A Series of Articles Describing their Lives, their Aims and their Influence.

JOHN W. YOUNG.

59

JOHN W. YOUNG Prince Albert Times.

The west is offering eloquent inducements to the younger journalists of the east...

During the past few years the number of these young men who have left the confines of the older provinces...

One of these is Mr. John W. Young, who in company with the well known young newspaper man, R. P. Laurie...

The parents of Mr. Young were among the early residents of Chatham, his father was a carriage builder...

Equipped with a very fair education and a good measure of self-reliance, Mr. Young accepted his first newspaper position at the age of twenty...

Since taking over the Prince Albert Times, from the estate of the late J. D. Maveety, last year, the new firm have more than trebled the plant...

Mr. Young was married in Chatham in 1904 to Miss Houston, daughter of Mr. M. Houston, police magistrate...

Known to Thousands.—Parneloe's Vegetable Pills regulate the action of the secretions, purify the blood and keep the stomach and bowels free from deleterious matter...

Cardinal Francis Segna, who is a member of the congregation on ecclesiastical affairs, says the Vatican does not expect practical results affecting the situation in France from the assembly of bishops.

Herr von Kosewiski, of the Prussian diet, and Herr von Chrysanowski, a deputy in the reichstag—were put on trial for holding a secret political meeting.

Minard's Liniment Cures Distemper.

"Mr. Bryce will find Canada is not deficient in that national sentiment of which he is in certain circumstances so ardent an admirer," says the Pall Mall Gazette.

Professor de Martens has been sent from St. Petersburg to visit the capitals of other European nations and to see United States Ambassador Tower in relation to a date for a peace conference at The Hague.

Life as a Coal Passer.

The call to go up the ladders was the sweetest sound I heard throughout the trip. First, the men to relieve us would come clattering down, and soon after we were free to go back again to daylight and fresh air.

One day, I decided to try to escape a watch. The night before I hardly slept at all, my eyes were painfully sore from cinders getting into them, and I was generally pretty well used up.

"Well," he said in English. I dwelt mainly on my sore eyes, telling him how the heat inflamed them. "Let me see them," and he threw back the lids in turn, washing out each eye as if it had been a marble-top table.

"How about them now?" he questioned, after throwing away the blackened cloth. It would have paid to tell him that they were better if only to keep him from going at them again.

"Oh, be my 'me back!" I replied, glad to shift the doctor's attention in that direction. The worst he could do to my back was to put a plaster on it, I reasoned, and this would almost certainly relieve me of one watch at least.

"Don't stoop so much," was all he would recommend. "What else?" "Well, doctor," I pursued, "I'm sick, sick all over. I need at least one watch to rest up in."

"What does the story of the prodigal son teach us?" asked the Sunday school teacher. "It teaches us how to get rid of the fatted calf," said the bad boy.—Army and Navy Life.

Little Frances had begun to write letters under the supervision of mamma. Last week her mother was away on a visit, and Frances decided to write to her without help. She managed slang and the new mode of spelling in one sentence: "Grandma got a letter from anty, and the news in it nook her out."—New York Press.

They Advertise Themselves.—Immediately they were offered to the public, Parneloe's Vegetable Pills became popular because of the good report they made for themselves. That reputation has grown, and they now rank among the first medicines for use in attacks of dyspepsia and biliousness, complaints of the liver and kidneys, rheumatism, fever and ague and the innumerable complications to which these ailments give rise.

Cheerfulness is a sign of sanity. It is the person who has no laughter, no fun in his nature, the person who becomes morose and melancholy who is in danger of losing his balance.—Success Magazine.

One Short Puff Clears the Head.—Does your head ache? Have you pains over your eyes? Is the breath offensive? These are certain symptoms of Catarrh. Dr. Agnew's Catarrh Powder will cure the most stubborn cases in a marvellously short time. If you've had Catarrh a week it's a sure cure. If it's fifty years' standing it's just as effective. 50 cents.—57

The London Globe, referring to the proposed flag for Canada, says it is pretty certain Canada will soon decide on something better than the complex emblem.

Itch, Mange, Prairie Scratches and every form of contagious Itch on human or animals cured in 30 minutes by Wolford's Sanitary Lotion.

Hardy Eels. Some eels are hard to kill. A fisherman of Port Isaac, Cornwall, England, recently cut up a large conger eel he had caught for bait for his lobster pots and twenty minutes afterward picked up the head to throw it into the sea. The jaws of the eel's head opened, and the fisherman's forefinger was seized between the sharp teeth. The finger was badly damaged.

Copper Coins. In 1620 the first large copper coins were minted in England, putting an end to private leaden tokens.

Pickled Herrings. The mode of pickling herrings was invented by a Dutchman named Benkels about the year 1370. The Emperor Charles V., who was fond of pickled herrings, one day visited Benkels' grave and ordered a handsome stone tomb to be erected to his memory, a memorial which makes the deceased pickler famous even to this day.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all changes of the air passages in children. It is absolutely harmless and pleases to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell.

SHILOH

This remedy should be in every household.

Science and Manufacture.

In the Zeiss glass works at Jena fourteen doctors of science are employed, and these include mathematicians as well as physicists. The great German aniline color works employ more "scientific" than "technical" chemists. At one of them, for instance, fifty-five scientific and thirty-one technical chemists are engaged, at a second 145 scientific chemists and 175 technologists, at a third 148 scientific chemists for seventy-five technicians. The research laboratories of these works are lavishly equipped. One of them possesses a library of 14,000 volumes. A second spends 150,000 francs a year on glassware. These things are no doubt expensive, but these great factories still manage to pay a dividend of from 20 to 30 per cent. Every newly discovered substance which is usable is patented, and in this way Germany has managed to establish a monopoly. The house of Bayer possesses a thousand patents at home and 1,200 in foreign countries.—London Graphic.

