FUNDS ARE ASKED

English Shareholders Issue Another Circular.

GREAT WESTERN AND KOOTENAY

Move to Cancel the Sale and Make Promoters Refund--The Original Deal with the B. A. C.

Over in London efforts are being made to turn over the affairs of the Rossland Great Western and the Kootenay mines.

A circular issued to shareholders asks for sixpence a share to form a fund with which to take legal action to set aside the sale of the properties to the companies in question and to make the promoters and others refund monies paid them on the original deal.

In the delightful tangle Whitaker Wright has caused in the affairs of both these corporations it is not at all easy to understand just what the move means. The Financial News is opposing the action and doing its best to discountenance it.

It is generally understood that the B. A. C. were the purchasers of all the properties now held by the Le Roi No. 2, Rossland Great Western and the Kootenay mines and some additional claims as well. In the first instance the East and West Le Roi companies were started and subsequently the companies in question were formed and of the properties originally purchased by the B. A. C., except the Le Roi mine almost all were turned over to them. This left the original East Le Roi company with a part interest in a valuable prospect known as the Grey Eagle, and the West Le Roi company as the proud possessor of some fractions and a prospect or so on Red mountain.

Mr. Wright, however, continued to play with the shares of the East and West Le Roi companies and they figure in the compulsory winding up of the London and Globe and the B. A. C.

What the outcome of the effort now being made in London will be, whether it is a bona fide one or merely another tustle between the stock jobbers is not yet clear but the investigation now in progress in the courts may assist in explaining several matters of interest in Rossland.

It is to be hoped that one result at least will follow in London and that is the clearing out of Whitaker Wright and his friends from all their holdings in the Kootenays of whatever kind. Rossland has had enough of Whitaker Wright.

THE HATING MAY BE SAVED

Bulkheads Are Solid and But Little Water in the Hold.

THERE WAS NO PANIC ON BOARD

Chinese Cooks Got Badly Scared But Were Quieted--The Fog Lay Like a Blanket Over the Sea--Divers Are Now at Work.

Vancouver, October 15.—An effort will be made early in the week to float the steamer Hating, which was wrecked on Saturday afternoon off the Western side of Jarvis island, when on her way down from Skagway.

Captain Gosse has made a thorough examination of the ship with a diver sent from this city, and finds that with pumping out her stern it will be an easy matter to float her. The forward bulkheads are still holding solid, and there is comparatively little water in her hold.

Passengers who arrived here by the Willapa all declare that the accident could not possibly have been avoided and that the captain and officers acted in the best way possible. Even after the boat struck and was grating against the rocks, passengers leaning over the rail could not see the rocks that grated the ship's side ten feet out of water.

The fog lay like a blanket over the sea.

The ship had been carried only one hundred and fifty yards out of her course, and luckily went into a sort of natural cradle between the rocks. The orders of the captain were obeyed implicitly, and in less than half an hour all the passengers and their valuables were safely ashore. Just after the first grating of the keel against the rocks caused a shiver to go through the ship, the Chinese cooks ran on deck. They thought the ship was sinking and made a rush for one of the boats. One carried a long knife and yelled that he was going out in one of the boats. Then he raced along the deck in a frenzy of fear and had to be secured by sailors before he could be quieted. Some of the women rushed for life belts, but there was no panic.

The captain had been feeling his way along the narrow passage for half a dozen miles. He had been judging the distance from shore by means of echoes from blasts of his whistle against the forests of the Texada side of the channel.

THE END OF AL GEISER

Both Appeals Dismissed with Costs in Supreme Court Yesterday.

At the conclusion of Mr. Daly's argument yesterdry in the supreme court before Mr. Justice Walkem. The court at once gave judgement on the objection to the appeal raised by Mr. MacNeill.

The learned judge held that the marked cheque of Messrs. Daly and Hamilton was not a satisfaction of the rule which requires the appellant to enter into a recognizance before appealing.

Accordingly the appeals on Geiser's behalf in the two cases decided by the police magistrate on the 17th of last month are both dismissed with costs and the judgment of Mr. Boultbee is allowed to stand.

W. L. McDonald is entitled to receive one half of the fines inflicted, $275, but the whole amount will be paid over to the receiver general of Canada in the first instance.

