VOLUME 6. NORTH VANCOUVER, B. C., FRIDAY, JULY 24, 1908. NUMBER 23

CITY COUNCIL

Aldermen May, Irwin, Wheeler, Smith and Braim were present at the regular session of the city council Monday evening. Mayor Kealy presided.

The following letters were read: From I. Walden, asking for a road to lots 12-13, block 71, D.L. 271, as he intended erecting a residence thereon; board of works to act. From Maurice Gintzbarger, with reference to careless blasting near his residence, and asserting that this blasting was done under the superintendence of Messrs. Loutet and Runkle; he pressed his request for redress and protection. From H. Bowes, hon. secretary of the U.B.B.M., with reference to fees, to a meeting in Victoria in October to interview the attorney general, and to a convention at Vernon in November; fees ordered paid. From the city solicitors, stating that the letter according the option of purchase on the ferry was not before them, but they are of the opinion that the city is under no binding contract to carry out the purchase of the ferry; laid on table.

A petition was presented from James Bennett et al, asking for street lights at the corner of St. Andrew's and 9th, St. Andrew's and 11th, and Ridgway and 11th. Ald. Irwin thought there were sufficient lights at present while the long days endure, and moved the filing of the petition pending the revision of the lighting system that must be made in the autumn. The whole matter was referred to the fire and light committee.

A. Brimacombe presented his resignation as poundkeeper, etc., which was accepted.

Alex. Gibson requested the council to take steps to cause the lot immediately south of his residence at the corner of Lonsdale and 3rd, to be cleared under the fire bylaw The owner is to be notified, and if action is not taken at once the board of work is to act.

Being questioned by the mayor, Mr. Kirkland stated that no action had been taken by the owner to clear the lot adjoining his residence; board of works to do the work.

Accounts were ordered paid as follows: Finance committee, painting city hall, $155; board of works, wages, $172.76; waterworks, wages, $83.15.

Applications for the position of assessor were then considered, the applicants being D. W. Elder and Reginald Dunn. On motion Mr. Elder was appointed to the position.

Ald. Irwin called attention to the fact that the forms of petition under the local improvement bylaw were now ready and copies were distributed amongst the members for approval. On motion of Ald. Smith and Wheeler the form was approved.

It was intimated to the council that Mrs. Brimacombe is willing to take the position of caretaker of the city hall. Referred to committee of the whole.

A Sad Fatality

A sad fatality occurred on Keith Road, east of the Capilano, yesterday morning, when Jennie Isabel, wife of George A. Gordon, ended her earthly career by her own hand. Mr. and Mrs Gordon, accompanied by his son Kenneth and daughter Helen, came north from San Diego, Cal., about a month ago, and recently moved out to Capilano, where Mr. Gordon owns considerable acreage and where it had been his intention to erect a residence. Mrs. Gordon had been subject to periods of melancholy for some years, but Mr. Gordon was not aware of this fact when they were married seven months ago. She had repeatedly expressed her fear that this melancholia would lead to insanity and had on previous occasions attempted to take her own life. Upon one occasion, Mr. Gordon discovered her at the water's edge at four o'clock in the morning and had induced her to return home.

On Thursday morning about 8 o'clock, Mr. Gordon and his son, accompanied by Mrs. Gordon, went out on their property to continue cutting a trail on which they were working. About ten o'clock Mrs. Gordon said that she would return and see about preparing lunch. Shortly after getting beyond their sight, she fired the fatal shot into her breast. Mr. Gordon hurried to the spot, alarmed by the report, and saw his wife lying across the trail. He saw that she had shot herself through the breast and took her in his arms, where she died a few minutes later. Dr. Campbell was hurriedly summoned and arrived about 11.40, but too late to be of any service to the unfortunate woman, who was then beyond all succor.

The body was brought to the municipal hall last evening, where the inquest was held by Coroner A. B. Diplock, and the above facts were brought to light. Kenneth Gordon confirmed the evidenee given by his father, and J. Buckley, teamster for J Lawson, also gave corroborative testimony. The jury, which comprised R. Kenvyn, (foreman), W. Green, J. Lawson, G. Harding, J. Brown and L. Sales, returned a verdict to the effect, that "The deceased Jennie Isabel Gordon, came to her death by suicide, while temporarily insane." The verdict added an expression of sympathy for Mr. Gordon and his family.

