VOLUME 6.

NORTH VANCOUVER, B. C., FRIDAY, JULY 17, 1908.

NUMBER 22

## CITY COUNCIL

The docket was light at the session of the city council on Monday evening. In the absence of Mayor Kealy, Alderman Irwin presided. In addition to whom there were present Aldermen May, Smith, Braim and Wheeler.

A letter was read from the secretary of the Horticultural Society asking for the donation of the soil now being removed from 21st street. Board of Works to act.

A letter from M. S. McDowell, secretary of the civic celebration committee for July 1st, requesting that the council increase the amount of their donation to the funds, inasmuch as there is a shortage of cash with which to pay bills. Referred to committee of the whole.

From Chief of Police Davies, with reference to unsatisfactory conduct upon the part of the present caretaker, and stating that Geo. Pryme had been placed in charge of the pound awaiting the further action of the council in the matter. Referred to committee of the whole. From J. Kirkland making application for the position of caretaker should a vacancy occur. Filed for reference.

Minutes of a meeting of the board of works were read, as follows: Recommended that the caretaker inspect property lying close in and report to the council with reference to any combustible material lying upon the lots; that the city clerk instruct property owners under the bylaw to clear up their lots; that the city clerk write J. P. Bell requesting that the agreement re the park be completed; that the recommendation re additional help in the city engineer's department be amended to employ an assistant as apprentice, instead of a roddman; that local improvement number 9, for grading 8th street, be approved; that successful tenderers for contracts, under the local improvement bylaw, be required to put up bonds to the amount of 40 per cent. of the contract price. The report was adopted as read.

A letter was read from the city solicitor, to the effect that they were negotiating for the completion of the agreement with the Lonsdale estate with reference to the park. The solicitor of Mr. Fell had agreed to consult him with reference to amendments as proposed by the city solicitors, and to advise them, but no communication is as yet to hand. When this is received the matter will be proceeded with at once.

Alderman May asked if any reply had been received from the city solicitors with reference to the request of the council for advice as to whether the option for the purchase of the ferry, which expired on June 2nd last, is now void. Alderman Irwin from the chair replied that no advice is to hand.

Council then went into committee of the whole.

Caretaker Brimacombe was suspended for one week.

The amount donated to the celebration committee was increased by \$25, making \$100 in all. Applications for the position of assessor were received from D. W. Elder and Reginald Dunn. Laid over to be dwelt with at the meeting next Monday night.

### The Athletic Club.

An extraordinary meeting of the Athletic Club was held in Larson's pavilion on Monday evening. The most striking feature of the proceedings was the wholesale supply of resignations that was presented for consideration—G. MacKenzie, president; M. S. McDowell, secretary-treasurer, and Geo. V. and Alex. Smith, members of the executive, all requesting to be relieved of their official responsibilities. No sensational reasons were advanced upon the part of the retiring officers to account for their rather drastic move. Mr. MacKenzie stated that he had been president for two years, in fact was the originator of the Athletic Club as an institution, and now that the initial difficulties had been overcome he considered the time opportune for a change in order

that someone else might be given an opportunity to show what could be done. Mr. McDowell stated that he had desired to retire at the last election of the officers, but had been persuaded to accept the position for an additional term, solely because it was his wish to strengthen the financial position of the club and to leave it in good condition in that respect. During his term, by dint of persistent effort, he had gathered in some \$884 which had proved sufficient to pay all outstanding indebtedness and to leave a small balance in the treasury. Now that he had accomplished his object, he desired to be relieved of his duties of the position.

The proposition to postpone action on the resignations until the regular meeting in August, was stoutly resisted by those who had resigned, and they insisted on the resignation being accepted at once. The entire list was then accepted in one motion, after which, upon motion of M. B. Martinson, a vote of thanks was tendered the retiring officers, coupled with an expression of regret that they had deemed it wise to relinquish office.

Officers pro tem were then appointed until the regular elections next month. The new appointments are as follows: President, M. B. Martinson; secretary-treasurer, Robert Tarn; members of the executive, Messrs. Emerson and Prime.

The treasurer presented his report, showing receipts \$884, and disbursements \$882.81, leaving a balance in the treasury of \$1.19. The grand stand is now paid for and the club is out of debt. This report was adopted and W. N. Lailey and L. N. Humphries were appointed to audit the books previous to their being delivered to the new officers.

