THE MAD MULLAH

Attacked and Defeated by The British Forces.

PURSUIT IS BEING KEPT UP

The Enemy Lost 100 Men—The British had Seven Men Killed Wounded—Near'y Captured.

Aden, June 22.—The Mad Mullah, after the recent repulse by Capt. MacNeill of his attack upon the British zareba, accidentally encountered the main British force of cavalry and mounted infantry, which immediately attacked and routed him.

The pursuit was continued throughout the night. A hundred of the enemy were killed and the Mullah and Sultan of Nur narrowly escaped capture. The British force lost seven killed and wounded.

AGAINST OCEAN RACES

Strong Protest From the Field---Nothing to be Gained--A Bluff.

London, June 22.—The Field today enteres a very strong protest against the proposed yacht races across the Atlantic, which the paper says would probably end in disaster and the loss of valuable lives, and against Sir Thomas Lipton's defiance of the traditions of British yachtmen by encouraging such proceedings for cutter yachts.

In this connection the Field says: "We are aware that British sailors know no fear, but to say that experienced men would delight to cross the Atlantic in a cutter like the Shamrock is the wildest absurdity.

"We contend that such a race would be no test of the strength of the yacht or of a steamship, because if the weather were fine the strain would be less than in a choppy sea of the channel, and if the weather was foul the yachts would surely be wrecked.

"Mr. Thomas Lawson's assent is probably due to disappointment in other quarters, but we would be gratified to find that the owners of the Constitution decline to be drawn into a game of bluff at such an early stage of the proceedings."

An International Outrage.

Quebec, June 22.—An American lady was compelled to pay duty on three pet cats here yesterday. The customs officer put their value at $20 duty, which was 20 per cent.

Coming West.

Ottawa, June 22.—E. E. Stewart, Dominion forestry superintendent, left on Thursday night on a tour of inspection through Manitoba, Northwest and British Columbia.

Drowned While Driving.

Chambly, Que., June 22.—While out driving last evening Mr. Stanley Willet's family were with their horses and trap driven into the canal. Mrs. Willet was drowned.

A NASTY ARTICLE

Armstrong's Friends Deny Statement in Morning Paper Today.

The friends of W. P. Armstrong, the defeated pugilist in last Tuesday's boxing match here, are greatly incensed over an article which appeared in this morning's Miner.

They say that Armstrong went away quite openly and made no secret of his departure. That he lived very quietly during his stay here, squared up all his bona fide debts before leaving, took very little money away with him, and that they are at a loss to understand who could have induced the morning paper to publish such a particularly nasty article.

A canvas about town this morning failed to locate any lamenting creditors of Armstrong's and presumably the article was inserted in error.

Armstrong fought fairly and was beaten, but he hardly seems to have deserved the shabby treatment accorded him by the Miner. He is not here to answer the statement, otherwise it probably would not have appeared.

When a man is dead or absent it is wise to abstain from making such a statement as appeared this morning.

Hello, boys, call around and see Davidson & Quigley at their new place of business, the "Queen," Columbia avenue. tf

ORE SHIPMENTS

Trouble at Smelter Makes Week's Total Lower.

SEVENTY FOUR HUNDRED TONS

Six Shippers This Week—Cars Detained at Northport Causing Delay—7409 Tons,

The green hands employed at the Northport smelter are responsible for the ore output from the camp for the past week being a little below the average expected. The men take so long to unload the cars at the roast heaps that ore trains are delayed in returning here, and consequently there has been a shortage of cars.

Appended will be found the estimate for the week up to 3 p. m. today from the same hour last week:

STRIKERS ALL QUIET

Situation at Northport--- C. P. R. Trackmen Confident.

There is nothing particularly new this afternoon about the situation at Northport or concerning the C. P. R. trackmen.

The green hands at Northport have delayed the ore cars at the smelter so that the railway has been unable to supply the mines here with cars.

The trackmen all over the line of the C. P. R. are still out and there is no prospect of a settlement at present.

BASE BALL TOMMORROW.

Rossland Stars Play the War Eagle-Centre Stars on the Grounds Here.

The return base ball match between the Rossland Stars and War Eagle-Centre-Stars will come off tomorrow afternoon on the base ball grounds, commencing at 2:30 o'clock. It will be remembered that at the last match it took eleven innings to decide the game which was eventually won by the Savages by a score of four to three. Both sides have been practicing during the week and a good game is promised for tomorrow.

NEW ZEALAND PROSPEROUS.

In discussing compulsory arbitration and its effect in New Zealand we are gravely told that while the scheme may work advantageously so far as ordinary industrial problems are concerned it works disastrously when applied to the mining of precious metals, that industry being on an entirely different footing, the values obtained having a fixed price in the markets of the world and not being open to competition like other productions.

