ENGLISH COMMENT.

The Most Favorable That Has Yet Appeared.

Judging from the crowded attendance in the court at every sitting at which the affairs of the London & Globe company have been under consideration, says the Liverpool Mercury, more interest has been excited by the "revelations" in this case than in any other in which the affairs of financiers have been investigated for many years. When Mr. Whitaker Wright was under examination the court was besieged by an interested crowd, and indeed there were generally groups of people to be seen in the streets without, discussing the latest turn of the evidence. Mr. Whitaker Wright himself must be pronounced an excellent witness. He has a severe ordeal in the clever cross-examination of Mr. Rufus Isaacs, K. C., who spared nothing in plying him with suggestions and other devices of a skillful counsel; and once or twice some slight irritation of manner was shown in breaking into the middle of a question with an unnecessary expostulation, such as, "I don't know what point you want to make," or "What has that to do with the matter?" On the whole, however, he bore the strain remarkably well.

For Fresh Salmon, Halibut, Herring and Crabs go to the B. C. Market, Columbia avenue.

We make a specialty of family trade at the International Liquor Store.

If you desire the best goods for your money call at Ed Farnsworth's cigar stand.

For a glass of beer and bowl of Clam Chowder for 5c at the Alhambra.

Assignee sale—watches, clocks, jewelry—next to Windsor hotel.

Ladies' Tailoring a specialty Comerford & Cameron, successors to Sharp & Co., Dean Block. tf

For high-grade whiskey go to the International Liquor Store.

Two single gentlemen can obtain good private board by applying over Harper & McArthur's.

Union Made Cigars.

Why not begin the New Year by smoking union made cigars? When you wish a smoke ask your dealer for a "W. B." or "Crown Grant" Cigar.

NOTICE.

The strike has been settled at the Le Roi mine, but it is still in force at the other mines as before.

Negotiations are being carried on with the other mining companies of the camp which have been effected by the strike but they are not yet completed.

Working men in outside camps are advised to keep away from Rossland for the present, as there are more union men at the present time here than can secure employment until a settlement has been effected with the other mining companies.

Executive Committee, Rossland Miners' Union, No. 38, W. F. M. Frank E. Woodside, Sec'y. Jan. 24th, 1902.

MEAN BUSINESS

Sandon Hockey Team Arrives Tonight.

COMING CURLING BONSPIEL

New C. P. R. Agent for Rossland—
News of the Ivanhoe Mine.

Sandon, Feb. 20.—Sandon has sent the fastest hockey team that ever left the city to Rossland this morning. The team is made up of Hoggan, goal; J. Crawford, point; W. Crawford, cover; Grierson, Howarth, Wood and E. Crawford on the forward line. The boys expect to win and have all kinds of money to back their team against Nelson.

Thirteen rinks have signified their intention to take part in the curling bonspiel here next week. It will be the biggest curling event west of Winnipeg.

The Ivanhoe laid off its stopers yesterday and will work all of its force on two upraises that will be driven from the No. 8 level. This will complete the development of the mine to the 1100-foot level.

H. W. Harbour, C. P. R. agent here for over a year, left today for Rossland, to take the station there. R. B. McCommon, of Trail, takes his place.

Fine wines and liquors at the International Liquor Store.

Don't forget to see Charley and his Electric Piano at the St. Charles hotel.

For Dry Wood go to W. F. Lingle. Office, Washington street, opposite Great Northern express office. Phone 149.

CLEVER CAPTURE

The Sneak Thief of Sample Room at the Allan Has Been Arrested.

Sergeant Bradshaw made a smart capture this morning. Thomas Kennedy has been arrested for the theft of sundry articles of stationery from the Allan hotel recently. Part of the goods has been recovered. It seems that Kennedy was employed at the Allan for a short time, and prior to his dismissal was enabled to glean something about the internal arrangements of that hotel, and so to plan his scheme for getting into the sample room. Sergeant Bradshaw was suspicious of the man as a likely culprit and, some other circumstances confirming his suspicions, he promptly arrested him.

