Miscellaneous.

THE SANDWICH ISLANDERS.—The statistics of the decline of the Hawaiian or Sandwich Island race are positively frightful, and we believe almost unparalleled in modern history. In 1823, three years after the arrival of the American missionaries, the population of the islands was estimated at from 130,000 to 150,000 souls, while twenty-five years later, in 1848, there were not more than 80,000 inhabitants. The census of 1853 gave the total population at but 73,137, of whom 2,118 were foreigners, with the enumeration of 1860 showed a further decline to 69,800, namely, 67,684 natives and 2,116 foreigners. Thus there was a decrease of 3,337 individuals, or nearly five per cent. in the course of seven years. What increases the meaning of these figures is, that the women are dying out much faster than the men, the excess of males over females amounting at the census of 1860 to not less than 6,193. It seems but too probable, therefore, that the unmixed Hawaiian race will follow the Dodo, and be extinguished within the term of our own generation. The missionaries appear yet to entertain a hope of regeneration by means of police and hard work. But what on earth can ever induce a people to work in a country where a *laze* pit, having the area of an ordinary dressing-room, will keep a man in food the whole year. Even a sub-editor would go on strike under these conditions. Travellers seem inclined to look upon the degradation of the women as one of the great causes of the decline of the race, but it appears very doubtful whether this is not rather a consequence than a cause.

An intrepid swimmer has crossed the Lake of Geneva, between Belotte and Bellevue. The feat occupied about two hours and a half.

Dr. Hostetter, of Pittsburg, the manufacturer of bitters, returns an income of \$124,735—a monument to advertising.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Mediceus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Mediceus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggell, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhoea Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGELL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggell's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

Relief for the Afflicted.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker,
Liver Complaint,
Dyspepsia or Indigestion,
Cramp and pain in the Stomach,
Bowel Complaint,
Painters' Colic,
Asiatic Cholera,
Diarrhoea and Dysentery.

Taken externally cures

Felons, Boils, and Old Sores,
Severe Burns and Scalds,
Cuts, Bruises and Sprains,
Swelling of the Joints,
Ringworm and Tetter,
Broken Breasts,
Frosted Feet and Chilblains,
Toothache,
Pain in the Face,
Neuralgia and Rheumatism.

PAIN KILLER.

Taken internally, should be adulterated with milk or water, and sweetened with sugar, if desired, or made into a syrup with molasses. For a COUGH and Bronchitis, a few drops on Sugar, eaten, will be more effective than anything else. For SORE THROAT, gargle the throat with a mixture of Pain Killer and water, and the relief is immediate and cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with all directions for its use.

Prices 25 cents, 50 cents & \$1 per bottle.

Ayer's Pills

Are particularly adapted to arrangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.
"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.
"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any other remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA—INDIGESTION.

From Dr. Henry J. Knaz, of St. Louis.
"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY—DIARRHOEA—RELAX.

From Dr. J. G. Green, of Chicago.
"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practices as a Physician and Midwife in Boston.
"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotics of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION—CONSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.
"Too much cannot be said of your PILLS for the cure of constiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe constiveness to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD—SCROFULA—ERY-
SIPILAS—SALT RHEUM—TETTER—TUMORS
—RHEUMATISM—GOUT—NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.
"You were right, Doctor, in saying that your PILLS purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system."

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOM-
ACH—PLEURISY—PLETHORA—PARALYSIS
—FITS—&c.

From Dr. Edward Bond, Baltimore.
"Dear Dr. Ayer: I cannot answer you what complaints I have cured with your PILLS better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INFLUENZA, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, Cherry Pectoral is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business it is to know; in short, if there is any reliance upon any thing, then is it irrefragably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures too numerous and remarkable to be forgotten.

The Victorian Imbroglio.

