MINING AWAY UP

South Africa Will Now Come to the Front.

JOHANNESBURG IS READY

The Mines Are Re-opening and the Prospects for Good Government Grow Better Daily.

New York, May 18.—The evidence is not lacking, says the Tribune's correspondent, that there will be a South African Mining boom before many weeks. Johnannesburg is gradually filling, the mines are re-opening and arrangements are making for the re-organization of the government of the town. The re-opening of the "Kaffirs circus" would have at least one good result—it would engross the attention of the capitalists class and allow it less leisure for meddling in the government of the new British colonies. Some of Milner's recent appointments in the Transvaal have excited much criticism. The eight powerful groups of capitalists have been represented too conspicuously in these appointments and a feeling of distrust have been created which tends to retard the pacification of South Africa. It is said that Gen: Botha as soon as he learned that Sir Alfred Milner was about to leave South Africa, sent a mounted message to Gen. Kitchener with a view to the re-opening of peace negotiations. Gen. Botha wanted to communicate with Mr. Kruger, but Lord Kitchener said he could have no dealings with the ex-president.

MUCH BETTER.

Mrs. McKinley's Condition has Decidedly Improved Today.

San Francisco, May 18:—6 a. m.—There apparently has been no change in the condition of Mrs. McKinley during the night. Everything is quiet at the house. No official bulletin is expected before 8 o'clock.

Secretary Cortelyou gave out the following statement: Drs. Hirschfelder, Gibbons and Cushing met Dr. Rikey at 8 a.m., and found Mrs. McKinley's condition decidedly improved since last evening.

Where did you get that swell suit? Why at Heard & Shoult's, the west end tailors. If you want one like it call and see them. 3 t

The Ohio Launched.

San Francisco, May 8.—Miss Barber, niece of Mrs. McKinley pressed the button, Miss Dashler smashed a bottle of champagne and at 12:25 p.m., the battleship Ohio, took her first dip into the sea.

Took Poison.

Vienna, May 18.—A story is current here that the queen of Servia took poison when the king discovered the situation caused by the conflicting statements regarding her health and that the queen is now dangerously ill.

Home From Manila.

San Francisco, May 18.—Brigadier Generals Frederick D. Grant and J. C. Bates have arrived from Maniia on the transport Sheridan. Among the passengers on the Sheridan is Calvin P. Titus, the musician of company E. 14th Infantry, who was the first to scale the wall of Pekin when the allied forces attacked the Chinese capital. Titus received a special appointment to the Annapolis Naval Academy by President McKinley and is on his way to that institution. Edwin Carson, a signal service man, whose bravery also was rewarded by the president, appointing him to West Point, is another passenger.

We want te call your attention to the way we do business. Everything in our store is up-to-date; best quality of clothes, good fit, prices reasonable, and work turned out when promised. McMillan, the tailor, tf

BAD FOR MARY.

Washington Murder Case Before Coroners Jury Today.

Washington, D. C., May 18.—The coroners inquest into the mysterious murder of the young census clerk, Jas. Seymour Ayres, Jr., at the Kenmore hotel last Wednesday morning was begun at the Sixth street police station today. The evidence given indicates that Miss Mary Minas, a young lady living in the next room to the murdered man, is implicated in the affair.

THE ABANY STRIKE OVER

Agreement Come to—Troops to go Home—Cars Running Today Without Interruption.

Albany, May 18. — President Sheehan of the Albany union of the striking car employes of the United Traction company is authority for the statement at 8.30 o'clock that the Troy union has accepted the propositions make by the Albany union and agreed to by the United Traction company, and the lines in all five cities will be running by 12 o'clock with the old men.

Resumed Work at Noon.

Albany, May 18.—The strike is over. A thousand men in five cities who have been idle for seven days returned to work at noon. Forty-six miles of track that has rusted for a like period, except where a guarded car sped over it, began to be polished by the schedule running cars.

Three thousand members of the national guard in soggy clothes from a drenching rain began preparations to go home.

The strike has been of 12 days duration and the total cost of it in all ways to date is estimated as follows: Loss of life two prominent citizens; cost to the company, $19,424.04; cost to the strikers' $17,820; cost to the country, $33,700; total, $68,943.03.

By the agreement arrived at it is provided that there will be no discrimination against any of the men on account of the strike of May 7, 1901, but this shall not apply to those under arrest or who within the next ten days may be placed under arrest charged with the commission of unlawful or riotous acts until the executive committee, on a hearing given to such persons, shall be satisfied that there is reasonable doubt of their guilt.