Thomas M. Ross, a pupil of Sandow and Prof. Inch, wrote proposing to donate his services as physical instructor of the club, provided suitable employment could be procured for him in the city. Secretary to reply that the club is not prepared for this departure at present. W. B. Bunbury wrote, notifying the club that henceforth the B.C. Electric Ry. Co., would expect the club to comply with the clause of the agreement with reference to keeping the grounds in order and the building insured, and likewise with the clause governing division of gate receipts. Letters received and filed. The president was instructed to insure the buildings with H. M. Burns for three years for \$300.

The members agreed to meet at the grounds on Thursday evening for the purpose of cleaning up the grounds and putting them in first-class shape.

The regular meeting for the election of officers will be held on the first Thursday in August, when it is desired to have a large attendance of those who have been members and to induce them to take an active part in the promotion of amateur athletics in the city.

### Subsidy to Bridge

The very welcome news reached the city on Tuesday that the Ottawa government had introduced its supplementary list of appropriations into the house of commons, and in it were a number of items affecting B. C. These have to do principally with railways. Two of the items, however, have a peculiar import to North Vancouver, as they materially affect the future of the city. One grant calls for \$200,000 to assist the V. W. & Y. railway in the construction of its proposed bridge across the inlet at the Second Narrows.

The other item is a grant of \$6,400 per mile for 100 miles of the V. W. & Y. proposed road from here to connect with the G. T. P. at Fort George. Now that these substantial grants are assured, it may be taken that both projects are within measurable distance of accomplishment. With these factors becoming certainties North Vancouver's future is assured.

That the granting of the subsidy

to the Second Narrows bridge and to the railway towards Fort George is of the greatest importance in the estimation of the well informed public, is clearly evident from the way in which those who profess to know are busy putting two and two together and drawing infallible conclusions. Those who are au fait in railway matters state that the only sufficient explanation for the subsidies is the conclusion that the Grand Trunk Pacific and the V. W. & Y. have come to an understanding, mutually satisfactory. The impossibility of the latter road unaided being able to procure the subsidies, is declared from the fact that the G. T. P. would not have allowed such assistance to be given a rival company for a line of railway to cover territory included in their own scheme; while the reason given for the issuance of the subsidies in the name of the V. W. & Y., but in reality for the G. T. P., is that the latter is so heavily subsidized that no further grants could be secured from the government in a direct way. It is further pointed out that the grant of \$200,000 for the bridge, is \$50,000 greater than was originally asked for, and this astonishing liberality calls for some hidden influence of no mean calibre. It is

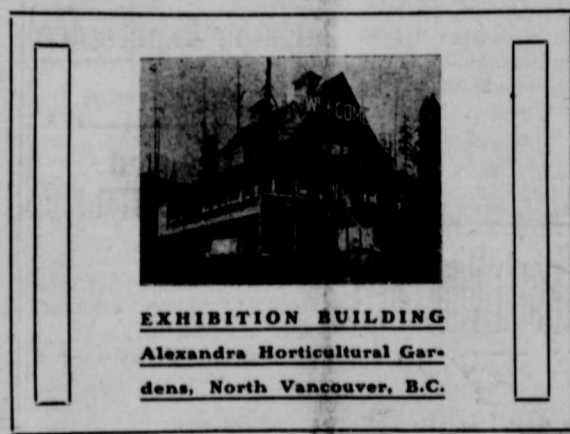

are practical hardware men, of fifteen years' experience. Mr. Paine is at present manager of the logging and mill supply department of McLennan & McFeeley, and has been in the employ of the same firm for the past seven years. Mr. MacMillan has been a resident of Vancouver for ten years, for the past five of which he has been on the road for the above wholesale firm. The heads of the new firm will therefore bring to the business a thorough practical knowledge of local conditions. It is their intention to greatly enlarge the stock and to carry a full line of shelf and heavy hardware, tinning and plumbing, etc. The purchasers will take possession of the business on August 1st.

### Local Knights of Pythias

Three applications for membership were received Tuesday evening.

It is proposed to hold a moonlight excursion, on the steamer St. George, early next month.

The semi-annual reports show affairs in connection with the lodge to be in first-class shape. The receipts for the six months were \$520.75, with assets of \$701.75.

EXHIBITION BUILDING  
Alexandra Horticultural Gardens, North Vancouver, B.C.

further argued that by means of such a deal, the Grand Trunk Pacific would solve the problem of terminal facilities on Burrard Inlet. The V. W. & Y. holds certain waterfront property in Vancouver, which would be serviceable; but further than that, the same company holds large tracts of waterfront on this side of Burrard Inlet, which are of sufficient area to provide yards and wharves for a great transcontinental railway, practically as good as those owned by the C.P.R. on the south side of the Inlet.