The Daily News of July 19, referring to the recall of Sir Charles Darling and the appointment of the new Governor of Victoria, remarks:—

Mr. Cardwell's instructions strike at the root of all responsible government. The colonists know and feel it, and they are determined to defend their rights. Mr. Cardwell wrote, for the guidance of General Carey, that 'in the event of an occasion arising in which it would be clear to his judgment that the advice of his ministers for the time being would involve a violation of the law,' he was to dismiss them. Imagine any constitutional minister writing thus to the governor of a British colony! Mr. Cardwell did not proceed to inform General Carey how he was to carry on the government of the colony after dismissing the ministers who had the confidence of the Assembly. In England the Crown follows the opinion of its responsible advisers upon points of law, and never thinks of setting up a merely personal conviction against their authority. The new Governor of Victoria, however, is to do this—to presume to know better than his responsible law officers, who are sworn to advise him, what is lawful and what is not. The folly of this act is inconceivable. Why is the individual judgment of a military functionary to be deemed a better guide on points of constitutional government than the public judgment of the responsible advisers of the Crown? (And, supposing the new governor and the council to be united in opposition to the House of Assembly, how is the government to be carried on? Of one thing the British origin and character of the colony is a pledge; it will not be carried on under such conditions. The colonists will not allow an Upper House, elected on the basis of a restricted suffrage, and a paid public servant who has no interest in the colony, to overbear the Assembly which represents the people.)

The Daily Telegraph, while approving of the recall of Sir Charles Darling, enters its protest against a style of discussing Australian politics which is only too common in Great Britain. It proceeds to say:—

We are tired of those tirades about the "failure of democracy," in which every Tory whipper-snapper is accustomed to indulge. We have assuredly no love for democracy in the abstract; but it is only a doctrinaire who will maintain that a system which would be undesirable for a country like England, is therefore unsuitable for a new community. We join issue, moreover, not only on the theory, but on the facts; and we ask, without much anticipation of receiving an intelligible answer, in what respect the government of the Australian colonies is a failure. Under enormous difficulties, the statesmen of the new continent have made life and property as secure as they are in any country of the world, and with a motley population to disturb them, they have succeeded in maintaining order and tranquillity. Even in the great constitutional crisis at Victoria, have there been any breaches of the peace, any turbulent outbursts of democratic passion? The whole question has been agitated as calmly in Melbourne as our own Reform Bill was discussed at Westminster; and although there was an overwhelming numerical preponderance in favor of the Assembly, the bare idea of coercing the council by physical force was never for one moment entertained. Nay, more—the chief offender against the Constitution was the viceroy of Her Majesty, who is now on his way home; he it was who strained the law to suit the purpose of his advisers. It is pitiful to point a schoolboy theme about the weakness of democracy, with taunts at men who are as loyal and as law-abiding as ourselves. Failure? We know upon the earth no grander example of political success than that presented by Australia; no nobler proof of the worth of English institutions for an English people than the way in which they are working at the Antipodes. Too many of us are accustomed to think of colonial parties as insignificant and petty. Why, the statesmen of the new land have to deal with the distribution and the government of territories compared to which the boundaries of the British islands are parochial; they have to guide and direct the growth of States which, in the far future, will probably eclipse our own; and yet they are to be treated as though they were parish vestrymen squabbling about a rate of two pence in the pound! It is because we utterly repudiate and despise a tone of thought at once so ungenerous and so silly, that even whilst applauding the removal of Sir Charles Darling, we hasten to do justice to the good feeling of those who are still his staunch and firm adherents.

A Triumph of Science

—AND—

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, published to the public. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is to prevent disease, but to cure. They are rich in the various medicines by which the patient is suffering, and re-invigorate the ailing system. The aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH.

For in every case they add new life and vitality, and restore the waning energies to their prime state. The young and old will find they will prove most valuable as a rest, specific and ailing medicine. Here is a dream realized, that Pinco-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth over

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloft, diseases that will tri-umph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching efficacy to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma, Bowel Complaints, Coughs, Colds, Chest Diseases, Constipation, Diarrhoea, Dropsy, Debility, Fever and Ague, Female Complaints, Headache, Indigestion, Irritation, Liver Complaint, Lowess of Spirits, Ringworm, Rheumatism, Salt Rheum, Scalds, Skin Diseases.

NOTICE.—None genuine without the engraved trade-mark around each pot or box, signed by DR. J. MAGGIEL, 43 Fulton street, New York, to counterfeits which is felony.

Sold by all respectable Dealers in Medicines throughout the United States and Canada—at 25 cents per box or pot.

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).

The Edinburgh Review (Whig)

The Westminster Review (Radical)

The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. Scott & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank.

Whoever dispenses with reading publications of this kind, will never be able to form a correct opinion of the late civil war now being written by G. J. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war now being written by G. J. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

"The Blood."

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid a new health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarletina, Fevers, and other diseases attack the little sufferers, and death but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 241 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1/2,

THE PUBLIC MEETING.

