## Summary of North Vancouver City Council Proceedings in Relation to Grades

At the council meeting held on January 3rd, 1910, the following resolution was passed :

Whereas it is desirable to establish general or permanent grades on all streets in the city,

Be it, therefore, resolved by the Mayor and Aldermen of the city of North Vancouver in open meeting assembled as follows, viz. :

1. A general or permanent grade, commonly known as a bench grade, is hereby established on all streets in the city of North Vancouver, extending north from the waterfront to the northerly line of 13th street or any extension thereof except where otherwise determined by the council bylaw.

2. A general or a permanent grade commonly known as a straight grade, is hereby established on all streets in the City of North Vancouver extending east and west from Lonsdale Ave. between the waterfront and 13th street or any extension thereof, except where otherwise determined by the council by bylaw.

3. Authority is hereby given the City Engineer to proceed with the preparation of profile maps establishing such grades on the streets above mentioned and when completed to submit same to the council for approval and final adoption.

At the council meeting held on January 17th, 1910, a communication was received from City Engineer Hanes forwarding grades required by the Bank of Hamilton for the erection of their new building at corner of 1st street and Lonsdale Avenue and pointing out that before such grades could be given it would be necessary to repeal a bylaw passed by the council on 20th February, 1908, the grades and profiles connected with which were very indefinate.

The grades were approved and adopted and Ald. Schultz gave notice that at next meeting of the council he would introduce a bylaw to repeal the bylaw establishing a grade on 1st street east.

At the council meeting held on February 7th, 1910, bylaws number 99, 92 and 93 establishing general (bench) grades on Lonsdale Avenue (waterfront to Upper Keith Road) 3rd street, (Mahon Ave. to St. David's) and 1st street (Lonsdale Ave. to St. George's) were introduced, given three readings and passed by the council.

On motion of Ald. Smith, seconded by Ald. Schultz, the city engineer was instructed to prepare a profile establishing a grade on Lonsdale Ave. from the Upper Keith Road to the city limits.

On motion of Ald. Schultz, the city engineer was instructed to furnish the Bank of Hamilton with the required grades for a building to be erected by them at the corner of 1st street and Lonsdale Ave.

At the council meeting held on the 14th of February, 1910 Mr. F. Tuck asked to be furnished with a permanent grade for a building to be erected on Second street east. The city engineer reported that a profile of 2nd street permanent grade had already been prepared and was on file in his office, and on motion of Ald. Irwin, seconded by Ald. McNeish, it was resolved that a bylaw establishing a general grade on 2nd street from Forbes Ave. to St. Andrew's Ave. be taken into consideration by the council at next meeting.

The city engineer reported that he had in readiness for council's approval, profiles of grades on all streets from the waterfront to Eighth street ; and on motion of Ald. Irwin, the city clerk was instructed to prepare bylaws establishing grades on the Esplanade, 4th 5th, 6th, 7th and 8th streets, Keith Road (upper and lower), Forbes, Mahon, Chesterfield, St. George's, St. Andrew's, St. Patrick's, St. David's, Ridgeway, Moody, Queensbury, and Sutherland Aves., to be introduced and taken into consideration at next meeting. Bylaws numbers 91, 92 and 93 were reconsidered and finally adopted by the council.

At the council meeting held on 21st February, 1910, Bylaw No. 97 being a bylaw to establish a general grade on 2nd street from the easterly line of Forbes Ave. to the westerly line of St. David's Ave. was introduces, read a first, second and third time and passed by the council, and the city engineer was requested to furnish Mr. Tuck with a grade in accordance with the profile just passed.

Bylaw No. 98 being a bylaw to establish a general grade on 1st street west from the easterly line of Forbes Ave. to the westerly line of St. David's Ave., was introduced, read a first, second and third time and passed by the council.

At the council meeting held on the 28th day of February, 1910, a communication was received from Colin F. Jackson, advising that some members of the Ratepayers' Association were anxious to discuss the matter of the proposed alteration in the grade at the west end of First street before any definite decision was arrived at by the council, and suggesting that the members of the Board of Works committee attend a meeting of the executive of the association to be held some night this week for the purpose of discussing the matter.

In this connection a letter was also read from Messrs. Mahon, MacFarland and Proctor, suggesting that the property owners be consulted before the grade is finally determined.

On motion of Ald. Irwin, seconded by Ald. Schultz, it was resolved that the request of the Ratepayers' Association be acceded to and that the members of the Board of Works Committee attend the meeting proposed, and that the council suggest to the Ratepayers' Association that the property owners likely to be affected by the proposed alteration in the grade be notified to attend the meeting so that their views in the matter may be ascertained.

Mr. Balfour Ker requested to be furnished with permanent grades for a brick block to be built on the Esplanade west and information as to the sewer drainage from the building would discharge into City Engineer to report.

At the council meeting held on March 7th, a communication was received from City Engineer Hanes advising that he had prepared and had in readiness for submission to the council, profile of the grade of Lonsdale Ave. from Upper Keith Road to the city limits. Filed for future reference.

Mr. J. Balfour Ker was heard in reference to the establishment of a grade on the Esplanade, and its relation to the railroad levels. On motion of Ald. McRae, seconded by Ald Irwin, it was resolved to ask the minister of railways to fix the line of the railroad level above high water mark.

