THE GREAT REMEDY OF THE

AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the
System.

To the very core and centre of all diseases
which affect the human body, this remarkable
preparation penetrates. It disappears under
the friction of the hands, as salt disappears
when rubbed upon meat. The unguent per-
forms its healing errand rapidly, safely, and
without pain. Simple eruptions, open sores,
hard tumors, scrofulous developments of all
kinds, abscesses, cancers, old wounds, and, in
fact, every species of inflammation and sup-
puration, whether in the skin, the flesh, the
glands, or among the muscles, can be arrested
in its destructive course, and permanently
cured without danger by rubbing in this in-
estimable Ointment.

Bad Legs, Bad Breasts, Sores, and
Ulcers.

In many Hospitals in Europe this celebrated
remedy is now used for the cure of old wounds,
sores, and ulcers; in Spain and Portugal, and
in many parts of Italy, the first Physicians re-
gularly prescribe its use. It is a sovereign
remedy for bad breasts and bad legs; and like-
wise for all skin diseases. It is to be found in
the chest of nearly every sailor, soldier, and
emigrant.

Imprudences of Youth:—Sores and
Ulcers.

The above class of complaints is surely re-
moved by nightly fomenting the parts with
warm water, and then by most effectually rub-
bing in this Ointment. Persons suffering from
these direful complaints should lose not a mo-
ment in arresting their progress. It should be
understood that it is not sufficient merely to
smear the Ointment on the affected parts, but
it must be well rubbed in for some considerable
time two or three times a day, that it may be
taken into the system, whence it will remov-
only hidden sore or wound as effectually as
though it were palpable to the eye. Bread and
water poultices, after the rubbing in of the
Ointment, will do great service. This is the
only proper treatment for females in cases of
cancer in the stomach, or for those who suffer
from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty
be radically cured if the Ointment be used
freely, and the Pills be taken night and morn-
ing, as recommended in the printed instructions.
When treated in any other way these complaints
only dry up in one place to break out in an-
other; whereas this Ointment will remove the
tumor from the system, and leave the patient
vigorous and healthy being. It will requir-
ime, aided by the use of the Pills, to ensure
a lasting cure.

Diphtheria, Bronchitis, Sore Throats.

Any of the above class of diseases may be
cured by well rubbing the Ointment three
times a day upon the skin covering the throat,
chest, and neck of the patient. The unguent
will soon penetrate the pores and give imme-
diate relief. To allay the fever and lessen the
inflammation, eight or ten Pills should be taken
night and morning. The Ointment will pro-
duce perspiration, which is so essential for
removing fevers, sore throats, and those op-
pressions of the chest which arise from
Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should
be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Femals
Burns	Contracted and Sore Nipples	
Bunions	Stiff Joints	Sore Throat
Blisters of Mosquitoes	Elephantiasis	Skin diseases
and Sand-Flies	Fistulas	Scurvy
Goitre	Gout	Sore Heads
Chiefo-foot	Glandular Swell-	Tumors
	ings	Ulcers
Chilblains	Ingigo.	Wounds
Chapped Hands	Piles	Yaws

AYER'S

CHERRY

PECTORAL,

FOR THE RAPID CURE OF
Colds, Coughs, and
Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say
the best remedy I have ever found for
Coughs, Hoarseness, Influenza, and the
concomitant symptoms of a Cold, is your
CHERRY PECTORAL. Its constant use in
my practice and my family for the last
ten years has shown it to possess super-
ior virtues for the treatment of these
complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have
used your PECTORAL myself and in my family ever since
you invented it, and believe it the best medicine for its
purpose ever put out. With a bad cold I should sooner
pay twenty-five dollars for a bottle than do without it, or
take any other remedy."

Croup, Whooping Cough, Influenza.

