## VOTE CARRIED

House of Commons Grant  
Earl Roberts \$500,000.

## THE IRISH MEMBERS PROTEST

Liberal Leader Concurred in Balfour's Eulogy of the Field Marshal—Vote Was 281 to 73.

London, Aug. 1.—In the house of commons yesterday, proposing a resolution granting Field Marshal Earl Roberts £100,000 for his services in South Africa. A. J. Balfour, the government leader, in the course of a eulogy of the field marshal, whom he compared with such men as Collingwood, Nelson, Marlboro and Wellington, said there was no doubt that but for Lord Roberts' daring strategy and rapidity with which his plans were carried out, Kimberley and Mafeking would have fallen, 11,000 British would have been starved into submission at Ladysmith and there would have been a general rising of disloyalists in South Africa. Great Britain might have recovered therefrom, but at what a cost. The country was saved from this by the genius of the man he now invited the house to reward by a unanimous vote, irrespective of political differences.

The statement called forth protests from the Irish members. The Liberal leader, Sir Henry Campbell-Bannerman, concurred in the motion. John Dillon, Irish Nationalist, strongly opposed the vote, protesting against mentioning Lord Roberts in association with such a man as Marlboro. He declared Lord Roberts had shown the greatest inhumanity in South Africa and said he had employed barbarous methods and had proved himself a dismal failure.

Kier Hardie, Socialist, and Independent Labor, declared that in the opinion of experts at home and abroad Lord Roberts' failure primarily was responsible for the continuance of the war.

After further debate for and against the measure, Mr. Balfour moved the closure, which was carried by 257 to 108. The resolution was afterwards adopted by a vote 281 to 73.

## SMELTER "LAMBS"

The "Marshal" and His Assistants -- A Nice Quartette.

Referring to the actions of bogus United States Marshal Lamb, the Northport News of Wednesday gives the following account of his arrest:

During the progress of the trial four smelter guards marched into the court room armed with big revolvers. Harkness ordered them placed under arrest and one guard drew his revolver on Deputy Sheriff Anderson. The latter drew his gun as quick as a flash and covered all of them, and another guard said, "don't give up your weapons." At this remark he laid his hand on his revolver, but Councilman Field grabbed him and they were all disarmed.

Their trial was before Police Justice Hughes yesterday and they were sentenced to pay a fine of \$100 each and costs for carrying concealed weapons. They appealed to the superior court and were held under \$200 cash bonds each. The defendants' names are Wm. Harkness, Oliver Lamb, John Peters and F. Guyton. Two of them were immediately re-arrested by the State for resisting an officer.

## ARE SHORT OF HELP

Salmon Canneries Need Men--Plenty of Fish--High Wages.

New Whatcom, Wash., Aug. 1.—The salmon are just beginning to reach the Fraser river, and the fishermen there are beginning to report good sized catches.

All the canneries are short of help, too, and the managers are using every endeavor to get all grades of labor; men, women, boys and girls, to whom they are willing to pay the highest kind of wages. Many of the little girls are making \$3 per day, and anyone can get work that applies. The boatmen are working night and day and almost sleep on their feet.

The run of salmon continues and all the canneries on the Puget sound have more than they can handle. Fish are being left in the traps because the canneries cannot put them up. As salmon will keep in good shape in a trap for a week at least, if not overcrowded, the boats take out enough to keep them from suffocating each other and leave the balance in the trap till such times as the cannery can take care of them.

We have too many beans and peas on hand, we will sell them for 5c per pound. Paulson Bros. tf

## MONTHLY RETURNS

Le Roi, Ymir and Athabasca Returns Up to July 1st.

The following returns for the month of June have been cabled to England from the mines mentioned: Le Roi—Returns for June 12,541 tons shipped yielding 4,465 ozs., gold, 8,166 ozs., silver, 182 tons, copper estimated value, \$31,806.

Ymir—During June 80 stamps ran 638 hours (26 days, 14 hours) estimated profit on operating, \$22,000. (Estimated profit for May, \$4,750.)

