AMARILIS

TWO FOR A QUARTER

You say two cigars for a quarter ought to be good ones; well, these are good ones.

Made from selected tobacco by master workmen. They are good clear through.

Distributed by

L. LEVY & CO.,

Wholesale and Retail Tobacconists.

Next to Bank B. N. A.

Union Made Cigars.

Why not begin the New Year by smoking union made cigars? When you wish a smoke ask your dealer for a "W. B." or 'Crown Grant" Cigar.

Running Watches

In fourteen months the balance wheel of a watch turns on its axis (12,247,200,000) 12 billion, 247 million, 200 thousand times. It does not rest at night like ordinary machines, but keeps at its work incessantly, you oil an engine or sewing machine, but you forget your watch. If you let it run much longer it causes it to clog up, and get dry and therefore the fine pivots wear into the jewel holes, Treat your watch like you would any other machine, and it will give you good service if you let us attend to it for you.

THE COAL STRIKERS

Proposal to Submit to Arbitration All the Issues.

Scranton, Pa., May 8.—At 10:20 the executive committee took a recess until this afternoon. President Mitchell issued the following statement:

"The executive committee of the Anthracite Mine Workers' organization have proposed that all questions at issue between themselves and the Anthracite coal mine operators be submitted to an impartial board of arbitration, such boards to be selected by the industrial branch of the National Civic Federation. This proposition has been submitted to the operators by wire."

"Planter's Perfection Tooth Powder," none so nice and fragrant. Try it, Only at Rolls' drug store,

RICH STRIKE IN THE AURORA

Accidental Discovery of High Grade Galena.

Within the last week another strike has been made on the Aurora mine which is situated across the lake from town, says the Fort Steele Prospector. It being too wet to work in the main tunnel, the owners started some surface work about three hundred yards to the north west of the tunnel. There was no surface cropping, but on sinking to a depth of five or six feet a vein of solid galena three feet in width was encountered.

The ore is of a high grade and the discovery demonstrates more clearly than ever that the Aurora vein is the same as the St. Eugene which passes under the lake.

The property is owned by Tom Rader, Captain Sanborn and O. J. Johnson, and it is theri intention to thoroughly develop it.

Committed Suicide

Woodstock, May 8.—Thomas Wood, aged 50, last night ended his life with a bullet. He had been suffering from the after effects of fever.

C. M. R. EMBARK

Wild Enthusiasm at Halifax.

WESTERNERS MUCH ADMIRED

Cestrian to Sail in the Morning—Patriotic Spirit Still Alive.

Halifax, N. S., May 8.—Amid enthusiastic cheers of a large concourse of people with military music and gay fluttering of bunting the third regiment of the Canadian Mounted Rifles and a portion of the fourth, under the command of Colonel Williams and Major O'Farrel, second in command, embarked on the troopship Cestrian at 10 o'clock this morning. Thousands of civilians lined the route from the concentration camp to the pier. The third Royal Canadian Regiment band played the men to the trooper, and the men of other regiments gave their comrades a warm send-off.

A feature of the embarkation was the great demonstration made by the men from the west who, clad in picturesque uniform, took the position on North and Galtingen streets and were given the loudest cheering of the day. The appearance of the westerners was greatly admired.

Another feature was the cheering of the soldiers from the war ships Thistle and Charybdis now in port.

Pianos; Easy Terms; "Karn is King." G.A. Ohren, Agent, Opp. Hunter Bros, Phone 247.

Red Knights of the Cross.

Red Knights of the Cross at the Salvation Army, Monday and Tuesday May 12th and 18th at 8. p. m. The troop comprise a brigade of skilled musicians and songsters under the command of Brigadier Pugmire, and including Pearl and Willie (Miss Booth's orphans) in actions, songs and special musical drills.

SUSTAINS THE LAW

Adverse Decision to Companies Given by Judge Earl.

Albany, N. Y., May 8.—Judge Earl, referee in the matter of the constitutionality of the New York state franchise tax law declared the law constitutional on every point, and that companies must pay the tax to the localities.