There is no provision for repaying Mr. McDonald for the costs incurred in inforcing the law.

So far as Rossland is concerned Geiser will only be remembered now as a sort of unpleasant dream.

Instantly Killed.

St. Marys, Ontario, October 15.—Mrs Richard Cannon was struck by a Grand Trunk train today while crossing the track a mile from here and instantly killed.

WILLFUL MURDER

Verdict of Coroner's Jury at Victoria in the Hill Case.

Victoria, Oct. 15.—The coroner's jury last evening brought in a verdict of willful murder in the case of sapper Hill of the Royal Engineers, who shot and instantly killed gunner Clinnick of the Royal Artillery.

At the inquest it came out that the shot was intended for gunner Mahoney, who was sitting opposite Clinnick at the card table in the canteen where the shooting occurred. Hill borrowed a carbine and went to the canteen to shoot Mahoney but for what reason nobody knows, Mahoney himself saying that he can conceive of no reason for it.

Funeral Today.

The funeral of the late Mrs. George Rogers took place this afternoon from the family residence to the Methodist church where the service was held. There was buite a large attendance of friends. The interment subsequently took place in the Columbia cemetery.

High Jumper.

Toronto, October 15.—A special from Nashville says at the horse show Satnrday night Sure Pop, belonging to Crowe & Murray of Toronto, broke the world's record for high jumping, clearing seven feet four inches. The previous record was seven feet 3½ inches, made by Rosebery, owned by George Pepper of Toronto.

COAST POLITICS

Hon. Smith Curtis on the Situation.

DUNSMUIR'S FATE IS SURE

Can Only Count on 14 Followers—A Coalition Party—What Rossland's Member Says.

Hon. Smith Curtis, M. P. P., arrived from the coast via Nelson last night.

The member for Rossland was a busy man today but found time to say that although times were quiet over in the Similkameen country he had closed a deal for his townsite at the foot of Copper and Kennedy mountains known as Copperfield.

Mr. Curtis ridiculed the idea of the premier having 22 followers in the house. "It is doubtful" said Mr. Curtis, "if Mr. Dunsmuir can muster 14 supporters and as a matter of fact a majority of the members are pledged to vote a want of confidence in the government when the opportunity offers.

"When Mr. Dnnsmuir retires a coalition government will doubtless be formed for the purpose of passing a redistribution act and other pressing matter if they can be agreed upon.

"Although the government would meet signal defeat on the assembling of the house one of the ministers has stated that it may not meet until April or May, which means that nothing is to be done meantime for the relief of business in the country by instituting a vigorous policy of development. It is also stated that the Hon. Mr. Prentice will start next week for England to negotiate for a loan of $5,000,000 for which provision was made by the Public Works' Loan Act.

"A general election is not unlikely to come in the near future and in my opinion it will be run upon party lines of which I am heartily in favor."

Clam Chowder free day and night at the Alhambra.

THE ASSIZES AT NELSON

A Short Criminal List--Deputy Attorney General Prosecuting.

Nelson, Oct. 15.—The Nelson assize court opened in the court house this morning at 11 o'clock, Mr. Justice Irving presiding. There is a very light criminal list, so that it will not be long before the civil cases are proceeded with.

The criminal cases consist of Rex vs. Rowlan and Bloomfield the two Nelson men charged with the robbery of a Swede a few months ago on Hall street, in which the Swede was relieved of a few dollars in silver; Rex vs. Forbes, the Slocan assault case: and Rex vs. Barrett, the Howser case in which the prisoner is charged with forging a time check of Carlson & Porter, the contractors in charge of the construction of the Lardeau branch.

Deputy-attorney general Maclean will conduct the prosecutions.

Hot Weinerwurst served with every glass of beer at the Alhambra.

END OF GEISER.

Rossland has probably seen the last of Albert Geiser, the celebrated scab herder, who was to run the mines on a paying basis for all hands.

At the supreme court yesterday both of the appeals from the police magistrate's decision were thrown out with costs and as a result the $550 in fines will go to the receiver general's office. The $200 put up for costs of the appeal will go to the successful lawyer and by the time that Messrs, Daly and Hamilton are settled with for defending good, kind Mr. Geiser the sum thrown away over the operation will total an even thousand dollars.

