THE NEW MEMBER

Thomas Gifford, M. P. P.,
New Westminster--An
Interesting Sketch.

The new member for New Westminster, Mr. Thomas Gifford, is a native of Lockerby in Scotland, but has been long identified with the City of New Westminster. He is a jeweler by trade and one of the most respected citizens of the town. Outside of it his two sons are probably more famous than he has been hitherto, as they are well known players of the champion lacrosse team of Canada. Mr. Gifford has the record of never having been defeated in any contest and has done good service as an alderman and trustee. He has been repeatedly asked to run as mayor of the city and is recognized as an invaluable man of business on committees and in the council. As regards the interests of the constituency the people of the city are all satisfied that a wise choice has been made. Socially Mr. Gifford is intensely popular. Of all social gatherings in connection with the Presbyterian church of which he is an active member and other organizations, he is the very life and soul. In manner he is direct and unassuming. New Westminster has picked good timber to make a popular and useful member of the legislature whose qualities of character will be widely recognized.—Victoria Post.

NEW GOLD FIELDS

Annual Meeting Held in
London on 17th.

VELVET AND PORTLAND MINES

Financial Statement Submitted—
New Mine Manager Appointed—
Confidence in Rossland Mines.

The following statement is taken from the fourth annual report of the New Gold Fields of British Columbia, Limited, of which Sir Charles Tupper is chairman.

The profit and loss account shows a gross profit of £7604, 8s. 6d., expenditure £6111, 10s. 1d., leaving a net profit for the year of £1392, 18s. 5d. This balance, together with the amount brought forward from last account, viz., £8590, 13s. 8d., gives a total credit balance of £10,083, 12s. 1d., from which has been paid dividends as declared, special remuneration to directors and income tax amounting to £7842, 13s. 10d., leaving a net balance at date of £2240, 18s. 3d.

The directors have thought it prudent to considerably write down the value of all its mining securities, and, under the circumstances, do not propose the payment of a further dividend, beyond the interim dividend of 5 per cent. already paid, leaving the reserve of £5000 shown in last year's balance sheet and the balance of this year's profit, together amounting to £7240, 18s. 3d., to be carried forward.

Referring to the Velvet and Portland mines the appointment of Stanley Sorenson as manager, is referred to and it is stated that his policy of mine development is identical with that recommended by the previous manager. The report of the properties up to date fully warrant in the opinion of the directors continued confidence in the value of these mines.

Besides the Velvet and the Portland the company owns the following. Maldon Gold Fields, limited, North Maldon Mine, Ltd., Klondyke Corporation, Ltd., and the Melkedalen Copper Mines, Ltd.

The annual meeting of the parent company at which the report above referred to was submitted was held in London on September 17th.

EARNING THEIR WAGE

Rolling Ore Cars Down the
Le Roi Dump to the
Josie Road.

The "farmers" at the Le Roi are having a perfect picnic. The daily accidents are like wedding presents "numerous and costly" and the casualty list is assuming alarming proportions.

Yesterday afternoon a few minutes before the whistle sounded at 5.30, one of the industrious, able bodied strike breakers got away with a truck load of waste Le Roi rock, or to put it more correctly, the truck load of waste got away with the worker and went gallantly over the end of the tramway, down the big rock heap it thundered until it lay a pretty wreck on the Josie road. Judging from the language used by the green horn over the mishap he must have felt very badly indeed and one is left to imagine what happened when

boss heard of the wreck.

Today shortly after one o'clock the accident was repeated with the remaining ore truck on this branch of the business, with this difference however, that today a double team of farmers was hitched to the car in place of just one lone scab as yesterday.

As far as can be learned no one was hurt or killed, but rolling down ore cars over the waste dump is hardly earning even \$2.50 per day, to say nothing of the cost of repairs or replacements.

METEOR IS BOOMING

Local Manager Herron
Looks for Good Times
in the New Camp.

