Wit and Humor.

A Galway bailiff having been questioned as to whether he had spoken to any of the locked-up jury during the night, gravely answered, 'No, my lord; they kept calling out for me to bring them whisky, but I always said, 'Gentlemen of the jury, it is my duty to tell you that I am sworn not to speak to you.''

A philosophical cabman thus speaks of the section over which his wheels make their tracks:—'If you run over a youngster down here,' said he, 'the folks dont say nothin', 'kase they have got more children and no wittles for 'em; but you jist run over a goat, or a kid, or a sow, or a pig, and blest if a mob aint after you in two minits!'

In a parish not 100 miles from Hexham there once resided a pastor whose mercenary proclivities were frequently spoken of by his flock. One day an old farmer called to pay the tithes, and on settlement there appeared a balance of one halfpenny, for which the priest proposed that they should toss! 'Nae, nae,' quoth the farmer, 'aw nivver was a gam'lor, an' awl not start noo!'—*Hexham Courant.*

To keep the pot boiling.— Uncle Coky Carbo, from Newcastle-upon-tyne, presents his niece, on her marriage, with a dozen tons of the best Wallsend (a very seasonable gift, by the bye). He brings a lovely sample of the same, to be put among the other wedding gifts on the drawing-room table.

A leather medal having been offered for the worst possible conundrum, the prize was unhesitatingly awarded to the following, selected from several hundreds sent in "Why is rascality like the breast of a fowl?" "Because it is a chicane."

An unsophisticated alderman, on being told that the Italians and French have no *w* in their languages, told his informant that he 'couldn't fool him in that way,' and knowingly asked how they could spell wagon, or wealth, or woman, or wine, without a *w*.

A Description.—She was all sorts of a gal—there warn't a sprinklin' too much of her; she had an eye that would make a fellow's heart try to get out of his bosom; her step was as light as a panther's, and her breath sweet as the prairie flower.

A Reason for Everything.—'Pray,' inquired one minister of another, 'seeing so many ladies attend your church, why do you invariably address your congregation as 'dear brethren?'' 'Oh, the reason is easily given,' he replied; 'the brethren embrace the sisters.'

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

THE GREAT REMEDY OF THE AGE.
HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arresteb in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians re-regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure a lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throat
Bite of Moschetoes and Sand-Flies	Fistulas	Skin diseas
Coco-bay	Gout	Scurvy
Chiego-foot	Glandular Swellings	Sore heads
Chilblains	Lumbago.	Tumors
Chapped Hands	Piles	Ulcers
		Wounds
		Yaws

Evening Telegraph.

THURSDAY EVENING, AUGUST 30, 1866.

A PROFOUND REASONER.