Athabasca—The clean-up from the cyanide plant for June yielded \$5,872.

We still have some limburger, Swiss, and monetary cheese left. Paulson Bros. tf

### A Montreal Fire.

Montreal, Aug. 1.—The city hall had a narrow escape from destruction by fire this morning. The loss will reach \$10,000.

## VERY CLOSE CALL

How Two Special Engines Were Sent For.

## KADISH TAKES TO THE WOODS

Nearly a Railway Collision—Eighty Workers Turned Off—More Late Arrivals Leaving.

(Special to the WORLD.)

Northport, Aug. 1, 4 p.m.—Bela Kadish, the smelter superintendent, had a narrow escape yesterday. He got as far as Marcus in the morning and learning of the issuing of a warrant at Northport for his arrest on the charge of carrying fire arms he decided to retreat south.

He wired Spokane and Northport for a special engine to take him south. The engine from Northport reached Marcus first and carried off the smelter superintendent on his way south.

In the meantime the special from Spokane was coming up at great speed as the wire ordering it had been very urgent, and through some mistake the two specials nearly collided. Fortunately there was a straight bit of road where they met and each had fair warning of the other's approach and with the aid of the brakes the two locomotives were brought to a standstill without any damage except a doubly scared smelter superintendent.

A special train carrying 80 men who had been got together at Duluth, Minnesota, to come and work at Northport has been successfully interviewed by union agents along the road and all of the men have been turned loose on the harvest fields in place of coming here.

Several more of the Leadville party got away from the smelter last night, and today and the total number at work is being reduced to between 50 and 60 once more.

## RAMBLER-CARIBOO

Stock Climbing Up--Work on the Property--Mill Purchased.

The stock of the Rambler-Cariboo company has been steadily rising for some time and has now touched the half dollar mark. The Sandon Paystreak has the following to say of the mine and its latest move.

The Rambler-Cariboo company has purchased the Washington mill from Mitchell & St. Jean and Thos. Mitchell now has a gang of mechanics moving the machinery to a point lower down the creek where it will be set up to treat the Rambler rock. The Washington mill was built in '95 by Mitchell and St. Jean to handle the product of the Washington mine but has never been used to any great extent. It is a 600-ton mill with a Blake crusher, three pair of rolls, six Hartz jigs, tummel system, hydraulic classifiers and round tables.

It is a very complete plant and when set up and supplied with plenty of water will easily over-

run its normal capacity on the character of rock produced at the Rambler.

A tramway connecting the mine the mill is under advisement by the Rambler-Cariboo management.

## SCABS AT KAMLOOPS

A Jap Crew at Work--Influence of a "Special" and His Gun.

For the first time since the inauguration of the trackmen's strike, Kamloops is infected with a "scab" outbreak says the Sentinel. Strictly guarded, and provided with a special "armored train," a gang some 50 or 60 "scabs" are now employed in the yards. The gang is made up of imported Italians and Japs. The former probably do not know that the strike is on. They are ignorant of our language, and being brought out here by the C. P. R. under contract imagine they have to stay with the job, and moreover, the special constables with their revolvers, exercise a coercive influence. The Japs are doubtless provided by bosses in Vancouver, who can practically compel them to work whether they want to or not. It is satisfactory anyhow to know that this is the only class of labor the C. P. R. can secure in Canada ready to suffer the degradation of "scabbing."

WANTED—a good eight or nine hundred pound horse, suitable for delivery wagon. Paulson Bros.

## FELL DOWN IN A FIT

A Rotten Row Sensation--The Marchioness of Londonderry.

London, August 1.—A sensation occurred this morning in Rotten Row, the famous track in Hyde Park, London, running parallel to the drive, and exclusively reserved for equestrians. Among those who took part in the big gathering of rank and fashion was the Marchioness of Londonderry, who fell from her horse. Her ladyship was riding along the row, when her strange action attracted attention. Then her horse stopped and the marchioness immediately fell to the ground in a fit. She was driven to her residence and later was reported to be improving.