BROTHER AYER: I will cheerfully certify your PECTORAL
is the best remedy we possess for the cure of Whooping
Cough, Croup, and the chest diseases of children. We of
your fraternity in the South appreciate your skill, and
commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEERY, IA., writes, 3d Jan., 1856:
"I had a tedious Influenza, which confined me in doors
six weeks; took many medicines without relief; finally
tried your PECTORAL by the advice of our clergyman.
The first dose relieved the soreness in my throat and
lungs; less than one half the bottle made me completely
well. Your medicines are the cheapest as well as the best
we can buy, and we esteem you, Doctor, and your re-
medies, as the poor man's friend."

Asthma or Phthisis, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous
cures in this section. It has relieved several from alarm-
ing symptoms of consumption, and is now curing a man
who has labored under an affection of the lungs for the
last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA,
writes, Sept. 6, 1855: "During my practice of many years
I have found nothing equal to your CHERRY PECTORAL for
giving ease and relief to consumptive patients, or curing
such as are curable."

We might add volumes of evidence, but the most con-
vincing proof of the virtues of this remedy is found in its
effects upon trial.

Consumption.

Probably no one remedy has ever been known which
cured so many and such dangerous cases as this. Some
no human aid can reach; but even to those the CHERRY
PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure
to inform you what your CHERRY PECTORAL has done for
my wife. She had been five months laboring under the
dangerous symptoms of Consumption, from which no aid
we could procure gave her much relief. She was steadily
falling, until Dr. Strong, of this city, where we have come
for advice, recommended a trial of your medicine. We
bless his kindness, as we do your skill, for she has recover-
ed from that day. She is not yet as strong as she used to
be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S
CHERRY PECTORAL. It is made by one of the best medical
chemists in the world, and its cures all around us bespeak
the high merits of its virtues. Philadelphia Ledger.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been
taxed their utmost to produce this best, most perfect
purgative which is known to man. Innumerable proofs
are shown that these PILLS have virtues which surpass in
excellence the ordinary medicines, and that they win un-
precedentedly upon the esteem of all men. They are safe
and pleasant to take, but powerful to cure. Their pen-
etrating properties stimulate the vital activities of the body,
remove the obstructions of its organs, purify the blood,
and expel disease. They purge out the foul humors which
breed and grow distemper, stimulate sluggish or disor-
dered organs into their natural action, and impart healthy
tone with strength to the whole system. Not only do
they cure the every-day complaints of every body, but
also formidable and dangerous diseases that have baffled
the best of human skill. While they produce powerful
effects, they are at the same time, in diminished doses, the
safest and best physic that can be employed for children.
Being sugar-coated, they are pleasant to take; and being
purely vegetable, are free from any risk of harm. Cures
have been made which surpass belief were they not sub-
stantiated by men of such exalted position and character
as to forbid the suspicion of untruth. Many eminent
clergymen and physicians have lent their names to cer-
tify to the public the reliability of my remedies, while oth-
ers have sent me the assurance of their conviction that
my Preparations contribute immensely to the relief of my
afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my
American Almanac, containing directions for their use and
certificates of their cures, of the following complaints:—
Costiveness, Bilious Complaints, Rheumatism, Dropsy,
Heartburn, Headache arising from a full Stomach, Nau-
sea, Indigestion, Morbid Inaction of the Bowels and Pain
arising therefrom, Flatulency, Loss of Appetite, all Ulcer-
ous and Cutaneous Diseases which require an evacuant
Medicine, Scrofula, or King's Evil. They also, by purg-
ing the blood and stimulating the system, cure many
complaints which it would not be supposed they could
reach, such as Deafness, Partial Blindness, Neuralgia and
Nervous Irritability, Derangements of the Liver and Kid-
neys, Gout, and other kindred complaints arising from a
low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some
other pill they make more profit on. Ask for AYER'S
PILLS, and take nothing else. No other they can give
you compares with this in its intrinsic value or curative
powers. The sick want the best aid there is for them,
and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass.

the wholesale Druggist considers
it a leading article of his
trade. All the dealers
in medicine speak
alike in its fa-
vor; and its
reputation as a medicine of great
merit and virtue is fully and perma-
nently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case
of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,

VICTORIA.

