The Big Shoe Store 30-32 Columbia Ave. The Leading and Pioneer Shoe Man

"I like to have my prescriptions compounded at Morrow's Drug Store."

So said a patient to a doctor recently.

Everything there is neat, clean and business like and you never hear any talking and laughing behind the prescription case."

From the way our business continues to grow we know that the majority of the people appreciate a drug store conducted as ours is. Your patronage solicited.

T. R. MORROW

KOURAPATKIN AT KAICHAU

Russian General Will Make a Stand

NAVAL VICTORY AT PORT ARTHUR

The Japs Defeat an Attempt of the Port Arthur Squadron to Get Away From Harbor.

Newchwang, June 27—Newchwang is filled with rumors of more fighting to the southward. The reports come from native sources. A few Russian officers, who talk guardedly, say the rumors are untrue, but that General Kouropatkin intends to make a determined stand at Kaichau, where many mines have been laid and trenches constructed. Large bands of robbers are giving the Russian outposts much trouble northeast of Newchwang. The Japanese, it is said, have supplied the robbers with 1000 modern rifles and much ammunition.

French correspondents from Mukden report that the Japanese up to last Monday had made no demonstrations near Liauyang. These correspondents are now with the Russian forces south of here, but the American and British correspondents are not permitted to see the fighting.

Viceroy Alexeieff has issued a proclamation to the effect that traffic in the Liau river, south of Mukden, must stop and that foodstuffs must be delivered to the Russians.

According to natives, the Russians are losing thousands of horses from glanders. There are 800 wounded Russians at a camp three miles east of Newchwang.

A few surgeons and members of the Red Cross arrived this afternoon. Many more are needed.

Tokio, June 27.—Admiral Togo reports that on Thursday last, June 23, his patrol boat discovered the battleship Peresviet and seven other vessels, accompanied by nine torpedo boat destroyers near the entrance to Port Arthur harbor. They warned him wirelessly and he immediately advanced his entire fleet, except those engaged upon special duty. The admiral discovered that the Russian fleet, which consisted of six battleships, five cruisers and 14 destroyers, evidently had planned a dash southward by sundown.

The Russians stopped outside the entrance to the harbor and after nightfall a fleet of Japanese torpedo destroyers attacked the Russians ships and succeeded in torpedoing and sinking a battleship of the Peresviet type and disabling the battleship Sebastopol.

A cruiser of the Diana type was also observed being towed into the the harbor on Friday morning and it was evident she had sustained serious damage. The Japanese ships sustained little damage.

The torpedo boat destroyer Shirogumo was hit by a shell which fell in the cabin, and three men were killed, and three others wounded. The torpedo boats 64 and 66 were slightly damaged.

PRACTICAL POSITION TAKEN

Minister Green on Coal and Oil Licences.

CANNOT USE JUDICIAL FUNCTIONS

Reason for No Summer Session—The Two Per Cent Tax Is Touched Upon.

A representative of the WORLD interviewed the distinguished ministerial visitors to the camp this afternoon, and was received particularly courteously.

Discussing the journey, it was stated to be a visit to Fernie to clear up some matters there, and the opportunity was taken to look in upon Rossland, the stop over here having no other significance.

When approached on the main topic of the day, the coal and oil licences, the Minister of Mines held concurrently with the Premier that the way the promises had been redeemed as to the coal and oil licences was the only practical way it could have been undertaken at all. The position of the government was merely this, that they would issue a licence to any applicant. It seemed that some places had been staked over and over. It was unfortunate that this was the case, but the government could not exercise judicial function and say tos which applicant a licence should be granted, and to which others it should be denied. This was not their office and it could not be expected of them to take any other course than the sensible one that they have adopted.

Referring to a summer session Mr. Green declared that at one time Premier McBride had hoped to present some railway legislation to the house and for this reason the holding of a session was entertained. But as nothing had been arranged the Government did not propose to fall into the mistakes of some of their predecessors and flood the country with a lot of paper railways.

Coming to the question of a two per cent tax on low grade ore the Minister of Mines said that the matter was one hedged round with difficulties. Some attention had been paid to to it in the past and the matter would in all probability be taken up at the coming session. It was the incidence of the taxation that was complained of more than the tax itself and in the same way much more harm had been done by the agitation against the tax than, in his opinion, was done by this particular levy. However he recognized that harm had been done and the Government would undoubtedly take up the matter and see how the tax could be altered so that its incidence would not bear so heavily on low grade mines.

