MINES OF KOOTENAY

Rossland and Boundary Shipments.

LATEST RETURNS OF OUTPUT

What the Mines Are Doing Over the District—Rossland Doing Well.

The outlook for the coming season is bright. The mines are shipping well over last years average, the Le Roi No. 2 mill may be expected to be running more regularly as soon as the unfortunate stoppage on the snow blockades in the east have come to an end, the War Eagle milling plant should soon be in operation, the Jumbo will begin work on a more extensive scale as soon as the roads are in a fit condition to traverse, the White Bear will go ahead with its milling plant and in addition to these there is serious talk of opening up some of the other mines of the camp. If Rossland again enjoyed the boom it possessed in 1896 7 it would not be at all surprising.

	WEEK	TOTAL
Le Roi	4710	57,260
Centre Star	1575	18,635
War Eagle	975	13,430
Le Roi No. 2	760	7,315
Le Roi No. 2 milled		3250

Kootenay		2060
White Bear	105	510
Spitzee		30
Totals	8,365	106.555

Boundary Shipments.

Phoenix, April 2.—Special.—On account of putting in some new machinery the Ore Denoro did not ship ore all this week as usual, but the other shipping mines of the Boundary sent out the usual amount.

Granby mines to Granby smelter 11,850 tons; Mother Lode to Greenwood smelter, 4224 tons; Oro Denoro to Granby smelter, 333 tons; Emma, to Greenwood Trail, and Nelson smelters, 495 tons.

This week the Granby smelter treated 12,450 tons of ore; making total of 166,414 tons for the year.

The following shipments were made by the different mines:

	WEEK	TOTAL
Granby	11,850	148,690
Mother Lode	4224	45,280
Oro Denoro	333	11,131
Emma	495	6,317
Athelstan		2,968
Senator		1,756
Elkhorn		200
Providence		210
E. P. U		135
Totals	16,902	216,715

Slocan Shipments.

The total amount of ore shipped from the Slocan and Slocan City mining divisions for the year 1903 was, approximately, 15,200 tons. Since January 1 to March 26 1904, the shipments have been as follows:

	WEEK.	TOTAL
Argenta		5
Bluebird		20
Black Prince		43
Black Fel		2
Cinderella-Medford		150
Comstock		180
Enterprise		160

WAR AFFECTING CANADA

Dominion Militia Being Gradually Strengthened.

BRITISH REGULARS ORDERED OUT

Eleven Regiments to Be Stationed from Coast to Coast—Meaning of Events at Coast.

Halifax, April 2.—It is rumored that 11 regiments of British regulars will be sent to Canada this spring, the first movement begining early in May. Two regiments to be stationed at Halifax; one each at St. John, N. B., Quebec, Montreal, Toronto, Ottawa, Winnipeg, Calgary and two on the Pacific coast.

Vancouver, April 2.—Despite reiterated assertions of her strict neutrality in the present war, Great Britain is demonstrating by the thoroughness and haste of the preparations for possibilities on the Pacific seaboard of her Canadian possessions, that the chiefs of her army and navy officers appreciate, as do the British people, that any day's turn of the diplomatic wheel may force the nation into active association with her fighting ally Japan.

The retiring Field Marshal and Commander-in-Chief, General Lord Roberts, said very plainly at a recent important military gathering in the old land that he was fully convinced that the protection of Canada's Pacific Coast was at the present time the most important duty (from a strategic viewpoint) of the Empire. That the British statesmen and Canadian government share these opinions and aim to be prepared for whatever may be disclosed by the pregnant future, is attested by the various and important preparations quietly initiated at various local points of the Empire, and all of which dovetail to strengthen a common end and purpose.

Sir Frederick Borden's new Militia Act, which has already received the approval of the Canadian parliament, is one link in the chain—is going far toward guaranteeing the improved armament and effective drill of the citizen soldiery of the Dominion. With it may be naturally coupled the Naval Act of Hon. Raymond Prefontaine, Minister of Marine, under which Canada will establish a volunteer navy at Atlantic and Pacific seaboard towns, one first-class cruiser being built and hereafter maintained at St. John, N. B., and another such at Victoria or this port.

In addition to the new Militia Act goes one important step in advance of any similar legislation in the previous history of Canada, providing for what is practically compulsory cadet drill in formation, marching, manoeuvring and the use of regulation arms by all lads of the Dominion between the ages of 16 and 18 years. The teaching and encouragement of military rifle shooting was already incorporated in the public school curriculum for boys more than a year ago, and is bearing its expected result in the breeding of a race of keen-eyed, self reliant young sharpshooters.

Close upon the heels of the Alaska boundary award, came the despatch of General Lord Dundonald, commander of the Canadian militia and a practical soldier of proven skill, to the northern boundaries of the Canadian Pacific sea board, to report for the War Office upon the strategic situation there.

VALUES IN TAILINGS

Experiment Now to Be Carried Out in Fish Creek Camp.

