SILVER GLANCE

Shipment Averaged Over
\$200 a Ton.

PICKED SAMPLES RAN HIGH

A Bear Lake Group Shows Up Well
—Work Will Be Continued in the Mine All Winter.

Kaslo, Nov. 2.—The owners of the Silver Glance group at Bear Lake received the returns today from a 5½ ton trial shipment to the Trail smelter amounting to \$1230.

The shipment consisted of four sacks of ore from which 4168 ounces per ton of silver were taken and 129 sacks which produced 310 ounces per ton.

This property is owned by McPhail Bros., E. Erickson and Dr. Rogers, of Kaslo, and Dr. Arthur, of Nelson. The lead which averages 18 inches in width has been traced on the surface by means of open cuts for a distance of 400 feet; a depth of 48 feet has been gained on the lead, but a tunnel, which is now in 50 feet, is now being run which will tap the lead at a much greater depth. Picked samples of the ore taken out give the enormous returns of 14,330 ounces silver. Work will be continued on the property through the winter.

Hot Roast Beef served with every glass of beer at the Alhambra.

SNOW IN SANDON

Three Inches in the Streets
—A Very Large Ore Output.

Sandon, Nov. 2.—The Payne has commenced work on the foundation for the new mill.

Three inches of snow fell on the streets of Sandon today.

Ore shipments for October over the C. P. R. were: Slocan Star, 294 tons, Minnesota Silver company, 120 tons, Payne, 65 tons, Reco, 30 tons. Total, 509 tons. This with the shipments via the Kaslo & Slocan makes a total of 2434 tons shipped from the Slocan mines for the month of October. To this should be added the shipments from the mines on Slocan lake, in the Slocan City mining division. It is safe to place the total shipments at 3300 tons, of the value of \$250,000. This is the largest output ever made by Slocan mines during the month of October in any year since the mines were discovered.

WELCOMED HOME ROYALLY

A Naval Pageant in Honor of the Duke's Return.

THOUSANDS LINED THE HARBOR

Greeted by the King, Queen and the Royal Children--
"Home Sweet Home"--End of the Colonial Tour.

Portsmouth, England, Nov. 2.—Yesterday's naval pageant in honor of the Duke and Duchess of Cornwall and York was almost a reproduction of the ceremonial attending their departure. As the Victoria and Albert neared the harbor the troops ashore presented arms and the garrison battery fired a formal salute. The bands everywhere struck up "God Save the King," and thousands of blue jackets on board the ships in the harbor repeatedly cheered the royal party. The demonstrations were renewed as the Ophir entered, her band playing "Home

Sweet Home." The Duke and Duchess of Cornwall and York occupied a conspicuous position on the upper part of the yacht, bowing in response to the demonstrations of the thousands of people lining the harbor.

Immediately after the Victoria and Albert and the Ophir were at the jetty the duke and the duchess joined their majesties on the former yacht. The children of the duke and duchess met the latter at the gangway with joyful exuberance and they entered the salon of the yacht, where the king and queen greeted them affectionately.

ALASKA OUTLOOK

American Surveyor General Predicts a Brilliant Future.

William L. Distin, surveyor general and secretary for Alaska, is down from Sitka and is visiting Seattle and other coast cities.

The surveyor general has much information of interest regarding Alaska, particularly in relation to its mineral wealth and agricultural prospects. He refers to the northern region as a "great treasure box," and predicts for it a brilliant industrial future.

"The outlook for Alaska generally is hopeful. The prospects in Southeastern Alaska are encouraging. The old developed mines continue to yield satisfactorily, and development work is being prosecuted on many new lodes. Porcupine district is fulfilling its promise as a gold producer, and will no doubt be a prosperous region for years to come.

"Transportation facilities are all that is needed to develop the large mineral belts in the regions drained by the Copper and Tanana rivers. That there are vast deposits of gold and copper in those sections no longer admits of a doubt, and indications for the future prosperity of those localities are bright. That those on the ground have faith in it is evidenced by the number of surveys of claims for patent which have been received in my office. When an all-American railroad through these valleys to interior points shall have been constructed, with direct steamship connection with Seattle, Tacoma, Portland and San Francisco, large developments will speedily follow and such great activity in all lines of business result as to insure success for such an enterprise.

