LOCAL SITUATION

Incorporation of the Le Roi Smelter in Idaho.

IT IS NOW UP TO THE DIRECTORS

Letters in the English Papers—Sending Men to Report—Miners Leaving Town.

Bernard Macdonald has stated that so far as the strike is concerned the whole matter has been laid before the directors of the several companies controlling the Le Roi group of mines in London, and that until they instructed him nothing will be done.

In the meantime the English papers continue to publish letters from the shareholders of all four companies asking for details of the situation, and why all information is being withheld.

One suggestion runs all through the letters, and that is that two or three persons should be at once selected to proceed to Rossland in the interests of the shareholders and report fully on the real situation.

Such a step would undoubtedly meet with the strong approval of all mining men here, who think it would go a long way to relieve the present situation.

Mr. Macdonald is expected to return here this afternoon. The latest move on behalf of the Smelter company—seeking fresh incorporation under the laws of Idaho, has excited some comment and various explanations, none of which, however, appear to be clear or satisfactory.

Many of the miners continue to leave town seeking and obtaining work elsewhere, but there is no particular change in the situation nor is any looked for, for some considerable time.

NELSON MINER.

Paper and Plant Seized by the Sheriff—$11,000 Due Creditors.

The Nelson Daily Miner yesterday advertised its own departure. The Royal bank and Miller & Richards have secured judgment against the concern for sums aggregating close to $11,000, and the outfit will be sold by the sheriff next week.

For some time the paper has been published in the interest of the Mine Managers association or some portion of it and presumably was controlled from that quarter.

Apparently it has been found a losing proposition, and the association has dropped it. It is not known yet whether an effort will be made to resume publication after the sheriffs sale under a different management.

THE BISLEY MATCHES

Bodley Shooting Well—Canadians Hold an "At Home."

London, July 19.—In the competition at Bisley yesterday under the auspiecs of the National Rifle association, Sergeant S. W. Bodley of British Columbia stood fourth in the first stage of the St. George's vase competition, the second important prize, with a score of 66 out of a possible 70.

During the afternoon the Canadians held at "At Home" and Lord Strathcona and Mount Royal presented two cups to Col. Tilton, commandant of the Canadians, one of them from himself for the highest aggregate score made by a member of the team, and the other from the Canadian Club for the second highest.

The King's silver medal was won by Chamber, of the Surrey volunteers, with a score of 189.

At the completion of the second stage of the shooting in the contest for the King's prize, the Canadians entitled to compete for a gold medal tomorrow were announced as follows: Gunner Fleming, 179: Lieut. Ogg, 179; C. N. S. McDougall, 178; Sergeant Wilson, 177.

The Kolapore Cup was won by the Motherland with a total score of 759. The Colonial prize in connection with the Kolapore Cup, was won by Canada with a score of 733.

The Philadelphia & Reading Railway Strike at a Critical Stage—The Company Arming.

Reading, Pa., July 19.—The strikers at the Philadelphia and Reading Railway Co.'s shops here added to their ranks in an unexpected manner today.

Last night the company brought in 32 strangers to help man the boiler making and blacksmithing departments of the locomotive shop where 350 mechanics of these two classes have been on strike for three weeks. The recruits, mostly foreigners were given protection at the hands of the company's special police. This morning they were put to work. A committee was sent by the strikers to the company's office to have these men taken out. This demand was refused and before 10 a. m., 175 moulders, machinists and others, many of whom do not belong to the union walked out in a body.

The foreigners were hooted and were marched out of the shop to their temporary quarters on the third floor of the plant, where they occupied a room about 200 by 300 feet in size which has been fitted up for them to live in.

In a case in the building it is said were stored 400 winchester rifles which had been used by the coal and iron police during the riot of 1877, these weapons, it is stated, were taken from the cases and stacked in the room occupied by the imported workmen. The strike has assumed a more critical stage than ever before.

The locomotive shop is now badly crippled.

Driving Out the Hated Foreigner—Torturing Servians.

Constantinople July 19.—Following the graduation of the first Turkish girl at the American girls college, the Turkish government has issued an edict prohibiting Turkish children from attending foreign schools, the employment of christian teachers in turkish households, or the appearance of Turkish ladies in public accompanied by christian women companions.

This edict deprives hundreds of foreign governesses of the means of subsistance.

Bodies of Turkish troops and Albanians are murdering and torturing inhabitants of Servian villages in the neighborhood of Metrovitza. The outrages are alleged to be designed to drive out the Servian settlements possessing a modified independence along the great strategetic road from Metrovitza to Berane.

YACHTING DISASTER

A Squall in Long Island Sound -- Most of the Party Perished.

New Haven, Conn., July 19.—In the squall off Captain's Island yesterday afternoon the sloop yacht Venitzia, of Philadelphia, bound for Newport, was capsized and only two persons are known to have been rescued. On board the yacht were Arthur Coburn and his three daughters, Misses Ida and Annette, and Mrs. Walter T. Spanker, all of Philadelphia. There was only a crew of three men on the boat.