Mrs. Gordon was but 43 years of age and was an accomplished and highly educated woman. The body was removed to the parlors of Armstrong & Edwards, Vancouver. The funeral arrangements were not completed at the time of going to press.

Horticultural Society

The board of directors of the Horticultural Society are busily engaged in completing preparations for the annual exhibition, to be held on Saturday, Sept. 5. At the regular meeting held Tuesday evening, it was decided to hold a general meeting of the members this (Friday) evening.

The finance committee will perfect a plan of organization for the the exhibition. Committees will be chosen from the membership at large and each committee will have as chairman a member of the board of directors; the committees will report to the board. Final arrangements for the prize list were made and the copy is now in the hands of The Express for publication. R. L. MacPherson has donated a cup for competition and the finance committee will decide on what basis it is to be offered.

The exhibition proper will be held on Saturday, September 5th, and this will be followed on the evening of the 7th by a popular concert and an assembly, arrangements for which are well under way. Several well known and popular performers from Vancouver have consented to assist and when the programme is finally arranged it promises to be one of exceptional merit.

Sons of England

North Vancouver is rapidly becoming a centre for fraternal societies, almost all of the more prominent organizations being represented. In addition to those already here, the Oddfellows are organizing a strong lodge, and, by advertisement in another column, it will be seen that the Sons of England also purpose doing likewise. A meeting is called of all those interested, at the Orange hall, on Thursday evening next. It is expected that 30 or 40 charter members will be obtained for the new lodge.

Traffic Increasing

The steady increase in the traffic over the local lines of the B. C. Electric Railway manifests the gratifying growth of the city, as well as the popularity of the north side of the Inlet for outing trips, etc. During the week including July 1st the passenger traffic showed an increase of 2775 passengers carried over the corresponding week of the previous year, while the traffic for the week ending July 18th showed an increase of 1737 passengers over the corresponding week of 1907. The average weekly advance will not be less than 1000 people and will probably reach 2000. Just at the present season the Capilano line enjoys the largest patronage, due to the many picnic parties going in that direction. The Lonsdale ave traffic is reliable and is showing gratifying development. The Lynn valley line is perhaps the steadiest earner, taking the year through. The increased business in the railway and light departments has rendered necessary increased expenditures in connection with the office staff. The rolling stock of the local branch has also been increased to seven cars, as compared with four last year. These facts are a valuable index to the actual growth of the city and are very encouraging.

High School Facilities

The public school board will meet this evening. One of the most important items of business will be the action to be taken with respect to additions to the teaching staff for the ensuing year. The fact that eight candidates from North Vancouver passed the high school entrance examination, and that there are several others in the city and district who are ready for junior high school work, has rendered it advisable for the trustees to seriously consider the need of so arranging the staff that these pupils may be provided with facilities on this side of the Inlet for pursuing their studies.

Under existing conditions this body of ten or twelve boys and girls is compelled to seek high school tuition in Vancouver. It is none too certain that that city can continue to accord them these facilities as in the past, as the Vancouver school board is face to face with a very difficult problem to provide adequate facilities for the crowd of high school pupils within her own precincts. Added to this, it is highly desirable, from a North Vancouver point of view, that educational interests on the north side of the Inlet be made to centre in this city. This can readily be accomplished by keeping pace with the progress of the pupils and providing such facilities as are required from time to time. It is not desirable from any viewpoint that the youth from this city and district be allowed too seek educational facilities outside. The expense attendant upon doing junior high school work in connection with the public school, would not be at all heavy.

The proposition is made that, instead of engaging a juvenile teacher as an addition to the staff, an assistant male teacher be employed, who would be capable of relieving the principal of a sufficient portion of his present duties to enable him to take charge of the junior high school class. This is the method that is almost always followed when high school work is first undertaken in a school district and, in point of fact, the Vancouver school board proposes adding such a class to Lord Roberts school and to the Seymour school, either of which is over twice as large as the local school.