Birth.

On Friday, Nov. 9th, the wife of Mr. P. Welch, Bridge Tavern, of a daughter.

MURDER.—This morning about half-past 6 the body of Charley, a Nittinat Indian, was found near Store street, just beyond Janion, Green & Rhodes warehouse, with the head almost severed from the body. The cut appeared to have been made with a knife, and had evidently been deliberately done, as the neck was severed nearly through, the head being attached to the body by a piece of skin. The pockets of the corpse were turned inside out. The jury returned a verdict of wilful murder against some person or persons unknown.

GRAND NATURAL PHENOMENON.—According to Professor Newton, of Yale College, Massachusetts, a prodigious flight of meteors, the most imposing of its kind, probably, that will make its appearance this century, may be expected on the morning of the 13th or 14th—to-morrow or Wednesday. A similar shower occurred in 1833, when it was computed that 240,000 meteors appeared at one time, and the whole heavens were lit up with a magnificent and imposing display of celestial fireworks. Only thirteen of these showers have occurred during the last thousand years.

EXPEDITIONS.—The bark Delaware, Capt. Shillaber, with 384 tons of coal from Nanaimo, passed Beacon Hill yesterday afternoon, at four o'clock with a fair wind, bound for San Francisco. The Delaware was towed up from Esquimalt on Tuesday last, and finished loading and hauled out from the wharf in 46 hours. The round trip from Esquimalt to Nanaimo was made in 5½ days.

THE BARK EVELYN WOOD, which came down from the north last Thursday was placed alongside the wharf in Esquimalt this morning by Pilot Gardner, where she will discharge her telegraph wire and cable for storage. Nothing can be done with her cargo till the arrival of the Egmont, which had put into the Mauritius in distress with the rest of the cable on board.

INDIAN ROW.—A row occurred on the Indian Reserve yesterday, and on the police interfering to quell the disturbance a Stekin siwash attempted to stab Sergeant Ferrall, who, however, knocked the knife out of his hand. The fellow tried to draw another when Inspector Welsh collared him and he was taken to prison. This morning he was fined \$25, which he paid.

THE BELL RINGERS.—Everybody should go and hear the Swiss Bell Ringers in the theatre to-night. "Music hath charms to soothe the savage breast," and its powers may be of like avail to soothe the minds harassed by the cares and toils of business "up here."

ATTEMPTED BURGLARY.—Some prowling ruffian attempted last night to force the front door of a house on Government street, but on the occupant rushing out, the scamp ran off. A warm reception is prepared for him should he repeat his visit.

DEATH OF A VICTORIAN.—A private letter received here states that Mr. G. E. Dennes, formerly of Victoria, died while on his way from San Francisco to England. A rumor of his death reached us two mails ago, but lacked corroboration.

NOW COMPOS.—James Pritchard, a hand on the steaming Isabel, was lodged in prison last night for safe keeping, being out of his senses, apparently from an attack of "D. T." He was discharged this morning all right.

NOR DOWN.—Mr. Laumeister did not arrive down on Saturday as was stated. He is not looked for before Christmas. Mrs. Thos. Bule, Miss Loewin, and Miss Allard came down by the Enterprise.

SAILING OF STEAMERS.—The Enterprise will go up to New Westminster to-morrow at nine o'clock. The Sir James Douglas will not go to Nanaimo at the usual hour to-morrow, not having returned from the Fraser.

DISTINGUISHED ARRIVALS.—A fleet of 34 canoes filled with West Coast Indians arrived this afternoon, to pay their respects to the new "Tyhee." They encamped at the head of James Bay.

THE GREAT OCEAN RACE.—We publish in another column an interesting account of the great annual race of tea ships from China to London.

THE SUNDAY SCHOOL ANNIVERSARY in connection with the Wesleyan Methodist Church takes place to-night, at half-past seven o'clock, and promises to be a very interesting affair.