George W. Herron, local manager of the Meteor Townsite company, says that the prospects of the new camp took remarkably well.

Rich strikes have been made in the Meteor, Stray Dog, Admiral and some of the other working properties. The shaft in the Meteor is down 115 feet, and there is 24 feet of high-grade ore uncovered. When the 150-foot level is reached drifting bill we commenced and later some of the richest ore ever shipped in these parts will be sacked and sent out. Two shifts of men a day are now at work and later the force will be increased.

The Stray Dog has ear load of high-grade ore sacked and ready for shipping. The White Swan is drifting on a well defined ledge with good results.

The Horse Shoe and Good Luck, Oom Paul and other properties are all working, and Mr. Herron thinks there will be a genuine boom in Meteor before snow time.

A NEW COBRA TO BE BUILT

The Admiralty Orders Another Torpedo Boat
Destroyer.

New York, Sept. 27.—A dispatch from London to the Sun reports that the Westminster Gazette states on authority that, despite the recent disasters to the torpedo boat destroyers Viper and Cobra, the admiralty will place another commission with the Elswick works to build a new torpedo boat destroyer of the Parsons turbine type on similar lines to the Cobra, and that she will be launched next spring.

Naval constructors maintain that the turbine engine torpedo boats are as safe as others, but should not put to sea in the worst weather, because as they are light they are liable to be blown from their course. Moreover, they have not a reversible motion and can only stop by shutting off steam.

The fate of the Cobra has revived recollections of the ill-luck of many vessels in the British navy belonging to the "reptile" group which would seem to justify the superstitions of the jacktars. Four Vipers have been wrecked in home waters, the most recent being this year. Four Serpents, three Lizards, two Snakes, two Dragons and one Adder, one Alligator, one Crocodile, one Rattlesnake and one Basilisk have all come to grief.

RACE IN LONDON

Great Interest Manifested
in Yacht Contest.

CHAGRINED AT THE SHOWING

Some English Papers Have Given Up
Hope—Others Were Wiser—All
Were Disappointed.

London, Sept. 27.—The morning papers express the keenest disappointment over the yacht race. The Daily Graphic, the Morning Post and the Standard all contend that the weather conditions were too fluky to justify any verdict on the ultimate performances, but even the small journals are not very hopeful of the ability of the challenger to "lift" the cup, and they admit that her performance was very disappointing. The other papers virtually abandon hope.

The great suburban population of London was kept advised of the progress of events by pyrotechnics at the Alexandria and Crystal palaces, on the north side of the city. The London crowds chiefly gathered on the Embankment, watching the red and green electric lights making progress up the high tower on the sunny side in accordance with the varying position of the yachts.

Steam launches carrying the same colors and patrolling the Thames from London Bridge to Westminster also served to keep the eager multitude in touch with the trans-Atlantic contest. Thousands of persons gathered, while constant bulletins at the leading hotels supplied the news to hundreds of others.

Among the masses gathered on the Embankment the keenest disappointment was evinced. Evidently they had expected the challenger to outdo the defender under any conditions. The sporting clubs announced a very small amount of wagers.

King Edward displayed great interest and was kept posted as to every movement of the yachts.

A SCOTCH BREAKFAST

How Life Is Shortened by
Half-Cooked Oatmeal and
Hot Biscuits.

The Scotch, says the Health Home, are the greatest dyspeptics on earth, largely owing to their use of half cooked oatmeal and soft bread. Next to the Scotch are the Americans, and no single thing has contributed more to American dyspepsia than half-cooked oatmeal mush for breakfast. In rural France, where dyspepsia is practically unknown, hard bread and vegetables, with a very moderate amount of meat, comprise the chief items of the bill of fare. Take the centre out of a hot biscuit and roll it a minute in your hand, and it soon becomes a solid mass of lough, a "lead pill." That is the thing your stomach wrestles with when it attempts to digest hot bread or biscuit. A good deal of cold bread is just about as bad. Such food may be nutritious for the chap in the circus who relishes ground glass and cats swords and penny nails, but it shortens the lives of average people.

