THE GREAT REMEDY OF THE

AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the

System,

To the very core and centre of all diseases  
which affect the human body, this remarkable  
preparation penetrates. It disappears under  
the friction of the hands, as salt disappears  
when rubbed upon meat. The unguent per-  
forms its healing errand rapidly, safely, and  
without pain. Simple eruptions, open sores,  
hard tumors, scrofulous developments of all  
kinds, abscesses, cancers, old wounds, and, in  
fact, every species of inflammation and sup-  
puration, whether in the skin, the flesh, the  
glands, or among the muscles, can be arrested  
in its destructive course, and permanently  
cured without danger by rubbing in this in-  
estimable Ointment.

Bad Legs, Bad Breasts, Sores, and

Ulcers.

In many Hospitals in Europe this celebrated  
remedy is now used for the cure of old wounds,  
sores, and ulcers; in Spain and Portugal, and  
in many parts of Italy, the first Physicians re-  
gularly prescribe its use. It is a sovereign  
remedy for bad breasts and bad legs; and like-  
wise for all skin diseases. It is to be found in  
the chest of nearly every sailor, soldier, and  
emigrant.

Imprudencies of Youth;—Sores and

Ulcers.

The above class of complaints is surely re-  
moved by slightly fomenting the parts with  
warm water, and then by most effectually rub-  
bing in this Ointment. Persons suffering from  
these direful complaints should lose not a mo-  
ment in arresting their progress. It should be  
understood that it is not sufficient merely to  
smear the Ointment on the affected parts, but  
it must be well rubbed in for some considerable  
time two or three times a day, that it may be  
taken into the system, whence it will remov-  
e, though it be palpable to the eye. Bread and  
water poultices, after the rubbing in of the  
Ointment, will do great service. This is the  
only proper treatment for females in cases of  
cancer in the stomach, or for those who suffer  
from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty  
be radically cured if the Ointment be used  
freely, and the Pills be taken night and morn-  
ing as recommended in the printed instructions.  
When treated in any other way these complaint  
only dry up in one place to break out in an-  
other; whereas this Ointment will remove the  
humor from the system, and leave the patient  
a vigorous and healthy being. It will requir-  
e, aided by the use of the Pills, to ensure  
lasting cure.

Diphtheria, Bronchitis, Sore Throats.

Any of the above class of diseases may be  
cured by well rubbing the Ointment three  
times a day upon the skin covering the throat,  
chest, and neck of the patient. The unguent  
will soon penetrate the pores and give imme-  
diate relief. To allay the fever and lessen this  
inflammation, eight or ten Pills should be taken  
night and morning. The Ointment will pro-  
duce perspiration, which is so essential for  
removing fevers, sore throats, and those op-  
pressions of the chest which arise from  
Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should

be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and	Sore Nipples
Bunions	Sit in Joints	Sore Throat
Bite of Mosquitoes	Elephantiasis	Skin diseases
and Sand-Flies	Fistulas	Scurvy
Goose-hay	Gout	Sore heads
Chieft-foot	Glandular Swell-	Tumors
	ings	Ulcers
	Limbago.	Wounds
	Piles	Yaws

An Appeal to the Citizens of  
Victoria, V. I.

THE CONGREGATION EMANUEL OF  
Victoria, V. I., in meeting assembled, this  
day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Cit-  
izens of all Denominations be solicited through  
the following authorized and duly appointed  
Committee. And that such Committee en-  
deavor, by every means in their power, to  
raise funds whereby part of the debt or mort-  
gage on the Israelitish Synagogue may be  
cancelled. Knowing the liberal views and  
generosity of the citizens of Victoria, the con-  
gregation has not the slightest doubt (making  
due allowance for the dullness of the season)  
that their appeal will meet with that response  
which the exigency of the case requires.

AYER'S  
CHERRY  
PECTORAL,

FOR THE RAPID CURE OF  
Colds, Coughs, and  
Hoarseness.

