Volume 11 — North Vancouver, B.C., Tuesday, June 20, 1911 — Number 30

Canadian Industrial Disputes

The department of Labor has seven boards of conciliation now in operation in different parts of the Dominion investigating with as many industrial disputes. The list is as follows; The Western Coal Operators Association and their employees, relative to conditions of employment of miners in Alberta and in British Columbia, the Great Northwestern Telegraph Co. of Canada and their telegraphers relative to wages, conditions of employment and alleged discrimination against certain employees, members of the Commercial Telegraphers Union of America; John Ritchie Co. Ltd.; W. A. Marsh Co. Ltd.; Cates Bros and employees relative to wages; The Hudson's Bay Mining Co. Ltd., Gowganda Ont., and their employees relative to wages and charges for board; The Northern Coal and Ore Dock Limited, Port Arthur and their employees relative to wages and alleged discrimination against members of the Union; the cities of Port Arthur and Fort William, Ont. and electrical worker relative to wages and hours; the city of Edmonton and electrical workers relative to wages and conditions of employment.

The Tragedy of Kingship

Dr. Angelo S. Rappoport has made for himself something of an international reputation as an authority on the private lives of kings and queens—if kings and queens may be said properly to have any private lives at all. His "Curse of the Romanoffs" in particular has brought him considerable fame (or notoriety) as a learned and bitter exponent of the seamy side of Russian rule; but the ramifications of his study of a subject at once attractive and appalling have been confined to no country and to no age—they are all-embracing. His knowledge of the eccentricities of royalty is both wide and profound; indeed, the erudition of an out-of-the-way order packed into his books is almost uncanny alike in its extent and its minutae.

For example, he has just written a new work with the terrible title of "Mad Majesties, or Raving Rulers and Submissive Subjects"; and appended to this volume is a list of the writers consulted and relied upon for the facts—or stories—used by him. These writers number between sixty and seventy; and not half a dozen of them are English, and hardly twice as many of them are at all familiar. The explanation, of course, lies in the circumstance that to fairly well-read Englishmen Dr. Rappoport is not only a Jew of cosmopolitan connections but a traveller and a scholar, with the libraries and languages and some of the archives of Europe at his command.

DO KINGS DEGENERATE?

Dr. Rappoport believes that the inevitable "exhaustion" and the consanguineous marriages among royal families in both the modern and the ancient worlds account mainly, if not entirely, for the greater prevalence of mental unbalance among kings and queens and their relatives than among other classes of the population; and so for the bulk of the misgovernment and cruelty of which some rulers have been guilty. In short, he stands for "the curse of ancestry" for heredity as the determining (if not the sole) factor in royal madness and royal crime. With all submission, some of us may tend rather to the doctrine of Jacoby and others that the "exalted exclusiveness of their position and the consciousness and intoxication of power"—the general environment of royalty, in fact, in autocratically governed lands, has been responsible equally if not more forcibly, than what may be termed "the animal consideration" for the ill-fame of various infamous rulers.

If Dr. Rappoport be right, royalty

(Continued on page 2)

THE BOOM IN LONDON

The coronation boom in London has climbed to a dizzy height, and the English people are all ready for the excitement on Thursday.

The huge stands cover every vacant inch around Parliament Square, front every government building and hide every church, even Westminster Abbey itself, so that little more than the towers and the tops of the buttresses are visible from the street. All these are complete from floors to roofs. The elaborate annex to the Abbey where the King and Queen will robe and unrobe is so skilfully devised that it looks almost as though it formed part of the venerable structure which Edward the Confessor created eight centuries ago.

Majestic Whitehall, where Charles lost his head, is gay as never before, with rows of tall white and gold columns festooned with white and red roses which rise from the beautiful arches of Ontario and New Zealand. The costumeless condition of the allegorical figure which Ontario presents at the top of her arch should forever dispel what remains of English misapprehensions regarding the severity of Canada's climate.

In all 1,650,000 cubic feet of timber is now piled up into the seats from which their majesties will be cheered by their subjects of every race and color, and every fire brigade in London lives in terror lest a chance match should set London aflame and destroy pretty well every historic building that the metropolis holds.

FIRE ON 14th STREET

A fire which required the attention of the fire department occurred yesterday afternoon on 14th street near the steam laundry. Sparks from a bush fire raging in the vicinity caught within ten feet or so of the laundry and it was very much to the credit of the department that no serious damage resulted as the high wind was fanning the flames. Two young men who were shacking near the blaze were forced to move their belongings and assisted in fighting the firre. After three hours' strenuous work the fire brigade succeeded in extinguishing the blaze.