In this respect, it is repeatedly asserted that New Zealand, so far as her mines are concerned, is in a deplorable condition and capitalists are depicted as giving the colony a very wide berth.

The statement is all moonshine. New Zealand is prosperous and her gold mines are increasing their output. In May 1900 the total output for the month was 29.095 ozs., valued at £111,860. The output for May 1901 according to a Reuter cable was 36,457 ozs., valued at £143,393. The output itself and the increase in one month of £31,533 gives an emphatic denial to the story of reported failure in New Zealand.

Were British Columbia today like New Zealand "A land where there are no strikes" we would not lack capital to develop the mining industry.

Any country in the world which can hold out the promise, to labor and capital alike, that no strikes or lock-outs need be feared, can discount all other advantages that may be offered by communities liable to such disastrous troubles.

CONCILIATION.

People who talk pleasantly and vaguely about conciliation as the best means of settling industrial disputes have their attention drawn to the Dominion conciliation act, which it is now desired to use in settling the C. P. R. trackmen's case.

There is no provision, however, to bring either or both of the contending parties before the tribunal created by the act and it is practically useless for the purpose for which it was passed. The same objection of course applies to the trouble at Northport, although in that case, the smelter being in the United States, a Canadian court of arbitration would have no jurisdiction, but as the smelter is practically controlled from this side of the line there would be little or no difficulty in settling the case if a compulsory arbitration act was in force here, as the men have already declared themselves only too glad to arbitrate the whole question.

There is nothing in the New Zealand system which prevents "conciliation" playing a large part in the settlement of labor disputes, and as a matter of fact it always does. Nothing could better demonstrate the utter uselessness and impracticability of our own act than the railway strike in progress at the present time.

EDITORIAL NOTES.

Gradually the truth is coming out about the relative merits of British and American locomotives. The Midland railway saved £400 apiece on the market price of the American engines ordered about the time of the engineering strike at home; but these locomotives cost 20 per cent. more for fuel, 50 per cent. more for oil, and 60 per cent. more for repairs than similar engines built in England. That seems pretty well to settle the question.

It would appear that Whitaker Wright kept on the petty cash of the B. A. C. in London, viz: £157, the main account, £23.000, being at Vancouver, B. C., far from the busy haunts of the London stock broker. Certainly a far-sighted move.

The population of Paris is 2,606,000, an increase of 249,000 since 1896.

Government ownership of the Canadian telegraph system is mooted at Ottawa. It cannot come too soon and is certain to be a popular move before very long.

The total receipts of the Suez canal in 1900 were 93,000,000 f., and the profit 52,000,000 f., or about $10,400,000 roughly.

Artistic Millinery.

The Chicago Western Milliner for June has for its leading illustration an excellent photograph engraving of Miss Rella Luke of this city, showing a striking Leghorn hat designed and posed by her.

"The Western Milliner says: "Miss Luke is the young lady who made up the exceedingly pretty dress bonnet which her excellency, Lady Minto, was pleased to accept as a memento of her visit to Rossland. Ladies who got a glimpse of the gift declare that it was a 'dream' and reflected the greatest credit on the artistic designer whose good taste and nimble fingers have turned out so many 'creations' this and last season that Rossland may well be proud of her success."

Labor Union.

"In unity there is strength." The Rossland Labor union is now a reality and all laboring men who have not already joined are earnestly requested to do so as soon as possible. The next meeting will take place at Miners' Union hall on Monday evening the 24th inst. and a good turn out is looked for.

ALL ABOUT THE EMPIRE

Australian Census—Miner's Congress—New Zealand Gold Output.

INDIA.—The number of persons in receipt of famine relief is 460,000.

A FIRE.—involving the deaths of four women, and causing the destruction of six cottages, occurred at Luton, England.

CENSUS RETURNS.—The census returns of the different States taken together show that the popuiation of the whole of Australia is 4,550,651, being an increase of 740,746 over the population at the previous census.

SOUTH AUSTRALIA.—The wheat yield of South Australasia is returned at 11,263,148 bushels, being an increase of 3,000,000 bushels on last year's yield.

Sir J. Cockburn, Agent-General for South Australia in London, has retired, and will be succeeded by Mr. Grainer.

MUSIC — Professor Stanford's opera, "Much Ado About Nothing," was produced at Covent Garden on May 30.

DRAMA—A comedy by Mr. Brandon Thomas, "Women Are so Serious," was produced at the Court theatre on May 31; a new modern extravaganza, "The Silver Slipper," at the Lyric on June 1; and at the Great Queen street theatre a comedy by Mrs. T. P. O'Connor, "The Lady from Texas," has also made its appearance. Mme. Sarah Bernhardt and M. Coquelin appeared on Monday at Her Majesty's in M. Rostand's "L'Aiglon."

