THE EVENING WORLD.

Vol. III, NO. 208 ROSSLAND, B. C, THURSDAY, APRIL 21, 1904 Price Five Cent

White Teeth

No matter how well nature has endowed you, it is necessary to use the best tooth cleanser and preservative that you can find. It doesn't pay to risk getting discolored and unsound teeth. You should use

Russel's Cream Dentifrice

Regularly. It cleans the teeth perfectly; keeps the gums firm and rosy, and corrects bad breath. It is a tooth paste valuable in preventing the decay of your teeth. 25 cents.

Of course you want a good tooth brush to go with it. Ask to see our 25 cent brush,

T. R. MORROW, Druggist

To the Public:

In answer to the Miners slander we announce that, with ever opportunity, we have made no change in our rates since the suspension of Stunden & Co.

THE ELMORE PROCESS

Prospects for Coming Season.

WHITE BEAR BUILDING STARTS

Other Companies Concerned—Reduction on the Price of Oil.

On the whole the progress of the camp as dependent on the Elmore process is looking well. The reduction, or rather abolition, of the duties upon oil for the use of concentrating machinery should be a material help. The last consignment of oil coming into Rossland cost 29 cents, which is a great reduction from 41, the original cost. But this shipment was made anterior to the abolition of tne duty.

Now, as the WORLD has already pointed out, it is of little moment to the Imperial company of Canada whether the oil procured for concentrating machinery is obtained from it or from the Standard Oil company of the United States, as both concerns are practically one. Again, there is such a demand for lubricating oil in Canada, and such a resemblance between lubricating oil and concentrating that as far as Canada is concerned it is of no moment whether the oil produced is sold to the Elmore people or to the users of other machinery. Still the abolition of duty must make a difference, and we are pleased to be able to say that negotiations for such reduction are in favorable progress, also are other negotiations for the reduction of the freight rate. This will probably bring oil per gallon, delivered in Rossland, to the vicinity of 20 cents.

The experience of the past winter on the Elmore plant at the Le Roi No. 2 will have shown both that company and the White Bear the inadvisability of depending upon the railroad companies for a continuous succession of supplies, and the advisability, therefore, of having sufficient storage room for the accomodation of oil, coal, and other supplies.

The White Bear people are at he present moment in surveying the foundations of their 100 ton plant, and as soon as this is erected erected with the proper storage warehouses a sufficient supply of water (if that of the Le Roi No. 2 is used settling tanks will be required) and above all the experiences of the past together with a continuous supply of low grade ore, say, in the vicinity of $7, it will be possible to make that demonstration of the commercial success of the Elmore process which, owing to inevitable hitches, the running out of supplies, etc., has been impossible in the past. With a larger plant the White Bear should be able to afford the Elmore people that demonstration of commercial success which has been

(Continued on fourth page)

ACCOUNT OF THE FIRE

An Appalling Blow to Toronto.

TREMENDOUS SWEEP OF FLAMES

The City Stunned But Building Operaitons Will Begin at Once.

Toronto, April 21—The great fire which devasted the best of Toronto's wholesale centre was under control at 7:30 a. m. Estimates of the loss vary, some place it as high as $17,000,000, others say that $11,000,000 will cover it.

Toronto is temporarily stunned, but plans to rebuild and resume business operations will be made by the majority of the business men at once. It is estimated that 6,000 people are temporarily out of employment.

The fire limit was reached about 7 o'clock, when the west wall of the west wall of the MacMahon, Broadfield & Co.'s premises on Front street, near the custom house fell and six firemen who were playing on the custom house, had a narrow escape.

On Wellington street, Union bank is the last limit of the conflagration on the south side. The sweep of the flames was something tremendous. Within thirty minutes from the time the firemen were called the fire was beyond all human control. Valiantly as the firemen struggled they had to retreat from building to building and from street to street. The sweep of the destroying element wiped out everything in an area west of Wellington street, north side, to the vacant lot separating the Suckling and Ivy warehouses, north on Bay street to the Toronto Engraving Co. and across the street to the office of the Telegram, which is partly destroyed. The fire swept south on that side, completely gutting the three adjoining buildings, and then went east along Wellington street avoiding the low buildings on the northeast corner.

On the south side of Wellington street, the five story building of Wyld, Darling Co., was sacrificed and the flames swept east to the Kilgour Paper Co. On Wellington street, west of Bay, the old Brock warehouse fell a prey to the flames which came from Ralph Smith & Brow Bros. factories. To the south the conflagation extended into the rear of the warehouse on the north side of Front street back towards Warwick Bros. & Rutter, stopping at the Queen's hotel. Both sides of Bay street are in ruins, involving a loss of all the solid buildings on the south side of Front street.