BIRMINGHAM, Mass., 20th Dec., 1855.  
DR. J. C. AYER: I do not hesitate to say  
the best remedy I have ever found for  
Coughs, Hoarseness, Influenza, and the  
concomitant symptoms of a Cold, is your  
CHERRY PECTORAL. Its constant use in  
my practice and my family for the last  
ten years has shown it to possess super-  
ior virtues for the treatment of these  
complaints. EHEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of UTAH, N. Y., writes: "I have  
used your PECTORAL myself and in my family ever since  
you invented it, and believe it the best medicine for its  
purpose ever put out. With a bad cold I should sooner  
pay twenty-five dollars for a bottle than do without it, or  
take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, Mass., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL

is the best remedy we possess for the cure of Whooping

Cough, Croup, and the chest diseases of children. We of

your fraternity in the South appreciate your skill, and

commend your medicine to our people.

HIRAM CONKLIN, M.D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856:

"I had a tedious Influenza, which confined me in doors

six weeks; took many medicines without relief; finally

tried your PECTORAL by the advice of our clergyman.

The first dose relieved the soreness in my throat and

lungs; less than one half the bottle made me completely

well. Your medicines are the cheapest as well as the best

we can buy, and we esteem you, Doctor, and your reme-  
dies, as the poor man's friend."

Asthma or Phthisis, and Bronchitis.

WEST MANCHESTER, Pa., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous

cures in this section. It has relieved several from alarm-  
ing symptoms of consumption, and is now curing a man

who has labored under an affection of the lungs for the

last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA,

writes, Sept. 6, 1855: "During my practice of many years

I have found nothing equal to your CHERRY PECTORAL for

giving ease and relief to consumptive patients, or curing

such as are curable."

We might add volumes of evidence, but the most con-  
vincing proof of the virtues of this remedy is found in its

effects upon trial.

Consumption.

Probably no one remedy has ever been known which

cured so many and such dangerous cases as this. Some

no human aid can reach; but even to those the CHERRY

PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure

to inform you what your CHERRY PECTORAL has done for

my wife. She had been five months laboring under the

dangerous symptoms of Consumption, from which no aid

we could procure gave her much relief. She was steadily

failing, until Dr. Strong, of this city, where we have come

for advice, recommended a trial of your medicine. We

bless his kindness, as we do your skill, for she has recov-  
ered from that day. She is not yet as strong as she used

to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELLEY, of SHELLVILLE.

Consumptives, do not despair till you have tried AYER'S

CHERRY PECTORAL. It is made by one of the best medical

chemists in the world, and its cures all around us bespeak

the high merits of its virtues.—Philadelphia Ledger.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been

taxed their utmost to produce this best, most perfect

purgative which is known to man. Innumerable proofs

## Politics in the United States.

A few issues back in alluding to the elections of Pennsylvania, Ohio, Iowa and Indiana, we said the safest and wisest course for President Johnson to adopt, was to give up his antagonism to Congress and accept its scheme of reconstruction. The Eastern papers which have just come to hand would seem to indicate that the President will be forced into this policy. Immediately after the election in Maine, which is the great index of the general electoral result throughout the States, the President's supporters commenced quietly but rapidly to veer round. The New York Herald, which has been the loudest and most unscrupulous of Johnson's adherents, true to its characteristic desire to be on the winning side, now sees nothing for the President but submission. "We are convinced," it says, "from the significant results of the Maine election that this amendment will carry all the Northern States yet to come, and that against the solid North any further resistance from the administration or the excluded Southern States will be a waste of time, foolish and suicidal to all concerned. We would therefore urge upon President Johnson the statesmanlike policy of a truce with Congress, and an active co-operation with the fixed, and predominant public opinion of the North, in behalf of the immediate restoration of the South on the basis of this constitutional amendment." When a newspaper like the Herald counsels such submission as this, and submission to the men it has been denouncing as "traitors" and "ruffians," we can form some kind of idea of the overwhelming influence which the Radical party has obtained by the recent elections, and the firm hold its policy has taken of the public mind. The Herald shows that it is from necessity, however, not from choice, that its own programme has been changed. "We have," it says, "earnestly advocated the President's policy; but after the verdict of the jury the argument is at an end." It will be, no doubt, mortifying to the President after denouncing the leading men in Congress as men who should be hanged—as greater enemies to the Republic than Jeff Davis himself—to come down from the position which he had assumed as immovable and follow their policy; but disagreeable as the task may be it will have to be done. The glory of the Republic is that the administration cannot be conducted against the wishes of the people—that the Chief Magistrate must under all circumstances carry out the views of the people's representatives. Hence the President must succumb—amiably if he will, but under any circumstances yield he must.

