THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arresteb in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians re-regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaint. only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patien t vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throat
Bite of Moschetoes and Sand-Flies	Fistulas	Skin diseas
cco-bay	Gout	Scurvy
Chiego-foot	Glandular Swellings	Sore heads
	Lumbago.	Tumors
Chilblains	Piles	Ulcers
Chapped Hands		Wounds
		Yaws

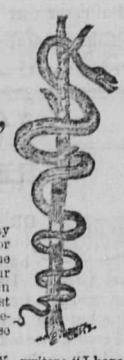
AYER'S
CHERRY PECTORAL,



FOR THE RAPID CURE OF
Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, ESQ., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, ESQ., MONTERREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills,

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

IT IS AN

MONDAY EVENING, OCTOBER 8, 1866.

The Errors of the Past.

In our Sunday's issue, we alluded to the increased taxation which Governor Seymour's rule will entail on the united colonies. It is not, however, because our present taxes will be increased that we have so much reason to dread rather than desire the Seymour *regime*. If the country were highly prosperous, if the mechanic and the working man generally were certain of employment, if the producers bore a reasonable proportion to the consumers, if people were coming to the colony instead of leaving it, if indeed the energy and intelligence of the community were employed in the *production* of wealth rather than in the dissipation of it, we might be able to look upon the enormouns burdens which the people have got to bear with some degree of fortitude. But we are deprived of all such consolation. That much hackneyed vessel, the ship of state, is already sinking, and it is not by diminishing her floating capacity she can be saved.

There are individuals in the community who know things are in the plight we describe, but would rather shut their eyes and go down to the depths below, than face the dangers, and by facing, subdue them. Like persons labering under certain maladies, they prefer to let the disease take its course, rather than apply the sharp and decisive remedy: hoping, with blind infatuation, that some special dispensation of Providence will interfere with the natural laws and make things right. The days of miracles are, however, unfortunately for these people over. The vital spark cannot now be revived after it has been quenched—manna does not now fall to feed people in the wilderness. Countries like individuals must depend on their own exertions, and hope for nothing beyond them. Living on "Great Expectations" has rarely succeeded, and although fortune occasionally bestows her favors on fools, she is of too unreliable and capricious character to depend upon. These are all truisms, we grant; but in a community like our own, where fanciful speculation and groundless hope are largely in the ascendancy, we cannot express them too strongly or too often. We cannot bring the public mind too frequently back to the stern realities before it; for in no other way than by looking at our difficulties boldly and unflinchingly can we get out of them. The greatest enemy to the people is he who would buoy them up with false hopes—the greatest benefactor he who points out the malady in order to have it arrested.

The disease of this colony is, as we have frequently shown, a want of productive industry. From 1858 till the present time, the policy of the Government has been against the development of everything but a sickly commerce that fails when the first strain is put upon it. Coupled with this unnatural and intensely foolish state of things, we have had every illiberal law that a new country could suffer from. While the Americans were holding out the most extensive political rights, making every person who became a citizen feel that he was part and parcel of a great and flourishing nation, we were placing our little contemptible barriers in the way and turning the name of British subject into a laughing stock. While they were selling land for merely a nominal figure, giving in fact large tracts away to actual settlers, Vancouver Island was being parcelled out to a number of silly and mischievous speculators, and not until the best portions of the country had got into these men's hands was any effort made to induce settlement. Of course the wretched trick failed, and the speculator was caught in his own trap. The misfortune was, however, that the country was injured even worse than the land-grabber; for settlement was brought to a stand-still. Again, while the Americans had Homestead laws, Mechanics' Lien laws, and other enactments for encouraging the *bona fide* resident and industrious artisan, we were selling out families, and driving them from even the shelter of a roof; we were allowing our mechanics and others to be cheated day after day by fraudulent contractors, and were imprisoning men for debt because they were not dishonest enough to run away. Lastly, and the most galling of all, while our American neighbors were doing everything that wisdom could suggest to build up a country and make the people happy, and while they were charging for their liberal and efficient Government, the smallest possible amount per head on the inhabitants, we were doing everything that human ingenuity could devise to harrass the population, to retard the settlement of the country, to place the population under a system of laws that belonged to an age of barbarism, and for these especial benefits were forcing, in the most obnoxious manner, taxation to the amount of over sixty dollars from every civilized man, woman and child. Looking at the history of the past eight years, our wonder is not why the thousands who came to the colony with the *bona fide* intention of settling have left the country, bitterly anathematising the Government and all connected with it, but why any people are still left. Surely if a treatise should be written on the "Art of Making a People Miserable," or, "How to Depopulate a British Colony," it should emanate from those enlightened men who have had Vancouver Island in their safe keeping. Let us, however, for a moment blot out the past and its folly intensified, and see what are our prospects under the new administration. Let us consider, as we shall do in to-morrow's issue, if the class of men who are now to make and administer our laws give evidence of less selfishness and greater ability than their predecessors.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practices as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&C.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