The franchise tax law was passed during the administration of Governor Theodore Roosevelt. It was introduced by Senator John Ford, but was amended to the then governor's suggestion to make it less drastic.

Judge Earl's decision is adverse to the corporation on every point.

Honors for Canadians.

Hamilton, Ont., May 8.—A team of the Thirteenth regiment has captured first place in the Rupanyup competition open to all rifle teams in the British Empire, with a score of 986 or 98.6 per man.

For rent—A three room furnished house. Apply at this office.

SNOWSHOE'S NEW CONPRESSOR

Thirty Drill Plant Will Shortly be Installed.

Last week the work of clearing the grounds for the foundation for the new compressor to be installed by the Snowshoe management, was begun.

The new machinery will consist of the first half of a 30 drill air compressor, with the latest and most approved attachments, together with two 80-horse boilers, both being specially adapted for the work intended, and built to the order of the Snowshoe owners.

WANTED—To rent a Cash Register. Inquire at the Hoffman House.

IS NOT SATISFIED

U. S. Consul Powell Does Not Like it.

NEW DOMINICAN GOVERNMENT

Suspension of Relations With the Supreme Chief, General Vasquez.

San Domingo, May 8. — The change of government here has put a stop to the steps taken by Mr. Powell, United States Consul, to arrange a settlement of the claims of the Dominican Improvement company of New York, against Santo Domingo. He has suspended all intercourse with the revolutionary government and is preparing to leave for Hayti. These claims were being favorably considered by the government which has just been overthrown and were in a fair condition for settlement. The Dominican congress has been dissolved and a provisional government has been formed.

General Horacio Vasquez holds the title of supreme chief of the revolution.

GOOD STRIKE ON NORTH STAR

Contract is Let for a Tunnel 600 Feet Long.

The North Star Mining company, which has been closed down all winter, resumed operations about a month ago by putting on a force of 40 men, sinking deeper and drifting. After working a little over a week they struck a four foot ledge of solid galena, just below the 60-foot level, and about a week ago struck a very rich lead with the diamond drill. A contract has been let for a 600-foot tunnel into this last strike, and altogether everything is looking very promising at the mine.

Molly Gibson.

The steamer Kokanee yesterday brought in one car of ore from the Molly Gibson for the Hall Mines smelter.

MONTREAL SHIP LABORERS

Difficulty With the Leyland Line Settled.

Quebec, May 8.—Difficulties between the ship laborers and the Leyland line ended last evening in an amicable settlement. A proposal by Mayor Parent for an experiment by an experienced stevedore who shall load the two first Leyland liners arriving, at Montreal rates, while paying the Quebec laborers their usual rate of wages, has been agreed to.

OCEAN MERGER

Andrew Carnegie on the Situation.

THE FLAG COUNTS FOR NOTHING

Gives His Opinion for What it is Worth but is Pretty Dogmatic.

London, May 8.—Andrew Carnegie who sailed from New York, April 30th, on the St. Louis, arrived today and promptly proceeded to console Great Britain on the subject of the shipping combine, by saying there was no cause for alarm.

"To combine the shipping traffic" said Mr. Carnegie, "is a big order. There is free right of way on the ocean and the tramp steamers are always with us. The merger may give regular daily sailings to passengers, which will be advantageous. I am not in the navigation syndicate, having retired from business and reformed, so I cannot advise you as to the exact character and bearing of the combination, but in my opinion the combine is purely a matter of money making. There is no question of patriotism in trade. It does not care a fig for a flag. It is dividends that count.

Of course every citizen worth a cent wishes his own country to be first in everything and a peaceful, industrial victory is the only genuine one. Victory through war generally costs more than it is worth.

If Great Britain continues her costly wars for shadowy ascendancy in distant parts, and the United States develops her industrial army, there will be only one result, Great Britain will have the shadow and the United States the substance.

Mr. Carnegie reiterated to the interviewer his belief that Great Britain, in future, would form a state in the American federation.