ELOCUTION CLASS.—This class will meet this evening at 8 o'clock, when several members of the Committee will give readings and recitations.

FOR PORTLAND.—The steamer Fideliter will sail for Portland on Thursday at 9 a.m.

WILD ROSES were in bloom on Beacon Hill yesterday.

FOR LONDON.—The ship Prince of Wales will sail about the 20th inst. for London.

THE ACTIVE carried down about 120 passengers yesterday.

FRENCH MILLINERY.—The millinery department at London House is now under the management of a lady who arrived by last steamer from Paris.—J. H. TURNER & Co.

TELEGRAPHIC.

Eastern.

NEW YORK, Nov. 9.—The British Government has renewed its proposition for a mixed commission to arbitrate the Alabama claims.

Gen. Sherman arrived here last night and the frigate Susquehanna lies anchored off the Battery awaiting the departure of our distinguished envoys.

Mexico.

A correspondent who left the city of Mexico on the 22d ult., and Vera Cruz on the 26th, says that Gen. Castelnau arrived at the capital on Sunday night; everybody was excited there, and all were awaiting developments with all sorts of rumors as to what the new policy will be. The whole country is infested with guerillas, professedly Liberals, but really bandits, who are using these unsettled times for personal plunder.

Europe.

LONDON, Nov. 8.—The drafts of Dent & Co. of China, have been refused acceptance. Their engagements are heavy.

The case of the rebel steamers, seized at Liverpool, which was brought before the Admiralty Court, has been allowed to stand over, and it is believed will be properly adjusted.

VENICE, Nov. 8.—The King of Italy entered Venice with great pomp yesterday.

PARIS, Nov. 8.—Transports are ready to bring the French troops from Mexico.

The Great Ship Race From China.

The truly marvellous race between the fleet of China clipper ships, from Foo-chow-foo, for the premiums offered by the London brokers for the first season's teas, and their almost neck-and-neck struggle during the whole voyage of upwards of 16,000 miles, is an event exciting a vast amount of interest in almost every maritime port, both at home and abroad. It appears there were nine ships engaged in the contest, and not five as previously reported. The struggle was between the Fiery Cross, Ariel, Taeping, and Serica. The Fiery Cross obtained a start of one day over the others. The Serica, Ariel, and Taeping crossed the bar of Foo-chow-foo in company together, 30th May. The Taitsing started the following day. As far as we have been enabled to ascertain, the ships passed the lighthouse at Anjer, Straits of Sunda, as follows: Fiery Cross, at noon on the 18th of June; Ariel, on the morning of the 20th of June; Taeping, on the afternoon of the 20th of June; Serica, at 6 p. m. on the 22d of June; Taitsing, at 10 p. m. on the 22d of June; Black Prince, on the 29th of June. At this time the Fiery Cross was evidently holding the lead, while the Taitsing, which left Foo-chow-foo on the day after the others, had caught up with the Serica, the Fiery Cross heading both by two days. From Anjer they carried good trade winds to the meridian of Madagascar. The Fiery Cross passed Mauritius on the 30th June, the Ariel on the 2d of July. The Cape of Good Hope was sighted by the Fiery Cross on the 15th of July at ten p. m. The Ariel rounded the Cape next day. Wind, S. E. to E. and N. E. Serica rounded the Cape on the 22d. The Equator was passed—Fiery Cross, six p. m. of the 4th of August, Ariel on the 5th, and Serica on the 19th. On the 9th of October, in lat. 12 20 N. the Fiery Cross signalled the Taeping, and continued in company till the 17th, with wind variable and light. In lat. 27 52, lon. 36 54 W. a fresh breeze sprang up, and took the Taeping out of sight from the Fiery Cross in four or five hours. The Fiery Cross was becalmed, and was not making one knot per hour for 24 hours. This circumstance is alleged to have lost her the race. On the 29th she reached lat. 41 5 N. lon. 35 51 W., and at ten a. m. on the 6th of September she sighted the Isle of Wight, it bearing N. N. W. with a wind W. S. W. blowing hard.

