NEWS BY WIRE

Today's Associated Press Dispatches.

CONDENSED AND CONCISE

The Latest Current News from all Parts of the World—Interesting and Refreshing.

Monteeau, Les Mines, France, May 6.—The miners who have been on strike here resumed work this morning.

Genoa, May 6.—Consequent of a dispute regarding their hours of labor the dock men have gone on general strike except at the San Benigo landing.

Berlin, May 6.—The new ministry is gazzetted as follows: Baron Rheinbaben, minister of finances. General Podbielski, minister of agriculture. Baron Von Hammerstein, the district president of Metz, takes the port folio of the interior. Herr Moller, minister of commerce. Herr Kraetke, director of the imperial postoffice, becomes secretary of state of that department.

Constantinople, May 6.—An official circular has been issued notifying the members of the diplomatist they will be admitted to the Relamlik.

New York, May 6.—The report that a force of Boers are concentrating under Delarey at Hartebesfontein is regarded with a feeling of satisfaction in London. The Standard expects as a result to have another surrender on a scale of Prinzloos, The British force should far outnumber the Boers and as the latter must by this time have lost all their guns Delarey cannot have artillery with him. This fact alone should place him at a disadvantage.

London, May 6.—A dispatch says the Shamrock 1 beat the Shamrock 11 in a seven mile spin by a minute and a few seconds.

New York, May 6.—Not only will there be no royal drawing room or levees this year in London, but it is rumored that the royal stand at Ascot is to remain empty and be draped in mourning.

New York, May 6.—James J. Hill, president of the Great Northern railway denies the report that a plan was formed three years ago by J. Pierpont Morgam, the Goulds, the Vanderbilts and himself for the consolidation of the great railway system of the country and that it is about to be carried out. Mr. Hill who is at an hotel here said: "The story is rediculous and entirely unworthy of any serious attention from any one."

Chicago, May 6.—Jamieson & Co., one of the largest stock brokers in the west, have suspended. They were unable to meet their obligations on the New York stock exchange.

New York, May 6:—The unusually large immigration from Italy this spring is responsible for the number of smallpox cases on board incoming steamers. The resources of the quarantine station at this port are being taxed to the utmost. It is said that forty thousand Italian immigrants are booked to sail for New York from Italy in the month of May.

Buffalo, N. Y., May 6.—There is no special programme for today, and in fact for the present, at the pan-American grounds. At the present time there are upward of 20,000 incandescent lights burning nightly and the wiring of many buildings has only just begun.

Bellfont, Pa., May 6.—Jessetta King, of Millheita, today, shot and fatally wounded his bride of two months and when officer attempted to arrest him, King shot himself through the heart and died almost instantly.

BIG COMBINE IN COAL

Combination Formed of Leading Dealers in Hocking Valley and Vicinity.

Cleveland Ohio, May 6.—A special to the Plain Dealer from Columbus says one of the largest deals in the history of the coal financial world is now on and that all indications are that it will be brought to a successful close before the end of another week. The deal includes all the leading mines in the Hocking Valley coal fields and a number in the Sunday creek district. The transfer has been engineered by agents of J. P. Morgan.

Yes, we are are busy. You may have to wait your turn. Morrison & Bryenton, the grocers.

Local Traders.

A man named Walker was soliciting orders for rubber stamps on behalf of a Spokane firm today without taking out a traders license. He agreed to stop and leave town. The Evening World can supply all orders for these stamps without merchants and others sending out of town.

In another case Mr. Harp got after a book agent, and as the agent refused to take out a licence the books were seized and taken to the City Hall.

R. D. McMillan, the merchant tailor, owing to an increase of business has moved next door to the C. P. R. ticket office. tf

YORK IN AUSTRALIA

Duke and Duchess in Melbourne This Morning—A Good Welcome.

Melbourne, May 6,—The Duke and Duchess of Cornwall and York landed from the steamer Ophir at 2 o'clock this afternoon.

