New York is permitting of open air sleeping in the parks, owing to the oven like condition of the tenements.

Gross errors have been discovered in the United States treasury department as to the assaying of lead imported from Mexico.

The court martial on the officers of the regular army in what was known as the "Cape ragging case" has ended in their acquittal.

Judge West of Lake Superior and Chief Justice Hunter of this province are both mentioned as likely to succeed Judge Armour on the Alaska boundary dispute.

Our large line of Summer Wash Goods must go, as we do not intend to carry them over. They will be sold at actual cost price. THE CRESCENT.

Moraghan oysters any style at the Palace grill rooms.

Don't forget the hot lunch at the Palace tonight.

The Palace has the only first class bowling alley in the city.

If you want to bowl try the Alhambra. Best alley in the city.

Don't forget the hot lunch at the Palace tonight.

The Belcher.

The Belcher mining company is preparing to erect a 50-ton Vulcan smelter on Lambert creek, Boundary, for the treatment of Belcher and Hawkeye ores. The first furnace installed will be designed as a unit of a 250-ton plant, to be complete later. The ores have been thoroughly tested and there is no question as to the successful operation of the plant. Belcher ore carries a high percentage of sulphur; the Hawkeye ore contains sufficient silica to flux the ores of both mines mixed. The ores are practically free from arsenic, and but little coke will be necessary. The process is comparatively simple and the cost of treatment will be very low.

Great bargains can be had in Ladies' Summer Suits. We have only a few left. They will go below cost. THE CRESCENT.

FEAR CONSEQUENCES

Cable Companies Materially Reducing Imperial Rates.

London, July 14.—Cable rates between India and Europe having been reduced in March, 1902, substantial reductions have now been made in the rates between India and Australia and the Pacific Islands. The charge for private messages from India to Australia has been lowered from 4s. 8d. per word to 2s. 6d. per word, the additional 2d. (two annas) per word charged for messages from offices in Burma being abolished. The rate to Tasmania, hitherto 3d. more than to Australia, is reduced to half-a-crown.

Other reductions are: To New Zealand, from 5s. per word to 2s. 10d.; to New Caledonia, from 5s. 4d. to 3s. 3d.; to Fiji, from 5s. 3d. to 3s. 1d.; to Norfolk Island, from 4s. 10d. to 2s. 8d.; to Fanning Island, from 6s. 8d. to 4s. 2d. The rates for British Government telegrams to all the places named are uniformly reduced to the extent of 10d. per word, and for French government telegrams to the extent of 9d. per word. Press messages from India to Australia or Tasmania will now only cost 11d. per word, to New Zealand 1s. 1d. and to New Caledonia 1s. 3d.

Ladies' and Children's Sailor Hats going at cost. Prices ranging from 40c to 95c. The Crescent

WANTED—A situation as watchman by an elderly man. Salary not considered. Address this office.

The Waterloo

The last car of ore from the Waterloo, Camp McKinney, netted \$3500 dollars, and the mine will shortly enter upon a dividend paying period. It is estimated that the cleanup for the month ending July 15th will be from \$8000 to \$10,000.

To clear out our stock in Shoes we are offering them at \$1.00 per pair; worth from \$1.50 to \$4.00. THE CRESCENT.

The merchants' lunch at the Palace tomorrow will be a dandy.

A Reception

A reception will be held in honor of Mrs. Hollister, Supreme Commander of the Ladies of the Maccabees, in the parlor of the Hotel Allan, from one to two o'clock, Thursday afternoon. All ministers of the gospel, teachers, members of all fraternities, particularly the Eastern Star and Rebekahs, of which Mrs. Hollister is a member, and the public generally, rich, poor, old and young are invited to meet her.

Private dining rooms for ladies at the Palace.

The Morrison

The ore on the dump of the Morrison mine, Deadwood camp, has been hauled to the railway and shipped to the Greenwood smelter. The Ah There dump, near the Morrison, is being treated the same way.

McBRIDE VISITS CAMP

Makes a Speech to a Select Few in the Campaign Rooms.

