A BANK COMBINE

Morse Now a Rival of J. Pierpont Morgan.

CONTROLS MANY N. Y. BANKS

A New Star in the Financial Firmament—Reaching Out for Other Concerns.

New York, Dec. 12.—Charles W. Morse, ice king, telephone promoter and financier, obtained control of the national Hide and Leather bank today, making eight banks in New York city where his word is law.

The bank is an old one, with offices in William street. The eight banks which this new star in the financial circles, absolutely controls, are the Hide and Leather, New Amsterdam, Broadway, Garfield, and Commercial, all national banks, and the Bank of the State of New York, Twelfth Ward and Gasevoort banks, state institutions.

Their combined capital is \$4,650,000, and the aggregate of their deposits \$32,218,200. Morse is also director and virtually the dominant factor in the Produce Exchange and Sprague National banks, whose combined capital is \$1,200,000 and aggregate deposits \$5,251,700. Then he is a heavy shareholder in the National City bank, National Bank of Commerce and Fifth Avenue bank, whose total capitalization is \$20,000,000 and aggregate deposits the enormous total of nearly \$200,000,000.

"A second J. Pierpont Morgan," was the way some of Wall street's knowing ones referred to Morse today, when his newest deal was known. From, Boston, too, the other day, came the report that Morse and his friends are seeking to control all the banks of that city. There he is trying to consolidate the Hide and Leather, New England, Atlantic, Elliot, Webster, Union, Merchants', and Second National, so the report runs.

FURNACE FIRES ARE BANKED UP

A General Exodus Looked For—Old City Council Trying to Hold on to Office.—Mandamus Will be Applied for—Kennedy's Condition.

Northport, Wash., Dec. 12.—There has been a general feeling of dissatisfaction among the non-union men who are working the Le Roi smelter, evident for some time, and last night a number of the men refused to go to work.

The foreman remonstrated with them to no purpose, and this morning the furnaces at the works were banked up pending some arrangements with the men. Two of the furnaces went cold during the night.

A general exodus of Missourians is looked for in the next few days. One of the city merchants who has been appealed to is arranging to send a lot of the men back to "Old Missouri." The scabs declare that they have had enough of smelter

smoke to last them for the balance of their existence.

The old city council has refused to recognize the legality of the late municipal elections, and last night passed a resolution demanding another election.

The newly elected council do not take office until the first week of the new year, and the members elected have decided to apply to the superior court for a mandamus to compel the old council to recognize the election just held.

John Kennedy the former smelter foreman who was shot by the scab outfit a few weeks ago, is still in a very precarious condition. He is very weak and has frequent fainting spells, but his friends hope he may yet recover.

A Wonderful Family Record—Five Generations Alive and Well.

In a birth that occurred two weeks ago in Nelson an interesting instance was given of a family in which members of five generations are alive and in good health.

This occurred in the family of A. E. Short, to whom a daughter was born. The mother's age is 26 years, the grandmother who lives with them is 54, the great-grandmother who resides in Southern Michigan is 74, and the great-great-grandmother who also lives in Michigan is 93.

COLORADO WAGES

Telluride Scale Agreed on by Consent.

IS HIGHER THAN ROSSLAND'S

Agreement Between Mine Managers Association and the Union—Result of a Recent Strike.

It has been announced in Rossland from time to time that the wages paid here in the mining industry were practically the highest paid in America. Appended is an agreement lately entered into at Telluride, Colorado, which is self explanatory.

The agreement is the result of frequent conferences between those in interest, and is really the outcome of the trouble that the miners had at the Smuggler-Union mine last July. We give the result of the agreement in full as printed in the Telluride Examiner.

On this, the 28th day of November, 1901, it is hereby agreed between the Telluride Mining Association and the 16 to 1 Miners' Union No 63, W. F. M., that for the period of three years (3 years) from the date hereof, the following scale of wages and hours will apply to all the mines owned or controlled by members of the said association:

Mines, underground, eight hours:
Mines [Single jacket].....\$3.00
Machine men.....4.00
Trammers and shovelers.....3.00
Drivers.....3.25
Timbermen.....3.50
Timbermen helpers and laborers.....3.00
Nippers.....3.00
Hoisters [engineers].....4.00
Station tenders.....3.00
Cage tenders.....3.50

Mines, outside: Engineers, \$4 for twelve hours; engineers, (if hoisting men), \$4 for eight hours; firemen, \$3.50 for twelve hours; blacksmiths and tool sharpeners, \$4 for nine hours; blacksmith helpers, \$3.25 for nine hours; laborers, \$3 for ten hours.

Tramway: Gripmen and loaders, \$3 for ten hours; brakemen and linemen, \$4 for ten hours.

