THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the
System

To the very core and centre of all dis-
eases which affect the human body, this remarkable
preparation penetrates. It disappears under
the friction of the hands, as salt disappears
when rubbed upon meat. The unguent per-
forms its healing errand rapidly, safely, and
without pain. Simple eruptions, open sores,
hard tumors, eruptions, developments of all
kinds, abscesses, cancers, old women, and, in
fact, every species of inflammation and sup-
puration, whether in the skin, the flesh, the
glands, or among the muscles, can be arrested
in its destructive course, and permanently
cured without danger by rubbing in this ines-
timable Ointment.

Bad Legs, Bad Breasts, Sores, and
Ulcers.

In many Hospitals in Europe this celebrated
remedy is now used for the cure of old wounds,
sores, and ulcers; in Spain and Portugal, and
in many parts of Italy, the first Physicians re-
gularly prescribe its use. It is a sovereign
remedy for bad breasts and bad legs; and like-
wise for all skin diseases. It is to be found in
the chest of nearly every sailor, soldier, and
emigrant.

Impurities of Youth;—Sores and
Ulcers.

The above class of complaints is surely re-
moved by nightly fomenting the parts with
warm water, and then by most effectually rub-
bing in this Ointment. Persons suffering from
these direful complaints should lose not a mo-
ment in arresting their progress. It should be
remembered that it is not sufficient merely to
smear the Ointment on the affected parts, but
it must be well rubbed in for some considerable
time two or three times a day, that it may be
taken into the system, whence it will remove
only hidden sore or wound as effectually as
though it were palpable to the eye. Bread and
water poultices, after the rubbing in of the
Ointment, will do great service. This is the
only proper treatment for females in cases of
cancer in the stomach, or for those who suffer
from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty
be radically cured if the Ointment be used
freely, and the Pills be taken night and morn-
ing, as recommended in the printed instructions.
When treated in any other way these complaint
only dry up in one place to break out in an-
other; whereas this Ointment will remove the
humor from the system, and leave the patient
vigorous and healthy being. It will require
time, aided by the use of the Pills, to ensure
lasting cure.

Diphtheria, Borchitis, Sore Throats.

Any of the above class of diseases may be
cured by well rubbing the Ointment three
times a day upon the skin covering the throat,
chest, and neck of the patient. The unguent
will soon penetrate the pores and give imme-
diate relief. To allay the fever and lessen the
inflammation, eight or ten Pills should be taken
night and morning. The Ointment will pro-
duce perspiration, which is so essential for
removing fevers, sore throats, and those op-
pressions of the chest which arise from
Asthma, Borchitis, and other causes.

Both the Ointment and Pills should
be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Fistulas	Scalds
Sores	Strictures	Sore Nipples
Burns	Sore Throats	Sore Throat
Bunions	Skin Diseases	Scurvy
Bile of Mouth	Elephantiasis	Sore Heads
and Sand-Flies	Fistulas	Furuncles
ooz-day	Gout	Ulcers
Chilblains	Chilblains	Wounds
Chapped Hands	Chapped Hands	Yaws

Sold at the Establishment of PROFESSOR HOLLOWAY
244, Strand, near Temple Bar, London; also by a
respectable Druggists and Dealers in Medicines through-
out the civilized world, at the following prices 1s. 1d.
2s. 6d. 4s. 6d. 11s. 2s., and 3s., each Pot.

There is a considerable saving by taking the large
size. Directions for the guidance of Patients in every
disorder are affixed to each Pot.

Miscellaneous.

Relief for the Afflicted.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age
has relieved more pain, and caused more
real joy than any other one thing that can
be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommend
its use; the Apothecary finds it first
among the medicines called for, and
the wholesale Druggist considers
it a leading article of his
trade. All the dealers
in medicine speak
alike in its fa-
vor; and its
reputation as a medicine of great
merit and virtue is fully and perma-
nently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case
of sudden attacks of Disease.

Taken Internally, cures
Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker,
Liver Complaint,
Dyspepsia or Indigestion,
Cramp and pain in the Stomach,
Bowel Complaint,
Painters' Colic,
Asiatic Cholera,
Diarrhoea and Dysentery.