LAURIER'S DEFENCE

Applauded by Ottawa Liberals.

SCENE IN HOUSE OF COMMONS

Appeals to His Record of Having Never Insulted Any Person.

Ottawa, June 26.—There was the greatest demonstration ever seen in the Commons when Premier Laurier closed his speech Saturday on the Lord Dundonald affair. After agreeing with all that had been said about Dundonald as a soldier, and dealing with his dismissal, which the general forced on the government, the Premier took occasion to refer to the use of the word "foreigner." He said when the word slipped from him, instead of another, which he substituted for it, he had taken it back before anyone could interrupt. But that privilege which was extended in the house every day was being denied him. During his whole public life he never applied an offensive term to anyone, and if his 60 years of loyalty and adherence to British insitutions was not an answer to those who misrepresented him, then no answer would suffice, but he knew it would be used against him tomorrow and after tomorrow.

Dr. Spreule—"Hear! Hear!"

Sir Wilfrid Laurier then resumed saying: "Yes, there is an echo. I am familiar with these appeals to passion and prejudice. Friends of the honorable gentleman in Quebec denounce me in Quebec as a traitor to my race and religion, but I fear not one, more than I do others. These appeals produce nothing but contempt in the hearts and minds of intelligent and honest people."

When the Premier took his seat Liberal members stood up and waved their hats and handkerchiefs and cheered for about a minute. The oldest member in the house never witnessed such a demonstration.

Walter J. Robinson will sell the goods and chattels in Exchange Saloon under a Distress for Rent at 11 o'clock tomorrow morning.

JAMES H. FLETCHER,
GENERAL MANAGER.
P. O. Box 302 Rossland, B. C

WANTED TO KNOW.

Citizens of Rossland want to know why, if the smelter at Northport is to close down at the end of July, an announcement is made of ter manager (to whom no the resignation of the smel blame is officially attached) when he could have dropped out quietly at the close without anyone being the wiser?

Because the smelter is to go on and a friend of the present 'management' is wanted for the place.

Why, if the Northport smelter is to close, the Great Northern is improving its roadbed between here and Northport?

Because the smelter will not close, and the railway wants to keep its track in fit condition to deal with the traffic.

Why, if the smelter is to blow out, the Le Roi is increasing its shipments?

Because $3000 a month profit is too thin a story to take to the annual meeting, and more ore must be shipped to keep up appearances at the present 'conservative' valuation.

Why, if the Northport smelter is worn out and has to be moved, are more men put on the development work.?

Because the mine foresees a long period of greater activity and development must be kept up to prevent the charge of gophering being thrown at the management by the shareholders at the annual meeting.

Why, if the Northport smelter is defunct, does Anthony J. McMillan Managing Director of the Le Roi and Managing Director of the Snowshoe, cable to London in the latter capacity, and announce that on the completion of the Great Northern spur into Phoenix he will ship ore to the Northport smelter for treatment?

Because the smelter will not close and the man of titles hopes, with the aid of the new manager at Northport, to demonstrate that the iron and copper constituents of the Snowshoe ore, form an admirable flux, and so get some amalgation or the other for the Snowshoe.

Why, when these facts or deductions are so apparent that any who runs may read, does the Miner persist in saying that the Northport smelter will close at the end of next month?

Because it is playing the game of its owners, the War Eagle and Centre Star, and is helping out the first card played, the bogus cablegram from London, announcing a Le Roi-War Eagle-Centre Star amalgamation.

THE GREGORIAN.

Much pother is being made by the press on this continent anent the utterances of the Pope upon Church music, and his order that the Gregorian chants should be used in general. It is declared that the music is antiquated, and that it prevents women's services being utilized in choirs. The chants were a collection of easy tunes of no great range, which were collected centuries since by Pope Gregory, so as to promote congregational singing. The chants being easy everybody could join in singing. Unison, easier than part singing, could also be adopted, as the Gregorian chants sound best in unison and admit of much variation of the harmonies in the hands of an organist who knows his business. There is no exclusion of female voices necessary to their proper rendition. The whole idea would seem to be now as in ancient times, to have church singing devotional instead of having some highly ornate but not necessarily beautiful music, rendered or murdered by a handful of singers, and the supposed worshippers listening, seated with hands folded, after paying admission as is the practice in certain Continental and London churches.

