Initial Enrolment of Field Engineers On Tuesday Evening in Pavilion

Temporary Hall Being Secured For Drill Purposes

In connection with the pending organization of a local corps of Field Engineers, the Vancouver Morning Sun recently gave utterance to certain remarks calculated to mislead otherwise informed persons into the belief that the North Vancouver corps would be composed of mixed nationalities. This statement is quite erroneous. Only British subjects will be eligible for enrolment.

A representative of the Express had brief interview yesterday with Mr. Percy Ward, who is determined to devote all the spare time that a district councillorship permits of, to the development of this organization. Mr. Ward is one of three lieutenants already gazetted. The others are the district engineer, Mr. J. R. Cosgrove, and Mr. Roberston, transferred from the 2nd company of Field Engineers, Vancouver. Major Fell will be in command and ex Councilor J. E. Ward second in command.

According to Mr. Percy Ward, Mr. Fell and his colleagues are very busy at present arranging for a temporary hall. This accommodation is required at once, for immediately after the enrolment of a certain number of men on Tuesday night drill classes will be started. Touching upon the value of the scheme, Mr. Ward emphasized the fact that the knowledge to be gained by joining the corps was not limited to a knowledge of soldiering. Members of the corps would be taken through thorough courses of instruction in engineering which would stand them in good stead in many departments of life. Mr. Ward rightly contended that no young man could be accused of wasting time when he was developing his physique and at the same time obtaining an efficient knowledge of bridge building, wireless telegraphy, submarine mining and other branches of engineering work which it is hoped the training of the corps will include.

Mr. Ward dwelt upon the necessity of Tuesday night's enrolment in the city hall being a well-attended one, for with a stout enrolment of men at the outset those in command will feel encouraged to work doubly hard to make the organization an efficient one.

STRONG BID FOR MILLS

Prairie City Promises Liberal Inducements

Regina, May 3—To secure the establishment here of the Ontario & Manitoba Flour Mills, Limited, the city will guarantee the bonds of the company to the extent of $500,000, providing the building and plant when installed are of that value. Careful estimates place the output of the proposed mill at 2,000 barrels daily, which means a yearly expenditure of some $3,000,000 or $4,000,000 by the mill for grain. An effort will later be made to induce one of the railways to construct a spur track to serve the property on which the mill will be located, subject to a fair rental to be paid to the city. The usual exemptions from taxation are granted for a period of 20 years until January 1933, providing the company will change its name in the near future and become "The Ontario & Saskatchewan Flour Mills, Limited." Rumors are also rife to the effect that several large flax mills are to locate in the vicinity of the flour mills, and that options have been taken upon property for this purpose.

Growth is better than permanence and permanent growth is better than all.

"THE SNOWBALL"

Saturday night is probably the best night in which to enjoy a good laugh since the day following is a day of rest. Tonight the opportunity should certainly be seized of witnessing "The Snowball" a rollicking comedy which the Golden LePaige company are presenting at the Lonsdale theatre. The play is so entitled because events as they roll on accumulate steadily into a huge ridiculous tangle of misunderstandings and mistakes just as a snow ball attains immense proportions when trundled along in the same steady manner. There should be row and rows of practical jokers in the Lonsdale each night, for there is a very good moral for this genus to take heed of. The play is smartly written and brightly acted, and has so far been enjoyably witnessed by good audiences. If "laugh and grow fat" is a reliable receipe, this should be a corpulent city, since "The Snowball" is to be followed next week by that famous absurdity "The Private Secretary."

RECORD IMMIGRATION REPORTED

Winnipeg, May 3—Increasing interest among manufacturers in widely scattered sections is now being evidenced by the flood of enquiries being received by the Winnipeg Industrial Bureau. A marked feature respecting these inquiries is the desire expressed for specific information regarding labor conditions and raw materials. A current report submitted to the bureau states that the home reunion movement, with headquarters at Winnipeg, has now extended to 23 cities in Canada, and at the present time the aggregate guarantee fund at work amounts to over a quarter of a million dollars. So far this year immigration figures for Manitoba are in excess of those of the corresponding period of any previous year.