How short-sighted the London Times and other leading London journals have been in their view of this collision between the President and Congress events abundantly prove. Looking at the matter from a European and despotic standpoint, as they did the great rebellion, they have fallen into the same foolish blunders. The President, because he talked conservatively and was a great Executive power, must succeed, and therefore must be right. The Republicans, because they appealed always to popular reason, and had no army and navy under their immediate control, must be defeated, and therefore must be wrong. Every act of Congress was ridiculed, and every drunken speech of the President was praised as the emanation of a Cicero. When the London Times comes to us with comments on the recent elections we expect to find it, however, like its kindredameleon, the N. Y. Herald, pronouncing Johnson's hostility to Congress foolish and suicidal and unworthy the wisdom of a Chief Magistrate!

The advice of the principal supporters of the President is, as we have already said, submission. It is considered also, that the sooner the Southern States accept the Congressional scheme, the better it will be for their political status, and some hopes are held out that the South will be able to maintain between the contending parties the balance of power. The Herald thus describes the working of the scheme:—"Universal suffrage and universal representation, or limited suffrage and partial representation in proportion, just as each State, from Maine to Texas, may for itself elect, is the condition of this constitutional amendment. South Carolina, for instance, has a population of 700,000—of which 300,000 are whites

and 400,000 are blacks. Taking 100,000 as the number required for each member of Congress, she will have seven members if she grants universal suffrage; but if she cuts off all her blacks she loses four members, and proportionately as the suffrage is restricted by a qualification of color, property or education to whites or blacks. This may seem pretty severe upon the South, but it applies also more or less to every Northern State, including New York—which has a negro property qualification (two hundred and fifty dollars), and Massachusetts, where they have a reading and writing qualification. All the States will have to modify their laws to universal suffrage under this constitutional amendment or be cut down to a greater or less extent in their numerations for Congress. This amendment is going through. There is no other settlement for the South. The Governors of the Southern States ought, therefore, to call their legislatures together at once and ratify this amendment, so that with the meeting of Congress in December, they may be all restored to both Houses. It is the ultimatum of the victorious North, and the South will lose much and gain nothing by delay in its adoption."

### Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians of their effects in their practice.

#### AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

#### FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

#### DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Kane, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

#### DYSENTERY — DIARRHOEA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

#### INTERNAL OBSTRUCTION — WORMS — SUPPRESSION.

From Mrs. E. Stuart, who practices as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent for the removal of the natural secretions, when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

#### CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERY-  
SIPHELAS — SALT RHEUM — TETTER — TUMORS —  
RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system."

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

#### FOR HEADACHE — SICK HEADACHE — FOUL STOM- ACH — PILES — DYSURIA — PLETHORA — PARALYSIS — FITS — &c.

From Dr. Edward Vogel, Baltimore.

"DEAR DR. AYER: I cannot answer you what complaints I have cured with your PILLS better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

"Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever."

### Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INFLUENZA, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business it is to know; in short, if there is any reliance upon any thing, then it is irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. None of our contemporaries, and the unmistakable benefit conferred on tracheal virtues, and the unspeakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this faithful friend by every trial, conferred benefits on the afflicted that can never be forgotten, and cured too numerous and remarkable to be forgotten.

**A QUEER STORY.**—We have received a San Francisco paper by last mail containing a strange account of the ill-treatment of a poor woman, a former resident of Victoria, by a certain doctor with whom the unhappy woman fled from this city some three years ago. The paper states that the parties (we suppress the names for obvious reasons) are what is known as spiritualists, and the doctor having conceived the idea of converting his companion into what they call a "seeing medium," to that end he and a fellow-impostor have been keeping the unfortunate woman locked up in a state of nudity, and drugging her with extracts of roots, opium, &c., till she is almost demented, professing to believe that under this "spiritual manipulation" she will reveal the secrets of the other world. The moans and lamentations of the poor creature excited the pity and indignation of the neighbors, and an action was brought against the wretches, but through some informality it failed. A medical man accompanied by a police officer then visited the poor woman and found her in a horrible state, the doctor reporting that unless she is rescued from her tormentors she will die. It appears that the fiends who are thus practising on their miserable victim say if she dies they intend to carry out their scheme with her daughter, a girl of some 9 years. The paper from which we quote gives a long account of this horrible transaction and calls upon the citizens to take the matter in hand.