Premier R. McBride came into camp last night and went away this morning. He was met at the station by a few Conservative friends and went with them to the Conservative Committee rooms where he made them a speech which is stated not to have promised much beyond generalities.

Rossland would have liked the premier to have got out on the public platform where the camp would have given him that good hearing which is due him on account of his position and on account of his personal popularity which he is stated to enjoy at the coast.

As it was few people round camp saw him at all and would be inclined to listen all the more to the reports which are being circulated to his disadvantage were it not that the Miner this morning came out and "damned him with faint praise."

Our lines of Ladies' Shoes are all well known, viz: King Quality, Sorosis, North Star, Laird, Schober, Utz & Dunn, Geo. A. Slater, etc. You are invited to come and see the latest arrivals. C. O. LALONDE.

Republic Shipments

The ore shipments from Republic to the Granby, Hall, Tacoma and Crofton smelters for the six months ending June 30, 1903 aggregated a total of 371 cars. The average per car was 30 tons. This brings the tonnage up to 11,730 or 1950 tons per month. Of the total tonnage 4380 tons were shipped in June, which is most gratifying as it shows the strides that are being made in the ore production of the camp.

Make your own selection and set your own price on Wall Paper at Daniel & Arthur, 38 Columbia avenue.

We have a full stock of "Amoskeag" Gingham for Aprons. Fast colors and all sizes of checks at 10c per yard. THE CRESCENT.

We have the greatest assortment and best values in Miners' Shoes in the city. C. O. LALONDE.

TOUGHS ARE PARAMOUNT

Camp Is Losing Its Old Reputation.

YESTERDAY'S CRIME FESTIVAL

Burglaries, Shooting, Stabbing and Private Revenge Now the Recognized News.

Really Rossland is getting quite interesting. In face of the worthy mayor's remarks, lately publicly made in the city council, as to the moral elevation of the camp, for which he held himself mainly responsible, during his term of office, it is disheartening to read the records of the police department of late. Public lawlessness is certainly gaining a headway which it never before obtained in the city. Last night a patrolman was observed dragging a drunken man along Columbia avenue, lying prostrate on the ground by a braceleted wrist as if he were a beast and not a human being. Other drunks were also incarcerated; a waitress gets indignant at the attentions of a too fresh admirer and lays him out with a bottle. Hit the wrong man too, they say. Three burglaries are recorded within the week and the burglars are still at large. Biting and gouging were introduced here last month, and last night gun play was naturally in order on Columbia avenue. One Gleason had an altercation with a miner named Martial, and drew a gun upon him on the viaduct on West Columbia avenue. The gun play had no effect luckily, and it is alleged that the assailed chased the offender with a knife. Patrolman Stewart appeared upon the scene, armed, and promptly judged both offenders. Within a short time another row occurred at the Central, John McKinnon got into a fuss with a Finn named Otto Jackson who whipped out a knife and struck McKinnon in the lower part of abdomen. McKinnon had an operation performed on him this morning and was removed to the hospital. The serious cases were all remanded this morning, that is to say all the police captured and the camp if watching for the next development.

The toughs round town are by no means disheartened. At the worst they expect to get off with a few days confinement in a private sitting room back of the city hall, where their friends can send them bouquets and hotel meals.

In view of our late moral improvement, mayorally announced, the state of things is really very disheartening.

Moraghan oysters any style at the Palace grill rooms.