The most important public meeting ever held on Vancouver Island came off last evening at the Theatre. The object as announced, was to take into consideration the condition of the colony. Owing to the absence of the principal parties who called the meeting, much time was lost, or rather spent, in the absence of a chairman, in the usual chaffing. Following, we give a condensed report of the proceedings. It was evident from the commencement that a number of persons had entered the Theatre for the purpose of creating a disturbance, and breaking up, if possible, the meeting. Foremost among this class were a number of Government officials and hangers on. The fact, however, that none of them could obtain a hearing sufficiently showed the unpopularity of them and their cause. In vain they tried by introducing in the most irrelevant manner every description of amendment, in vain they attempted to disgrace the name of Her Majesty by bringing it forward as an "amendment,"—every description of chicanery and buffoonery was tried, but proved fruitless. The determination of the meeting was to deal with the business before them—to decide on the measures best adapted to improve the condition of the colony. The resolution published elsewhere, and which was carried overwhelmingly, will we think effect the object desired. It will show to Her Majesty's Government that the people of this colony are not lost to all sense of shame—that they feel the ignominy to which the Imperial authorities have attempted to reduce them, and that their very loyalty and attachment to Great Britain will be endangered, unless Her Majesty's Ministers show a disposition to look upon the people of this colony as British subjects, possessing the rights of freemen. In no other way can we arouse the blunted sensibilities of our Downing Street rulers, and we think the resolution when it has gone its rounds will do this effectually.

Mass Meeting.

The theatre was crowded to its utmost capacity last night in response to the call for a public meeting to consider the state of the colony. The conveners of the assembly had evidently acted on the spur of the moment, and without making the necessary arrangements, as for some time after the house was filled, the platform remained unoccupied. After some 15 or 20 minutes had elapsed during which the audience amused themselves by chaffing each other and calling loudly for various persons, Mr. Wm. Leigh, Town Clerk, at length came forward and took the chair. A similar interregnum again followed, till at length, after loud calls,

Mr. McClure came forward, and was received with loud applause, mingled with hisses. He stated that he was surprised at the non-appearance of certain gentlemen who had promised to appear on the platform, but as they had not come forward he would himself assume the responsibility. Mr. McClure then briefly considered the present unfortunate state of affairs, alluding to the great falling-off of business and the rapid decrease of the population, and showing how we were cursed by an extravagant and imbecile government, and the way in which we had now thrust upon us a union that deprived us even of the privileges we had heretofore enjoyed as British subjects, and reduced us to the condition of serfs. He showed that while the colonies were thus wasting in rapid decay, we had a country more highly favored in natural advantages than many, the proper development of which should make us as prosperous as any country in the world. His remarks were received with loud and frequent applause, till he touched on the Government, when it became evident that there were parties present with the intention of disturbing the meeting. Mr. E. G. Alston, Registrar General of the colony, and Mr. Watson, Colonial Treasurer, took a position near the gallery door, and began to interrupt and annoy the speaker by loud remarks, coughing, and other noises. They were ably seconded by a young man named Fowler, (one of the government clerks whose salary was cut off by the House but who is still retained) and by several official underlings and their friends in various parts of the theatre. The meeting was now frequently interrupted, till at length Mr. Alston went down to the platform and attempted to speak while Mr. McClure was on the floor. He was however, greeted with such a storm of hisses, groans, and hooting that his voice could not be heard. Both parties were now aroused, and neither of the speakers could obtain a hearing. Mr. Treasurer Watson joined his colleague and attempted to speak, but the audience would not hear a word, and drowned his voice with loud cries against the officials.

Mr. McClure asked the chairman to put a resolution in favor of reciprocity with the United States. Mr. Watson scribbled something on a paper and handed it to the chairman, who then put the resolution and the amendment, declaring the latter carried before the audience knew what it was; it subsequently turned out to be "three cheers for the Queen." Mr. Leigh, who appeared to be laboring under serious excitement, at length left the chair, and Captain Stamp was prevailed upon to take it, amid hearty cheers. The chairman asked the audience to give the speakers fair play, and he would limit them to 15 minutes each. He then called on Mr. McClure, who again spoke and was listened to quietly while he spoke in favor of reciprocity with the United States, and in favor of a cheap and liberal form of Government. A