Camborne, April 2—With a view to saving the gold in the tailings from the Oyster-Criterion stamp mill, owned by the Great Northern Mines, Limited, an experimental plant is being installed by L. G Pyrk, of Vancouver. The machinery for the plant, weighing some 10 tons, is now being hauled into Camborne by Alex Crawford who has the contract. Mr. Park is, for the present, reticent on the method to be employed to save the yellow metal, simply stating that he intends carrying on the experiments at his own expense, and that just as soon as he can prove his theory to be correct will make a public announcement. The tailings are said to carry from 80 cents to $1.00 per ton in gold.

The Great Northern Mines. Ltd., is negotiating for ten additional stamps for its mill here, and for that purpose General Manager W. B. Pool is at Vancouver. He is expected in camp in about a week's time, unless he goes direct to Calgary, and thence to the east.

Now is the time to buy spring dress goods as our stock is complete. The Crescent.

UNION LABEL

CROWN GRANTS.

The Provincial Mining Association is making an effort to have placer claims crown granted in the same manner as are deep mines. Practically hydraulicing in ancient river beds, covered more or less with detritus, is deep mining in the sense it takes as much capital as ledge mining. A member of the Provincial Mining Association states he was an ancient pioneer of the Cariboo district in the rush there nearly fifty years ago and thinks that without crown granting the country will go to the demnition bowwows. It is strange that Australia does not go similarly to Mantalini's bowwows instead of progressing in its mining affairs at a rate that is shaming this province—more than its equal in mineral wealth. The Australian system of leasing from year to year, up to 20 years, with a renewal of the lease afterwards for the same terms, and so on indefinitely, gives quite sufficient security for capital to invest. Crown granting gives permanency. So does leasing in the manner indicated. Crown granting as practiced here gives no security that the property will be worked. Leasing does if done on the Australian plan, for a certain amount of work must be done every year. So many men must be employed for every acre of ground taken up or machinery to the value of those men's wages must be put in place. The Cariboo men object that if there is a drought there will not be sufficient water to work their hydraulic claims. Australia is even more a country of drought and sometimes, though rarely, suffers from drought for several seasons in succession. But where a mine in the Antipodes is so hampered it simply applies for an extension to the official occupying the place of our Gold Commissioner and sets forth the facts and is released from working on such cause assigned if found to be reasonable. The only real reason for granting the exclusive right to work any piece of ground belonging to the country to any man or company is that that man or company will really work the plot assigned and so build up the country by developing its resources and by so doing building up a population. If he does not do this there really is no valid reason why he should be allowed to squat on the land and prevent its development or, having once opened the mine shut it down at his own good pleasure, throwing any number of men out of work and possibly dislocating a whole district. For, take the case of a couple of mines employing between them 800 men. That will mean a population of between 3,000 and 4,000 alone. Now take into account the army of retail dealers and tailors and carpenters and boot makers, blacksmiths, who will necessarily add to the population in order to supply to the wants of the miners. Next the government tells settlers that there is a market of some 6,000 people in a certain district, and in comes family after family, who begin to grow market produce and corn, to raise cattle and poultry and convert a wilderness into a cultivated and cultured spot. Then, under our present wise laws, the management of those two mines may chose to mismanage matters so that the properties become bankrupt. They close down, and as the properties are crown granted nobody may take a hold. Or the management may take into their heads to cut wages or lengthen hours or otherwise to interfere with the tacit compact that had hitherto existed. There is a shut down and the whole district suffers. The miners go and their purveyors have to go also. The farms are abandoned, for there is no longer any market, and hundreds of people are ruined. This is the power that crown granting gives. Under the lease this cannot be done. The mine may not shut down without cause. If there is a dispute with labor the management cannot say there is nothing to arbitrate. The government forces them to arbitrate or it will not grant an extension of the lease and in such case the first comer can take the whole property just as it stands on condition that he works it. When the Provincial Mining Association is asking for the crown granting of these alluvial claims they are asking for a power that no man should possess, a power that is working infinite harm where ever it has been granted and is the cause of numberless strikes and riots, both in this country and the United States. The feeling of the people is against granting such powers. The existing system of crown granting is denounced by the Canadian Mining Institute, through the person of its president, as bad enough now without extending it any further.

We Shall Buy a Million

Bottles of Liquozone and Give Them to the Sick.

We have purchased for $100,000 the American rights to Liquozone. We thus control the only way to kill germs in the body and end a germ disease. We want the sick to know this product, and at once. So we make this remarkable offer. We will buy a million 50c bottles and give them to a million sick ones. Will you—if you need it—let us buy one for you?

Costs $500,000

We publish this offer in every great newspaper in America. The cost of the offer, we expect, will reach $500,000. We pay that price because it seems the only way to quickly let the sick know what Liquozone does.

The greatest value of Liquozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Liquozone does in germ troubles what all the drugs, all the skill in the world, cannot do without it. It cures diseases which medicine never cures.

Acts Like Oxygen

Liquozone is the result of a process which men have spent over 20 years in perfecting. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases are made part of the liquid product.

The result is a product that does what oxygen does. Oxygen gas, as you know, is the very source of vitality. Liquozone is a vitalizing tonic with which no other known product can compare. But germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter. Yet this wonderful product which no germ can resist, is, to the human body the most essential element of life.