SUIT FOR LIBEL.—It appears from this morning's paper that a suit for libel has been brought against the *Chronicle* by Mr. C. B. Young. The grounds for the charge are not stated, but we presume are to be found in the language of that paper in regard to the recent meeting in the theatre. The *Chronicle* tries hard to appear a martyr for loyalty, and mouths loudly about its "duty to the country and the Imperial Government," "Annexation wolves," "political reprobates," "traitors" etc., — an assumption of loyalty that sits badly on the man who, according to a correspondent of this paper has publicly stated that "he would go for annexation at once *if he thought it would succeed*"—in other words if it would *pay* the *Chronicle* to advocate it. The simple fact is that the mendacious and unscrupulous course invariably pursued by our contemporary towards all it's political or personal opponents, has again brought upon it the terrors of the law, and no *bogus* assumption of a spirit it does not feel will gain for it any portion of public sympathy. When a newspaper disgraces puolic journalism by resorting to disgusting personalities, because it has not the mental capacity to conduct an argument, it is time that it should be taught a little decency. Verily "the way of the transgressor is hard."

WHALE FISHING.—Mr. Dawson, the owner of the Turpentine works on Rock Bay, has chartered the steamer Emily Harris to-day and will proceed up the Gulf of Georgia to look after the whale fishery in those waters. Mr. Dawson has erected a wharf and trying works on Saanich Inlet, expecting the whales to enter the Inlet as usual, but for some reason not understood they have not done so, so he will now go and look them up. Mr. Dawson has expended considerable money in his enterprise, and we wish him every success.

"DUTCH CHARLEY."—Inspector Welsh stated this morning that the above well known character, who was convicted on Saturday of robbing a sailor named Coleman at Everett's Hotel, refused restitution of the money out of the sum found on his person when arrested. The magistrate said as the money did not exactly correspond with that lost he could not order it to be refunded. He sentenced the prisoner to six months' hard labor, and expressed his sorrow that he could not give him more.

ASSAULT.—John Stephens, of the Half-way House, Saanich road, charged Wm. Bryant, a man who recently worked for him, with assaulting him and threatening to thrash him. Mr. Courteney appeared for the prosecutor and Mr. Copland for the defence. Bryant admitted the threatened assault but pleaded provocation. The magistrate bound him in his own recognizances to keep the peace for 3 months.

THE CASE OF MRS. CAREY—We are glad to learn that another petition for the pardon of Maurice Carey is about to be circulated. Out of consideration for his faithful and devoted wife and suffering family, we hope everybody will sign the petition, and that the Executive may see its way towards extending a pardon to the culprit.

MATRICIDE.—The *Chronicle* of to-day speaks of a mother taking the lives of her children as "Matricide"! *Verily* the schoolmaster must be "abroad," so far as "Lokalitums" is concerned.

THE SAANICH OUTRAGE.—Williams, the perpetrator of the recent outrage at Saanich, was again remanded for three days, this morning, officer Ferral, stating that Mrs. Freddison was rapidly recovering.