Resolution in favor of reciprocity, which Mr. McClure explained to mean the admission of our goods into United States ports duty free, was then carried almost unanimously. On Mr. McClure's resolution in favor of a cheap and liberal form of Government Mr. Alston rose to oppose but the audience remembering his conduct in the earlier part of the meeting, hooted him down, notwithstanding the remonstrances of the chairman, who then left the chair. An attempt was made by turning off a portion of the gas to put end to the meeting, but it was without avail, the large concourse of people being determined to await the issue of the meeting. According after the officials and their friends finding their efforts to disturb the meeting unavailing had left, Mr. Young, M.L.A., was called to the chair. The real business of the meeting then commenced, and Mr. McClure after showing the necessity of great and important changes in the government of the country, after showing that the only way to draw the attention of the Home Government to the colony was to make it clearly and unmistakably understood that the people rather than be treated as a washes, with out any political status, preferred giving up British connection altogether, brought forward the following preamble and resolution, the reading of which was loudly cheered.

WHEREAS nature has given to Vancouver Island resources calculated to make her the great manufacturing country of the Pacific Coast; but owing to the fact of the United States market being shut out from the Island by the heavy import duties of the Republic, those resources have lain and are destined to lie for years undeveloped; and whereas the Government of the colony has been hitherto of an illiberal and expensive character, standing in the way of the settlement of the country, and oppressing the people with taxation beyond their capacity; and whereas Her Majesty's Government has, by the late act of union, taken away even the few checks which the people previously had on Executive extravagance and oppression, and reduced the population to political servitude:

Be it resolved, that a respectful petition to Her Majesty be drawn up for general signature, pointing out the impossibility of this colony being settled so long as it is excluded from the markets of the contiguous United States, and so long as its Government is irresponsible as well as unduly expensive to the people; and praying to Her Majesty as the only remedy for the present disastrous state of things, as indeed the only salvation of the country, that Her Majesty would be graciously pleased to order the immediate restitution of our political rights, with the full measure of Responsible Government, and the best efforts of Her Ministers to obtain for this colony reciprocity with the United States—failing this that Her Majesty would be graciously pleased to make such arrangements with the Government of the United States as will admit of this colony being annexed to the said United States; showing at the same time the regret which, as British subjects, the petitioners feel at asking for a severance of their connection with the mother country; but showing also that a people accustomed to the political privileges of freemen cannot submit passively to a system of Government that places them in the humiliating attitude of serfs.

Mr. Cochrane M.L.A. then came forward and acknowledged that Mr. McClure was right in saying the policy of the mother country was to allow the colonies to sever the connection with England so soon as they were able to protect themselves, but Vancouver Island was not in this position, nor was it England's desire that the colonies should be annexed to the States. Mr. Cochrane then made some personal allusions to Mr. McClure as editor of the Telegraph, calling him "traitor," when he was met by such a storm of groans that he was obliged to retire.

Mr. McClure being called for again came forward and pointed out the fact that his only opponents were Government officials and Bishop Hill's bum-bailiff. (Laughter.) The former felt that their days were numbered—they knew that they would be obliged shortly to leave the colony without however the consolation which the mechanic had of knowing how to earn their bread. (Hear.) They were but paupers on public bounty, and their efforts there that evening to interfere with the expression of public sentiment was a disgrace to the colony (applause). As for the other gentleman, Mr. Cochrane, a man who only a little while ago assisted in turning a sick woman and children out of a house the property of the Bishop (groans)—a man who from his attempt to take away the public springs down to the present time has been doing the dirty work of clerical usurers and others—he was a nice man, certainly, to come there like the other whippersnappers, canting about his loyalty (loud cheers).

Mr. Cochrane then rose, but making use of rather unparliamentary language he was called to order by the chairman and sat down. The chairman then put the resolution, which was carried by an overwhelming majority—in a report on a five to one vote. The resolution was then declared carried amid great cheering, after which three doleful groans were given for the Chronicle and three deafening cheers for the Telegraph and Mr. McClure, when the meeting quietly separated.

An Appeal to the Citizens of

Victoria, V. I.

THE CONGREGATION EMANUEL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 2nd, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

The Rifle Corps.

The annual rifle match between ten marksmen from the Fleet and ten from the Victoria Rifle Volunteers came off at Esquimalt yesterday. The range was the one generally used by the Fleet, on the beach near Belmont, and was of course perfectly level, although somewhat objectionable on account of the sun being in the faces of the marksmen instead of their backs; the weather however, was very favorable. Below we give the totals from the official score, by which it will be seen that the Victorians won the victory by 17 points. Victoria Rifle Volunteers: Vinter, 49; Hofmayr, 36; Jos. Wilson, 22; Alsopp, 36; Soar, 49; Woolcott, 25; Long, 30; Jno. Wilson, 46; Newbury, 55; Peale, 37. The Fleet: Roffey, 22; Mant, 45; Levett, 43; Ballard, 35; Furner, 43; Shorner, 36; Mortlaw, 39; Rile, 40; Booth 30; Foxley, 23. The ranges were at 200, 300, 400, and 600 yards.