These and other similar considerations lead knowing ones to the conclusion that the V. W. & Y. and the G. T. P. will join forces in the building of the line from Burrard Inlet northward. North Vancouver citizens have long been of opinion that the southern terminals of the G. T. P. are destined to be located in this city, and these conclusions will but go to confirm that belief.

### Lynn Valley Products

G. W. Sugden, the genial postmaster at Lynn Creek, called at the EXPRESS office on Tuesday and he did not come empty handed. The sample of gooseberries, red currants and black currants that he deposited on the editor's table is certainly of superior quality, and is sufficient to convince the most skeptical that the fruit-producing possibilities of Lynn Valley are unexcelled. The lovely collection of flowers which accompanied the fruit, speaks volumes for the genial climate of the valley and likewise for the aesthetic taste of the donor. Any orders for flowers may be left for Mr. Sugden at THE EXPRESS office.

### Business Change

I. Walden has sold his hardware and plumbing business to J. B. Paine and E. MacMillan, of Vancouver. Mr. Walden has been in business in North Vancouver for three years past and, by dint of faithful application and honest workmanship, has built up an extensive and profitable business. His many friends will be sorry to see him retire from the active ranks. It is his intention to erect a residence and to make his permanent home in the city.

The purchasers of the business

The membership is 64, a gain of 12.

Tuesday evening an important and interesting session was held, when the semi-annual installation of officers took place. The installing officer was Deputy Grand Chancellor Ferguson, of New Westminster. There were present a large number of Knights from Vancouver and New Westminster and the meeting proved a great success. At the conclusion of the ceremony the deputy grand gave an excellent address to the members, as did also Mayor Kealy, Past Grand Chancellor Anstie, Rev. Mr. Taylor of New Westminster, and others. Icecream and cake were then served by the members of the local lodge.

### Lynn Creek Notes

Dougall Campbell is building a house on Westover Road, adjacent to the residence of E. Lennox.

Mrs. Lewis Young and son, of Victoria West, is visiting her sister-in-law, Mrs. G. W. Sugden, of Lynn Creek, for a few days this week.

Robert Magennis has opened a meat market and will carry a full stock of fresh and cured meats and fish. He will deliver orders to all parts of the valley. The market will prove a boon to the settlers.

### The Ferry Question

The joint committees of the city and district councils have been working faithfully on the production of a feasible scheme of adjustment of relationships with the ferry company. Many plans have been suggested, and out of the multitude of ideas there appears to be an excellent probability that a scheme will be evolved that will prove acceptable to all parties; that will likewise receive the approval of the ratepayers, and that will satisfactorily solve the ferry problem for all time.

John King, after a sojourn here for a year or so, is leaving shortly for his old home in Nova Scotia. He will visit relatives in Portland, Ore., en route.

Large numbers of Vancouver people have been coming over this week to pick blackberries, which grow in abundance on the hillsides.

## LOCAL NEWS

THE EXPRESS, \$1 a year.

Regular session of the district council will be held this evening.

The Diplock-Wright Lumber Co., has been sending considerable lumber to Vancouver this week.

At the Orange celebration in Vancouver on Monday, the North Vancouver boys defeated Fairview in a tug-of-war.

It is proposed to organize a lodge of Odd Fellows here and a preliminary meeting will be held next week in the K.P. hall.

Tomorrow the choir of St. Andrew's Presbyterian church will run a launch picnic to Brighton beach. The party will leave the city at two p.m.

The wharf of the Western Corporation has received a thorough overhauling and is now in first-class condition for handling all the traffic that offers.

G. R. Hughes is building a cottage on his property on 2nd street, east of St. Andrew's. It is his intention to erect a second residence on his adjoining property, for personal occupancy.

Contractors Ward & Co. have all the material now on the ground for the new Capilano school. Building has been commenced and the school will be in readiness for the opening of the autumn term on Sept. 1st.

At the special meeting of the district council, held on Monday evening, the loan bylaw for the new water district was finally read and adopted, and waterworks regulations for the new district were likewise adopted.

"Notes from Convention" is the subject for the W.C.T.U. meeting, next Wednesday, 22nd inst., at 3:30 p.m. The meeting will be held in St. Andrew's church, 6th street, and all members and friends are urged to be present.

M. J. Henry, the Vancouver Nurseryman, is giving two prizes of \$5 each to the Horticultural Society's prize list. One is for the best display of fruit grown from his trees, and the other of vegetables grown from his seed.

The meeting at Lynn valley that was to have been held last night, to complete the organization of a veteran's association, was postponed until next Thursday evening. The draft of the constitution is now ready and will then be adopted.

Colin F. Jackson has purchased the plant and business of the North Vancouver Transfer Co. The business will be continued as heretofore and it is also understood that Mr. Jackson is contemplating material extensions along certain lines.

