THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure a lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throat
Bite of Moschetoes and Sand-Flies	Fistulas	Skin diseas
oco-bay	Gout	Scurvy
Chiego-foot	Glandular Swellings	Sore heads
	Lumbago.	Tumors
Chilblains	Piles	Ulcers
Chapped Hands		Wounds
		Yaws

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

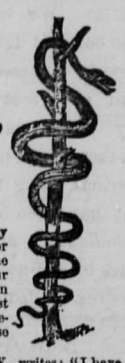
AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.



BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of UTICA, N.Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. *While they produce powerful* effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, *Flatulency, Loss of Appetite, all Ulcerous* and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker,
Liver Complaint,
Dyspepsia or Indigestion,

WEDNESDAY EVENING, OCT. 17, 1866.

NATIONAL RETROGRESSION.

There are periods in the history of some nations, when the wave of progress seems by some unseen reactionary force thrown back upon itself—when some latent power of evil or superstition arises, checks the onward advance, and forces the nation back for a time into the dismal channel of doubt and despotism. It would seem that England is undergoing some such painful reaction at the present time. Its great faith in the elasticity of its free institutions, its great confidence in the intelligence of its people, its justice and liberality in colonial affairs, are all shaken; and instead of the bold, unfaltering front it of wont presented in the very van of progress, we see a shrinking from national responsibilities, a stubborn resistance to the extension of the liberty of its own subjects, and an indifference to the welfare, if not indeed an inimical feeling to the men who are endeavoring to extend the national power throughout the colonial empire. It is not necessary to allude to the change which has come over the national policy of Great Britain, nor the recent Parliamentary success in ignoring the rightful claims of the British workman. We will content ourselves with an extract from an article on England's condition in the *Pall Mall Gazette*, one of the best edited of English journals, and one of the most influential political organs of the higher classes. What it says therefore cannot be put down as a prejudice against the ruling powers. On the contrary its policy is to keep the power of the governing classes intact; but like other enlightened journals of England it sees breakers ahead, and knows that the only way to avoid them is by pointing out how far the nation is getting out of its true course, and how it is relapsing into the errors of past ages. "All the great European countries," it says, "are the theatres of changes the general effect of which must in course of time work powerfully in our own country, and greatly change our institutions and ways, both of life and thought. Events with which we are all familiar put England, for more than two centuries, into a most peculiar and exceptional position. During all that time this was the only great nation in which the bulk of the people possessed any considerable share of political power. This state of things has been broken up and is rapidly passing away. In almost every part of Europe the organisation of society is far more popular than it is amongst us, and their political institutions are being quickly adjusted to their social wants. It appears by no means improbable that, unless very great changes are made in England, and are made soon, there will be in the course of half a century something of the same sort of contrast between England and the rest of Europe as there is at the present day between England and the United States. This is almost the only country in the world which is distinctively and especially the country of the rich; and we are still very far from having discovered all that is implied in those few words, and, in particular, we are far as yet from understanding how closely they are connected with the general feebleness of our administration, and with that excessive intricacy in our institutions and general want of tone in the management of many of our public affairs, which are what people really mean or ought to mean when they speak of English want of logic, want of 'geist,' or want of whatever else it may suit individual fancy to call it." Here is an acknowledgement from high and unprejudiced authority that "in almost every part of Europe the organisation of society is far more popular than it is in England, and their political institutions are being quickly adjusted to their social wants"; and here is the confession, that "unless very great changes are made in England, *and are made soon*, there will be in the course of half a century something of the same sort of contrast between England and the rest of Europe as there is at the present day between England and the United States." There is much significance in these words, and recent events would appear to justify them. We see even in a matter of form in the presentation of grievances to the Throne, a determination on the part of the Government to ignore a popular privilege which was granted by statute in the reign of Charles II., and which gave to a deputation of not more than ten persons the right to wait upon Her Majesty at any time with a petition for the dismissal of the Government. The applicants for admission to Her Majesty recently were members of the Reform League, who were referred to the Home Secretary. The members refused to have any dealings with the Home Secretary, and maintained their right to the position assumed by statute. And the government, unable to oppose them in a legal manner, drops the correspondence and maintains a sullen defiance.

