THE HOMESTAKE

Report of Superintendent Samson Hall.

MORE DEVELOPMENT REQUIRED

Shareholders Will Be Asked to Provide Funds—Work Done Easily Warrants It.

Superintendent S. W. Hall of the Homestake has issued a special report to the president and directors of the Homestake Mines, in which he goes very fully into the history of the mine since he assumed charge in September 1900 up to last week when work on the property was stopped. The superintendent closes his report as follows:

"I firmly believe that if the other stockholders will only back up Mr. Bayne in his determination to start up again after the present labor difficulties are adjusted, and business generally assumes its normal state, that with the expenditure of another \$10,000 the Homestake will then be in shape to take care of itself.

"There has been \$28,873.18 expended on the property and in the office since I took charge of same, \$1,893.50 in general and office expenses, and the balance of \$26,979.68 in and about the mine.

"For this amount of money we have accomplished 1218 feet of work. The main tunnel was driven 964 feet, crosscuts of 154 feet, raising 100 feet of three compartment shaft, and some little work on surface. This gives an average cost of about \$22.15 per foot for all kinds of work. The average cost per foot while driving the tunnel was \$14.75.

"As to work for the future, I would recommend that the main shaft be sunk at least a further distance of two hundred feet, and levels opened on the four and five hundred foot marks. This can be done for the amount of money mentioned above (\$10,000.00)."

TO CHEAT THE LAW

O'Brien Makes Two Attempts at Suicide--A Miner Killed.

Vancouver, Aug. 14.—Passengers on the Hating brought news that O'Brien, the murderer, had made two attempts to cheat the gallows. He tried to strangle himself by putting a handkerchief tight around his neck, then knotting it. Failing in this he dashed his head against the iron bars of his cell. He was not seriously hurt.

Word has also reached here that B. C. McCord of Vancouver, was killed at Dawson, July 28th, by falling down a mine shaft.

The body of Michael Quinn has been recovered from No. 3 shaft on the Extension mine. Sulphurous fumes from No. 4 shaft have made it impossible for men to work in the vicinity of the fire. The management have decided that the mine must be flooded. To accomplish this a ditch is being dug to connect the mouth of the shaft with Comox lake. Flooding will probably take two weeks.

A Judge Dead.

St. Johns, Que., Aug. 14.—Hon. Judge Charland died suddenly here last evening. He was sitting on a hotel verandah when he became suddenly ill and expired almost immediately.

For the Coronation.

Montreal, Aug. 14.—News has been received here from Ottawa that a Canadian regiment will be sent to represent Canada at the king's coronation. They will be organized in the same manner as the regiment sent to the jubilee ceremony, but will be considerably larger.

TRADES COUNCIL

Annual Meeting Last Evening--Morning Paper Unfair.

At the regular meeting of the Rossland Trades and Labor council, held last evening in Miners Union hall, the attendance was exceptionally good. The following officers were elected for the ensuing term after which they were installed:

Vice-President, W. L. McDonald; Secy.-Treas., John McLaren; Sergeant-at-Arms, Irving Hennegar.

A communication from Duluth Carpenters' Union in regard to the occupants of the Wells & Marshall building in that city being unfair to organized labor was received, the action of the Duluth unions endorsed, and the matter referred to the Carpenters' union of Rossland for action.

A communication from the Berlin Broom Workers' Union in regard to introducing union brooms in this city was received. The secretary will receive samples and prices which are to be submitted to the merchants by a committee appointed for that purpose.

The attitude of the Rossland Miner towards organized labor was taken up and discussed at length. It was evident that some measures should be taken to demonstrate that the Trades Council considered the morning paper an open enemy towards organized labor.

Several of the different unions in the jurisdiction of this council having placed the Miner on the unfair list, their action was endorsed and the Miner was placed on the unfair list of the Trades and Labor Council.

In view of the fact that the Rossland Miner is part and parcel of the Great Western Mining company, the council considered that any aid and support to the Rossland Miner is aid and support to the mine managers in the strike now in force at the mines of Rossland.

The matter will be more fully taken up at the meeting next Tuesday at 8 p. m., when a full attendance of the delegates of the Typographical union and the other unions will be requested.

CLARK'S BODY FOUND.

Solution of a Fort Steele Mystery--Drowned in River.

Word has been received by Customs Officer Clute at New Westminster that Charles Clark, who disappeared in July from Fort Steele, had been drowned, his body having been found in Kootenay river, near that point.