THE YACHT RACE.

Although the report so far received of the first yacht race for the America's cup is distinctly an American one, British sympathisers with Sir Thomas Lipton will not be able to get much comfort out of the account given.

When the boats started there was a moderately steady breeze which gradually turned into a light shifting wind and with these conditions the Columbia led her rival at the turning buoy seven minutes 15 seconds. This was the result of a dead beat to windward of 15 miles in very light weather.

The account given says that Shamrock II. gained somewhat on the run home, but she was practically out of the race and would have been badly beaten if the time allowed for covering the course had not expired as it did.

According to the press reports Captain Barr of the Columbia obtained the windward berth at the start and the slight advantage that position gave him although in the dispatches received yesterday Shamrock was said to be the first over the starting line by seven seconds.

Aemilius Jarvis, the Canadian Yachtsman is reporting the race for the Toronto Globe and some other Canadian papers and when his report is received we will all be in a position to better understand what yesterday's race really proved or if it demonstrated anything at all.

The course appears to have been well patrolled yesterday and none of the excursion fleet interfered with the yachts which had all the sea room they wanted.

COAST POLITICS.

Notwithstanding all that has appeared in the provincial papers to the contrary, it is extremely unlikely that there will be a general election in British Columbia this year. Until a new distribution measure has been passed it would be most unfair to have an appeal to the people. When the House meets early in January it is possible that, after passing a redistributive bill, the administration may be compelled to resign and resort to another general election, but the province as a whole is heartily sick of politics, and the unrest and disturbance that invariably accompanies the election period.

It is within the bounds of possibilities that the eager gentleman who cabal and intrigue around Victoria and Vancouver will be able to settle a division of the spoils of office among themselves which will give us an administration of sorts without the bothersome necessity of going through the delights of a general election.

Rossland people who have enough troubles of their own to contend with will be profoundly indifferent as to whether there is to be an appeal to the public or not, as in any event the local situation will remain unchanged.

NOTES AND COMMENTS.

The Geiser that started to sprout in Rossland some weeks ago has become extinct. A pinch of British justice thrown into its gaping mouth did the work.—New Denver Ledger.

Bees are often dissipated. They will sip hard cider until it is

simply impossible for them to make a bee line for home. This item should attract Carrie Nation.—Ledge.

"Do you know who I am sir?" asked the aristocratic man. "I am Sir Francis Daffy, Knight of the Garter, Knight of the Bath, Knight of the Double Eagle, Knight of the Golden Fleece and Knight of the Iron Cross." "Sure," said the young Irishman, "an' I'm Michael Murphy, night before last, night before that, last night, tonight and every other blessed night!"

The World has just received the first and second numbers of the West Fork News, published at Beavertown, a new camp situated at the junction of Beaver Creek with the west fork of Kettle river. James W. Grier, who, at one time worked on the Rossland Miner, is the manager. "The policy of the News will be to advance the interests of the West Fork country and to publish only facts in referring to mineral resources." Good luck to the Boundary's latest venture in newspaperdom.

A shareholder in the Ymir mines recently wrote to one of the London papers as follows: "The interest of everyone connected with either the Le Roi, the Ymir, the British America Corporation or the London and British Columbian Goldfields is manifestly to break the labor unions; and it is because I, personally, as a shareholder in other companies, will be hit so hard if the Le Roi directors give way to the union that I want to see all the directors of the Le Roi pledged to co-operate with other companies and try to break the union and keep down the wages." The writer is candid enough and states his views very plainly. The Ymir mines, by the way, still pay the wages for muckers refused by the Le Roi manager.