Taken externally cures
Fetors, Boils, and Old Sores,
Severe Burns and Scalds,
Cuts, Bruises and Sprains,
Swelling of the Joints,
Ringworm and Tetter,
Broken Breasts,
Frosted Feet and Chilblains,
Toothache,
Pain in the Face,
Neuralgia and Rheumatism.

PAIN KILLER.

Taken internally, should be adulterated
with milk or water, and sweetened with
sugar, if desired, or made into a syrup
with molasses. For a COUGH and
Bronchitis, a few drops on Sugar, eaten,
will be more effective than anything else.
For SORE THROAT, gargle the throat
with a mixture of Pain Killer and water,
and the relief is immediate and cure posi-
tive.

It should not be forgotten that
the Pain Killer is equally as good to
take internally as to use externally.
Each bottle is wrapped with full direc-
tions for its use.

Prices 25 cents, 50 cents & \$1-per bottle.

Ayer's Pills

Are particularly adapted to
derangements of the digestive
apparatus, and diseases arising
from impurity of the
blood. A large part of all the
complaints that afflict man-
kind originate in one of these,
and consequently these PILLS
are found to cure many vari-
eties of disease.

Subjoined are the statements from some eminent physi-
cians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent
qualities surpass any cathartic we possess. They are mild,
but very certain and effectual in their action on the bowels,
which makes them invaluable to us in the daily treatment
of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their
purpose as an aperient, but I find their beneficial effects
upon the Liver very marked indeed. They have in my
practice proved more effectual for the cure of bilious com-
plaints than any one remedy I can mention. I sincerely
rejoice that we have at length a purgative which is worthy
the confidence of the profession and the people."

DYSPEPSIA—INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been
all used in my practice, and have satisfied me that they are
truly an extraordinary medicine. So peculiarly are they
adapted to the diseases of the human system, that they seem
to work upon them alone. I have cured some cases of dys-
pepsia and indigestion with them, which had resisted the
other remedies we commonly use. Indeed I have experi-
mentally found that your PILLS almost all the com-
plaints for which you recommend them."

DYSENTERY—DIARRHOEA—RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I
hold them in esteem as one of the best aperients I have ever
found. Their alterative effect upon the Liver makes them
an excellent remedy, when given in small doses, for bilious
dysentery and diarrhoea. Their sugar-coating makes them
very acceptable and convenient for the use of women and
children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practices as a Physician and Midwife
in Boston.

"I find one or two large doses of your PILLS, taken at the
proper time, are excellent promoters of the natural secre-
tion, when wholly or partially suppressed, and also very ef-
fectual to cleanse the stomach and expel worms. They are
so much the best physic we have that I recommend no other
to my patients."

CONSTIPATION—COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of
costiveness. If others of our fraternity have found them
as efficacious as I have, they should join me in proclaiming
it for the benefit of the multitudes who suffer from that
complaint, which, although led enough in itself, is the pre-
cursor of others that are worse. I believe costiveness to
originate in the liver, but your PILLS affect that organ and
cure the disease."

IMPURITIES OF THE BLOOD—SCROFULA—ERY-
SIPPLAS—SALT RHEUM—TETTER—TUMORS

—RHEUMATISM—GOUT—NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS purify
the blood. They do that. I have used them of late years in
my practice, and agree with your statements of their efficacy.
They stimulate the excretories, and carry off the impurities
that stagnate in the blood, engendering disease. They
stimulate the organs of digestion, and infuse vitality and
vigor into the system."

For HEADACHE—SICK HEADACHE—FOUL STOM-
ACH—PILLS—DROPSY—PLETHORA—PARALYSIS

—FITS—&c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you what complaints
I have cured with your PILLS better than to say all that we
ever treat with a purgative medicine. I place great depend-
ence on an efficient cathartic in my daily contest with dis-
ease, and believing as I do that your PILLS afford us the best
we have, I of course value them highly."