Both sides to the controversy made concessions and when the papers were signed both claimed a victory.

Wanted.

Old rubber boots and shoes, old brass and copper. Send at once to Richard Altman, Washington street, opposite Allan hotel. tf

BIG ORE OUTPUT

The Ore Shipments for Week Rank Second.

THE TOTAL IS 10,531 TONS

Le Roi Heads List as Usual—Centre Star and Le Roi No. 2. Well Up—The Details.

As was expected the ore shipments from Rossland camp for the past week have again made a great showing, ranking second in the year so far.

The estimate shows that 10,531 tons were sent out up to 3 p.m., this afternoon from the same hour a week back. The estimate will be found a trifle under the actual figures, but is as close as can be obtained until the corrected shipments are filed.

Appended is a list of the shipments for week ending today in detail:

Week ending May 18.	Tons.
Le Roi	5600
Centre Star	2046
War Eagle	870
Le Roi, No. 2	1260
Great Western	735
Iron Mask	20
Total	10,531

We can suit you both ways, in cloths and prices. Heard & Shoults, the west end tailors. 3-t

More Strikes.

St. Albans, Vt., May 18.—Two hundred and fifty machinists and metal workers in the locomotive department of the Central Vermont, railroad shops struck here today, nine hour work days have been refused by the company.

Elizabeth, N. J. May 18.—All the machinists and all the employes in the other shops of the Central railroad of New Jersey here went out on strike today for a nine hour work day.

Eclipse Today.

Port Louis, Mauritius, May 18.—The total eclipse of the sun was well observed at the Royal Alfred Observatory. The eclipse was partly lost through a cloud and the first contract was entirely lost. The last three contracts were well observed.

Fatal Accident.

St. John, May 18—W. J. Price George McCluskey and Charles Wilson, all men in prime of life, dead, and Joseph Nesbitt, Robert Logan and Henry Codger injured, is the result of the collapse of a 107 foot chimney at Jewals sawmill at Midgeville.

STARTING WORK.

Great Northern Men Busy in the Boundary.

A party of Great Northern engineers and surveyors reached Greenwood on Wednesday and camped near the Elknorn brewery at the north end of the town, says the Times.

Although numerous reports have been sent out that a line of railway would be run from Carson to tap Phoenix and Summit camp, indications now point to the commencement of the line tapping the Boundary camps from Midway. On a three per cent grade the line from Carson to Summit camp would be 26 miles in length and only serve three camps while the line from Midway up the Boundary vally through Greenway to Summit and Phoenix camps would be the same length and with short spurs would tap Smith, Deadwood, Copper, Providence, Long Lake, Summit, Phoenix and Wellington camps.

MAFEKING DAY.

Today is the first anniversary of the relief of Mafeking, it being just a year ago that Baden-Powell and his gallant little garrison were set free and the besieging Boers driven off by Col. Mahon's force. What a shout went up all over the empire when the news arrived, and will anyone forget the celebration here and in other Kootenay camps. The relief of Ladysmith, Kimberley and other towns, while gladly received, produced no such furore as was witnessed on Mafeking day.

The length of the siege, 213 days, and the gallant defense offered, turned the eyes of the civilized world on this little speck in the African map. The garrison had flashed out dispatches to the Queen during the long siege declaring their loyalty and unalterable determination to hold the town at all costs. They were hard pressed and it looked as if they must give in before relief could reach them. We had already heard of too many white flag affairs during the campaign and too many disasters to make the daily war bulletins at all pleasant reading, so that the plucky and resourceful stand of Baden-Powell and his men came as a welcome change.

And so it happened that a year ago today Rossland, in common with the rest of the empire, went wild over the raising of the third longest siege in modern history. The Boer war still drags on and many brave men have fallen almost unnoticed, but Mafeking has made a niche for itself in the world's temple of fame.

NO RAILWAY SUBSIDY.

In the Dominion estimates just brought down no provision is made for any railway subsidy for British Columbia. It is admitted that this province contributes more per capita to the federal revenue than any other and that it was entitled to generous treatment at the hands of the government. Mr. Dunsmuir and Mr. Eberts, on behalf of the province, visited Ottawa in January last and, it is said, placed our claims for special consideration before the Dominion cabinet. It has been apparently without any results.