At the council meeting held on the 21st of March, 1910, a communication was read from J. Balfour Ker, advising that he had found on search being made at the land registr office, that the level of the grade at which the railway would enter and pass through North Vancouver had been approved and sanctioned by the Board of Railway Commissioners on June 13th, 1905, and so recorded above the signature of Mr. Justice Killam, chief commissioner. The centre of the railroad track, where it crosses Lonsdale Ave. was shown to be 7 ft. 6 inches to 7 ft. 10 inches above the average high-water mark. Mr. Ker suggested that it would be well to be sure that the wharf now building at the foot of Lonsdale Ave conformed to the railroad grade and

### CANADIAN NORTHERN INTERESTED

At the Board of Trade meeting on Tuesday evening a delegation consisting of the President (Ald. Irwin) and Messrs. G. H. Morden and Alex. Philip was appointed to interview Mr. D. D. Mann as to the chances of getting his railway into North Vancouver. They met the distinguished railway man at the Hotel Vancouver and laid the claims of the North Shore before him. They found him well posted except as to the progress with bridge matters. He had been led to believe that a long time must elapse before the bridge could be built by local effort and he was greatly surprised to learn that nearly all the money for the structure was in sight and that work would soon begin. He expressed a desire to visit the district on his return from the east next month and not unlikely he will be entertained at a public luncheon when he comes to give him an opportunity to meet as many of our citizens as possible. The opportunity will certainly be one of very great importance and interest as it will mean so very much to our district if we can satisfy Mr. Mann that the interests of his company will be splendidly served if he makes North Vancouver the terminus of his railway.

## University Site Commission Visits North Shore

While the time at the disposal of the University Site Commission which transpired on Friday last, was altogether too short to enable the advantages of the North Shore as a prospective site for the provincial university to be properly investigated, excellent use was nevertheless made of all the time at their disposal and there is every encouragement to believe that the North Shore will secure a place "in the finals" when the commission comes to the stage at which all their information will be deliberated upon to a conclusion.

The commissioners, accompanied by several members of the Mainland University Association, arrived at about two o'clock p.m. and proceeded immediately under the guidance of the committee of the city and the district upon a trip by means of a launch along the waterfront to Seymour river. Here a part of the members disembarked and made the return trip to the city by automobile, others remaining with the launch and returning to the city. Here the entire party was transferred to automobiles and the run was made to Canyon View hotel where a dainty lunch was served in the excellent style for which this hostelry has earned such an enviable reputation. At the conclusion of the lunch Reeve McNaught in a neat speech welcomed the commission upon behalf of the district. He regretted that the time allotted was so short that it was impossible for the commissioners to adequately investigate the advantages which the north shore has to offer as the most desirable location for the provincial university. The members of the commission would see many places in the course of their itinerary and he hoped that they might find time at a later date to again visit North Vancouver and inspect its advantages in a more leisurely manner. The university was not merely a matter of buildings and courses of study but its real object was to make manly men who would be of the grestest possible value to the state. It would be gratifying should some of the members of the commission permanently locate in the province ultimately, as members of the professoriate of the new university.

Mayor May extended a cordial welcome upon the part of the city. North Vancouver was like a merchant who sought opportunity to display his goods. The north shore has the goods for the university site and was prepared to deliver them if the commission so decided. He hoped that the mature judgment of the commission would be in favor of locating the university on the north shore of Burrard Inlet.

In replying, Dr. Weldon, chairman of the commission, disclaimed any adeptness at speech making. He thanked the city and the district for the courtesy extended to the commission. They would have been disappointed men had they failed to see the matchless Capilano canyon and they would not soon forget its grandeur. The trip west had given them a new conception of Canada. East and west should join hands to make Canada a country such that none would be ashamed of it.

Dr. Murray, secretary of the commission, followed Dr. Weldon and declared that Capilano canyon was the most impressive sight that he had witnessed west of the Selkirks. He highly appreciated the great natural beauties of the country. Dr. Murray created considerable merriment by his neat compliment of the excellence of the lunch of which they had partaken. As for the university site, the commission had not held any conference as yet and consequently the matter was entirely one of individual opinion at present. While the pro

### SIR WILFRID'S TOUR

The itinerary of Sir Wilfrid Laurier's tour through Western Canada has been definitely announced. The first stopping place will be at Port Arthur and the last at Medicine Hat.

In British Columbia the following program has been arranged : Vancouver, Aug. 16th ; Victoria, Aug. 18th ; Kamloops, Aug. 26th and Nelson Aug. 29th. He and his party will also visit Prince Rupert between Aug. 18th and 26th.

## Dominion Day

The 1st of July celebration committee held a successful meeting in the city hall Wednesday evening. The following committees reported with their estimated appropriations. Musical committee, R. Chance, chairman, two bands, $180 ; decoration committee, J. C. Sabin, chairman, $100 ; aquatic sports, F. Robinson, chairman, $300 ; sports committee, Dr. Gibson, chairman, $500, and $150 for sailors' sports if the two gun boats as proposed to invite from Esquimalt materialized ; industrial parade, G. C. Walker, chairman, $250 ; printing and advertising committee, G. J. Phillippi, chairman, $50 to $75 ; fireworks committee, Mr. Jones, chairman, $500.

The treasurer reported that according to the estimates turned in, including contingencies, about $2,100 would be required. He stated that up to date the receipts were as follows : City Council, $400 ; E. W. McLean, $50 ; Friend, $5 ; B. C. Electric Ry. Co., $50 ; surplus from last year, $120.80 ; two donations from the Society for the Prevention of Cruelty to Animals of $10 each, making a total of $645.90.

A feature of this year's celebration which has been referred to Mayor May to endeavor to arrange for, is the bringing of two gun boats from Esquimalt to spend the day and perhaps two days when the officers will be the guests of the city, and games and prizes will be provided on a large scale for the sailors to participate in.