Most of the PILLS in market contain Mercury, which,
although a valuable remedy in skilful hands, is dangerous
in a public pill, from the dreadful consequences that fre-
quently follow its incautious use. These contain no mer-
cury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and
every ounce of it under his own eye, with invariable ac-
curacy and care. It is sealed and protected by law from coun-
terfeits, and consequently can be relied on as genuine,
without adulteration. It supplies the surest remedy the
world has ever known for the cure of all pulmonary com-
plaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP,
WHOOPING COUGH, BRONCHITIS, INFLUENZA, CONSUMPTION, and
for the relief of consumptive patients in advanced stages of
the disease. As time makes these facts wider and better
known, this medicine has gradually become the best reli-
ance of the afflicted, from the log cabin of the American
peasant to the palaces of European kings. Throughout
this entire country, in every state and city, and indeed al-
most every hamlet it cures, Cherry Pectoral is known
as the best of all remedies for diseases of the throat and
lungs. In many foreign countries it is extensively used by
their most intelligent physicians. If there is any depend-
ence on what men of every station certify it has done for
them; if we can trust our own senses when we see the dan-
gerous affections of the lungs yield to it; if we can depend
on the assurance of intelligent physicians, whose business
it is to know; in short, if there is any reliance upon any
thing, then it is irrefragably proven that this medicine does
cure the class of diseases it is designed for, beyond any and
all other remedies known to mankind. Nothing but its in-
trinsic virtues, and the unmistakable benefit conferred on
thousands of sufferers, could originate and maintain the
reputation it enjoys. While many inferior remedies have
been thrust upon the community, have failed, and been
discarded, this has gained friends by every trial, conferred
benefits on the afflicted that can never be forgotten, and pro-
duced cures too numerous and remarkable to be forgotten.

The Political Question.

If anything shows more clearly than another the wretched character of the persons who have opposed the popular movement for a change in the Government of the country, it is the cowardly course they have pursued. Not a single individual of them has ever resorted to argument—the only legitimate method of dealing with public questions. From the rowdy action of turning off the gas in the Theatre to the self-dubbed loyalty trash and pointless abuse of the *Chronicle*, indecency, falsehood, and cowardly bluster have been the only weapons used. Not an effort has been made to show that the people of this colony would be better off under the expensive and inefficient system of Government we are required in the future to sustain than under a form of rule as cheap and as liberal as that which exists in Washington Territory—not an individual has dared to come forward and tell the people of Vancouver Island that it is well for them that the resources of their colony should be locked up, that industry should be tabooed, that the mechanic and artisan generally should be driven from the country, and that the population should be reduced to a few whiskey dealers with the Indians. And yet this is the gist of the whole matter. It was only on Wednesday the steamer Active took from our wharves over one hundred and twenty passengers. The Portland steamer week after week carries its load; and the most unfortunate and sickening aspect of this exodus is the fact that a large portion of those who are leaving are families, and families that have been in the colony for years. Is there therefore anything more insulting to the intelligence of the community under such a state of things as this, than for a newspaper to come out and with the vanity of some silly boy, tell the people "all is not lost—trust in it—it is loyal to the core." What does the man out of employment care for such spurious stuff as *Chronicle* loyalty? What does any person in the community who is suffering from the present state of things (and who is not?) care for this Brummagen attachment to the Crown, this bogus fealty? If it were genuine would it add a single dollar to the wealth of the colony? And the fact of its not being genuine, the fact that its proprietors or conductors are held in the utmost contempt by the community because of their lack of political honesty and independence, only makes the matter as despicable as it is ridiculous. Who have betrayed public interests, lowered the standing of the population of the colony abroad, gone to every depth of public ignominy to please the Executive of Vancouver Island, but these very individuals of the *Chronicle* who now prate of loyalty? Surely they are, with all their obtuseness, not blind to the fact that nobody believes them. The public voice is unanimous in declaring that the dastards who prove false to the people can never prove faithful to the Crown.