Our morning contemporary is always sadly at fault when discussing public questions. No matter what are its views to day, or what they have been yesterday, it is certain to go in antagonism to not only public interest but rationality. In reviewing the position of the Assembly and the Council, it says this morning that the Lower House, in refusing the Council's amendments to the supply bill, "declined to surrender the power which they indubitably possess of determining the *manner* in which the public monies shall be expended." It was only the day before it said the Assembly was acting unconstitutionally in determining how the public monies should be spent; and in the very editorial of this morning in which it avers the House has the right, it tells its readers that the Upper House, in opposing "the unconstitutional power of initiating money votes," that is of saying in what "*manner* the public monies shall be expended," "are entitled to the warm support of every lover of the colony." This is certainly novel reasoning. The House of Assembly are right in asserting a certain claim and the Upper House are right in denying that claim! The right to initiate money votes is simply the right to "determine the manner in which the public monies shall be expended" and nothing more. The Executive sends down the estimates of the revenue and expenditure and the Assembly proceeds to determine *how* the revenue shall be applied. If its duties were confined to merely reducing or expunging items proposed by the Executive, it is very clear it could not determine the *manner* in which the public monies should be spent—it could be merely saying how the public money *shall not be spent*. So much for the muddle into which the *Chronicle* has fallen in its attempts to keep first on one side and then on the other. This is, however, not the only laughable blunder it made. It says to-day His Excellency has two courses to follow—to discharge the officials for the time being or accept the Assembly's supply bill without the sanction of the Council. To adopt the first course it says would be no saving of expense, for the officials *would have to be paid next year*. If the House can prevent the officials being paid this year, what is there to prevent their being paid next year or any year; and from what source does our contemporary derive his information when he says salaries not sanctioned by law this year must be paid next year? But we are told if His Excellency accepts the Assembly's bill without the sanction of the Council his course would be "unconstitutional;" and except the expenditure be in accordance with the demands of the Assembly it would not receive the approval of the Colonial Office." This beats Dogberry's reasoning hollow. If His Excellency *accepts* the Assembly's bill without the Council's sanction, we are told it will be unconstitutional, and consequently cannot be approved by the Colonial Office; if he does not adhere to the Assembly's bill it will also not meet with the approval of the Colonial office. Our contemporary has very correctly headed his article "The Dilemma;" but it is the editor he shows is in the dilemma, not the Governor. One more specimen and we have done. He says: "The duty of the Council in the matter was simple and plain. They should have struck out the unconstitutional portions of the bill and sent it down stairs again. This action would no doubt have been approved by the Lower House, and the miserable business would have been at an end for the session." We defy any person to compress in the same space as the above a greater number of absurdities. It was only yesterday the House passed unanimously a resolution repudiating any attempt on the part of the Council to amend the Appropriation bill, denying the right of the Upper House to do anything but *accept the bill in its entirety or reject it in its entirety*. And yet with this resolution before his eyes our contemporary obliviously says it has no doubt the House would have accepted the Council's striking out those *portions* of the bill, which in its lucid mind are "unconstitutional." The Assembly passed the Supply Bill *unanimously*—they passed the resolution yesterday prohibiting the Council meddling with any detail of the bill, *unanimously*, and they are to-day supported by the people unanimously. When the *Chronicle* attempts to write on public matters let it endeavor to make itself acquainted with the facts, even if it is disposed to distort them, but for the credit of public journalism let us have no more such specimens of ignorance and absurdity. The Assembly is acting constitutionally, and has acted constitutionally in everything it has done in connection with the Supply bill, and its action yesterday in rejecting the Council's foolish amendments is in strict conformity with the letter of "Parliamentary Practice," which prevents the Upper House doing anything more with the Supply bill than accepting or rejecting it.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and delility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Ague	Female Irregularities	Scrofula or King's Evil
Asthma	Fever of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel complaints	Head Ache	Tic-Doloreux
Colics	Indigestion	Tumors
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness from whatever cause
Dysentry	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	

*** There is a considerable saving by taking the larger sizes.

Directions for the guidance of patients in every disorder are affixed to each box.

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 3s. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

An Excellent Custom—In Siberia every young bride, on her arrival at her husband's house, must invite guests to a dinner prepared by her own hands; and this repast is considered a test of the education she has received at her parents' house. Shame and disgrace are the consequence should she be found deficient on such an occasion, and shame also to the parents who did not attend to that essential branch of her education. Whereas, her success in gratifying her guests is taken as a proof, not only of the woman's own excellence, but also as no small recommendation of her own family, among whom she must have had so good an example and received such excellent instruction.

The Steilacoom Robbery.—The three U.S. soldiers who robbed Mr. Locke's safe at Steilacoom last week were arrested last Tuesday about 20 miles south of Olympia by a Mr. Colvin, in whose barn they had slept the night before and whose suspicions they aroused by offering their army muskets for something to eat. Mr. Colvin procured some assistance and pursued them, when the men bolted, but were fired on by the pursuers, one being shot dead, and another wounded in the shoulder. The captors recovered $700 of the stolen money. The surviving prisoners were lodged in gaol at Olympia.

Wolf Shot.—A very large black wolf was shot on the Uplands Farm this morning, by one of two men living in a cabin in that vicinity. The savage brute was devouring a lamb, when a charge of heavy cartridge shot put a stop to his rapacity. The carcase was brought into town and exhibited before the H. B. Co.'s store, where it attracted much notice. The species is very rare, even in the wildest parts of the country, and the presence of this specimen so near the city is a somewhat strange circumstance.

In Transatlantic literary circles it is said that, notwithstanding the American rebellion seemed to our veteran author, Thomas Carlyle, "as only a smoky chimney burning itself out," he was yet "wiser in his day than many other of our countrymen," and bought largely in the funds there when they were low, and notwithstanding urgent recommendations to sell out, refused to do so, preferring to add to them the interest which came to him from those he already possessed.—*London Review.*

Whisky Sellers Caught.—San Juan Island, August 30th.—Yesterday afternoon a canoe laden with five barrels of whisky was seized by the American military authorities on San Juan Island. The whisky is now in the commissary store of the post and is well guarded. The crew, consisting of one white man, named William Pigh, and three Indians, are in the guard house for safe keeping, where they will remain until their case is settled.