"You must some day," he said, "turn your face to your kin beyond the sea. You are not to be an European power in the future; but, are to join with your own race in the west. Fortunately the feeling toward the old home was never so cordial as now, and the race patriotism has taken root."

Planters' Ext. Buchu" never fails to cure kidney troubles. Only at Rolls' drug store.

ANOTHER PORTFOLIO

Two Departments, After Redistribution, May Go to the West.

Ottawa, May 8.—Hon. J. H. Ross has been mentioned as a candidate for the Yukon. His name has also been put forward for the cabinet during the past year. It is not likely that he will enter the government without a portfolio, and the first vacancy with a portfolio is to go to British Columbia.

However, owing to the increased importance and growth of the west, it may be that two departments will go to the west after redistribution.

Nothing has been decided upon as yet.

FLOUR DUTIES.

In answer to questions put by Mr. Kemp, in the house of commons the other day, the premier let it be known that correspondence in regard to the wheat flour duties has been opened between our government and that of Great Britain. We take it that this implies that mutual preference is on the carpet. If Canada asked exemption from the grain and flour duties, the request would not, if granted, have the effect of taxing the food of the British workmen, but such exemption would tend slightly to lighten the new taxes on food. But if Canada had asked that taxes be put on wheat and flour, the produce of other countries, and to exempt those of Canada, she would have distinctly have asked that the British workmen be taxed for Canada's benefit. Since the taxes have been put on, preference to Canada would not hurt the British workman, but rather benefit him; one other effect would be to diminish the product the taxes, in a slight degree. In any case, these taxes are merely used as a means of adding a little to the revenue, in a time when war makes great demands on the national treasury. Apart from the exigencies of war, these taxes might probably be justified as providing the means of necessary expenditure in keeping accounts of the imports; and in this view they might be regarded as a small part of the cost of production, to which every expense, including delivery, appertains, if it were quite certain that the charges for the gathering of statistics belong to this category. In connection with the admitted official correspondence, there is nothing but the bare fact that it is taking place to communicate to parliament at present. Nothing definite will probably be done until the meeting of the colonial premiers in London, on the occasion of the coronation.—Monetary Times.

THE SCHOOLS.

Fifty years ago it was openly urged by the high and dry tory of that period that education was harmful to the masses, and that children had far better be left untaught where the circumstances of their parents did not warrant a liberal education. The progress of the world has left all such arguments behind it. It is no longer worthy of refutation. But the idea still lingers. It has its advocates in this very city. Heretofore these relics of a forgotten past have contented themselves with empty vaporings but action was definitely taken by the representatives of these men on Tuesday evening last at the city council.

It was of no avail that representations were made that there was no money in the city treasury for the most ordinary expenses, and that there would be a deficit at the end of the year of $4000 on the schools. Even if there were no no money deficit to be feared for the schools there is none that can be appropriated for anything beyond the most ordinary maintenance of the public highways.

In view of these facts this thing that is called a city council deliberately burked the issue. It would neither consent to even attempt to provide for this deficit in any way, nor would it attempt to make a set off against it by reducing expenditure in some other direction, for instance, foregoing the salary of its aldermen, but on the other hand it deliberately attempts to hasten the closing of the schools by voting the very money which could be used for keeping them open a week or so longer, towards building a sidewalk for the school children.

Can lack of administrative ability be more glaringly shewn than this? Can there be a worse example of ignorance and ineptitude? These western councillors can give points to the sorriest specimen of Bumbledo mto be found in the old country, written up and lampooned by Dickens.

Do these men think for one moment that if it is a question of the school teachers being paid or the aldermen that the public will hesitate as to whom the money should be given? What claim has the present council on the public sympathies? It has not introduced any measure dealing intelligently, or dealing at all, with the financial condition of this city. It has no anything to say on the matter. Its combined intelligence has not a a solitary suggestion to make. What is it getting paid for? What is it doing that it will establish its claim on the public treasury? Does it think that by closing the schools it will earn public approbation?