Definite arrangements have been completed for horse racing, and a similar display of fireworks to those of last year will be held in the evening.

North Vancouver Band will provide music during the entire day and will be assisted during the afternoon by a band from Vancouver. The industrial parade, a new feature of this year's celebration, is reported to be receiving almost phenomenal support from the firms in the city.

## Local and Personal

Mrs. Dr. Newcombe will not receive again until autumn.

Mrs. W. J. Wilson, 6th street west, will not receive again until autumn.

Lacrosse match, Saturday afternoon, Beaver A. C. v. North Vancouver at Recreation Park.

E. J. Green has commenced the erection of a fine six-roomed residence on Keith road between Jones and Forbes Ave.

Mr. McDonald, who is connected with the Vancouver Milling and Grain Co., removed with his family to this city on Monday and will reside on 6th street west.

Mr. James Clarke has plans out for a new two storey block on First street east of St. George's. The ground floor will be occupied by stores and the first floor by living apartments.

Dr. Morrison left today for a short holiday trip to Powell Lake and will be away until Wednesday next. His practice meantime is in charge of his assistant, Dr. Hutchison.

R. McKenzie has arranged for the erection of eight dwelling houses on Third street east of St. George. The residences are of normal size and adaptable to the needs of the city at the present time.

Miss Gladys Kirkland of Lynn Valley was amongst the successful pupils at the recent examinations for the Royal College of Music, London, Eng., held in Vancouver. Miss Kirkland, in spite of her tender years, has shown exceptional talent on the piano.

## Board of Trade

The joint meeting of the executive and the general committee of the North Vancouver Board of Trade was held in the city hall on Tuesday evening, President Irwin in the chair.

In spite of the fact that the attendance was not as large as was expected, quite a number of important matters were dealt with with satisfactory results.

The grade question was reviewed in a non-partisan light and as a result a resolution was passed unanimously that the Board should offer its services in smoothing the troubled waters.

The settlement suggested was mooted first by Mr. A. Philip and in a motion he suggested the appointment of a large committee from the Board to interview the city council offering to act as mediators toward a settlement of the vexed question. Mr. Philip emphasized the fact that it was not the intention of the board to enter upon the discussion from any partizan standpoint but in the general interests of the city in order that the intense public feeling might be eliminated and the differences between the two opposing factions adjusted for the general benefit of the city. He averred that it was not a question of engineering so much as of divergent interests and believed that a settlement would be reached by so strong a committee as he suggested in his resolution. "The interests of north and south streets and east and west streets are so diversant that the stand taken by some of the debaters is obstinate in the extreme." Mr. Philip said he had no personal interests except those of a ratepayer in the city in a general way and it was regrettable that the matter was not settled three years ago.

Mr. Fell, who had taken the chair in place of President Irwin while the discussion on grades was going on said he thought that the board should take some steps in the matter. He thought that if the board could appoint a committee such as suggested and get it out of its present position that it would be a good plan to adopt.

Mr. G. H. Morden said he had always tried to take a judicial stand in the matter, respecting the opinions of both sides. He questioned the advisability, however, of the board of trade entering into the grade controversy.

Their good intentions might be construed meddlesome and their motive sinister instead of the earnest desire which was the only incentive for engaging in the matter with a view to an equitable settlement.

Mr. J. F. O. C. Wood agreed with Mr. Morden. He did not think it was a matter for the Board of Trade to interfere with, but only for the council and the people to deal with.

Mr. Philip declared that it was one of the first objects of a board of trade to take hold in a mediatory manner to settle disputes in various public bodies.

He thought there was no reason why the board could not act in that capacity, dealing with the matter in a non-partizan manner.

Mr. McDonald said the matter must be handled in a diplomatic manner and he was inclined to take a similar view of it as Mr. Morden.

Mr. Morden then suggested that the executive intimate to the council that they view with deep concern the situation which has arisen in the matter of grades and that they would be very willing to be of any service in their power in assisting in the solution of the vexed question.

Mr. Irwin, who had retired from the debate, said he appreciated the efforts of the Board of Trade. He said it was a matter in which the interests of the ratepayers were intermingled and the suggestion of the board in offering to act as me-

## City Council

At last Monday evening's meeting of the city council the waterworks committee reported that they had gone into the draft agreement submitted by the district council in reference to waterworks matters and changing the location of the water pipe along the Lynn Valley road and found it such that they could not recommend its acceptance to the council. Alderman Irwin moved that the engineer prepare and submit a plan of the proposed location of the pipe at the earliest possible moment.

Ald. Irwin drew attention to the bad condition of Keith Road between Chesterfield Ave. and Mahon Ave. Ald. McNeish advised that the board of works were attending to the matter.

The bad condition of several ditches in different locations in the city were noted and referred to the board of works.

The streets changing bylaw was read and finally adopted.

A resolution was passed that an extract from the minutes o every thing bearing on grades be published in the local paper and in one of the Vancouver dailies.

The Board of Works reported that 11th street from St. Andrew's to Ridgeway Ave. had been graded and Keith Road repaired to the easterly city limits.

They recommended that the corner of 3rd street and St. David's Ave. in front of lots 8 and 9-129-274 where eight houses are about to be built be cleared of debris and that Foreman Chievers' salary be increased to $85 per month. The report was adopted.

Ald. Schultz moved, seconded by Ald. Fowler, that the city engineer fix the grade for the K. P. hall at the corner of 4th street and Chesterfield Ave. and that such grade be in accordance with the engineers' report of 1907 and be submitted to the council at the next meeting. The motion passed with Ald. McNeish and McRae dissenting.