On Saturday last the Sabbath school of St. Andrew's Presbyterian church held their annual picnic at Capilano. The attendance was large, the weather was propitious and everybody, especially the children, had a most enjoyable outing.

On Sunday last a party of twenty persons belonging to the V.A.C. Mountaineering Club of Vancouver, under the leadership of J. J. Trorey, scaled the snow-clad peak at the head of the North Arm. They christened the peak Mount Dickens.

Harry Mitchell, of the B. & K. Company, has on exhibition a fine display of sweet peas grown on the property of P. Larson, on 17th street. The peas are of every variety of tint and color and perfect in form. They are of the Sutton variety.

Rev. Richard S. Marsden, accompanied by Mrs. Marsden, went east via the C.P.R. on Monday, en route to their former home in England, where they will in future reside. There many friends were sincerely sorry to see them depart, but best wishes for health and prosperity follow them to the old land.

The report of the minister of finance, just to hand, with reference to chartered banks, shows

that there are lying in the banks of Canada, unclaimed balances dating for five years or over to the total sum of \$617,087.49. Of this sum the Bank of Montreal possesses the largest sum, namely, \$126,801.64.

A citizen lost a parcel of clothing on June 30th. He advertised for it in THE EXPRESS and on Tuesday received information as to the whereabouts of his property. Moral, "Advertise in THE EXPRESS." The family wanting groceries, or clothing, or furniture, or any other commodity, will find you most readily through these columns.

The Young People's Club of St. Andrew's church have decided that too large a portion of the summer season has already slipped away unimproved in the matter of tennis, etc., and they have undertaken to hold a bee on Tuesday evening next for the purpose of putting the church grounds in first-class condition for tennis and other outdoor amusements.

The road gang of the district municipality has been making good progress on the improvements to the Capilano road. The portion of the road at the big hill, near the second canyon, is now completed and offers a good grade, with a roadway 21 feet wide. The work will be continued uninterruptedly until the road for its entire length is placed in first-class condition for vehicular traffic.

Herbert Carmichael, of the department of mines of the provincial government, passed through the city yesterday. He was on his way to the Swayne group, and adjacent mineral properties on Lynn creek, and will make a report to the government on the mineral resources of that section. Alfred Carmichael, of Montreal, is also making the trip for pleasure and personal information.

A. J. Picton-Warlow has taken over the billiard and pool business formerly owned and operated by W. F. Lake, in the Club block, first door north of the city hall, Lonsdale ave. Mr. Warlow is removing his plant and fixtures from his former place of business to the new stand this week. The Lounge in its new quarters will be made even more attractive than formerly and will be conducted in every particular as an up to date and reliable place of amusement.

All arrangements are made for the picnic, to be held by the Baptist and Methodist Sunday schools on Tuesday next, in Stanley Park. The party will leave on the 9.45 a.m. boat, returning about 8 in the evening. The two superintendents, D. R. Henry and M. B. Martinson, sr., are a committee to buy prizes and take charge of the programme of sports. W. H. Parkin is a committee on transportation and will attend to the fares of the children. Adults will pay their own way. All are welcome.

G. D. Dick left early this week for an extended trip through the mountains. It is his intention to tramp to Squamish, over the old Lillooet trail, via Lynn and Seymour creeks, thence to the country at the head waters of the Squamish, whence he will journey across country to the head of Harrison Lake and along the Lillooet river. Whether the trip will be long or short depends entirely on circumstances, as the longing for the hills has taken hold of him and he intends having a good look at this section of the province indicated.

The series of lectures to be held under the auspices of the Horticultural Society and Farmers' Institute next week, promises to be of unusual interest. D. W. Brydon will be the lecturer and he bears the reputation of being one of the best speakers on the list of the institute. Thursday evening a lecture will be given in the old schoolhouse at Lynn creek, Friday evening at the exhibition building, Alexandra grounds, city, and on Friday afternoon an open air demonstration in one of the public gardens. The members and friends will assemble for this purpose at the exhibition building at two p.m.

**SECOND NARROWS BRIDGE**

The despatch from Ottawa to the effect that the supplementary estimates make provisions for a subsidy of \$200,000 for a bridge across Burrard Inlet, at the Second Narrows, and also a subsidy for the construction of 100 miles of the line of railway from Fort George to the Inlet, has been received with the greatest interest by all sections of the community. The projects thus subsidized are of such vital importance to the future of North Vancouver that few, if any, are inclined to devote any effort to an endeavor to read between the lines. The universal sentiment is one of deep satisfaction that another stage in the development of North Vancouver's destiny has been successfully negotiated.