The duke and duchess were received at the pier head by Lord Hopetoun, governor-general, and the state and federal ministers. The party passed down the quarter of a mile of carpeted pier, entered carriages and proceeded a distance of seven miles through brilliantly decorated streets bordered with almost continuous stands filled to their utmost capacity. The entire route was lined with demonstrative crowds amid elaborate decorations. Opposite the town hall the procession passed beneath the Queen's arch canopied with the royal colors and sheltering a golden statue of Queen Victoria. Twelve thousand troops were in line. There were 80,000 visitors in Melbourne. The drive terminated at the government house.

If you want a nice suit of Canadian Tweed for $14.50, pants $4.00, call at Simmons & Co., merchant tailors, over Crow & Morris' cigar store. tf

M'KINLEY'S TOUR

The London Times on the President's Speeches.

SEVEN WEEKS OF TOIL

The Shamrock II Successful in Second Trial Spin—Other London Notes of this Morning.

London, May 6.—Commenting editorially upon the "exceptional circumstances of President McKinley's tour and its party objects," the Times refers to "his use of language at New Orleans, which, in a liberal sense, might be adopted by the Cobden club," and adds: "If by seven weeks of unremitting toil he can obtain any acceptance for those principles among the American people, he will be able to look back upon them as the best spent weeks of his political life."

The Shamrock II had her second spin this morning. A fresh, squally northeost wind promised just the conditions Capt. Sycamore desired, to supplement Saturday's light breeze trial. The challenger set a club topsail and the Shamrock I set a much larger club topsail. They held the wind dead aft down the water, the challenger went out under mainsal and the topsail only. The Shamrock I set a jib. At the start the challenger ran out ahead but the Shamrock I catching a better breeze soon began to overhaul her. The challenger set a jib and staysail, but though the breeze was light and the water smooth, the Shamrock I held close astern, losing nothing from Nettly Calsho. There they hauled into the wind and reached along in a freshe- breeze, the challenger leading by half a minute passing the Spit Light.

DROWNED AT TRAIL

A Seven-year-old Italian Boy Drowned in Trail Creek Yesterday.

The first drowning case of the season occurred at Trail yesterday when young Pollock the seven-year-old son of an Italian working at the smelter met his fate in the Trail creek.

It is supposed that the boy was playing about the creek up near the brewry about 8 o'clock yesterday morning and accidentally fell in. At this season of the year the waters of the creek are unusually high and turbid besides being icy cold and the lad probably never had a chance for his life once he got in the creek,

No one saw the accident take place but a report got about that a boy had been drowned and a search instituted. They eventually came upon the body away down the creek near the long bridge. When brought out it was discovered that the face and head were badly bruised and it is possible that the boy was fatally hurt in falling into the creek. When discovered the body had been in the creek some two hours and had received some pretty rough hrndling during that time. It is unlikely that an inquest will be considered necessary.

If you want the latest styles in cloths, go and see R. D. McMillen, next door to the C. P. R. ticket office.

Buy your wall paper, all 1901 goods at Daniels & Chambers, near Empey Bros.

The Evening World

By the World Publishing Company.

Published daily in Miners' Union hall, Rossland, in the interest of organized labor in British Columbia.

Entered at the Rossland, B. C., postoffice for transmission through the mails, May 1, 1901, as second class reading matter.

SUBSCRIPTION RATES—Fifty per month or $5.00 per year, invariably in advance. Advertising rates made known on application.

Address all communications to The World Publishing company, P. O. box 558, Rossland, B. C.

Secretaries of all unions are authorized to receive subscriptions for The Evening World.

THE ORE OUTPUT.

While the corrected figures for last week's ore shipments will not be available until about Thursday next it may safely be assumed that the week's total will exceed 10,500 tons. The figures given on Saturday in these columns shpwed 9888 tons up to 3 p. m., and did not include any shipments over the Great Northern for the day. Later on a heavy shipment went down to Northport, and of course must be included in the total for the week, so that 10,500 tons is probably well within the mark. The matter is an important one, particularly at the opening of the summer season's work and at a time when mining circles are depressed over the many rumors concerning the War Eagle and Centre Star mines.