BRITAIN AND FRANCE

The visit of M. Loubet, the French President, to London, says the Vancouver News Advertiser, completes the round of official courtesies between the two nations that was opened by the visit of King Edward to Paris. On all hands it is admitted that the visit of the British sovereign to France was a happy idea and was completely successful through the tact and courtesy displayed by him. The King is a thorough "man of the world," and his speeches at the different public functions in which he took part at the French capital were admirable and adroit. They had nothing of that effusiveness about them for which the speeches of the German Emperor are sometimes criticised. But they were felt by those to whom they were addressed to be sincere and to accurately depict the feelings and views of the speaker and from the references to them in the French journals of nearly all shades of opinion, they evoked a sympathetic response from the best element in France. It was not a fact that he received such an enthusiastic popular welcome as was accorded to the Tsar of Russia. It would have been surprising and unexpected had it been otherwise. In the Tsar the French recognised an ally and there is no doubt that the Franco-Russian alliance is still very popular in France, although impartial observers may think that Russia and not France is the country which derives the substantial benefit from the Dual Alliance. In King Edward the Parisians saw the chief of a nation with whom their relations had been strained of late years, and on more occasions actually critical. While well affected to the King personally, the people maintained a certain dignity and reserve in the way in which they welcomed him. But before the visit of three days was concluded, this attitude towards the King had much changed. The courage he displayed in appearing on the streets at the risk of meeting popular manifestations of an unfriendly character, produced a great impression and in both countries it is realised that the King's visit has done much to bring about a return of a more friendly feeling between the two peoples. The proof of this, as far as the British people are concerned, has been afforded in the heartiness of the welcome given to M. Loubet whenever he appeared in London, and French amour propre has been gratified at the respect paid to the head of the Republic on the other side of the Channel.

THE WATER SUPPLY.

One of the points to be brought up at this evening's meeting of the council is that of a proposal to connect the lower water tank of the Le Roi with the city main along Kootenay avenue. The job would not be a very costly one, some \$400

probably covering the whole thing. It was taken up by the council last week, but encountering some opposition was laid over for today. The advantages claimed for the pipe line are threefold. In the first place it would help the city in case of a conflagration in the neighborhood of the houses near the Black Bear. This would be done by connecting the lower tank of the Le Roi, which is situated at the Black Bear and which is again connected with the upper tank back of the house which was known as Colonel Peyton's, but is now occupied by the superintendent of mine. By cutting off the supply from the main on Kootenay avenue at the time of fire, it is claimed that a greater head of water could be available for a short time to help putting out any conflagration one that might be dangerous before it could gather any headway. The second advantage would be that the boilers of the Le Roi would be ensured of a perennial supply of water from the city and thirdly the Le Roi No. 2 could use the flume from Sheep creek, now bringing water to the Le Roi, for concentrating purposes. The objection raised was that there would be no revenue derivable from the construction of such a pipe, and further that even if its construction was advisable on other grounds, it would be better to wait awhile and see how the city taxes were coming in before launching into any fresh expenditure. In taking this ground the Chairman of the Finance Committee did well, but it must be remembered that upon the other hand the dry season is approaching, and that the pipe, if now built, might be of great service. Further that a revenue is certainly derivable from its construction, inasmuch as the Le Roi and the Le Roi No. 2 would, by some mutual arrangement between themselves, pay for that water. Indeed there is no doubt that the latter would gladly pay for the pipe itself, were the city council stiff backed enough to assure them that there should be no interference on the part of the War Eagle with water supplied by the city for industrial purposes. Therein lies the great objection to the whole scheme. The War Eagle might take it as a peg to hang a lawsuit upon. But it must be borne in mind that while the city council is hanging fire over this water question, the problem of concentration for the camp is held unsettled. The White Bear may be forced by their indecision to go down to Trail, and the Le Roi No. 2 compelled at a later date to take their larger plant down to the same place. It seems to the WORLD that it would be a good thing for the council to build the pipe line, the expense of which, after all, would be borne by the revenue arising out of the profits of the water department, which are yearly used on capital account, or, if the council would make the necessary guarantee, doubtless by one of the mines themselves. Undoubtedly the water thus supplied, were it used for the boilers of the Le Roi or for the concentrator of the Le Roi No. 2, would be supplied for industrial purposes. It would then be up to Manager Kirby to fight the case and, according to the opinion of the best legal talent in this camp, and judging by the experience of Nelson, he would not have a legal leg to stand on. It is far better that the question were settled in this manner than

Shirt waists and dainty linen are made delightfully clean and fresh with Sunlight Soap.

that the War Eagle at some future date should hang up a great reduction plant while it was leisurely, the more leisurely the better for the War Eagle, debating the question of intricate water records and the meaning of the Water Act as applied to its municipal uses. For if the War Eagle lets this go by default it has no case hereafter.