On the arrest the prisoner was searched, and he was discovered to be in possession of six gold pens and ten fountain pens. There is a dozen of each missing, so that Kennedy has probably succeeded in disposing of the remainder. The prayer books have probably been hidden somewhere, but the police are in hopes of recovering them from a knowledge of the habits of the prisoner.

Kennedy is said to have already served a time in New Westminster and is therefore an old offender. He was not pleased with his arrest, and called down the sergeant in great style. His defence was merely that he had picked up the goods, and that he had as much right to do that as anybody else.

The owner of the stolen articles is Frank Smith, a traveller for an eastern firm who is at present in the Bowdoy. He will return here within the next few days, and the trial will be adjourned till his testimony can be secured.

For imported wines go to the International Liquor Store.
The Wilcox.

Superintendent White, of the Wilcox, says the Ymir Mirror, reports that the recent shipment of ore from the Wilcox resulted in returns of \$172 to the ton. These are the best returns yet obtained from the ore of the Wilcox.

Don't forget to see Charley and his Electric Piano at the St. Charles hotel.

NOW CONFIRMED

Sale of Pyritic Smelter Has Been Made.

PLANT WILL NOW BE ENLARGED

Smelting Operations Will Begin Within the Next Seven or Eight Days.

Greenwood, Feb. 20.—It is announced here today that the deal which has been pending for several weeks between the Montreal-Boston Copper company, owning the Sunset and Crown Silver mines, and the Standard Pyritic Smelting company, for the purchase of the latter's smelter at Boundary Falls, has been completed. The purchasers are already arranging to add to the equipment of the smelter with the intention of commencing smelting within seven or eight weeks. It is stated that E. J. Wilson, the Standard company's manager, will not have charge under the new company's arrangements, but that Albert J. Goodwell, of Pueblo, Colorado, who has been strongly recommended, is likely to be manager. C. R. Craig, of Seattle, arrived today to take the position of accountant.

A large new hoisting engine is now running at the Sunset mine, where preparations are being pushed to maintain a sufficiently large output to keep the smelter going.

Don't forget the Masquerade Ball Saturday night, February 22nd, at the Miners Union hall.

The Kangaroos.

There will be given a masquerade ball given in the Miners' Union hall on Saturday night next, under the auspices of the Royal Kangaroo club. The affair is sure to be a success, as the Kangaroos always get in with both feet.

Don't forget to see Charley and his Electric Piano at the St. Charles hotel.

With the steadily increasing market in this province for all kinds of farm produce, it would seem that there is something radically wrong in the methods of our provincial administration when an increase in the number of those engaged in agricultural occupations is either lacking or is comparatively insignificant.—News Advertiser.

Clam Chowder free day and night at the Alhambra.

RELIGIOUS ZEAL

Arouses Anger of the Chil-koot Indians.

BURY THEIR VICTIM ALIVE

Rescued From the Grave the Boy Dies From Suffering and Fright.

Seattle, Feb. 20.—The steamer Dirigo, which arrived from Alaska yesterday, brings news that the Chil-koot Indians near Haines' mission, Alaska, one February 5th, buried alive one of their tribe, a boy 15 years of age. The boy had been converted to Christianity by Milo A. Sellon, a Methodist missionary, and in a burst of religious zeal denounced the mummeries of the tribal icht, or medicine man. This act aroused the anger of the superstitious old men of the tribe.

Recently 14 native residents of the village of Kluckwan died of consumption and the icht spread the belief that the boy was in league with the evil one through his knowledge of the white man's religion and caused the deaths. The disappearance of the boy from school aroused the suspicion of Mr. Sellon and he started in search of him. At the outskirts of the village he found tracks leading to a fresh grave. Digging down he found the boy still alive, his blood-shot eyes rolling in insane agony, his hair torn off in handfuls from his head. His finger nails were torn off in his efforts to escape from his horrible prison.