RECEPTION TO RECTOR

A congregational reception upon the part of the members of St. John's church has been arranged for Saturday afternoon of this week to welcome home Rev. H. J. and Mrs. Hooper. The reception will be held in the gardens at the residence of Mrs. W. L. Keene if the weather should be fine, but otherwise in the parish hall. The proceedings will commence at four o'clock. It is hoped that all members who can will endeavor to be present.

CORONATION HONORS

Canadians Well Represented

The list of honors to be conferred by the King in connection with the coronation celebration included the creation of twenty new baronets and forty knights. Amongst the Canadians who are honored the order of K.C.M.G. has been conferred upon Sir Charles Fitzpatrick, Chief Justice of Canada, Dr. William Osler is made a baronet, Robert A. Falconer, President of Toronto University and Charles G. James Murphy, Minister of Agriculture for Ontario are made companions of the order of St. Michael and St. George. Senator L. M. Jones of Toronto, Judge Routhier of Quebec, and Mr. William Whyte, vice-president of the C.P.R. are knighted.

SILVER WEDDING AT WHITE HOUSE

Five thousand guests out of the twelve thousand invited shook hands with President Taft at the open air reception held in the grounds of the White House last night, upon the occasion of the celebration of the silver wedding of the President and Mrs. Taft. This was the second function of this nature of which the White House has been the scene. The proceedings included the presentation of a magnificent silver service to Mrs. Taft by the members of the house of representatives for which the sum of $2,000 was subscribed at $5 per member.

DAMMING THE ST. LAWRENCE

Commission to Report—Preliminary Survey Under Way

It is announced from Ottawa that the Dominion House will appoint a commission to study the various schemes submitted for damming the river St. Lawrence and the sum of $40,000 has been provided in the estimate for that purpose. The personnel of the commission has not yet been announced but a preliminary survey is now being made in the vicinity of Cedar Rapids and Beauharnois by engineers of the public works department. These engineers have instructions to thoroughly investigate the assertions made by the companies applying for the privilege of constructing these works, that the carrying out of their plans will in no way interfere with navigation.

CONFERENCE WITH CHIEFS NECESSARY

Department of Public Works Indicates Solution of Esplanade Extension Difficulty.

That a conference with the Indian Chiefs regarding the extension of the Esplanade along the foreshore of the Indian Mission is necessary before the details of the work may be proceeded with was the substance of a letter received from the department of public works at Ottawa and was read at last *evening's meeting of the city council*.

Acting on this information the council instructed the city clerk to communicate with the Indian agent at New Westminster in order to arrange a date for the conference between the chiefs and the city council when the final arrangements re the extension could be made.

In regard to the recent conference held in Vancouver between the representatives of the municipalities concerned and from the Burrard Inlet Tunnel and Bridge Company and V. W. & Y. Ry. for the furthering of the Second Narrows bridge project, Mayor McNeish was appointed a delegate with power to appoint another to represent the city of North Vancouver at the next meeting of the delegates.

Ald. Dick suggested that the council should subscribe a small portion of shares required in the bridge in order to accelerate the negotiations and to give the city a better standing with the committee.

Ald. Henderson thought that it was better to wait until after the conference as in his opinion the bylaw covering the work of construction would be run out and would have to go to the people again in any case.

Ald. Dick thought that work of actual construction had already been commenced as the bylaw required in boring for the bridge foundations etc. and thought that in subscribing the stock it should be specified that the railway should be extended across the waterfront instead of only to the eastern boundary of the city as was originally intended.

Ald. Biss thought that from the remarks of Mr. Wm. McNeill at the recent conference that difficulties of a grave nature might be met with yet in this regard.

The recommendation of the city engineer was adopted for the grading of Sutherland Avenue and Lynn Valley Road to a permanent level from Third street to the city limits and the permanent grading of Queensbury Avenue and 20th street. The estimated cost of this work would be $21,000, the city's share of which would be $8,450.

A letter was received from the local union of carpenters and joiners protesting against the employment by one of the aldermen of workmen to construct seats for Victoria Park. The writer stated that the man who was doing this was receiving $2.50 per day for the work.

Ald. Biss said that this was not true as he had given the contract of building the seats to the man for $15 and it was immaterial whether he took ten days or two. The work had to be done and union labor was not available at the time. By motion of Ald. Dick the matter was filed.

The engineer recommended that the foreman of the Board of Works be given $125 per month for his services hereafter instead of $100 as previously and that as the Board of Works were *at present employing 200 men* the wages of the six sub-foremen be raised to $100 instead of $90 as before. This was referred to the Board of Works.