BURNING OF THE BRITISH COLUMBIAN OFFICE.—We deeply regret to learn that the printing office of the *British Columbian*, in New Westminster, was totally destroyed by fire yesterday morning. Flames were discovered breaking out of the building about three o'clock, and notwithstanding every effort on the part of the firemen and citizens, the office was entirely consumed. We learn that the property was uninsured, and sympathise with Messrs. Robson & McMillan under their severe loss. We trust, however, that our contemporary may shortly be able to resume publication, which is the more likely as the plant of the *North Pacific Times* is still in New Westminster, and may doubtless be had at a moderate price. There is much reason to fear that the fire was the work of an incendiary, as traces of a fire having been kindled under the floor of the building were apparent.

CARIBOO ELECTIONS.—Last Monday, the 24th instant, was the day fixed for the election of a representative for the mining district of Cariboo. Several candidates were spoken of, including Messrs. A. R. Robertson, Thomas Harris, Spence, and MacLaren. Mr. Robertson, however, declined to stand, and the Mining Board selected Mr. McLaren as their candidate. The *Sentinel* comes out strongly in favor of Mr. McLaren, giving him a very high character for ability and integrity, and is confident of his return. It was not known, however, at last dates whether he would consent to stand.

TOWN OUT.—The ship Royal Tar was towed out by the Sir James Douglas yesterday morning, and taken across to Uxalady, when she will load for Callao. She will thence go to the Chincha Islands and load guano for Dunkirk. It is stated that the Royal Tar will clear nearly £4000 by the round trip. Mr. Robert Bishop went over on the Royal Tar and will return by the Douglas tomorrow.

FROM NEW WESTMINSTER.—The steamer Enterprise arrived down yesterday afternoon at 4:30 o'clock, with 36 passengers, and \$76,432 for the Bank of British Columbia, in the hands of Mr. Ormandy. Mr. O. left Williams Creek last Friday week, and informs us that owing to the welcome rain water was plenty, and things were looking quite brisk.

ISLAND OYSTERS.—We tasted some Island oysters at Buell's last night that surpassed any of the Olympic bivalves we have yet met with. The "home production" were large, fat, well flavored, and entirely free from copper. We are glad to see one of our resources, at least, "developed."

Public Testimonials.

The addresses and testimonials to D. M. Lang, Esq., late manager of the Bank of British Columbia in this city, were presented in the theatre on Friday afternoon, after we had gone to press. Mayor Franklin occupied the chair and was supported by a great many of our principal citizens; His Excellency and suite appeared in a private box, and the body of the theatre was well filled by spectators, including a number of ladies. The Rifle Corps supplied a guard of honor in the rear of the stage. The following were the addresses presented:

VOLUNTEERS' ADDRESS.
To David Marshal Lang, Esq., Captain Commandant of the Victoria Rifle Volunteer Corps.

The members of your Corps, tender to you on your retirement from command, their sincere regret. As their commanding officer, they feel that you have won their regard by a happy union of those qualities which adorn equally the soldier, the gentleman, and the Christian. They feel that you have sustained to the utmost the discipline of the Corps, at the same time that its maintenance has been tempered by a consideration for the feeling of all; that you have set an example of manly bearing, honorable feeling and patient submission to military duty; and that in you they have found not only the leader to command and instruct, but the fellow soldier and friend on whose general and elevated character they could firmly rely.

In further testimony of your sterling qualities as a soldier, your Corps have presented you with a sword as the most fitting mark of their regard and esteem.

THOMAS LYTTON WOOD,
Capt. 2nd Company.

MECHANICS' INSTITUTE ADDRESS.
To David Marshal Lang, Esq., President of the Mechanics Institute of Victoria, V. I.

DEAR SIR.—The Committee of Arrangement of the Mechanics Institute, having learned with much concern that you are on the point of taking your departure from Victoria, avail themselves of the earliest opportunity of meeting together to express their feelings of deep regret at the circumstance.