Septuagenarians Marry

A notable wedding took place in this city on Thursday morning, the contracting parties being Edward William Argery of Victoria and Mrs. M. A. Ballanger of North Vancouver, both seventy six years of age. The ceremony was performed by the Rev. Father Bedard at St. Edmund's church, and immediately after the nuptials the two old people left for Victoria where they intend making their home. Mrs. Argery has three great grandchildren.

PREVENTION OF FOREST FIRES

Department of Lands Completing Organization—Fire Fighting Service Greatly Enlarged and Improved—Active Co-operation of Railways, etc. Gratifying Feature

Under instructions from Hon. W. R. Ross, who is taking active measures to bring into force the important forestry legislation passed last session, the organization of the forest branch of the lands department is being vigorously proceeded with.

Mr. Overton Price, vice president of the National Conservation Association, who, under Mr. Gifford Pinchot, organized the wonderfully efficient forest service of the United States, and who is now acting as consultant forester to the government of this province, will reach British Columbia early in May and will then confer with the minister of lands concerning general plans for the establishment of a systematic forest administration in whose hands the safety of the immense timber resources of British Columbia will be placed.

Preliminary Work

Meanwhile Mr. Ross has been arranging the preliminary work incidental to immediate needs, namely, the mobilization of the fire preventative force for the season that opened on May 1. The minister is determined that the construction of permanent improvements such as field telephones, lines *look out stations, emergency* trails and fire lines shall be undertaken for these have been worked out under the best advice.

The voluntary fire associations in the states of Washington, Idaho and Oregon have shown in a striking manner how effective such improvements are in increasing the efficiency of the patrol forces, quick arrival being the secret or success in fire fighting.

It is a gratifying feature of the situation that both timber owners and railway companies are showing the utmost willingness to co-operate in diminishing the danger to the forests during the dry months. Rights of way are being cleared, telephone and power line companies are burning debris and inflammable material and construction work on many of the new lines is being carried on with a degree of care that would have been thought impossible a few years ago.

The public works department under the Hon. Thomas Taylor is co-operating heartily in this work, and instructions have been issued to road superintendents throughout the province to give particular attention to and as soon as possible to set road gangs at work upon the destruction of rubbish alongside the public roads.

Interesting Presentation Ceremony At St. Andrew's Presbyterian Church

An intensely interesting function took place last night when the members of St. Andrew's Presbtyerian church choir held a reception in honor of Mr. and Mrs. Wilson and Mr. and Mrs. Marsden who were so recently married. A pleasant programme was rendered by different members of the choir. The Rev. Mr. Macleod, on behalf of the choir, presented Mr. and Mrs. Wilson with a silver fern pot and cruet stand and to Mr. and Mrs. Marsden a cut glass fern pot and cruet stand. Much credit is due to the ladies who provided supper and to the committee who arranged such an enjoyable evening.

Of Interest Locally

The SS. Chelohsin of the Union S. S. Company, is undergoing repairs on the Wallace ways in consequence of a mishap on the Fraser river.

Mrs. Shopland, the Misses A. and D. Shopland and C. S. Shopland and maid are guests at the Palace Hotel. The party arrived from St. John's, Engary and are making a tour of the Pacific coast. From here they will visit the Orient, thence returning to the old country.

The firm of Inkster, Ward & Co. has purchased from Mr. C. H. Mayne and Mr. A. Shotcos the whole of D. L. 1016, in Lynn Valley, a piece of property comprising 300 acres. The price is stated to be exceptionally high. The land, it is stated, will be subdivided before being placed on the market.

The two mile walk from the end of the Capilano car line into the heart of the municipality of West Vancouver will be one of the reasons placed before the B. C. Electric Railway Company why an extension of the car line is very desirable. Reeve Nelson and his council will not lack general support in their efforts to attain this end.

Major General A. J. Stobbart, assistant deputy supreme chancellor of the Knights of Pythias Order, of Minneapolis, visited the North Shore this morning. At 11.30 he raised the British flag over the K. P. Hall on Fourth and Chesterfield and delivered a brief and interesting speech which will be set forth in Monday's issue of the Express. The major general, who is on his way to California, was then escorted to Capilano, where luncheon was served and where he was afforded an opportunity of seeing the beauties of this side of the Inlet. The visitor was expected yesterday but was unfortunately delayed at Revelstoke.

