## A BIG STRIKE ON

Machinists Go Out All Over the Union.

NINE HOURS DEMANDED

A Partial Settlement Arrived at by Detroit and Hazleton Employers —Trouble Is Spreading.

Philadelphia, May 20.—Not more tnan 1,000 machinists have left work in this city because of the refusal of their employers to grant them a nine hour day. The firms so far affected are all small concerns, employing about 100 machinists each.

Cleveland, May 20.—About 1200 machinists employed in this city are on strike today in order to enforce the demand for a nine hour working day with ten hours pay.

Detroit, May 20.—Up to 10 o'clock today 17 local machinists shops employing a total of 150 men had granted the demands of the international association of machinists, and their employes were at work. Machinists in other shops are on strike.

Milwaukee, May 20.—About 1600 machinists refused to begin work today in this city because their employers had failed to comply with their demands for a nine hour day and 12 1-2 per cent increase in wages.

New York, May 20.—At the local headquarters of the Central executive board of the international association of machinists it was said this morning that no more than 3000 out of 12,000 machinists in the New York district were on strike. Many of the employers in New York had agreed to the workmens request for a nine hour day.

In Jersey City the only men on strike were about forty men employed in the small repair shops of the Central railway of New Jersey.

Boston, May 20.—About 60 per cent of the machinists employed in Boston struck today to enforce the demand for a nine hour day with ten hours pay. The men involved is placed at about 12,000. Shops employing about 650 men have granted the new scale.

Hazleton, Pa., May 20.—The machinists and moulders employed at Hazleton and Jeansville Iron Works did not strike as all their demands were granted today.

York, Pa., May 20.—Only two shops in this city were affected by the machinists strike today. Two hundred men in the employ of the York Machine and of S. Morgan Smith's quit work.

### Trail Odd Fellows.

The Trail lodge of Odd Fellows will hold a picnic at Deer Park on June 17th. The steamer will run from Trail direct to the grounds. The Rossland Odd Fellows and Rebecca Lodge will cooperate with the Trail brethren on the occasion.

### MRS. McKINLEY BETTER

President Wants to Get Home at Once
All the Party Returning East.

San Francisco, May 20· At an early hour today no change has been reached in the condition of Mrs. McKinley. Although her condition has greatly improved, the physicians have named a week as the shortest possible time in which she can gather strength to make the trip across the continent.

The president and Mrs. McKinley will go direct from San Francisco to Canton. At Mrs. McKinley's old home, surrounded by familiar faces and with every comfort, it is said that her recuperation would be more rapid than in Washington. The Ogden route will be taken for the trip east.

Secretary and Mrs. Hay expect to leave immediately for Washington where important matters of state await the attention of the secretary. Postmaster General Smith and Secretary Hitchcock and Secretary Wilson will remain with the president, even though the day of departure is delayed. Secretary Long left yesterday for Colorado Springs and will proceed to Washington as soon as possible.

## SAVAGES WIN AGAIN

Score 8 to 7 in Favor of Rossland—Trail Men Entertained at Dinner Last Evening.

Some 300 persons gathered at the ball grounds to witness the return match between the Trail Smoke Eaters and the War Eagle-Centre Star Savages. After a closely contested game of seven innings the Savages won out by a score of 8 to 7. The Trail men made a great stand in the sixth when they scored five runs but the Savages proved to much for Col. Topping's townsmen.

In the evening the visitors were entertained at the War Eagle hotel where a tempting repast had been set out under the management of John Lucas of the Kootenay. Mr. A. C. Garde, whose keen interest in all sports is well known, presided at the banquet. The McGill contingent joined the party and a jolly evening was passed with plenty of good speeches and songs. Sone eighty guests were present.

Appending is the score in detail.

## INSURANCE RATES.

Everyone in Rossland knows very well that the rates charged for fire insurance both on buildings and contents are entirely too high, are unreasonably out of all proportion to the risk run by the companies, and that these rates are fixed by the board of insurance underwriters at the coast and not by the local agents here, who would be only too glad to see a decent tariff in force.