## SCAB LAW BREAKERS.

Notwithstanding the detailed accounts which have been published almost daily about the progress of events at Northport, there are kindly disposed people in Rossland who gravely doubt whether the reported trials and convictions of the smelter officials for gun carrying, resisting the officers and general misconduct, are really true. It is incredible, say these gentle critics, that any officials of a company under British control, such as the Le Roi Smelter company is, should openly and defiantly break the law in the manner described. Yet Lamb and the rest of the gang have all been arrested, disarmed and fined. Over five hundred and fifty dollars in fines alone has so far been imposed and paid, not, be it well marked by the strikers or anyone connected with them, but by scab smelter watchmen and smelter officials generally.

It is to the credit of the local authorities that they have acted promptly in the matter and have done everything in their power to prevent the carrying of arms by anyone. We hope such a disgraceful disregard of the law is impossible on this side of the line even by a powerful company like the Le Roi, but it is well to remember that Kadish, the smelter superintendent, is acting under the direct personal supervision of Bernard Macdonald and that a word from the general manager would stop all this criminal foolishness of carrying winchesters and revolvers.

If the report wired the WORLD at 4 p. m. yesterday was correct Mr. Bela Kadish having learned that there was a warrant out for his arrest wisely returned to Spokane, although he had reached Marcus on his way north yesterday morning.

If the local justices are able to impress upon Mr. Kadish and his orderly officials that the kind of conduct attempted will not be permitted and that the law will be vigorously applied without fear or favor, serious trouble may yet be averted.

In view of the trials and convictions which have taken place at Northport within the last week we invite the editor in chief of the Rossland Daily Miner, Mr. Bernard Macdonald, to comment on the very peculiar state of affairs shown to exist.

The Miner, might also, with profit to the community at the present time, take up the account published in these columns of the trip from Leadville to Northport by the 70 men brought there by the smelter press gang. Mr. Davis, whose account we published, is here and the common test of all evidence—cross examination—can be readily applied to him and his story either by the miner, or any one doubting the truth of the facts related.

## NOTES AND COMMENTS.

The Kamloops Sentinel, which is doing great work on behalf of the striking C. P. R. trackmen, remarks on the refusal of Manager McNicoll to arbitrate: "Manager McNicoll has declined to meet the Railway Brotherhood's conciliation committee, and is apparently determined to prolong the trackmen's strike indefinitely, utterly regardless of the convenience and safety of the traveling public and the trainmen. From the outset public

sympathy has been with the men, and now that Manager McNicoll has declined to refer the trackmen's grievances to arbitration, popular feeling will be the more strongly on the side of the strikers."

It is proposed to hold an exposition at Bendigo in Victoria, Australia, near the close of the present year, to celebrate the fiftieth anniversary of the discovery of gold in Australia in 1851. Preparations are being made to interest all of the States of the new Commonwealth of Australia, and the exposition will be on a very considerable scale.

The offence of personating a United States marshal is a very serious one over the line and any one convicted of the crime is likely to get a heavy sentence. We know how to deal with such offenders in Canada. Just fancy Frank Vaughn's joy at encountering a bogus Canadian constable, and the celerity with which the "official" would be put "inside."

The Toronto Globe pays a kindly tribute to the memory of the late Senator George W. Allan who died at his home in Toronto on July 24th. The Globe describes the deceased gentleman as "Toronto's first citizen" and warmly eulogizes this Conservative senator for the high stand he took on all public questions, and for the active, practical, and intelligent interest he invariably displayed in matters touching the good of the community among which he passed a long and honored life.

The riot at the meeting in London yesterday of the Standard Exploration company's shareholders is an intimation of what may be expected a little later on when further revelations are made public. If the shareholders have lost all their money they can at least make it very warm and unpleasant for those who are responsible for the fraud practiced on the investment public.