Wanted to buy spring chickens. Address Box 576. 3-t

THE COAL MINES

San Francisco Strike Makes Trouble at Nanaimo.

FOURTEEN THOUSAND MEN OUT

Non-Arrival of Steamers—Obliged to Stop Work—Will Last as Long as the Tie-Up Exists.

Nanaimo, Aug. 14.—As a result of the San Francisco strike, which has tied up the shipping trade, the coal mines were closed down today, throwing 14000 men out of work.

The statement of the company to miners is in part as follows: "Owing to the non arrival of our steamers we shall be compelled to stop work as soon as we have filled the bunkers." It is understood that this order becomes effective almost immediately continuing effective as long as the tie up lasts. Coal mining is the only industry in this town of 7000 inhabitants, therefore the outlook is very bad especially as mines in the district which support a population nearly the same size are in a similar predicament.

A \$20,000 PURCHASE

Ewart and Davenport Buy Three Claims Near the Arlington.

Two important transfers were entered at the Nelson record office yesterday. One was the Keystone claim, at the head of Whiskey creek, about two miles east of the north fork of Salmon river and about half a mile east of the Arlington mine, by J. Shuttleworth, and C. C. Ladd to Robert Ewart and A. L. Davenport, for \$15,300 cash. The other was the Cable and Tenbrook claims, adjoining the Keystone from J. Shuttleworth to Messrs. Ewart and Davenport for \$5000 cash. The three claims combined are said to be an excellent property, the ore being similar to that of the Arlington.

London "News"

The manager of the Le Roi sent the following cable to his London directors on July 30th. It makes funny reading here.

"Northport smelter now independent of strikers, plenty non-union men to smelt 600 tons per day employed. This and decision not to yield to demands of Rossland Miners union having been published will be likely to influence early termination of strike here."

Mills Closed Down.

Three Rivers, Que., Aug. 14.—All the lumber mills here are closed down, logs having stranded in St. Maurice river owing to low water. Loss is heavy.

Card of Thanks.

I wish to publicly express my sincere thanks to the many kind friends who materially assisted in lightening the burden consequent upon the loss of my beloved wife. The many acts are greatly appreciated, as are also the many beautiful floral tributes presented.

CHARLES ROSE.

At Northport.

Northport, Aug. 14, 3 p. m. (special) Bernard Macdonald accompanied by a friend from Rossland drove down here last evening and returned to Rossland on the train this afternoon. Mr. Macdonald had a justice of the peace brought up to the smelter, for what purpose is not known.

No Settlement.

Rumors of a settlement of the strike were current on the street today. There is no foundation for the story. No offer has been made or is pending either at Northport or in this city.

STRIKERS CONFIDENT

Gains Made by the Men at Four Points--62,000 Now Out.

Pittsburg, Aug. 14.—Neither side has moved decisively in the great industrial conflict between employers and employees in the steel strike and the result is still in the balance. The strikers made gains in Pittsburg, McKeesport, Wheeling and Bellaire in the last 24 hours, but in the main the advantage is still with the mill owners.

Both sides claim to be preparing moves that will bring confusion to their opponents, but neither side has shown its hand. Both sides express their confidence in ultimate victory, and are actively carrying forward their campaigns. The number of men out as a result of the general order is now roughly estimated at 16,000 and on the three orders at 62,000.

Laid To Rest.

Potsdam, Aug. 14.—The remains of the Dowager Empress Frederick were interred yesterday beside those of her husband in the mausoleum of Fridenskirch, near Potsdam.

SANDON'S TROUBLES

A Municipal Receiver Is Spoken of--Bad Forest Fires.

Sandon, Aug. 14.—Sandon's municipal difficulty still continues. Nominations for aldermen to fill vacancies at the council board were called on Monday, but no names were presented. A receiver is spoken of.

Forest fires are destroying valuable timber in the Carpenter Creek gulch and around Slocan lake.

The Payne has placed an order in Portland for 5000 feet of air pipe for their new compressor plant.

The electric prospectors are working on the Payne and adjacent ground locating the ledge below the present workings on the Sandon side of the hill.

We still have some limburger, Swiss, and monetary cheese left. Paulson Bros. tf.

AN INJURED MAN.

In his vicious fight against all organized labor the gentleman from Bodie has attempted some queer moves, the queerest of which is to pose before the public as a modest injured individual who, really and truly is greatly magnified by the little band of conspirators who are putting up so great a fight against his honest efforts on behalf of the suffering English, French, and American shareholders of the Le Roi company.