Ald. Irwin moved, seconded by Ald. Smith, that the resolution of the council passed on the 11th April which reads "that straight grades be established on all streets running north from the water front "be considered contrary to the adopted report and recommendations of the engineers of 1907 be and the same is hereby rescinded. The motion passed unanimously.

---

Messrs. John R. Foster and R. J. Crawford, of Carleton Place, Ont., brother and brother-in-law respectively of Mr. W. H. Foster, 23rd street, are in the city. Mr. J. R. Foster will remain permanently and will reside on Sixth street east.

## Women's Woes

North Vancouver Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people in Moose Jaw.

Mrs. C. W. Hammill, of 100 Manitoba Street, Moose Jaw, Sask., says: "We are very much pleased to recommend Booth's Kidney Pills for what they have done for us. I had suffered for months with my back. It was so lame and sore that at times I could scarcely stand up. My husband had been greatly troubled in the same way. He also complained of a very weak stomach and felt all run down. On learning of Booth's Kidney Pills we procured a supply and after a short treatment with this medicine we have found more relief than we did in any other remedy. We are both feeling better in many ways.

## SUMMARY OF GRADES

(Continued from page 1)

7 ft. 6 inches to 7 ft. 10 inches above the average high-water mark. Mr. Ker suggested that it would be well to be sure that the wharf now building at the foot of Lonsdale Ave conformed to the railroad grade and trusting that the information given to council would enable them to give a final building grade on the Esplanade.

On motion of Ald. Irwin, the city engineer was instructed to search the land registry office and obtain all available data pertaining to grades and to advise the ferry directors if any discrepancy was found in the level of the wharf.

At the council meeting held on the 4th of April, 1910, a communication was read from J. Balfour Ker again asking to be furnished with requisite grades on the Esplanade according to the profile prepared by the city engineer. The motion was seconded by Ald. McNeish and agreed to.

Bylaw No. 102, being a bylaw estab,ishing a general grade on the Esplanade from Forbes Ave. to St. Patrick Forbes Ave. to St. Patrick's was introduced, read a first, second and third time and passed by the council.

At the council meeting held on the 11th April, 1910, on motion of Ald. Schultz, seconded by Ald. Fowler, the council resolved itself into committee of the whole to consider the Bylaw establishing a general grade on the Esplanade and other matters. Messrs. Bridgeman and Balfour Ker were heard in reference to the established grade on Lonsdale Ave., and its effect on the railroad grade and the grade on the Esplanade.

On motion of Ald. Irwin, seconded by Ald. Schultz, council resolved to consider the grade established on Lonsdale Ave.

On motion of Ald. Irwin, His Worship the Mayor was instructed to telegraph the secretary of the railroad commission and find out the date of the commission's next sitting in Vancouver. After a general expression of opinion Alderman Irwin moved that straight grades be established on all streets running north from the waterfront.

The motion was seconded by Ald. Fowler and unanimously agreed to. City Engineer Hanes wished it to be recorded that he did not recommend the adoption of straight grades on north and south streets.

The clerk was instructed to prepare bylaws to repeal the bylaws formerly passed establishing grades on Lonsdale, First, Second and Third streets and to notify the Bank of Hamilton of the proposed change in the grade at the corner of 1st street and Lonsdale Ave.

On motion of Ald. Fowler, seconded by Ald. McNeish, it was resolved that an easement in the grade of streets running east and west commence 200 feet on either side of streets running north and south.

At the council meeting of April 18th a petition was presented from 20 property owners on 3rd street opposing any change being made to grades on 3rd street. In connection with this matter the following parties were heard in reference to the proposed change in grades on streets running north and south: W. H. Braim, Jesse Williams and D. W. Reeve (representing the Ratepayers' Association), I Walden, R. E. Macnaughted, D. Maclennan, H. E. Reid, W. H. Young, H. C. Wright, Wm. Morden, J. Balfour Ker and G. A. McBain, after which Ald. Irwin moved that the petition received from 3rd street property owners be given most careful consideration by the council in the interests of the city as a whole. The motion was seconded by Ald. Schultz and agreed to.

At the council meeting held on 19th April, Ald. McNeish moved that the council engage the services of three expert engineers to report on the principle or idea which should be adopted in connection with the grading of the streets in the city of North Vancouver. The motion was seconded by Ald. Irwin and agreed to.

It was decided that the area which the experts should be asked to report upon be that portion of the city from Bewicke Ave. on the west along Keith Road to the intersections of 8th and 13th streets, thence south-easterly along 8th street to St. David's Ave., and from that point south to the waterfront. On motion of Ald. Irwin, seconded by Ald. McNeish it was resolved that no further bylaws or plans relative to the establishment of grades be registered while the grade question is under advisement by the council.

North Vancouver, June 10, 1910

## UNIVERSITY OF B. C.

That the selection of a suitable site for the permanent location of the provincial university should be entrusted to an impartial tribunal composed of eminent Canadian educationists will commend itself as a most apt expedient for the satisfactory settlement of a question at once difficult and important. The widespread interest with which the progress of the commission on its present tour of inspection throughout the province is being followed by the public, abundantly attests the fact that the citizenship as a whole and the several communities with claims to advance in particular, are fully alive to the fact that the province is now face to face with an epoch making event in the history of advanced education in British Columbia.