Your loss as President of our excellent institution will be long and severely felt, and we desire on this occasion to witness to the zeal, liberality and lively interest ever manifested by you for its prosperity. We are well aware that kindred sentiments from other institutions and associations of our city, to whose existence and prosperity you have so largely contributed, will be addressed to you with like feelings of sincerity and approbation, and that also amongst the citizens of Victoria generally it is greatly lamented that one has ever taken so prominent a part in promoting all measures of public good should now be leaving us. Be assured, dear sir, that in taking your departure from this city, you will carry with you our warmest wishes for your future welfare and happiness.

K. WALLACE,
Vice-President.

THOMAS J. WEEKES,
Hon. Secretary.

CITIZENS' ADDRESS.
Victoria, V. I., Sept. 28th, 1866.

To David M. Lang, Esq.,
DEAR SIR:—After the honorable and prominent position you have for the past three years occupied amongst them, the citizens of Victoria, Vancouver Island, wish publicly to express their esteem of your high character and their regret at your departure.

As a business man they recognise your courtesy and your desire to advance the interests of the community at large so far as it was consistent with duty.

The energy and zeal you have displayed in the advancement of public institutions of a patriotic, intellectual and religious character are best evinced by the success that has attended your exertions.

In bidding you farewell and God speed, they beg your acceptance of the accompanying silver flagon and goblets as a slight evidence of the esteem in which you are now held by them and of their good wishes, which will always accompany you and yours.

LUMLEY FRANKLIN, Mayor.

On behalf of the citizens of Victoria.

To each of the addresses Capt. Lang replied in an eloquent and feeling manner, and was loudly cheered by the audience, which then dispersed, the band playing the National Anthem.

SINGULAR ACCIDENT.—The Cariboo *Sentinel* says: Last Tuesday, as Mr. H. C. Wilmott was engaged in hauling a heavy load of merchandise from Cameronton to Barkerville, his horse became restive and backed the driver over the bank in front of Loring's saloon at the former place. Mr. Wilmott was thrown over the bank and received the full force of the falling vehicle, which pinned him to the spot. Singular to say, when extricated from his perilous situation it was found that a box of matches in his pocket had been ignited by the force of his fall, burning up \$25 in notes and scorching his body badly; with the exception of the injury inflicted by the burning matches he was otherwise unharmed. The only other damage sustained was the breaking of the dray.

ENTERTAINMENT AT THE INSTITUTE.—Tomorrow evening being the opening night of the classes connected with the Mechanics' Institute, an entertainment will be given, to which members and their lady friends are invited. We hope to see a good turn out, and would suggest that by payment of \$1 parties may become members for one month and also obtain admission to the entertainment.

GOVERNOR KENNEDY.—We understand that Governor Kennedy is likely to receive the appointment to the governorship of the colony of South Australia, at a salary of £4,000 a year. His Excellency will, it is said, proceed home on the arrival of Governor Seymour, where he will await his appointment.

FAREWELL DINNER.—The Rifle Volunteers will entertain Capt. Lang at a farewell dinner to-morrow evening at the drill-hall. Arrangements are also, we understand, being made for deputations from the various public bodies, headed by the Mayor, seeing Mr. Lang off on Tuesday.

ANOTHER RESULT OF UNION.—The *British Columbian* of yesterday has a leading article urging the exaction of a Customs duty of fifteen per cent. on all goods now in stock in Vancouver Island, as a measure of justice to the merchants in British Columbia who have already paid duty on their goods, and also as a legitimate addition to the revenue of the united colonies. The *Columbian* intimates its belief that Governor Seymour has already made provision for this impost. We can, however, hardly imagine that so outrageous an exaction can be carried out, or indeed that our merchants will submit to such an extortion. To have to pay fifteen per cent. on all their stocks in hand would certainly be purchasing all the benefits of union and Governor Seymour at too dear a rate!

"SOME PUMPKINS."—Mr. Prosser, gardener to His Excellency, has shown us a cucumber grown by him in the open air, measuring two feet in length by nine inches in circumference. Even the renowned "Sairy Gamp" would, we think, be satisfied with such a "cucumber."

THE LAST COLUMBIAN.—We are indebted to Capt. Swanson for a copy of yesterday's *Columbian*, the only one, the captain says, saved from the fire which destroyed the office. Only the outside of the paper was printed, the disaster having occurred before the inside went to press.

