[DELAYED DESPATCHES.]

Toronto, C. W. Sept. 13—A complete armament of Armstrong field guns, to equip two batteries of volunteer militia, are on the way from England. The Government will purchase 1,000 horses for the use of the artillery.

The great Billiard Tournament in New York is drawing to a close. Dion, the Montreal player, has won six out of seven games, securing to himself the title of "Champion of the Champions" and the golden cue.

It is reported that Lord Monck has applied to the Imperial authorities for 40,000 breech-loaders—30,000 for the volunteers, and 15,000 for the regular troops in Canada. 6,000 breech-loaders are stated to be on the way for the use of our militia. There are over 100,000 of the best Enfield rifles in Canada now, and it is intended to make them breech-loaders.

An item providing $134,000 for the purchase and maintenance of gunboats on the Lakes and the River St. Lawrence was concurred in by the House. Mr. Dorion (Republican) argued that year after year they had been called upon to provide more and more for the defence of the country, and that the present arrangements for defence were too vast to meet the incursions of the Fenians and too insignificant against the United States. He contended that the Imperial Government favored the early accomplishment of confederation for the purpose of throwing the entire burden of defence upon the Colonies.

A report came from Toronto that 120 rounds of ball cartridge have been issued to the force there, and 5,000 pairs of shoes have been bought or ordered for the men.

The Financial bill has passed Parliament, and it now only requires the royal assent to become a law. It lays the foundation for a complete change in the banking system.

The Attorney General, in a speech on Friday, says that a request had been sent to the English Government, by the Atlantic cable, for a supply of the new breech-loading Enfield rifles, which no doubt would be forwarded immediately. In the Canadian Parliament a motion to submit the new Constitution to the votes of the people previous to the act of Confederation was negatived.

The Hon. Mr. Galt, Finance Minister, resigned his seals of office in consequence of the withdrawal by the Government of the School bill to which the hon. member was pledged.

Lord Monck made a significant speech in which he intimated that the Canadian Parliament had probably met for the last time under the old act.

IT IS AN
Invaluable Remedy.

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor, and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

AYER'S
CHERRY PECTORAL,
FOR THE RAPID CURE OF
Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, ESQ., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.
SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, ESQ., MONTERAY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.
WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which *cured so many and such dangerous cases as this. Some* no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure *to inform you what your CHERRY PECTORAL has done for* my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or *King's Evil*. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

The Paraguayan War.

(*From the New York Herald, Aug* 21.)

The latest news from South America, with dates up to July 3, represents the Paraguayans as gaining ground considerably, and the allies getting tired of a war in which they find themselves more than matched in the power and valor of the enemy. There is much talk of peace in the Argentine republic, and it appears to find an echo in Brazil and Uruguay. At Rio Janeiro, Montivideo and Buenos Ayres there were strong symtoms of a financial panic, and threatenings of a positive ministerial crisis existed in Rio on the question of continuing the war It was reported that Napoleon was poking his finger into the pie on the side of mediation. It is said that a French emissary of military rank has arrived at Buenos Ayres and put himself in communication with the Commander-in-Chief at his headquarters. The Paraguayans had effectually bombarded the allied camp near the Esten on the 14th of June, doing fearful destruction with their long range guns, while the allied fleet lay inactive three leagues distant, with a desert of brushwood and thorn between them and the troops. Great dissatisfaction prevails at the inefficiency of the Brazilian ships, and the incompetency of the Admiral is loudly denounced by the press. From the general tone of this news a termination of the Platte war is not unlikely to occur before long, but affairs in South America are of such an uncertain character that it is very hard to tell what may happen next.