Columns of newspaper matter have been printed about the particular period in the camp's history when the ore shipments would touch the 10,000 ton mark and that mark has now been reached and passed.

It must however be clearly understood that the event has taken place under distinctly adverse shipping facilities. The fifth furnace at Northport is not yet blown in and there is still a large accumulation of ore at this point to catch up with. The shipments to Trail are restricted for reasons known to every dweller in the camp and particularly so at the moment by reason of the pending smelter deal.

Under such circumstances it is a matter of great congratulation that the output of ore from the camp has at last reached the respectable weekly total quoted. The WORLD expects to see the 10,000 mark passed many times during the coming summer.

OPPORTUNITIES.

It is pleasant to learn that out of the tumble in mining stocks one man at least has come out on top According the Nelson Miner, P. Choate, commercial editor of the Toronto Mail and Express, has managed to get out of all his western deals some $300,000 ahead and has gone off on a European tour.

There is a great deal of local trading in stocks at the present time and it is a wonder there is not more considering the chances. It is a difficult matter to make money—at all events with limited capital—when prices are away up and everything is booming, but when all shares are depressed as they are just now and when prices are down, the man with nerve, sound judgment and a firm belief in the immediate future of the Kootenays will find plenty of chances to make many a good turnover. This summer should witness good business all through these parts and particularly in Rossland. Prices are being quoted now that probably will not be reached again for many a long day.

SHAMROCK'S CHANCES.

The cable dispatches state that the trial spin of Shamrock II, which came off on Saturday, show the new boat to be a wonder and a long way ahead of Shamrock I. The trial races are to take place this week and then the challenger will start on her trip across. Sir Thomas Lipton is making another plucky attempt to wrest the America's cup and every true sportsman will wish him good luck and no mishaps. The British boat is always greatly handicapped by the conditions under which the race is sailed but the Americans have so far easily shown themselves in the front both in designing and handling their defender.

It is difficult to know which to admire the most, the clever ingenuity and carefulness in detail displayed by the Americans in preparing their boat for the contest as well as the smart way the defender is always handled or the dogged pertinacity with which the British renew an apparently hopeless contest year after year.

This time at all events no effort has been left unturned in designing and turning out a British racer which will meet all the reqnirements of the contest and the cable remarks on the "American smartness" with which the boat was handled on Saturday.

EDITORIAL NOTES.

The chief of the fire brigade complains that when a fire occurs people get rattled and start moving furniture and doing everything except turning in the alarm. As so much depends upon the brigade getting at the fire with the utmost promptness and before the blaze has started flaming up it, is imperative that sending in the alarm should be the first thing done when a fire occurs. Nothing should stand in the way of this.

The EVENING WORLD is the name of a new daily paper published in Rossland by the organized labor interests of that city. It is the first labor daily to make its appearance in Canada.—Sandon Paystreak.

Nelson made a strong effort through its member to obtain a sitting of the full court there. It was not successful but the determination behind the effort should be encouraged. The big interior interests of this province should obtain a far greater recognition than they do at present in the legislature.

It is not fair to judge the morning Miner by its appearance yesterday morning. They are housecleaning and swapping chiefs on the Miner and are suffering accordingly. But shade of John R. Reavis that the record shipments should have been so passed over! Even housecleaning won't clear that up. If John R. had been in possession the front page and all the other pages would have called so loudly that they could have been heard from Victoria to Halifax and the editorial would have megaphoned as well. Now, as it was, the editorial on Sunday, while perfect in its way, was not the kind of article applicable under the circumstances.