"Cheering reports are received from Nome, Teller and Port Clarence districts. The prospects at each of these points are flattering. Recent discovery of coal near these places will solve the fuel question, which has been quite a problem."

NORTHPORT MARBLE

Deposits in Stevens County--Great Interest Taken in Development.

Northport, Nov. 2.—Marble deposits in Stevens county have been attracting considerable attention during the past few weeks. The United States Marble company operating near Valley, have been marketing their product for years, and had one of the most beautiful exhibits at the Pan-American exposition this year. They have recently added new heavy machinery on their quarries and works and work more men than before. It was only in the past few weeks that the marble industry has taken on the proportions of a boom. Companies have been formed and marble ledges near Addy, Chewelah, Colville, and on the reservation near Cascade City have been acquired and work is now in progress on most of the properties. A great deal of interest is also being taken in marble propositions near Northport.

Charles Park has located a large body of black onyx within six miles of the town and will begin development shortly. M. W. Martin has recently accepted an offer of \$3000 for a marble ledge on his ranch near Marble.

Harvey Allan has interested Butte capitalists in a marble proposition on Deep creek, and will have 60 men at work within a few weeks.

Payne Concentrator.

The old Horne-Payne concentrator which has been a standing monument of old country mining company methods at Laurie, B. C., some 35 miles east of Revelstoke on the main line, for the past four years, is now being removed to the Payne mine at Sandon.

THE NEW GIANT

Old Company Is Paid for the Property.

WILL START WORK PROMPTLY

Muckers Will Be Paid Standard Wage—California Workings Utilized.

The affairs of the new Giant Mining company are rapidly getting into shape for the active resumption of work at the mine. The final payment on the property was made a day or two ago by the directors resident in London to the vendors, represented by Hon. C. H. Mackintosh. The figures are not known, but it is understood that the old shareholders will receive stock in the new concern on a basis of about 7½ cents per share on their holdings. This represents an investment of about of about \$150,000 and it is presumed that the vendors received a consideration as promoters of the new company.

The new company is fully organized, the shares being privately subscribed some weeks ago. The shares are being traded on to some extent in the London stock exchange, but as yet very little business is being done in these securities. The reason is that the stockholders are holding their shares until the development of the mine brings about a demand. The Giant has not been listed in the sense that shares are listed here, but it is understood that this offers no bar to the stock being bought and sold on the London exchange. It is believed that there will be a considerable movement in the shares next spring.

Work has already started in a preliminary manner at the mines. Arrangements have been made for the use of the California workings and plant and a small force is at work under the direction of D. J. MacDonald preparing the California main tunnel, which will be extended into Giant ground and used as a main working adit for the present. It is understood by the men in charge that the crew will be enlarged next week. The California has a 10-drill compressor, all of which can be utilized by the Giant if desired.

IMPERIAL TRIBUTE

American Comment on the Duke of York's Colonial Tour.

New York, Nov. 2.—Commenting on the arrangements in connection with the arrival of the Duke and Duchess of Cornwall and York, the London correspondent of the Times says: The arrival of the Ophir and the departure of the King and Queen for Portsmouth were the opening scenes of an imperial function designed as a state-ly tribute of respect to the colonies. The loyalty of the colonies, demonstrated in Australia, South Africa and Canada by their unexampled reception of the heir to the throne, has imposed an obligation on the mother country to welcome him on his return with unique honors.

ARBITRATION.

A Scotchman writing to the Edinburgh Despatch from New Zealand, on "Arbitration and its Works," has a fair amount of praise for the system as a theory, but comes to the conclusion that in practice the idea is wrong. It is refreshing, however, to note his mode of reasoning. He says in part:

"The idea of one man or a few men possessing the confidence of two opposing parties so far as to be able to reconcile their differences by their decision, is a beautiful one in theory, but, unfortunately, to be of any good in this sinful world, an idea has to be put into practical exercise, and to do this machinery must be put in motion. The machinery in this case is the human subject, with all his imperfections; and to err is human."

Apply the above objection to a court of arbitration, to any British court of justice today, and it will hold as good, against the latter as the former.

No one claims perfection for the New Zealand method of arbitration of today, and from time to time it will doubtless be improved as experience shows its defects, but it is the best means so far discovered of preventing industrial disputes without loss to the community and a sharp difference should be always made between those who honestly seek to improve its application, and those who oppose the method in any and every form.