THE BIRTHPLACE OF WALLENSTEIN A BATTLEFIELD.—The *Pall Mall Gazette* says :—There is something very weird and ghostlike about reminiscences of names and places. not only of the Seven, but also of the Thirty Years' War memory, that come cropping up on all sides in this terrible German struggle. Few people probably are aware that Nachod, the little Bohemian town with its 3,000 inhabitants, about which there was such hot and bloody work for the last few days and even nights, is the birthplace of no less a man than Wallenstein. The church belonging to the deanery of Nachod—which existed as early as 1384—contains the tombs of the ancient Bohemian family of Smirziczki, from which Wallenstein's mother derived her descent, or rather of which she represented the last branch The castle of the Wallensteins, "Castle Nachod," is very ancient, and belonged up to the time of the Hussites, to the family of the Berkas of Duba and Lipa. After that, robber-knights took possession of it, and after several further changes of proprietorship the Smirziczki came into it. After the battle of the White Mountain (1620) Count Terzki, Wallenstein's brother-in-law, appears as lord of the castle, but after the murder of Wallenstein at Eger (February 25, 1694) Octavio Piccolomni received the property as a reward for his dastardly treachery He gave the castle its present shape, and commemorated that wonderful fact in a boastful inscription inside the gates. It stands on a rock which arises steeply almost immediately behind the market place of the little town, and which is reached by a flight consisting of 333 steps. Three courts surrounded the enormous edifice, and around about them are situated the houses of the retinue, the stables, and other out-buildings. The Piccolomni have long died out—only their portraits have survived. Particularly striking is that of Octavio, with which there is also found a battle-piece commemorating his victory over the French at Thionville. The castle now belongs to Prince Auersperg of Prague.'

THE NORSEMEN AND THE SEA.—Early in time and deep in sentiment was the feeling of the Norsemen for the salt water. There is a ship in their old mythology. They buried their heroes under tumuli which presented "uninterrupted view of the sea,' as if even in death the consciousness of its neighbourhood, the cheeriness of its breezes, would reach the Viking in his last lair. The Sagas speak, too, of the dirge of the ocean for their fallen captains, as if the ocean itself shared in that feeling for them which they felt for it. And this tinge of mysticism which the sea so naturally inspires is still remarked by Northerns to belong to the Scandinavian boold.—*The Gentleman's Magaziner*

BITTER.—It seems, from the issue of a recent trial in Paris, that a matrimonial agency which had a negress to marry on their books, used to announce the fact thus :—"A negro lady to marry, with a fortune of two millions and a half francs." The nibbles at the black one were not many, and he who bit was finally bitten.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 3s. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

BENIGNANT RULE.

"I am a Roman citizen" was of old the proudest boast of nationality; and a great boast it was. Rome was not only the mistress of the world but her people possessed the largest share of individual liberty. To be a Roman citizen was to be a man respected both at home and abroad. Two thousand years have elapsed, but we are afraid, with all the strides of progress, human freedom has made but feeble advances. There are but few nationalities now-a-days that admit of the Roman's glorification. There was a time when Great Britain stood forward as the representative of everything that was great and free; there was a time when the meanest subject in the Empire claimed the attention of the governing estates of the realm; and when the boast of being a British subject was one founded on something more tangible than sentiment. That day is, we are sorry to say, gone. British subjectship has degenerated. It has ceased to enforce politeness in the despotic countries of Europe; it has ceased to engender respect throughout the civilized or even the uncivilized world. The English Government, through its intense selfishness and its indifference to every class in the country but the one which can best take care of itself, has lost its influence abroad, and the British subject no more commands attention at home. Poverty may force him into crime, or starvation may end his career in the streets; but not until these stages are reached will the paternal, benignant Government stretch forth its hand; and then its only assistance comes in the form of a gaol for the one and a coffin for the other. Let us trample on the worm, it possesses no sting, is the policy now. Let us crush the helpless, they have no means of retaliation. Let the principles which guide us be those of fear on the one hand and supercilious tyranny on the other. As for our colonies, let us keep them in leading strings as long as we can; let us reserve the gubernatorial patronage for our aristocratic refuse; let us grind the people down with taxation to support our represented dignity; let us in fact do everything but acknowledge that the British colonist is a man, and that he has got inalienable rights. If he petitions us for relief let us put his prayer in the waste basket; if he grumbles let us take away the little modicum of power he possesses; let us in fact show him he is no more in our eyes than the gorilla of Central Africa—that he is living on the sufferance of British aristocracy. If perchance, however, he should become restive—if there is danger of our getting into trouble through that disease he is most liable to fall into, insolent democracy, then let us do as we have done before; let us give him what he demands; but let it not be said we ever acknowledged a right or granted a privilege to these base born hounds that was not forced from us. We recognized the independence of our American colonies when we could not help it, but not before. We scouted the complaints of Canada until she rose into rebellion, when we made her every amend. We ridiculed the demands of the Australian miners until they took up arms and set our laws at defiance, when we granted them what they asked. In a word we kicked and cuffed our colonies, depending all the while on their affection and loyalty—knowing that of all animals, their inhabitants are the most patient and most uncomplaining. It was only when the creatures became desperate through ill-usage, that we relaxed our parental attention and sent them out on their "own hook." Even now, while our colonial connexion is trembling in the balance—when a day may bring forth events that will precipitate our North American colonies into the American Republic—we are carrying out our old game—a game which has cost us so much ill feeling in the past, and which is bound to cost us as much in the future—the game of seeing to what extent we can press our aristocratic foot on the neck of our colonial offspring. Vancouver Island comes to us with petitions for union with British Columbia, in order that cheapness and efficiency may characterize her Government. The people having confidence in our kindness and liberality are prepared to accept any Constitution with which we may provide them. It is a rather superfluous condescension; for whatever constitution we think proper to give them they must, unconditional or conditional resolutions to the contrary notwithstanding, accept. However, like good loyal British subjects, as they are, they have confidence in us, and, as our acts show, with good reason. Our trusty and well-beloved Seymour says the inhabitants are demagogues and unfit for self-government; their own Governor, Kennedy, corroborates the assertion, and as if to clinch the matter sends us extracts from a public journal called the *Chronicle*, in which the people's representatives are stigmatized as scoundrels and black-legs; in which Governor Kennedy is lauded for snubbing the Assembly, for oppressing the colony with burdens, and setting the people at defiance; and in which a Crown colony is prayed for as the only panacea. We, the British Government, are not bad logicians after all. A public newspaper must be supported by the public—if it tries, like His Excellency the Governor, to make out that the people are unfit for self-government, the sentiment must meet with the approbation of the public, or a sufficient portion of them to sustain the journal; hence we have this portion, embracing, it would seem, the Chamber of Commerce, supporting the two Governors against a few scoundrels in the Legislature. The case is clear. Let us reduce these people to serfdom. Tax them, our trusty Seymour, until they grin again; rule them, our well-beloved, until they take their departure for the other side and become good American citizens; and then, when thou hast accomplished this desirable feat—when thou hast driven these patient rats from the sinking ship—come to us and we will bestow our knightly honors upon thee. So may it fare with our good, faithful, and loyal colonists, and with all persons everywhere who place their trust and confidence in our liberal and paternal rule.