PROGRESSIVE PLATFORM

1. No candidate will be accepted or endorsed by the party unless endorsing the platform and placing his undated resignation in the hands of the endorsing body.
2. Government ownership of transportation.
3. Compulsory arbitration of labor disputes.
4. Absolute reservation of portions of coal lands by the government. Coal leases must have a clause inserted governing coal prices.
5. Conservation of forests so as to produce a revenue and to promote the pulp industry.
6. Insertion of a clause in all charters forbidding the employment of Orientals.
7. Compulsory scaling of all logs by government scalers.
8. Free transportation to members of the legislatures and the judiciary.
9. Gradual abolition of all taxes upon producers and their products, shifting the burden on land values.
10. Restriction of Oriental immigration on the lines of the Natal Act with a provision for reenactment in case of disallowance.
11. The abolition of property qualifications or public officers.
12. The establishment and operation of government melters and refineries.
13. All franchises and subsidies to be referred to the electorate.
14. Declaration of election day as a public holiday, with four hours reserved in any case, so as to allow all employes an opportunity of voting.
15. Farm lands and implements to be exempt from taxation and wild lands to be assessed at the price asked by holders.
16. No land subsidies to be granted.
17. Ten per cent of public lands to be set aside for a revenue for education and that children up to 16 years be given free books and meals and clothing when necessary.
18. Municipalization and public control of the liquor traffic.

AN OBJECT LESSON

Nelson's Finances for Past Six Months.

PUBLIC OWNERSHIP FRANCHISES

City of the Lake Shows the Advantage of Municipal Enterprise.

The following figures, taken from the Nelson Tribune, give an excellent idea of what is being done by the municipality of Nelson, and ought to form an instructive picture to our municipal council. It will be seen at a glance that the taxes on real estate form but 18 per cent of the total revenue, whereas revenue arising from municipal enterprise such as water, light, scavenging, sewer, cemetery, weighing and measuring total 58 per cent. The Nelson property owner cannot say that on his back are all the burdens, but the Nelson property owner has been wise enough to see that no grafts in the way of the giving away of public franchises have been run in upon the city.

It will be noted that the schools are cheaper than they are here and that the grant on the other hand is but half that which Rossland receives. The salaries do not out so large a figure, nor are health officers and city solicitors so prominently on the disbursements.

Mayor Dean has been in office six months. It is time he showed up his balance sheet and let Rossland know where it is at. Is he ashamed of it?

"Six months of the year 1903 have passed, and the city treasurer has prepared a statement of the city's receipts and expenditures for that time.

"The financial statement below, when compared with the first six months of last year, shows very clearly that the city business affairs are being carefully and economically managed.

Sinking fund, 1902	11,700 00
	\$47,808 41

For the first six months in 1902, the receipts were \$34,218.38, or \$6,515.83 less than the six months of this year. The disbursements for the same period last year were \$50,246.15, or \$2,437.74 in excess of this year's. Last year not a dollar was placed in the sinking fund, all of which (\$11,700) was placed in the sinking fund this year, which if deducted from the expenditures shows that the actual expenditures for the first six months this year have been \$14,137.74 less than during the same time last year.

The Palace has the only first-class bowling alley in the city.

CONSERVATIVE PLATFORM

(Adopted at Revelstoke, September 13th, 1902.)