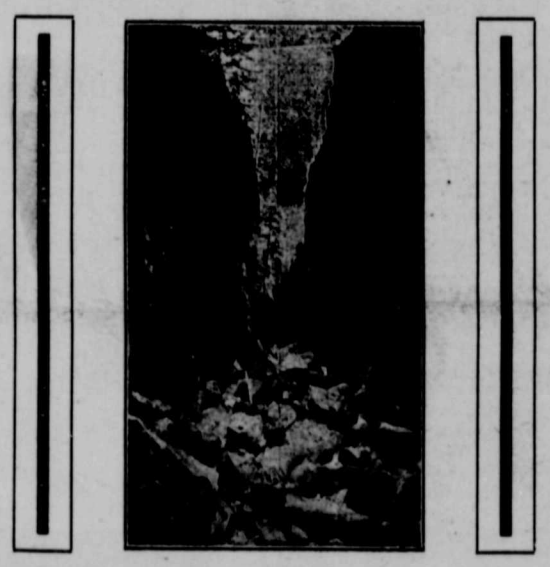
The scheme is altogether feasible. It would give the city and district facilities for advanced education that would be adequate for the present and would form the nucleus of a high school, for which the city would be justified in approaching the government in the near future. The educational facilities of a city constitute one of the foremost considerations upon the part of families who are seeking a home, and there is every reason why North Vancouver should keep right up with public requirements in these matters. The school board should manifest their enterprise by adopting an energetic and progressive policy at this important juncture in educational matters.

Successful Picnic

The Sabbath school picnic held jointly by the Methodists and the Baptists of the city at Stanley Park, on Tuesday, was a decided success. The day was ideal for the purpose, while the attendance of parents and children was very encouraging. The races and other events that composed the day's programme were entered into very heartily by the children. The picnicers returned home by the 8.15 ferry.

Gas Company for Here

S. G. Falkner and Ald. Cavanagh, of Vancouver, president and director respectively of the British Canadian Wood Pulp & Paper Co., whose plant is located at Port Mellon, on Howe Sound, were in the city last evening, for the purpose of conferring with the council with respect to the company securing a franchise for the laying of pipes and the supplying of gas within the city limits. The gas is a by-product in the manufacture of wood pulp and the company will be in a position to supply the city at reasonable rates.



SECOND CANYON ON CAPILANO CREEK

Result of the Marathon

Just as The Express is going to press, word comes of the result of the great Marathon race in connection with the Olympic games in England. Italy won first place, with the United States second. Longboat, the celebrated Canadian runner, proved a disappointment.

Opening Announcement

The North Vancouver Fish Co. will open for business in their new store, corner 8th street and Lonsdale ave, on Aug. 1st. They will carry all kinds of fresh fish, butter, eggs, and vegetables for sale at moderate prices. Their phone is 84.

The picnic of the choir of St. Andrew's Presbyterian church which was to have been held on Saturday last, but which was postponed because Ald. Braim's launch was not completed, will be held tomorrow. The picnic will be held at Brighton Beach, leaving here at 2 p.m.

A solitary drunk was to have appeared in the police court this morning for sentence, but failed to make his appearance and the city treasury is accordingly enriched to the amount of his bail.

Hamish Cameron, a private pupil of this city, passed the high school entrance examinations with much credit.

LOCAL NEWS

The Express, $1 a year.

The freighter forager was in port Wednesday with a cargo of feedstuffs for Brackman & Ker.

James Murray, sr., returned to the city on Thursday last, after a sojourn in Victoria and other points.

The new house of J. Green Armitage, on Lonsdale ave, north of 22nd street, is rapidly nearing completion.

Advertisers must positively have their copy for changes in to this office by Wednesday afternoon of each week.

Sale & Brewitt, the local stationers, will occupy the corner store in the new Keith block as soon as it is completed.

J. S. Emmerson, chief of the fire department, is building a residence on his property, 4th street, opposite the fire hall.

W. C. Eisenman left Wednesday evening to participate in the great harvest that is about to begin in the Northwest.

District Councillor T. S. Nye is building a residence on Nye street, east of Lonsdale. The stone foundation is now being laid.

Robert Ward & Co. are calling for tenders for clearing 25 acres of land in D.L. 553. See advertisement in another column.

E. Scott went east this week for the purpose of assisting the Manitoba farmer to garner the grain during the forthcoming harvest.