Merchants and business men have learned by long experience the utter uselessness of attempting to influence the board of underwriters by any such reasonable means as improving the city fire protection appliances, increasing the water supply or decreasing the risk in the business section of the town by other well devised improvements.

The board of underwriters represents one of the worst forms of the modern combine, without—so far as the general public are concerned—any redeeming feature, but there is one way in which this close corporation can be induced to listen to reason and be made to act honestly so far as the rates are concerned.

The city council of Montreal, in order to meet an increase of 50 per cent in the insurance rates recently made by the Canadian Underwriters association, decided to fight the matter out for the benefit of the whole Dominion, and they have been successful in placing the whole of the civic risks in companies outside of the association and at very reasonable rates indeed. Fifty per cent of the business went to the Scottish Union, 40 per cent to the Ottawa and 10 per cent to the Montreal Mutual.

In the action they have taken the Montreal aldermen have aimed a blow at the combine that will be strongly approved of by merchants and business men generally who may be trusted to follow the example set them.

There should be no difficulty in inducing the companies named to come into the Kootenays and write risks here. Considering the elaborate and expensive system of fire protection Rossland is now maintaining, our merchants, who are paying heavy municipal taxes, should obtain some relief from the excessively high rates which are extorted from them annually by the combine. Should relief not come in the manner indieated there is a system of "underground" insurance which was successfully practiced in Toronto in past years and which might possibly be tried here. Technically unlawful, it might very well be justified, since no government should enforce a law which has been twisted by the combines to work a gross injustice to the very peopte it was intended to protect. We commend the Montreal aldermen's scheme to the careful consideration of all Rossland merchants.

## ENGLAND'S DECAY.

A writer in the current Contemporary Review on "The Economic Decay of Great Britain," takes a very gloomy view of the future outlook in the mother land. Without admitting the correctness of the conclusions arrived at, or attempting to answer the arguments advanced by the writer, it is interesting to note his summing up of the situation.

After pointing out that the laboring classes have secured for themselves a larger share of the profit than they have ever before possessed, and have spent their income freely, if not lavishly, and in consequence the consumption of manufactured articles has enormously increased, the writer continues:

"By the phenominal expansion of the world's markets we have not only not profited, we have even lost ground which we possessed 30 years ago. Whilst all the world has been growing richer, we are growing poorer and poorer year by year. A trip to Germany or the United States shows the growth of solid prosperity, founded on business activity over there in healthy, clean towns and villages and in well instructed and well clad people. A trip to English manufacturing towns shows grime, drunkenness, filth, rags, ignorance and misery."

Industrial prosperity in Great Britain has only been visible, declares the writer, in two instances, viz- shipbuilding and machinery production. He adds: "If we except these two industries only the parasitical industries have flourished with us at the cost of the producer, such as company promoting, stock broking, book making, public house trade, water works, gas works and railway companies."

Under present conditions the writer asserts: "1—There are no indications that our rural industries will revive. 2—There are strong indications that our manufacturing industries will be rapidly destroyed by the United States and Germany. 3—There are no indications that our foreign trade will expand. 4—There are strong indications that our shipping industry will be rapidly ruined. 5—There are strong indications that our invested capital will rapidly vanish. Only by patriotism and energy can these consequences be averted."

"And our colonies," concludes this pessimist, "will not help us out of the mire. They will look with disgust on a formerly great nation, which can neither feed nor clothe itself, nor pay for its wasteful living. They will consider Great Britain as a monstrosity among the nations, and as an incumbrance and an incubus upon one empire."

Coming from an English writer in a leading British review these conclusions are entitled at any rate to the respectful consideration of all thoughtful "empire" men.

### NOBLE FIVE.

**On a Self-Supporting Basis—Manager's Report—Directors.**

The first general meeting of the Noble Five Consolidated Mining & Milling Co., was held at the coast on Friday. There were represented, either personally or by proxy, 878,000 shares.

George B. McDonald, general manager of the mine, presented a full report of the work undertaken. He reported that it was now for the first time since its incorporation upon a self supporting basis, and also held out the hope that before the yrar closed the mine would be a large shipper.

It was decided that the directors be furnished with monthly reports of the the state of the mine; the shareholders to be furnished with the same.