Mr. Macdonald has told us very frankly, in a most charming manner over his own signature, and in his own newspaper, the Rossland Daily Miner, that he greatly dislikes rototidy and publicity—the modest mine manager that he is—and one can very well understand that Whitaker Wright in his own peculiar fashion would very earnestly enter identically the same plea at the present moment in London, if he were only allowed to, and perhaps on better grounds than his manager here could successfully hope to do.

Mr. Wright has bravely stated that he and his immediate friends really "court investigation," and, without wishing to make a play upon words, it does seem as if the English courts were about to grant the eminent financier's request to the fall.

So far as outsiders are able to judge the pleasing state of things revealed in the Standard Exploration company, the London and Globe and the British America Corporation affairs, leaves hardly anything to be desired.

People in England seem to think that fraud is stamped only too plainly on many of the outrageous stock transactions already unearthed at the commencement of the investigation.

If, as many persons here now believe, the troubles at the Le Roi Smelting Works at Northport and the strike among the miners—union and non-union—in this camp, formed just a little part of the stock jobbing scheme, can any terms of condemnation be too harsh? Has the manager of the Le Roi group, Mr. Bernard Macdonald any hand in this scheme, supposing it to have existed as suggested. If he had or has, will this community stand for him or for any one who supports him? and are any terms of reproach too strong to apply to the whole transaction, and all who are connected with it however remotely?

When the charge was first made Mr. Macdonald indignantly denied it over his own signature, in his own paper. But the public will kindly recall that Mr. Macdonald said the smelter was closed down for repairs only. Mr. Macdonald allowed the editor of his paper to publicly deny the change of ownership of the Rossland Miner. And Mr. Macdonald vigorously asserted through the columns of the Miner that a small and insignificant fraction only of the working miners and muckers were against his avowed policy. And the public will also recall, the lockout which followed the close down at the smelter. The announcement by Mr. Heinze of the sale of the Rossland Miner, and the fact that every single employee in the mines under Mr. Macdonald's charge—non-union as well as union—dropped their tools and marched out on the 11th of July—and have remained out ever since.

The manager of the Le Roi may be a very much injured, maligned and misrepresented individual, but he

has only himself to thank for it, and the most credulous section of the community may be pardoned if they suspect his good faith in the whole miserable matter. The majority of the people in Rossland go a great deal farther and make no secret of their belief. People at times, regard the troubles and tribulations of other people with a certain amount of equanimity but their own afflictions they can always be counted upon to consider very seriously, and it will take something stronger than anything which has so far appeared in the columns of Mr. Macdonald's paper to turn honest public opinion his way.

NOTES AND COMMENTS.

Northport is supplying all the interesting news during the dog days. General Kadish must commence all his daily reports to Field Marshal Bodie with the Boer war form—"I regret to report" &c.

An open desertion of 25 "foreign" workers, a bad freeze up and a terrific assault case by one of their own non-injured scab workers, all within 36 hours, must make a pretty showing in the daily reports from the smelter, won't the Miner please print them in place of—say the daily editorials on the mineral industry with which we are now afflicted?

The union men at Northport appear to keep and maintain as good order amongst themselves since, as before the celebrated injunction, but the armed guards and the scab element within the smelter works seem as riotous and unruly as ever. The wanton assault on Foreman Connolly at the works yesterday should call for "language" in the Morning Whiner. Has the attorney general (U. S.) been informed of the matter yet?

Manager Bela Kadish does not appear to be any more successful with the smelter works at Northport than Manager Macdonald with the mines and the Miner in Rossland, or Manager Wright with the stock manipulators in London. The trinity of manipulators are in hard luck indeed.

Everyone in Canada who knows Captain Aemelius Jarvis who is commanding the challenger for the Canada's cup at Chicago this week will readily understand his reluctance in accepting the decisions of the judges yesterday, who awarded the race to the Canadian boat on a foul. There are still two races to be sailed to decide the contest and everyone will hope that the races may be sailed out and that the best boat may win. There should be some arrangement whereby a skipper entitled to claim a foul might waive his right. Jarvis would be hard pressed indeed before he would run up his protest flag in such a contest.