The rate of wages for all labor not enumerated herein, and including foremen, shift bosses, head mechanics, etc., shall be subject to special agreement.

Apprentices will be employed under special arrangement.

All men are required to go to and from their work on their own time.

Contracts, where made, are to be in writing.

One dollar per day will be charged for board and lodging, but all employees have the privilege of boarding and lodging where they please.

All ten-hour men working on the hill, excepting tramway men, will be allowed one hour for dinner on company time.

Victoria Closed Up.

Victoria, Dec. 12.—The police say that there shall be no suspicion that Victoria is an open town, and they are raiding the gambling resorts. Rooms patronized by white gamblers are closed up tight, and on Sunday 39 Chinese speculators at fan-tan were gathered in. Sums of \$127 and \$47 were confiscated at two tables.

LE ROI IS ALL RIGHT.

There is nothing in the published views of Mr. J. R. Frecheville which have so far appeared, which need cause any anxiety to Rossland people about the future of the Le Roi mine. On the contrary, after making all due allowance for the peculiar circumstances in which the London director found himself placed in, when he arrived in Rossland, his advance notes concerning the probable future of the property are reassuring.

So far as the lower workings of the Le Roi have been developed a large body of ore giving an average value of \$15.75 has been uncovered. When it is recalled that the average value for the year ending June 30th, 1901, showed \$13.16, the importance of the later figures will be appreciated.

Until the war which is now fairly on in London between the deposed Whitaker Wright faction and those who now control the property is over, we may expect to see some peculiar statements about the mine in the English papers.

So far as the shareholders are concerned, the fact remains undisputed that after running the mine for three years all that has been paid in dividends amounts to only five per cent. on the capitalization of \$5,000,000, and we who know the large dividends paid to the former owners of the Le Roi, are somewhat skeptical as to the wisdom of the policy and some of the methods adopted by the subsequent managers.

It may be taken for granted that Mr. Frecheville's report will go exhaustively into the whole question of the past management of the mine, but whether fault is found with it or not it is abundantly clear that the property is now well equipped in every way, and should have a great future before it.

A well managed and dividend paying mine of the dimensions which Le Roi has now grown to, means prosperity to Rossland, and there is every indication that those who now control the mine propose to work it for all that it is worth.

If Henry Bratnaber and the people he represents had not been firmly convinced that the Le Roi was a mine with great possibilities they never would have gone to all the trouble and expense which they undoubtedly have, to secure the control of the property. Nor would Whitaker Wright have clung so tenaciously to the Le Roi and allied properties did he not think they were well worth fighting for.

When the details of the recent thorough investigation are published we venture to say that the future of the Le Roi mine will be declared to be a most excellent one, whatever may be said concerning the past management. The Le Roi is all right.

NOTES AND COMMENTS.

The Rossland Miner apparently realizes that there are times when silence is golden—especially about municipal affairs.

The New Zealand mines department reports the output of sulphur in the colony in 1900 at 1692 tons, an increase of 465 tons over the previous year.

If Mayor Lalonde is too busy with his Christmas trade to give the public the civic figures asked for, will not Alderman Clute, who

is a prospective candidate, kindly hand them out?

Although Winnipeg is some 1600 miles nearer to Rossland than Toronto is, we get the Toronto and Winnipeg newspapers of the same date on the same day. How is this?

Some of the WORLD's subscribers object strongly to the practice of clipping horses in the winter time and to the abominable check line that is some times used. They think that the society for the prevention of cruelty to animals, a branch of which was founded in Rossland last month, should take both these matters up at once. Will the officers of the society please note.

Francis Chandler, fraternal delegate from the British Trades' Union congress to the American Federation of Labor is of the opinion that the British unions are superior to those in this country in their system of finance, but in some other respects America's unions are far in the lead of England's. Union labels are unknown in England, and Mr. Chandler expressed surprise at the progressive attitude of the unions here in advocating their trade mark. He thinks the labels might be adopted with profit by the unions of the old countries, as might also the trade journals which are published by all the principal national unions in this country.

A British Board of Trade report states that during last year the membership of all Trades Unions rose from 1,800,869 to 1,905,116, an increase above the average. The income of the hundred principal unions in 1900 was £1,975,000, and their accumulated funds £3,767,000. During the last nine years the 100 principal unions have spent over £8,000,000 on friendly benefits, and about two and three-quarter million on dispute pay. Superannuation benefit is paid only by a small number of the unions, although in the case of miners this is provided by other agencies. Superannuation benefit in nearly all cases takes the form of a weekly payment. The approximate average amount paid to recipients of superannuation benefit in 1900 was slightly over 7s per week. The accounts of thirty eight of the unions, with an aggregate membership of over half a million, show that 9986 of their members were receiving superannuation at the end of 1900.