The boy was lifted from the grave and carried to the village, where he lived for several hours, howling and crying out like a maniac, finally dying from the effect of suffering and the fright. The icht who is responsible for the crime is Skun Doo, an old offender, who spent a term in San Quentin penitentiary for causing an old woman to be starved to death in 1894.

CHINESE REFORMS

How the Dowager Is Inaugurating the Much Extolled New Era.

Pekin, Feb. 20.—The dowager empress on Feb. 23rd will receive in audience Sir Robert Hart, director of the imperial maritime customs; Bishop Favier, the Catholic vicar apostolic in China; and M. Pukotileff, manager of the Russo-Chinese bank.

This will be the first audience ever granted to foreigners who are not members of the diplomatic corps, or of special missions.

Chang Chih Tung and Liu Kun Yi, the reform leaders, are coming to Peking to consult with the dowager empress. Yuan Shi Kai, the governor of Chihli, has memorialized the throne for a pardon for the reformers who advised the emperor to sign the edicts of 1898, which caused the coup d'etat.

If you want first-class bottled goods go to the International Liquor Store.

Call and see Ed Farnsworth when you want a good smoke.

Don't forget the Masquerade Ball Saturday night, February 22nd, at the Miners Union hall.

THE ORIENTAL COMMISSION

The Oriental commissioners have this week ended their labors by submitting the results of their enquiry to the government at Ottawa. The work, it is stated, is a monumental one and ought to command immediate attention. The WORLD says "ought." It does not hope that it will for although Canada possesses some statesmen these men are swamped by the politicians. We will hear some nonsense about the development of the country and the fear of antagonizing imperial aims by laws aimed at the exclusion of the Japanese. Now the fact of the matter is that of the two nations, the Japanese and Chinese, the latter is the worthier from a commercial standpoint. So great is their commercial integrity that they are employed, to the exclusion of the Japs themselves, in the Land of the Rising Sun, in all positions of trust. No white man resident in the Far East for a term of years, and knowing both China and Japan, hesitates in giving the preference, in this sense, to the Chinese. Japs, as our Fraser river fishermen attest, are a greater danger to the country than are the Chinese.

As for the development of the country, that a secondary matter to the development of the nation. "What shall it profit a man if he shall gain the whole world and lose his own soul?" says the great book, and what shall it profit Canada if it makes itself the greatest producing nation on the face of the earth and at the same time allows the national character to deteriorate and its inhabitants to become a mongrel breed, at the mercy of any strong race. If Canada cannot be developed without importing inferior races let Canada remain undeveloped; it will be better for the nation. We shall be reemen, not slaves; we shall be of the rulers of the earth and not the ruled. That there is no necessity for this retarded development by the exclusion of the Orientals the example of the Antipodes has already shown. The point is merely this, that the first consideration is the well being of the nation and wealth will come of itself unless Anglo Saxons degenerate on Canadian soil.

THE IMPENDING CONFLICT.

The following article published in the New York Iron Age from the pen of Stuart Utterly, an English workingman, who has been visiting the United States and has travelled the entire continent, is worthy of serious attention on the part of those who on the one hand discourage unionism, and on the other point to the methods of American managers with blind reverence. He says:

"The disorganization of labor is a matter of very serious moment to the United States. During the last great engineering strike in England, when over 80,000 men were out for six months, not a shot was fired. There was not a single riot, very little disorder, and when closed it left scarcely any ill feeling. The fact was that being well organized they were under good discipline, and being fairly well provided with the means of subsistence were not driven to the desperation of starving men, hence they were enabled to rely on a passive resistance. One has only to ask what would have been the

result in the United States of a prolonged strike in one of the leading industries wherein a great majority of the men were without any means of subsistence and under no proper control.