COPPERFIELD

At junction of Whipsaw Creek and Similkameen River, at the foot of Copper and Kennedy mountains, famous for their enormous showings of Copper and Gold ores, nine miles above Princeton. Copperfield is the natural Smelter City and mining center for this district and south to the international boundary. Several hundred horse power is already developed in Whipsaw Creek. Large Smelter Site reserved. Coal croppings and exposures under and surrounding town-site and negotiations are pending for exploitation of adjoining coal measures to the west. Mr. Curtis has gone to supervise the platting of lots and will reserve for Rossland purchasers exclusively a number of the best lots on the business and residential streets. First choice to those first applying and paying a deposit to the undersigned. Prices \$65, \$55 and \$50 for lots on business streets, and \$30 and \$25 for lots on residential streets. A limited number only will be sold at these prices. Terms—one-half cash, balance in six months. The big boom in the Upper Similkameen mining country is beginning. Why not be in it?

NOTICE!

TO any customers who patronized us all the time while they have been at work, and especially to those with families, we beg to announce that we will trust them to all the goods they may need during the strike and will wait for the pay until they start to work again and be able to pay. To those who need other stuff, such as Groceries, etc., which we do not carry, and cannot get credit elsewhere, we will give them orders, on which they can get all they want on our account until the trouble is all settled. This is a bona fide offer, which fact can be readily proven when occasion makes it necessary.

THE PEOPLES' STORE CLIFTON CORNER. B. BANNETT,

SCHOOL SETTLED

Brief Meeting of the City Fathers Last Night.

MAY IMPROVE THE CITY PARK

Louis Blue's Offer of a Right of Way for the Water Pipes—Obstructing Sixth Avenue.

The mayor and all the council were present at the regular weekly meeting last evening. The session was an exceedingly brief one.

The school building question was disposed of by the following resolution moved by Alderman Hamilton, seconded by Alderman Clute, that the specifications for the construction of the new school building having been submitted to the council and having been let by the school trustees on behalf of the government for a sum within the \$10,000 granted by the government, this council hereby agrees to accept and disburse the sum of \$10,000 on account of the said contract provided such sum is placed to the credit of the city by the government.

The city engineer made a special report on the proposed race track in the city park. Mr. Van Buskirk says: "I regret to say that it is not at all suitable for the location of a race track" and concludes his report by saying "I cannot recommend the expenditure necessary."

Mayor Lalonde remarked when the report was read. "That settles the race track proposition." But there is nothing to prevent the council clearing up a portion of the park and taking several minor steps to make the city park available during the summer months.

Louis Blue wrote the council saying in part: "I am prepared and willing to make a conveyance to the city of the right-of-way for the city water works system, provided that the city give me and my heirs and assigns forever the right to continue the water pipe now laid through the city to the Lion Brewing company's works, and also the further right of extending that pipe line from its present terminus along the city's right-of-way to my old mill." Blue's offer was referred to the Fire, Water and Light committee to report on.

The Board of Works recommended that the applications for side walks on South Spokane street and Cook avenue be referred to the city engineer, to report on as to cost.

The board further recommended that immediate steps be taken to remove the two buildings now in the centre line of Sixth avenue.

Sundry accounts amounting to \$166 were directed to be paid.

TWO FOR INVADER

The Canadian Boat Awarded the Third Race on a Foul.

Chicago, Aug 14.—Captain Jarvis of the Canadian Invader won the third race for the Canada's cup yesterday on a foul. Jarvis refused to fly his protest flag but the Cadillac was notified and dropped out of the race, the Invader going over the course alone. The foul occurred during the jockeying for a start in which the Canadian skipper got the best of the defender and the latter refusing to give way, a foul occurred. Neither boats were damaged and the Canadian was quite willing to go on with the race as if nothing had occurred. The foul happened in full view of the judges boat, however, and the officials at once steamed up to the Cadillac and notified Captain Thompson that his boat was disqualified for the day.

Invader sailed the course and was raced by Milwaukee, the Oshkosh yacht that so hotly contested with Cadillac the honor of defending the cup, and the sailing match was followed all around the triangular course. Invader beat the Oshkosh boat handsomely in all points of sailing, in a light wind. Captain Jarvis said after he got ashore that he felt no satisfaction in getting a cup race in this way, but he was pleased that his boat had an opportunity to beat Cadillac's rival, the Milwaukee.

MINOR MENTION.

Dr. W. C. Brinkhoff, of Chicago, a large shareholder in the Abe Lincoln in the South belt, is a visitor here in the interests of the property mentioned.

W. H. Bullock Webster of Nelson, was in town yesterday in connection with the Angus inquest.

The funeral of the late Jerry Spellman took place at Spokane this afternoon. The Spokane Elks had charge of the obsequies and there was a large attendance. The interment took place in Greenwood cemetery.