Mr. H. D. Ruggles, representing a local doctor in a letter to the council requested the payment of an account of $20 for professional services to Henry Godden, a pauper. This account was incurred two years ago when the city had no regular physician. The clerk was instructed to look the matter up and consult with Ex-Mayor May.

The Board of Works was instructed to take up the recommendation of the city engineer for the removal of the old pound building on 3rd street near Forbes avenue to another location as this street is being opened up for traffic and the building in question is in the right of way.

Mr. Wm. Fatke wrote petitioning the early extension of the sidewalk on 23rd street from Western Avenue east, his residence being in lot 14, block 214, D. L. 545 and also that steps be taken by the city to remove the piles of rubbish and dirt from 23rd street, caused by clearing and rough grading work. This was referred to the Board of Works with power to act.

The McDougall-Jenkins Company, Engineers, asked that damages be awarded them for the injuring of the roof of one of their buildings caused by blasting. The matter was held in abeyance until the estimate of the extent of the injuries to the roof could be ascertained.

Mr. John Lindon also made application for damages done to windows by blasting done by sewer contractors, as in the previous matter this was held for an estimate.

North Vancouver Students Pass Difficult Examination

The examinations held this month in Vancouver under the direction of Mr. A. H. Lindo, Musical Bac., the examiner appointed for this year by the Associated Board of the Royal Academy and the Royal College of Music in London, England, continues to bring credit to musical students of North Vancouver for the high standard of work accomplished. During the last three years thirteen pupils have been entered by Mr. John Alexander for the various subjects of pianoforte playing, singing and theory of music, and eleven of the pupils so entered passed the examinations and gained the certificates for their respective grades. Last year one of the few pupils to gain the distinctive honor of the certificate was Miss Gladys Kirkland of this city. This year the following pupils have passed in the indicated subjects: Advanced singing, Miss Rose Choyce and Henry V. Smith; pianoforte playing, Miss Birdie Parsons and Miss Ella McCall; theory of music, Miss Birdie Parsons and H. V. Smith.

The large number of competitors throughout Canada and the colonies is evidence of the thorough and earnest spirit for the cultivation of the art of music which is so noticeable when the examiner makes his annual trips.

PLEASANT AT HOME

A very pleasant at home was held last week at the home of Mrs. J. C. *Keith, Georgia street, Vancouver*. The guests present were the students of music of both cities who intended taking the musical examinations under the direction of Mr. Lindo the examiner of the Royal College of Music. Mr. Lindo was present and addressed the assembled students pointing out that the examinations should not be regarded in themselves as of paramount importance, but only as the means to attain to the high level of efficiency required for obtaining the certificate of the college.

CANADIAN-JAPANESE RELATIONS

When the Finance Minister moved the House into Committee of Ways and Means to consider a resolution on the subject of an independent arrangement with Japan by which that country would continue to receive and in return would extend to Canada most favored nation treatment for two years, *Mr. Martin Burrell, the Conservative* member for Yale-Cariboo, delivered a most interesting and instructive speech. He declared that Canada had little to gain in the way of trade by kowtowing to Japan. When the old treaty was entered into by Canada in 1907 there were, he recalled, most extravagant predictions as to the growth of our trade in the Orient. None of these had in fact been realized; the balance of trade had remained against us in the ratio of 3 to 1, and our exports to Japan had not increased materially. Mr. Burrell pointed out why no great gain in this quarter could reasonably be expected. Against agricultural products Japan maintains a high tariff, slightly increased by the last revision. The duty on wheat is 12½ cents a bushel and on flour 82 cents per 132 lbs. We send salmon and herring to Japan according to the trade returns, but these industries in British Columbia waters are owned and controlled by the Japanese. *Mr. Burrell recalled the hope* expressed by Sir Wilfrid Laurier and others, that our manufacturers would find a big market in the flowery kingdom. This hope, Mr. Burrell pointed out, was in the nature of things fantastic. How could Canadian manufacturers compete in Japan with English competitors when they required in Canada the tariff wall of 22 per cent against British imports. There had been talk at one time of our cotton fabrics finding a big market in Japan. Our exports of these products to that country during the past year were valued at only $9,000, while during the same period Japan exported cotton fabrics to the value of $21,000,000. Not only was the Japanese market practically closed to us but there was grave danger that our home market would be swamped before long by imports from Japan.

Having illustrated that nothing was to be gained in the way of trade by drawing closer to the country of the Mikado, Mr. Burrell touched upon the far more vital subject of Japanese immigration. It was the first duty of the government to preserve a white British Columbia.