And now see the beauty of party politics and watch the hide bound party press. The Tory papers throw all the blame upon the Liberal government and appeal to the electors to remember at the proper time how Messrs. Templeman, Maxwell, Morrison and Galliher succeeded in forcing our claims for recognition upon the party. The Grit press in turn, driven into a corner if the truth be said, evolve several reasons for the omission. Our provincial government, they say, is really so very bad that it could not be trusted and Sir Wilfrid preferred waiting until a change came about in the British Columbia ministry. Others less skilfully admit that our representatives were divided and did not pull together. Had the members from Victoria in the house been Liberals all would have been well, and in that event the fact of Maxwell not being in good standing with the powers that be would not have prevented a grant being given.

While the party press are quarreling with one another over the reason, the unpleasant fact, that we have been passed over in the annual distribution at Ottawa when the province greatly needed aid, remains unmistakably clear.

That the needs of a great and growing province should be quietly set aside upon any of the grounds alleged, paltry and miserable as they all are, is not a pleasant matter to think about.

In the last campaign in Yale-Cariboo the one consistent cry of the Galliher supporters was: "If we are to get aid from a Liberal government we must elect a Liberal member." Well, we elected a staunch supporter of the government and much good it has accomplished. It is impossible to imagine that Mr. Foley, had he been returned, could have had less weight and influence with the party in caucus or with the cabinet than Mr. Galliher has succeeded in proving he himself has. It would have been stronger and wiser to have chosen Mr. Foley.

EDITORIAL NOTES.

Under the headline of "Just dawning upon them now," the Lardeau Eagle says: "The Rossland Miner says editorially: There seems to be a remarkable unanimity of opinion that one of the chief factors among the causes which are responsible for the temporary depression which is felt in local mining circles is the failure of certain influential parties entrusted with the management of large properties to properly conduct their affairs."

The Canadian Socialist league, with headquarters in Toronto, has arranged to place an organizer in the field. He will visit British Columbia during the summer and the organization throughout the province will be put into practical shape.

Just received a new consignment of wall papers. Latest styles. Daniels & Chambers. 'Phone V. & N., 182. tt

A Queer Lay-Out.

Wobble, wobble, Centre Star,
What a queer lay-out you are!
Down so low and up so high;
Like the kites the kiddies fly.

First you're rich and then you're poor;
Now in good—then "barren" ore:
Letting out and widening in
Whisper, say! who holds the string?

Fall'n from your position proud,
Now you're hid behind a cloud.
Is that cloud born of the skies,
Or merely dust to blind our eyes?

Does it really mean good night;'
Or is it just a game of 'kite?'
None of us know what to think,
Can't you twinkle us a wink?

Lord! but 'twas an awful dive
From where you stood to thirty-five:
But I got out at dollar ten,
At thirty cents I'm in again.

I'd dearly like to buy some more:
But what about that 'barren' ore?
Just whisper now—I'll stand the shock,
Does 'barren' ore mean 'barren' rock?

And you, proud Eagle bird of war!
Are you still to sick to roar,
Are your plumes in such a mess,
That you scream in such distress?

Don't your 'innards' feel quite right,
Or is it true that 'parasite,'
Has left you sadly in the lurch?
Cheer up! we'll fumigate your perch.

You were ne'er so sick before,
Are you too in barren ore?
Pray relieve my keen suspense,
I'm holding you at ninety cents.

When 'Monsieur Le Barren's' gone,
'Way back, home to fix his lawn'
Praps you'll take another flight,
If so scream 'Yea' and set me right.

H. F.

THE HOMESTAKE.

The Rise in Shares—What the Manager Says About the Mine.

The quick rise in Homestake stock which took place yesterday and the demand for the shares demonstrates a revival of the interest in the mine caused by the discovery of the ledge last winter.

Manager Sam Hall stated this morning that the upper workings of the mine were now quite clear of water and that he was off to make a thorough inspection of all the workings.

"We are not making very rapid progress in the 100 foot upraise from the lower tunnel to hit the main shaft" said the superintendent, "because the air is bad in the upraise, it being a long way (1400 feet) in from the mouth of the tunnel, and it takes time to get rid of the smoke and gas after firing. We hope to complete the upraise in about ten days or two weeks.

A BIG FIRE.

Large Building Burnt to the Ground—Loss $25,000.