It is but the sober truth to say that the trade union is the paramount industrial fact, the logical complement to the concentration of capital which alone makes possible the giant business enterprises to which the commercial and manufacturing interests of the race are now committed. A threat to "starve out trade unionism" is like a threat to blow up a powder house or burn a factory. It voices the brute ferocity of a past age. There is still much missionary work to be done before capital and labor assume those amicable relations that will conduce to the material triumphs of a higher civilization that begins to dawn.

THE Real Situation.

Rossland, B. C., Sept. 25th, 1901.

To the Citizens and Business Men of Rossland and Vicinity and to the General Public:

The Le Roi mine manager has been circulating a report that the strike here is practically at an end and the mines are about to resume. This report has been taken up by their organ, the Morning Miner, and sent out over the country as a true report of the situation in Rossland. We have made a careful analysis of the situation here and believe that no impartial reader can see much reason for the joyful enthusiasm which Mr. Bernard Macdonald and his paper profess to feel.

For three and one-half months the strike has been in force at Northport. The greatest claim Macdonald or Kadish have ever made during that time is that they have been able to operate two of the five furnaces at the smelter. It is only a question of simple arithmetic to see that if it takes three and one-half months to start two furnaces, it will take eight and three-fourths months before they can have the smelter in operation. Now, if it takes eight and three-fourths months to raise the 500 men necessary to start the smelter, it will take twice that many, or seventeen and one-half months, to secure 1000 men for the mines in Rossland. Or, at the end of twenty-six and one-half months, if Macdonald has the same success he claims to have had thus far at the smelter, he will be in a position to work the mines.

No one can deny or dispute that Bernard Macdonald has left no stone unturned to secure men for the smelter at Northport. He has cast his drag net over the states of Minnesota, Colorado, California, Oregon, Missouri, Montana, or, practically, over the entire country west of the Mississippi river, and has been able to start but two of the five furnaces at the Northport smelter. This is the success he boasts. He claims the strike is at an end. It has only begun.

So far we have taken as true his statements that he has two furnaces in operation at Northport. We wished to prove how futile are his statements by his own evidence. The real truth is he has never had two furnaces in successful operation at one time for 24 hours. They have produced no matte for shipment up till August 25. He claims to have shipped one carload on August 21. That it was the highest in value of any shipment made. The records of the railroad at Northport fail to show any trace of matte shipments on or about August 21. If any shipment was made it was via the Columbia river route and rests at the bottom of the river.

He also claims to be able to start the mines in Rossland. Apparently he does not realize there is an alien act in Canada, for of the 30 employees now at the mines all but two have been brought here in direct violation of this law and will be deported inside of two weeks. He has in eight weeks been able to secure but two scabs in Canada. Now, if the Canadian people should, to his surprise, enforce their laws, even if it does hurt the feelings of Bernard Macdonald, how long will it take to start the mines at the ratio of two every eight weeks? And as yet there is not a miner in the lot.

We are not deceiving the miners of Rossland by false promises. We have every reason to hope that by October 1, 1901, Bernard Macdonald's name will only remain in Rossland as an unpleasant memory. We hope for an honorable settlement of the difficulties here. The sooner the better it will suit the union miners of Rossland. But if it is necessary to continue this fight to its final end the union miners and smeltermen will stand shoulder to shoulder for carrying on the fight.

This war was forced on these unions. We entered the struggle full of a belief in the justice of our cause and confident of our ability to carry it successfully to an end. This belief has never been shaken for an instant, and certainly is not when we consider the almost unbroken line of successes which have thus far attended our efforts.

EXECUTIVE BOARD

ROSSLAND MINERS' UNION No. 38, W. F. M.

SWEPT OVER THE FALLS

Death of L. R. Goldie, Van Anda Miner--Body Is Lost.

Vancouver, B. C., Sept. 27.—L. R. Goldie, a miner of Van Anda, met his death this morning by being carried over the falls of Powell river, thirty-five miles up the coast from Vancouver. Goldie had been prospecting away up at the headwaters of the stream and came down in a canoe. There is a landing a quarter of a mile above the falls, below which it is unsafe to run a boat.