While many of the considerations which affect the problem are of such a palpable nature as to be readily apprehended by every well informed citizen, there are admittedly elements of a more abstruse order which will present themselves to those whose qualifications entitle them to rank as specialists in matters pertaining to education.

Having in mind those features of the problem which are of the more easily perceptible order, it is difficult to understand how the advantages afforded by North Vancouver can be excelled. Considered in its broadest geographical relationships, the situation offered by the north shore of Burrard Inlet lies open to all world ports and is particularly accessible from Japan and China from which America is receiving students in ever increasing numbers. Nearer at hand, the location is well within the precincts of Canadian territory, that is to say, while it is sufficiently outstanding to give the desired prominence to a provincial institution, it is at the same time not in what may in any sense be termed an exposed position to any alien power. Viewed in its immediate setting the location afforded by the north shore is contiguous to one of the most magnificent harbors in the world and to one of the great commercial and industrial centres of the Pacific coast. While it is in close proximity to commercial and industrial enterprises and to large mercantile, financial and other institutions such as would offer the best facilities for students who find it necessary to secure employment in order to assist them through their college course, it is likewise sufficiently removed from the unrest of industrial and commercial operations to ensure the necessary quietude for intellectual pursuits. While it is within easy reach of manufacturing and other concerns such as would afford desirable facilities for vocational training as an adjunct of the college curriculum it is at the same time so situated as to avoid all undesirable distraction of attention from the pursuit of knowledge. While it provides ready access to every advantage in the way of social enjoyments and pursuit of pleasure, it is also characterized by that removal from the immediate presence of such influences which is essential to the proper control of the student body. While a site on the north shore is readily procurable such as would afford ample accommodation for the building of an institution of large proportions, it is also so easily accessible from other points as to enable students from affiliated schools situated elsewhere to attend lectures at the university centre.

Confining our attention to the north shore itself, a site can be selected which will make of the university buildings a land mark which will be readily noted by the travelling public entering Vancouver either by boat or by train. Conditions on the north shore are such as to be especially favorable to health of body and to the general welfare of a large body of students. The water is of the purest and most plentiful as to supply; the air is pure, the atmosphere clear and peculiarly free from fog, the land sloping as it does, toward the sodth is sheltered by mountain ranges from the bleak winds of the north and enjoys a maximum of grateful sunshine. Conditions are especially favorable for athleticp uursuits and for out-of-doors enjoyments. The inlet affords enviable facilities for boating, bathing, etc., the mountain streams abound in fish, in delightful nooks and in facilities for quiet rambles for those who would commune with nature in her sublimer moods, the wooded tracts in the immediate vicinity provide excellent opportunities for hunting and the mountain peaks are the peculiar delight of those who enjoy scaling their rugged heights and partaking of the healthful exercise as well as drinking in the magnificent view of harbor, city, gulf, river, island and ocean which is opened to their vision.

Viewed from the standpoint of the professoriate or of the student body, from the standpoint of the individual or of the mass; considered from the physical, social, moral, or intellectual phase of the problem, carefully weighed in relation to all those considerations which go to make up conditions favorable to the building up of a strong, well equipped and influential educational institution, both internally and externally, the north shore of Burrard Inlet has an aggregation of advantages to offer which renders it a well nigh ideal location for the purpose.

The location of the university at North Vancouver would ensure to such a large extent those conditions which go to make attendance at any institution of advanced education, pleasurable to the student, that of themselves, those conditions would go far to create within the breast of all students an ardent affection for their alma mater which would early result in creating an alumni, earnest, enthusiastic, persistent in their advocacy of the excellencies of the University of British Columbia, thus providing one of the most valuable assets which any such institution can enjoy.

North Vancouver, for these and for many other reasons which space does not permit of enumerating, presents the maximum of advantages with the minimum of disadvantages as a prospective location for the provincial university and can, therefore, confidently leave her case in the hands of a company of arbiters so eminently able to appreciate the worth of that which she offers and so well qualified to arrive at an unbiased and wise conclusion with respect to the matter in hand, as is the University Site Commission.

## S. O. E.

Rev. Mr. Hopper delivered an impressive sermon in St. John's church last Sunday evening to an assemblage of the Sons of England lodge of this city. About forty or fifty members of the order were present and the theme taken was loyalty to the Empire. At the conclusion of the sermon the National Anthem was sung by the choir and congregation. The parade to the church was conducted in two files from the K. P. hall up Lonsdale Ave. and along 8th street to the church.

Dated this 4th day of March 1910.

WALTER GIBBS,
14 Applicant.

### Parisian Sage Cures Dandruff

If it Don't The Lonsdale Pharmacy Will Give You Your Money Back.

Yes, Parisian Sage, the most invigorating hair restorer, cures dandruff and grows hair. The women of Canada, who have luxuriant hair, know it does, and that is why thousands of attractive women throughout the land are regularly using it.

For years this almost marvellous grower of lustrous and beautiful hair was confined to the elite of Europe and New York City, but about two years ago it was given to a select list of druggists, and today can be obtained in any city or town in America where society women of refinement dwell.

Parisian Sage is the most delightful hair tonic in the world. It makes the hair soft, lustrous and luxuriant in a few days. It is perfumed most daintily and is not sticky or greasy. It stops falling hair, cures dandruff and itching scalp in two weeks or money back.

The Lonsdale Pharmacy sells it for 50 cents a large bottle, and guarantees it, or direct, all charged prepaid, by Canadian makers, Giroux Mfg. Co., Fort Erie, Ont.