This would not have happened if the building had been lighted by electric lights. Besides coal oil is costly, and there is the trouble of filling lamps, taking care of wicks and the breakage of chimneys. Electric light reduces the cost of your insurance, lessens the danger from fire and adds to the comforts of the store and home. Electric power supplied for mining and manufacturing purposes. Motors for rent or sale. Estimates furnished for wiring and lighting. Ring up 'phone 67. Rossland Water and Light company.

BY-LAW NO.....

Being a by-law of the corporation of the City of Rossland to raise by way of debentures the sum of twenty-five thousand dollars ($25,000) to extend the present city water works system and to repair and reconstruct same.

Whereas, for the purpose of extending the present city water works system by taking water from Rock Creek in the district of Kootenay and for the purpose of repairing and reconstructing said system, it is deemed expedient to raise, by way of debentures, a loan of $25,000, repayable on the 30th day of June, A. D. 1926, with interest in the meantime payable yearly at five (5) per centum per annum, such loan when raised to be applied for the purpose aforesaid:

Whereas, the total debenture debt of said city is $227,000 and the total debt of said city, including said debenture debt, is $269,000:

Whereas, the amount of the whole ratable land and improved real property, according to the last revised assessment roll, is $1,669,740:

And whereas, for the payment of said debentures, sinking fund and interest, it will be necessary to raise the sum of $1,935.75 by a special rate in each and every year:

And whereas, for the purpose of raising the said yearly sum of $1,935.75 an equal special rate on the dollar will be required:

And whereas, this by-law shall not be altered or repealed except with the consent of the Lieutenant-Governor-in-Council:

Now, therefore, The municipal council of the corporation of the City of Rossland in open meeting assembled enacts as follows:

For the purpose of extending the present city water works system by taking water from Rock Creek in the district of Kootenay and for the purpose of repairing and reconstructing said system, it shall be lawful for the Mayor of the said City of Rossland to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures hereinafter mentioned, the sum of $25,000 and cause the same to be paid into the hands of the City Treasurer of the said City of Rossland, for the purpose aforesaid, and with the object hereinbefore recited.

It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of $25,000 for such sum of money, not less than $100 each or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of $4.86 to the pound sterling, as may be required; and all such debentures shall be sealed with the seal of the corporation of the City of Rossland, and shall be signed by the Mayor of said city.

The said debentures shall be made payable in twenty-five years from the date herein mentioned for this by-law to take effect, at the Bank of British North America in the City of Rossland.

The said debentures shall have coupons attached for the payment of interest, and shall bear interest at the rate of five (5) per centum per annum from the date thereof, and said interest shall be payable yearly on the 30th day of June in each and every year, at the place where said debentures are payable as aforesaid.

A special rate on the dollar shall be levied and raised in each and every year, in addition to all other rates, on all ratable property of the city, sufficient to pay interest and create a sinking fund for the payment of the debt hereby created as and when the same shall become due.

The sum of $1,250, shall be raised annually for the payment of the interest on the amount of the debt incurred during the currency of the debentures hereby authorized to be issued.

The sum of $685.75 shall be raised annually for the payment of the debt hereby incurred.

It shall be lawful for the corporation, from time to time to purchase any of the said debentures at such price or prices as may be mutually agreed upon, and all debentures so purchased shall forthwith be cancelled, and no re-issue of any debenture or debentures shall be made in consequence of any such repurchase.

This by-law shall take effect and come into force on the 30th day of June, A. D. 1901.

Done and passed in open council this 14th day of May, A. D. 1901.

STOCK MARKETS

A Lull After Yesterday's Brisk Business.

B. C. STOCKS IN LONDON

Settling Day for Great Western and Kootenays May 21--Today's Sales and Quotations

The local stock market was quiet this morning. After the great activity of the past two days this was to be expected. Centre Star sold up to 37½c and 2000 Rambler-Cariboo sold around 27c.

The latest news from London by mail referring to British Columbia stocks shows that early in the month they had an irregular tendency, prices being a little lower than previously.

The special settlements in Rosslands and Kootenays have been fixed for May 21, and in view of the recent advance in the shares there was some disposition to secure profits. As regards other descriptions a hesitating tendency was generally noticeable.

Today's Toronto Quotations.

	Asked	B'd
War Eagle	23	19
Centre Star	40	37
Iron Mask	32	24
Rambler-Cariboo	28	26

To Strike Monday.

Cleveland, O., May 18.—The 2000 union machinists of this city held an enthusiastic meeting last night and demanded that a strike be inaugurated Monday morning.

Strikes in St. Petersburg.