As one who has had a long and varied experience of men and things I should tremble for the result, and to every mind in this direction lies one of the serious dangers to America's future. In Great Britain organized capital and labor are both sufficiently strong to respect each other's opinions and to lend a willing ear to the voice of conciliation, but from what I saw and heard in the states organized capital is the giant, and organized labor the dwarf. It is pretty much the same in industry as in other domains of human enterprise—history repeats itself. In the early days of British industry, when labor was unorganized, riots and disorder were frequent."

"I hope that I am mistaken, but, judging from what I gathered while in the states from sources well calculated to form correct opinions, I fear that the most momentous danger before America is an individual (industrial) war, such as the world has never seen before.

"The stronger the trusts grow the more powerless will labor become. As it cannot obtain redress from Congress in a similar manner in which British labor can from parliament, and finding that the few are growing enormously wealthy while the many are steadily sinking into poverty, it may perchance strike out fiercely, wantonly and madly like a blind, enraged giant.

"It is not for me to suggest remedies or to indicate the path of prudence. That would be impertinent on my part. Allow me, however, in closing, to say that nothing so strongly impressed me while in the states as the collective incompetence of labor and the growing and crushing might of the trusts. Sooner or later that well-organized body will stand face to face with the horny-handed, undisciplined, and uncontrolled multitude of workers, and then the real trial of strength will begin, and after that—the deluge."

NOTES AND COMMENTS.

Laurier says he is sorry that he cannot recognize Martin's Liberal leadership. Martin is still sorrier.

Roosevelt has said that there shall be no more talking in the Schley-Sampson controversy. He forgets the law courts are still open.

The Toronto Globe says: "It is painful to relate that the (provincial) house was full when the prohibition bill came up for debate."

The best argument put up as yet by the Great Northern is that the C. P. R. will not supply it with cars to take coke to the Montana smelters until those of this province have first been supplied.

A little Englander thinks that New Zealand has no right to be heard because its population is under a million. A country that has given the best solution yet offered to the labor question and has at the same time made its people the greatest producing nation, per capita, in the world has the right of success to talk and command attention.

COKE FOR SMELTERS

Views of the Rossland Board of Trade on the Question.

The following document has been drawn up over the signature of the president of the Rossland Board of Trade, embodying the views of that body with regard to the question of coke supply for British Columbia smelters. It will be submitted at the meeting of the Associated Board for fuller deliberation.

"In view of the coming meeting of the Associated Boards of Trade at Kaslo it may be as well to call the attention of those interested and the public generally to the questions raised by 'Fair play' in his letter to the Rossland Miner of February 5th.

It will be noticed that 'Fair play' carefully avoids the main issue and attempts to mislead the public by intimating that only points in the controversy are:

1st. That Mr. J. J. Hill is a dangerous "bogy man" seeking to destroy our Canadian industries.

2nd. That there is danger of a coal and coke famine in British Columbia.

3rd. That the agitation is started by and is entirely in the interests of the Canadian Pacific Railway.

All three of which have an element of truth in them and are therefore the more dangerous, while the real points of issue for us as Canadians, and particularly as citizens of British Columbia to consider, are as follows:

1st. Does the Crows Nest Coal company, controlled by Mr. J. J. Hill, enjoy a monopoly in the coal mining industry of the Crows Nest fields of British Columbia.

2nd. If so how does this monopoly affect us?

3rd. If adversely, what, if any-

thing, can be done to remedy it?

First. The best reply to this is the fact that no company is operated in the Crows Nest fields of British Columbia excepting the Crows Nest company, and that the only independent company which started operations, and employed for a short time about 100 men, was compelled to discontinue work, unquestionably due to the direct influence of the Crows Nest Coal company. Second Has this company taken advantage of its monopoly in this country?