Germ Diseases

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, wherever they are, and the results are indirect and uncertain. Liquozone kills the germs, wherever they are, and the results are inevitable. By destoying the cause of the trouble, it invariably ends the disease, and forever.

Asthma	Hay Fever—Influenza
Abscess—Anemia	Kidney Diseases
Bronchitis	La Grippe
Blood Poison	Leucorrhea
Bright's Disease	Liver Troubles
Bowel Troubles	Malaria—Neuralgia
Coughs—Colds	Many Heart Troubles
Consumption	Piles—Pneumonia
Colic—Croup	Pleurisy—Quinsy
Constipation	Rheumatism
Catarrh—Cancer	Skin Diseases
Dysentry—Diarrhea	Scrofula—Syphillis
Dandruff—Dropsy	Stomach Troubles
Dyspepsia	Throat Troubles
Eczema—Erysipelas	Tuberculosis
Fevers—Gall Stones	Tumors—Ulcers
Goitre—Gout	Varicocele
Gonorrhea—Gleet	Woman's Diseases

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisonous blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c Bottle Free

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on your local druggist for a full size bottle, and we will pay your druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and $1.

CUT OUT THIS COUPON

Outside Camps

Mining News of the Week Over the Province and the Upper County.

ASHCROFT

Mr. G. Novak, of Rossland, who holds a large interest in the Transvaal group at Highland Valley, is in Ashcroft picking up men and supplies preparatory to having the claims surveyed and crown grant procured. The Transvaal group consists of six claims and has lately been bonded for a satisfactory figure.

BOUNDARY.

A force of 100 men is now steadily employed at the Mother Lode mine in Deadwood camp.

The East Kootenay Coal and Coke company, of Grand Forks, will incorporate with a capital of $100,000.

Diamond drilling at the Volcano mine, on the North Fork, is reported to have been temporarily suspended on account of water.

The Minnie claim in Summit camp will ship to the Granby smelter at an early date. There are 90 tons of $25 ore on the dump.

On the Don Pedro, being operated by the Chicago British Columbia Mining company, the contractors now have the shaft down about 75 feet.

H. H. Shallenberger recently sold his Alameda claim, Deadwood Camp, adjoining the Mother Lode to Minneapolis capitalists, who expect to develop the property.

While water prevents shipping from the Senator, Summit camp, for the present, development is being continued, and before long ore will be going out to the Granby smelter again.

Fraser Bros. have suspended development on the Evening Star in Wellington camp, on account of too much water. The shaft is now down about 45 feet, and is in excellent copper ore.

KAMLOOPS

It is claimed there is $200,000 of profit now in sight in the Iron Mask mine.

LARDEAU

A force of men will commence operations on the Goldfinch in a few days.

Surveying was in progress this week for the construction of a gravity tram to the Highland Mary, one of the claims of the Eva group.

SLOCAN

Work has been suspended at the Monitor.

The Ivanhoe is increasing its force to 100 men.

Twenty men are employed at the Fisher Maiden.

The Chambers group, near Cody, will work under lease.

When erected the Rosebery zinc works will employ 25 men.

The force on the Bank of England has been slightly increased.

A 100 ton concentrator is to be built at the Alice mine, Creston.

The Whitewates is being worked under lease and is making money.

Colorado buyers are after Slocan zinc pigment ores, and are willing to absorb 500 tons monthly.

SOUTHEAST KOOTENAY.

The development of the Mammoth group of mines, on Goat Mountain, is proving most satisfactory.

A seven foot seam of coal has been met in No. 4, Morrissey. It will be a couple of weeks, however, before all will be in shape for extensive work in this mine, and after that time many men will be employed. The coal is said to be excellent, and of finest coking quality.

YMIR

A rich strike is reported at the Wilcox Mine.

The Fog Horn Mine was closed down this week.

Lost—Out of the Dominion Express company's sleigh, March 24, a package containing legal papers, addressed A. C. Galt. The finder, by leaving the same at Dominion Express company's office, will be suitably rewarded.

ALABASTINE

The Modern Coating for the walls of Houses, Churches, Lodge-rooms, and all interior decorations.

Is not a kalsomine, is more easily applied than old-fashioned white-wash. It hardens with age, will not rub off. Is sanitary, and its cement-like qualities will improve the wall. Write for particulars.

Made in White and Twenty beautiful tints, which are shown in a circular to be had from your dealer, or sent by mail. Sold in packages only, never in bulk.

Made in Canada by

The ALABASTINE CO., Limited, PARIS, ONT.

WILL TAKE
Custom Assays

To the Merchants

Why Don't You Increase Your Business?

Do not sit down and complain of lack of business, because people are sending out of the city for their goods.

Hustling will Do the Trick

Give them to understand that they can save money by dealing at home.

YOU WILL HAVE TO SHOW THEM

That you can sell them better goods for less money than they can get them for at some Cheap John department store in the east, and keep the money at home.

When you have done this You will get the results

The next question is how to reach the people to tell them what you want them to know

You can do this by keeping your advertisement in

The Evening World ....

It reaches all the people and goes in all the homes in the city. ✱ ✱ Its circulation is increasing every day.

Give it a Trial

And you will not complain as to the results