DESERTION—Owen Thomas, a young Welsh lad, was charged in the police court to-day by Captain Mark with deserting from the ship Royal Tar. The prisoner said he wanted to leave the ship and join the navy. The magistrate ordered him to be locked up for 10 days, telling the captain he could apply for the man if he wanted him before that time. Mr. Bishop, who appeared for Captain Mark, took occasion to state to the magistrate that last night a mob of rowdies, evidently friends of the seamen who had complained of ill-treatment on the Royal Tar, went alongside the ship last night about 12 o'clock, and abused and threatened the captain. The magistrate said the captain could have a special policeman by applying to the Superintendent of Police.

WHISKY SELLING—Samuel Goodwin, barkeeper at the White Horse Hotel, was charged by Sergt. Ferral to-day with selling a bottle of liquor to two klootchmen. Prisoner pleaded guilty, but alleged that he thought the new Indian Liquor Law was passed. The magistrate said he would let him off with the light fine of $100 or two months' imprisonment.

TWO MEN KILLED—We have learned that a difficulty occurred, some week or ten days ago, between two white men, Harry Spittle, a Mr. Dolan, and some Indians, on the Snohomish river, and that the Indians killed both of the white men. We have not been able to learn the particulars of the murder, or whether steps have been taken to arrest the Indians—*P. S. Weekly.*

AN EX-ASSEMBLY MAN—A letter from Brisbane, the capital of Queensland, Australia, received here by a gentleman per last mail, states that Mr. Charles Street, formerly M.L.A. for Saanich, has opened a dry-goods store in that place, and is likely to do well. The letter mentions that South Australia had been suffering dreadfully from a two years' drought. Beef was 9d. (18c) per lb. Brisbane was in a very depressed state.

ROWING CLUB.—The Club racing boat built by Lachapelle was launched yesterday afternoon, and this morning a crew consisting of Messrs. Jackson, Wood, McCreight, and Howell, with Mr. Pearkes as coxswain, took her up the Arm, and back. She sits the water like a duck, is very steady, and pulls beautifully. She may be seen moored out in the stream off Lachapelles this afternoon.