Empey Bros. have hats of every description and style. Prices will suit your pocket.

Don't miss the Fitzwilliams-Creel boxing contest at the Rossland Opera House next Saturday evening.

PEACE ON OLD TERMS

Rumour That Russia Gives Up.

CAUSE ALEXIEFF'S WITHDRAWAL

Extraordinary Canard in Manchuria as to Port Arthur Fighting.

Washington, Aprfl 21.—The announcement from St. Petersburg by the Associated Press of the withdrawal of Alexieff from the direction of affairs in the Far East, together with the lucid and interesting story of the rise and fall of the radical element in official circles here.

The change just indicated is believed to portend a complete reversal of Russian policy in Manchuria and it is thought that could Russia save her face and pride before the civilized world by scoring a decisive victory on land the way would be speedily opened for peace negotiations on the broad basis of the last Japanese proposition just before the outbreak of the war. The reinstatement of M. Witte, the deposed Russian Minister of Finance, who strongly opposed the war is expected to follow very soon.

London, April 21.—A story is reported from the German embassy that it is currently reported through Manchuria that both English and American ships took part in the bombardment of Port Arthur which resulted in the blowing up of the Petropaulovsk by a Japanese torpedo, or a displaced contact mine. It is said that the ships were flying the Japanese flag. but were really Ameriaan and British. The report has made it dangerous for travellers in Manchuria of either nationality accused, and several disappearances are reported, notably a British subject named Davidson, who is said to be a Canadian.

EXCURSION TO TRAIL

Belshazzarities are Taking in Trail This Evening

An excurison to Trail has been arranged by the Belshazzarities with the C. P. R. for this evening. A special coach will be added to the ordinary passenger leaving this evening from the depot at 6:15 o'clock which will take the chorus and principals down to Trail. A special will leave Trail for Rossland at 2 o'clock or thereabouts and will bring back the excursionists. Anybody wishing to go may do so by being at the train this evening and applying to Thomas Long who is in charge. The fare will be 50 cents for the round trip or including admission to the performance and to the subsequent dance, $1.25.

These rates, of course, do not apply to the chorus or scarf girls. Reports from Trail says that the house will be full and a good time is assured to all friends who accompany the Babylonians and Israelites.

The Providence

Greenwood, April 21.—The resident owners of the Providence are feeling pretty good this morning, and Duncan McIntosh, the company's manager has a right to look happy. For some time past the company has been drifting for the ore on the 300 foot level. This ore was encountered. The lead has maintained its width and value. The samples being shown about town are very fine and will assay into the hundreds of dollars.

It will pay you to call at Empey Bros. store and see their large line of hats.

GENERAL MANAGER
P. O. Box 302 Rossland, B. C

IMMIGRATION

The United States Commitsioner of Immigration, Frank Sargent has been recently pointing out the grave dangers which are confronting the Republic over the character of the immigration into the United States. His remarks apply in a lesser degree to the Dominion. He says that the reports of the last fiscal year shows that 70 per cent of the immigrants were from Southern and Eastern Europe, which he declares to be undesirable immigration, less worthy of the country than the Teuton and the Celt. He ascribes the fault to assisted immigration. Men who really want to better their condition, says Commissioner Sargent, will come any way, and the only effect of assisted immigration is to import a number of people who otherwise would have stayed in their own country as they would not have had the energy to get away of their own unaided volition. Such people are not wanted as pioneers. Such people do not elevate by the admixture of their blood the people with whom they become one. The United States is getting the high standard of its race deteriorated and is in consequence less able year by year to assimilate the inferior races and at the same time to keep up its own forcefulness and energy. Such is the deliberate opinion of the United States official who may be regarded as an authority on such a matter. He goes on to assert that the demand for cheap labor is at the bottom of the immigration, especially of the Oriental in the Western States.

Referring to this very matter yesterday the WORLD pointed out that well-paid English labor would not venture out to Canada except from the English ever-present spirit of adventure. From a monetary point of view there is very little to attract. These remarks applied to Canada but even more so to the United States, and today Mr. Sargent is seen to be in corrobration. The building up of a country cannot be accomplished by an inferior race doing all the work. Already census statistics show that the native born American is not fond of manual labor. He more or less despises it and would like somebody else to do it. An examination of the nominal roll of its militia shows that the large percentage of its soldiery are not native born Americans. When a nation thinks that others will do its work for it and will also attend to the necessary fighting, that nation has started on its downhill career. That way went Rome. It is not a question of a Monarchy or a Republic, it is not a question of robes of the Head of the State, it is a question of the State itself. The Continental nations were till recently fond of predicting that Great Britain had reached its zenith and would decline. But old country folk as a rule are not ashamed of manual labor nor are they attaching a taint to the name of soldier. Arms is reckoned as the leading and most honorable of all professions. And the feeling of the people creates the state. In this Canada of ours we want neither Dukhobor nor Asiatic. We want our own kind, men who are virile, who are neither ashamed to work nor to fight, who demand fair treatment, and who are not used up when what should be the prime of life is reached.