We have said not a single individual has dared to come forward to refute our position; a few ruffianly poltroons talk of throwing rotten eggs at men coming forward to discuss public questions—questions which affect the well-being of the entire community—but the rotten-egg argument is the best indication of the rotten cause, and the most convincing proof of the cowardice and incapacity of the parties using it. In the absence of argument, therefore, on the part of the "loyalty-mongers," we can only take up the rubbish which is given us as a substitute. In yesterday's *Chronicle* an appeal is made to the Americans in order to prejudice them against Mr. McClure. This is rather a good joke for rampant loyalty to come down on its knees to the foreigners it is stigmatizing, and ask them for assistance in preserving the country from an annexation feeling which, most laughable of all, it declares doesn't exist! Verily the fool only wants sufficient rope to hang himself. But what is the crime of Mr. McClure, with which these bogus British subjects of the *Chronicle* charge him? Why, being intensely British in sentiment and favoring the Southern States in 1862!—that is, doing what nine out of every ten English newspapers did during the early stage of the American war, when the North was full of bluster, when it exhibited but few

of the great qualities which afterwards came out, and when it was insincere on the question of slavery. Mr. McClure, however, unlike many editors of British newspapers, when he saw that the North had thrown aside incompetency and insincerity, when its mission became a much holier one than that on which it started, became an ardent advocate of the Northern cause—an advocacy that was not diminished by personal observation of the people in the Northern States while the war was going on—and an advocacy which, feeble as it was, he put forward in both the English and Canadian press. So much for our contemporary's "appeal to the Americans." We will assist him, however, in that appeal by saying we care for neither the good nor the bad opinions of the Americans any more than we care for the good or bad opinions of Englishmen. What we consider just and necessary we will advocate, whether it pleases or displeases any portion of our population. We admire the liberality of the institutions of the United States and the energy of character which that liberality brings out, but this admiration does not lead us into humiliation before the American people, any more than being a British subject leads us to swallow every indignity because it comes from British hands. The only policy we have pursued since we came to the colony is the policy we are at present pursuing—that of endeavoring to benefit the country. We have carried out this policy, when it was a serious loss to us to carry it out; we have advocated questions when nineteen-twentieths of the community were against us, and persisted in their advocacy until they were a success. We do not intend to alter our programme at this late day. We have commenced the present agitation and we are determined to carry it through. In doing so we shall resort to nothing but what is fair, constitutional, and legitimate. If we cannot beat our opponents we shall never skulk behind cognomens, or perpetrate rowdism at public theatres; we shall never call upon our friends to rotten-egg any person who espouses an opposite cause to our own. We are strong in the consciousness of right. We know the cause we advocate is the only one to preserve a vestige of British sentiment on the Pacific; the only one to save the colony from hopeless destruction; the only one to bring people back to our deserted houses, to induce men to till our unoccupied lands, to open up our mineral resources, to make the country alive with industry, and the homes of the people the abodes of happiness. We can be bold in the advocacy of so noble a cause; we can afford to despise the miserable opposition of a few degraded men who are willing to shout for any thing that brings with it office or emolument, and the paltry personalities of rickety journalists, whose principles rise and fall according to advertising patronage—not only because we know we are in the right, but because we are certain of success.

PROSPEROUS FARMERS.—The editor of the *Nanaimo Tribune* has been visiting some of the farms in that vicinity, among others the "Cornish Farm, of which he speaks thus:—"It is the best example of what energy and skill, backed by a little capital, can accomplish in the way of farming that we have seen in the colony, and one that numbers of our agriculturalists might find it profitable to imitate. From Messrs Francis and Nicholas, the proprietors, we received the following information: The breadth of land under cereals this year was 40 acres, about two-thirds oats, the remainder in barley. The oat crop was a very heavy one, and the quality first-class. The yield of barley was astonishingly great. On one portion of the farm, where about a hundredweight of seed was sown, the yield amounted to three tons. The turnip crop was not so well forward as it should have been had the weather been moister; it looked healthy, however. The potatoe crop was beyond the average, both in quantity and yield. Messrs F. and N. have forty head of stock on the farm, the like number of hogs, and a large number of geese and fowl. Besides the land under tillage—about 60 acres—they have over 250 acres of meadow, off which they sold this year upwards of \$1500 worth of hay."

