TRY TO MURDER THE EMPRESS

Discovery of Plot at Kaifong—Try to Wreck Imperial Train and Fire Palace.

Victoria, Feb. 4.—News of a most extensive conspiracy to assassinate the Dowager Empress of China, and the members of the court, and foment a widespread rebellion which was to involve the whole Chinese empire, was received by the steamer Glenesk. The discovery of the plot was made while the court was at Kaifong, when an unsuccessful attempt was made to destroy the palaces and their inmates by fire. After the failure of this attempt some of the incendiaries were arrested by the Honan provincial officials, and torture was at once applied with a view of extorting confession. One of the conspirators, aged eighteen years only, at last broke down and confessed. He told of attempts that were to be made to wreck the imperial train and to fire on it from the outside of the line.

THE CURLERS.

J. S. C. Fraser Goes Down Before A. H MacNeill.

An interesting match played last night in the first round of the Vice-presidents' Cup, was that between J. S. C. Fraser and A. H. MacNeill. Despite the presence on the latter team of a neophyte, he can hardly be called a "young" curler, the genial bank manager went down before the prowess of his opponents by a score of twelve to seven. At one stage of the game the victors declined the last stone, lying six in the ring!

The Victors play off with A. M. Stewart's rink tonight in the second round.

Tonight will also be played a match between J. W. Spring and Harry Smith, the hero of the Sandon trophy, being the final pair in the first round.

Weather permitting tomorrow night will be played the championship match for the Presidents' Cup, between T. Gray and T. S. Gilmour. A keenly contested match is expected.

HIGHLY CRIMINAL.

Lord Dufferin's Opinion of Whitaker Wright's Proceedings.

London, Feb. 4.—On the resumption in the Bankruptcy court of the inquiry into the affairs of the London Globe Finance Corporation, Limited, the receiver read a letter from the Marquis of Dufferin, the former governor general of Canada, and British ambassador at Paris, denying that he had been a party to Whitaker Wright's speculations, which had resulted in losses amounting to £1,700,000. His Lordship said he would have considered himself highly criminal had he allowed the shareholders's money thus to be gambled away, and he added that on his recovery from his present illness he proposed to offer himself for examination in order to confirm the above statements.

TURN DOWN HILL

Vancouver Cold to the Great Northern.

HAS NO TERMINAL FACILITIES

Attempt Made to Get a Grant of Valuable Land on False Creek.

Vancouver, Feb. 4.—The Vancouver, Westminster, Northern & Yukon railway, backed by the Great Northern, is meeting with opposition in its request to the city to be given one hundred acres of False creek flats for terminal facilities. This line has a scheme to connect Cariboo, Omineca and Dawson with Vancouver. It is directing its attention just now to completing plans to run a railway from Vancouver to New Westminster, where connection will be made with the Great Northern branch to Seattle, thus giving the Hill line direct entry into this city, a course of which was denied it years ago.

RICH ORE.

Good Find Upon the Winnipeg at Phoenix.

Word comes from the Boundary that a chamber of very rich ore has been found in the Winnipeg mine near Phoenix. The ore bodies of that property are large and of the average grade of the Boundary, but in one vein in times past large bodies of very rich ore have been found but so small that the management thought it would prevent misunderstanding if little were said about it, the quantity found at any one time not being more, perhaps, than a bucketful. The report is made on good authority, though the company officers say nothing about it, that recently a chamber of this high grade ore was come upon, out of which $12,500 worth was taken.

If you desire the best goods for your money call at Ed Farnsworth's cigar stand.

V.V. & E. TROUBLE

A Split in the Railroad Camp.

MILNE SUES D. G. MACDONELL

Joe Martin Enters the Arena on Behalf of the Coast Company.

Vancouver, Feb. 4.—Dr. Milne, one of the original promoters of the V. V. & E. has entered action in Victoria, and the case will likely be heard next week, against D. G. Macdonnell of Vancouver, for the sum of $12,500. Macdonnell was solicitor for Milne and his associates, and during Milne's absence in England obtained an opinion from Milne's attorney Hall, on his interest as well as that of the other promoters of the V. V. & E. The plaintiff claims that Macdonnell made use of his knowledge as solicitor of the company to secure the options after he found out that the deal was going through. Milne is now claiming from Macdonnell the sum mentioned which, it is alleged, is the difference between the amount paid Milne for his shares and the amount realized from it by Macdonnell. Joseph Martin is Milne's consul.

Copper's Bright Outlook.

The year 1902 certainly looks good to us from a business standpoint, and there is every reason to look for a large copper output, says the Western Mining World. The present price of copper need not worry us, for it is at its low period now, and for a short temporary period at that. The influences that have caused it are rapidly being changed, and almost any bright morning we may awake to find that copper has risen above fifteen cents, to remain permanently there.

HEAVY SENTENCE

A Saloon Rowdy Gets it in the Neck.

HE FLOURISHED A REVOLVER

But His Pocket Is No Longer Flouring — Impartiality in Court.