Mrs. W. C. Gribble is prepared to do all kinds of plain sewing and mending at her residence, 6th St., between Lonsdale and Chesterfield

I. Walden is making preparations to erect a residence for personal occupancy on his lots at the corner of Jones ave and 6th street.

Thomas Hutchinson, formerly in the grocery business on Keith road west, left Wednesday for his former home in Manitoba. He will return here in the autumn.

Mrs. Alexander Smith, accompanied by the Misses Smith, is entertaining a party of friends from Vancouver, at the summer residence of the family at Brighton Beach this week.

Died.—Armstrong. At Westminster avenue, South Vancouver, on the 21st inst., Robert, the infant son of Mr. and Mrs. R. G. Armstrong, and grandson of Alex. Philip, C.M.C., of North Vancouver.

T. S. Nye has a gang of men at work completing the clearing of two acres of land in district lot 2026, near the city limits. The land will be ready for the spade when the work is finished. It is Mr. Nye's intention to erect a fine stone residence on the property.

Miss Philip, who has been in charge of the public school at Port Essington, accompanied by her sister, returned to Vancouver on Saturday by the Princess May. She will remain at the home of her parents, Alexander and Mrs. Philip, 2nd street, during the summer vacation.

North Vancouver scholars did splendidly at the entrance examinations, seven passing out of eight writing. Those passing are: Marion D. Maron, 656; Alfred F. Shaw, 647; Duncan Lawson, 644; Jean McMillan, 623; Nellie Phillips, 603; Raymond Baxter, 603; Minnie Fogg, 577.

The ferry company has an important notice on the fourth page of this issue, to the effect that on and after August 1st the holders of monthly tickets and passes must show their tickets every time they pass the gates. Monthly tickets will be on sale the last three days of each month.

Mt. Pleasant lodge, K.P., Vancouver, have chartered the St. George for a moonlight excursion on the 30th inst. The boat will call at North Vancouver at 8.15. Those desirous of attending may obtain tickets at this office, or from W. T. Murphy, Lonsdale ave. Price, 50 cents.

The funeral of Robert, infant son of R. G. and Mrs. Armstrong, South Vancouver, and grandchild of Alexander and Mrs. Philip, of this place, took place yesterday afternoon. The bereavement is greatly felt by parents and grandparents alike, to whom sincere sympathy is extended by a very large circle of friends and acquaintances.

H. E. Reid, night engineer at the local powerhouse of the B. C. Electric Co., went north yesterday on the str. Manhattan, one of the boats of the New England Fish Co. He will be the guest of Capt. Gott for the trip, which will take about one week. Herb expects to have some tremendous fish (stories) to distribute among his friends upon his return.

J. Warren Bell, who has purchased what has been known as the McRae mill, on the Esplanade, is now busy with a gang of men giving the premises a thorough overhauling. About three weeks will be required for getting the mill in first-class condition and operations will then be begun on sawing lumber. Mr. Bell is a practical mill man of extended experience and will be prepared to assure satisfaction to his customers.

The total daily output of the dynamos of the local B. C. Electric system now amounts to 3500 Kilowatt hours. Of these 500 Kilowats are required for motors, 1600 for light and the remainder for the electric railway system. The Vancouver system is now averaging well over 72,000 Kilowats per day. The North Vancouver showing is considered excellent at present and the steady growth of the system manifests the gratifying expansion of the city.

The local board of school trustees are getting in readiness to comply with recent legislation, which requires that the national flag shall float continuously over every schoolhouse in the province. The government, of course, supplies the flag, and John Nye very generously donated an excellent pole, delivering it at the school grounds yesterday, where it will be dressed, painted and erected. The first hoisting of the flag will probably be attended by appropriate pomp and ceremony.

The alterations and additions to the public school building are making rapid progress and will be completed well within the time limit. The seats, which are of the latest pattern of individual type, are ordered and will soon be to hand. The hyloplate, which is used for the boards and is of a green tint, is also on order. Hyloplate is the latest production for this purpose and is said to be the best. It comes in sheets of any desired length and is set into the wall, so that when finished the board is flush with the surface of the plaster. The entire work will be completed in good time for the opening of the school the last of August.