The Ariel and Taeping, which had lost sight of each other for seventy days, found themselves on the 5th off the Lizard, running neck and neck up the Channel under every stitch of canvass that could be set, with a strong westerly wind. During the whole day the two ships kept their position, dashing up the Channel side by side in splendid style, sometimes almost on their beam ends, every sea sweeping their decks. On approaching the pilot station off Dungeness, the next morning, they each fired blue lights to signalize their position. At daylight the pilots boarded them at the same moment, and the race was continued in the same exciting manner till they arrived in the Downs, where they both took steamtugs to tow them to the river. The ships had to shorten sail to enable the tugs coming up and picking up the hawsers to take them in tow. This was about 8 o'clock a.m., the tugs starting almost simultaneously, and both ships neck and neck. The Taeping, however, was fortunate enough to have a superiority in the power of steamtugs, and reached Gravesend some time before the Ariel. The Serica followed closely upon them. She passed Deal at noon, and got into the river with the same tide which carried the Taeping and Ariel up the river to the docks, when the result of this extraordinary race was declared to be as follows: Taeping, docked London Docks, 9:45 p.m.; Ariel, docked East India Dock, 10:15 p.m.; Serica, docked West India Docks, 11:30 p.m.

The Taeping, therefore, was the winner of the premium, about £500, the bills of lading of each ship setting forth that 10s. per ton extra was to be paid to the first sailing vessel in dock with new teas from Foo-chow-foo. The Fiery Cross arrived in the Downs on the 7th, and was compelled to bring up to anchor on account of a heavy gale blowing, when she remained some time. She, however, managed to get into the London Dock on the 8th, some twenty-eight hours after the Taeping. The fifth ship, Taitsing, arrived in the river on the 11th.

During the past few days the excitement occasioned by the probability of the arrival of the first ship in this great annual ocean race from China was unprecedented. The friends of each vessel have been supporting their favorite by betting considerable sums. During no previous year has so much interest been centred in the result of this race, and from the fact of so many Clyde-built ships being engaged in the competition. Scotchmen, generally, have largely partaken in the speculation, which has existed at almost every maritime port both in Britain and China. It will be remembered that last year the ships Fiery Cross and Serica left Foo-chow-foo for London together, on the 28th of May, both having been towed to sea by the same tug, and that both vessels arrived off the Isle of Wight simultaneously, on the 10th of September, after a passage of 106 days. By a stroke of good fortune, however, the tug sent out by the owners of the Fiery Cross, sighted her, took her in tow, and arrived in London one tide before her rival, the Serica, the latter having failed to sight the tug on the lookout for her. Singular to observe, the Taeping, Ariel and Serica, were all built by Messrs. Steele & Co., Greenock. The Taeping and Ariel were constructed on the composite principle, of wood and iron. The Serica is iron-built. The cargoes of the ships were: Taeping, 1,191,709 pounds of tea; Ariel, 1,280,900 pounds of tea; Serica, 954,236 pounds of tea; Fiery Cross, 854,236 pounds of tea; and the Taitsing, 1,093,130 pounds of tea. The time occupied on the voyage by the three ships has been 99 days, being seven days shorter than the time occupied by the Fiery Cross and Serica last year. The Ariel, which was a new ship, was the first favorite among the shippers in China.