The Centre Star Mining company, limited, through its president, George Gooderham, has issued the following notice to the shareholders dated at Toronto 30th April: "The manager having reported that the ore so far exposed since the first of October last has been of a grade too low to pay under existing conditions. The directors deem it prudent to suspend the payment of dividends until the lower levels now being run have reached the richer portions of the ore body and until satisfactory arrangements can be made to handle the lower grade ores at a profit." It will be noted that the closing part of the circular evidently refers to the Trail smelter deal which the president described recently as "still pending." The probability is that the smelter deal figures extensively in the latest move.

Subscribers who do not receive their paper regularly will please report the fact to the EVENING WORLD, Miners' Union hall.

CITY CLERK'S OFFICE

Rossland, B. C., Jan. 26, 1899.

STOCK MARKET

Centre Star Continues an Active Seller Locally.

BROKERS ARE VERY BUSY

Good Chances for Making Quick Turns---An Active Market in Prospect.

The local market continues to be an active and growing one. The public at last seem inclined to take advantage of the present slump in prices.

Centre Star sold this morning, 9000 shares around 30c-30½c. In the east on the Toronto market War Eagle closed at 16½a 15b, Centre Star 35a 30b. White Bear was an active seller, 5000 going at 1⅞c. Fairview was in active demand, 20,000 shares selling around 2⅞c. This stock is also in demand locally,

A School Boy's Letter.

The following letter was received by a Rossland man from his little boy at school in England, and is distinctly funny:. "My dear Pa,—i wright to tell you i am retched and my chilblains is worse again. i have not made any progress and do not think i shall i am very sorry to be so much expense but i do not think this schull is very good. one of the boys has taken the crown of my new hat for a target he has now borrowed my watch to make a water wheel but it won't act. Me and him tried to put the works back but we think some of the wheals is missing as they wont fit. i dont think the food is good here but should uot mind if i was stronger. the peace of meat i send you is off the beef we had on Sunday but on other days it is more stringay there are black beadles in the kitchen and sometimes they cook them in tbe dinner which cant be holesome I hope you and Ma are well and do not mind my being so uncomfortable because do not think i shall last long. please send me some money as i owe 8 pence. if you cannot spare it i can borrow it from a boy who is leaving going to leave at half term and then he wont ask for it back, but perhaps you would not like me to be under an obligation. i did not mention it or i daresay they would have put it down in the bill—Your loving but rrtched son."

Where did you get those pants? Why I got them of R. D. McMillan the merchant tailor, next door to the C.P.R. ticket office. tf

The Rossland Electric Laundry.

HEDLEY CITY. B.C.
Situated on Twenty Mile Creek, Similkameen River

Nickel Plate mountain is the most talked about mineral section of British Columbia today, and hundreds of people all over the the Northwest are preparing to go there at an early date.

On this mountain lies the famous Nickel Plate mines, which many mining men consider the greatest prospective mining property in Canada; here also lies the great Kingston War Horse, Lolla, Banner and other noted properties with wonderful large, rich bodies of ore. Thousands o dollars will be expended in their development during the coming summer. At the base of this mountain and close to all the noted mines lies the townsite of Hedley City. This town is the only supply point for the mines of this district. The government is building roads to the townsite. Trails to the mines are being built rapidly and a large force of men are being employed. The new railroad down the Similkameen will be built to Hedley city at an early date, and in a very short time this place will present a scene of activity seldom witnessed. Many predict it will be the greatest mining camp in the northwest. Lots are expected to sell at very high figures within a few months.

It is but a short time ago that lots in Rossland, Greenwood, Nelson, Phoenix and Sandon, which are now worth thousands of dollars, were selling at the same prices as are now being asked for lots in Hedley City, and the same thing is certain to be repeated at this place.

Until the first day of May lots will be sold at from $100 to $150 on easy terms. After that date the prices will be at least doubled. Lots are selling very rapidly. The choicest business lots will soon be all gone. Intending purchasers should make immediate application in order to secure the most desirable locations.