THE METRIC SYSTEM

Objections Urged at Recent Meeting of Manufacturers.

The Metric system coming for consideration before the recent meeting of the Canadian Manufacturers Association the following objections were urged and its debate deferred for another year:

The objections raised against the adoption of the Metric System group themselves natrally into two classes, theoretical and practical. Under first heading it is urged that it is more natural for mankind to divide quantities and measures by two and multiples of two than by ten. For this reason it would appear that the English pound containing 16 ounces and capable of division by two, three separate times, is preferable to the kilogramme containing 1000 grammes; and the English foot, containing 12 inches, which may be divided by 2, 3, 4 or 6 evenly, is a better measure than the decimetre containing 10 centimetres. In fact it is common in France at the present time to sell goods by the demi-kilo, showing that the desire to divide quantities by two cannot be eradicate even after more than a century of a compulsory use of the decimal system. In this connection John Quincy Adams said in his celebrated report on the Metrical System that "decimal divisions are applicable only to numbers and that time, space, gravity and extension reject its sway."

It is also pointed out that while the adaptation of our system of weights to the Metrical System might be possible, that that System is badly adopted to linear measurements.

Continental nations have not yet succeeded in driving out the old forms of weights and measures. A recent work published in Germany on the cost of textile fabrics contains an appalling mixture of weights and measures such as French lines, English yards, French inches, Metric metres, English pounds and Metric grammes.

It is also claimed that the Metric System does not reduce the labor involved in everyday calculations. In ordinary business problems the vulgar fractions such as 1-4, 1-3, 1-2, 1-8, etc., are easier handled than their equivalent decimals, and while the Metric System is well adapted for scientific purposes the reason is "that the scientific use of measurements consists of measuring existing things whi'e the industrial use of measurements consists in making things to a required size."

The Other Side.

A number of newspapers in British Columbia have been publishing false stories about Ymir, says the Nelson Tribune. They are jumping on the members of Ymir Miners' Union and the citizens generally. But the worst of all the really bad "citizen" is pictured as a hero. The maggot, C. Dell Smith, who circulated these reports, has no kick coming from the people of that camp, but the camp certainly has something coming from him. He threatens to leave Ymir and locate in a town where genius (?) is appreciated. It is to be hoped he will for the good of the camp. What will be Ymir's gain will be some other town's loss.

You'll be surprised at the money you can save by buying during the sale at the Crescent.

Today's Sales.

Giant, 2000, 1c; St. Eugene, 1000 43c. Total, 3000.

MINOR MENTION

A. B. Hodges of the Granby smelter is in camp.

Northport wants a game of base ball next Sunday with Rossland.

Spokane people seem likely to take a hand in Giant affairs. They want an accounting.

There was a marriage yesterday afternoon between Graham Cruikshank of the War Eagle and Miss Kathleen Boultbee.

A traid was started both ways this morning between Spokane and Rossland. The journey is hoped to be accomplished by means of transfers.

The action brought by the Centre Star against the Rossland-Kootenay Company has been decided against the plaintiffs on the ground that the defendant company was not guilty of trespass. Action should have been brought against their predecessors.

THE IRON INDUSTRY.

A Large Market Opening for Canadian Product.

Toronto, April 21—The Canadian Government commission which went to England to inquire into the electric process of producing pig iron from ore and making pig iron into steel by electricity so that it could be utilized in Canada, where coal is not to be had, has returned. Dr. Haanel, head of the commission, says that the mission was very successful.

Elsewhere it is said that by electric process ore can be turned into steel at a cost of $8 per ton. If so, Dr. Haanel admits that this will pay well. It is likely that a survey will be sent out to locate iron beds Canada and water powers adjacent thereto, so that capitalist may go into developing the industry.

The largest consignment of hats that ever arrived in the city, have been received by Empey Bros.

You will regret it if you fail to see the Fitzwilliams - Creel boxing match next Saturday night.

The goods on sale will not last long at the slaughter prices they are marked. Be among the first to take advantage of the great bargains. The Crescent.

THE ELMORE PROCESS

Continued from first page

now shown technically by the Le Roi No. 2. A profit has been realized by the Le Roi No. 2, but that profit has been gained off lower grade ore than was ever considered even by the most sanguine as commercially profitable in this camp. Moreover, the profit of the Le Roi No. 2 is dependent more upon its higher grade smelting ore gotten from the Josie than for the lower grade concentrating ores which were announced to be upon the No. 1, now temperarily suspended.