**KENNAN'S BOOKS**

Why the Writer Was Expelled from Russia.

HIS PERSPECTIVE WAS WRONG

Official Reason Given to the Press—  
Kennan Will Come to Nova Scotia—His Good Work.

London, Aug. 1.—There is only one explanation for Mr. Kennan's expulsion from Russia, and that is that the Russian government has not recovered from the effects of the Siberian exile system, which has been greatly modified since Mr. Kennan wrote about it. His expulsion was simply a question of policy which has not affected the personal attitude of other friends towards Mr. Kennan, who was invited to places where the highest government officials were present.

A responsible official of the press department of the ministry said to the correspondent of the Associated Press on Mr. Kennan's arrival:

"I do not think that anybody here doubts Mr. Kennan's good faith. We believe he made an honest and sincere investigation of our prison exile system; that he was misled by those he trusted, and was often imposed upon. His perspective was wrong. One can give a bad impression of any country if one selects the most repulsive subjects to write about. Personally I think Mr. Kennan's book did a great deal of good. Our press is now allowed to discuss the conditions of exile with a freedom not dreamed of several years ago. The shameful conditions prevailing in the Island of Sakhalien were lately exposed courageously, by a St. Petersburg newspaper, and the worst abuses have been corrected."

Mr. Kennan is going to London, from thence he will go to Nova Scotia.

## ANOTHER JUBILEE

Exhibition to Celebrate the Discovery of Gold in Australia.

It is proposed to hold an exhibition on an extensive scale at Bendigo at the end of 1901, under the auspices of the government of Victoria, to commemorate the discovery of gold in 1851, and to celebrate the jubilee in a manner that will rank as a fitting memorial of the first anniversary of the Australian Commonwealth.

The exhibition will be not only Inter-State, but international in scope and character, and will comprise a vast exposition of the world's progress in the arts, sciences, manufactures, products, inventions, discoveries and industries.

Fitting prominence will be given to the gold mining and other mineral resources, and phases of mining in Victoria, and the other States of Australia, Great Britain, Canada, America and all parts of the old world from their earliest stages to the present time, while special courts will be erected for the display of manufactures and industries, wool, agriculture, dairying and machinery, etc. The art section will be one of the largest and best gathered together since the Melbourne Centennial exhibition.

For choice fruits and fresh candies, all at 41 Columbia avenue, or orders by V. & N. Phone 159 will be delivered to you.

## MINOR MENTION.

The mail via Spokane will in future close at 11.30 a. m. in place of 12 o'clock, the train now leaving at 12.25 instead of 12.55 as formerly.

This is the first day of the legal long vacation and Sept. 30th will be the last. Lucky fellows—these lawyer workers—and yet one of them objects to the eight hour law for miners.

John Calder, Herb. Williams and Harry Fletcher of the C. P. R. left today for a fortnight's fishing at Sheep lake.

W. F. Lingle has moved his office on Washington street one door north to the premises formerly occupied by the city bakery.

Mrs. Charles Grenier has gone to Spokane to visit her husband who is laid up in the hospital there.

Fred P. Gutelius of the C. P. R. is over from Nelson.

D. McMillan was a passenger for Spokane on the noon train today.

Elias Rogers, Toronto's coal king, is in Nelson.

The lawyers of Nelson played the court house team at base ball today. Judge Forin was pitcher, W. A. Galliher, first base; John Elliott, catcher and W. A. MacDonald short stop.

## A NEW TOWNSITE

Smith Curtis' Venture in the Similkameen.

## WILL BE CALLED COPPERFIELD

Mr. Curtis Will Build an Hotel and Spend the Summer on the Ground—Some of the Advantages.

Princeton, Aug. 1.—Smith Curtis M. L. A., has placed upon the market the new townsite of Copperfield. Nearly two years since, when Mr. Curtis first paid the district a visit, he purchased from Captain S. F. Scott his pre-emption of 310 acres, situated about nine miles from town at the confluence of Whipsaw creek and the Similkameen river.

