## AOYAGI'S WELCOME UTTERANCE

Immigration into West is Being Investigated in Japan.

Victoria June 1.—Among the passengers by the Empress of Japan arriving here last night, is Mr. T. Aoyagi, who is bound for Washington and Ottawa, as a specially instructed commissioner from the Department of Agriculture of Japan, to investigate all conditions under which immigrants from Japan are received in Canada and the United States. The objections of these two American countries to the competition of Japanese labor have been noted in the land of the rising sun and the government is determined that Japanese shall not emigrate to any country where they are not heartily welcomed.

Recent legislation of an anti-Japanese tenor in this province, and recent statements antagonistic to Japanese labor by public men in the western states, have suggested to the Japanese government that its restrictive regulations may be insufficient to accomplish their purpose fully, and if this be so, and shown in the full report which Aoyagi will make to his government upon the completion of his mission, it is not improbable that yet more rigorous prohibition of Japanese emigration to American countries will be devised.

## FIRE IN YMIR

But the Badly Governed Town Puts it Out

Ymir, June 1.—At 8:30 yesterday morning smoke was seen issuing from the residence of Alfred Garvin, situated in the east side of the town, and across the Salmon river, and within a few minutes the whole building was in flames. Mrs. Garvin was preparing breakfast, and seeing smoke coming out of the ceiling called her husband. With superhuman efforts they managed to save an organ and one trunk of clothing, everything else in the house being destroyed.

The cause of the fire was a defective flue which ran from the kitchen through an unoccupied attic. A spark must have lodged there and got well started before being discovered. The local fire brigade ran out about 800 feet of hose and quenched the embers, as a high wind was blowing at the time. There was no insurance. Lost about \$700.

## Afternoon Tea.

Miss Mosgrove's tea, in aid of St. George's Guild, will be held tomorrow afternoon at her home from 3 to 6. All are cordially invited.

If you want a nice spring suit of clothes call at Smith & Lougheed the Tailors.

## TANGLED SKEIN OF PLANS

Japanese Troops in Eastern Manchuria.

## SILENCE OF WAR CORRESPONDENTS

Positions of the Little Brown Men in a Complicated Plan Around Fenghwang.

London, June 1.—Much bewilderment is expressed at the apparent meaningless movements of the Japanese around and to the north of Fenghwang. The new army corps which landed last week at Takushan at the head of Korea Bay has marched up country and passed through Fenghwang. Their destination, whether for Haicheng to the west and on the line of rail between Newchwang and Liauyang or whether for the northern road which does not touch Liauyang but which keeps in the mountains until a point north of Liuyang is reached and then turns west and crosses the main line at a point 100 miles north of Liuyang, is not given.

This is no doubt owing to the strict censorship exercised by the Japanese military correspondents who have been admitted to the front at Fenghwang.

## WANT A CONSCRIPTION

Royal Commission Report on State of Army Enlisting.

London, May 31.—The report of the Royal Commission on the volunteer and militia forces practically recommends conscription as the only means of providing a home defence army adequate for the protection of the country in the absence, or partial absence of the regular troops. The commissioners are of the opinion that the principle adopted by all the other great European states must be largely adopted by Great Britain and that it is the duty of every able-bodied citizen to be trained for national defence.

They point out that the necessary training would involve a period of continuous service with the colors, under an instruction body of specially educated and highly trained officers, and they consider that one year of such continuous training would suffice, with a few weeks attendance of the manoeuvres for a year or two afterwards.

The commissioners estimate that such a scheme would provide about 350,000 trained men annually at a cost probably less than that of the present militia system.

All goods on the bargain counter at the Crescent Dry Good company.

Summer sausage, cooked ham delicacies for lunch, W. G. Humble, phone 150.

GENERAL MANAGERP. O. Box 302  
Rossland, B. C.