North Lonsdale Presbyterian Church

The extensions put to this church are now practically completed and the finished work does great credit to the architect, Mr. Woodard, and the contractor, Mr. J. M. Wight, both of North Vancouver.

The auditorium is 24x44 feet. There are benches, 2 rooms at the back each 12x24 feet, the lower of which will be mainly used as a kitchen, the upper as class room and for smaller meetings.

The ladies used part of the $160 which they realized at their sale to present the church with six dozen additional chairs, matting, blinds, etc., so that it will be well equipped by next Sunday when the opening services take place.

Rev. Geo. A. Wilson, superintendent of missions, will conduct the morning service, while Rev. Principal Mackay of Westminster Hall will preach in the evening, when also the two new elders will be ordained.

At afternoon service at 2.30 Mr. Ricketts, who has spent many years in China, will deliver a missionary address on that country while a collection is to be taken for some of the missionary work of the church.

PROVINCIAL HEADQUARTERS IN LONDON

Recent despatches from London with respect to the progress of those matters which Premier McBride has now in hand, in the capital of the empire indicate, among other items, that it is the determination of the provincial government that British Columbia shall be placed in a position of advantage for the transaction of business in the old country, second to no other portion of the overseas Dominion. Premier McBride has evidently investigated the matter carefully upon the ground from the standpoint of a practical man of affairs and is reported to have stated that what this province needs in London is not governmental quarters in Westminster (the diplomatic centre of the great city) but rather, suitable premises in the heart of the business section which can be readily reached by all or any who are interested in British Columbia. Following these conclusions options are now being quietly secured on desirable properties and the very best available site will be purchased. Upon this site will be erected a structure which will at once be a credit to this province and to the business section of the great metropolis. In this building will be incorporated all those features which ability and ingenuity coupled with an intimate knowledge of the requirements, present and future, can suggest or devise for promoting the satisfactory transaction of all business pertaining to the several departments of the interests of British Columbia with which it will be desirable to deal, on the other side of the Atlantic.

There are many features with respect to this province whose influence should create a natural affinity between British Columbia and the general public throughout the British Isles and it is particularly desirable that the province be placed in the best possible position to avail itself to the utmost of those natural advantages for the promotion of provincial interests in the old country. Sentiments such as these voiced by the Premier as quoted above, will, therefore meet with unqualified approval upon the part of all progressive citizens of the province who will also view with the utmost approval the inauguration and development of a policy of administration in London commensurate with the splendid scale upon which the foundations are being laid.

EAST SEYMOUR DISTRICT

Prominent among the notable features of the development of the North Shore at the present time stands the movement which is gradually forming into form for active development of that portion of the district of North Vancouver lying between Seymour Creek and North Arm.

Naturally, there is no section of the north side of Burrard Inlet which can boast an aggregation of advantages and attractions superior to those possessed by the East Seymour district. Added to this there are many elements in the situation at present whose combined influence points to rapid and immense strides in the development of its advantages and resources. Among these may be mentioned the installation of a floating dry dock at Roche Point and the development of the scheme upon which the Imperial Shipbuilding, Drydock and Railway Corporation is operating at that point, the movement which it is understood is pending for the extensive development of the mines of the same corporation at the head of Lynn Creek, the proposed construction of a bridge across North Arm together with connecting railway lines by the Canadian Pacific Railway. In the matter of the creation of those facilities which are necessary for the comfort of residents, notable progress is likewise being made. As announced a few days ago, arrangements have been completed for the operation of a fast ferry service the year round making at least four trips daily between Vancouver and five different ports of call in this district, on Burrard Inlet and North Arm. At the last meeting of the council of the district of North Vancouver, a communication was received from the East Seymour Ratepayers' Association requesting that a water district be created for the supply of water for domestic purposes.

The indications all point to the fact that East Seymour District is on the eve of important developments which will usher in an era of gratifying progress, quite in keeping with that which will be experienced by other sections of the North Shore.
