**Steamer City of Seattle
Brings Treasure.**

SIX HUNDRED THOUSAND GOLD

Consignment For Seattle Assay
Office From Bank of Commerce
—Crowd Going to Nome.

Seattle, July 8.—The steamer City of Seattle has arrived from Lynn Canal with a Klondike treasure cargo of \$600,000, all save \$100,000 being consigned by the Canadian Bank of Commerce to the United States assay office in this city.

William Wachter, a cattle trader and Mr. Lee, a miner, had \$50,000 in dust, the Klondike crowd left Dawson on June 29. At that time nearly every producing claim in the district was being worked and the government had 500 men employed in the construction of roads of the greatest gold producing stream in the district.

About 1,000 people are said to have left the Klondike for Nome and the Koyuk since the river opened.

English Wheat.

WHILE INSANE.

A Nova Scotia Tragedy This Morning
Kills His Three Children.

Lockport, N. S., July 8.—Sidney Lock, while temporarily insane this morning, shot his three children Ruby, aged 14, Howard 11, and Ermine S. Ruby and Ermine died almost instantly. Howard fatally wounded died an hour afterwards.

NORTHPORT SITUATION

**Alien Laborers Will Not
Work--Join the Men--
No Progress Made.**

Notwithstanding Bernard MacDonald's protestations to the contrary in the Spokesman-Review and in his own publication, the Miner, the Le Roi smelter management have been on a still hunt as far south as San Francisco to induce scab laborers to come and work the Northport plant.

Yesterday a smelter superintendent returned from his lengthy quest to the south, with some fifteen men that he had managed to coax to Northport by glowing promises.

There was a good deal of excitement when the train pulled in yesterday and the car was run right into the smelter grounds.

When six of the party had the situation explained to them they promptly refused to remain at the smelter boarding houses, reviled the man who had brought them up north under false pretenses and walking to union head quarters applied for membership saying that they would not fight against their fellow workmen and their wives and little ones.

This morning the balance of the party left the smelter grounds and joined the union men.

A great deal of indignation was expressed at the fraudulent scheme by which the last arrivals had been induced to come away up north.

Practically only one furnace is lighted and little or no work is being done.

The union men are quiet, and confident that the assault against unionism will be shortly dropped.

The latest news from the seat of war this afternoon is that the smelter started up today one furnace, after a thirteen hour freeze-up.

A BRAVE ENGINEER

**Driver Nodwell Saves His
Fireman and Passengers
and Finds Heroic End.**

Norton, N. B., July 8.—The engine on the passenger train of the Central railway plunged through a bridge at Wasson Brook on Saturday morning and driver Nodwell was fatally injured, dying from his injuries five hours later. Nodwell noticing that the bridge had been burned, reversed, told the fireman to jump, but stuck to his post and went down with the locomotive. He was terribly scalded and burned and received severe bodily injuries. None of the passengers were hurt.

AN EARTHQUAKE

**Landslides and Floods at
Lung Keng.**

CARRY EVERYTHING BEFORE

**Robbers in Wang Tang Kidnapping
Women to Make Money—A Bud-
hist Monk Caged at Canton.**

Tacoma, July 8.—Canton mail advices gave details of a loss of 300 lives caused by a landslide and flood, occurring at Lung Keng in June.

The landslide was caused by a tremendous earthquake. Accounts state that a great flood of water poured out of the mountains carrying everything before it. Two hundred houses were swept away and the fields swept bare of crops. Several great landslides occurred, carrying a large portion of Lung Keng into the bay. What appeared like a tidal wave, made it impossible for any who were carried into the water to escape.

Robbers in Wang Tung provinces are kidnapping people to realize money. Dozens of women and children have been abducted. A Buddhist monk, convicted of harboring kidnappers is being publicly exhibited in a cage at Canton. Six kidnapped women were found in a convent.

John Birnie Dead.

Collingwood, July 8.—John Birnie, one of Collingwood's best known and oldest citizens, is dead, aged 87.

FIRST DAY'S YACHT RACE

**An Overwhelming Defeat
for Lawson's Yacht
Independence.**

Newport, R. I., July 8.—An unqualified victory for the Constitution—an overwhelming defeat for the Independence, a most commendable showing for the old champion, the Columbia—is the record of the first day's contest of the big sloops in the Newport Racing association series.

The London correspondent of the Tribunesays. Although chary of drawing any final deductions from the telegraphed reports of Saturday's yacht race, the opinion in London is that the Independence is no match for the Hereshoff boats.

If she is as much slower as the race indicates Mr. Lawson's protest against the exclusive action of the New York Yacht club will find new supporters in London, nor will there be any disappointment at the failure of a boat of such an undesirable type.

RACES YESTERDAY.