The amount is not a great one for the Bossland Great Western company to pay, but it would have been better to have applied the sum in payihg carmen the same wage as all other mining companies are doing.

JUSTICE ONLY.

There are some good people in Rossland who are apparently under the impression that in asking for the honest enforcement of the Alien Labor Act, the union men are seeking a favor of some magnitude at the hands of the Dominion Government, and that in any event the terms of the act should not be carried out except as a species of last resort.

In demanding that the plain terms of one of the Canadian Statutes should be strictly carried out the Union men are asking no favors whatever. By the act of one of their numbers the Miners' Union has brought Al Geiser, the Oregon contractor, to time, and has obtained sufficient evidence to demonstrate to any one who really desires to learn the facts, that the terms of the law in question have been openly and persistently set at defiance by Bernard McDonald in his capacity as manager of the LeRoi Mining companies. Geiser, as every one here well knows, was merely used as a cloak in order to get the Missourians and other aliens here in the first instance. The Oregon man has duly departed and the game has gone on swimingly ever since.

The evidence taken by the Police Magistrate would convince any disinterested person as to what was being done, and indeed the Magistrate in his written judgment had no difficulty in arriving at a definite conclusion as to the real meaning of Geiser's employment and as to the flagrant breaking of the law.

It never should have been necessary for a private citizen to prosecute this law breaking alien. The fact that the statute permits a private prosecution if thought desirable, does not for a moment relieve the government from performing its plain duty in a matter of so much importance to the community as the present case. It was not an isolated instance or a case in which a few men were being brought into Canada. The outsiders were openly advertised for, openly contracted for and openly brought in here by the carload. In some instances, as a matter of precaution, they were held off at Northport for a short period and then brought to the mines, but the plain plan adopted has already been disclosed and made clear by the sworn evidence before the police magistrate.

In demanding the enforcement of the act the union men are simply asking for that which should have been carried out in the first instance without any request. When the act was amended last session it was presumed that the government—a liberal government—would do its whole duty if occasion happened. It apparently remains to be seen whether the Minister of Justice will enforce the terms of the statute now, as he should have done the moment the facts of the case were placed before him. Not to enforce the act under the circumstances is an open and distinct favor to rich and important mining companies. To inforce the law is a simple act of justice, and it is strange that any one but a hide bound partizan in the pending dispute should try and prevent it.

NOTES AND COMMENTS.

The fact that this is the first scab pay day in the history of Rossland and that the police commissioners thought it necessary to appoint four "specials" for the occasion needs no comment.

The moral reform crusades of New York City show how small a percentage of the population is really interested, financially, in municipal economy. The proportion of property owners is small and seems to be growing smaller, and the tenants feel that if the operations of Tammany are suspended, if clean streets, good parks, cheap public services and safe municipal government are established, they will pay for it in increased rents.

The Ottawa correspondent of the Victoria Times wires his paper on the alien labor question here as follows:

"The question at issue concerns the deportation of aliens. If it can be proved by the labor unions that the foreign miners now at work were brought into Canada under the same circumstances as those miners respecting whom convictions have already been made, then the deportation can be proceeded with."

There should be no great difficulty in Mr. Williams proving to the government what every one in Rossland knows. The two prosecutions were simply sample cases.

Physicians have long told their patients that the time to stop eating was before the arrival of the feeling that one has had enough, but the advice has almost always been inoperative because, as one patient expressed it, how do you know that you are sufficiently near the sensation to cease before it is actually upon you? That picturesque paper the Atchison Globe, maintains that a lady of that city has devised a method of being sure about it, which she proposes to have patented for the benefit of other obese and dyspeptic women. A little alarm bell is set in her garments, made to go off when the pressure of the stomach from eating amounts to a certain number of pounds to the square inch. The inventor says it has been more benefit to her than a dozen doctors, and, although the tale at first glance seems a trifle apocryphal, it may nevertheless be true.

THE Real Situation.

Rossland, B. C., Sept. 5th, 1901.

To the Citizens and Business Men of Rossland and Vicinity and to the General Public:

The Le Roi mine manager has been circulating a report that the strike here is practically at an end and the mines are about to resume. This report has been taken up by their organ, the Morning Miner, and sent out over the country as a true report of the situation in Rossland. We have made a careful analysis of the situation here and believe that no impartial reader can see much reason for the joyful enthusiasm which Mr. Bernard Macdonald and his paper profess to feel.