## UNIVERSITY COMMISSION

(Continued from page 1)

vince of British Columbia was unrivalled in its riches, yet all would agree that its future depended primarily upon its men. They were the hope of the country. For this reason all should rally round the university as it was a most important factor in making men eminently fitted to discharge the high office of citizenship in the best manner. We were too apt to forget in the presence of the greatness of the country that the greatest of all is the man rather than the thing. The country must look, not from without, but from within, to achieve its destiny.

The reeve called upon Alderman Schultz to read the memorial prepared for the consideration of the commission. Ald. Schultz prefaced the reading by the statement that he felt it a peculiar honor to read the memorial seeking to secure the university for North Vancouver, inasmuch as he was the first matriculant from the province of British Columbia. He was pleased that the time was near at hand when his native province would take a becoming place among her sister provinces in the matter of higher education. Ald. Schultz then proceeded to read the memorial which urged the following considerations why North Vancouver should be chosen as the location for the university:

1. Frontage on safe, still, inland water, where the best facilities would be provided for boating, yachting and other forms of aquatic training, recreation and competition.

2. A healthy and captivating environment, where the variety and grandeur of scenery would be an ever-present inspiration.

3. Transportation facilities so that day students could come from considerable distances without much loss of time in travelling. This feature would be of the utmost importance for those students taking up law, medicine or applied science.

4. Industrial works of the greatest variety and comprising both large and small plants, should be easily accessible.

5. The water supply should be abundant and of the best.

6. Proximity to law courts, law offices, hospitals and eleemosynary institutions.

7. Ample opportunity for the prosecution of researches in forestry, mineralogy and geology, and in addition facilities for investigations in all the branches of science.

8. Opportunity for those engaged in the various fields of industry and commerce who may not be in a financial position to take a full course of study to participate to a partia, extent in the benefits of the university.

There is submitted, however, a map showing the district of North Vancouver and its environments.

Your memorialists believe that an admirable site can be chosen either west of the Capilano river or east of the Seymour river and on the water frontage in either case, and both the city and district are willing to make considerable sacrifices to aid in the purchase of any site within these areas or any other area on the northern shore of the Inlet that may be selected by your Board

The map shows lands colored red, actually owned by the district corporation and lands colored blue that are owned by the crown. It also shows colored yellow adjacent park lands, which are always an important factor in the vicinity of an educational centre. It also shows colored brown four large Indian Reserves which may early come on the market for sale. Th different rivers and streams ar. shown and the water in every case is of the best quality and unlimited in quantity, and it can easily be made available for the university and its adjuncts.

The map shows the projected connecting links for transportation, and either the Second Narrows Bridge or the First Narrows Tunnel, or both, and the connecting railways can be built and in operation before the university building can be completed for occupation. The construction of Bridge and Tunnel or either of them, and of the connecting railways all now authorized by Dominion charter to a joint municipal corporation will entirely change the conditions in North Vancouver, and its relations to the neighboring cities and municipalities, making it easily accessible at every point. The east end district is only six miles distant by railway from Vancouver post office, and fifteen miles from New Westminster, and the west end district is equally near to Vancouver and about twenty-three miles from New Westminster and the connecting links would certainly be electric railways giving a maximum of speed.

The present ferry service, giving direct communication between the central portion of the cities of Vancouver and North Vancouver, will, within a few months, be improved by the addition of a fast boat constructed on the most modern lines and of larger capacity than those now operating. This addition will inaugurate a twenty minute schedule. It can be confidently asserted that this ferry service will, at an early date, be operated on a fifteen minute schedule.

Your memorialists would specially emphasize the picturesque charms of North Vancouver, and its sunny southern slope, protected from the north and east by a circling mountain range of majestic proportions, whose towering peaks are annually visited by throngs of mountain climbers in search for exercise of the most invigorating and pleasurable nature. The wild, rugged beauty of North Vancouver's canyons on the Seymour, the Lynn, the Capilano and the Cypress rivers are the admiration of countless nature lovers. North Vancouver with its wealth and variety of scenery in mountain, valley, canyon, stream, giant forest growth and winding sea front, presents, even to the most susceptible, a constant appeal to give daily thought to the handiwork of the Eternal.

The industrial possibilities of the North Shore are very great and will assuredly draw together a large population. It is estimated that we still have one thousand million feet of merchantable lumber in the Capilano and Seymour valleys. Rich copper mines have been opened on the Seymour and Lynn rivers, and other ores have been discovered in valuable proportions. A very large shipbuilding yard and dry dock is soon to be opened in the east end of the district, and a number of other industries are awaiting the advent of railway communication. The splendid power station of the B. C. Electric Railway is on the North Arm of the Inlet and convenient for any location on the North Shore, and if desired a power station can be established at very little expense on any of our own rivers. But the greatest factor for industrial development will be the opening out of the main lines of water front for harbor purposes by the construction of docks, warehouses and elevators.

North Vancouver is proverbial as a healthy homesite. It is sheltered from the chill winds of the north and east and it gets the full benefit of the cool refreshing breezes from the Pacific ocean. It is mild in winter and cool in summer and wind storms and snow storms are an unknown quantity. Vegetable growth is early and luxuriant and this will contribute largely to beautify the grounds of the university.

As a boating and yachting centre, Burrard Inlet has few equals and its great expanse of sheltered waters make it admirably adapted for all kinds of nautical recreation.

Respectfully submitted by

THE JOINT CIVIC COMMITTEE OF NORTH VANCOUVER,
Wm. H. MAY,
Mayor.
JNO. Y. McNAUGHT,
Reeve.
Wm. J. IRWIN,
President of Board of Trade.