Again in the recent instructions given by Mr. Cardwell to the Governor of the Australian colony of Victoria, the rights which the people acquired by responsible government are, according to two of the principal papers in London, the *Daily Telegraph* and the *Daily News*, completely ignored, and serious difficulties between the Australians and the Government are predicted. According to these instructions the whole system of responsible government is reversed, and instead of the Governor, like the Queen, being guided by his constitutional advisers, the Ministry are to be guided by the Governor. Of course, there can be nothing but a collision between the colony and the mother country; for the Australians have proved themselves on every occasion exceedingly sensitive on attempted encroachments on their privileges and interests We have only to mention our own colony's fate to complete the list of despotic relapses into which the Government of Great Britain has fallen. It may make small matter to England whether we are blotted out or not; but it is a serious thing now a days for a nation that has been one of the foremost in promulgating and practicing the doctrines of self-government to fall back on the dregs of feudalism.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS — &c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

CATHOLIC COUNCIL IN BALTIMORE.—A recent telegram states that a Catholic Plenary Council, called by Papal permission by the Archbishop of Baltimore, who is Primate of the Catholic Church in the United States, met in Baltimore on the 7th inst. There were present, seven archbishops, thirty-eight bishops, one hundred and twenty-two priests, heads of orders, and doctors of divinity, seventy-four ecclesiastics, four monks and three abbots. The procession was formed at the archbishop's residence and moved around the square to the Cathedral. There was an immense gathering in the streets, estimated at 40,000 people.

STRIKE IN SAN FRANCISCO.—A recent despatch says, the journeyman plasterers of San Francisco are on a strike, nominally not for higher wages, but for the adoption of the eight hour system, to the number of several hundred, all told. They marched round the city, demanding of the foreman in charge of each building in process of erection, compliance with their demands. In some cases the demand was promptly complied with; in others, compliance was accompanied with a protest; and the others, no acceptance of the terms was signified

FAILURE IN SAN FRANCISCO.—A telegram dated San Francisco, Oct. 9th, states that Charles W. Brooks & Co., a large shipping and commission firm, suspended to-day. Cause heavy defalcation in green backs by their late cashier, with the failure of a prominent operator against whose consignment they accepted largely. They first assigned assets sufficient to cover their general business liabilities, leaving operators' engagements applicable to balance. They hope to effect arrangements and resume business.

A VICTORIAN IN PORTLAND.—The Portland papers contain a notice of the opening in that city of the new Oro Fino Restaurant by Pierre Manciot, recently of the French Hotel, Victoria. The room is eighty feet long by twenty-seven wide, has fourteen tables and four private rooms—eleven of the tables seating three each, and three others four persons, and the private apartments will accommodate parties numbering twelve or fourteen. The papers give Pierre a high character as a *Chef de cuisine*.

REAL ESTATE TAX.—The Sheriff notifies all persons who are in arrears for real estate taxes for the year ending June 30, 1865, that they must pay up within five days from to-day, or he will proceed to levy according to the statute, which enacts that "the Sheriff *shall* levy the same by distress of the *goods and chattels* of persons liable to pay the same," or in default by the sale of a sufficient portion of the real estate on which said arrears are due, to pay the tax.

SAN FRANCISCO FIRE DEPARTMENT.—A telegram of October 7th states that the Board of Fire Commissioners of the paid fire department, elected Frank E. R. Whitney Chief Engineer, Henry W. Burckes, foreman of No. 3, First Assistant Engineer, and Charles H. Ackerson, Second Assistant. The Chief and his assistants became fire wardens under the law and are obliged to devote their whole time to the business.

INCORRECT.—The paragraph in our morning contemporary stating that Rev. Mr. Sloan of Steilacoom, W. T., has been invited to preach in the Pandora street Presbyterian Church, is incorrect. We have been requested to state that neither the managers nor any person connected with the congregation has tendered any such invitation. As was announced from the pulpit last Sunday, Rev. Mr. Duff will preach next Sunday.

A BENEFICENT OFFER.—At a private dinner in New York, on the 4th inst., A. T. Stewart intimated his readiness to give one million dollars for the erection of tenement houses for the deserving poor of that city, the condition being that the land required be provided.

A BIG RACE.—It is stated in racing circles in San Francisco that a trotting match three miles and repeat, has been made up between Lowery Matthews and Filmore for $20,000, to be trotted within twenty days from October 9th.