For three and one-half months the strike has been in force at Northport. The greatest claim Macdonald or Kadish have ever made during that time is that they have been able to operate two of the five furnaces at the smelter. It is only a question of simple arithmetic to see that if it takes three and one-half months to start two furnaces, it will take eight and three-fourths months before they can have the smelter in operation. Now, if it takes eight and three fourths months to secure the 500 men necessary to start the smelter it will take twice that many, or seventeen and one-half months, to secure 1000 men for the mines in Rossland. Or, at the end of twenty-six and one-half months, if Macdonald has the same success he claims to have had thus far at the smelter, he will be in a position to work the mines.

No one can deny or dispute that Bernard Macdonald has left no stone unturned to secure men for the smelter at Northport. He has cast his drag net over the states of Minnesota, Colorado, California, Oregon, Missouri, Montana, or, practically, over the entire country west of the Mississippi river, and has been able to start but two of the five furnaces at the Northport smelter. This is the success he boasts. He claims the strike is at an end. It has only begun.

So far we have taken as true his statements that he has two furnaces in operation at Northport. We wished to prove how futile are his statements by his own evidence. The real truth is he has never had two furnaces in successful operation at one time for 24 hours. They have produced no matte for shipment up till August 25. He claims to have shipped one carload on August 21. That it was the highest in value of any shipment made. The records of the railroad at Northport fail to show any trace of matte shipments on or about August 21, If any shipment was made it was via the Columbia river route and rests at the bottom of the river.

He also claims to be able to start the mines in Rossland. Apparently he does not realize there is an alien act in Canada, for of the 30 employes now at the mines all but two have been brought here in direct violation of this law and will be deported inside of two weeks. He has in eight weeks been able to secure but two scabs in Canada. Now, if the Canadian people should, to his surprise, enforce their laws, even if it does hurt the feelings of Bernard Macdonald, how long will it take to start the mines at the ratio of two every eight weeks? And as yet there is not a miner in the lot.

We are not deceiving the miners of Rossland by false promises. We hope for an honorable settlement of the difficulties here. The sooner the better it will suit the union miners of Rossland. But if it is necessary to continue this fight to its final end the union miners and smeltermen will stand shoulder to shoulder for carrying on the fight.

This war was forced on these unions. We entered the struggle full of a belief in the justice of our cause and confident of our ability to carry it successfully to an end. This belief has never been shaken for an instant, and certainly is not when we consider the almost unbroken line of successes which have thus far attended our efforts.

EXECUTIVE BOARD

ROSSLAND MINERS' UNION No. 38, W. F. M.

TO STUDY LABOR

Resolutions Passed at Triennial Convention.

AN INDUSTRIAL COMMITTEE

Will Study the Needs of Workingmen--Arbitrate if Requested--A Move for Peace.

San Francisco, Oct. 15.—An important resolution to be presented to the general convention of the Episcopal church will be tee on the state of the one drawn up by the committee church relative to the disagreements between employers and employes. After a brief preamble stating that it is the divine mission of the church to be a mediator. the resolution continues:

"Resolved, the house of bishops concurring, that a joint commission of both houses, to consist of three bishops, three presbyters and three laymen, be appointed (the bishops in such manner as the house of bishops shall determine, and the other members by the president of the house) as a standing committee upon the relations of capital and labor, whose duty it shall be:

"First, to study carefully the aims and purposes of the labor organizations of our country; second, in particular to investigate the causes of industrial disturbances, as may arise; and, third, to hold themselves in readiness to act as arbitrators should their services be desired between the men and their employers, with a view to bringing about mutual conciliation and harmony in the spirit of the Prince of Peace.

"Resolved, That the said commission shall make report of its proceedings to the general convention.

"Resolved, That it is desirable that the above named commission should be continued by reappointment every three years."

We have a large stock of grapes for jelly making; 85c a box. Paulson Bros.

SUBMARINE DEFENSE.

British Government to Provide for it at Victoria.