Maps of the surrounding country, plan of townsite, location of mines, samples of ore, etc., may oe seen at my office.

Anyone in the city unable to call at the office and wishing further information, if they will write me, I will call and give them any further information they may require.

THE SPORTS AT TRAIL

Summer Outings Began Yesterday--Large Crowds at Base Ball Game.

Yesterday the summer season was opened by a gala day at Trail. From 250 to 300 persons went down from Rossland to witness a base ball match, horse races and other sports. The Trail band was in attendance and a large crowd gathered to witness the sports. Incidentally there was an impromptu dog fight not on the official program and a banquet was tendered to the Victors in the ball match and the returned South Africa volunteers.

The ball game was held on the vacant lots at the end of the Main street behind the Opera House. The Smoke-eaters of the smelter tried conclusions with the Centre Star-War Eagle nine and after a spirited game the Rossland men won by a score of 6 to 2. For the winners MacDonald, pitcher, McLean, short stop, Martin, 1st base, and Ferguson catcher. All played a star game.

After the match in a half-mile match race Jordan's Buttons ridden by Nailor of Rossland defeated Gibbs' Mount in a close race. In a scrub race, boys up, Backskin won with Linberg's horse second.

In the evening the visiting ball team and returned soldiers were banquetted at the Cronw Point Hotel. The weather was fine and everyone enjoyed the outing.

There were no accidents at the sports and nothing occurred to mar the day's pleasnres, but a well known mechanical engineer got lost on the way down and was rescued up the Columbia-Kootenay road.

The New Bridge.

H. W. D. Armstrong, C. P. R. engineer in charge of the works on the masonary for the new bridge across the Columbia at Castlegar, has returned to Nelson from a three weeks trip to Toronto and Montreal. Mr. Armstrohg states that the superstructure for the new bridge is completed and can be shipped west at any time desired. Shipment will not be ordered for several months yet as it wil be impossible to proceed with the erection of the steel work until the level of the water commences to drop.

You can save money by purchasing your wall paper and paints at Daniels & Chambers, near Empey Bros.

Sports.

Mr. A. Valade ex-champion all-round fencer of Quebec will open a fencing school in Beatty's hall on Monday next. All those wishing to learn fencing can apply for terms at the following hours: 2 to 5 and 7 p.m. Ladies class a speciality.

Greatest assortment of wall paper in British Columbia. Daniels & Chambers near Empey Bros,

Another Soldier Back.

Another South African Volunteer returned to Rossland on Saturpay evening in the person of J. T. Johnson who served ten months as a trooper in Brabant's Horse. Mr. Johnson went to South Africa on his own account and enlisted while there. He was chatting over his experiences with his friends at the Club last night.

As a matter of fact tne Rossland Club has a good record so far as the South Africa war is concerned, no less than thirteen of its members have taken part in the campaign.

he Police Court.

The Davidson case drags along before the Police Magistrate, still unfinished.

The investigation into the charges of misappropriation of funds preferred against W. J. Davidson by the Yale-Columbia Lumber company is proceeding slowly.

For about fonr hours on Saturday and all this morning Magistrate Boultbee heard the case. The time of the court was principaliy taken up in deciding points on the admisability of evidence offered, but today some substantial progress was made. The investigation is in progress this afternoon.

MINOR MENTION.

Enoch Hartell, engineer, is ill at the Sis'er's hospital with typhoid fever. Hartell is an old timer here and a married man. He is the only one on the union's sick list this week.

A clerk in Holsted & Wright's new dry goods store caused some trouble Saturday evening about six o'clock by throwing away a lighted match near a pile of cotton batting. The batting caught fire and filled the store with smoke when the brigade arrived the chemical did the work of extinguishing the blaze in a few moments, but not before some $500 damage was done. A large crowd gathered in a moment expecting a serious fire.