THE MAILS.—Admiral Denman has kindly consented to allow H.M.S. Scout to carry a mail to San Francisco on Wednesday; a mail will therefore be made up by Postmaster Wooton, to close on Wednesday at 10 a.m.

COL. FOSTER, U. S. A., with Mrs. Foster and a lady friend, arrived in this city on Saturday, by the Diana, and are staying in the St. George Hotel. Col. Foster is stationed at Fort Vancouver, on the Columbia.

MONEY FOUND.—Yesterday, between the Police office and Wharf street, a sum of money in gold.—Apply to the SUPERINTENDENT of Police. *

GUN STEALING.—Neebles and Dib, two Skadgett river Indians, charged with stealing a gun from Buler, were remanded for one day, officer Taylor being to ill to attend.

SHIP OUTSIDE.—Pilot Pike went outside to board a ship seen in the offing—supposed to be a lumberman bound for Burrard Inlet.

THE ACTIVE—This steamer had not arrived at San Francisco up to the time of going to press.

CAPTAIN STAMP ELECTED.—We are glad to learn that Captain Stamp has been returned as member of Council for the district of Lillooet by a majority, of 60 his opponents resigning the contest as hopeless. This makes two Victorians who have already been returned for British Columbia districts, and is an earnest that the interests of Vancouver Island will be looked after in the United Legislature as well as is possible under the control of an Official Council.

ROWING CLUB PICNIC.—We understand that it is proposed by the Rowing Club to hold a sort of impromptu picnic up the Arm next Saturday, wiith the view of getting the members together, and seeing what stuff they are made of. The idea is a good one and will tend to make the public take more interest in the club.

NAVAL.—H. M. S. Scout will not sail till about noon, Wednesday, having been detained on account of a court martial which is to be held to-morrow on some sailors belonging to the Malacca.

THE FIDELITER sailed for Victoria on Saturday at 6 p.m., and is therefore now due.

The *Times* Washington special says that Louis N. Bogg, of St. Louis, was to-day appointed Commissioner of Indian affairs, in the place of Colby.

WASHINGTON, Oct. 5— The Assistant Secretary of State, F. W. Seward, has been appointed Secretary of State owing to the sickness of his father, who without waiting to recover fully from his previous attack devoted himself too closely for many hours a day to his official duties. The appointment of his son, by relieving him from business, will afford him a better opportunity to recover his health.

The following is a statement of the public debt on the first of October, 1866. Debt bearing coin interest, five per cent. bonds, $1,980,913 50; six per cent. bonds of 1867 and 1868, $183,255 91; six per cent. bonds of 1881, $283,387 50; six per cent 5-twenty bonds, $7,981,622 50; navy Pension Fund, $117,500 00; total, $13,100,659 41; debt bearing currency interest, six per cent bonds, $89,220 00; temporary loan, $225,000 00; three-years compound interest notes, $1,555,121 40; three years seven thirty notes, $743,-960 05; total, $939,301 90; matured debt not presented for payment, $23,302,-372 14; debt bearing no interest, $3,991,-652 92; fractional cur'y, $27,029,273 33; gold certificates of deposit, $110,576 40; total, $437,252,205 33; total debt, $2,701,550,709 20. Amount in the Treasury in coin, $86,259,009 35, currency, $41,953,988 24; total, $128,213,-767 59; amount of debt less cash in the Treasury, $2,573,336,941 68. The foregoing is a correct statement of the public debt, as appears from the books and the Treasurer's returns in the department on the first of October, 1866.

WASHINGTON, Oct. 6—Much solicitude is expressed from abroad, concerning the condition of Secretary Seward. It will be gratifying to his friends to learn that his health is improving.

General Dix has formally accepted the French mission and will leave for Paris towards the close of the present month.

NEW YORK, Oct 6—The *Post's* money article, says the loan market is easy, but shows little activity, rates remaining at 4 to 5 per cent for all loans, and 5 to 7 per cent for discounts.

The shipments of specie to day were $131,328 per City of Paris; $15,400 per New York, and $37,000 per Saxony. Total shipments for the week, $270,000. A large amount of old Five twenties have been bought with a view of putting up prices.