Victoria, B. C., Oct. 15.—Now that the land defences around this city and Esquimalt are complete the British Government is turning its attention to submarine defence. There has been a company of submarine miners here for a couple of years and they are shortly to be joined by another company of the same service. To assist them in the work the government today awarded the contract to the Victorian Machinery Depot for two steam launches, which are to be sheathed and have houses of teak.

It is announced that in future the British government will have the work of the kind done here instead of sending to England for boats, etc. For some time they have had repairs done to ships by local contractors.

MINOR MENTION.

L. H. Moffatt went over to the Rathmullen mine this morning.

Rev. H. Beer of Kaslo who has been visiting here has left for Grand Forks.

The White Bear started up this morning.

This is the first scab pay day in the history of the camp.

Frank B. Ward, teller of the Canadian Bank of Commerce, Kamloops has joined the Nelson branch.

Eber C. Smith is defending the only prisoner on trial for murder at Manila.

At a meeting of the citizens of Ymir on last Thursday evening a Board of Trade was established.

Hon. Smith Curtis, M. P. P. arrived on the late train last night.

Manager Williams of the Granby company came over from Phoenix last night.

James Wilks went over to Nelson this morning and will return here this evening.

This is A. H. MacNeill's birthday. Hearty congratulations to the K. C.

The Rossland Miner—and the "specials"—circulate among the wage earning classes of today, whose cause the morning paper advocates.

G. W. Richardson of Rossland is serving on the Grand Jury at the Nelson assizes.

The city list for municipal election purposes will be made up during next month commencing Nov. 1st.

The city council and the Liberal association meet this evening.

J. J. Warren said this morning that the White Bear company would not employ any muckers or carmen at the present time.

Subscribing to Relief Fund.

Nanaimo, B. C., Oct. 15.—Collections among the Nanaimo business men have at the outset realized several hundred dollars for the Extension relief fund. The local newspapers have also their lists of subscribers, but the big donation is coming in today from the miners, this being the monthly pay day. Concerts, sports, everything at which an admission fee can be charged, are all helping to swell the fund, to which over $1,000 in the aggregate will be added by this city.

The Whitwar Case.

Dayton, Ohio, Oct. 15.—The formal charge of murder in the first degree was to day placed against Mrs. Belle Whitwar, suspected of having caused the deaths of her four husbands and her own children by poisoning. The affidavit was sworn to by chief of detectives Frank T. McBride and is based on circumstantial evidence entirely. The chemist's report is promised today.

Is Nearly Well.

Kingston, Oct. 15.—Principal Grant is able to sit up. Today he will see the Royal party and witness the ceremonies at Queen's from the window of the general hospital.

Lacrosse Team.

Montreal, October 15.—The British Columbia lacrosse team are spending their time sightseeing. The gross receipts of Saturday's game were $2,300.

Washington street, opposite Hotel Allan

ATTENTION VOTERS!

All qualified voters whose names are not on the Provincial and Dominion voters list for Rossland riding should register at once. The last date for adding names is Oct. 19. There is a great probability of a Provincial election in the near future and every workingman should be sure his name is on the list before Oct. 19. Registration blanks can be had at Brownlee's Bowling Alley, lower Spokane street, at the Miners' Union Hall, or at the office of John Kirkup, Collector of Votes, at the New Court House.

Keep Your Eye on Meteor

METEOR is the new high-grade mining camp in the south half of the Colville Reservation, seven miles west of the Columbia river, eight miles southwest of Daisy and 28 miles by good road from Meyers Falls. The townsite is in the centre of the rich aggregation of mines comprising the Meteor, Stray Dog, White Swan and Given groups, all of which are working in high-grade shipping ore. A great number of very promising properties are opening up in the vicinity. It is surrounded by a splendid agricultural, fruit growing and stock raising country, unequalled in the northwest, and has a splendid supply of timber for building and mining purposes, together with unlimited water power near It has already, besides a store, a number of buildings in course of erection, and a telephone service, saw mill, etc., will be in operation within a short time. Meteor is a high-grade camp of the real Leadville type, the ores mined being gold, silver, lead and copper. Picked assays have given as high as $140,000 to the ton, the average of the camp being about $35. You can't afford to forget Meteor. Now is your time to get in at bed-rock prices.

Meteor is Sure to be a Rich Camp