ALARM OF FIRE.—Several tins of pitch that were being melted in the yard behind Smith's Grocery, Government street, to be used on the roof of the building, took fire this afternoon and caused an alarm, the fire companies turning out with commendable alacrity. The flames were however extinguished by hand without difficulty.

DISASTER TO THE EGMONT—Mr. J. R. Stewart of this city has received information that the ship Egmont, which sailed from London last March with the submarine cable for Behring's Straits on board, had put into Mauritius on May 3d in a leaky state, and would be detained two or three months for repairs.

FROM PUGET SOUND—The steamers Eliza Anderson and Josie McNear arrived this morning with passengers and freight as published elsewhere.

REV. DR. EVANS arrived down from Nanaimo to-day, having come down to Saanich yesterday in a canoe and thence by road this morning.

INDIAN TROUBLES IN OREGON.—The Portland *Oregonian* says:—"Affairs in Eastern Oregon are in a deplorable condition. It is literally true that there is no security for life or property east of the Cascade mountains. Indian marauders are there doing their fiendish work without interruption and without control Business is broken up, communication between different portions of the country is interrupted, and all the interests of that part of the State are suffering from the general feeling of insecurity that everywhere prevails. Nor is there an immediate prospect of a change for the better. On the contrary the situation there is growing worse and worse. The Indians have it all their own way. No places except the military camps and the most populous towns are safe against their incursions. And even before these they not unfrequently appear, and after making a large haul of stock and other booty, retire to their hiding places, to reappear where least expected to plunder and to kill. This sort of thing has been going on for fully two years Ample time has elapsed for the Government to take cognizance of it and provide a remedy. Yet relief seems as far off as ever."

CIVIL VS MILITARY RULE — A correspondent of the Puget Sound *Weekly*, gives a report of the proceedings at the recent District Court held at Port Townsend, says an indictment was found against Capt. Gray of San Juan Island for false imprisonment and malicious trespass The Captain refused to allow the Sheriff of Whatcom County to arrest him. The Judge ordered the Sheriff to bring him if it took all the men in the Territory to do it. The Sheriff then went with a posse to arrest the Captain, who informed him that he had seen the U. S. Attorney and made arrangements so that it was not necessary for him to appear. The Sheriff and posse returned and found that Mr Holmes had applied for a stay of proceedings, which the Court refused, repeating the order for the Captain's arrest. And so the matter rests at present.

[A verdict was since rendered against Capt. Gray for $5,000, as we have already noted.—ED. TEL].

PORT TOWNSEND.—A correspondent of the *P. S. Weekly* says:

Port Townsend is improving We are now blessed with a good hotel which this town has much needed for some time. Mr. Sires has fitted up the Pioneer Hotel in good style and with good taste and is well prepared to receive the travelling public. There is considerable whitewashing and papering going on, on the strength of the removal of the Custom House to this place next month. Property, however, has not gone up Good building lots can be had at $50 and upwards. A son of F. W. Pettygrove exhibited in town a large panther that had been killed in his field on the night of the 18th inst It measured 7 feet and weighed 140 pounds. It had carried off several sheep and the dogs had all lost their reputation for honesty.

TELEGRAPHIC.

Europe.

LIVERPOOL, Sept. 22, noon.—The steamship Persia which sails from here at noon for New York takes out £30,000 on American account. Quite a number of Fenians were arrested here to-day. Arms and munitions of war supposed to belong to the brotherhood were also found secreted in various parts of the city and were promptly seized.

Mexico.

NEW YORK, Sept. 22, noon.—The *Herald's* Vera Cruz correspondent of the 11th states that there are no indications of the withdrawal of French troops. The Eighty first French regiment was expected to leave on the 10th, but only one battalion came down from the capital. French arms were expected in large amounts to increase the strength of the Imperial army. General Urequa proceeds to Europe on a mission, and will then accompany the Empress back to Mexico. Maximilian has sent a minister to the Pope.

WASHINGTON, Sept. 23—M. Romero has received dispatches from Vera Cruz of this month containing most gloomy information for Maximilian and the French. President Juarez and his cabinet were making preparations to establish at Monterey a national government.

California.