1. That this convention reaffirms the policy of the party in matters of provincial roads and trails; the ownership and control of railways and the development of the agricultural resources of the province as laid down in the platform adopted in October, 1899, which is as follows:
 - "To actively aid in the construction of trails throughout the undeveloped portions of the province and the building of provincial trunk roads of public necessity."
 - "To adopt the principles of government ownership of railways in so far as the circumstances of the province will admit, and the adoption of the principle that no bonus should be granted to any railway company which does not give the government of the province control of rates over lines bonused, together with the option of purchase."
 - "To actively assist by state aid in the development of the agricultural resources of the province."
2. That in the meantime and until the railway policy above set forth can be accomplished, a general railway act be passed, giving freedom to construct railways under certain approved regulations, analogous to the system that has resulted in such extensive railway construction in the United States, with so much advantage to trade and commerce.
3. That to encourage the mining industry, the taxation of metalliferous mines should be on the basis of percentage on the net profits.
4. That the government ownership of telephone systems should be brought about as a first step in the acquisition of public utilities.
5. That a portion of every coal area, hereafter to be disposed of should be reserved from sale or lease, so that state owned mines may be easily accessible, if their operation becomes necessary or advisable.
6. That in the pulp land leases provision should be made for reforestation and that steps should be taken for the general preservation of forests to prevent the wasteful destruction of timber.
7. That the legislature and government of the province should persevere in the effort to secure the exclusion of Asiatic labor.
8. That the matter of better terms in the way of subsidy and appropriations for the province should be vigorously pressed upon the Dominion government.
9. That the silver-lead industries of the province be fostered and encouraged by the imposition of increased customs duties on lead and lead products imported into Canada, and that the Conservative members of the Dominion House be urged to support any motion introduced for such a purpose.
10. That as industrial disputes almost invariably result in great loss and injury both to the parties directly concerned and to the public, legislation should be passed to provide means for an amicable adjustment of such disputes between employers and employees.
11. That it is advisable to foster the manufacture of the raw products of the province within the province as far as practicable by means of taxation on the said raw products, subject to rebate in the same in whole or part when manufactured in British Columbia.

Conservative Conventions

At a meeting of the executive of the Provincial Conservative Association, held at Vancouver, the province was divided into five divisions for organization purposes. The Kootenay-Boundary division is made up of the following electoral districts: Kamloops, Kelowna, Columbia, Fernie, Cranbrook, Ymir, Kaslo, Sloco, Grand Forks, Greenwood, the City of Rossland and the City of Nelson. At the same meeting the following resolutions were adopted:

1. That conventions for nominating candidates for members of the legislative assembly be made up of delegates chosen as follows:
 - (a) In city electoral districts, one delegate for every fifty or fraction of fifty votes polled at the provincial election held in 1902, and if the city is divided into wards, the proportion of delegates for each ward shall be based on the vote polled in each ward at the last municipal election.
 - (b) In other electoral districts, one delegate for every fifty or fraction of fifty votes polled at the provincial election held in 1902, the delegates to be apportioned to polling places, or as near thereto as will be fair to the voters of the different neighborhoods.
2. The election of delegates shall be at public meetings, held at a designated central place in each polling division, or in each ward in city electoral districts, if the city is divided into wards. At such public meetings only those who pledge themselves to vote for the candidate or candidates selected at the nominating convention shall be entitled to a vote for delegates.
3. Two weeks notice shall be given of the public meetings at which delegates are to be elected, and nominating conventions shall be held in city electoral districts two days after the day on which delegates are elected, and in other electoral districts seven days after. All nominations throughout the province to be made at a designated central place in each electoral district, and on the same day.
4. All notices of the date of public meetings for the election of delegates to nominating conventions, the apportionment of delegates, and the place and date of nominating conventions in the several electoral districts, shall be prepared by the member of the executive of the division in which the electoral districts are situated, and issued under the names of the president and secretary of the Provincial Conservative Association.

A meeting of the provincial executive will be held at Vancouver within a month, and the date for holding district nominating conventions will then be fixed.

JOHN HOUSTON,
President of the Provincial Conservative Association
Nelson, June 8th, 1903.

SIMILKAMEEN CITY, B. C.

Now Is the Time to Buy Lots in Similkameen City, B. C.