Mr. Goodeve, Kootenay, followed in the same strain; he insisted that we could only retain our national self-respect by controlling our own immigration laws. In this connection he quoted against the government a deliverance by Chief Justice Marshall, which Hon. Mr. Pugsley had made use of a day or two before. It expressed in strong and eloquent language the doctrine of national sovereignty. The national government must have exclusive and supreme jurisdiction over everything affecting the territory or people of the nation and it must tolerate no division of sovereignty in any manner, shape or form.

CIGARS TO BURN

When Alderman Dick took his accustomed seat in the city council chamber at last evening's meeting he was agreeably surprised to observe a box of choice pantellas accompanied with a card bearing the compliments of the Burrard Cigar Company reposing upon his desk. The Alderman generously dispensed the delectable weeds among those present, even the reporters coming in for a share. Soon the atmosphere of the city hall was redolent with the delicate aroma of the cigars as the smokers lolled in their chairs inhaling and exhaling in blissful puffs of hydrocarbon gas the substance of the much appreciated gifts.

Mr. and Mrs. B. W. Spillsbury of this city left on Saturday for an extended trip to Europe.

DAMMING THE ST. LAWRENCE

Eminent Authority Gives Expert Opinion—Damming Would Improve Water Route.

The much discussed project of damming the St. Lawrence river for the purpose of generating electric power, which has been before the Dominion legislature for the past two sessions, has been made to appear in a somewhat new light through a proposition outlined by Dr. Olgar Manheim, consulting engineer on rivers and harbors to the Norwegian government, who is now completing a tour of investigation of the principal waterways of the continent of America. Dr. Manheim has expressed the opinion that millions of dollars hitherto spent in dredging may be saved for the future and that the low water period which occurs each autumn may be entirely abolished. "I believe," said he "that regulation or conservation of the water supply would solve the problem far more cheaply and lastingly than dredging." Speaking of the proposition to dam the river at the foot of Long Sault rapids, which he had personally examined, Dr. Manheim said "It is a gigantic proposition that they have there and which I think might be followed all along the St. Lawrence as far as Montreal. I do not mean that the damming should be done for water power development but for bettering navigation. The dam at Long Sault I believe will make that part of the river into a quiet, navigable stream instead of the dangerous passage it is now. It will not divert any water from the river, but will hold it back and thus regulate the depth for miles to the westward. The time will come when similar works will be required at other points on the St. Lawrence, that is to say, regulating dams will have to be built to conserve the water and maintain a high enough level for the navigation of large vessels.

Mr. R. L. Borden at Winnipeg

Great Reception—Immense Audience Cheers Speaker

Mr. R. L. Borden, leader of the opposition at Ottawa, opened his western tour at Winnipeg last evening. He was greeted by a tremendous crowd which enthusiastically cheered the speaker. The key to the line of agrument which Mr. Borden followed in his first speech was found in the sentence "We firmly oppose this agreement because we believe that if carried to its logical conclusion it will lead to commercial union and commercial union will inevitably end in political absorption. Throughout a strong and able speech Mr. Borden quoted many Canadian thinkers and political leaders past and present in support of his position. He declared himself in favor of a permanent tariff commission to deal with all trade and tariff matters. He stated that if Conservatives were returned to power they would put into effect government ownership of terminal elevators and government ownership and operation of the Hudson Bay railway.

Today Mr. Borden is at Brandon where he will hear several resolutions presented by the Manitoba Grain Grower's Association with reference to which he will state his position.

Mr. and Mrs. H. Parry have moved to Lynn Valley and have taken up their residence on Westover road. Mr. Parry is an employee of the North Shore Press Ltd.

Suppose a customer is about to order something or other over your telephone. The operator finds your line or lines engaged. The customer must wait—or order somewhere else. Maybe he chooses to wait—calls again—again finds your line or lines busy. That means a possible loss of a customer.

The business man needs adequate telephone service for the accommodation of his business and his customers. When you lose customers through "busy" signals it has been proved that your telephone facilities are inadequate.

People who get business make it easy for their customers to get to them and have the number of telephone lines their business requires. The number should be determined by the amount of use at the BUSIEST time of the day.

The Tragedy of Kingship

(Continued from page 1)

in a few more generations should become "impossible" in civilized communities, or actually die out from sheer physical and mental inanition. If we others are the more correct, the evil-fostering conditions of royalty will vanish with the liberalization of institutions all over the world; the people will continue to have the kind of ruler for which their political and economic position seems to indicate that they are the best fitted; and the limited monarchy, like our own, will command itself, indefinitely and perhaps increasingly, to moderate opinion everywhere as comparable in wisdom (whether in abstract theory or not) to the bastard republics and forms of government of America and France.