Considerable anxiety was felt upon the part of the many friends of P. Larson last Friday, because of his failure to reach home at the appointed time from a trip to his ranch at Eagle harbor. Mr. and Mrs. Larson, accompanied by a few friends and several children, took a run up to the ranch in their motor launch, intending to return that evening. When no tidings was received up to midnight, J.D. Duke started out to investigate, and when no news came up to the following morning, A. J. McMillan proceeded to load up the tanks of his launch to join the searching flotilla. The sight of the launches coming down the Inlet, however, intercepted his departure. The delay was caused by the fact that the motor of Mr. Larson's launch got out of order when about a mile out on the return trip. The party rowed back to the ranch and on the arrival of Mr. Duke's launch, decided to remain at the ranch for the night, as the tide would be too strong through the Narrows for the one launch with the other in tow.

NORTH VANCOUVER, JULY 24, 1908

THE GUARANTEEING OF DEBENTURES

The advisability or otherwise of a municipality guaranteeing the debentures of industrial concerns, to secure their establishment within the corporation limits, is a question that very frequently arises for discussion and concerning which two opposing opinions are invariably developed. For illustration, a manufacturing project, whose total investment in property and plant will be say $150,000, submits a proposition to a city, or a district municipality, to the effect that the promoters will locate the industry therein provided the municipality will guarantee the bonds of the company to the extent of $100,000, repayable in 50 years, with interest at five per cent per annum.

The sinking fund for this $100,000 (a sufficient yearly deposit which, in fifty years with interest, will amount to the principle sum), would be, roughly speaking, $1500 per year and the interest $5000 per year. The total payments would amount to $6500 per year. The municipality is asked to guarantee these annual payments, and in consideration therefor is given a lien or a mortgage on the entire assets of the company. Should the company meet the annual payments, no claims whatever lie against the city. Should the company fail to make the payments, the city must do so, and the municipal claim for reimbursement is made good through the lien.

Viewed on its merits, as a business proposition, the first question would be: Are the assets of the company sufficient to afford a good margin for security over and above the amount guaranteed? And in the second place: Is the earning power of the company sufficient to provide profits to an amount that gives reasonable assurance that the company will be able to provide for sinking fund and interest from year to year?

It is not difficult to see that a proposition might be submitted to a municipality that would be, beyond all question, safe and sound, so far as these considerations are concerned, so that all the benefits of the presence of a great industry would be obtained, the debenture loan successfully paid off, and not a dollar of municipal funds called for at any time. In fact, it would be safe to conclude that such would almost invariably be the case.

There is, however, a further consideration to be taken into account, namely: What will be the effect of the granting of the guarantee upon the borrowing power of the municipality? The statutory borrowing power (20 per cent of the total assessed value of property within the corporation) would remain unaltered; but financiers are not guided implicitly by the margin remaining unused on the statutory basis. Theoretically the granting of the guarantee would not at all affect the credit of the municipality in the financial market, but practically the lender would consider that the amount of money that could be advanced that municipality, on a safe loaning basis, is diminished because of the guarantee. Nevertheless, it is not accurate to say, that that credit is depreciated by the full amount of the guarantee, for if the liabilities of the municipality are increased by the amount of the guarantee, then the municipal assets are increased by the value of the assets of the company whose debentures are guaranteed. If the financier is to be given credit for ordinary business insight, and for even-handed justice, then it would be nearer the mark to say that the credit of the municipality is reduced by only a fraction of the total amount guaranteed.

In discussing this question the fact is too frequently lost sight of, that the entire assets of the industrial concern stand between the municipality and any net loss through the transaction. There are those who strongly declare that it is wrong in principle to use public money, or public credit, to bolster up private ventures, and that these industrial enterprises should stand solely upon their merits and win their way without grants in any form from the public exchequer. On the other hand, there are those who take the position that the public treasury is gainer to a very large extent by means of the public benefits which accrue from the establishment of large industrial enterprises in the city, or district, and in support of this position they cite the fact that many of the largest centres in the United States were built up on the principle of assisting manufacturing and industrial concerns in this way.

The question is one in which finality of thought has not been reached, neither has the last and decisive word been said. It is still an open question and calls for careful, unprejudiced consideration, when a body of ratepayers is confronted by a proposition of this nature.