FROM NANAIMO.—The Sir James Douglas arrived down last evening. We condense the following items of news from the *Nanaimo Tribune*; a miner named Wm. Wignell was badly injured last Monday week in Douglas Pit by a runaway skip coming down the incline and striking him, crushing his back and hips. He is getting better. * * * The seven young men reported "missing" have turned up, with plenty of game. They will give no information about the result of their prospecting. * * * Constable Stuart and two assistants captured at Departure Bay two canoes containing 70 gallons of Indian whiskey which had been shipped from Victoria by a man named Cutler. Three other canoes containing cargoes of "tangle-leg" were allowed to escape as the constable's canoe could stow away no more. * * * The ship *Riviere*, 29 days from San Francisco, arrived at Nanaimo last Monday week, with 60 tons of freight, chiefly for Cunningham Bros. and Mayer.

THE SAILORS' ROW.—The three sailors and two civilians charged with kicking up a row in Johnson street and assaulting officer Abson, were brought up to-day on remand. After hearing further evidence, the magistrate discharged Tadhunter, the civilian who was in the boat when the sailor jumped into it, there being nothing against him. To the sailors and civilian the magistrate gave a reprimand, telling them they should have assisted the officer instead of resisting him, and warning them against the grave offence of rescuing a prisoner, which was a crime he might have sent them up to trial for. He would fine White, the chief aggressor, \$20 or two months imprisonment, and the other two sailors and the civilian \$10 each, or one month. The magistrate gave officer Abson a high character for steadiness and efficiency.

WESTERN UNION TELEGRAPH.—The *Nanaimo Tribune* says:—A canoe arrived from Skena River last evening with Mr. Robertson and six of the Telegraph Company's operatives on board. The telegraph had been laid for a distance of 350 miles beyond the mouth of Quesselle, and was still progressing northwards at the rate of 3½ miles per day. Mr. Robertson says the greater portion of the country over which the line passes is magnificent prairie land, the grass on it in some places reaching as high as eight and ten feet; it was well watered by numerous small lakes and streams. The company had about 100 men employed—whites and Chinese—when our informant left.

THE LATE SHERIFF'S FUNERAL.—Owing to the funeral taking place yesterday just before we went to press, our notice was necessarily brief and imperfect. Among the pall-bearers we omitted the name of Mr. J. P. Davies; also that at Christ Church and the Cemetery the Rev. Dean Cridge conducted the regular funeral services, while Mayor Franklin, Master of Victoria Lodge, read the Masonic Burial Service.

PANDIOUS. To shew the wonderful effect that the scurrilous letter in the *Chronicle* of the 4th inst., signed "Loyalist," produced on Mr C. B. Young, the letter signed "Monitor" was two days in our office before "Loyalists" letter was published! From what we can learn "Loyalist's" letter may result in very disagreeable consequences to himself.

A LITERARY THIEF.—The *Chronicle* coolly appropriates several items of interest from the last *Nanaimo Tribune* without giving that paper credit. This is an old game of our disreputable neighbor's and one that is looked upon with contempt by respectable journalists everywhere.

STREET ROW.—Joe Eden was brought up in the Police Court this morning, charged by officer McAdam with creating a row in the streets last night. Joe at once "acknowledged the corn," stating that he had been "keeping a birthday" and was rather intoxicated. He was fined \$1.

ARRIVED DOWN.—The steamer *Fideliter* arrived in Portland yesterday at 2 p.m.

Europe.

NEW YORK, Oct. 2.—Foreign advices received by the City of Paris may furnish further explanation of the advance of breadstuffs in the English markets. Heavy rains and continued high winds have inflicted serious injury on the crops in most of the agricultural districts in England and Ireland. In the moorland region the loss will be heavy, the crops remaining in the fields having suffered so much that they will only be fit for cattle, while the standing crops are rotten at the bottom. Barley, oats, peas and potatoes, have all experienced damage. From Scotland the reports are unfavorable. The same observation applies with even greater force to Ireland.

The *Pall Mall Gazette* gives the following statement of the Papal difficulty. While preparing for the eventuality of flight, the Pope is also contemplating the possibility of being detained captive at Rome, and as a consequence has drawn up a secret bull delegating his full powers to a cardinal whom certain reasons prevent his naming at present. As soon as the Holy Father is taken captive or deprived of his apostolic liberty, this cardinal will repair to Vienna or London, and there publish the bull which is now in his possession. All Catholic Bishops, all priests, and all the faithful are, during the captivity of the Sovereign Pontiff, to address themselves to this organ of the Pope reduced to silence, and who will be the interpreter of Peter in bonds.