Not a Very Large Turnout—The Winners—Entries Were Small.

There was not a large turnout at the Sunnyside meeting yesterday afternoon despite the favorable weather. Several of the entries did not turn up and contests were not very exciting.

Miss Miller won the three-eights mile race in two heats Junot, landed the half-mile and McCaslen and Carr's nomination the pony race.

Boers Burn a Town.

London, July 8.—A special dispatch from Cape Town dated today says Scheepers Boer Commando has entered Murraysburg, Cape Colony, and burned the public buildings and residences. The town was not garrisoned.

Murraysburg is situated in about the centre of Cape Colony, not far from the railroad leading from Cape Town to Kimberley and 245 miles from Algoa Bay.

Boer Losses.

London, July 8.—The financial secretary of the war office Lord Stanley, in the house of commons today, in answer to a question, gave the total number of Boers killed, wounded or made prisoners from among the active commandos, as follows:

March 1,472, April 2,434, May 2,640, June incomplete 538.

AMERICAN STEEL CO.

**Danger of a General Strike
--Dismissed Men Must
Be Reinstated.**

Pittsburg, July 8.—In the pre-emptory dismissal on Saturday of twelve members of the amalgamated association at the Wellsville Plant the American Steel company may seriously affect the expected settlement this week of the iron and steel strike. When seen this morning, President Schafer of the Amalgamated association said: "I cannot say when or where the conference will take place, but one thing is certain there will be no conference until the men discharged at Wellsville are reinstated. They violated no law of the land, and we shall protect them. If they are not reinstated and the conference postponed, a general strike will come."

AT BISLEY

Forty Second Meeting Opened This Morning With Fine Weather.

London, July 8.—The forty second annual meeting of the National Rifle association opened at Bisley today in brilliant weather. The entries generally are satisfactory but there is a notable absence of colonials, Canada alone furnishing a full team. The events decided today are unimportant.

THE MINES ARE WORKING

**The Le Roi Started This
Morning and All Others
Are Busy.**

An enquiry at the office of the Le Roi Mining company this afternoon elicited the fact that the Le Roi men went back to work this morning as usual.

"We are giving work to men as fast as they apply," said an official of the company "we will work about the same number, as before the shut-down, for the present in any case."

No ore shipments from the Le Roi group were sent out today but a train load is being got ready and will go down the first thing tomorrow.

THE FOLLY OF IT.

The Evening World does not believe that union men or the American colony resident here require any pointers in order to grasp thoroughly, the latest insults thrown at them by the Rossland Daily Miner.

We have too high an opinion of the average intellectual ability of the men we have with us in this country, to think that by any possibility they could be misled by such wanton and uncalled for attacks as appeared all through the columns of the morning paper yesterday.

It is difficult to understand how any sane man could hope to influence a reading and thinking community such as this camp is largely composed of, by publishing a lengthy fairy story directed against the broad principles of unionism, taken from the New York Sun, and dressed with such kindly headlines as appeared in yesterday's Miner.

Any novice in newspaper work knows the position of the New York Sun on unionism, knows that the battle of this seab publication which was temporarily settled some time ago, has broken out afresh and that its columns daily contain imaginary stories, all framed for its unfair fight against unionism.

The powerful intellect which followed the lead of the New York Sun is also responsible for the pleasing editorial against unionism handed out to all working miners by the Miner yesterday, and here again it is quite unnecessary to answer any of the wild assertions made by the Mine Managers' Association through their editor. It is quite understandable that the managers should object strenuously to the union's policy of excluding paid spotters from the inner circle and of conducting its affairs on a strictly business basis, keeping its opponents guessing at developments. The chagrin and rage which appeared in every line of the editorial-to-order yesterday is an eloquent tribute to the undoubted wisdom of the policy mentioned.

The unkind reference to our American residents with whom we have always lived in perfect good will until the arrival of this marplot from Nelson, need not disturb anyone's equanimity. The Miner's effort to set nationality against nationality equally with its attempt to set class against class and to stir up strife in labor circles can have only one ending. Unquestionably it will work ruin and disaster to the newspaper in question, kill its circulation, play havoc with its advertising patronage, and render it comparatively useless for its campaign against the principles of unionism.

The attack is stupidly brutal in its frankness, and will deceive no one. It will only serve to drive all the laboring class together for self-protection as it must abundantly clear what are the only motives behind such a policy as the Rossland Daily Miner has now declared for.

NOTES AND COMMENTS.

Some months ago a New York judge fined a striker for making faces at a seab who took his place. Now the New York jurist has been eclipsed by one over in Jersey City, who has enjoined some girl strikers from making faces at the women who are filling their situations. The way of the workers is a hard one when they are compelled by

law to regulate their countenances. —Greenwood Miner.