Goldie was coming down and had started to run his canoe into the landing when he dropped his paddle by an accident and a moment later he was helpless. The paddle swirled around in a little whirlpool and was carried out of reach, and the man was carried down the stream at an ever increasing speed. A few minutes later he was carried over the falls, which are over thirty feet high, and since then neither he or the boat have been seen.

Excursion to San Francisco.

On account of the Episcopal Church meeting the Canadian Pacific railway will sell round trip tickets to San Francisco, via Portland and Shasta route, at \$50.60, September 23 to 27th. Corresponding reductions from all Kootenay points. For full particulars apply to local agents.

AUSTRALIAN PRODUCTS

Her Great Productiveness Although two
—Thirds of the Land is Desert.

Two thirds of the Australian continent is a desert, and yet one cannot fail to observe that her productiveness is enormous. That land contains over 100,000,000 sheep and between 30,000,000 and 35,000,000 head of cattle and horses. It has given to the commerce of the world over £400,000,000 in gold, copper, coal and tin. The two provinces of Ballarat and Bendigo alone have produced 100,000,000 pounds of gold, and as much more has come from the great Tambaroora and Lambing Flat in New South Wales. It sends to Britain annually over 40,000,000

pounds worth of metals, grains, wool, beef tallow, hides and mutton.

Excursion Rates to New Westminster.

For Provincial Exhibition to New Westminster, B. C., October 1st to 4th, the Canadian Pacific railway will issue round trip tickets from Revelstoke at \$12.30.

Tickets on sale Sept. 29th, 30th, Oct. 1st, and 2nd, good for return till Oct. 7th. tf

NOTICE.

NOTICE is hereby given that 60 days after date I shall apply to the Chief Commissioner of Lands and Works for permission to purchase 640 acres of land, more or less, in the Yale district, and described as follows: Commencing at a post about one-quarter of a mile north-easterly from Iron creek, thence westerly 80 chains, thence northerly 80 chains, thence easterly 80 chains, thence southerly 80 chains to point of commencement C. A. COFFIN.

STOCK MARKETS

Eighteen Thousand Shares Sold Today.

CENTRE STAR STOCK IS LOWER

Interest in Winnipeg—The Latest Quotations and Sales Here and in the East.

Interest in Winnipeg revived somewhat this morning and over 1400 shares changed hands around 7c.

Centre Star had a slight drop today 2000 shares selling here at 47½c. American Boy sold at 9½c, and Rambler-Cariboo at 48½c. It is stated that there has been heavy buying of Centre Star in the east of late for the English market, but nothing so far appeared in the outside press to explain the recent rise.

Appended will be found today's quotations and sales here and in Toronto.

MINOR MENTION.

The over due steamer Oregon about whose fate a good deal of anxiety was expressed has arrived safely at Seattle after an eventful voyage from Nome.

Harpers Monthly, Munsey and the Century magazines for October have arrived.

J. L. Whitney returned from Seattle this afternoon.

The mayor will leave for Vancouver tomorrow to take part in the royal festivities. The presentation tile will accompany his worship.

S. S. Taylor of Nelson, was in town on legal business yesterday and returned this morning.

Henry Bratnaber returned from Spokane yesterday evening.

Mrs. E. M. Aldrich and Miss Aldrich are re-visiting Rossland.

T. F. McDowell of Rossland, and Miss May E. Ham of Owen Sound, Ont., were married in Spokane on Wednesday evening. Mr. McDowell is accountant for the Le Roi Mining company. He and his bride will make their home here.

H. S. Wallace is back from Cambridge.

T. W. Hilliard has gone off on a shooting trip.

Dr. Milloy, the dentist, has returned from the Slokan and will be in Rossland a week.

LABOR JOTTINGS

Among the Unions--Shorter Hours of Work--What Is Being Accomplished.

Railroad employees in Western Australia are on strike for an increase in wages and shorter hours.