Magistrate Boultbee and his staff of police during the past couple of days have handed it in hotly to the crowd that carry firearms. Yesterday one man got a $45 fine and his weapon confiscated for merely having it upon his person. Today James Shelbach was charged by Frank Salmo with having threatened him with a revolver on Saturday night in the M. & M. saloon.

The case was ably prosecuted by J. L. G. Abbott despite the efforts of C. E. Gillan, who did his best to shake the evidence of Frank Salmo. Several witnesses took the stand and the testimony given was somewhat conflicting but the point was firmly established that in the trouble that occured, taking place in a room full of men, the accused had flourished a revolver and had pressed it against the abdomen of his adversary. The police proved that the revolver was loaded at the time of the arrest.

Although some of the cartridges bore the dint of the hammer it apparently could not be established that the revolver was actually snapped in an attempt to discharge it at the time of the fracas.

There were some attempts to show that the trouble was one arrising between the union men and the scabs but the matter was promptly ruled out as irrelevant by the court.

Prisoner escaped with a three months sentence with the option of a fine of $100, costs going with the sentence.

The magistracy and police plainly made it public that all such attempts at rowdyism on either side will be severely dealt with.

The WORLD presents its compliments.

RAMBLER PROSPECTS

Diamond Drilling Shows Up Ore -- Surface Returns.

Greenwood, Feb. 4.—Information comes from Eholt to the effect that the prospects of the Rambler mineral claim in that vicinity has been improving considerably, diamond drills proving the occurrence of ore in a considerable quantity below the 100 foot level. Recent assay returns from surface showings are very encouraging giving values of $15 chiefly in gold.

Boundary Railway.

The bridge at Curlew, on the Grand Forks-Republic railway will be finished in about a week and from that point on the rails will be laid at the rate of one and a half miles a day, so that the track will be in Republic by Feb. 15th. The company is booking freight now for delivery in Republic on that date.

THE ARMORY.

Yesterday the WORLD published the news (exclusively as the Whiner was ashamed to notice it) that Revelstoke, Kaslo, Kamloops and Nelson were each to have a drill hall to be erected by the Dominion Government. Rossland with the senior company of the Rocky Mountain Rifles, has been neglected. Why? Ask the city dads! The reason is simple, the military authorities will build, but they require the gift of a site. The council says that the city is too poor to afford it. Why? Other cities have enough money. But the other cities do not quarrel with the men who are the bread winners.

CHRISTIAN JACK.

A year ago Alderman Clute carefully explained that there were fifty reasons, excellent reasons, for dismissing Chief Ingram. Chief Ingram as carefully emphasized those reasons directly after his dismissal from office by descending to abuse of the police commissioners who dismissed him. Nor was he measured in his abuse, the vials of his wrath were filled to overflowing, and the echoes of Columbia avenue awoke to the serenade to which the peccant alderman was treated. That is now past and forgiven, though probably unforgotten. The WORLD apologizes for calling "honest, manly Jack Clute" a jelly fish. That is not the epithet. He has turned the left cheek to the smiter (he'll get it smitten) —the man is attitudinizing as a Christian!

THE UNIONS.

The battle of unionism, fought strenuously in the old country throughout the middle of the century just past, was practically won in their recognition as corporate bodies early in the '70s. In the New Commonwealth and in New Zealand the unions govern the land and yet the country is not ruined. In every first-class review of the day union questions are temperately discussed by workingmen and by their employers. But this has not spelt anarchy. Ten years ago when the narrow minded capitalist, the land shark and the railway jobber ruled New Zealand, its government securities were much below par. Ten years of "mob rule" has doubled their value and placed them at a premium.

Too little faith is placed in the lessons of the Empire, too much in the trustful boastings of what was once the Great Republic. Today a popular ten cent American magazine belauds Lord Rosebery because it declares he despises the "common people" and belittles Salisbury because he has recognized the inevitable swing back to "collectivism." However true the criticism may be felt to be by the type of politician which strives to rule this land, it comes with poor grace from a professed republican. In the United States capital rules, in Canada it strives to do so, in Great Britain it has been reduced to terms, but in the Antipodes as all wealth, as recognized long since by the great thinkers, is derived from labor, the interests of labor are frankly studied. What is the result? Take a few figures from Whitaker's almanac. The United States has a yearly trade of $30 per capita, Canada $63, Great Britain and Ireland $100, Australia $175, New Zealand $180. Apparently the only deductions that can be drawn are that the greater the concessions to labor the greater the trade and that the nearer the American ideal is attained the less the general prosperity.

NOTES AND COMMENTS.

Canada produced $28,000,000 of gold last year. The banks ship it all out of the country so that it will not interfere with their rag money.—Presbyterian.

The New Zealand proposal to give a preference in the tariff to British goods carried in British ships is undoubtedly a step in advance of the Canadian plan, which makes no distinction between the nationality of the ocean carriers. Now that the British preference is an established part of our fiscal system, Sir Wilfrid Laurier might do worse than engraft upon it the New Zealand feature.—The Colonist.

The London Saturday Review prints an article complaining that the news and views concerning the United Kingdon are furnished to the Canadian press only by way of the United States channels, getting considerably muddled in the process. It declares that the prevailing tone of comment on public affairs in Great Britain thus reaching the Canadians is one sour dissatisfaction and petulant criticism. The Review urges the establishment of a special British Canadian news service, which should, if necessary, be subsidized by the state. Such a service, it believes, would create a better mutual understanding between Canada and Great Britain.