The reading of the memorial was followed by short speeches from the following: Rev. J. Hugh Hooper, Rev. J. D. Gillam, and Messrs. J. B. Bennett James C. Keith, W. J. Irwin, Alexander Philip.

Mr. Keith put the whole matter in a few words by observing that North Vancouver possessed everything else with reference to the matter and all it lacked was the university.

Mr. Philip gave in compressed form many salient facts relevant to the subject referring to the history of education on the north shore, the rapid growth of assessment values, the progress of the movement to build Second Narrows Bridge and the First Narrows Tunnel. He also elucidated the fact that there are several large tracts of land excellently situated, which would be available for the university site.

Owing to previous engagements it was necessary for the members to be in Vancouver at eight o'clock and they were, therefore, conveyed from Canyon View hotel direct to the ferry whence they proceeded to Vancouver.

## BOARD OF TRADE

(Continued from page 1)

diators was a fair one.

Mr. Philip then moved, seconded by Mr. Wood "that this Board of Trade views with sincere regret the controversy which has arisen regarding this matter of grades and respectfully expresses its willingness to appoint a committee to confer with the council to endeavor to arrive at a solution which would be equitable and permanent." The motion carried unanimously.

The executive meeting was convened before the regular meeting and correspondence read was as follows:

Mr. Philip said that it had been intimated to him by some of the medical practitioners in the city that the time was now opportune for the establishment of a public hospital on the north shore. He said the two councils were contributing enough to the present hospital to pay the interest on the capital for a large public concern and as the city was now fast out-growing the present accommodations of the hospital on St. Andrew's street he would suggest some action be taken. A committee composed of G. H. Morden and Dr. Newcombe were appointed to communicate with the two councils relative to this matter and suggest the appointment of a representative committee from the two councils and the board of trad? to investigate the matter.

Mr. Philip also moved that the secretary write to the Vancouver afternoon dailies with the request that they send to North Vancouver the late afternoon edition instead of the early edition.

Mr. Philip spoke on the inadequacy of the telephone service in the city and was of the opinion that the matter should be investigated. He stated that the company when asked for a connection to Deep Cove had asked an exorbitant sum from the applicants besides asking them to construct the line. Mr. Philip said that the district council were moving in the direction of establishing a municipal owned telephone for the lower mainland. It was resolved that the secretary write to the local manager pointing out the desirability of having a more adequate service on this side of the Inlet.

The meeting thereafter convened into a general committee.

The president suggested that the board eliminate its session for the summer months and on motion it was resolved that the board should not meet again until October unless convened by the chair.

Mr. Fell suggested the advisability of taking some steps toward having Sir Wilfrid Laurier spend a day in North Vancouver while touring the west.

Mr. Philip said he would get into communication with Mr. Ralph Smith in an endeavor to bring about a visit from that distinguished person.

On the suggestion of Mr. Fell a committee was appointed to interview Mr. Dan Mann who was in Vancouver at that time, after which the board adjourned for the summer months.

## OPENED NEW QUARTERS

Mr. H. A. Shaw, for many years the pioneer dry goods man and a pioneer also in the real estate business in the city, has opened up a real estate office in the Horne block in the lately vacated quarters of C. S. Young. Mr. Shaw recently sold his dry goods business at the corner of Lonsdale Ave. and 2nd street to the Curry Co. and is now strictly adhering to the one line.

The North Vancouver City Band will give one of their popular open air concerts on Saturday evening on Mr. P. Larson's grounds.

Mr. P. Larson and family returned a few days ago from a trip to Seattle in Mr. Larson's splendid touring Oldsmobile. They were accompanied by Mr. Fred Swanson of New Westminster. While in Seattle Mr. Larson was told that the record for the run to Vancouver was 13 hours and on the return trip he undertook to make a new record and succeeded in cutting the time down by two hours, making the entire distance in 11 hours which included three stops aggregating one hour, so that the actual running time was ten hours. During the outing Mr. Larson covered a total distance of 598 miles. He found the roads in good shape on the whole although there were places where the roadbed was rough. He suggests that it would be well if the auto clubs of Vancouver and Seattle could unite to approach the state and municipal authorities in an endeavor to secure improvements to the roadbed and likewise the widening of the road in places inasmuch as it is difficult at times to work past wide shingle bolt wagons, cows, etc., which are frequently met with along the way.

## NOTICE

NOTICE is hereby given that thirty days after the first publication of this notice, I intend to apply to the Superintendent of Provincial Police for a renewal of the Hotel license for the Moodyville Hotel situated at Moodyville, B. C., on Lot 273, group 1, New Westminster district, for the term of six months commencing July 1st, 1910.

## LOCATED IN NORTH VANCOUVER

J. L. Gallagher, late of San Francisco, Cal., and wanted in that state as a material witness in the San Francisco bribery cases, was located in North Vancouver on Wednesday. He and his wife and child are occupying a small cottage in this city where they have been living apparently in seclusion for some time. Mr. Gallagher when asked if he intended to return to California, was noncommittal. He did admit, however, that it was not his intention to cross the 49th parallel until he had had a complete rest. While being liable for arrest should he cross the border, he is, however, in comparative safety in Canada as under the extradition laws between Canada and the United States the charge on which Mr. Gallagher is wanted is not fixed as an extraditable offence.

## NEW FIRM

Mr. D. A. McLean, for the past two years connected with the mechanical department of the "Express", and Mr. O. Shoemaker of Vancouver, have opened up a job printing establishment in the Horne block in the store recently vacated by the Norvan Electrical Co.