A DANGEROUS PRACTICE

Those who have crossed the Inlet on the ferry steamer North Vancouver, at that time of day when large numbers of men are being carried, cannot but have noted the habit into which scores of men have fallen, of climbing over the bulwarks and leaping for the wharf before the vessel has properly landed. This custom is assuming such proportions, and those who practise it are becoming so venturesome, that in the interests of safety to life it is time that attention was called directly to it. If allowed to continue unchecked, there is every possibility that some one will sooner or later attempt too long a leap, or will misjudge the distance, or his foot will slip when he is about to leap. If such a contingency were to involve no more than a ducking to the victim, it would not be a serious matter, but it is not difficult to imagine that a man's head might come in contact with either the boat or the wharf, so that he would be precipitated into the water with fatal result; or otherwise, that he might be caught between the steamer and the wharf, with serious consequences to himself.

The practice is the more indefensible from the fact that there is so little to gain. At best, those who are so impatient do not succeed in passing the gate more than a minute or two ahead of those who do not attempt to land until the boat is at the wharf. The custom is both foolhardy and dangerous and should be discontinued.

North Vancouver Mails

Mails close for despatch as follows: For Vancouver and all points 8 a. m., 11:15 a. m., 5:45 p. m.; for Lynn creek, 11:15 a. m.

Mails arrive: Vancouver and all points, 9:10 a. m., 12:45 m., 5:45 p. m.; from Lynn creek 2 p. m.

Outgoing mails for Lyan creek after 11:15 a. m. should be delivered at the wicket.

In the last issue of the B.C. Gazette, James A. McNair makes application to purchase 640 acres of government land in Omineca, adjoining lot No. 304.

City of North Vancouver

NOTICE TO CONTRACTORS.

Tenders Wanted for Clearing.

SEALED TENDERS, marked "Tenders for Clearing and Grading Cemetery," will be received by the undersigned up to 5 o'clock p.m., on Monday, the 27th day of July, 1908, for the clearing and grading of a portion of the land, *four acres in extent or thereby, on the* south-easterly corner of D.L. 1620, to be used for cemetery purposes.

Tenders to state a figure for clearing per acre.

All necessary information, specifications, and general conditions of contract may be obtained, by intending offerers, at the office of the City Engineer.

Each Tender must be accompanied by a marked cheque equal to 5 per cent. of the amount of the tender, and the successful tenderer must provide an approved guarantee for the satisfactory completion of the contract.

The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

The lowest or any Tender not necessarily accepted.

THOMAS SHEPHERD,
City Clerk.

City Hall, North Vancouver, B.C.

Perhaps Experience With Their Own Pianos Caused a Blunder

We refer to rival salesmen, who last month extensively advertised for sale, at a great bargain, AN OLD DISCARDED STYLE "New Art," Bell Piano, as "ABOUT TWO YEARS OLD," when in fact it is much older.

BELL PIANOS are built in Canada by the largest concern of its kind in the whole British Empire of such good material, and in such workmanlike manner, that even people claiming to be piano experts are deceived into believing that old discarded styles are almost new, and offer them for sale accordingly.

THE "NEW ART" BELL PIANOS are the only Canadian Pianos that have been so distinctly honored.

See the Three Carloads of New Styles we are Receiving This Week
By investigating you will find that most of the Pianos in North Vancouver are BELLS.

THE DISTRICT COUNCIL

Councillors Nye, McNaught, Davidson, and Robson were all present at the regular session of the district council on Friday evening last. Reeve May presided.