DEPORTING ALIEN LABOR

The Grand Trunk Pacific is Again in Trouble

Ottawa, June 27.—It was learned today that Judge Winchester has sent in some reports to the Minister of Labor, naming certain employes of the Grand Trunk Pacific railway, engaged in surveys of the road, for deportation. The department is taking steps to have them returned at once to the United States. The names of the parties are, for obvious reasons, withheld.

Carnegie

According to the Portland Oregonian here is what the Americans are coming to, for in a few years we shall read epitaphs like this:

Here lies
John Pittsburg Skibo Smith
Who was born in a
Carnegie Town,
Educated in a
Carnegie Institute,
Studied in a
Carnegie Library,
And at the age of 30 he became a
Carnegie Hero,
And has now gone to be with
Carnegie

A Puzzle

If today "is" tomorrow in Japan can we say towmorrow "was" today? If not, is it correct to remark that today "will be" tomorrow? You pays your money and you takes your choice.

The Coming Circus

Norris and Rowe's show is not the biggest in America as yet, but if it continues to grow in the future as it has in the past it soon will be. The aggregation is this year more than twice as large as it was a year ago, and it now requires 20 double length railway cars to transport it, but it is not the rapid growth that makes this show so popular but the meritorious performances they give. Norris and Rowe have the best circus performance in America today and it is simply conditions and circumstances that have made it such. This year they have not only added to their menagerie many rare animals and trained a variety of new and original animal acts, but they have engaged the most expensive and strongest acts of a gymnastic and acrobatic nature known to the circus world. This makes the strongest combination of arenic talent in America, so it is no idle boast, but simple truth to say that the show is at present the very best and most powerful circus traveling in the west.

Eggs for Sale

Rose Comb Brown Leghorn eggs for sale. The great egg machine, leading all others in the great Australian egg competition now going on. Guaranteed pure blood, $1.50 per setting. Apply to James Ansen, Durham addition, above dam.

For Sale—Lodging House. Apply to this office

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath softens the water at the same time that it disinfects. 25

The Georgia Minstrels

The managers have wisely discarded all the old worn out features no more will we hear "Almighty Dollar." or "Jennie" and "Turkey Feast," which should have been shelved long ago, no more will we see a person trying to get a laugh by removing twenty vests.

The personnel of the organization is made up of bright young men of talent, the only ones retained from last season being Kraton, the marvelous hoop controller, Simpson & Pittman, musical experts, Dudley & Kelley, Clarence Powell and the tough "Jim Jackson" who will this year make a visit to the "Policy Shops."

The new features are "Boomsky" in Illusions, the Three Toneys, acrobats, Cooper and his walking and talking figures and six of the highest salaried singers ever with a minstrel show, and at least a dozen new comedians, prominent among which is Emmett Davis, Bunk Campbell and Charles Scott.

The company carries two big bands under the direction of Frank Claremont.

Crown Point Hotel, Trail. Leading hotel in the smelter city.

If you want to be well dressed have your clothes made at Smith & Lougheed.

Steve Barbora vs. The Cascade Gold Mining and Milling Company, Limited, and
L. J. Brailo vs. The Cascade Gold Mining and Milling Company, Limited.

Under and by virtue of the orders made in these actions by his honor, Judge Leamy, and dated the 17th day of June, 1904, the properties of the defendant company consisting of the Cascade, California and Royal Kangaroo mineral claims and being lots numbers 5000, 5001 and 5002, respectively, Group 1, Kootenay District, will be offered for sale by public auction at the court house in the City of Rossland, on Wednesday, the 20th day of June, 1904, at the hour of 11 o'clock in the forenoon, unless the amounts due on the said judgments and costs be sooner paid.

Sale will be subject to rights of Bank of Montreal as mortgagee.

Dated at Rossland, B. C. 21st June, 1904

H. R. TOWNSEND,
Registrar.

To the Merchants

Why Don't You Increase Your Business?

Do not sit down and complain of lack of business, because people are sending out of the city for their goods.

Hustling will Do the Trick

Give them to understand that they can save money by dealing at home.

