FATAL BUTTE FIRE

Pullman Lodging House Entirely Destroyed.

TWO DEAD AND MANY INJURED

Miraculous Escape of Many of the Inmates—An Exploding Lamp Caused The Fire.

Butte, Mont., July 3.—Two dead, two severely, if not fatally injured and a score more or less hurt, is the result of a fire which broke out at the Pullman lodging house, 114 Mercury street, at 2 o'clock this morning.

The dead are: Sam Mix, waiter, Missoula, Mont., and Andole Berg, carpenter, Butte, Montana.

A number of men were experimenting with a gasoline lamp in a saloon on the lower floor of the lodging house when the lamp exploded and scattered flames in all directions.

The lodging house contained about one hundred guests, none of whom were able to save anything except what they wore. Most of them escaped by jumping from first and third story windows and it is miraculous that more were not killed. A number were carried out unconscious by the firemen.

It is not believed that any except the two mentioned perished The pecuniary loss is about $4000 with no insurance.

Loon Lake Excursion.

The Red Mountain railway announces that a special train will leave Rossland at 6:30 a.m., tomorrow, July 4th, for Loon Lake, returning the same evening. Fare for round trip only $2.75. (Children half fare).

Those desiring to attend should arrange to purchase their tickets at the city office or depot this afternoon or evening.

BOUNDARY ORE OUTPUT

Nearly Up to Rossland's Record—174,000 for 1901 So Far.

For the first six months of 1901 the mines of the Boundary country have shipped 174,633 tons of ore. Of this amount 110,257 tons went from Phoenix, more than twice the amount shipped from all other Boundary camps combined. As the month of June is not quite finished the figures are estimated for the last few days, but they are approximately correct.

RECAPITULATION.

Knob Hill group.....	110,257
Mother Lode.....	38,008
B. C. Mine.....	24,868
Other Boundary mines....	1,500
Total for six months..	174,633

These figures may be slightly altered when the returns for the last two or three days of June are in, but they are substantially correct.—Phoenix Pioneer.

Communication.

Editor Evening World.

Tfie smelter management's statement in yesterday's "Spokesman-Review" is so one-sided, if not unfair, that I do trust you will allow me to reply, and will publish it.

In the lime quarry transaction, there were not to exceed thirty union men, who were mixed up with the management's six lime-rock shovellers. The question of shovelling lime-rock was settled before a rock dropped, the scabs agreeing to desist, union men, scabs and detectives all piling on the lime-rock train, singing, laughing and hurrahing, and journeyed back to town, all mixed up and all jolly as sandboys.

By our figures you will see there were five union men on the ground to one scab, and by Manager Kadish's statement, ten union men to one scab, and all mixed up. The chance therefore was five or ten to one, that an union man would be hurt by rock before a scab.

It has been the business of this smelter management to suggest to the public that the union men here, are always doing illegal things, and hence openly state, that the union men rolled down the rocks. It was to the interest of the management to create a disturbance, and bring in deputy-sheriff and militia, as they have threatened to, and this rock account, as viewed by your correspondent looks like a situation hungered for and made by the smelter management.

As regards the lock-out and the strike thereon they both continue. The question is still: "Are the union men American citizens?" The men say yes; the management says they shall be slaves.

As to threats against the life of a foreman by the union, or union men, it is all nonsense. What occurred was non-union, and this foreman may thank the union for a whole skin. When it suits people to tell half a truth, it is so easy to twist matters.

The union men, would be glad to return to work, but it is the smelter management who are still keeping the smelter work down to one furnace, and not the locked-out men.

Yours very truly,
MARK READE,
Vice-President.

HENLEY REGATTA

Attendance Not So Great as in Former Years.

AMERICANS WON FIRST HEAT

Finals for Grand Challenge Cup Tomorrow—An Unfavorable Opinion—Some Other Races.

Henley, July 3.—The regatta began under favorable conditions. The sun was bright and warm and a breeze was blowing on the tow path. The attendance, however, does not equal expectations. Comparatively few American flags or prominent Americans were visible.

"Bob" Cook in his final summary of the Pennsylvania's prospects, said:

"No American crew was ever at Henley with better prospects, they are in splendid condition and confident. They will, in my opinion, meet Leander in the finals, when, I fear the Englishmen will beat them."

For the Grand Challenge Cup: First heat—Leander Epwing Cup beat New College, Oxford, time 7.09.

Second heat—Pennsylvania University beat London Rowing Club by three lengths, time 7.01 2-5.

Ladies' Challenge Plate—First heat—Worcester College, Oxford beat Jesus College, Cambridge, time, 7.17.

In the Diamond Challenge Sculls, First heat—J. Johnson beat A. H. Cloutte. Time, 8.05.

Second heat—G. Ashe beat W. C. Bond, time, 8.45.

SOME TRAIL WINNERS

The Ladies' Race Was a Great Event---The Tug of War.

Among the Rossland prize winners at Trail on Dominion day P. Burns & Co. were awarded the prize for the best decorated float.

The Montana Stables carried off the prize for the best turnout, driven by E. A. Rolf and Oscar Baum.

In the free-for-all race Sleepy Jim, of the Montana Stables, was first and the Trail pony Buttons second.