"By a singular co-incidence the Kamloops Standard discussed editorially on almost the same day as did the Rossland Miner the question of the unwisdom of Canadian workmen affiliating with alien labor organizations."—Rossland Miner. No; the co-incidence is neither strange nor singular, everyone knows of the growing list of British Columbia newspapers which is now under the control of Chief Editor Tolmie and his association. The Miner and the Standard are merely two of the string. "That is all there is about it."

THE LATE CHANCELLOR

Press Comments—M. de
Blowitz's Story—The
German Emperor.

London, July 8.—By far the most interesting comments upon the career of Prince Von Hohenlohe, many columns of which appear in London morning papers, are those of the Times whose Paris correspondent, M. de Blowitz, makes important revelations regarding the dead statesman. Among many confidential letters and conversations attributed him while imperial chancellor is the following summary of his estimate of Emperor William.

"His greatest failing is that he does not think there are any limits to his will. It is almost impossible to tell before hand where he will be and what he will do. It often happens that weeks pass without my seeing him. Then he suddenly appears and I am amazed at his knowledge of the details of what is going on."

Regarding Emperor William's famous telegram to Mr. Kruger at the time of the Jamesonraid, Prince Von Hohenlohe said: "If the Emperor had known that Jameson had so many sons of respectable English families with him he would not have sent the telegram. He thought Jameson had only filibusters with him, and that it was an act of brigandage."

"On his appointment to the imperial chancellorship he wrote as follows:

"I know what a burden I am taking upon my shoulders I hope for nothing and am resigned to everything."

BIG FOUR.

Annual Meeting—Election of Directors—
Future Plans.

At the second annual meeting of the Big Four company held at the head office in this city the following officers and directors were elected: Thos. Alexander Cameron, chairman; Gordon Logan, vice-chairman and assistant secretary; Younger Lawler, second vice-chairman and treasurer; James Lawler, secretary and general manager, all of Rossland, B. C.; J. G. Fields, of Quebec, and Alexander Sinclair-Edinburgh, Scotland. There were 97 per cent. of the shares represented.

In his report Manager Lawler says: "The company has decided, owing to the nature of the ground in No. 2 vein, and to forward the work more rapidly, to put in machinery at once. Prices and figures have been obtained for various sizes of compressors, etc. A four drill compressor, with hoist and pump complete, can be put in for \$1300, and a seven-drill plant, with all modern improvements and a boiler of from 40 to 80 horse-power, can be had for \$2500 and upwards and would be permanent for years to come. The controlling management will contribute one-half the amount themselves if the 525 shareholders and their friends will purchase our treasury shares at a reasonable figure to pay for the other half. Prospectuses with prices and map can be sent to any address. Our last issue of treasury shares was sold at 10 cents."

The inspectors of Metalliferous Mines are hereby assigned the following as their respective Inspection Districts with headquarters as noted. Such assignment to take place from June 15th, 1901, until further notice.

ARCHIBALD DICK, Inspector.
Headquarters, Cranbrook, office of Deputy Mining Recorder.
Inspection District shall comprise all of East Kootenay and also Goat River Mining Division of West Kootenay.

In addition to the duties of Inspector of Metalliferous Mines, Mr. Dick will also act as Inspector of Coal Mines within the same District.

JAMES MCGREGOR, Inspector.
Headquarters, office of Mining Recorder, Nelson.
Inspection District shall comprise all of West Kootenay except Goat River Mining Division, and also the Grand Forks and Kettle River Mining Divisions of Yale District.

THOMAS MORGAN, Inspector.
Headquarters, Government Buildings, Nanaimo.
Inspection District, Vancouver Island and Coast District.

Mr. Morgan is also Inspector of Coal Mines for this District.

Notice is hereby given of such Inspection Districts and that in accordance with the "Inspection of Metalliferous Mines Act, 1897," and Amending Acts, notice of accidents to employees happening within any of such districts must be promptly reported both to the Inspector of such District and also to the Minister of Mines, Victoria.

In mines not included in the above Districts managers will report, in duplicate, to the Minister of Mines direct, who, if he considers it necessary, will assign an Inspector to specially report.

Blank forms upon which to make reports of such accidents may be obtained from the Inspector of the District, from the Mining Recorder, or upon application to this office.

Editor EVENING WORLD:

Sir—The misleading article which appeared in the Rossland Miner of July 7th is without doubt the most unjust piece of black-mailing ever perpetrated on any body of honest workingmen in Canada, or perhaps in any part of the world. That the published statements are false can be proven by three-fourths of the miners employed in the camp. The only apparent grievance of the mine managers and their irresponsible sheet is that their spotters and spies were not permitted to be apprised of the result of the ballot taken on July 4. As can be proven the result of the ballot was to remain with the executive board by a unanimous vote of 250 members of the union who were present at the regular meeting held July 3.