THE PIONEER CHINA MAIL STEAMER.—At the new wharf of the Pacific Mail Steamship Company the steamship Colorado is undergoing very extensive alterations, to fit her for the China Mail service, she being the pioneer steamer of the line, to start on the 1st of January next. She has had her outer line of state-rooms taken from the main deck and the guards that lately overhung the water some ten or twelve feet, are reduced to from three to two feet, as it tapers from aft of the wheel-houses to the stern, only enough room being left for the necessary chocks and belaying bits and access to the same. The guards forward of the wheel houses have been reduced to the same proportions, and all round the ship fore and aft short heavy timber knees are being placed to strengthen the guards and deck frame from the rough seas which prevail in stormy weather in the vicinity of Japan and China. Another change in the appearance of the Colorado is her rig, she now having three masts in place of two. These masts will be ship rigged, carrying as high as topgallant sails on her mizzen-mast, and the whole spreading an amount of canvas which may be a means of safety in case of accident to her machinery, and with favorable winds greatly increase her speed, at the same time saving cost.—*Bulletin.*

POLITENESS.—"I was never on intimate terms with the prisoner," said a burglar who was used as Queen's evidence against a comrade. "He was no gentleman. I've known him, when he was robbing a house, to drink a gentleman's champagne and go off with his silver without leaving his card of thanks on the dining room table. He brought discredit on the profession."

In the garden of a certain nobleman's country house there happened to be fixed up at different spots painted boards, with this request—"Please not to pick the flowers without leave!" Some wag got a paint brush and added an S to the last word.

The publishers of *Punch* paid John Leech over forty thousand pounds during the twenty-three years for which he was connected with that periodical.

Mr. ZINN begs to announce to the inhabitants of Victoria that he has lately received a large assortment of Children's Carriages and Chairs, Fishing Baskets and Fishing Canes, and a large quantity of Market and Traveling Baskets, China Vases, Fancy Goods and Toys, all of which have to be sold on or before February next at greatly reduced prices. Goods sold at wholesale for cost prices. *

HOLLOWAY'S PILLS.—Diarrhoea and Bowel Complaints.—These maladies are ever present, and if left unended frequently terminate fatally. It should be ever remembered that both cholera and diarrhoea depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggell is the founder of a new Medical system. The quantitative, whose vast internal doses enteeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggell's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggell's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggell's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggell's Salve. In fact, it is here announced that **Maggell's Bilious, Dyspeptic and Diarrhetic Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggell's Salve** is infallible. Sold by J. MAGGELL, 11 Pine street, New York, and all Druggists, at 25 cts. per box.

REMOVAL.—Messrs. Solomon Bros. have removed to the two-story brick building on Government street, opposite the St. Nicholas Hotel. They have received, ex ship Mohawk, from London, a fine assortment of men's clothing and underclothing, which they will sell lower than any house in town. Give them a call.

NOTICE.—Mrs. Digby Palmer begs to inform her pupils and the public that she intends holding her Dancing Class twice a week, Wednesday and Saturday evenings, from 8 to 11 o'clock, commencing on the 1st November next, at the Sing-Verein Hall, Exchange Buildings, Government street.

ALEXANDRE'S GLOVES.—Messrs. J. H. Turner & Co., London House, have received to-day, by Express from Paris, a full assortment of Alexandre's famous kid gloves, for which they are the sole agents in Vancouver Island and British Columbia.

Salt Water Baths

FOR LADIES AND GENTLEMEN

May be had at the

James Bay Bath House,

(Adjoining the James Bay Bridge,) from 7 a. m. till 9 p. m.,

Shower, Hot, Cold, Tepid, Vapor, and Sulphur Baths.

TERMS: A single bath, fifty cents; three baths for one dollar, including the use of soap and towels, together with every convenience.

The water is conveyed by means of a powerful force pump from a pipe which runs into deep water, and is so adapted as to ensure freedom from all impurities. The cistern is filled regularly at high tide.

Ladies and Gentlemen who patronize this establishment have all the benefit that sea-bathing can afford with the comfort and privacy of their own houses. No fear need be entertained of taking cold, which will sometimes occur by the use of fresh water.

Being determined to make this a clean, well regulated and health promoting Institution, the Proprietor confidently asks the patronage of the Ladies and Gentlemen of the City.

Sea water contains Chloride of Sodium, Chloride of Potassium, Chloride of Magnesium, Sulphate of Magnesia, Sulphate of Lime and Carbonate of Lime.