Mrs. Spanker and the steward of the boat were picked up by the tug Gertrude, Capt. T. C. Brown, and brought here this morning. The rest of the party are believed to have been lost.

THE SCAB.

It is hardly possible to imagine a more unenviable position than that occupied by the "scab," particularily during labor troubles or in strike times. The whole community points the finger of scorn at him and he is "sent to coventry" by universal consent. Even those who employ the scab have only passing use for him and discard his services as promptly as possible once the occasion is over.

At a conspiracy trial held in England, the prosecuting conusel gave the following definition of a scab: "A scab is to his trade what a traitor is to his country, and though both may be useful in troublesome times, they are detested by all when peace returns; so when help is needed a scab is the last to contribute assistance and the first to grasp a benefit he never labored to procure. He cares only for himself; he sees not beyond the extent of a day, and for a momentary approbation he would betray friends, family and country; in short, he is a traitor on a small scale, who first sells the journeyman, and is himself afterwards sold in his turn by his employer, until at last he is despised by both and deserted by all. He is an enemy to himself, to the present age, and to all posterity."

The descriptive definition quoted is severe, but every one will agree that while the scab, like the skunk may occupy some position of use in the general arrangement of affiars no one cares to closely cultivate his acquaintance.

In time of war a spy or a deserter is hanged or shot when discovered, and in industrial warfare it is at least permissable to identify and hold up the scab and all his class to public scorn.

Let those defend and uphold the species who will. The community will naturally put the scab and hi defenders in the same category and treat them both alike.

NOTES AND COMMENTS.

Almost every paper in the Kootenays has found words of condemnation for the course which the Miner has seen fit to pursue, and which has been as unwise as unnecessary.—Nanaimo Herald.

The big mines at Rossland, B. C., are in trouble. There's a strike on and the fight promises to be a bitter one. The trouble arose in the smelter at Northport and last week extended to the Le Roi and other mines. The Rossland Miner, which was formerly a warm supporter of the Miners' union and union principles, is now bitterly opposing the union. Mr. F. Aug Heinze of this city was the owner of the Miner, but sold the property some months ago. As soon as Mr. Heinze's interest in the paper ceased it became bitterly anti-union. It is now the official organ of the men who are striving to destroy the Miners' union and reduce wages in the big camp that lies just across the international boundary line. Since the change of ownership and policy of the Rossland Miner the unions have established a newspaper of their own and the Evening World, a bright, spicy little paper, is doing valiant service in behalf of justice and fair play.—Butte Reveille.

The great prizes of modern life are no longer for the men who practice the traditional professions, but by those who begin by working with their hands and end by controlling gigantic industries. The road to million-dollar salaries and royal power in these days is not through the law school or the theological seminary, but through the machine shop and the freight caboose—Philadelphia Post.

Referring to the causes which have led up to the Rossland strike the Nanaimo Herald says:

It is the old story again. The root of the trouble lies in the non-recognition of organized labor. Unions are not always reasonable but in by far the larger number of instances they are and their delagates when met frankly by the employers with reasons why certain demands cannot be granted and the business continue, seldom recommend persistence in those demands. The rare instances in which organized labor has ruined itself and the industry are not arguments agatnst organized labor but are arguments for the establishment of a court of compulsory arbitration the finding of which, satisfactory or not satisfactory, would have to be accepted.

Now that Mr. Macdonald is back from Spokane will he please go into the Le Roi figures published in the World yesterday and tell us if he can where the mistake is. It won't do to pass it on to the directors at this stage. The question is one which involves the managers veracity and good faith.

Russian Conspiracy to Overthrow Republic.

PRINCE LOUIS IS THE MAN

A Remarkable Communication to the Pall Mall Gazette—Event Fixed for September 14.

London, July 19.—The Pall Mall Gazette publishes this afternoon a somewhat remarkable communication from a Paris correspondent giving circumstances and details of an alleged conspiracy to overthrow the French Republic and install Prince Louis Napoleon as emperor of France.

The correspondent is assured that September 14th upon which date the Czar intends to promote Prince Louis to full generalship in the Russian army has been elected as the occasion for a demonstration to support the claims of this prince who is such a close friend of the Russian ally by the elements opposed to the present regime.

The names of M. De Roulede, the marquis de Lur Saluces and M. Marcel Habert are mentioned as the leading spirits of the movement and several big functionaries of the pr sent government are alleged to be assisting the movement with funds.

POLITICAL GATHERING

English Liberal Unionists to Meet Next Month at Blenheim.

London, July 19.—The Duke of Marlborough is about to appear in a new role. There will occur at Blenheim palace, the duke's seat at Woodstock, Oxford, August 10, the largest political demonstration of recent times. Its object is to celebrate the third Unionist victory in the elections.