If the schools close there will not be a man on the council that will be again promoted to office in this city of Rossland and such a record will bar his aspirations in any other city in the Dominion.

The whole matter is an outrage on the public.

NOTES AND COMMENTS.

An alleged reason as to why McGuire left town is because he had a wire from Spokane asking him to confer with Frank on the police commissionership.

Coast papers say that if Dunsmuir gets turned out Dicky McBride will not be able to form a government. That may be true but let there be an election and the Kootenays will show the coast that they are equal to the job.

The Liberal association tonight is between the devil and the deep blue sea. If it carries the resolution approving of the lead duties it is helping the C. P. R. more than anyone else. If it turns it down the Slocan lead miners will not feel too grateful and a useful political pull will be foregone,

THE ENGLISHMAN IN CANADA

A Series of Cartoons by A. C. Racey Illustrating British Ideas.

In a series of cartoons "The Englishman in Canada," Mr. Racey has sought to convey a lesson of no small importance. He has tried to impress upon Englishmen the fact that the notions they have as to the climate and other conditions of Canada, are absurdly wrong. The average Englishman associates Canada with log shanties, bear hunting and snowshoes. He thinks that fur garments are absolutely essential. He cannot believe that all the comforts of civilization are obtainable in Canadian cities. He deems a dress coat an article of apparel unknown in this country. He quotes Gladstone as to the "huge ice bound deserts of North America" or Chamberlain's reference to the "terrible rigour of the Canadian winter" and is satisfied that he knows it all. He calls up pictures of predatory Indians and township burning and he has the idea that Vancouver, Winnipeg and Halifax are suburbs of Toronto or Montreal much about in the same way as Camberwell, Islington and Kensington are suburbs of London.

It is this species of ignorance that A. G. Racey has combatted in his series of cartoons, knowing that ridicule is a most powerful weapon, and has perhaps the greatest influence of any argument.

The series is published in pamphlet form at the moderate price of 25 cents, and every Canadian ought to buy a copy and, having had a hearty laugh, send it to some old country friend. Much good missionary work might in this manner be accomplished.

FIGURES TALK.

The fi th annual meeting of the shareholders of the Crow's Nest Pass Coal company was held in Toronto on March 7th.

The net profits of the year after paying all operating expenses and all charge of every kind, amounted to $207,848.39. After paying a dividend at the rate of ten per cent per annum, a balance of $28,142, 89 was carried forward to the credit of profit and loss.

This company's assets are their coal mines and the townsi e of Fernie. Four years ago this company had no transportation facilities, and their stock sold as low as eleven cents per share. Today their stock is selling at $90.

The Similkameen Valley Coal company, limited, assets are coal mines, timber, water power, agricultural and horticultural land, city water works, electric light plant and the townsite of Ashnola, surrounded by the following resources: gold, copper, silver, lead, iron, lime, fire clay, platinum, and a fine stockraising country, and it is the smelting center of the Similkameen valley, with a climate that is all that could be asked, You can secure an option on this company's stock by paying 10c per share down, and ten cents per month until fully paid, with non-forfeiture clause. This price is subject to twenty-five cents advance without notice as soon as transportation is assured. The present price is $1.10 per share. Do not wait until it is too late, but get in on the ground floor, and make a handsome profit. A purchaser of one hundred shares now, may gain a profit of $8,990. Crow's nest shares as an example. This would be a fair profit on an investment of ten dollars per month for eleven months. We invite the fullest inspection of the company's affairs by intending purchasers. For further information apply to the

Similkameen Valley Coal Co.,
LIMITED.