ELECTION—In the Saffron Walden division of Essex Mr. J. A. Pease (L) has been returned, with 3994 votes against 3202 for Mr. C. W. Gray)C). On the last election in this riding held this year the Liberal member was returned by 110 votes.

MINERS' CONGRESS—The International Miners' congress sat again on May 30 at the Westminster Palace hotel, M. Cavrot (Belgium) presiding. M. Cotte (France) opened a discussion on the attitude of the congress towards a nation where a general strike had been declared. There would probably, he said, be a general strike of miners in France next November. Some delegates advocated local strikes and others a general strike, but the foreign delegates pressed for an answer to their question, what would the congress do to prevent the flooding of the French market with English, Belgian and German coal when the French miners were on strike? Mr. S. Woods thereupon explained that the British miners could not at present pledge themselves to a general strike, but if such a strike occurred in France or any other country they would do what they could to prevent the exportation of British coal to that country.

THE PENRHYN QUARRIES DISPUTE.—At Bangor several persons from the Bethesda quarry district were fined for being concerned in a demonstration of hostilities to officials of the Penrhyn quarries, who have been at work for the last three weeks. From the evidence it appears that crowds of people followed these officials to their homes each evening, and showed their disfavour by jeering and hooting. Last week a strong force of police was sent into the district to escort the officials. For the prosecution it was stated that the women of the place were more active in their demonstrations than the men. A meeting was held in the evening to protest against the importation of police. The quarries will be open to those who have applied for work on June 11.

IRELAND.—Mr. T. W. Russell spoke on the 5th at a convention in Belfast in promotion of the compulsory sale of land.—A gasometer exploded on the 3rd at Cork. Four men were injured. The managers of the gas company are convinced that the explosion was connected with a strike now in progress.

The gold output of New Zealand for last month was 36,457 ozs., valued at £143,393, against 29,095 ozs., valued at £111,860 in May 1900.

Notice to Pre-Emptors of Crown Lands.

The attention of pre-emptors of Crown lands is hereby called to an amendment to the "Land Act," passed at the last session of the legislature, which provides as follows, viz:—

"9. Pre-emptors of Crown lands, whether in arrears in payment of installments of purchase money or not, who at the time of coming into force of this Act have obtained certificates of improvement within twelve months thereafter, shall on conforming with the provisions of the "Land Act" except as hereby altered, be entitled to obtain Crown grants of their pre emption claims upon completing payments of purchase money at the rate of seventy-five cents per acre, and Crown grant fees, which payments may be made as follows:—

"Twenty-five cents per acre on or before the 31st day of December, 1901.

"Twenty-five cents per acre on or before the 30th day of June, 1902, and the remaining—

"Twenty-five cents per acre on or before the 31st day of December, 1902, and without any further payment of interest or arrears of interest."

VANISHED FROM SIGHT

Mrs. LaMore Gone--Order for her Commital Made This Morning.

Mrs. LaMore who formerly ran one of the dining rooms in a city hotel and who yesterday had an interesting experience with Sheriff Robinson on the Northport road, resulting in the lady's return to the city, has vanished from the scene entirely today.

W. S. Deacon obtained an order this morning from the police magistrate committing Mrs. LaMore to gaol for twenty days for contempt of court, but as expected, the lady was not to be found.

It is presumed that she went to Northport at a very early hour this morning.

A MINING FAIRY TALE

Luck in Gold Mining--How Some Men Grow Rich Quickly.

The following is another mining story told by Timothy W. Brooks, an old California miner, some of whose yarns have already appeared in the WORLD:

"The Trojan mine of Calaveras county, California, made several Boston men millionaires years ago. It was discovered by two Germans who could scarcely speak English. They had been running truck gardens for the mining camps in Calaveras county, and knew just the simplest facts about gold and silver mining. They were Herman Becker and Laurence Trimmer. In January, 1865, Becker and Trimmer found that some money could be made by gathering oak wood for fuel in the mountains of Calaveras county. They set out, expecting to make possibly $30 or $40 each by a month's word. They lived in an abandoned miner's cabin. Snow was on the ground two feet deep all about.

One day they built a great bonfire of brush, which melted the snow and left an area of hot earth Becker got a haunch of deer meat, and prepared to bake it in the hot earth. He dug two feet down, and came upon a bed of rock. With the prospector's instinct he broke off a bit of the rock and examined it. An assayer at Placerville reported that it ran $600 to the ton. This mine, the Trojan, made both Becker and Trimmer rich in a year, but they sold for $70,000 each what was afterwards worth to the Boston stockholdurs $30,000 a month.