Returning Revelstokers express great dissatisfaction with the Vancouver Street Fair.

A freight wreck at Gull Lake, Assiniboia, has demoralized the train service on the main line of the C. P. R.

L. Zabel, an old employe of the Iron Mask, is moving with his family to Grand Forks.

Quite a number of Rossland men left for Butte, Mont., today on the noon train.

S. Patterson has gone to Victoria via Spokane.

A. O. Miller and family have gone to the coast on a visit.

Isaac Tracey left today for the Yellowstone mine.

From Similkameen.

Hon. Smith Curtis, M. P. P., arrived from the Similkameen country last night. Mr. Curtis is enthusiastic over the future of that section and thinks the railway will reach Hedley City early next year. He thinks the mine managers and the union should arbitrate their differences. It was pointed out to him that Mr. Macdonald had refused arbitration at Northport, although the men asked for it.

Mr. Curtis has several plans in hand connected with the western section of the Boundary country.

Lowered a Record.

Boston, Aug 14.—Albert Champion lost two of the three 10-mile heats in his motor-paced race with Jimmy Michael and Archie McEachran at Charles river park last night but in the heat that he won he lowered the record by several seconds, flying start in competition, his time for the ten miles being 15:06 1-5.

Price of Flour.

During the strike the grocers of this city have decided to reduce the price of flour:

50lb sack Hungarian flour.....	\$1.50
100lb sack Hungarian flour.....	3.00
Barrel Hungarian flour.....	6.00
50lb sack Spokane flour.....	1.25
Barrel Spokane flour.....	5.00

Certificate of Improvements.

NOTICE.

"Grand" mineral claim situate in the Trail Creek Mining Division of West Kootenay District.

Where located—at the base of Granite mountain on the east slope, north of and adjoining the Trenton mineral claim.

Take notice that I, F. A. Wilkin, acting as agent for S. L. Williams free miner's certificate No. B420,70, A. B. Mackenzie free miner's certificate No. B42,700, N. A. Mackenzie free miner's certificate No. B43,384, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant for the above claim.

And further take notice that action under section 37 must be commenced before the issuance of such Certificate of Improvements.

Dated this 18th day of July A. D. 1901.

F. A. WILKIN.

NOTICE.

Notice is hereby given that Murdo Mackenzie Macdonald, of the city of Rossland, in the Province of British Columbia, heretofore trading and carrying on business under the firm name and style, Macdonald & Co., as dealer in candies, etc., by a deed of assignment for the benefit of creditors, bearing date 17th day of July, 1901, made in pursuance of the "Creditor's Trust Deeds Act," and Amending Acts, has granted and assigned to Henry Edward Arthur Courtney, of Rossland aforesaid, barrister at law, all his personal estate, credits and effects which might be seized under execution and all his real estate, in trust to pay the creditors of the said Murdo Mackenzie Macdonald, rateably and proportionately their just debts.

The said deed was executed by the said Murdo Mackenzie Macdonald, assignor, and the said Henry Edward Arthur Courtney, trustee, on the 17th day of July, 1901, and the said trustee has undertaken the trust created by said deed.

All persons or corporations having claims against the said Murdo Mackenzie Macdonald must forward and deliver the same to the said trustee, with particulars thereof duly verified on or before the 19th day of August, 1901.

After the 19th day of August 1901, the said trustee will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which he shall then have had notice.

And further take notice that a meeting of the said creditors will be held in the office of the undersigned on Friday the 2nd day of August, 1901, at 10 o'clock a.m.

Dated at Rossland, B. C., this 17th day of July, 1901.

C. E. GILLAN,
Solicitor for trustee,
26 1/2 East Columbia ave.

.. WHERE..

IS MORGAN?

MORGAN is a new town on the railway now under construction from Marcus to Grand Forks, Republic, Midway and Phoenix.

MORGAN is situated on Kettle River, half way between Marcus and Cascade.

MORGAN is an ideal townsite in that it has a large mining district and a big agricultural, stock and fruit raising country tributary to it.

MORGAN has no rivals and will be the largest town between Spokane and Grand Forks.

MORGAN is the shipping point for the great First Thought mine, which is developed by 1900 feet of tunnels and shafts, and has over \$1,000,000 worth of ore in sight.

MORGAN is the headquarters for the Pierre Lake and Flat Creek mining districts which contain more partially developed mines and prospects showing bodies of sulphide ores averaging over \$10 a ton than any similar area in the northwest