YOU WILL HAVE TO SHOW THEM

That you can sell them better goods for less money than they can get them for at some Cheap John department store in the east, and keep the money at home.

When you have done this You will get the results

The next question is how to reach the people to tell them what you want them to know

You can do this by keeping your advertisement in

The Evening World....

It reaches all the people and goes in all the homes in the city. ✷ ✷ Its circulation is increasing every day.

Give it a Trial

And you will not complain as to the result

NOTICE

RESPECTING COAL AND PETROLEUM LANDS IN SOUTHEAST KOOTENAY

NOTICE is hereby given that licences to prospect for coal and petroleum upon and underlands situated within Block 4,593, South-East Kootenay, will be issued forthwith to all persons who have made proper application, in pursuance of the provisions of the "Coal Mines Act" and amendments.

The fee for each licence will be $100, and all applicants who have not deposited accepted bank cheques to cover that amount are hereby required to do so without further notice.

Licences will be issued in the following form, viz :—

"MINING LICENCE ISSUED UNDER THE COAL MINES ACT AND AMENDMENTS.

"In consideration of one hundred dollars now paid under the said Acts, and subject to the provisions thereof, I. W. S. Gore, Deputy Commissioner, acting for the Chief Commissioner of Lands and Works, licence to enter, prospect, search and work for coal and petroleum (but no other metal or mineral) upon, in and under all that piece or parcel of mineral land situated in and forming part of Block 4,593, East Kootenay District, and described as follows:—and not exceeding in the whole six hundred and forty statute acres.

"Owing to the number of applicants for licences to prospect for coal and petroleum, and the peculiar circumstances surrounding the application for and issuance of these licences, and the well known fact that the issuance has been unavoidably suspended for so many months, the Government of British Columbia finds it impossible to determine the equitable rights of the numerous applicants. Therefore, for the purpose of enabling all persons to go before the proper tribunal for the determination of their respective rights and priorities, this licence is issued and accepted subject to such prior rights of other persons as may exist by law, and the date of this licence is not to be taken or held as in any sense determining such priority, and further it shall not be taken or held to waive enquiry by the Courts into the proper performance of all conditions precedent as between adverse claimants; and further, on the understanding that the Government shall not be held responsible for, or in connection with, any conflict which may arise with other claimants of the same ground, and that under no circumstances will licence fees be refunded.

"And the holder hereby waives any claim or demand against the Government, and expressly agrees not to take any steps or proceedings, or present any petitions, to enforce any alleged claims or demands against the Government of the Province of British Columbia arising out of the issuance of this licence or any other matter or thing appertaining thereto.

"The land being under reserve from pre-emption and sale this licence does not include any right other than the right to prospect for coal and petroleum.

"The duration of this licence if for one year from the , 190.

"Deputy Commissioner of Lands and Works,

"Lands and Works Department,

"Victoria, B C., , 190 .

R. F. GREEN,
Chief Commissioner of Lands and Works,
Lands and Works Department,
Victoria, B. C., 6th June, 1904.

If you want to be well dressed have your clothes made at Smith & Lougheed.

St Eugene

One of the most important discoveries made at Moyie since the St Eugene mine was first located has been made recently in the finding of an ore body carrying higher values in silver than anything yet struck, This was first encountered in making an upraise from the No. 1 tunnel, the lowest tunnel on the St Eugene, 1600 feet in, and about 1000 feet below the surface. When first struck no information was given out concerning it, till it had been opened up, and it has now proved to be 14 feet in solid glittering ore. It will be several months yet before the full value of the find is known, but enough has been done to show its great importance.

The Bannockburn

A couple of prospectors while crossing the Bannockburn, Slocan, ground recently, accidentally came upon the Bannockburn vein cropping out of the ground, in which is exposed a chute of clean ore fully eighteen inches wide. This immense surface showing is some six hundred feet further down the hill than where any ore had previously been discovered on the Bannockburn ground and makes quite an addition to the large tonnage already exposed on this property.

A Large Force

Last month at one time 446 men were on the payroll at the Granby mines, the highest in the history of the property. The number employed now is somewhat less for the time being.

Walter J. Robinson will sell the good and chattles in the Exchange Saloon under Distress for Rent at 11 o'clock tomorrow Morning.