Letters were read as follows:—From H. Bowes, hon. secretary of the U.B.C.M., with reference to membership fees now due; also an approaching interview with the attorney general at Victoria, and the annual convention at Vernon in November; received and fees ordered paid. From the Western Canada Irrigation Association, inviting representatives to the annual convention at Vernon, Aug. 10-15; accepted with thanks. From W. B. Bunbury, local manager of the B. C. Electric Co., to the effect that the company does not consider itself legally bound to make extensions throughout the district on request; referred to committee of the whole. From the city council, to the effect that the bonds will soon be sold, when an adjustment of financial matters with the district will be made at once, and also stating that if taxes come in freely the interest will be paid immediately; laid over for reference. From Hon. F. J. Fulton, provincial secretary, with reference to assurances made by the government at the auction sale of lands in timber limit "G," west of Capilano river, and acknowledging receipt of memorial in connection therewith; received. From Hon. W. J. Bowser, attorney general, acknowledging application for certificate for the new water district and promising early attention; received. From the city council, suggesting that the district appoint three members to act on a joint committee with that of city in the negotiations now proceeding with the ferry company; referred to committee of the whole. From C. Caliphrones, offering to complete the clearing and grading of Dovercourt road a distance of 176 feet, at regular rates; board of works and engineer to act.

Kenneth Grahame interviewed the council with reference to the bridge across the flume at Cook's mill, asserting that it is too low to haul heavy loads and requesting that it be raised to grade and lengthened about 40 feet, the cost being about $150; engineer to report.

John M. Duval interviewed the council on behalf of certain petitioners, who had asked for a pound on Lynn creek. This petition was signed by 55 out of the 63 settlers in the valley, and several of those not signing would have done so had they been at home. The council had dismissed the petition, without even a reason to the 55 petitioners. This was not in accordance with the statutes, which called for a two-thirds petition, neither was it in harmony with the principles of representative government. Mr. Duval adduced many reasons why a pound should be established in the valley. Coun. McNaught interposed that the petition was for the regulation of firearms, as well as for a pound, and asserted that a majority of the names were attached for the former purpose. Reeve May explained that the action of the council was due to the fact that at the meeting at which the petition was read, several ratepayers who were present had assured the council that the pound bylaw was not important and that the time was yet too early. Mr. Duval objected to the council being guided by the assertions of individuals in the face of the petition duly signed. Reconsideration of the matter was promised.

R. Magennis requested that the bridge across the flume of Frederick road be lowered to grade. He has established a business in that section and finds the grade too heavy. Coun. Nye thought the opinion of the solicitor should be had as to the powers and responsibilities of the district with reference to flume crossings. The councillors thought the flume would be taken out in a few years and the matter would adjust itself. The engineer is to report as to the bridge in question.

As only one tender was received for the work on Ross road, it was ordered returned to the tenderer.

A plan of subdivision for district lots 852 and 853 was submitted. As certain grades are impossible and a post is misplaced in the plans, they were not accepted.

The report of the finance committee, recommending payment of accounts to the amount of $730.26, was adopted.

Specifications for the pipe of the new water district were read and referred to the engineer for further inquiries. The pipe is to be of wood, wire woven, size eight and six inches. It is to resist a pressure of 300 foot hydrostatic head, and is to be guaranteed for five years. The hydrants are to take the standard guage couplings. The ditch is to be sufficiently deep to lay the pipe at a depth of eighteen inches. The total distance is 19,000 feet. Reeve May stated that some of the ratepayers wished to have the clearing and ditching done by day labor in order that they might secure employment. It was finally decided that the job be done by piece work to be supervised by the engineer. A stated number of yards will be awarded to those who wish to do the work, at a price to be agreed upon.

The Capilano road bylaw was read and finally passed.

Council will hold a special session Wednesday night, to meet Dr. Swayne, with reference to the proposed Lynn valley tramline.

District of North Vancouver

A By-Law to Expropriate Lands for the Capilano Road

BE it enacted by the Reeve and Council of the Corporation of the District of North Vancouver, in Council assembled, as follows:—

1. For the purpose of establishing, opening, making and preserving a highway, to be known as the "Capilano Road," the Corporation hereby, under authority of Section 50, Subsection (142) of the Municipal Clauses Act, enters upon, expropriates and takes ALL AND SINGULAR that tract or area of land sixty-six feet in width, in the District of North Vancouver, and Province of British Columbia, the centre line of which is particularly described as follows: viz.:—