## SILVER LINING.

Every cloud has its silver lining, and while no true Briton regards with favor the domicile of Chamberlain in the Transvaal, yet no Canadian, especially if he be a Westerner, can object to the Chinese leaving this country for the Transvaal. A recent telegraph despatch announced that hundreds of Chinese had been shipped from New York to South Africa, and that these Chinese had been gathered up from all parts of the United States and Canada. It is devoutly to be wished that some energetic Chinese emigration agent would come to Rossland and send away some of the Chinamen who are taking the place of white men's here.

## CHINESE LAUNDRIES.

We are great people we Rosslanders, for making a hades of a bluff in doing something or another and then sitting down and forgetting all about it, something like the Bandarlog in Kipling's Jungle Books. We were going to tear down certain fire traps which were a disfigurement to the city. But we have n't, and possibly, if the city officials don't do it, Rossland will forget all about it. Rossland was going to purify Trail creek by tearing down the Chinese laundries in the west end of town, which to this day improve adjacent property by their malodorous cleanliness. But they are still there. We were going to make the C. P. R. improve the upper crossing of St. Paul street, and refer the matter to the Railway Committee if it was not done by that peccant and reprehensible company. But we didn't. Last of all we have been going to elect a reform council, and we have been doing that for years past. But it hasn't arrived. Let's lump the whole thing, confess ourselves failures, depose the Mayor and other Pooh Bahs generally, and let the Secretary of the Board of Trade or the President of the Provincial Mining Association run the shebang. But perhaps even that would smack too much of reform.

## MINING STOCKS.

Remarks the Lead and Zinc News of St. Louis: That old saying, "The mills of God grind slowly, etc., etc." may yet be appropriately applied to the mills of Uncle Sam, with their grist of fraudulent promotions of mining stocks. Recently it was announced that a number of indictments had been returned against the promoters of the wild cat and some of the dividend-paying oil companies whose operations followed in the wake of the oil discoveries at Beaumont. The indictments, according to the daily press, have been returned because dividends were paid out of the proceeds of the sale of stock instead of actual earnings. It is unfortunate that there should have existed such delay in the prosecution of such unprincipled promoters, for had

they been shown up promptly many innocent and unwary investors would have been saved more or less serious losses. What should be done is to secure the passage of laws making it a felony to pay unearned dividends, without the protection of the statute of limitations. Then the public would at least have the satisfaction of knowing that the satisfaction of knowing that the worth of their investments were not being imperiled by dividend payments which the corporation had not earned.

## Carpets Renovated

Foam cleaned. Finer grades. Brussels, Marquettes Etc., cleaned without removing from floor. Prices Moderate. Rooms 7 & 8, Opal Rooming house.

All goods on the bargain counter at the Crescent Dry Good company.

## AT THE ST. LOUIS FAIR

Nelsonite Goes to the Show  
and Returns Fairly  
Contented

Nelson, June 1—E. L. Kinman, of Trout Lake, has returned from a visit to the world's fair at St. Louis, and is full of admiration of the fair and its wonders. It would take a month, he says to properly "do" the fair. One day can be profitably spent in inspecting what may be found in one building. The expenses are not as high as he thought they would be. For \$1.50 per night he got a good room and meals cost him on an average about 75 cents each. At the Inside Inn, which is located on the southeast corner of the ground, the visitor can stop on the American plan for \$21 a week. This covers the cost of a room, three meals a day and daily admission to the grounds. The Inside Inn is a large structure 400 feet wide by 800 feet long and three stories high with wide verandas over looking the grounds. It is provided with large rotunda parlors, waiting rooms, a dining room and cafe that alone will seat 2500 persons, and has 2557 sleeping rooms.

In speaking of the mineral exhibit of Canada at the fair, Mr. Kinman says there is a good exhibit of good copper and silver lead ores from British Columbia, but there is only one small piece of free gold from the province and that is a nugget from Toad Mountain. William Hutchinson, who is in charge of the mineral exhibition informed Mr. Kinman that he would very much like to secure an exhibit offereed from the Lardeau and that the cost of packing, carriage, and arranging the exhibit would be met by the Dominion. Such an exhibit would attract a great deal of attention, as at least 10,000 people a day would see it. Mr. Kinman is endeavoring to interest the miners of Poplar to send in sufficient gold nuggets to make a respectable showing, and says he is confident that it would make a big hit as there is scarcely any free gold on exhibition in the fair exhibit of minerals from all over the continent.