Asthma Cure Free!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.
Write Your Name and Address Plainly.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.
New York, Jan. 3, 1901.

DRS. TAFT BROS', MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,
REV. DR. MORRIS WECHSLER.

Avon Springs, N. Y., Feb. 1, 1901.

DR. TAFT BROS, MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symtoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. Feb. 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed, I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full size bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

SLOCAN NOTES.

Development of the McGuigan Basin Property.

More men are now at work in what is known as the McGuigan basin, in the Slocan, than at any previous time in the history of the camp.

The surface equipment of the Rambler-Cariboo is also as complete as any mining plant in Canada. Although the concentrator is finished it will not be started until spring.

J. L. Retallack is making a valuable mine out of the Washington, working sixteen men and shipping.

The Dardanelles has been started again, and crews are working on the Surprise, Red Fox and Soho.

The Greenough brothers of Sandon are driving the long tunnel on the Antoine, and are in over 1100 feet. J. W. Power has thirty-two horses continually at work bringing down ore and carrying up supplies,

STOCK MARKETS

Slight Improvement in Cariboo, Camp McKinney.

LOCAL MARKET VERY STEADY

The Latest Quotations and Sales Locally and on the Toronto Market.

The business reported this morning is fair both here and at Torono. There is a slight but marked improvement in the prices quoted. The principal subject on 'change today is the shareholders' meeting of the Cariboo, Camp McKinney mine anticipating the financial statement which probably will be presented.

Despite the losses the Toronto people have suffered over War Eagle stock, buyers of that scrip still seem to be plentiful.

MINOR MENTION

The show at the International is still on.

The carnival committee did not eventuate last night.

W. M. Brewer, the well known mining engineer, is in the city.

The Juniors are worked up over the chance of winning the hockey match tomorrow night.

Charles Anderson returned last evening from an extended trip through the Lardeau and Slocan districts.

The delegates to the Liberal convention at Vancouver leave this evening. W. Hart-McHarg will return in about a week.

Every effort is being made to make the social which is to be given next Monday night in aid of St. George's church an up-to-date function.

Several men have been laid off at the Centre Star. If everything is arranged satisfactorily it is probable that shipments will be resumed towards the middle of this month.

Ex Chief Vaughn left yesterday for the coast. The "push" here ought to recommend him to the present fishery commission now sitting at New Westminster as a tactful aid in the anticipated labor disputes.

The Whiner declares that "pockets" are being cut in the 1050 foot-level of the Le Roi, and a "high-grade" ore shoot is being developed of "considerable importance to the camp." Sounds pretty, but mixed.

The morning effusion with its usual accuracy talks about the room in the International where Father Pat held his first church. The people at the Allan hotel might tell him something about the old opera house which would make the talented staff still more at home in Rossland.

Captain W. Hart-McHarg has written a book about South Africa and if the matter is only equal to the advance sheets published in this camp during the war it should be worth reading. By the way, W. Hart-McHarg was provisional lieutenant in the Rocky Mountain Rifles, then corporal in the Royal Canadians, and retiring with the rank of sergeant, returned to his old corps as lieutenant, though entitled by his service to the rank of captain.

The Great Chain of Protest.

The purport of the hour is vast
The world wants justice; it demands
United hearts, united hands;
The day of charity is past.
Men have outgrown the worthless creed
Which bade them deem it God's good will
That labor sweat and starve to fill
And glut the purse of idle greed,
They have outgrown the poor content
That breeds oppression. Forged by pain,
Mind links to mind in one great chain
Of protest by the hands of progress hurled,
This mighty chain of human thought,
In silence and in anguish wrought,
Encompasses the pulsing world.

And he who will not form a link
Of new conditions soon to be,
Ere long must stand aghast and see
Old systems toppling down the brink,
They cannot and they shall not last—
The broader impulse of the day
Will gain and grow and sweep away
The rank injustice of the past,
More labor for the selfish few,
More leisure for the burdened class,
These things shall surely come to pass
As old conditions change to new
They change through toil and strain and strife;
Work for all men, for all men rest,
And time to taste the joys of life.

A Big Deal.

Vancouver, Feb. 4.—The Marble Bay copper-gold mine and the lime quarries of Texada island, British Columbia, owned by J. J. Palmer of Toronto and the Christie estate, were sold today to a syndicate of American capitalists. The sale price was $200,000. The first payment, amounting to $40,000, was made today when the new owners took possession. Prominent among the buying syndicate are Harry Hewitt, of Tacoma, and Colonel C. W. Thompson and A. J. Haywood of Seattle.

NOTICE.

The strike has been settled at the Le Roi mine, but it it is still in force at the other mines as before.

Negotiations are being carried on with the other mining companies of the camp which have been effected by the strike but they are not yet completed.

Working men in outside camps are advised to keep away from Rossland for the present, as there are more union men at the present time here than can secure employment until a settlement has been effected with the other mining companies.