Detroit boasts of a union of marine divers. An effort will be made to organize all the divers of the United States and Canada.

Los Angeles, Cal., Laundry workers are on strike for recognition. The workers seem to have the best of the argument at present, and deserve success in their struggle for the improvement of their working condition.

There seems little doubt that the widespread movement for a nine-hour day will be successful. It is but just that it should be successful, for it is beyond question that the men can do as much work in nine hours as they can in ten.

The differences are not so great but they could be amicably settled by arbitration and a friendly give and take spirit. No dispute was ever settled by neither side yielding an iota. The quicker it is done the better it will be for all concerned.

The Amalgamated Leather Workers' Association of America, is the name of an organization formed in Philadelphia the other day. Delegates from all parts of the United States and Canada were present at the convention which gave birth to the new union. It will affiliate with the American Federation of Labor. The organization starts with a membership in excess of 8000, and has for its objects the betterment of the conditions of its members, a reduction in their working hours, and increased wages. May the new union "live long and prosper."

Excursion Rates to New Westminster.

For Provincial Exhibition to New Westminster, B. C., October 1st to 4th, the Canadian Pacific railway will issue round trip tickets from Revelstoke at \$12.80.

Tickets on sale Sept. 29th, 30th, Oct. 1st, and 2nd, good for return till Oct. 7th.

GAZETTE THE ROADS

Mayor Lalonde Will Try to Get an Important Matter Settled.

When the mayor is at the coast next week he hopes to get the government to take some action in regard to the roads running out of Rossland.

"In all government grants a reservation is made for road allowance," said the mayor today, "and in many instances here money has been spent on roads by the government, which at present remain private property."

"The roads have been duly surveyed and the department has the plans and all the necessary details to proclaim the highways government roads, all that is required is a notice in the Provincial Gazette, describing the lands appropriated and for this notice the department has all the material on hand."

"We have applied time and again," said the mayor, "but the matter has always been put off. I can hardly hope to accomplish much at the present time under existing circumstances at Victoria, but I am going to try once more and see if something can be done."

Appropriating the land necessary by the city would prove rather costly, and if the mayor's contention is correct the department should gazette the roads at once.

Excursion to San Francisco.

On account of the Episcopal Church meeting the Canadian Pacific railway will sell round trip tickets to San Francisco, via Portland and Shasta route, at \$50.60, September 23 to 27th. Corresponding reductions from all Kootenay points. For full particulars apply to local agents.

J. S. CARTER, D.P.A., Nelson.

NOTICE.

NOTICE is hereby given that 60 days after date I shall apply to the Chief Commissioner of Lands and Works for permission to purchase 600 acres of land, more or less, in the Yale district, and described as follows: Commencing at a post about one-quarter of a mile northerly from Iron creek, thence westerly 80 chains, thence northerly 80 chains, thence easterly 80 chains, thence southerly 80 chains to point of commencement.

Keep Your Eye on Meteor

METEOR is the new high-grade mining camp in the south half of the Columbia Reservation, seven miles west of the Columbia river, eight miles southwest of Daisy and 28 miles by good road from Meyers Falls. The townsite is in the centre of the rich aggregation of mines comprising the Meteor, Stray Dog, White Swan and Given groups, all of which are working in high-grade shipping ore. A great number of very promising properties are opening up in the vicinity. It is surrounded by a splendid agricultural, fruit growing and stock raising country, unequalled in the northwest, and has a splendid supply of timber for building and mining purposes, together with unlimited water power near it. It has already, besides a store, a number of buildings in course of erection, and a telephone service, saw mill, etc., will be in operation within a short time. Meteor is a high grade camp of the real Leadville type, the ores mined being gold, silver, lead and copper. Picked assays have given as high as \$140,000 to the ton, the average of the camp being about \$35. You can't afford to forget Meteor. Now is your time to get in at bed-rock prices.

Meteor is Sure to be a Rich Camp