Many residents of Victoria and parties from Puget Sound suffering from rheumatism, skin diseases, &c., have received great benefit from the use of these Sulphur baths. oc 31

Municipal By-Law for Raising a Municipal Revenue.

WE, THE MAYOR AND COUNCILLORS in Council convened, by virtue of the power and authority vested in us by an Act entitled "An Act to Incorporate the City of Victoria," passed the second day of August, A.D. 1862, in the twenty-sixth year of the reign of Her Most Gracious Majesty Queen Victoria.

Whereas it is expedient for the good government of the City of Victoria that an annual Revenue be raised for Municipal purposes, be it therefore enacted by the Mayor and Councillors of the City of Victoria as follows:—

1. That from and after the passage of this By-law the Municipal Revenue shall be raised, levied, and collected, for the use of the Mayor and Council of the City of Victoria; from such sources as are hereinafter provided, viz: Real Estate, within the City Limits; Improvements on Real Estate; Assessments on Fire Insurances; Assessment on all occupants of business premises fronting on all streets, alleys, and highways within the City Limits.

2. There shall be raised, levied and collected upon all Real Estate within the limits of the City of Victoria an annual Rate of one tenth of One per Cent. per annum on the market value thereof.

3. There shall be raised, levied and collected, from all occupants of business premises fronting on any street, highway or alley within the City Limits, an annual Rate of Fifty Cents per foot Frontage on such premises fronting on such street, highway or alley.

4. There shall be raised, levied and collected upon all Improvements on Real Estate within the limits of the City of Victoria, a rate for the current year of Three-eighths of one per cent. per annum, and also a Rate of One-Half of One Per Cent. shall be raised, levied and collected, from all Fire Insurance Companies within the limits of the City of Victoria, upon the amount of all property insured by them within the aforesaid limits.

5. The Rates mentioned in Sections 2 and 3 of this By-Law shall be called "A general Municipal and Street Rate," and the rates mentioned in Section 4 of said By-Law shall be called "A Municipal Fire Rate."

6. Provided, always that the Municipal Assessments on Real Estate, and on Improvements, upon which the aforesaid Rates shall be raised, levied and collected, shall be determined by the Government Assessment Roll for the time being, under the provisions of the "Real Estate Tax Amendment Act, 1862."

7. A Certified Copy of the Government Assessment Roll of Real Estate shall be deposited at the City Council Chambers with the Clerk of the Council and in the said Roll, in a separate column and opposite to the name and amount of the Government assessment, shall be inserted the amount of the Municipal Rate.

8. All monies due under the provisions of this By-Law shall be paid at the City Council Chambers to the Clerk of the Council, who shall keep an account of the same, and the same shall be paid by him into some chartered Bank each day as shall be directed, and placed to the credit of the Mayor and Council.

9. All monies due under the provisions of this By-Law shall be paid Quarterly in advance, provided always that any Ratepayer who is rated or assessed under the provisions of this By-Law in a sum not exceeding Four dollars, the same shall be paid yearly, in advance.

10. After the final passage of this By-Law all Municipal Assessments and Rates shall be paid within "Ten days," after which time "Five per cent" shall be added to the amount due, and if said amount with the said Five per cent added thereto, be not paid within two calendar months therefrom, the person or persons failing to comply, will be dealt with under the provisions of the "Act of Incorporation," August, 1862.

11. This By-Law shall take effect immediately after its final passage.

12. This By-Law shall be valid until repealed or superseded by another.

Finally passed the Council, October 18th, 1866.

THE ONE THING WANTED.**HOLLOWAY'S PILLS.****The Blood.**

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge in eating, or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid a health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature graves—these Pills should be taken at that period of life two or three times a week.

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits, and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarletina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 211 Strand, near Temple Bar, London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 12s. 6d., 4s. 6d., 11s., 22s., and 33s. each box.