In the ladies' race a great deal of interest was excited. The result was as follows: First, Sleepy Jim, ridden by Miss Graham; second, Buttons, ridden by Miss Coleman; third, Vici, ridden by Miss Carr.

In the tug of war the War Eagle team were the winners.

The 100-yard foot race for boys under 16 was won by J. Preston.

GOVERNMENT TELEGRAPHS.

It was stated the other day that government ownership of the telegraph in Canada was being seriously considered at Ottawa and that it was probable that in the near future a move in this direction would be made by the Laurier government.

It is only a matter of time when government control of the wires becomes an accomplished fact, since the immense advantages which would accrue to the Dominion at large by such action is too obvious to long delay action.

If the government owned the Canadian telegraph system today the public would be benefited in at least two important particulars. First, the rates would be lowered and communication by wire from end to end of this big Dominion would be easy, cheap and consequently used to a far greater extent than is possible under existing services. In the second place, it would be possible under government ownership ta have a reasonable and proper Canadian Associated Press report covering every 24 hours all over Canada and added to an independent cable system would permit morning and evening papers in Canada to be in proper touch with all important events occurring in the empire. Everyone who reads Canadian papers now, must see clearly what a change a really Canadian Associated Press report would make in the class of news sent out daily for publication and the coloring and framing of the events chronicled.

The matter of government control of the wires is not of course in any sense an experiment, since we have the English precedent to go by. In 1870 the British government took the business and plant of the telegraph companies in the state and the results have been that no one would now advocate a return to the old company method.

In speaking recently at the dinner of the Newspaper society in London, Lord Londonderry referred at length to the remarkable development of newspaper enterprise in Great Britain, which he said was was largely due to the taking over by the state in 1870 of the telegraph companies. After the acquisition of the telegraphs by the state, said his lordship, the reduced rate for the transmission of press telegrams very soon brought aboutan immense increase in the number of such telegrams, and every year since 1870 has seen that increase steadily growing. In 1871 the number of words handed in for transmission amounted to about 22,000,000. In 1873 it had increased to 38,000,000 and in 1900 over 835,000,000 words passed over the wires in the shape of press reports of various kinds. Figures like those given, need no special argument to drive home the plain advantages of government telegraphs.

If the political party now in power at Ottawa should decide to make government ownership of telegraph one of the planks of its platform, that particular policy should, and doubtless would be strongly supported by every newspaper in Canada.

NOTES AND COMMENTS.

"How a Wild-Cat Came to Grief" is the startling headline of a column article in the Vancouver Province of last Wednesday, which graphically portrays the life of a mining company that had its head office in London, England, and its "mines" in British Columbia. The Rossland Miner and the Nelson Miner and the Sandon Mining Review, and the other yelping newspapers of the same breed in the province, will, no doubt, reprint the Province article as further evidence of the inherent rottenness of the mining laws of British Columbia.—Tribune.

People who say there are but few people in Rossland should make a note of the crowd of people who lined both sides of Columbia avenue yesterday to witness the circus parade. There must have beed over 3000 persons looking on.

Ore shipments from the mines that ship from points on Slocan lake (New Denver, Silverton and Slocan) totaled 3078 tons in 1899, 4930 in 1900, and this year, so far, 3300 tons. This indicates, says the Tribune, that mining is making some headway in that particular section of Kootenay; but it is a section in which there are no "blue ruin" newspapers, like the Mining Review of Sandon.

Savages Beaten.

The Centre Star-War Eagle base ball team met their first defeat yesterday when the Smoke Eaters pounded them by a score of thirteen to four.

In the third inning McDonald the pitcher of the Savages sprained his wrist and this in a measure accounted for the score.

In the morning at Trail the Rossland Juniors were defeated by the home Juniors by a score of seven to five.

TO ORGANIZED LABOR.

Montreal Cigar Makers Who Are Now Fighting Organized Labor.

The cigar makers of Montreal realize that organized labor is a potent factor in the Dominion of Canada, and is capable of ameliorating the conditions of the toiling masses if they unite upon a certain line of action, and over 800 cigar makers in the city of Montreal ask organized labor to unite and not smoke cigars made by the firms whose names are set forth in this circular until they grant the modest increase in wages asked for by our 610 women and men whom they locked out over five weeks ago. The following are the firms names and the names of the principal brands of cigars made by them:

A HOT WAVE.

While our friends in the East are crying out against the hot wave and high temperature, we in Rossland are having it very cool; indeed we only have to lookout in the streets and see the ladies still wearing their winter furs; for we admit ladies are always seasonable. Speaking of Hot waves and the rapidity with which they melt snow drifts, reminds us of our great clearing sale; the goods have been leaving our store like snow in a hot wave; it is low prices that is making them go, combined with well selected, up-to-date, reliable goods. Remember this chance is like the snow drift, it will soon be gone. Take advantage of it and get yonr share of some of the great bargains we are offering. You are always welcome at our store.

THE CITY COUNCIL.

Short Session—Mayor Lalonde Indisposed, -New School House.

But little business was transacted at the regular meeting of the city council last evening.

Certain city employes were directed to furnish guarantee company bonds, the city paying the premiums.

The council will accept trusteeship of the $10,000 granted by the the government for a new building provided the plans of the building are approved of by the council.

Mayor Lalonde was absent through indisposition and Alderman Clute occupied the chair.