Speaking of his plans for the city Mr. Curtis said: "The development of the mines of Copper and Kennedy mountains in the near future will support a good-sized place with their payroll. Between these two mountains there are few places suitable for such a town. Copperfield is at the foot of Kennedy mountain, and right across the Similkameen river is Copper mountain, within easy distance. Besides numerous mineral claims many of which will, in my opinion, unquestionably develop into mines, there is also along Whipsaw and Nine-mile creeks and the Similkameen river coal measures. There is also another possible industry that may eventually become important. Near by are large deposits of clay suitable for the manufacturing of pottery, fire bricks, sewer pipe, etc. Immediately below the townsite is a splendid site for a smelter, and if the future justifies the erection of a plant the product of both Kennedy and Copper camps could easily be trammed down the mountain side at slight expense. Just as soon as I can complete my arrangements I shall have the townsite cleared and a good hotel built. Meanwhile I intend to make myself thoroughly acquainted with the district by putting in most of the summer here."

## A PLAIN STATEMENT.

The Facts of the Case as Presented by the Executive Committee of Rossland Miners' Union, No. 38, W. F. M.

Rosland, B. C., July 12th, 1901.

To the Citizens and Business Men of Rossland and Vicinity and to the General Public:

The business and social interests of a community are so closely interwoven in a community like Rossland, that any dispute among the industrial elements forming the social structure, is often more disastrous to the business or non-combattant class around which the labor and capital elements revolve, than to the actual combatants themselves. Thus both labor and capital are morally obligated to strive to adjust their disputes, to protect the social structure of which they are separate parts.

For this reason this union deems it well to make a careful statement of all the reasons leading us to precipitate this industrial strife at this time. Since the agreement between the big corporations of Rossland and Rossland Miners' Union in April, 1900, this city has apparently enjoyed industrial peace; yet all who are conversant with the industrial affairs of Rossland for the past fifteen months know there has been a secret warfare waged against this Miners' Union, which has been nearly as destructive to the business interests of the community as an open struggle between the two industrial forces, and worse in that there is no apparent end to be seen.

We have given long and careful consideration to this matter and have reached the conclusion that the foundation of the trouble rests on the fact that nearly one-half of the employees in the mines of this community receive about 20 per cent less wages than the same class of labor in surrounding camps, many of which camps have a lower grade of ore and are less favorably situated than Rossland. We believe that it is to continue to enforce this unjust scale of wages that so many annoying practices have been introduced to undermine the prestige of this Miners' Union of Rossland.

First.—An annoying system of espionage and blacklisting by which many of our ablest members have been compelled to seek employment in other localities, although of unquestioned ability in their trade.

Second.—By revoking a time honored privilege of the Secretary being allowed to solicit members among the non-union employees of the companies who might be off duty on the premises of the companies, a privilege guaranteed us by the last half of Article 15 of the agreement of April, 1900; thus preventing us from refilling our ranks depleted by loss of members compelled to seek employment in other fields.

Third.—By connection with bogus employment agencies seeking to flood the overcrowded labor market with cheap foreign labor.

Finally.—By the largest corporation in this vicinity openly seeking and striving to crush a sister union at Northport, Wash.

We believe all these efforts are mainly to enforce this unjust scale of wages and to prevent all efforts towards an increase. Therefore we have fully resolved that there can be no industrial peace in Rossland and vicinity until this wage question, is finally and satisfactorily settled. Then will this fair city enjoy the prosperity for which nature has so evidently intended it.

For this result we ask the moral aid and support of the many diverse bodies making the general public of this city.

Especially we ask your aid in maintaining order, without which we cannot succeed.

There can be no permanent settlement but a just settlement, and to this end we will use all our power as an organization, and all the assistance of the Western Federation of Miners.

We have right on our side and must surely win.

EXECUTIVE BOARD

ROSSLAND MINERS' UNION No. 38, W. F. M