SAN FRANCISCO, Sept. 24—The Sacramento with Her Majesty Queen Emma on board was telegraphed at about 10 o'clock to-day; at ten minutes past two she rounded Fort Point, followed a few minutes later by the U S. steamer Shubrick, and received a salute of 21 guns from the Fort coming up the harbor. She was saluted at Black Point. The same salute was given as she passed the Vanderbilt, which hoisted the Hawaiian flag at her foremast. The Sacramento attracted universal attention as she came up the bay, from the fact of her flying an enormous flag at her mainmast head—the Royal Standard of Hawaii, made of Royal dimensions, about the size of a first class clipper ship's foresail. The Queen was officially received, without ostentation, by Dr. C. M. Hitchcock, American Consul to the Sandwich Islands. Elegant apartments profusely decorated with rare and beautiful flowers have been arranged for her at the Occidental Hotel, and the Hawaiian flag was hoisted over that building

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints.—These maladies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

THE DISPUTED BARONETCY.—The Slade baronetcy case is to come on for hearing at the Wells assizes. It appeared that Lady Slade, at the time of her marriage with the late Sir Frederick Slade, Q. C., supposed herself to be a widow, her former husband having deserted her, and a report was circulated that he was dead. After the birth of Sir Frederick's first son the first husband was heard of, but there was no absolute certainty whether he was alive or dead. Accordingly, before the second child was born, in order that there might be no doubt about his legitimacy, the parents were married again. The same ceremony was repeated before the birth of each child in succession, and, as there are seven of them, each claims the title and estates. There will be an immense bar, and witnesses are summoned from various parts of the world.

A SHARP SWINDLING TRICK.—A smart swindling trick is reported at Hull. It appears that some rascal broke a pane of glass in the window of a tradesman's shop in the neighborhood of Prospect street, and, on being stopped by the shopkeeper, assumed intoxication, and pleaded that what he had done was quite unintentional He, however, alleged that he was quite willing to pay for the damages, but he had no change—nothing but a £5 note. The tradesman offered to meet the case by taking the note and giving change, which he did; and very soon after the fellow had gone it was discovered that the note was a forged one. The culprit has not yet been detected.

Negotiations were opened several years ago but without result, between the cabinets of Vienna and Paris, with the object of removing to France the remains of Napoleon II, Duke de Reichstadt. A letter from Vienna now states that the Emperor Francis Joseph, to show his gratitude towards Napoleon III., has spontaneously offered to restore them to France.

A rumour is current in Ireland to the effect that Viscount Monck will retire from the governor-general-ship of Canada on the confederation of the British provinces, and that Lord Naas will become his successor. In this event, it is added, Mr. Gregory will likely become Chief Secretary for Ireland.

The *Army and Navy Gazette* says:—"The celebrated needle-gun has again been tried at Chalons, and found wanting. About 150 of these weapons were put into the hands of the Guards, and the commission has reported that these rifles are not suitable to French troops.'

Mrs. Theresa Yelverton (Longworth) has presented a petition to the House of Lords, praying that she may be permitted to proceed with her second appeal from the Court of Sessions in Scotland against Major Yelverton *in forma pauperis*.

It appears that £70 or £80 have been received in discharge of the fines inflicted on persons charged with rioting in Hyde Park, and a considerable portion of the amount is understood to have been furnished by the Reform League.

In the Divorce Court, on the 28th, an attachment was granted against Lord Thomas Clinton for alimony of £100 allotted to Lady Clinton, who was recently divorced from him. His lordship has been staying abroad, but has lately returned.

On the 28th the Elcho shield, won by the Scottish eight, at Wimbleton, was placed in the Parliament House, at Edinburgh, amidst considerable demonstrations of enthusiasm on the part of the volunteers.

A Conductor has been fined $500. in Buffalo, N. Y., for ejecting a man from a car because he refused to give his seat to a woman. The court held that ladies, or those who wish to be considered such, are legally entitled to no more privileges in public conveyances than men, and that when the latter pay for seats, they have a perfect right to occupy them so long as they conduct themselves in a proper manner.

NO ACTION.—It was once ruled in an action for libel, brought by a clergyman against a pamphleteer, that to call a lawyer a fool was actionable, because one could not be a fool without being a bad lawyer; but that the same term applied to a clergyman was not actionable, since a man might be a fool and yet a very good parson.

THE ONE THING WANTED.
HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid one health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 3s. 9d., 4s. 6d., 11s., 22s., and 33s. each box.