St. Petersburg, May 16, (Thursday)—Strikes, accompanied by street disorders have broken out here. The police arrested 132 persons. Several large spinning establishments and other factories are involved.

ACCIDENT THIS MORNING

Falling Rock Badly Crushes a Miner in the Le Roi--Is Now in the Hospital.

About 10 o'clock this morning John Deegan, a miner working at the 500 foot level of the Le Roi sustained severe injuries from falling rock.

Deegan was immediately removed to the sisters hospital and Doctor Bowes was called in and with the assistance of Dr. Campbell the injuries were ascertained and the wounds were dressed.

The unfortunate man was resting easier this afternoon but his injuries are unusually severe. The left leg was fractured above the knee and the right was fractured at the knee. The left hip was dislocated and besides some scalp and head wounds the patient suffered some minor injuries.

Deegan is an old Rossland man but has returned here only recently from Republic and was working on his fifth shift when the accident happened, he came here from the Coeur d'Alenes originally. His home is in Burke, Idaho where his father resides. He is about 27 years old and is unmarried.

If you have a room to paper or a house to paint get estimates from Daniels & Chambers. 'Phone V. & N., 182. tf

MINOR MENTION.

John Jackson, Jr, American vice-consul, left for Spokane today.

William Willan, who was the miners' union representative on the School of Mines board, will leave for Alaska tomorrow morning.

The Nelson public schools have been closed in order to fumigate them, owing to the prevalence of scarlet fever. The schools will reopen Monday.

Spring floods are doing great damage in and around Nelson and over the Nelson, Northport branch of the Great Northern. No trains ran to Northport yesterday, several washouts having taken place. Nelson passengers for the south are obliged to go via Rossland until the line is repaired.

The bazaar held in Miners' Union hall by the Ladies' Aid society of the Methodist church, closed a very successful two days sale last evening. A satisfactory sum was realized, but the expenses were somewhat heavy The gross receits were $320.

A large party of engineers and surveyors left town for the Boundary this morning.

It is said that the C. P. R. Lardeau extension line is only stopped for the present owing to the urgent desire of the C. P. R. to commence work in the Boundary where the Great Northern people are now busy. The Lardeau branch will be taken up in a short time, and will be built this season, at least it was so stated last night by one of the parties in charge of the work. who was here.

LATEST FROM THE NORTH.

The Yukon is Open--Weather Warm--Ice Going Very Rapidly.

Victoria, B. C., May 18.—Steamer Danube arrived this morning from Skagway, and news was received by her from White Horse under date of May 13th, that the Yukon is open to head of Labarge and from foot of Labarge to Big Salmon. In fact the river was open at every point where branch steamers entered. Weather was quite warm and ice was rapidly thawing. Steamers were expected to be running in a few days.

Just received a consignment of the latest designs in wall paper at F. W. Pretty's. tf

McGILL MEN HAVE ARRIVED

Special Car Comes in on Noon Train Quite Unexpectedly—Party Are Quartered at War Eagle.

The party composing the summer school in mining of McGill university who arrived in the city this morning consists of Professors Porter, Adams, Draper, Evans, and seventeen third year students in mining.

They were timed to reach the city at 10.40 p. m. but this was first changed until an earlier hour in the afternoon and, finally the special car came in with the regular noon train. There was no one at the station to meet the party as they had changed their arrangements as stated. In the Afternoon Mayor Lalonde and others called on the party and later the special car was run up to the switch near the War Eagle steps where it will remain while the party are here.

THE NEW YORK CASE.

Police Unable to Account for Father Phillips' Death.

New York, May 18.—The detectives today were still searching for the women that were in "Dr." Stanley's room with Father Phillips, and were trying to trace Stanley's movements since the priest's death.

It is now supposed that Phillips and Stanley had been drinking together and that Phillips died from a bodily complaint from which he had been suffering for a long time. The priest's body will be sent to Hazleton, Pa., today.

A BIG FIRE.

Large Building Burnt to the Ground--Loss $25,000.

This would not have happened if the building had been lighted by electric lights. Besides coal oil is costly, and there is the trouble of filling lamps, taking care of wicks and the breakage of chimneys. Electric light reduces the cost of your insurance, lessens the danger from fire and adds to the comforts of the store and home. Electric power supplied for mining and manufactnring purposes. Motors for rent or sale. Estimates furnished for wiring and lighting. Ring up 'phone 67. Rossland Water and Light company.