Artistic Bees.

The bee is an artistic upholsterer. It lines its nest with the leaves of flowers, always choosing such as have bright colors. They are invariably cut in circles so exact that no compass would make them more true.

What It Teaches.

"What does the story of the prodigal son teach us?" asked the Sunday school teacher. "It teaches us how to get rid of the fatted calf," said the bad boy.—Army and Navy Life.

As Frances Put It.

Little Frances had begun to write letters under the supervision of mamma. Last week her mother was away on a visit, and Frances decided to write to her without help. She managed slang and the new mode of spelling in one sentence: "Grandma got a letter from anty, and the news in it nook her out."—New York Press.

Hard and soft corns cannot withstand Holloway's Corn Cure; it is effectual every time. Get a bottle at once and be happy.

The local supply of Olympia oysters is about at an end. The beds in Puget Sound have been badly frozen. It will be two or three years before the beds will recover.

Beware of Ointments for Catarrh that Contain Mercury. As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

Notwithstanding that the English Channel, France and much of Italy intervenes, Sig. Emme, London correspondent of La Tribuna, has sent a two-column story by telephone to his paper.

The French government has decided to use Eiffel tower, 900 feet high, in the army's wireless telegraph system as the Parisian station.

Bed-ridden 15 Years.—"If anybody wants a written guarantee from me personally as to my wonderful cure for rheumatism by South American Rheumatic Cure I will be the gladdest woman in the world to give it." says Mrs. John Beaumont, of Florida. "I had despaired of recovery up to the time of taking this wonderful remedy. It cured completely."—58

The tug Dauntless, pushing a scow ahead, succeeded in demolishing the last barrier between her and the open water which stretches down to the mouth of the river at New Westminster, B.C.

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

An Ancient Power. "I see they are using alcohol as a native power now." "Huh, that's nothing new. I've known the mere prospect of a drink to draw a man ten blocks."—Philadelphia Ledger.

The Brazilian government officials have decided to send a detachment of 150 federal troops to capture Silvino, the chief of the bandits.

Huckleberry and Bee.

One of the small varieties of huckleberry is fertilized by a bee when, coming underneath the flower and flitting its proboscis up in order to get the honey, the flower throws a shower of pollen in its face, to be carried to the next host.

Maxims For Statesmen.

Dr. Jewett in one of his notebooks—he had twenty or thirty volumes of notes and reflections which he had written during his life—jotted down the following maxims for statesmen and others: Never quarrel, never explain, never hate, never fret, never disappoint, never fear, never spare, never tell, never detract and never fail.

Where Doctors do Agree!—Physicians no longer consider it catering to "quackery" in recommending in practice so meritorious a remedy for indigestion, Dyspepsia and Nervousness as South American No. nine. They realize that it is a step in advance in medical science and a sure and permanent cure for diseases of the stomach.—It will cure you.—60

Witchcraft.

The last execution for witchcraft in England was in 1716, when a woman and her daughter, aged nine years, were hanged at Huntingdon for selling their souls to Satan. The capital sentence against witchcraft was abolished in 1736. In 1789 a woman was first strangled and then burned for coloring, but the law was altered in the following year.

A Bold Fox.

A fox pursued by a pack of hounds in Somersetshire, England, stopped long enough in his flight to select a fat duck from a farmyard he was passing and carried it off.

CHILDHOOD AILMENTS.

As a remedy for all the ills of childhood arising from derangements Owa Tablets have no equal. You do not have to coax or threaten your little ones to take them—children like them. The case with which they can be given as compared with liquid medicines will appeal to every mother. None is spilled or wasted—you know just how big a dose has reached the little stomach. And above all mothers have an absolute guarantee that the Tablets contain no opiate or poisonous soothing stuff. They always do good, they cannot possibly do harm. Mrs. Edward Donovan, St. Agatha, Que., says: "I am delighted with Baby's Own Tablets. I know of no medicine that can equal them in curing the ills of young children." You can get the Tablets from any druggist or by mail at 25 cents a box by writing The Dr. Williams Medicine Co., Brockville, Ont.

Japanese Toothbrushes.

Japanese wives furnish fresh toothbrushes every morning free to every guest. The brush is a bit of wood about the size of a pencil frayed into a brush at the end.

Scarlet Flowers.

Scarlet seems the color most conspicuous in bright sunshine, and scarlet flowers are commonest in dry and sunny climates, where their color gives them an advantage in their struggle with other flowers for the attentions of butterflies and other pollen bearers.

Doesn't Trust Man.

A naturalist says that in captivity elephants always stand up when they sleep, but when in the jungle, their own land and home, they lie down. The reason given for the difference between the elephant in captivity and freedom is that the elephant never acquires complete confidence in his keepers and always longs for liberty.

PEN-ANGLE

Pen-Angle Underwear is form-knit so it can't help fitting your figure, —it's made of long-fibred wool so it won't shrink —and it's guaranteed besides. The whole idea is to make it so good you can't afford not to buy by the trademark (in red).

UNDERWEAR

Guying Him.

"He wanted me to order a basket of champagne," declared indignant Mr. Nuritch. "Well?" "I may be ignorant, but I know that champagne comes in bottles."—Washington Herald.

Ignorance is a Curse.—"Know thyself" is a good admonition, whether referring to one's physical condition or moral habits. The man who is acquainted with himself will know how to act when any disarrangement in his condition manifests itself. Dr. Thomas' Electric Oil is a cheap and simple remedy for the eradication of pain from the system and for the cure of all bronchial troubles.

A physician sued a patient lately to recover \$400 for a surgical operation. The court reduced the bill to \$100.

Nearly all the snow along the northern coast of British Columbia, has disappeared.