The following directors were elected for the ensuing year: Hon. James Dunsmuir, C. E. Pooley, Joseph Martin, F. B. Pemberton.

### Phoenix Shipments.

The ore shipments from Phoenix camp for the past week amounted to 5225 tons, made up as follows:

| | Tons. |
|---|---|
| Old Ironsides, Knob Hill and Victoria | 4145 |
| B. C. Mine | 1055 |
| Winnipeg | 25 |
| Total | 5225 |

This brings the total for the year from Phoenix up to 99,339 tons, as estimated by the Pioneer.

# SUICIDES AT NAPLES

## American Minister Babcock Takes His Own Life While in Hospital.

Naples, May 20.--The Rev. Malbie Davenport Babcock, the American minister who committed suicide in the international hospital here last Saturday by severing an artery in his wrist and swallowing corrosive sublimate, entered the hospital uffering from gastric fevers, complicated with extreme melancholia, and homesickness.

A nurse saw Mr. Babcock at 5:40 o'clock Saturday morning at which time the patient said he wanted nothing. At about 6 o'clock a nurse who was passing the door of his room heard moans and tried to enter, but found the doors barred. The nurse immediately went to summon the superintendent and returning found the door opened. Mr. Babcock lay on the bed, the clothes of which were bloodstained and nearby was an empty vial, while on the bed were two small knives. The blood still flowed from the severed artery in the wrist. Mr. Babcock was just able to whisper, "I have swallowed corrosive sublimate," and then died. His wife who was staying at a hotel nearby, notified the judicial authorities. United Stales Consul Byington subsequently took necessary legal steps while a number of Americans called at the hospital and offered their services to Mrs. Babcock.

### Financial Statement Asked For.

Editor WORLD:—

I think quite a number of ratepayers outside myself would like to see a statement of the city finances published before the proposed loan bylaws are voted on. Though a statement was published in January, many no doubt have forgotten its details, and another now would give a clearer understanding of the situatson. I would suggest that the statement contain the following details, and would thank you for obtaining the same, and publishing it:

1. Date of each loan bylaw, and object, time to run, amount, rate of interest, amount of interest and sinking fund to be raised annually, and price at which each issue was sold.

2. Services for which $42,000 indebtedness of the city over and above its debenture debt was incurred.

3. The face value of debentures deposited as collateral for overdrafts, at any bank, amount of such overdraft and rate of interest thereon.

4. The overdrafts at bank if any, with rate of interest.

5. Statement of investment of the sinking fund.

6. Total amount of assessment 1901, though not yet raised.

7. Permanent st ff of each city department with salaries.

### Chinese Commission.

Mayor Scott, of Westminster, president of the Coa t shingle combine and a heavily interested millman testified before the commission at Vancouver that the Chinese were a great menace to the country, and legislation should be passed that would exclude them. He claimed that forty thousand whites would come here and be employed if the Chines were not here, and he favored an increase of the poll tax to $500. As a millman he would be willing to share the additional cost of labor, if such would result, and he considered other millmen should do the same.

### SCHOOL TRUSTEES.

#### Election Next Month—Small Interest Usually Taken.

It is a matter of complaint that usually no interest is shown in the annual election of school trustees.

The nominations and election—if there is any contest—will take place on the last Saturday of next month. The three trustees at present are Messrs. Lalonde, McCraney and Forteath. One of these will retire and a successor will be elected on the date named.

Contractor Stewart is putting up a much needed fence around the big school house grounds. Money was asked to level up the grounds but failing to get an appropriation the trustees are having the fence built.

### BY-LAW NO.....

Being a by-law of the corporation of the City of Rossland to raise by way of debentures the sum of twenty-five thousand dollars ($25,000) to extend the present city water works system and to repair and reconstruct same.