Three thousand delegates from the Conservative and Liberal Unionist associations throughout the country will be present, while the gathering will number in all about 7000. Mr. Balfour will preside.

All the unionists members of the house of commons have been invited. The palace will be opened for the public inspection and in fact Blenheim will be en fete as it has not been for many years.

The duke said to a representative of the Associated Press:

"No significance is attached to this fete so far as I am concerned I did something similar five years ago, only on a much smaller scale. I thought this would be good for the unionist party, effectively prove its cohesion and the concord which prevails in the party, and also give the leaders a chance of personally thanking their agents and workers, so I asked them all to come to Blenheim."

IRON MINE JUMPED

The "Big Helen" at Michipicoten--Worth Fifteen Million Dollars.

Sault Ste. Marie, July 19.—The "Big Helen" iron mine at Michipicoten, owned by the Clergue syndicate, has been "jumped" by Julius George, a prospector, who restaked the property a few days ago. The mine is estimated to be worth between ten million and fifteen million dollars.

George claims the company has not owned the mine which has been operating it for the past year under a miners license. A patent was applied for but had not been granted at the time of restaking, and George alleges that at the expiration of the proper period the company has not complied with the law and it was therefore an open claim. George re-staked the claim one morning at daylight. Mr. Clergue is in the east.

Senior Fours, final—Western R. C., of St. Louis, first, Wesper, R.C., of Philadelphia, second. Time, 9.09.

Why is This.

A C. P. R. special constable charged with intimidating an Italian by threatening him with a revolver, is committed for trial, and gets bail. A white fisherman charged with being a party to the kidnapping of certain Japanese, and whose preliminary hearing is postponed, is refused bail. There seems to be something wrong somewhere.—Sentinel.

A Hat Combine.

New York, July 19.—The hat firms of the country are now talking combination and should the plans now being discussed materialize, another gigantic corporation will be added to the list. The new company, will, it is said, be called the United Hat Manufacturers of the United States.

A PLAIN STATEMENT.

The Facts of the Case as Presented by the Executive Committee of Rossland Miners' Union, No. 38, W. F. M.

Rossland, B. C., July 12th, 1901.

To the Citizens and Business Men of Rossland and Vicinity and to the General Public:

The business and social interests of a community are so closely interwoven in a community like Rossland, that any dispute among the industrial elements forming the social structure, is often more disastrous to the business or non-combattant class around which the labor and capital elements revolve, than to the actual combattants themselves. Thus both labor and capital are morally obligated to strive to adjust their disputes, to protect the social structure of which they are separate parts.

For this reason this union deems it well to make a careful statement of all the reasons leading us to precipitate this industrial strife at this time. Since the agreement between the big corportations of Rossland and Rossland Miners' Union in April, 1900, this city has apparently enjoyed industrial peace; yet all who are conversant with the industrial affairs of Rossland for the past fifteen months know there has been a secret warfare waged against this Miners' Union, which has been nearly as destructive to the business interests of the community as an open struggle between the two industrial forces, and worse in that there is no apparent end to be seen.

We have given long and careful consideration to this matter and have reached the conclusion that the foundation of the trouble rests on the fact that nearly one-half of the employees in the mines of this community receive about 20 per cent less wages than the same class of labor in surrounding camps, many of which camps have a lower grade of ore and are less favorably situated than Rossland. We believe that it is to continue to enforce this unjust scale of wages that so many annoying practices have been introduced to undermine the prestige of this Miners' Union of Rossland.

First.—An annoying system of espionage and blacklisting by which many of our ablest members have been compelled to seek employment in other localities, althought of unquestioned ability in their trade.

Second.—By revoking a time honored privilege of the Secretary being allowed to solicit members among the non-union employees of the companies who might be off duty on the premises of the companies, a privilege guaranteed us by the last half of Article 15 of the agreement of April, 1900; thus preventing us from refilling our ranks depleted by loss of members compelled to seek employment in other fields.

Third.—By connection with bogus employment agencies seeking to flood the overcrowded labor market with cheap foreign labor.

Finally.—By the largest corporation in this vicinity openly seeking and striving to crush a sister union at Northport, Wash.

We believe all these efforts are mainly to enforce this unjust scale of wages and to prevent all efforts towards an increase. Therefore we have fully resolved that there can be no industrial peace in Rossland and vicinity until this wage question is finally and satisfactorialy settled. Then will this fair city enjoy the prosperity for which nature has so evidently intended it.

For this result we ask the moral aid and support of the many diverse bodies making the general public of this city.

Especially we ask your aid in maintaining order, without which we cannot succeed.

There can be no permanent settlement but a just settlement, and to this end we will use all our power as an organization, and all the assistance of the Western Federation of Miners.

We have right on our side and must surely win.

EXECUTIVE BOARD
ROSSLAND MINERS' UNION No. 38, W. F. M