BOGUS ORDERED CLOTHING

Ready made clothing manufacturing establishments have what they call custom departments, and clothing dealers in the city carry their samples and advertise tailor-made clothing to order at half best tailor's prices. This class of tailor-made clothing ought to be, and is classed with BOGUS ARISTOCRACY, SHODDY, PASTE DIAMONDS and BRASS JEWELRY. Many men who can afford better and who would not wear paste diamonds or brass jewelery are induced by lying and fraudulent advertisement to order one of these shoddy, sloppy, ready-made suits to order. We admire artistic dwelling houses with well-kept grounds, etc., they attract our attention. In the same way we admire stylish, good-fitting, well-made clothes. All men should dress well and appear to the best advantage. This is a duty they owe to society. A well dressed man will win the best positions ahead of the man who wears cheap made clothing.

Young man, if you want to marry a good-looking, smart, tidy, intelligent young lady do not buy bogus-ordered, ready-made clothing. She knows it at a glance. It makes you look cheap, and she won't have you. Married men, if you want to keep the love and affection of your wives, don't wear them. Get your clothing made by Taylor & McQuarrie, who cut by the 20th century system. Your coat will never shrink on the shoulder, nor down the front, and will always hang right; your trowsers will be right, sitting or standing. Suits cannot be made right for less than our prices.

THE LEAD DUTIES

Meeting of Liberal Association Tonight.

INDICTMENT OF THE C P. R.

Case For and Against the Imposition of a New Tariff.

There will be a special meeting of the Liberal association of this city tonight at 8:30 o'clock at the board of trade rooms to consider a resolution by H. W. C. Jackson dealing with the duties on lead. Mr. Jackson advocates an immediate advance in the tariff on the importation of pig lead, white lead, red lead, litharge and other manufactures of lead at present only having a small import duty placed upon them, and further advocates the doubling of the present bounty on lead for the next five years, providing always that no more than $100,000 be paid in any one year.

The reasons for this course of action are asserted to be that the Kootenays are dependent upon the production of lead for their well being and that the present low price of lead is due to hostile United States tariff regulations and to the smelter trust.

It is also asserted that this low price is due to the alleged inability of the lead producer to secure the home market for his product and that that home market will never be secured until a tariff is so placed that the establishment of corroding plants can be accomplished in this country.

It is admitted that the placing of this duty will raise the price of lead paint, but it is asserted that this province has to pay big prices on many articles just to benefit the eastern manufacturer and is itself entitled to some protection for its manufactures and raw products.

On the other side of the question there are plenty of arguments which will doubtless be used, but they are best summed up by the Sandon Paystreak, which states the adverse case as follows:

"The Canadian Pacific has the key and could summon prosperity in the lead camps by giving up its rakeoff of $1 a hundred for freight to London, but as this is evidently part of the arrangement with the trust, it is not in the least likely to do so. The Trail smelter is, of course, the greatest profiter by the present arrangement. This concern is the property of the directors of the C. P. R., who are prostituting the policy of the railroad for the benefit of their own pocket. How long they will be able to continue doing so is of course a guess, but so long as the C. P. R. pays regular dividends and the stockholders of Belgium and Great Britain are unaware of the circumstances the gouge will no doubt continue.

"Sizing the matter all up, there is only one safe and legitimate relief—a government smelter and refinery."

ABOLITION OF WARD SYSTEM

Experiment in Municipal Government in St. Johns, Nfld.

An experiment in municipal government that has more than passing interest for Victorians, says the Victoria Colonist, is about to be tried in St. Johns, Nfld. The ward system is to be abolished and the city at large will elect a mayor and six councillors, and every householder or ratepayer will have a vote. The mayor's "honorarium" is the modest sum of $600 per year, while the aldermen content themselves with $150 each.

JUMPED FROM A MOVING TRAIN

Hamilton Artist Pays for His Temerity With His Life.

If you want a nice smoke ask for La Federal at Ed. Farnsworth's cigar store

If you want first-class bottled goods go to the International Family Liquor Store.

MIGHT BE THOUGHT PERSONAL

"Is Marriage a Failure" at the Opera House Tonight.

There are so many grass widowers (and quite a number of grass widows) around this camp that the production tonight at the theatre of the play "Is Marriage a Failure" becomes almost a personal matter. The Empire company has had up to the present, much smaller houses than it is entitled to by the really meritorious character of its acting and the wholesomeness and popularity of the dramas staged, but if ever it is going to have a decent house it ought to have one tonight.