Whereas, for the purpose of extending the present city water works system by taking water from Rock Creek in the district of Kootenay and for the purpose of repairing and reconstructing said system, it is deemed expedient to raise, by way of debentures, a loan of $25,000, repayable on the 30th day of June, A. D. 1926, with interest in the meantime payable yearly at five (5) per centum per annum, such loan when raised to be applied for the purpose aforesaid:

Whereas, the total debenture debt of said city is $227,000 and the total debt of said city, including said debenture debt, is $269,000:

Whereas, the amount of the whole ratable land and improved real property, according to the last revised assessment roll, is $1,669,740:

And whereas, for the payment of said debentures, sinking fund and interest, it will be necessary to raise the sum of $1,935.75 by a special rate in each and every year:

And whereas, for the purpose of raising the said yearly sum of $1,935.75 an equal special rate on the dollar will be required:

And whereas, this by-law shall not be altered or repealed except with the consent of the Lieutenant-Governor-in-Council:

Now, therefore, The municipal council of the corporation of the City of Rossland in open meeting assembled enacts as follows:

For the purpose of extending the present city water works system by taking water from Rock Creek in the district of Kootenay and for the purpose of repairing and reconstructing said system, it shall be lawful for the Mayor of the said City of Rossland to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures hereinafter mentioned, the sum of $25,000 and cause the same to be paid into the hands of the City Treasurer of the said City of Rossland, for the purpose aforesaid, and with the object hereinbefore recited.

It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of $25,000 for such sum of money, not less than $100 each or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of $4 86 to the pound sterling, as may be required; and all such debentures shall be sealed with the seal of the corporation of the City of Rossland, and shall be signed by the Mayor of said city.

The said debentures shall be made payable in twenty-five years from the date herein mentioned for this by-law to take effect, at the Bank of British North America in the City of Rossland.

The said debentures shall have coupons attached for the payment of interest, and shall bear interest at the rate of five (5) per centum per annum from the date thereof, and said interest shall be payable yearly on the 30th day of June in each and every year, at the place where said debentures are payable as aforesaid.

A special rate on the dollar shall be levied and raised in each and every year, in addition to all other rates, on all ratable property of the city, sufficient to pay interest and create a sinking fund for the payment of the debt hereby created as and when the same shall become due.

The sum of $1,250, shall be raised annually for the payment of the interest on the amount of the debt incurred during the currency of the debentures hereby authorized to be issued.

The sum of $685.75 shall be raised annually for the payment of the debt hereby incurred.

It shall be lawful for the corporation, from time to time to purchase any of the said debentures at such price or prices as may be mutually agreed upon, and all debentures so purchased shall forthwith be cancelled, and no re-issue of any debenture or debentures shall be made in consequence of any such repurchase.

This by-law shall take effect and come into force on the 30th day of June, A. D. 1901.

Done and passed in open council this 14th day of May, A. D. 1901.

## THE SENATORSHIP.

### Important Meeting Held--Rumored That Martin is the Man.

An exceedingly important meeting of Rossland Liberals was held in this city on Saturday.

The World man secured a partial alleged report of the proceedings but declines to express any opinion as to the exact truth of the story. A hoary headed Liberal said at lunch today:

"Well, if you must know, it was this way. You see, Martin—old man Jim Martin you know--who is so smooth that a fly can't stay still on his head but just rolls off, fixed us on Saturday for sure. While McArthur and Sinclair have been squaring up to one another over the senatorship, Jim was sawing wood hard, and when we met on Saturday he brought down a petition signed by all the 'boys begging Sir Wilfrid to make him 'Senator Jim.' There was no getting away from the signatures and Jim is walking the avenue today, hands behind his back, for all the the world like a real, live senator. Mac and the doctor spent the most of the morning wiring but it is of no use. The meeting felt there was only one thing could stop Jim and when he read a letter from A. B. Clabon retiring in his favor, the jig was up."

## A BIG FIRE.

### Large Building Burnt to the Ground--Loss $25,000.

This would not have happened if the building had been lighted by electric lights. Besides coal oil is costly, and there is the trouble of filling lamps, taking care of wicks and the breakage of chimneys. Electric light reduces the cost of your insurance, lessens the danger from fire and adds to the comforts of the store and home. Electric power supplied for mining and manufactnring purposes. Motors for rent or sale. Estimates furnished for wiring and lighting. Ring up 'phone 67. Rossland Water and Light company.

## NOTICE.