CAMP HEDLEY is the most talked of camp in the province, and situated in the centre is Similkameen City, surrounded by rich mines which will shortly have large payrolls. Over 200 lots have been sold to business people who realize that Similkameen will become the metropolis of this district. The Nickel Plate mines have expended \$300,000 in development and are at present building tramways and a 40-stamp mill. Arrangements are being made for the erection of a large smelter at Similkameen City which will cost about a million dollars. Besides the Nickel Plate group of claims being developed by one of the richest mining companies in North America, there are several other groups and properties which will shortly be developed, among them being the Kingston Mines, Rollo, Wellington, Winnipeg, Red Chief and Pollock. Situated as it is in the beautiful Similkameen valley, midway between Princeton and Keremeos, and protected from all opposition in the valley by adjoining a large Indian reservation, this townsite will become one of the principal mining camps of the Pacific Northwest. It was only a short time ago that lots in Rossland, Nelson, Greenwood and other mining centres were selling for the same price that they are today being sold for in Similkameen. Come in before the boom and double your money.

Similkameen City to Have Two Railways.

The Victoria, Vancouver & Eastern and the Canadian Pacific railways are starting immediate construction for the Similkameen, which will make this town a railroad centre and divisional point, and when these competing lines are completed through to the Pacific coast they will become the main through lines, being the shortest route from the interior to the coast. A large sawmill is running steadily on the west addition, the only available timber for miles around. The main street is 90 feet wide, being all cleared and ready for building purposes. All railways, roads, telegraph and telephone lines will have to come through this townsite, which is located in the centre of the whole Similkameen valley and will become the largest distributing point and mining centre in British Columbia.

Similkameen City Lots Will Make You Rich.

A large agricultural area to draw from. Pure water, fine climate, rich mines, big payrolls.

Lots for Sale \$2 to \$10 Per Front Foot. Agents in All Towns in B. C.

For further particulars apply to

Lacrosse Captain Summers announces that there will be practice every Monday, Wednesday and Friday of each week at 6.30 o'clock.

McClosky, the blind entertainer, had a favorable reception on last night at the Miners' Union hall despite the numerous counter attractions.

Mr. and Mrs. C. M. Oliver and family are leaving tomorrow for the east on a well earned vacation. They will probably not return until the fall.

John Breenahan B. C. Kingsbury, mining men of Spokane who have been in the city for several days, left this morning over the Great Northern.

There will be a public initiation at the Miners Union hall on Thursday afternoon at 2.30 o'clock when Lillian M. Hollister, the Chief of the Order of the Maccabees will be present.

The Board of Trade want legal expenses reduced. The president, A. H. McNeill, while doubtless agreeing, does not coincide evidently with the modus operandi recommended by the laymen.

Mrs. Alex Trembley has just opened her new Dyeing and Cleaning Store in the Ottawa House on Washington street and wishes all her old customers to call. Work done promptly.

NELSON NOT GUILTY.

Nothing to Do With the Spelling of Lardo

The name of the district in which Camborne is situate should be changed from Lardeau to Fish River, and the name of the district in which Trout Lake and Ferguson are situate should be named Trout Lake. Before mineral was discovered in paying quantities, the country on Fish creek and around Trout lake was known as "Lardeau," and the only way of reaching it was from Revelstoke via the east arm of Upper Arrow lake. In 1892, G. B. Nagle, who has made his headquarters in Revelstoke for a dozen years, purchased a piece of land at the head of Kootenay lake, not far from the mouth of Lardeaux river, and started a townsite which he named Lardo.

About the same time, if we are not mistaken, James M. Kellie, who also makes his headquarters at Revelstoke, secured an interest in a piece of land at the head of the east arm of Upper Arrow lake for a townsite, and christened it Lardeau. From this it would appear that the original spelling of the word Lardeax was changed in both instances by men who made their home at Revelstoke. Since then the people on Kootenay lake spell the word Lardo and those of Revelstoke spell it Lardeau. A map issued by the provincial government in 1895 shows the town of Lardeau on the east arm of Upper Arrow lake and the town of Lardo at the upper end of Kootenay lake. It also shows a Lardo creek emptying into the upper or western end of Trout lake, and the Lardo river, running from that lake to Kootenay lake. The only object the Tribune has in referring to the matter is to show that no one in Nelson had anything whatever to do with changing the spelling of the word Lardeaux.—Nelson Tribune.