Eastern.

WASHINGTON, Oct. 2.—[The household effects left at the Arlington Mansion by General Lee, or rather the fragments remaining of them, were recently delivered to the party authorized by General Lee to receive them. This was done, the *National Intelligencer* says, under an order from the President. It appears that nearly everything of any value had been stolen. Many valuable paintings, including some of the family portraits, were taken from the frames, packed in boxes and stored since 1861. These boxes have been broken open and everything of real value taken away, and letters and private papers of General Lee scattered over the house.]

The *Herald's* Washington special says General Dix will only hold his appointment as naval officer for a few days. He has accepted the mission to France, which, I understand, was offered to him with Mr. Seward's full and cordial approval. Whether this fact is an indication of a change in our foreign policy, I must leave you to infer from the General's well known opinions in regard to Mexico and the Monroe Doctrine.

Mexico.

NEW YORK, Oct. 3.—Santa Anna was overrun yesterday by parties who are anxious to enter the services of Mexico. It is reported that a firm on South street has been commissioned to buy up six steamers for the service of the Liberals. The loan of five millions of dollars, which Santa Anna was negotiating, has been concluded with three banking houses in this city.

Canada.

NEW YORK, Oct. 3.—The *Herald* special says, the *Penian* prisoners in Toronto will be tried next week.

Loyal y-screamers.

EDITOR OF THE EVENING TELEGRAPH.—Sir: Seeing a letter in your paper the other evening descriptive of the characters who are putting on the garb of false loyalty for dishonest purposes, I take the liberty of posting some of them more decisively than did even your correspondent "Looker-On." Higgins of the *Chronicle*, who is now so blatant about his attachment to the British Throne and British institutions, only a week or so ago in my presence, and in the presence of several gentlemen on Wharf street, who can testify to the truth of what I state, said he would go in for Annexation, if he thought it would succeed; and Cochrane, who was so loyal in the Theatre, no later than last week declared, in the presence of several gentlemen who are ready at any time to substantiate the assertion, that he would like to see Annexation or any other change that would raise the price of real estate. Now, sir, what can the public think of such fellows as these? Talk of rotten eggs! I leave it to the public if tar and feathers and riding on a rail would not be more suitable treatment?

JOHN BULL.

CHARGE OF ASSAULT.—J. Stephens, of the Halfway House, Saanich, charged a neighbor named Bryant in the Police Court to-day with assaulting him. Owing to Stephens' absence the case was postponed till Monday.

A wandering paragraph says that a lump of ice, say ten pounds, placed in a well will render its water delightfully cool, and far more pleasant than ice water from a pitcher. The ice has to be renewed once in about ten days.

An English paper states that the regiments which were under orders, in the usual term of service, to leave Canada for service in the West Indies and other points, have been ordered to remain in this Province for the present.

Gen. Pope proposes to gather all the Indians roaming in the Rocky Mountains laid on the great plains of New Mexico to a reservation in the Mississippi Valley and teach them agriculture.

We see by the *Times* that the Nova Scotian and New Brunswick delegations to the Colonial-office had an interview with Lord Carnarvon on the 30th July.

REMOVAL.—Messrs. Solomon Bros. have removed to the two-story brick building on Government street, opposite the St. Nicholas Hotel. They have received, ex ship Mohawk, from London, a fine assortment of men's clothing and underclothing, which they will sell lower than any house in town. Give them a call.

Mr. Digby Palmer requests that orders for teaching, playing and tuning Pianosfortes, and for instruction in Singing, may be left with Messrs. Hibben & Carswell, Stationers and Booksellers, Government street, or at his residence, near the top of Fort Street.

ALEXANDRE'S GLOVES.—Messrs. J. H. Turner & Co., London House, have received to-day, by Express from Paris, a full assortment of Alexandre's famous kid gloves, for which they are the sole agents in Vancouver Island and British Columbia.

FRENCH MILLINERY.—The millinery department at London House is now under the management of a lady who arrived by last steamer from Paris. J. H. TURNER & CO.