The Italian Parliament has just voted for the suppression of the religious corporations in Italy. The dispossessed priests are to be pensioned as follows: Proprietary orders—Priests over sixty years of age, 600 francs; over forty, 400; under forty, 360. Laymen over sixty, 300 francs; over forty, 240; under forty, 200. Mendicant orders—Priests of all ages, 250 francs. Laymen sixty years of age, 144; under sixty, 96.

Horse-Stealing.—The *Alta* says:—The amusement known as "*finding horses*" is going on quite lively in San Francisco at this time, the players generally escaping with entire impunity. Sometimes horses are stolen by parties who merely desire to obtain a free ride, and are willing to run the risk of San Quentin to get one. They ride around until satisfied and then turn the animals loose.

A Fallen Celestial—It is a rare occurrence to see a drunken Chinaman, but last night Ah Ho proved an exception to the general rule of sobriety among his countrymen, being found by officer Ferral lying across the sidewalk drunk and incapable. He was fined $1 25 or six hours' imprisonment.

Convicted—Thomas Dogherty *alias* Donahue was convicted this morning of selling whisky to Indians, but the police giving him a good character otherwise, he was let off with a fine of $50 or two months' on the chain gang.

Theatrical.—Lady Don is at present playing in San Francisco, with great success. The *Alta* mentions that Harry Courtaine took the place of an actor who had been suddenly called away, and that he was warmly welcomed on the stage.

Pedestrianism—A man named Wm. Parish, says the Montana *Republican*, commenced on the 9th inst to walk, for a bet of $1500, 100 consecutive hours without sitting down. He had previously walked 80 hours in California.

A Naples letter say that Thalberg, the great pianist, has turned vine-grower near that city, and that he is carrying it on largely and successfully.

For the North.—The steamer Otter sailed for the north coast yesterday morning, about 5 o'clock. Mr. S. Weynton, H. B. C. S., went up in her to take charge at Fort Rupert, a post which he once before filled some years ago. He was accompanied by his wife and mother-in-law. Mr. and Mrs. Gribbell, of the Metlakatlah mission, also went up on the Otter.

New Church—The foundation of the new Episcopal church at Esquimalt, to be called St Paul's church, is to be laid this afternoon. A large number of the adherents of the Church of England and other citizens have gone down to witness the ceremony which will doubtless be very interesting. The stone will be laid by Mrs. Denman.

Broke Gaol.—A debtor named A. L. Brown walked quietly out of the prison door to-day, while water was being carried in, and had got as far as Johnson street when he was followed and brought back to durance vile.

Hot.—A private letter from Sacramento last steamer says the thermometer stood at 103 degrees in the shade on the 16th. Nice place to live, Sacramento!

The Alleged Deserters—Garry, Brown and Terry were remanded three days more for further inquiries.

A Gray Eagle, measuring nearly eight feet from tip to tip, has recently been captured alive in Mariposa county, California.

For New Westminster.—The steamer Enterprise will sail to-morrow, at 11 a.m.

TELEGRAPHIC.

SPECIAL TO THE EVENING TELEGRAPH.

To-day's Despatches.

Mexico.

New York, Aug. 28—The New York *Times'* correspondent says indications point to the speedy downfall of the Mexican Empire. From Tehuantepec on the lower Pacific coast to the extreme northern frontier every seaport is closely besieged by their outlawed Liberal enemies. The whole line of the northern frontier States as far east as Matamoras on the Rio Grande, and Bagdad at that river's mouth is held by the Liberals. On the coast of the Gulf of Mexico the Empire holds one available seaport, still we are told that even Vera Cruz is kept in a constant state of alarm by the close proximity of large Liberal bands. Jalapa, San Luis Potosi, and Michoacan are still in an actual state of siege. The capital, Puebla, and Orizaba are seriously threatened by Generals Diaz and Falqueroa. Marshal Bazaine, who started northward with the intention of engaging Juarez's main army and forcing it into the territory of the United States, was hurrying back to the rescue of the capital. General Negra, Commander-in-Chief of Mexico and surrounding departments, will leave for Puebla the moment Bazaine arrives. The French army are now powerless. There are at least one hundred thousand Liberals in the field.

New York, Aug. 28—Telegram correspondence of over seven hundred words from Empress Carlotta in Europe to Maximilian passed over the cable on Sunday, and was forwarded to Galveston, Texas, whence a despatch boat would be sent to Vera Cruz.

California.

San Francisco, Aug. 29—Pacific mail steamer California arrived from Panama to-day with mails and passengers.