There was a bad runaway on Saturday morning about 11 o'clock. A teamster with a load of wood was coming down St. Paul street about the C. P. R. tracks when the team took fright at a flock of sheep and dashed off down grade. The driver was thrown off but not seriously hurt, and after distributing the load along the street the horses got rid of the wagon near the old C. P. R. station without causing further trouble.

Mr. C. A. Gregg the new editor of the Miner is expected to arrive here today Mr. Gregg was editor of the Victoria Globe; and went on the staff of the Colonist when the Globe's short day was over. He has been in charge of the Nelson Miner for the past few weeks.

A farewell banquet will be tendered to Mr. J. B. Kerr, the editor of the Miner, tomorrow evening at 8:30 o'clock at the Allan. Ex-Governor Mackintosh will occupy the chair and Mayor Lalonde the vice-chair. The shortness of time prevents the issuance of formal invitations, but friends will please accept this notice as an invitation. Mr. Harold Ellis is the honorary secretary of the banquet committee.

Jimmie Burns and Charlie Goff are training hard for their contest in Nelson on the 10th inst. Burns has training quarters in the top story of the Hotel Hume where he daily punches the bag for half an hour or so and spars several rounds with his partner.

Manager Zinn of the International Show-shop, deserves great credit as the performance this week will be the hottest number of the season. There will be six new faces, and they are all stars in their line. The performance will conclude with Hobbs & Baseo's great masterpiece "King for a Day."

FOR RENT—Nice five-room house. Electric lights and water. Nickel Plate Flat and Third avenue. Apply to Frank E. Woodside, Miner's Union Hall. tf

The Kerr banquet committee meet this afternoon and final arrangements will be announced in the morning paper.

Referring to the Chittenden biblical story which appeared last week Mr. Galt says that what pained him most deeply in connection with the matter was the length of time it took Mr Deacon to look up a bible reference he should have known in his sleep. Mr. Galt expressed the hope this morning that both Mr. Deacon and his Senior would attend the Methodist conference in session at Nelson this week. He thinks the gentlemen need something of this sort.

There was a small fire in the Hotel Allan on Saturday afternoon but the blaze was extinguished before the alarm was turned in.

The reason that Morrison & Brye ton are so busy is that they keep good stock and are prompt in their attentions to customers.

Before purchasing elsewhere call and see our stock of wall papers and paints. Daniels & Chambers, near Empey Bros

SOME MINING RUMORS

General Idea That a Concentrating Plant Will Be Built Here This Year--"The Heavenly Twins."

With a good deal of persistency the story is reiterated about the camp that English capitalists are after the Centre Star and the War Eagle and that the deal if made will include the Trail smelter.

Prominently in connection with the matter and as one of the causes for the recent rise in Le Roi in London is the determination to erect a large concentrating plant or plants at the mines heret

So many stories are floating about just at the present time that it is somewha. difficult to know wha' to believe is possible but so far as the Centre Star and War Eagle—those "Heavenly Twins"—are concerned there is a general belief that a deal of some sort is in progress, but whether this meads a consolidation of some sort in the East or a transfer of the Gooderham interest to somr English or American syndicate or what the move, if any, really is it seems impossible to ascertain. Judgiug from the latest news from the East. Thery are no wiser in Toronto or Montreal than we are in Rossland on the matter.

In the meantime the ore shipments are proceeding as usual this week and while some 50 surface men were let out on Saturday it is alleged that it was because there was no work for them at the present time.

Persistent reports continue of a whole sale reduction in the office staff of both companies.

A BIG FIRE

Large Building Burnt to the Ground. Loss $25.000.

This would not have happened if the building had been lighted by electric lights. Besides coal oil is costly, and there is the trouble of filling lamps, taking care of wicks and the breakage of chimneys. Electric light reduces the cost of your insurance, lessens the danger from fire and adds to the comforts of the store and home. Electric power supplied for mining and manufactnring purposes. Motors for rent or sale. Estimates furnished for wiring and lighting. Ring up 'phone 67. Rossland Water and Light company.