The bridge contemplated in the granting of this subsidy is a railway bridge solely. While a railway bridge would prove an immeasurable benefit, yet it would be desirable from every consideration that the plans be broadened so as to include provision for vehicular and pedestrian traffic. Now that the Dominion government has practically put up a liberal share of the cost of such a bridge, it is not unreasonable to suggest that the provincial government, upon suitable representations, might be induced to take the project into favorable consideration and, with the assistance of the Dominion subsidy, to erect a bridge which would cater to the requirements of the public as satisfactorily as does the Fraser river bridge at New Westminster. The prospect of a railway bridge, built in part by public money but owned and controlled by a railway corporation, while it would certainly involve very material benefits to country, is nevertheless far less attractive from the viewpoint of public utility than a railway and traffic bridge owned and controlled by the government, for the people. There would appear to be an excellent probability of the realization of this long cherished scheme of a bridge at the Second Narrows, and if it is to become an accomplished fact, it is very desirable that the project be developed along lines that will confer the largest benefits upon the greatest number.

The passing of these subsidies, in its immediate result, adds immensely to the value of the charter of the company in whose favor the grant is made, and it is earnestly to be hoped that bona fide preparations for railway construction in the near future will be the outcome. The resolution passed some weeks ago by the waterfront property owners of the city, expresses a lucid and statesmanlike manner the universally held opinion of the citizenship: "While in some measure sensible of the arduous character of the undertaking contemplated by the V. W. & Y. Ry.

charter, and bearing in mind the outlay which the company has incurred in surveys and other preliminaries, and while of opinion that such an enterprise should receive the assistance of the Dominion and provincial governments, your committee is confronted by the fact that conditional sequestration of North Vancouver shore line, when prolonged by character extension without railway construction, necessarily prevents development of Burrard Inlet, retards the growth of commerce, postpones production of that custom revenue which the north side of the harbor should yield and likewise affects the general progress and revenue of the province."

The granting of these subsidies is encouraging, so far as it goes, but what the entire population on Burrard Inlet is anxiously waiting for, is the letting of contracts and the beginning of actual construction.

**AS OTHERS SEE US**

The deliverances of a judge from the bench invariably carry with them the greatest weight, and the following appreciation of the modern newspaper by Justice Davidge, of Boise, Idaho, in the course of the trial of a case, will be read with interest. Referring to the newspaper, he declares:

"To those who need it and to those who appreciate it, it becomes of great value. It is like a ray of light in a sick room, or a drop of water to the thirsty flower. The modern, up-to-date newspaper of today is the poor man's friend and the busy man's guide. The newspaper comes to us as a friend; it greets us and advises us of the news of the day and the ships that pass in the night. There is no civilization, and no happy home in our land today without the newspaper. The prospector, the miner, the herder, the forest ranger, and even the criminal, who is trying to escape justice, will ride for miles and miles over rough mountain trails to get from the little wooden box, nailed to a tree, the newspaper. It tells him of home and friends and if all are well; it tells him of sickness or of fortune or of the condition of the market. It is food and thought and joy to him; he welcomes it as his teacher and friend. It gives him and every intellectual man, woman and child a sort of handhold on the doings of the day and the pulse of the country."

This gem of eulogy from the west opens the doorway sufficiently to give us a glimpse of the true place occupied by a newspaper in the estimation of the people. The newspaper today is not merely a news conveyor, it is the voice through which popular sentiment finds expression. It is the champion of the rights and the liberties of the people. It is the chief safeguard locally and universally of the best interests of society. Remove the modern newspaper from the social order and you have a state of utter chaos and confusion, too grievous to contemplate. We commend the man who knows how to value a newspaper and who gives uniform and tangible expression of his appreciation of its worth. The man who speaks depreciatingly of the present day

newspaper is a back number, a reactionary force, a dangerous factor. Every newspaper may not attain to the highest standard of excellence (howbeit, as a rule, each is up to the best level obtainable on the basis of the support received), but the fact remains that the newspaper as an institution is probably the greatest force in society in our day. Such tremendous facts should be sufficient, when rightly considered, to cause every citizen to rally about the local paper wherever found, to accord it his loyal support, and to experience a sense of civic pride in its progress and success.

# N. V. BUSINESS HOUSES

A Handy Reference for the Residents of the City

This directory has been issued by the board of trade and has been designed to enable residents of North Vancouver to readily locate local merchants, who are able to supply their requirements in the several lines of merchandise, and thus to counteract, as far as possible, the tendency to do their trading out of town.

## Architects