HOLLOWAY'S PILLS.—Disorders of the Bowels. Complaints of the bowels are ever present, and if left untreated frequently terminate fatally. It should be ever remembered that both cholera and diarrhoea depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal or external disorder a controlling influence necessary for subduing excessive action in the human frame. Holloway's pills are no means to be advantageously taken as a means of keeping the blood pure and the body cool—the only practical plan of maintaining health in youth, manhood, and old age.

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggell is the founder of a new Medical system. The quantarians, whose vast internal doses enteeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most violent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggell's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggell's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggell's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggell's Salve. In fact, it is here announced that **Maggell's Ulcers, Dyspeptic and Diarrhoea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggell's Salve** is infallible. Sold by J. Maggell, 11 Pine street, New York, and all Druggists, at 25 cts per box.

An Appeal to the Citizens of
Victoria, V. I.

THE CONGREGATION EMANUEL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866.

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

Facts and Scraps.

A CAUTION TO PICKLE EATERS—At the Clerkenwell Police Court, London, on the 4th, a respectable man attended before the sitting magistrate to lay before him a statement of facts in connection with mixed pickles. He stated that his servant bought from a shop in the neighborhood some mixed pickles. His wife and servant ate of them, and shortly afterwards were attacked with choleraic diarrhoea, and their mouths were very sore. A surgeon was sent for, who said it was the ninth or tenth case of the kind he had attended under similar circumstances. It appeared that when the pickles went bad, and after they were putrid, they were placed in a tub, mixed with tumeric and mustard, and were then sold as piccalilly. He had purchased samples from twelve different shops, and in each instance he had found that the pickle was bad, and in all the instances some portion was putrid. From what the surgeon had informed him there could be but little doubt that the eating of such pickles was the cause of much of the diarrhoea and cholera now prevailing in the metropolis.

There is an intimate connection between the nerves and muscles of the face and eyes, and allowing the beard to grow strengthens the eye. It is said that surgeons in the French army have proved by experiments, in Africa, that soldiers wearing the beard are much less liable to disease of the eye, and it is generally conceded that if the custom is to wear the beard, the eye retains its lustre and brilliancy much longer.

Archbishop Whately once puzzled a number of clever men in whose company he was, by asking them this question: How is it that white sheep eat more than black? Some were not aware of the curious fact: others set to work and tried to give learned and long reasons; but they were all anxious to know the real cause. After keeping them wondering for awhile, he said: 'The reason is, because there are more of them.'

THE PETROLIA AND WYOMING BRANCH OF THE G. W. R.—This important branch, which by survey is five and a half miles long, is now actually under contract, to be finished and in running order on the 15th October next, by Messrs. McDonald & Brown, Hamilton, old contractors on the Great Western Road.

The Vienna Medical Gazette informs the public that of the 12,000 wounded men brought to Vienna, not 5 per cent. are so severely hurt as to be in danger of losing their lives. This confirms Dr. Russell's statement, in his letter to the Times, respecting the trifling power of the needle gun as a penetrating weapon.

The Mayor of New York has vetoed the resolutions of the Common Council granting permission to build the elevated railroads between the upper and lower parts of the island. The objection on which he chiefly relies is the want of any legal authority in the corporation to confer such a grant.

At a fancy dress ball in Paris, recently, a lady was seen in a very low bodied dress, while floating and waving an abundance of green gauze. She was politely asked by a gentleman what she personated. 'The sea, Monsieur.' 'At low tide, then, madame.' The lady blushed and the gentleman smiled.

The Times, of the 2nd inst., says:—'An unexpected obstacle has arisen which will delay, for a short time, the manufacture of the self-igniting cartridges destined for the converted breech-loading carbines, ordered to bear the name of 'Boxer cartridges.'

A taking novelty is colored starch. It is made in pink, buff, mauve, and a delicate green. Any muslin starched with the new preparation is completely colored, but it washes out, and the garment that was pink to-day, may be green to-morrow, and buff afterwards.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Mediceus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Mediceus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggell, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhoea Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGELL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggell's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—Valley Sentinel.

AYER'S CHERRY PECTORAL, FOR THE RAPID CURE OF Colds, Coughs, and Hoarseness.