NOTES AND COMMENTS.

A surgeon of Lyons, France, is reported to have replaced a patient's natural larynx and glottis with rubber substitutes, with which he is said to be getting along very well. He is thus made the only genuine rubber neck yet reported.

A hugging girl is terrifying the timid young men of Chatham, Ont. After bestowing an affectionate hug and kiss upon belated pedestrians, she disappears in the darkness. The new woman is striking out into fields which eccentric men have hitherto had all to themselves.

A few days ago a young lad entered a butcher's shop in Bridgewater, and when the proprietor appeared gave a rather small order. "You don't buy as much meat as you did a year ago," remarked the butcher. "No" responded the boy, "father's become a vegetarian." "My lad," came the grave retort, "you give your dad warning for me, that as a rule vegetarians come to a violent end. Take a bullock, for instance, he's a vegetarian. Wot's the result? Why, he's cut off sudden in his very prime!"

"There is no gratitude and little patriotism in business," said Col. Bell, late consul general for the United States in Australia, at a meeting of the London Chamber of Commerce yesterday at which Lord Brassey took the chair. "In Australia" he continued, "people are just as loyal as any in London, but they buy where they can get the best bargain. Americans have increased their sales in Sydney 300 per cent in seven years. Germany is a strong competitor, and would be stronger if she put as much integrity in her goods as ability in her commercial methods."

Col. Bell expressed surprise at finding how few people in London know anything about Australia, yet the Australians, he said, are the greatest commercial people in the world. With a population of four and a half millions they have a greater external trade than Russia, four times as great as Japan and twice as much as China with her 400,000,000 people. Col. Bell asserted that not a single nation possessed a consular service properly organized and adapted to the needs of the age. The American consular service, he said, would be a disgrace to Turkey.—London Mail.

While there have been many suggestions that newspapers should decline to publish any references to assassins, and should in this way discourage their desire for notoriety, the Sultan, according to the London Daily Mail, has already set an example in this regard. The Sultan's official organ, The Sabah, in reporting the death of Mr. McKinley, said: "Mr. McKinley, who has been suffering in health for some time past, has not recovered from his malady, and according to the telegrams which we print above, has just passed away." The Sultan's motive may well be imagined.

The mineral tax was imposed by the Turner government in 1896. It was made one per cent, not on the gross value of the ore, as the Engineering and Mining Journal would make it appear, but on the value of the ore after freight and treatment charges were deducted. This remained the law for four years, when the government discovered the payment of the tax being systematically evaded by mining companies like the Le Roi of Rossland. Proceedings were taken to compel the Le Roi to make honest returns to the assessor and collector. The evidence given during the proceedings clearly showed the government that if the mineral tax was to be an appreciable source of revenue, it must not only be honestly paid, but increased. At the session of the legislature held during the summer of 1900 the tax was made two per cent. Although the increased rate has been in force a year, the total received by the provincial treasury from that source has been less than that source \$125,000 on an output estimated at \$9,000,000 in value. If this is a statement of facts, the two per cent tax, levied because of barefaced attempts to evade one per cent, certainly has not caused the mining companies any serious loss, seeing that none of their mines or any of the improvements thereon are taxed as real estate or personal property.—Nelson Tribune.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours, REV. DR. MORRIS WECHSLER.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully,

O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full size bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

NOTICE!

To any customers who patronized us all the time while they have been at work, and especially to those with families, we beg to announce that we will trust them to all the goods they may need during the strike and will wait for the pay until they start to work again and be able to pay. To those who need other stuff, such as Groceries, etc., which we do not carry, and cannot get credit elsewhere, we will give them orders, on which they can get all they want on our account until the trouble is all settled. This is a bona fide offer, which fact can be readily proven when occasion makes it necessary.

A UNION SONG.

To the tune of "Marching Through Georgia."

Sing a song of Barney, O,
The man upon the Hill,
Who thought he was a mighty one
And perhaps he thinks so still,
He thought he was the magistrate
and jury all in one,
But he's only one small potato.

CHORUS.

Hurrah! Hurrah! the union makes
us brave,
Hurrah! Hurrah! our banners we
will wave,
Emblem bright of liberty, power
and unity,
Hurrah! for our union boys forever.