The Le Roi No. 2 will start to make a continuous run on May 1. To thoroughly show the advantages of the process that run should be of several months' duration.

The White Bear will not be in a position to do the same until late in the summer, but with a plant of double the capacity the results should be very much more favorable.

As soon as it is practicable the ores of the Iron Mask will be tested with the possible view of the erection of a concentrator, although it is understood that the primary object of this mine is to supply a needed iron flux at the Northport smelter.

The success of the St. Eugene will probably lead in the near future to the reopening of the Sunset, where a concentrator will likewise be beneficial.

In addition to this, another plant is hinted at in certain well-informed quarters, which may possibly be started within the next couple of months. Here the example of the War Eagle would be followed and the building completed as far as the roof is concerned before snow flies, leaving the installation of machinery for the winter months

Philippines' Debt

Washington, April 21—Bids were opened at the war department today for the $3,000,000 of Philippine certificates of indebtedness. The bids mostly were for small lots. The largest bid was that of the American National Bank of Kansas City, for the whole issue at 101.19. A bid of 100.17 was made by a syndicate composed of the National City Bank, Harvey, Fiske & Son, & Robinson, and the Gnaranty Trust Company of New York.

Another Canadian Line

Ottawa, April 19.—It is understood that the the Dominion government is making some progress with the establishment of a line of steamers between Canada and Mexico. Canada gives a bonus of $50,000, and Mexico will give the same amount. The line of steamships will likely run on the Pacific,

Want Congdon Removed.

Dawson, April 21.—Three hundred Liberals have unanimously passed resolutions to be forwarded to all Cabinet ministers at Ottawa, condemning Commissioner Congdon and asking for his removal. It is certain that the policy of Congdon is far from satisfactory to the majority of Liberals, and urgent requests are being made to Sir Wilfred Laurier for his removal.

POWDER SMOKE—Did it ever give you headache? Dr. Scotts headache powders are a quick and sure cure. Sold at Morrows Drug tore.

BELSHAZZAR LAST NIGHT.

Second Performance Went Well at Miners' Union Hall

There was a fair audience for Belshazzar at the Miners' Union Hall last night for a second production of an amateur performance which is not attempted with success in Rossland as a rule. However, every rule has its exceptions. As a whole the musical production was better than on the first night, and the little hitches which always accompany the first productions of any show, amateur or professional, were all absent. The tenor, Mr. Coffin, was in better voice, and did himself better justice than on the first evening.

Geo. Dunn surprised his friends by the excellent manner in which he managed his solo, and his tenor will be a welcome acquisition to future efforts. The duet between Mrs. Thomas and Miss W. Crowley was effective, as was also the quintette. Will Hoyt sang in a splendid baritone between acts and was heartily applauded.

The Sparring Match.

All arrangements have been completed for the Fitzwilliams-Creel 20 round sparring bout for next Saturday evening at the Opera House. Both men are more anxious than ever to meet, particularly Fitzwilliams, as he wishes to show the people that he had no intention of funking at their previous date. He feels confident that he will have no trouble in defeating Creel. A number of fast preliminaries have also been billed.

Merely a Canard.

Ottawa, April 21.—Sir Wilfred Laurier in answer to A. Morrison's enquiry in the House yesterday, said that there was no information before the Government confirming the report from British Columbia that the Emperor of China had made overtures to the Imperial government seeking to interfere with the anti-Chinese legislation of last session of this parliament.

The Land Grants

Victoria, April 21.—The Cabinet has had under consideration the British Columbia Act legalizing the cancellation of the grants of the sections of land in Southwest Kootenay to the C. P. R. The Cabinet declined to interfere with or disallow the act, which is a purely domestic measure,

The Alaska Boundary,

Ottawa, April 21—Sir Wilfrid Laurier said in the House that it was now in correspondence with the Imperial government regarding the Alaska Boundary papers, and hoped to be able to bring them all down before the session closed.

Be sure and visit the Crescent while the sales last.

To the Merchants

Why Don't You Increase Your Business?

Do not sit down and complain of lack of business, because people are sending out of the city for their goods.

Hustling will Do the Trick

Give them to understand that they can save money by dealing at home.

YOU WILL HAVE TO SHOW THEM

That you can sell them better goods for less money than they can get them for at some Cheap John department store in the east, and keep the money at home.

When you have done this You will get the results

The next question is how to reach the people to tell them what you want them to know

You can do this by keeping your advertisement in

The Evening World ....

It reaches all the people and goes in all the homes in the city. * * Its circulation is increasing every day.

Give it a Trial

And you will not complain as to the results