FIREMEN'S ELECTION.—The annual election for Chief and Assistant Engineers of the Fire Department takes place to-morrow, at the Deluge Engine House. Mr. J. C. Keenan is the candidate for chief, and Messrs. T. J. Burnes and Thain for assistant.

PORT OF ENTRY ON PUGET SOUND.—Tomorrow the Port of Entry on Puget Sound will be removed from Port Angeles to Port Townsend.

TELEGRAPHIC.

Europe.

Chicago, Sept. 27.—Among the news items per steamer from Europe, we find the following: The Prussian Chambers have been debating the bill for the election of Deputies to the German Parliament. Amendments were offered and accepted, for allowing all men to vote at the elections and demanding that candidates have full liberty of speech during the election, and that members should be paid.

The Eastern question again claims attention. The *Continental Journal* states that it is no longer the insurrection in Candia which causes uneasiness to the Porte, but the insurrection beginning in Esceew and the Islands of Cayos and Cyprus.

New York, Sept. 27.—Gen Sweeney publishes a card, declining to take any part in the proceedings of the Fenian brotherhood.

Chicago, Sept. 28.—The New York *Herald* editorially says: President Johnson is writing to Southern Governors that they should accept the constitutional amendments lest harder conditions are imposed by Congress.

The *Herald* says in that way Johnson will checkmate the radicals.

California.

San Francisco, Sept. 28.—New York Telegrams quote gold yesterday at 145, sterling 108. Legal tenders dull at 71, buying; 71½ selling.

Arrived, Sept. 28.—Steamer Del Norte, two days from Crescent City.

Sailed, Sept. 27.—bark Torrent, Puget Sound; bark Emily Banning, Bellingham Bay; bark Leonum, Puget Sound; steamer Oriflamme, Portland.

Cariboo.

[From the *Sentinel*, Sept. 20.]

MINING INTELLIGENCE.

CUNNINGHAM CREEK.

Times are very dull on this creek; the only company taking out any steady pay is the Standard co., who are working on a bench at the canon.

ANTLER CREEK.

Several companies are prospecting on the right hand bank of this creek with a view of reaching the hill channel. One company will start a tunnel during the present week. The Bed Rock Flume Co. washed up about 200 feet of the Flume, with very satisfactory results.

CALIFORNIA CREEK.

There are two companies at work on this creek, making wages. The water of Stevens creek has been brought into this creek by means of a ditch.

MISCELLANEOUS ITEMS.

The long wished for rain commenced to fall early on Monday morning and has since continued with intermittent showers until yesterday when it fell very steadily the whole day. The creek, however, does not appear to rise suddenly, although there is now quite enough of water to allow all of the claims to resume work.

Our market is beginning to get steadily supplied with all kinds of vegetables from the Chinese from Quesnelmouth at very reasonable prices. Potatoes are sold at 8c; turnips, 6c; carrots, 16c; and cabbage, 16c. The quality of these vegetables will compare favorably with any in the colony.

The congregation of the Rev. Father Magoggan have purchased the box

lately occupied by Mr. H. N. Steele, at Richfield, and fitted it up as a place of worship. A good footpath has been graded from the wagon road up to the building.

We understand that Mr. A. R. Robertson has declined a nomination as a candidate for the Legislative Council.

LILLOET AND DOUGLAS.

The diggings on the Douglas Portage have proved to be limited in extent. Numerous holes had been sunk in the vicinity of the Discovery claim, but nothing had been found that would pay. A ditch has been constructed by the Discovery Co., and preparations were being made for washing.

Over 300 acres of grain were under cultivation on the Pemberton Portage this season, consisting of wheat, barley and oats, which looked extremely well, and was being harvested with all haste as our informant passed.

The Lilloet Flour Mill had started grinding a part of the new crop. Mr. Scott's new steam mill, on the opposite side of the river, would be in running order this week. Business was very dull in Lilloet.

The Bridge River Mines had turned out very unsatisfactorily, and were abandoned by all except Indians and Chinamen.

Messrs. Jamieson and Cadwalader had gone to Cadwalader creek to prospect about six weeks ago, but nothing had been heard from them.

Lorenzo, at the Fountain, had harvested all his grain crop, which proved to be a very heavy one. The farmers all along the road from the Fountain to Pavilion creek are busy cutting their grain, which looked well.

HOLLOWAY'S PILLS.—Do not let these complaints—These troubles are ever present, and if left untended frequently terminate fatally. It should be every where known that both cholera and diarrhoea depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood and old age.