The WORLD has not met a single person who has been present during the week at the opera house who has not had word of praise for the actors. Last night's play was excellent and tonight's promises to be even better.

For high-class family liquors go to the International Family Liquor Store.

Try our Sunday dinner only 50 cents, including bottle of wine at the Palace.

Olicans, smelts, brook trout, halibut, salmon, fresh herring and crabs at the B. C. market, Columbia avenue.

Before you get that new spring suit, come and see us! we know that we can please you, both in price and quality of goods, Comerford & Cameron the leading tailors.

STOCK MARKETS

Shares Again are on the Rise.

SALES TODAY WERE NUMEROUS

The Latest Quotations and Sales Locally and on the Toronto Market.

It is a pleasure to be able to say, especially after the pessimistic vaticinations of the past few days, that the stock sales of the day are more numerous than of any day for a week past, and further that most of the stocks are again on the rise. It is possible that the news of the dividend on the Le Roi No. 2 has had something to do with this improvement, but there are several properties listed below whose merits are far in advance of the quotations.

Today's quotations and sales here and in Toronto.

Today's Toronto Quotations.

MINOR MENTION.

George Pfunder is in the city.

Gonzolas at the International is a regular twister.

J. P. Harper has got back from a business trip to Kamloops.

An incorrigible drunk was fined $5 this morning at the police court.

An official critic thinks the WORLD is coarse but means well! Next.

Mrs. Langlois is taking a trip to Colville putting her son to school.

The WORLD wants some magazines to send down to the pest house.

The Le Roi took on some more men. Now don't all make a rush for the vacant town lots.

The city engineer is trying to repair the flume at the corner of Washington and Columbia.

There will be a large number of candidates seeking initiation at tonight's meeting of the Eagles.

The only optimist in town with the exception of the editor of the WORLD is George Bayne. Shake.

Chinamen will find it cheaper to move now than later, especially if they are in the laundry business.

It is stated that Hugh McGuire declared that he knew too much to be kept in for 20 days. Now what did he know?

The police commissionership goes a begging. Taking the job now is like panning a placer after a Canadian has worked it.

In taking a stand against the sidewalks the mayor showed he was not a wooden man, even if he has been compared to a zoophyte.

Our local poet is writing "The Flight of McGuire." The poem ought to be dedicated to Dogberry Ingram and Varges Bradshaw.

Sergeant Brahshaw arrested an Italian on First avenue this morning for being drunk and disorderly. On his arrest he was found to be packing a gun. He will now be charged with carrying concealed weapons.

Rumors are persistent that Barney is again to take charge of the Le Roi. Rumors are also persistent that the mine will close down for a year. Gentlemen take your choice of either proposition, for the two together are incompatible.

Captain P. McL. Forin has re-resigned the command of the Rossland Rifles. As Lieut. Kenneth Burnett, the senior officer of the corps is thinking of leaving the city, the choice would seem to lie between Captain Hart-McHarg and Captain Van Buskirk, if either is desirous of filling the position.

"Planter's Rheumatic Cure," the great remedy for acute and chronic rheumatism. Only at Rolls' drug store.

Camborne Group.

The last of the machinery for the Camborne group, Fish creek, is now up to the mine and they will now proceed to place it in position. They have sixteen men working and are pushing operations as fast as possible.

The Dancing Controversy

Ottawa, May 5.—The Rev. Mr. Bland of the Eastern Methodist Church protested in his sermon last Sunday evening against the rule of the church which prevented members from dancing.

Lardeau Railway

R. Marpole informs the Vancouver Province the Lardeau line of railway connecting Kootenay and Trout lakes will be opened for traffic by June 15, or in any event not later than July 1, and a country of large resources opened up.

An Old Rosslander

Mr. Arthur Hickling, of London, England, is on his way to Princeton, says the Similkameen Star, and will reach here sometime during the present month.