SAN FRANCISCO, Oct. 6—Private telegrams quote gold in New York yesterday at 149½ and loaning at ½ per cent per day. With such a rate of interest at the metropolis of the country all that can be spared from other sources will of course seek that market. The demand here is quite active and likely to continue so while there is such an inquiry for gold elsewhere. Sterling exchange in New York yesterday was dull of sale at 107½. HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints.—These malanies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts. per box.

Miscellaneous.

AN AMERICAN LADY IN PARIS.—One of the most distinguished American ladies residing in Paris is Mrs. Lorrillard Roualds, a few years since the famous Boston belle, Miss Fanny Carter, who married a young millionaire of New York. She created a great sensation in Newport by her gaiety and beauty; and her driving black ponies four in hand, with a groom following mounted on a fifth, caused her to be set down as a fast lady. In New York she was equally prominent for fashion and brilliant parties, but her great distinction was for her musical accomplishments. In Paris her singing caused a sensation only equalled by the homage paid to great artists at the San Carlos or La Scala. She is pronounced 'the Patti of the Salons,' and is said to be the best lady amateur singer in Europe. The Empress and several of the highest among the nobles have paid devoted attention to this beautiful songstress, and regrets have been expressed that so glorious a voice should not be used for the public. In skating she is pre-eminent, as all the winter fetes on the ice have testified. She is now in deep mourning for her sister, Miss Josephine Carter, who died in March, almost immediately after having appeared at a grand fete given by the Minister of Marine, in which there was a procession of ladies representing the principal nations of the globe. Miss Carter was 'America,' and appeared reclining on a palanquin under palm trees, borne by Indians and sailors. Her dress was of white tulle, over silver, decked with medallions in colored satin, representing the different Southern Republics, the United States flag between her shoulders, and the American birds of varied plumage perched on her shoulder, and nestling in the golden fringe of her robe. All Paris was delighted with this fete. In less than a month two of those bright and blooming girls who had taken part in it were borne to the tomb.

HOW BARON ROTHSCHILD AVERTED THE LEVY ON FRANKFORT—The Generals of William I. seem to be quite as cool in their way of doing things as were the Napoleonic worthies above mentioned. Gen. Falkenstein ordered the Frankforters to fork over six millions of florins—which they forked over without a murmur—to say nothing of providing for a horde of hungry Prussians, and furnishing each Prussian soldier with eight cigars per diem. Next came Gen. Manteuffel, who summoned the town to pay a further levy of 25,000,000 of florins—which they very sensibly and flatly refused to do, telling Manteuffel to pillage and burn the place if he liked, which he hadn't the pluck to do. This refusal to pay was due to the energy of Baron Rothschild, who told Manteuffel to plunder Frankfort if he dared, in which case he, Baron Rothschild, would undertake to crush the banks and bankers of Prussia—and he would have done it. Manteuffel has been removed by the King, but before he left Frankfort—so the story goes—he dined with Baron Rothschild, whose table is famous the world over. The Prussian General is a *bon vivant*, and, aware of this trait in his character, the crafty Baron thought to touch his heart by appealing to his stomach. Special instructions were accordingly given to the cook, who, on this occasion, quite surpassed himself. The General ate and ate, till his host felt convinced he must be perfectly satisfied. After dinner, the warrior, delighted with the marvels of cookery he had swallowed, requested that the *chef de cuisine* who had invented so many good things, might be summoned to his presence. The Baron immediately ordered up the *Carame* thus flatteringly favored, whereupon the amiable Manteuffel exclaimed :—"Cook, you are a genuine artist, and from this day forward I take you into my own service!'

Why are railroad accidents like irregular suppers? Because they are casual teas.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

A Triumph of Science

—AND—

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged they will prove most invaluable, as a real, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills.—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

Invariably cure the following Diseases:

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits, and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected, and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½d., 5. 9d., 4s. 6d., 11s., 22s., and 33s. each box.