It has been repeatedly claimed that preference in orders is invariably given to customers on the Great Northern road, and the only safeguard in this respect has been due to the fact that the Canadian Pacific have refused to furnish Great Northern cars until customers along the line of the Canadian Pacific were first supplied. It is also claimed that coke has been sold to the United States smelters for considerably less than \$4.00; also that coal has been sold for less than \$2.00 and \$2.50 as charged in British Columbia; also that a decided preference is given United States consumers in the matter of quality of both coal and coke. The most of the coal shipped to British Columbia consumers is the so-called mine run of an inferior quality, while the best lump coal is sent south. These are all serious charges and have never been satisfactorily disproved, and now that the agitation is on, bearing upon this fact, the following telegram appears from Grand Forks:

'A telephone message from Greenwood discloses the fact that the Greenwood smelter would have been compelled to close down on account of lack of coke, had it not been for diversions which were made to them by the Hall Mines and Granby smelters. This is rather an interesting state of affairs in view of the fact that there is more coke being shipped to the United States than to Canadian points, and emphasises the fact of the invariable prefer-

ence given to coal and coke orders from the United States institutions tributary to the Great Northern railway.'

If the Crows Nest is permitted to continue its monopoly, are British Columbia consumers likely to fare better after the completion of the Great Northern road? It has already been shown that the only way in which British Columbia consumers have been protected has been through the action of the Canadian Pacific railway in refusing to place Great Northern cars until Canadian Pacific orders were filled. As having a particular bearing upon this subject may be quoted a letter from the Spokane Chronicle, signed D. Miller, second vice-president of the Great Northern, in explanation of his being unable to fill the coal orders in Spokane.

'I find upon investigation the situation to be that the Canadian Pacific have increased their order for coal to such an extent that the coal company is not able to fill their outside orders, and the Canadian Pacific will not furnish cars for outside orders until their own orders have been filled. Under these conditions the coal company is powerless. This company has had an order for 40 cars of coal per day, but same has been shut off. I do not think we can depend upon any relief until we get our own line completed into the coal fields, which, I regret to say, however, will not be in time for this winter's business, as we do not expect to have the line completed before May next.'

I think I have shewn conclusively from the above, first, that the Crows Nest Coal company have a monopoly of the Crows Nest Coal Fields, and secondly, that that monopoly affects the interest of British Columbia adversely. It now remains to be seen what can be done to remedy this state of affairs.

The agitation which was started some months ago in favor of competitive coal mining has already

(Continued on Fourth page.)

RECORD SALES FOR THE YEAR

The Latest Quotations and Sales
Locally and on the Toronto
Market.

There was a heavier sale of stock recorded this morning than at any time during the current year. The market seems to be regaining something of its old buoyancy and its state is one of the markedly cheerful features of the camp. Besides the sales noted there were some arranged in Golden Crown which mine is being steadily developed, and is now a shipper.

Today's quotations and sales here and in Toronto.

MINOR MENTION

The carnival is on.
C. S. Wallis left for the Bound-
ary this morning.

The carnival prizes can be seen
in Spring's window.

There are only two smallpox
patients in the pest house.

Why is the nurse at the pest
house like the top of a smallpox
pustule?

W. J. Holland, J. Hancock and
R. Wilkinson left today for Butte,
Montana.

Three gamblers, J. Martin, J.
Swanson and A. Bollinger were
each fined \$50 this morning.

We are asked to announce that
there will be a full band at the
masquerade tonight. Sorry to hear
it.

Mr. and Mrs. Sam Holland and
family have gone to the coast, and
will take up their residence in Vic-
toria.

The harmonical efforts of the
opera house choir and the metrical
efforts of its chronicler in verse are
about on a par.

For fine candies, cigars, Hazlewood
ice cream and home made cakes, go to
The Parlor, corner of Spokane street
and Columbia avenue.

For fine Cigars and Tobaccos go to Ed
Farnsworth's cigar stand.

For high-class family liquors go to the
International Liquor Store.

Don't forget the Masquerade Ball Sat-
urday night, February 22nd, at the
Miners Union hall.