A slight earthquake was felt in this city ten minutes to two o'clock this morning. There was but a single shock, quite slight, though distinct.

Private telegrams quote gold scarce in New York yesterday morning at ¼ per cent per day and selling at 149. Legal tenders dull at 71@71¼.

Arrived 29th—Steamer California, 16 days 20 hours from Panama.

Sailed 28th—Bark Smyrna, Honolulu; bark Anglo Saxon, Melbourne; bark Architect, Puget Sound.

Last Night's Despatches.

Europe.

Prague, August 28th—The treaty of peace between Prussia and Austria has been ratified by the King of Prussia, and is now on its way to this city for exchange.

Madrid, August 28—One of the Spanish frigates succeeded in capturing the Chilian privateer Tornado off the coast of Spain.

New York, August 28—The Paris *Temps*, received by mail, says the Pope is on the eve of ceding the States of the Church to Napoleon, and assuming for himself the title of Viceroy.

London, August 28—Evening—Consols closed at 89¼ for money.

As a rule, the English do not like light wines; that is, wines of a low alcoholic strength. Northern nations, as a consequence of their climate, demand a stronger wine than do those of the South. We possess this desire in common with Danes, Swedes, and Russians. The polite classes, it is true, favor claret, but the polite classes possess many sources of excitement and exhilaration not open to the great public. Whilst, however, we confess that in this damp climate claret is not likely to be universally drunk, we by no means wish to join in the cry that it is an acid, washy wine, and, like its brethren from Rhineland, is likely to produce pain in the stomach. Very great ignorance prevails on the part of the public in this respect. It often happens that there is much more acidity in a sweet wine than in one which really tastes a little acid.—*Once a Week.*

There are in all, including steamboat piers and railway stations, fifty-two inlets to the city of London, through which in the course of each twenty-four hours no fewer than 706,621 persons enter, a number equal to one fourth of the entire metropolitan population, or, added to the sleeping population, to more than the entire population of Dublin, Edinburgh, and Glasgow put together.

Among the advertisements last week in a London journal appeared the following:—'Two sisters want washing,' and 'A spinster particularly fond of children wishes for two or three, having none of her own, nor any other employment.'

A fine coat may cover a fool, but never conceals one.

Special Notices.

Mr. Zinn begs to announce to the inhabitants of Victoria that he has lately received a large assortment of Children's Carriages and Chairs, Fishing Baskets and Fishing Canes, and a large quantity of Market and Travelling Baskets, China Vases, Fancy Goods and Toys, all of which have to be sold on or before February next at greatly reduced prices Goods sold at wholesale for cost prices. *

Removal.—Messrs. Solomon Bros. have removed to the two-story brick building on Government street, opposite the St. Nicholas Hotel. They have received, ex ship Mohawk, from London, a fine assortment of men's clothing and underclothing, which they will sell lower than any house in town. Give them a call. *

Alexandre's Gloves—Messrs. J. H. Turner & Co., London House, have received to-day, by Express from Paris, a full assortment of Alexandre's famous kid gloves, for which they are the sole agents in Vancouver Island and British Columbia. *

Mr. Digby Palmer requests that orders for teaching, playing and tuning Pianofortes, and for instruction in Singing, may be left with Messrs. Hibben & Carswell, Stationers and Booksellers, Government street, or at his residence, near the top of Fort street. *

Mr. Freeman requests us to state that he is about to remove his Variety store from Waddington Alley and corner of Government and Cormorant streets to the large store on Johnson street known as the "Queen Saloon." *

Autumn Fashions. — Dress goods for autumn, and hats for the autumn season, of the latest style, with feathers to match, have just been received at the London House, Government street, in 40 days from London. *

The People's Friend—Perry Davis' Vegetable Pain Killer.—The Greatest Family Medicine of the Age—Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painters' colic, Asiatic cholera, diarrhœa, and dysentery. Applied externally, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. It is a sure remedy for Ague and Chills and Fever.

Holloway's Pills.—Bilious Affection.—In this country nothing is more common, and few ailments more distressing, than the class of diseases dependant on disordered liver. The sensation of nausea, headache, listlessness, and loss of appetite, will at once be recognised as the symtoms of liver affection, which can only be relieved by regulating the action of that organ. Holloway's Pills exercise over the biliary secretion a healthful influence known and appreciated throughout Great Britain and her colonies. These Pills cure after everything else fails. Sufferers for years from biliousness, sick-headache, and liver complaints have been thoroughly restored by these Pills to sound health and a good digestion, who previously had no enjoyment in life.