**AN INQUEST** was held to-day on the body of the Indian boy Charley found in a cabin near Cormorant street on Saturday morning. Officer Woolacott deposed to having found the body, which showed marks of strangulation, and had blood issuing from the mouth and nostrils. Officer Abson corroborated the evidence of Woolacott. Native evidence was adduced which showed that there had been a quarrel between the deceased and some other Indians, that the boy had been made drunk and that while in that state a Bella Bella Indian, who appeared in the dock, had made a savage attack on him, striking him with a musket and otherwise mistreating him. The inquest was adjourned till one o'clock to-morrow to allow a post mortem examination of the body to be made.

**CHOLERA.**—We regret to learn that the Rev. Lachlan Taylor, D. D., so well and favorably known in these colonies as the Agent of the British and Foreign Bible Society, has been completely prostrated by a severe and long continued attack of Asiatic cholera. The disease, however, has taken a favorable turn and he is slowly recovering. The Rev. Mr. Wallace, one of the deputation from the Wesleyan Church of Ireland to the Methodist Episcopal Church of the United States on the occasion of the celebration of the Centenary of Methodism in America, died in Cincinnati a few weeks ago of the same terrible disease.

**ARMAMENTS IN CANADA.**—The Toronto Globe says: It is confirmed that a complete armament is now on its way out from England to equip twelve batteries for the volunteer militia. These are the batteries recently alluded to by the London Times, as having been sent out to Canada. The equipment will include Armstrong field guns, carriages, limbers, harness, &c.

**THE BELLINGHAM BAY MINE.**—The U.S. cutter Lincoln sailed for Bellingham Bay on Saturday carrying a quantity of hose from the fleet at Esquimalt to be used in extinguishing the fire in the coal mine, which had again broken out. Collector Wilson and Dr. Calhoun went over in the Lincoln. A telegram received since the Lincoln went over says the fire is in statu quo.

**LOKALITIS ASLEEP.**—Our "industrious" contemporary copies nearly word for word our yesterday's item about the Active, and then gravely informs its readers that we neglected to publish it! Besides this interesting little bit of plagiarism, the Chronicle contains only two local items not copied from the TELEGRAPH.

**ADDRESS TO GOVERNOR KENNEDY.**—The clergy of the Church of England in this colony, headed by the Bishop, waited on His Excellency on Saturday morning and presented him with an address on the occasion of his leaving the colony.

**IMPORTANT TO STOCK OWNERS.**—In the case today of Pemberton vs. Wren the Chief Justice ruled that the owners of stock are obliged to keep their stock fenced in, and are liable for any damage done by their animals to crops, although the latter are not enclosed.

**DISCHARGED.**—John Clerihue, charged by C. McCarthy with stealing some gold specimens and small coin from the house of Mr. Bottrell, was discharged to-day, there being no evidence against him.

"JENKINS" AT THE BALL.—"As we predicted," Jenkins of the Chronicle has fairly outdone himself in his description of the ball on Friday night. We regret we cannot find space for more of the brilliant lucubration, but the following paragraphs struck us as too good to be lost: "The scene when the stirring and irresistible strains of the noble band set the votaries of the light tripping goddess in motion was peculiarly animated and enchanting." "The room was crowded to its utmost capacity, the dancers finding it somewhat difficult to circumnavigate the bounding billows of muslin, tarlatan and tulle." Bravo! Jenkins; Artemus Ward describing his "sho of wacks figgers" can't hold a candle to you, although we shrewdly suspect the fumes of "that champagne" must have still been stimulating your faculties when you penned the effusion.

**WHISKY SELLING.**—James Coyle pleaded guilty to-day to the charge of supplying whisky to a drunken Indian, and was sentenced to \$50 fine, or four months chainage. Joseph Godeau and Leon Morrelle, charged with the same offence, were discharged, the evidence being insufficient.

**FROM WHIDBY ISLAND.**—The schooner Growler, Capt. Williams, arrived to-day with 15 tons hay, 35 sheep, 6 dozen chickens, 3000 lbs. wheat. Value, \$735.

**DRUNK AS USUAL.**—Chas. Ridley and John Gowdie were each fined \$1 or 6 hours imprisonment this morning, for being drunk and disorderly yesterday.

Darcy McGee becoming Un-popular in Canada.

