signed in the course of a few hours by over two hundred citizens.

FROM SAN FRANCISCO.—The brig Franklin Adams arrived last evening in 16 days from San Francisco with a full cargo consigned to Pickett & Co.

THE MAILS.—The steamer Golden City arrived at San Francisco last Wednesday with an English mail.

Last Night's Despatches.

California.

SAN FRANCISCO, Oct. 7—A telegram received yesterday by Messrs. Aldrich, Merrill & Co., states that the new steamer Idaho had made her trial trip successfully, and, having returned to Bath, Maine, left on Friday last for California. The Idaho is to run in the Anchor Line between this city and Portland, alternately with the Montana. The Idaho is a larger and more roomy vessel than the Montana, and has better passenger accommodations than that vessel.

Arrived, Oct. 6—Steamer Oriflamme, 73 hours from Columbia river; British bark Cavalier, 190 days from Glasgow with merchandise; bark Harvest Queen, 19 days from Port Blakely, with lumber; steamer Montana, from Portland.

Europe.

LONDON, Oct. 6—Consols 89¼; 5-20's, 70¼.

NEW YORK, Oct. 7—The cable despatch last night should read: London, 6th—By the treaty between Italy and Austria, the former acquires the territory of Venetia as it existed while under the dominion of Austria, and the debt of Venetia, amounting to 35,000,000 florins is assumed by the Italian Government.

[This correction appeared in our telegraphic news of yesterday.—ED. TEL.]

TRIESTE, October 7.—The insurrectionary movement among Cretans, is spreading rapidly. The cabinet of the Porte talk of ceasing relations with Greece altogether.

BERLIN, October 7.—The patent taking possession of the recent kingdom of Hanover was promulgated by the Government yesterday. The loyalty of the people in all cases is demanded.

India.

Reports of the famine in India are confirmed, and especially in regard to Calcutta.

China.

China dates to July 13th say that the rebels in the province of Yong Chow are much more formidable than had been supposed, every leader sent to oppose them, except one, having met with defeat in one battle. The younger brother of the Viceroy lost 200 Enfield rifles, and out of 1000 cavalry engaged, only 100 escaped. The state of the infantry was believed to have been no better.

Canada.

OTTAWA, C. W., October 3.—The Executive Council sat for several hours last night. It is reported that important dispatches relative to the Fenians were received.

The Board of Trade passed a resolution that American and British silver will be taken hereafter at 4 per cent. discount.

Special Notices.

They have received, ex ship Mohawk, from London, a fine assortment of men's clothing and underclothing, which they will sell lower than any house in town. Give them a call. *

MR. DIGBY PALMER requests that orders for teaching, playing and tuning Piaoofortes, and for instruction in Singing, may be left with Messrs. Hibben & Carswell, Stationers and Booksellers, Government street, or at his residence, near the top of Fort street. *

ALEXANDRE'S GLOVES—Messrs. J. H. Turner & Co., London House, have received to-day, by Express from Paris, a full assortment of Alexandre's famous kid gloves, for which they are the sole agents in Vancouver Island and British Columbia. *

FRENCH MILLINERY—The millinery department at London House is now under the management of a lady who arrived by last steamer from Paris.—J. H. TURNER & Co. *

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints.—These maladies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enteeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic** and **Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts per box.

BANK OF BRITISH COLUMBIA.

Miscellaneous.

PURITY OF CHARACTER.—Henry Ward Beecher draws the following beautiful parallels:—'Over the beauty of the plum and apricot there grows a bloom and beauty more exquisite than the fruit itself—a soft delicate flush that overspreads its blushing cheek. Now if you strike your hand over that, and it is once gone, it is gone forever, for it never grows but once. The flower that hangs in the morning impearled with dew—arrayed with jewels—once shake it, so that the beads rolls off, and you may sprinkle water over it as you please, yet it can never be made again what it was when the dew fell slightly upon it from heaven! On a frosty morning you may see the panes of glass covered with landscapes, mountains, lakes and trees, blended in a beautiful fantastic picture. Now lay your hand upon the glass, and by a scratch of your finger, or by the warmth of the palm, all the delicate tracery will be obliterated. So there is in youth a beauty and purity of character, which, when once touched and defiled, can never be restored; a fringe more delicate than frost work, and which, when torn and broken, will never be re-embroidered. A man who has spotted and soiled his garments in youth, though he may seek to make them white again, can never wholly do it, even if he were to wash them with tears. When a young man leaves his father's house, with the blessing of his mother's tears still wet upon his forehead, if he at once lose that early purity of character, it is a loss that he can never make whole again. Such is the consequence of crime. Its effects can can never be eradicated, it can only be forgiven."

THE ATLANTIC CABLE TARIFF.—The tariff of charges for the Atlantic Cable is beginning to excite considerable inquiry and discussion abroad as well as at home. A letter to the London *News* states that the French Government has been in communication with the directors concernnig the tariff, and the prospect now is that the demand for the service of this line will daily increase. Many of the leading firms in London and New York have used it daily since it came into operation, and in one case upward of £800 was paid for a single dispatch. At the present rate of working and at the rates now demanded, the Cable would earn £1,500,000 per annum. It is not probable that one or even half a dozen cables will meet the demand for telegraphing between the old and new world. There are twenty or more lines between London and Liverpool, and often during the day these get 'blocked' with messages. It is now contemplated to charge the messages by the Cable according to a graduated scale — first-class messages, having the immediate priority, charged the highest, second and third class, guarantied to be delivered in a certain time, to be at a lower rate, but nothing of this kind has been decided upon. No rates lower than the present will be established, however, and the probability is that they will be higher.

THE ATLANTIC CABLE—At a recent meeting of the French Academy of Sciences, M. Babinet suggested that it would be well to take advantage of the Atlantic telegraph to determine with precision the longitude of the American terminus. There was reason to make haste, he said, because there were very few chances of the transmissions lasting long. As a reason for his opinion, M. Babinet produced a piece of heavy telegraph cable which had been five years at the bottom of the British Channel. The exterior metallic covering was completely eaten off by the salt water, which had also commenced to affect the central twist. After stating the differences in the sizes of the cable exhibited and the Atlantic Cable, which is smaller, and averring that the sea water destroys fully a millimetre (about 1-25th part of an inch) of the metallic covering every year, M. Babinet reiterated his belief that the success of this cable would be of only ephemeral duration.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged they will prove most invaluable, as a remedy, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills.—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhea,
Dropsy,
Debility,
Fever and Ague.
Female Complaints,
Headache,

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the time in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits, and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244, Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 3. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

Ague	Female Irregularities	Scrofula or King's Evil
Asthma	Fever of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel complaints	Head Ache	Tic-Douloreux
Colics	Indigestion	Tumors
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness from whatever cause
Dysentry	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	

*** There is a considerable saving by taking the larger sizes.

Directions for the guidance of patients in every disorder are affixed to each box.