FAILED.—A California exchange mentions that J. H. Ruby, a theatrical manager, has become bankrupt. Ruby has played in this city.

CLEANSED.—A telegram of Oct. 8th states that Wm. Culverwell has been discharged from his debts in San Francisco, by a decree of the County Court.

STRONG PROSPECTING PARTY.—The *Oregonian* says a party of men, seven hundred strong, are now exploring the country for gold about the head-waters of Snake river.

ARRIVED DOWN.—We learn by telegraph that H.M.S. Scout arrived at San Francisco on Monday, 4½ days from Victoria.

THEATRE.—The amateur theatrical performance last night in aid of the Mechanics Institute was a very successful affair. The theatre was crowded both above and below, and the pecuniary results must have been highly satisfactory. The burlesque of "Beauty and the Beast," performed by members of the Amateur Dramatic Association, was well received, although hardly so well rendered as on the last occasion, showing that even *our* amateurs, whose fame is in all mouths, cannot afford to do without more frequent rehearsals. The principal characters in the piece were assumed by Messrs. Clarke and Callingham (who were both thoroughly *au fait* in their parts as Old Pump and his man John Quill), Mr. Rushton as the Beast, Miss Jenny Arnot as Beauty—a part in which she had only to act naturally to be perfect—and Messrs. Barnett and George Marsh as the two envious sisters; little Miss Celia McCann represented the Queen of the Fairies with much grace, and was assisted by Messrs. Harries and Hutchinson, the delicate form of the latter as he unfolded his six feet of inches from the bosom of a flower causing much laughter. Some good hits were brought in about Governor Seymour and the Leviathan, a model of which craft was represented sailing into the harbor, although "drawing more than a foot of water," as Old Pump gravely observed. Messrs. Stewart, Solomon, Havelock and Redfern, assisted by Miss Jenny Arnot and Mrs. R. G. Marsh closed the performance with the farce of "Slasher and Crasher," very well given. We must not neglect to mention Mr. Callingham's comic song during the interlude, "Poor old Harnett's Tile" which was given with much humor, and heartily *encored*. The audience which comprised His Excellency and family, officers from the fleet, etc., broke up about half past eleven, apparently much pleased with the evening's entertainment.

JULIA DEAN HAYNE GETS A DIVORCE.—The Salt Lake *Telegraph* of September 12 says: Yesterday, in the case of Julia Dean Hayne or Arthur P. Hayne, in divorce, a decree was made dissolving the bonds of matrimony hitherto existing between them. The case came on for hearing during the last June term of the Court, and was held under advisement until the present sitting. We are no lawyer, but the marriage with Mr. Cooper some months ago and the divorce now seem to make rather a "mixed" case. No doubt it is "all right."

A Chinaman was murdered by Indians at Sehome, W. T., on Monday night. The murderers were arrested.

THE fire in the Bellingham Bay Coal mine has been walled in and the managers are confident of effectually putting it out.

NEW YORK, Oct. 15—Great excitement was caused at Fort Erie on Monday, by circulation of a report that an organized party of roughs contemplated a raid on Fort Erie. A guard of police was immediately detailed to patrol between Buffalo and Niagara Falls. A company of volunteers patrolled the river in the vicinity of Fort Erie, and other precautions were taken; but the raiders failed to appear.

On the same day the Fenians had an excursion down the river, and when passing Fort Erie and the Canadian gunboat Rescue, the band played "wearing of the green" and other popular airs, which so exasperated the Captain of the gunboat that he ordered the excursion boat away, and threatened to fire into the party.

Europe.

NEW YORK, Oct. 14—Foreign files contain the following: At the banquet in honor of the cable layers, a message was received from the Queen, conferring the honor of Knighthood on Capt. Anderson and Professor Thompson Glass, and conferring Baronetcy on Messrs. Sampson & Leach. The Queen says her reason for not conferring distinguished marks of favor upon Cyrus W. Field, was an apprehension that it might encroach upon the province of his own government.

Gold in New York on Saturday was 153; sterling 106¾@107; Legal Tenders are quoted by brokers at 70 buying, and 71 selling. The Bank of California has declared a dividend of 1 per cent.

From Australia.