John Ley, a Victoria tailor, has consented to oppose Bodwell for the vacant Victoria seat in the labor interests. The newly announced candidate intimates that his platform is in process of construction, and will be issued shortly. Although a resident of Victoria for only five years he has been through many campaigns in Ontario, in Bothwell county. His principal objection to the candidature of Mr. Bodwell is that he is a lawyer.

The evolution of the Prince of Wales from a sailor into an orator, caused more comment and satisfaction than any other event of the week in London. The Guildhall speech was perfectly free from that platitudinous element usually noticeable in Royal utterances in England. His declaration that the old country must wake up if it wanted to hold its own almost took his hearers' breath away; but it has produced in all sections of the press praise quite untainted by servility.

DR. TAFT BROS. MEDICINE CO. Gentlemen: I write this testimonial from a sense of duty, having tried the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully,

O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. Feb. 5, 1901. Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full size bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

NOVEMBER DIVIDENDS

Over \$12,500,000 Paid— Does Not Include Many Private Companies.

November dividend payments by 56 companies identified with the mining and metallurgical industry of the United States, aggregated \$12,584,294. According to reports received, 36 precious and semi-precious metal mines paid \$1,825,329 or 14.5 per cent. of the total, while the balance of \$10,758,965, or 85.5 per cent. was contributed by 20 allied industrial companies. Large disbursements have also been made by numerous private and close corporations, such as the properties controlled by Senator W. A. Clark, of Montana, and the Phelps-Dodge interests, that do not report. The largest payment during the month was \$8,929,039 on the preferred stock of the United States Steel Corporation.

The metal mine disbursements were: Copper (4), \$850,009; gold, silver and lead (30), \$952,843; zinc (2), \$22,477; total, \$1,825,329.

The industrial payments were: Iron and steel (4), \$9,923,674; coal and coke (2), \$504,681; petroleum and natural gas (12), \$119,110; chemical and mineral companies (2), \$211,500; total, \$10,758,965.

In the 11 months ending November 30th, the dividends reported by 215 companies aggregated over \$145,000,000, a most excellent showing.—Engineering and Mining Journal.

MINOR MENTION

C. S. Wallis is over in the Boundary country.

W. H. Keary has been elected mayor of New Westminster.

Albert Klockman was presented with a handsome chest of silverware by the Rossland Elks last evening.

"The Chimes of Normandy" was produced with great success in Nelson last evening, by the members of the Nelson Operatic society.

There was no session of the supreme court this morning, the learned chief justice being confined to his room by a severe cold.

The tickets for "Confusion" at the opera house on December 17th, are selling well but some good seats are still to be had.

The Rossland contingent for South Africa were given a great send off last night by the rifle company and the citizens generally.

W. P. Robinson, formerly sheriff of Kootenay died at his residence in Nelson on Tuesday night and was buried this afternoon. The funeral was in charge of the Masonic order.

A public meeting will be held at the city hall tonight at 8 o'clock for the purpose of considering the advisability of organizing a Joint board of Charities for Rossland. The matter of forming a branch of the Children's Aid Society in this city will also be taken up.

If you wish a dainty meal, call at the Kootenay.

THE LABOR CONGRESS

Resolutions Passed--Many Subjects Are Dealt With.

Scranton, Pa., Dec. 12.—Among the resolutions adopted at the meeting of the American Federation of Labor were these: Requesting the terra cotta pressers' and finishers' unions to affiliate with the international brick, tile and terra cotta workers alliance or have their charters revoked by the Federation, recommending that the federation make an effort during the coming year to organize the school teachers' of this country; authorizing the federation to send deputies to national and international organizations, particularly those of railway employees; endorsing the label of the International Wood Carvers' association; and instructing the executive council to use every effort to secure the passage of a national law protecting and legalizing itself.

William H. Burken has bought out his partner Ed. G. Farnsworth's interest in the well-known barber shop on Columbia avenue which is always patronized by the nobility and gentry of the camp, as well as by ordinary, every day people. Mr. Burken has obtained the services of Mr. Rustler, of Northport.

TOWN TALK.

Some talk of wrongs that they could right if they only had the backing; if they had the Le Roi at their back there would still be something lacking.

Grass widows talk of happy homes, While widows sympathize; We must be careful what we write in case some trouble rise.

Some trifle with the truth so much Their absence would be pleasing; They talk of strike from morn till night While I stand here a freezing.

Selling fruits and candies day and night, Sundays too, but that's all right; It must be done to make it pay, The sun now shines I must make hay.