While there are many interesting things to be seen at the fair the exhibition has been tied up and delayed by strikes and by failure of exhibits to come to hand and he says it will be the 1st of July before everything will be in place. Therefore, he advises that those who contemplate going to the fair to make their arrangements that they will not arrive until after July 1st. Then they will see the whole show.

The "Pike" has some very fine attractions, and taken as a whole Mr. Kinman says the fair is well worth seeing.

No Eastern department store can give you the same prices, that we will, while our goods last. The Crescent Dry Good company.

## WORLD'S FAIR.

Wet Mountain Coal Co. (Assess. paid).....	12	10
White Bear (Assess. paid).....	4½	3½

Today's Sales.

Payne, 1000, 9½.

#### MINOR MENTION

The bugle band practice tonight in the skating rink.

Mrs. Sam Tonkin returned last night from England.

J. S. Carter of the C. P. R., was in the camp yesterday.

If Thomas J. Mitchell wants the baseball ground as a part of the site for the Le Roi new concentrator the nine had better look out for new grounds in short order.

The Miner said last election that the only issue was economy. Not the lighting franchise of course. The aldermen think likewise apparently, despite their pledged words to the electorate.

It is two years ago today since Rossland had a rejoicing over the close of the Boer war and a century since Great Britain rejoiced in the victory of Lord Howe over the French fleet, the Glorious First of June.

The WORLD is glad to hear it announced that the City Executive have remembered that the five days' grace is gone long ago and that the condemned buildings will be started in upon at once. Started in upon—when will they be finished off from?

Today is the last day on which notice can be given to the Lighting Company of the resumption of the franchise at the expiration of their five year possession on August 1 next. The WORLD was said to have been too previous in their remarks. Does anybody think so now?

#### Another Tanghe Case

A case that promises to rival in interest that of Tanghe vs. Morgan over the Lucky Jack claim near Poplar Creek may result from the action of A. Studd, of Hedley, in locating a few days ago a placer claim over the rich Nickel Plate lead. The claim has been staked over the glory hole recently started by the Yale Mining company, from which to supply ore for their 40 stamp mill which commenced dropping stamps a few days ago. There is a considerable amount of wash over the vein in places containing boulders of float from the ore body beneath, the width of which is in the neighborhood of 80 feet, and if the placer miner is allowed to mine all this loose ore, the claim will be of undoubted value.

All kinds of cleaning, pressing and repairing nicely done at Smith & Lougheads, the tailors.

#### FRANKLIN CAMP

##### To Be Opened up by Grand Forks Men

The Hammond Machinery Co., of Portland, has secured the contract for installing a plant on the Belcher mine, Lambert creek, above Curlew, Wash.

The company has under consideration plans for the transportation of the ores from the mine to the foot of Curlew lake, a distance of six and one half miles, at which point both the Kettle Valley and the Washington & Great Northern roads reach. Both aerial and ground trams are being considered but it is probable that the latter will be decided upon as being the one possessing the greatest advantage, as there would be practically no limit to its capacity. A smelting plant is also among the possibilities. If some company erects a plant at the lake or at Curlew, the company will not build one of its own for some time, otherwise it will not build one of its own for some time, otherwise it will erect one at the mine.

#### Carpets Renovated

Foam cleaned. Finer grades. Brussels, Marquettes Etc., cleaned without removing from floor. Prices Moderate. Rooms 7 & 8, Opal Rooming house.

#### WORLD'S FAIR.

Special Selling Date on June 7th, 1904

For the above occasion the Spokane Falls & Northern railway will sell round trip tickets to St. Louis at \$60, Chicago \$65. Good for three months. For full particulars and Sleeping Car reservations, call on or telephone Depot Ticket Office.