What's the matter Barney, O,
If you are so strong,
You need the aid of all the States
To help your cause along;
Better get the fighting troops now
in the Philippines
To help guard your friendless aliens

Chorus.

Sing a song of Barney, O,
And his scabbingers of woe,
How they tried with bribe and vice
The union to overthrow.
We're a mighty army boys, defeat
us they will never,
We'll stand by our union forever.

Sing a song of Barney, O,
Who's afraid of good daylight;
Who brings his scabs in boxcars,
Just to keep them out of sight;
But we're going to have a free show
in the "Le Roi Garden Zoo,"
Of the famous Barney-Thompson
"Goo Goo."

Chorus.

Firmly we will stand my boys
And ne'er undaunted be;
We'll never be defeated
And we'll let those monarchs see,
We are boys of British pluck, we
wont give up the fight,
Forever we will stand for our home
and right.

MINOR MENTION.

Hon. Smith Curtis, M. P. P., left for the Boundary country this morning.

Richard Plewman, managing director of the Winnipeg Mines Ltd., left for a short visit to the property today.

G. A. Sheron formerly with Morrison & Bryenton has returned from Wallace, Ont., and taken a position with the Great Northern railway here.

Hon. C. H. Mackintosh is at the coast now, but is expected to return early next week.

Geo. Wooster, of the Granby company, was in town last night and returned to Grand Forks this morning.

B. R. Warden, formerly of the War Eagle company, left Rossland this afternoon to take charge of the Silver Cup property in the Lardeau.

A grey eagle measuring 13 feet 4 inches from tip to tip was shot the day before yesterday at Comaplix. The man who shot it did not think it worth saving.

Mrs. J. B. McArthur has been very ill at Toronto with typhoid fever.

The fire department had a run at 7:30 last night caused by a bush fire on a vacant lot opposite Embleton's grocery store in the west end. No damage was done.

The members of Corinthian Lodge No. 27, A. F. and A. M. gave a very pleasant impromptu dance at the lodge room last evening.

John Milne and Sam Hollman, both old Rossland men returned last night from the Yellowstone mine, near Salmo.

There was a very pleasant dance at Mr. Hansom's residence on the White Bear addition last evening. About forty persons were present, and every one enjoyed themselves immensely.

BIG FOUR WORKINGS

Railway Spur for Shipments—Manager Off to Scotland.

The Great Northern railway surveyors are surveying a spur from the main line to No. 2 tunnel of the Big Four property in the west end. It will take about 700 feet of track to complete the switch, and grading will be commenced very shortly. Two shifts are at work in No. 1 and No. 2 tunnels, and when he present contract is completed both shifts will be put to work in No. 2 tunnel, as the showing there is particularly promising. The present showing in both levels is very good.

Manager Lawlor will leave for the old country very shortly, and may spend the winter there.

FIRE AT NORTHPORT

Department Extinguished the Blaze Before Much Damage Was Done.

Northport, Nov. 2.—The second story ceiling of a cottage on Silver Crown avenue occupied by Charles Lumgren caught fire from a defective chimney at half past twelve o'clock yesterday afternoon. The department responded promptly and the blaze was extinguished before much damage had been done. P. G. Murphy owned the building on which the loss was estimated at \$150 and which was insured for \$300. Mr. Lumgren carried \$1000 insurance on his furniture which probably was dam-

aged about \$300, mostly from water.

Keep Your Eye on Meteor

METEOR is the new high-grade mining camp in the south half of the Colville Reservation, seven miles west of the Columbia river, eight miles southwest of Daisy and 28 miles by good road from Meyers Falls. The townsite is in the centre of the rich aggregation of mines comprising the Meteor, Stray Dog, White Swan and Given groups, all of which are working in high-grade shipping ore. A great number of very promising properties are opening up in the vicinity. It is surrounded by a splendid agricultural, fruit growing and stock raising country, unequalled in the northwest, and has a splendid supply of timber for building and mining purposes, together with unlimited water power near it. It has already, besides a store, a number of buildings in course of erection, and a telephone service, saw mill, etc., will be in operation within a short time. Meteor is a high grade camp of the real Leadville type, the ores mined being gold, silver, lead and copper. Picked assays have given as high as \$140,000 to the ton, the average of the camp being about \$35. You can't afford to forget Meteor. Now is your time to get in at bed-rock prices.