BRIMFIELD, Mass., 20th Dec. 1855. Dr. J. C. Ayer, I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of Utica, N.Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza. SPRINGFIELD, Mass., Feb. 7, 1856. BROTHEN AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HENRY CONKLIN, M.D. AMOS LEE, Esq., MONTREAL, writes, 2d Jan. 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisis, and Bronchitis. WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is the best medicine I have found for the cure of Asthma, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

AYER'S HOECH, New York City, March 5, 1856. DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid would procure gain but much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard, ORLANDO SHELLEY, of SPRINGVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—Philadelphia Ledger.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they are unprecedently upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Billious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a full Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

A Triumph of Science

—AND—

THE LIGHT OF THE WORLD

DR. MAGGIEL'S PILLS & SALVE.

These Life-giving remedies are now, for the first time, published to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is a twofold one: to prevent disease, and to cure it. They are the only various malady by which the patient is suffering, and reinvigorate the failing system. The aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the vitality to their native state. The young man who is debilitated by various ailments in his youth, and who is now suffering from the effects of a long and arduous career, will find in these Pills a most valuable and powerful remedy. They will restore the vitality of the system, and give the patient a new lease of life. They will also cure the most distressing diseases of the system, and give the patient a new lease of life. They will also cure the most distressing diseases of the system, and give the patient a new lease of life.

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back an old blood, diseases that will strike you down, live again, and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills—Their almost magical influence is felt at once, and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be taken with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most arching effect to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma, Bowel Complaints, Coughs, Colds, Chest Diseases, Costiveness, Dropsy, Diarrhoea, Dysentery, Fever and Ague.

Female Complaints, Headache, Indigestion, Inflammation, Inward Weakness, Liver Complaint, Lowness of Spirits, Ringworm, Rheumatism, Salt Rheum, Scalds, Skin Diseases.

NOTICE.—None genuine without the engraved trade-mark around each pot or box, signed by DR. J. MAGGIEL, 43 Fulton street, New York, to counterfeits which is felony.

Sold by all respectable Dealers in Medicines throughout the United States and Canada—at 25 cents per box or pot.

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).

The Edinburgh Review (Whig)

The Westminster Review (Radical)

The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. COOT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Who verily dispenses with a radical in formation, will not be altogether behind the time in which he lives—and in these times a person may not get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of high repute, but for the account of the late civil war now being written by G. L. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

TERMS FOR 1866.

For any one of the Reviews.....\$1 per annum

For any two of the Reviews.....7 "

For any three of the Reviews.....10 "

For all four of the Reviews.....12 "

For Blackwood's Magazine.....4 "

For Blackwood and the Rev. w.....7 "

For Blackwood and any two of the Reviews.....10 "

For Blackwood and three of the Reviews.....13 "

For Blackwood and the four Reviews.....15 "

A discount of twenty per cent. will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one review will be sent to one address at \$12 50. Four copies of the four Reviews and Blackwood, for \$48, and so on.

CLUBS.

When sent by mail, the POSTAGE to pay part of the United States will be at least four cents a year for "Blackwood," and but eight cents a year for each of the Reviews.

Re'uced Prices for previous years.

Subscribers may obtain the Reports immediately preceding 1866, as follows, viz.:

Blackwood from September, 1864, to December, 1865 inclusive, at the rate of \$2 50 a year

The North British from January 1863, to December 1865 inclusive; the Edinburgh and the Westminster from April 1864, to December, 1865, inclusive, at the rate of \$1 50 a year for each or any two.

A few copies yet remain of all the four Reviews for 1863 at \$1 50 a set, or \$1 50 for any one.

LEONARD SCOTT & CO.,

Publishers, 38 Walker Street, N. Y.

L. S. & Co., also publish the

FARMER'S GUIDE

By HENRY STEPHENS, of Edinburgh, and the late J. P. NORRIS, of Yale College, 2 vols. Royal Octavo, 1600 pages, and numerous Engravings.

Price \$7 for the two volumes—by Mail, post paid, \$8 00.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by their corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in factories or coal pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluid causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Allments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarletina, Fevers, and other diseases attack the little sufferers; and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 241 Strand, (near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines
