THE CONVENTION

Proceedings of the W. F. of M. at Denver.

MINING CO-OPERATIVE SCHEME

Socialist Platform Was Not Endorsed by the Assemb'ed Miners.

The convention of the Western Federation of Miners met on May 26th, at Denver, Col., and was in session for two weeks.

It was the largest convention ever held of the Western Federation.

The officers reported an increase in membership of 2500, notwithstanding the loss in some of the largest centres such as Butte, Mont., and Leadville, Col., on account of the mines being nearly closed for part of the year.

Although the federation had been under heavy expenses, occasioned by the strike and lockout at Rossland and Northport, and strikes at Congress, Ariz., at McKay, Idaho, and at East Helena, Mont., during the year, a good balance remained in the treasury.

Resolutions were adopted empowering the officers to secure undeveloped mining property to be worked in the interest of the mineworkers, and measures were taken to secure funds for this purpose.

It was decided to adopt one universal membership card to take the place of the different due cards and travelling cards now in use. The per capita tax to be paid by stamps placed on the card for each months' per capita tax paid to the secretary of the local union.

It was decided to adopt a vigorous policy of education and organization along lines of socialist, political economy. The socialist members of the convention endeavored to secure the adoption of the principles of the socialist party by the federation. The motion was modified, however, while declaring for a policy of independent political action, and recommending the platform of the socialist party, the adoption of the platform was left to the judgment of the local unions.

The action of the Butte Engineers' Union in not endorsing the strike of the hoisting engineers in the early part of the spring was discussed, and it was decided the union had acted for the benefit of of the greater number, and the application for a separate charter for the hoisting engineers was refused.

Denver was chosen as the headquarters for the next convention, although a hard fight was made by the Butte delegation for their city, Denver winning by the narrow margin of two votes,

President Boyce refused to accept the nomination for reelection on account of ill-health.

Chas. H. Moyer, of Lead City, South Dakota, was elected president, the other nominees being Vincent St. John, of Telluride, Col., and M. H. Elliot, of Butte, Mont.

Two nominations were made for vice-president. J. C. Williams, of Grass Valley, Cal., and Edward Hughes, of Butte, Mont., resulting in the election of Mr. Hughes.

The present secretary-treasurer, W. C. Haywood, was reelected by acclamation.

The members of the new executive board are as follows:

F. C. Clark, Arizona, District No. 1.

L. J. Simpkins, Wardner, Idaho, District No. 2.

Phillip Bowden, Butte, Mont., District No. 3.

D. C. Copeley, Cripple Creek, Col., District No. 4.

Otto A. Peterson, Lead City, South Dakota, District No. 5.

James A. Baker, Slocan City, B. C, District No. 6.

Hughes, the new vice-president, and Clark and Baker of the executive board, were born under the British flag; Hughes in England, Clark in New Zealand, and Baker in Canada.

Crow's Nest Line.

Work on the long tunnel on the Crow's Nest line at the Loop is said to be progressing rapidly. The foundation work for the cement walls have been placed and the cement laying commenced.

CORONATION DAY

Miners Will Forego Labor Day.

WILL MAKE A COMMON HOLIDAY

Action of the Men Assures the Success of the Undertaking.

The Coronation day celebration committee will meet this evening in the library room at the firehall 8 o'clock in order to receive the report of the finance committee. It is understood that the amount required, inadequate enough, has been practically raised and there will be no more trouble about the money.

Several members of that committee see the force of judiciously advertising the celebration and doubtless the matter will be given the earnest attention of the committee this evening. Unless the festivities are well and thoroughly and extensively advertised in all the surrounding cities there can be no success attained. The affair would be merely local and the prime object of the whole movement would be defeated.

At the meeting of the miners held last evening in their hall it was decided to make no separate labor day celebration, but on the contrary to make the Coronation day labor day as well. The usual sports of labor day will be merged into the general program and the usual subscription put up by the men will not be collected and they will be asked merely to contribute to the general fund, subscription lists for which are being circulated at the principal mines in camp.

This will mean that there will be a large procession in the city on June 26 and it is to be hoped that the secret societies will also see their way to make a part of the same procession, following the precedent set by Victoria, where 4000 members of the secret societies, gathered from all over the Sound, will form into line.

The success of the matter as far as a local celebration is concerned is assured but once more it must be reiterated that were $12,000 put up for this celebration instead of $1,200, unless the fact were well advertised, there would he no other celebration here except one of a purely local character.

HAVE A PIECE OF SUPPER

Come and Have a Time at the Baptist Church.

The Ladies' Aid of the Baptist church will serve a Peace supper to the hungry from 5:30 to 8 o'clock this evening in the church lecture room. The bill of fare announced is certainly unique which, coupled with these ladies' known reputation for good cooking, should insure liberal patronage. Supper 25c.

Horseless Fire Engines Tonight.

At the Cinematograph theatre an interesting program will be reproduced, showing horseless fire engines going to a fire; Father O'Grady's dream; King Edward VII, close view; ride up Eiffel tower; driving scenes in Paris, Cragg family of English acrobats, and many others.

WILL NOW BE LAW

The Canada Northern Bill Passes House.

MAIN FEATURES UNCHANGED

Amendments Made in Committee Make No Radical Change.

Victoria, June 11.—The Victoria & Yellowstone Pass railway bill passed its third reading this afternoon and now requires only the gubernatorial assent to give it the force of law.

In the committee stage a number of amendments were made to the bill, but its main features have not been changed since the government withdrew the land subsidy, which was provided in the bill as it was first submitted to the legislature.

Land of the Aurora.

Lecture on "Romantic Life in the Land of the Aurora" in the Methodist church this evening. One of the best treats enjoyed by Rosslanders this year.

SYNOD OF KOOTENAY

Anglicans Met Yesterday for the Third Year in Nelson.

The third annual session of the synod of Kootenay was held yesterday in the mission hall of St. Saviour's church, Nelson.

At 9:15 a.m. there was a celebration of the holy communion in the church by Bishop Dart, assisted by Archdeacon Pentreath, Rev. H. Beer and Rev. E. P. Flewelling. At 10 a.m. the special opening office of the synod was read by the bishop, after which the meeting adjourned to the schoolroom.

IS A NOTED LECTURER.

Rev. E. R. Young at the Methodist Church Tonight.

The Rev. Egerton R. Young will lecture in the Methodist church this evening. As a pioneer missionary among the Indians, as a writer whose works have been translated into foreign languages, as a lecturer who has drawn enormous audiences throughout various parts of the Old Land and America, Rev. E. R. Young is one of the best known men of Canada. Come and hear him. No admission, but a collection.

THE MASK IS OFF

Joe is Now Openly a C. P. R. Man.

GIGANTIC LAND GRAB IN YALE

Martin Gives Away 1,000,000 Acres of Land to the C. P. R.

Victoria, June 10.—(Special.)—It does seem as if the Martinites have gone straight over to Dunsmuir. Dunsmuir left for the coronation last Saturday and today Eberts is leading the government. If anything new is mooted Eberts looks to Martin for his cue.

On Friday night the bill to give the Columbia & Western railway (C.P.R.) 1,000,000 acres of land to which it is not entitled came up. In the session of 1900 Martin strongly opposed the Columbia & Western getting a foot of land when that company applied for an extension of time in order to permit it to select its land. Now Martin gets up and champions the C. P. R. getting this grant, or rather graft. This company is also to be allowed to take the land (if the bill passes) in blocks of 10 miles square in Yale and Kootenay. In this way it will be enabled to gobble all the oil and coal lands remaining, together with all available townsites, in place of taking the land as contiguous as possible to the land already taken as per the Subsidy act, chapter 8 of the statutes of 1896, section 6.

The land taken in this way will be worth millions to the C. P. R. and no land worth anything south of the C. P. R. main line from the Nicola and Similkameen coal fields to the eastern boundary of the province will be left.

The C. P. R. is evidently not entitled to the land grant from Christina lake to Midway unless it builds half way to Penticton, which it will not do. But it is proposed to make this company a present of the land just the same. Martin spoke last session in favor of the C. P. R. being given the Coast-Kootenay railway subsidy and that no other company was entitled to get it. Taking all these things together there does not seem to remain the shadow of a doubt that Martin is assuredly hand in glove with this land grabbing outfit.

Sooner or later the Liberals and others of the province will be as alive to this fact as the Progressives seemingly are. It is now quite clear that the arrangement is that the C. P. R. is to get everything in sight in southern British Columbia, while McKenzie & Mann will farm out the northern half of the province!

On Monday Hawthornthwaite moved to amend section 3, subsection K, of the Victoria-Yellowhead railway act, by providing $2 per day as the minimum wage for the poorest class of labor, so as to effectually keep out Orientals, etc. Martin, McInnis and Stables, Gilmour was absent, joined the government and promptly voted it down

Smith Curtis' proposal to make the railway aid a loan that is being taken on first mortgage bonds on the railway for it, with interest for the first few years remitted, was in like manner defeated.

JOE ON THE RAILWAY.

There are quite a number of electors who have looked forward with confidence to the vindication of his curious conduct that Joe Martin was expected to make in connection with the passage of the railway raid bills through the legislature. But they are doomed to be disappointed. Joe himself is the only man who knows the real reasons for his attitude in this connection and he will not tell.

The Vancouver World summarizes its political leader's remarks on the Coast-Kootenay bill, in a few words of headlines stating that "Joseph Martin made an interesting speech during the debate, but never mentioned the railway." Not a minister at all spoke on the bill except the attorney-general, who in introducing it uttered the merest generalties. Col. Prior, the hot air minister, was conspiciously dumb.

The ministers are in no better position than that of the China man found raiding a henroost They had the fowl secured in a bag, but were compelled to drop the booty. There is only too much reason, however, to think that the railway bills are to be made a feature of the legislation of next session, when the roost raiders may be able to outrun the constable,—New Westminster Columbian.

CITY FINANCES.

The city council was wise in deferring any public consideration of the report of the citizens' committee until it had had time to thoroughly digest the same. There are very many things in it which will call for argument pro and con. It may be taken for granted, however, that the cut in salaries of officials having over $100 per month, especially in those departments which may be termed non-productive, will have to go into effect. It may also be taken for granted that if this is done then the salaries of the school teachers will have to go up rather than down on the very ground taken by the committee which is that a man should not be paid by the city any more than that which has services would command in an outside position.

Another recommendation of value is that the city assessor be instructed as to the method of determining the tax to be levied on corporations here, especially those which are in the possession of valuable municipal franchises. That the Rossland Water & Light company should be permitted to go scot free while owning a franchise which is worth to it many thousands of dollars annually, is simply an outrage on the people.

It is to be commended that the committee has not seen fit to recommend the decadent policy fathered by ex-Mayor Goodeve on a larger taxation being levied from the workers who are the men who are keeping this city on a paying basis.

There is one point, however, to which the attention of the citizens is called to. That is the fact that $2500 is being charged yearly to a sinking fund on debentures which have never been sold on the proposition that some day they will be sold and the inrerest and sinking fund will already be on hand to pay them off at the stated date. If this is not done just as soon as the debentures are sold, and they bear a definite date, a larger sum of money will have to be raised to meet that sinking fund and thus no saving will be really effected.

Now what is the real nature of these debentures? They were raised under a bylaw to buy out the Rossland Water & Light company, water and light. There was a clever phrase introduced into the bylaw which gave the mayor (Goodeve, of course!) power to use the whole of the money for the water or for the light or for both. He got it, despite protest, on the plea that the city officials would be able to make a better bargain were their hands free. Apparently this was not the case. The most valuable part of the franchise was left in the hands of the old company which merely parted with a portion of their business which not only was barely meeting expenses, but which immediately called for a large outlay of money. Naturally the company laughed. Whether Goodeve did or did not the WORLD does not know, but will bet on that gentleman's sense of humor.

The result of the whole thing has been that the water is now paying a splendid revenue and the city is relieved of the direct cash expense of the water supply for fire protection.

Had this been done with the light, instead of having the expense of meeting the city lighting that would have been got at cost, a mere matter of bookkeeping, and no cash transaction directly.

The point is that this can be done now. Let the debentures be sold. The showing made by the water department will prove that the investment is an excellent one. The city will be relieved of the expense of the arc lights amounting to nearly $2500 per annum, and this will meet the charge for the sinking fund. From the revenues of the light it will be able to provide a fund for the gradual extension of the water system and the ultimate building of the much needed adequate reservoir. The department's expenses will not be heavy inasmuch as the engineer is as capable of overlooking its system and making as great a success of it as he has of the water. Thus several high salaried officials now in the employ of the private company will be dispensed with, and the citizens can get the benefit of that reduction in the rates for lighting.

The question of power cuts no ice whatsoever. Nelson will only too gladly join in a proposition to erect another power plant on the Kootenay if the present power company show any desire to cinch the city. The "water debentures" will buy out the plant.

NOTES AND COMMENTS.

The Deceived Workmen's act which has just passed the provincial house of legislature may be considered as a triumph for Smith Curtis who brought it up at the last two sessions only to be defeated on each occasion. Persistence has gained the day. It is to be hoped that at the session of 1903 Mr. Curtis will be able to have the rejected clause reinserted.

It is not much use saying anything about the railway steals that are projected for next session, and those that are being put through at the present sitting of the house. It is evidently the last attempt of a gang of robbers, aided by Joe Martin, to wreak their last vengeance on the people, knowing full well that with their present record they will never stand the ghost of a show of reelection, and therefore getting all they can before the day of reckoning comes.

First there was a conspiracy entered into to compel the government to come to the aid of the City of Rossland, and, incidentally, to shut down the schools and rob the teachers of their salary. Next, finding the little scheme was badly digested and ill thought out, and that the people threatened to run the conspirators out of office, these interesting citizens have declared that they do not mean anything of the kind, and want to reopen the schools after having driven the teachers from the city to hunt for fresh berths under the idea that they would be compelled to leave their present positions. The only effect this would have would be to cut down the grant and so lose money! Few teachers would mean few scholars and that would mean a lessened per capita grant.

GAINS A VICTORY

Smith Curtis' Persistence Wins the Day.

THE DECEIVED WORKMAN'S ACT

Important Bill Regulating Conditions of Employment of Workmen.

The following bill introduced by Smith Curtis has just passed the house. It has suffered some mutilation in its progress, the following important clause having been struck out by the government, Martin strongly concurring:

"Failure to state in any advertisement, proposal or contract for the employment of a workman that there is a strike, lockout or other labor troubles at the place of the proposed employment, when in fact such strike, lockout or other trouble then actually exists at such place, shall be deemed as false advertisement and misrepresentation for the purpose of this act."

This came immediately after section 3 of which it formed part.

Sections 4 and 5 were amendments by Mr. Hunter and as they conferred on the operator no privileges which they do not at present enjoy, Mr. Curtis made no objection.

1—This act may be cited as the "Deceived Workmen's act, 1902."

2—It shall be unlawful for any person doing business in this province, by himself or by his agent or attorney, to induce, influence, persuade or engage a workman to change from one place to another in this province, or to bring a workman of any calling or class into this province, to work in any of the departments of labor in this province, through or by means of deceptive representations, false advertising or false pretences concerning the kind and character of the work to be done, or amount and character of the compensation to be paid for such work, or the sanitary or other conditions of the employment, or to the existence or non-existence of a strike or other trouble pending between employer and employes, at the time of, or immediately prior.

3—Any workman of this province, or from a locality outside this province, who has or shall be influenced, induced or persuaded to engage with any person or party mentioned in section 2 of this act, through or by means of any of the things therein prohibited, shall have a right of action for recovery of all damages that such workman has sustained in consequence of the false or deceptive representations, false advertising and false pretences used to induce him to change his place of employment, against any person directly or indirectly causing such damages.

4—It shall be unlawful for any person doing business in this province, by himself or by his agent or attorney, to induce, influence or persuade a workman not to change from one place to another in this province, or to induce, influence or persuade a workman of any calling or class to keep away from this province, through or by means of deceptive representations, false advertising or false pretences: (a) concerning the kind and character of the work to be done, or the amount and character of the compensation to be paid for such work, or the sanitary or other conditions of the employment, or (b) as to the existence or non-existence of a strike or other trouble then pending between employer and employes.

5.—Any employer of this province who has sustained any damages, by reason of any of the things prohibited in section 4 of this act, shall have a right of action for the recovery of such damages sustained in consequence of the false or deceptive representation, false advertising and false pretences used to induce workman not to change or to change his place of employment, against any person directly or indirectly causing such damages.

Advertising Thoughts.

Some are born great, other achieve greatness, and others advertise.

Advertising helps the small business grow large, and prevents the large business from growing small.

Never put a promise in your ad that you do not mean to fulfil—to leave out your ad would work less harm.—White's Savings.

For high-class family liquors go to the International Family Liquor Store.

If you want first-class bottled goods go to the International Family Liquor Store.

THOSE LAND SUBSIDIES

Substantial Proof as to What They are Really Worth.

The land department of the C. P. R. did a rushing business last month, says the Nelson News. The sales amounted to 207,153 at an average price of a fraction over $3 per acre. For the same month last year the sales only amounted to 40,489 acres. Up to date this year the quantity of land sold has been 727,235 acres for $2,368,863.

The sales of the Canada Northwest Land company make an equally good showing. Up to date 82 437.16 acres have been sold for $423,686 59. For last month the figures were 32,601.04 acres for $167,629.48. During May last only 9,599.41 acres were sold, for $53,030.13.

FIGURES TALK.

The fi th annual meeting of the shareholders of the Crow's Nest Pass Coal company was held in Toronto on March 7th.

The net profits of the year after paying all operating expenses and all charge of every kind, amounted to $207,848.39. After paying a dividend at the rate of ten per cent per annum, a balance of $28,142,.89 was carried forward to the credit of profit and loss.

This company's assets are their coal mines and the townsite of Fernie. Four years ago this company had no transportation facilities, and their stock sold as low as eleven cents per share. Today their stock is selling at $90.

The Similkameen Valley Coal company, limited, assets are coal mines, timber, water power, agricultural and horticultural land, city water works, electric light plant and the townsite of Ashnola, surrounded by the following resources: gold, copper, silver, lead, iron, lime, fire clay, platinum, and a fine stockraising country, and it is the smelting center of the Similkameen valley, with a climate that is all that could be asked, You can secure an option on this company's stock by paying 10c per share down, and ten cents per month until fully paid, with non-forfeiture clause. This price is subject to twenty-five cents advance without notice as soon as transportation is assured. The present price is $1.10 per share. Do not wait until it is too late, but get in on the ground floor. and make a handsome profit. A purchaser of one hundred shares now, may gain a profit of $8,990. Crow's nest shares as an example. This would be a fair profit on an investment of ten dollars per month for eleven months. We invite the fullest inspection of the company's affairs by intending purchasers. For further information apply to the

Similkameen Valley Coal Co.,
LIMITED.

STOCK MARKETS

Business in Stocks Somewhat Slack.

CENTRE STAR AGAIN RISING

Latest Quotations and Sales on Toronto, Spokane and Local Exchanges.

There is a lull in the sale of stocks, evidently due to the fact that prices are increasing and an opinion that there will be a fall sooner or later. This is doubtless true, but at the same time it is more than doubtful if the standard stocks of this camp will ever be again purchased at lower rates than are prevailing just now.

Today's quotations and sales here and in Toronto.

MRS. N. H. PLATT, PROP.

MINOR MENTION.

That case of assault will eventuate tomorrow.

Egerton Young will lecture tonight at the Methodist church.

Thomas Bradbury, the postoffice contractor, is now in the city, strictly on business.

The program will be rendered this evening at the International. Get in and see the show.

There is to be a Kruger supper at the Baptist church tonight. The menu is as formidable as the Boers themselves.

There will be a party tonight in the Astor House in honor of the sister of Mrs. Platt, who lately came from Spokane.

There will be a meeting of the Rocky Mountain Rangers this evening to decide the question of going to Grand Forks.

The Loyal Temperance Legion will meet as usual tomorrow afternoon at 4 o'clock in the lecture room of St. Andrew's church.

The finance committee at a late hour this afternoon had collected the $1200 required. Good for them! Just shows what live men will do

If anybody wants to hear a real good song since "Drill Ye Tarriers, Drill," left the city he can yet be gratified by listening to Oswald Roberts at the International.

O'Hearn got the contract for the making of the policemen's uniforms. Sergeant Bradshaw will now look spruce. He has had one or two rough-and-tumbles of late.

GOODEVE COCKROACH POWDER NEVER FAILS.

MICHEL FLARE-UP

Complete Sweep Made by the Conflagration of the Town.

Travellers coming through from Michel yesterday, says the Nelson News report that on the north side of the track, where the main portion of the town was situated, not even a post is standing. The first swept along the track from the eastward, and within an hour after it reached the town the long line of cottages, three story boarding houses, all of which were built of dry lumber or logs, were blazing furiously, the flames taking hold so quickly that there was no time to save furniture or anything.

A hard fight was made to prevent the fire crossing the track, and although this was kept from the buildings on that side, the heavily timbered mountains on both sides of the valley of the Michel are in flames from summit to base.

The C. P. R. rails for a mile were twisted and bent by the heat but temporary tracks have been laid.

For rent—A four room furnished house, for $13, including water. Apply at this office.

CALEDONIAN CURLING CLUB

Will Visit Canada During Next Winter.

Montreal, June 12.—The Star's London cable says: There was a representative meeting at Edinburgh today at which forty-five curlers agreed to go to Canada next winter.

The subject was submitted to the Royal Caledonian Curling club's annual meeting for approval and selection of team.

Anglican Church.

At the morning session of the Anglican synod yesterday Archdeacon Pentreath in discussing the present wave of depression said that despite the cry of hard times the Kootenays had this past year raised $5000 more for church work than the year before.