We little wonder at this, as they have spent thousands of dollars on spotters for the purpose of keeping themselves posted on the secrets of the miners union. Would it not be much better if the money that is paid for cutthroats and spotters was divided among the hardworking shovellers and carmen so that they might enjoy a few of the luxuries every honest man is entitled to?

The situation as the interview of Messrs. Kirby and Macdonald attempt to make the public believe as something new is on the contrary old. I would state, and it will be verified by nearly all the miners and business men of the camp, that for the past 16 months there has been an unsettled condition in Rossland. The majority of business men have been losing money and the camp has gone backward, instead of progressing as would be expected when the stock of its producing mines are held in London at such high figures. It is possible that now the properties will not justify further manipulation at the hands of stock jobbers, but that is no reason why the managers should attempt to disrupt a labor organization. In such attempt they certainly cannot succeed. As proof of this the several efforts in that direction are evidence.

They have gone to our neighboring town of Northport and made an unprovoked assault on our sister union there. Why is this? Have the men at Northport asked for an increase of wages or reduction of working hours? No! But the possibility of that organization being of some assistance to Rossland union in case the latter should at any time object to the dissatisfactory methods which have been practiced by the managers of this camp seems to be just what they did not want. With an unorganized force of men at Northport and an ore reserve in the yards there sufficient to run the smelter for six or eight months so that dividends could be paid, it would be possible for them to close the mines on the slightest provocation and reduce the scale of wages now prevailing, thinking to force the men to accept the reduction, as it is almost impossible to expect men to hold out that length of time, although it can be done.

These managers are very smooth and will probably claim that they will not attempt anything of the kind, but what have they done in Northport for no other reason than that the men organized themselves into a union for their benefit and protection? The employees were plainly told by an official of the smelter that they must sacrifice their principles and submit to the tyrannical rule of capital.

The case was taken up and has been considered carefully for several weeks and in order to get the feeling of our members on the matter, as to whether they were going to stand idly by and, as I might say, see the right arm of our own union cut off, we took a vote, the result of which is still in the hands of our executive board and will remain there until such time as it is deemed expedient by the union to make it public. It was put there by the members of the union, all of whom have the best interests of

the country at heart and who take an active part in all business matters, not by a few who take no interest in anything except what they are compelled to in order to hold their jobs. Neither was it done through foreign agitators, as the Miner would have the public believe.

With regards to a few men prompting this action, the accusation is false as the managers must know, or their spotters are false to them. The action was considered by all honest union men for some time past and not by a few trying to gain notoriety by some underhand method. We denounce any action of that kind and have always done so in the past, as members of this union always approve of work being handled by trustworthy committees when so instructed by the members of the organization.

If there is anything in street rumors, upon which it seems considerable reliance has been placed by the opposing gentlemen, I would state that I heard in Nelson that some of our mine managers from Rossland, at a meeting of the Mine Owners association held in that city a few days ago, asked if in case of trouble in Rossland or, in other words, if the shovellers here asked for the current scale of wages paid in all other camps in the Kootenays, the other managers would assist them in beating it by closing down their mines. They were flatly refused. If that is true it is plain to be seen that the other managers are not in sympathy with the actions of those who control local affairs. That a few mine managers would attempt to disrupt the pleasant conditions prevailing outside our camp, where everything is running smoothly and where difficulties are all settled satisfactorily, seems too bad. The country can never prosper with such agitators in it. It prevents capital from investing, will force our Canadian citizens out and impair the upbuilding of our province. The morning Miner, instead of trying to stir up trouble by publishing articles from undesirable American papers known by all to be antagonistic to organized labor and attempting to create strife along nationality lines, should devote itself to the upbuilding of the town and promoting harmony among all classes, business men as well as laboring men. This would be far more to its credit than the disreputable practice indulged in on Sunday. Yours, etc., FRANK E. WOODSIDE.

A Strange Religion.

New York, July 8.—The World today contains a St. Petersburg, Russia, dispatch which says:

Twenty peasants, twelve of them women have been arrested and imprisoned in the province of Bessarabia and Kherson for having been implicated in a new outbreak of Begun atrocities. The Begun is a strange sect which kills many of its votaries, the victims willingly consenting to the sacrifice. The favorite method is to bury alive those selected for the sacrifices.

victims were given a more merciful death. Some of the women arrested confessed of having smothered members of their families with pillows. The Begun has existed for nearly thirty years. Though its followers are religious fanatics the Begun was originally a political and economical organization its agitations having always been directed toward greater personal liberty and political power for individual members of the society. The political strength of the Begun was crushed long ago, but its strange religious features have thrived.