Dr. Morrison left today for a short holiday trip to Powell Lake and will be away until Wednesday next. His practice meantime is in charge of his assistant, Dr. Hutchison.

## LYNN VALLEY LICENSE REFUSED

There is to be no liquor license for Lynn Valley yet, in spite of the fact that yesterday's application before the License Commissioners was either the fourth or fifth attempt by applicants with this end in view.

At yesterday's session of the board over which Commissioner J. C. Keith presided and Councillors Allan and Lawson and Com. A. B. Diplock were present, W. Gibbs presented his petition for a hotel license at the corner of the pipe line road and Hoskins road signed by 216 names. Applicant was represented by Mr. Shoebotham.

Mr. A. Philip had prepared and presented to the meeting a petition containing 193 names who were entitled but who had not signed applicant's petition. Concluding that both documents were correct it was shown that applicant's petition lacked the necessary statutory qualifications. Mr. Philip claimed that his list of names was based upon fact while Mr. Gibbs' petition could be weeded out leaving only 148 authentic signatures.

Mr. Shoebotham contended that he should be privileged to scrutinize Mr. Philip's list because of the thoroughness in which applicant had covered the territory and it did not seem possible that as many as 193 eligible signatures could have been missed. Commissioners Allan and Lawson thought, however, if the court should adjourn one week to enable Mr. Shoebotham to scan Mr. Philip's list that he could not possibly hope to make up the discrepancy. Consequently it was moved by Coun. Lawson and seconded by Councillor Allan "that this license be not granted as the petition does not comply with the statutes."

Com. Diplock registered a dissenting vote as he considered the applicant should be allowed to look into the names supplied by the clerk.

Mr. Diplock moved, seconded by Coun. Lawson, that the attention of the Attorney-General be again called to the resolution of last meeting of the Board that more discretionary powers be given to these scattered districts.

Renewal licences were granted to the Canyon View, Moodyville, Capilano and Seymour hotels.

## MARRIAGES

The marriage of Mr. Arthur Victor Hodgkinson and Miss Nora Agnes Auge was celebrated at the home of Rev. J. D. Gillam, 12th street, on June 6th. The young couple after making a tour of the coast cities, will upon their return, reside in Vancouver. Rev. J. D. Gillam officiated.

Rev. J. D. Gillam officiated at a very quiet wedding which took place at the home of Mr. and Mrs. Waring on the Esplanade on the 4th of June. The contracting parties were Mr. Bertram Carroll and Miss Ada Seymour of Vancouver. After a honeymoon trip of a few weeks' duration the happy couple will take up their residence in North Vancouver.

## OPEN AIR SERVICES

Open air services will be held at Lonsdale Gardens every Sunday afternoon commencing at 4 o'clock during the summer months, weather permitting. Rev. Mr. Davis will officiate on Sunday, June 12th, and thereafter local speakers and students from Westminster Hall will address the meetings. The services are to be conducted under the auspices of the Christian Endeavor Society of St. Andrew's church.

Miss Mary Laing of this city was a successful vocal pupil at the recent musical examinations held in Vancouver.

Mr. and Mrs. Porter left this week for their ranch at Otter, B. C., where they will spend the summer months.

The Club Committee of St. Andrew's and Caledonian Society have arranged for a social evening of song, recitation and dance in the Horticultural Hall on Tuesday, June 14th, at 8 p.m. All Scotch folk and friends are cordially invited. General admission 25 cents. 14

W. H Stoney J. Hardy

A GOOD SQUARE PAINT will cover more surface than twice the same quantity of the cheap imitations. The coat will last longer, too.

IF YOU'VE BEEN STUCK ONCE you know what we say is true. If you have not, let the experience of others be a warning. Be wise and buy your paints where only the good kind are sold. Men who know always come here for their paints. Take the hint?

THE CORPORATION OF THE CITY OF NORTH VANCOUVER

TAKE NOTICE that the Council of the Corporation of the City of North Vancouver intends to construct as a work of Local Improvement the grading (to permanent grade) of Lonsdale Ave. from the south line of Thirteenth Street to the North line of Eighteenth street and to construct a macadam roadway with suitable curb, and a 6-foot concrete sidewalk on each side of said avenue between the points above mentioned; Under sub-section (22) Section 256 of the Municipal Clauses Act and intends to assess the final cost thereof upon the real property fronting or abutting thereon and to be benefitted thereby, and that a statement showing the lands liable to pay the said assessment and the names of the owners thereof, so far as can be ascertained from the last Revised Assessment Roll is now on file in the office of the Clerk of the Municipality and is open for inspection during office hours.

The estimated cost of the work is Twenty-Four Thousand Three Hundred and Ninety ($24,390) dollars, of which $5,063.25 is to be provided out of the general funds of the Municipality.

THOMAS SHEPHERD, City Clerk.

North Vancouver, B. C.
May 18th, 1910.

There is set forth in the following foot note the names of the owners or occupiers who have not signed the requisition presented to the Council calling upon them to construct the work of Local Improvement above mentioned and upon whom a notice similar to the above advertised notice has been served by mailing the same by prepaid registered mail to the last known place of abode of such owners or occupiers, with the estimated cost of the work and the proportion thereof proposed to be assessed against each of such owners or occupiers whose property affected is as undernoted:

13 Lonsdale Ave P.O. Box 13 Phone 13

**NOTICE!**
Our business is now practically on a cash basis. This enables us to give our customers the same high class goods we have always handled at very much better prices than can be obtained from stores doing a credit trade.
Try an order and compare quality and price.