SAN FRANCISCO, Oct. 6.—By the arrival of the British bark Australind, 73 days from Sydney, we have received papers to the 25th July, ten days later than by Panama steamer. The Sydney *Herald*, of July 15th, says; Hundreds of persons have visited North Beach to-day. Six bodies were washed ashore and were taken to the hospital. The body found yesterday has been recognized as that of Mrs. Cramp, cabin passenger. Of the others, four have been identified—John Fountain, chief engineer; Catherine Crosier, stewardess; Joe Orlander, Bill Agerman, sailors; Joseph, the fore-cabin steward; and two others unknown—one is supposed to have been a cabin passenger of the Cawarra. They were much bruised and disfigured. The bodies of Captain Chatfield and eleven others were reported as having been washed on the shore. A despatch dated Melbourne, July 23d, says: News has been received here of the wreck of the immigrant ship Wetherby on the south end of King's Island. The information was brought by way of Geelong, at which place the second officer and two of the passengers had arrived. The Wetherby sailed from Sydney with 452 emigrants, under the new system; but on Saturday week when near King's Island experienced calm weather, and during the night, in a dense fog, went ashore on the rocks on the extreme south point of the island and became a wreck. In launching the boats they were all stove, but all hands belonging to the ship and the passengers were landed safely.

The flood in Maitland is subsiding. The river has fallen ninety-six inches this morning.

It is reported that petroleum has been struck at a depth of 50 feet at Adelaide, and that the oil rises to the surface and flows freely, but the locality has not transpired.

The Bank of Queensland suspended payment July 14th. It is expected to be temporary. The liabilities of the bank are £123,200, and the assets are £361,900.

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints.—These maladies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

Miscellaneous.

SHOCKING OCCURRENCE IN NEW CALEDONIA.—The Royal steamship Norseman, which arrived at Plymouth, England, recently with the Cape mail, brought news of a frightful tragedy recently perpetrated in New Caledonia in the Pacific, employed as a French convict establishment. His Imperial French Majesty's war steamer Fulon, from New Caledonia, via Bourbon, for Brest, that put into Algoa Bay on June 27th, and left on July 6th tor Brest, reported that while she had been cruising around New Caledonia a boat was despatched into one of the rivers out of sight of the ship, for some purpose, and not returning, much anxiety was felt respecting it. The steamer then went up the river in search, and upon a small island discovered remains, which left no doubt that the unfortunate seamen had been captured, and then killed and eaten by the natives. The Fulton then proceeded further inland, and some natives that were taken admitted that the conjectures of the ship's crew were correct; that they had come suddenly upon the boat's crew, taking them to an island, killed them there by splitting their skulls open with an axe, and had then cooked and eaten them. The officers and crew of the ship, highly exasperated, at these horrible details, proceeded to take summary vengeance upon the savages, and killed every one they came in contact with, and set fire to their villages. In addition to those who were burned, no less than 150 were either shot or bayoneted.

A GREAT BOA.—The Mobile (Ala.) *Advertiser* gives some account of the antics of a monstrous boa constrictor which recently arrived in that city, and which was confined in a large box on the deck of a vessel from the West Indies. One night he escaped from his place of confinement and pursued serpentine paths all over the ship. He had a jolly time all to himself for awhile. He visited the hen coops and made sad havoc among the chickens, and after cutting up sundry similar capers, finally shuffled his mortal coil into a dark corner in the bow of the boat. When morning came the sailors missed him from his accustomed haunt, and instituted a search for him. They found him, procured a rope, and lassoed him, a difficult task, when it is considered that snakes are composed entirely of head and neck. There were no shoulders to prevent the rope from slipping down to the caudal extremity of the reptile, and, moreover, he struggled stoutly to be free. The sailors, however, who were nearly all foreign negroes, finally overcame him, and he very soon found himself once more in what he doubtless considered a very bad box.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL's Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure They search out the various maladies by which the patient is suffering, and re-invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged they will prove most invaluable, as a ready, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).

The Edinburgh Review (Whig)

The Westminster Review (Radical)

The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief-of-staff to Gen. J. E. B. Stuart, of the Confederate army.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and delility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any farther accumulation. The sufferer regains a buoyancy of spirits. and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided; for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions daily regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each box.