Many symptoms give evidence that the popularity of Darcy McGee is on the wane among his countrymen here. It is felt that he has been trying to temporize with both creeds, and to be talking for the Catholics and working for the Protestants. The most unmistakable sign of the growing disfavor in which he is held occurred on the 17th ult., at a meeting of the stockholders of the St. Patrick's Hall, for the election of directors. Among the 1st of provisional directors was the name of Mr. McGee, which was first in order. When the permanent directorate was brought forward, including Mr. McGee, it was proposed to remove his name and substitute that of Dr. Hingsten. To this Mr. McGee's friends demurred, and proposed to leave out instead the name of Mr. Cusack, and English Catholic, daring Mr. McGee's opponents the test. A long and acrimonious discussion took place. At nearly two o'clock in the morning the scrutineers brought in their report of the voting, showing that Mr. Cusack had been elected. The most vociferous cheering and yelling was the welcome to this announcement. There were nearly 400 persons present. The voting is by shares, of which Mr. McGee received 1,000, and Mr. Cusack 1,300. It is understood that Mr. McGee's total was made up of only twenty-two stockholders holding large amounts, while his opponent received the support of the smaller proprietors. It is a bad omen for his re-election for Montreal.—Canadian Corr.

It should be everywhere known that both cholera and diarrhoea depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholeheartedly controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

A NEW ERA IN MEDICINE!

Let the suffering and diseased read the following.  
Let all who have been given up by doctors, and spoken of as incurable, read the following.

Let all who can believe facts and can have faith in evidence, read the following:

Know all men by these presents, That on this the Twentieth day of June, in the year of our Lord, One Thousand Eight Hundred and Sixty-Six, personally came Joseph Haydock to me, known as such, and being duly sworn, deposed as follows: That he is the sole general agent for the United States and dependencies thereof for preparations or medicines known as Maggell's Pills and Salve, and that the following certificates are verbatim copies to best of his knowledge and belief.

JAMES SMETTRE,  
Notary Public,  
Wall street, New York.

June 1st, 1866.

**DR. MAGGELL.**—I take my pen to write you of my great relief and that the awful pain in my side has left me at last—thanks to your medicine. Oh, Doctor, how thankful I am that I can get some sleep. I can never write it enough. I thank you again and again, and am sure that you are really the friend of all sufferers. I could not help writing to you, and hope you will not take it amiss.

JAMES MYERS, 116 Avenue D.

This is to certify that I was discharged from the army with Chronic Diarrhoea, and have been cured by Dr. Maggell's Pills.

WILSON HARVEY,  
New York, April 7, 1866. 27 Pitt street.

The following is an interesting case of a man employed in an Iron Foundry, who, in pouring melted iron into a flask that was damp and wet, caused an explosion. The melted iron was thrown around and on him in the following shower, and he was burnt dreadfully. The perfect certificate was given to me by him, about eight weeks after the accident.

New York, Jan. 11, 1866.

My name is Jacob Hardy; I am an Iron Founder; I was badly burnt by hot iron in November last; my burns healed, but I had a running sore on my leg that would not heal; I tried Maggell's Salve, and it cured me in a few weeks. This is all true, and anybody can now see me at Jackson's Iron Works, 2d Avenue.

J. HARDY,  
119 Goerick street.

It is stated that arrangements for a meeting between the Emperor Napoleon and Count Bismarck have been completed, and the interview will soon take place.

Mr. Bright had accepted an invitation to a public reform banquet in Dublin. The date is not fixed, but it is expected to take place before the middle of October.

On Sunday, the 2nd instant, while a female member of the sect known as the 'Plymouth Brethren' was addressing about one hundred and fifty persons in the open air at Ottery, St. Mary's, a wall forming part of the ruins of the late great fire at that place, fell among the crowd. Six people were killed and upwards of twenty more or less injured, some, it was feared, fatally.

## FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicine, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggell, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhoea Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGELL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggell's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel*.

They may be read and studied with advantage by the people of this country, of every creed and party.

BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

## THE ONE THING WANTED.

## HOLLOWAY'S PILLS.

### The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

### General Disorders of the Liver and Stomach.

All who ever indulge a table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

### Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week.

### Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in factories or coal pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits, and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

### For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluid causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

### Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarletina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided; for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 241 Strand, (near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 2s. 6d., 5s. 6d., 11s., 22s., and 38s. each box.