Commencing at a point on the South boundary of D. L. 593, said point being N 65 deg. 45 min. E—826 feet from the south west corner of said D. L. 593; thence N 37 deg 60 min W—165.8"; thence N 17 deg 13 min E—156.5"; thence N 31 deg 43 min E—93.2"; thence N 69 deg 57 min E—137.2"; thence N 41 deg 21 min E—216.9"; thence N 18 deg 05 min E—120.1"; thence N 10 deg 45 min W—126"; thence N 60 deg 25 W—159.5"; thence N 30 deg 20 min W—176 1"; thence N 1 deg 15 min W—108.-1"; thence N 19 deg 08 min W—197.8"; thence N 42 deg 20 min W—190.1"; thence N 54 deg 46 min W—171.5"; thence N 50 deg 17 min W—277.8"; thence N 83.03 min W—125.4"; thence S 60 deg 41 min W—550.5"; thence N 61 deg 27 min W—310.6"; thence N .56 deg 52 min W—182"; thence N 50 deg 22 min W—255.2"; thence N 35 deg 48 min W—209.7; thence N 42 deg 13 min W—683.2"; thence 40 deg 30 min W—804.6"; thence N 30 deg 56 min W—330.-8"; thence N 1 deg 34 min E—184"; thence N 11 deg 59 min W—155.4"; thence N 36 deg 57 min W—215.3"; thence N 22 deg 10 min W—142 8"; thence N 25 deg 53 min W—143."1; thence N 43 deg 55 min W—173.7"; thence N 29 deg 11 min W—205.8"; thence N 17 deg 30 min W-174.3"; thence N 47 deg 06 min W-269.8"; thence 51 deg 27 min W 467.4"; thence N 53 deg 12 min W-521.-4; thence N 80 deg 4[illegible] min W-333.7"; thence N 87 deg 39 min W-646.2"; thence N 57 deg 05 min W-220.8"; thence N 80 deg 34 min W-410.4"; thence S 81 deg 50 min W-346.8"; thence N 83 deg 42 min W-657.4"; thence N 43 deg 02 min W-450"; thence N 36 deg 49 min W-315.3"; thence N 76 deg 15 min W-453.2"; thence N 73 deg 50 min W-530.-4"; thence N 72 deg 34 min W-375.2"; thence N 73 deg 33 min W-451.2"; thence N 81 deg 17 min W-292.8"; thence S 63 deg 55 min W-183.9"; thence S 55 deg 52 min W-53", to a point on the Easterly boundary of Capilano Townsite, all conform to a plan of said road filed in the Land Registry Office in the City of Vancouver.

2. This By-Law may be cited for all purposes as the "Capilano Road Appropriation By-Law," 1908."

Passed by the Council on the 19th day of June, 1908.

Reconsidered and finally adopted and signed and sealed on the 17th day of July, 1908.

New Industrial Concern

A certificate of incorporation has been granted the North Vancouver Brewing Co., Ltd. The organizer of the company is A. P. May, with whom is associated local capital. The company has applied for a record of 15 inches of water from MacKay creek. The capitalization is placed at $50,000, divided into $50 shares.

The site of the proposed plant is in district lot 552, due north from the terminus of the Capilano tramway. The ground is 220x300 feet and this is to be cleared at once and a suitable building erected. At the commencement the capacity of the plant will be 600 to 800 gallons of brew. The company purposes manufacturing ale, stout, and a light table beer, and they expect to have the first product on the market in November.

Mr. May is secretary-treasurer of the company, his address being P.O. box 515, Vancouver.

PROPOSED LOCAL IMPROVEMENT

TAKE NOTICE that the Council of the Corporation of the City of North Vancouver intends to construct the Local Improvement set out in the schedule appearing below and intends to assess the final cost, or a portion thereof, upon the real property benefited thereby fronting or abutting thereon and held liable for assessment therefor.

A statement showing the lands liable and proposed to be specially assessed for the said improvement and the names of the owners thereof, so far as the same can be ascertained from the last revised assessment roll and otherwise, is now filed in the office of the Assessment Commissioner and is open for inspection during office hours.

The schedule below shows the estimated cost of the improvement and the proportion to be provided out of the general funds of the city.

A Court of Revision will be held on the 18th day of August, 1908, at the hour of 8 p.m., at the city hall, North Vancouver, B.C., for the purpose of hearing complaints against the proposed assessments or the accuracy of frontage measurements or any other complaint which the persons interested desire to make and which is cognizable by the court.

THOMAS SHEPHERD,
Assessment Commissioner.