For a nobby suit of clothes call
and see Comerford & Cameron, suc-
cessors to Sharp & Co., Dean
Block.

COKE FOR
SMELTERS

(Continued from Third page.)

compelled the coal company to re-
duce its price of coke from \$4.50 to
\$4.00. We have not heard that
they have reduced the price of coal
and it is fair to assume that as
soon as the agitation stops, or as
soon as the government complies
with the wishes of the coal com-
pany, which is that the govern-
ment tie up the remaining coal
lands in such a way that they may
have the only properties which can
be worked, that then the coal com-
pany would simply drop the ques-
tion of further reduction.

It is evident then that the best
way to secure a reduction in the
price of coal and coke is to open up
competitive coal fields of "equal
value" to those of the Crow's Nest
Coal company. It is not a ques-
tion open to dispute that the coal
and coke produced in the Crow's
Nest Pass are superior to any pro-
duced in this continent, and that
so far as research has gone up to
date there is none other quite so
good likely to be found, at any rate
in the west. We understand that
while it is true that the Canadian
Pacific railway is entitled to six
square miles of land in this dis-
trict they are debarred from work-
ing them under an agreement with
the Crow's Nest Coal company,
which has some six years yet to
run, so that the only other alterna-
tive is for the Dominion govern-
ment to exercise its right under the
statute and make its selection of
50,000 acres of these coal lands at
once. It has already been shown
by expert examination of
these lands that there are only six
points where these coal fields can
be opened up on an economic basis
and of these six points, five have
already been secured by the Crow's
Nest Coal company, viz: two upon
Michel, two upon Coal Creek and
one upon the north side of Mor-
rissey Creek, so that the only one
remaining is that upon the south
side of Morrissey Creek. I would
therefore impress upon every citi-
zen of British Columbia, and es-
pecially of the Kootenays, the im-
portance of urging the government
to make its selection at once. The
wisdom of this is so palpable that

we find the agents of the Crow's
Nest Coal company arguing in
favor of the government making
this selection, but holding these
lands in order to "protect" the pub-
lic, but it is in this latter clause
that we disagree with them. Of
what use would it be to make the
selection and allow the mines to re-
main unopened? The chief argu-
ment advanced by Mr. Hill's agents
when they applied to the govern-
ment for their charter to tap the
coal lands was that competition
would reduce the rates and that the
people of the Dominion would reap
the benefits. That argument ap-
plies with even greater force to
competition in coal and coke.

Labor and supplies are both
more expensive in British Colum-
bia than they are in the large
coalfields of Pennsylvania, Vir-
ginia, and the Southern States, but
with coal costing from 60 to 80
cents per ton in these districts and
coke costing \$1.75 per ton, is rea-
sonably safe to assume that with
competition in the production of
coal and coke the prices here would
be reduced from \$2.00 to \$1.25 for
coal and from \$4.00 to \$2.50 for
coke, both of which would be a tre-
mendous item to the mines, smel-
ters and other consumers of British
Columbia.

We think therefore that the time
has arrived for the government to
use its lands to force the reduction
of the price of fuel in this coun-
try.

British Columbia has lately
passed through hard experiences
due to the rapid decline of the
values of all of her metal produc-
tions. To meet this and aid the
mines, which are the foundation
of the country, all classes of
people have joined in endeavoring
to aid them in their efforts to con-
tinue in their operations. We find
the railways making material re-
ductions in their freight rates; the
smelters reducing charges, ex-
panding large amounts of money
to cheapen costs, and the mines
themselves curtailing expenses in
every direction. The single ex-
ception seems to be the Crow's
Nest Coal company, which have
announced no reduction in the
price of coal but continues charging
all the law allows, and only under
the greatest pressure have been
compelled to reduce the price of
coke from \$4.50 to \$4.00 per ton.
No wonder that they are urging
upon the government to make its
selection and hold the lands as a
menace to monopolies, realizing
that the menace will amount to
but little so long as the lands are
not operated.