DIVINE RIGHT

Slowly the pretensions of kings have been whittled down in the western world as enlightenment has spread among the peoples; but in the east the legends which mingled gods and monarchs, which legends, be it remembered were acceptable to high though ancient civilizations like those of Babylon and Egypt, Greece and Rome, Mexico and Peru, and China and India—still survive. Manco Capac, "the son of the Sun," was the first of the Incas; Jupiter and Odin were responsible for the Hellenic and German kings of other days; the Emperor of China is "the son of Heaven," ruler and priest as well; in Egypt Osiris gave laws to men and the emperors were "appointed sons of God." The eagle-topped sceptre is a reminiscence of Jove, for the eagle was scared to him; and the Russian proverb says that "God is Tsar in Heaven and the Tsar is god on earth." Caligula had his sacred origin, consciously or unconsciously in mind when he ordered the Roman senate to worship his image and give his horse the standing of a consul; Charles XII. of Sweden when he sent his riding boot to be adored by his nobles; and Vogt Gesler, when he called upon the Swiss mountaineers to honor the imperial hat.

Probably the desire to preserve the divine blood in the bodies of king from contamination by the secular blood of ordinary mortals led originally to the practice of family marriages among royal personages. The Incas and the Persians, and later the Ptolemys allowed the marriage of royal brother and sister. The children of Charles V. married inside the family: Habsburg princesses would only wed princes of the same stock. "The sister of Philip II. of Spain, Juana, Dowager Queen of Portugal, who had been widow for 16 years, would not have hesitated to marry her nephew, Don Carlos, a child of 16, had the latter consented to the union." The Vatican was very accommodating for centuries in such matters; but Leo XIII. "struck" says Dr. Rappoport, by "the disastrous results which had been brought about, notified the reigning European dynasties that he would not grant any dispensations for alliances between near relatives, and advised the sovereigns to marry their children with princes in whose veins did not flow pure royal blood."

We are assured that examination will show that "among the Roman Caesars all those who ascended the throne by the right of heredity—and the Roman Imperial families were a horrible tangle of inter-union — were wicked and cruel, whilst the Emperors who were adopted sons of their predecessors proved benevolent rulers and furthered the welfare of the Roman Empire." On the face of it this statement is a little sweeping.

GHASTLY GOSSIP

However, our author marshals a formidable array of ghastly gossip about the Caesars that can be read as supporting his theory. "Among the successors of Augustus one meets the mad Caesar Tiberius, Cajus Caligula, Claudius, and Nero." Augustus himself was a son of Julia, sister of Julius Caesar, "who is supposed to have suffered from epileptic fits." As a child Augustus was timid, in his maturity he was afflicted with a writer's cramp, which is a disease of cerebral origin But he was a splendid ruler, take him for all in all although his wife Livia knew no jealousy, and went so far as to bring to her husband's notice ladies who would have given her cause for being jealous had she been another sort of woman. But his children turned out badly. His daughter Julia was a debauchee, his son Drusus had delusions and died young. Tiberius was the handsomest man of his time and boasted a fine intellect, but there was a mad strain in him from his mother's side, and perhaps from his father's too. He was seized with melancholia and took to drink, and his soldiers nicknamed him "Biberius." Later on he developed a mania of "precaution" and under the impression that his relatives and others had designs upon him, he engineered punishments and assassinations in every direction. He looked upon his mother as his rival for power, refusing to visit her even when she lay ill, after her death he annulled her will putting to death all her friends mentioned therein and to whom she had bequeathed legacies. As many as twenty victims men, women and children, died a violent death at his hands daily. In his senility he exhibited revolting and unmentionable tastes, and at the last his nephew Caligula accelerated his death by throwing cushions over him and throttling him in his agony.

Caligula himself had a defective father, whilst his mother was a relative of his father, the depraved daughter of Augustus. Subject to fits, Caligula was a very uncomfortable fellow in other ways to have about. When the number of criminals condemned to death had been exhausted in the arena he gave orders to seize at random a few spectators in the circus, tear out their tongues and throw them before the wild beasts. When kissing a beautiful woman he would remark that she had a lovely neck but that he had only to say the word and it would be chopped in two. He created a famine just to watch how funny people looked when starving.

THE LIMIT IN MONARCHS

He had children tortured and made the parents stand by and see the shameful thing done. He was a pornographer of the worst. He said he was a god and he married not only one but all his sisters. He swallowed pearls in vinegar and (no wonder) he was a victim of insomnia. When he had no enemy to fight he dressed up Romans as an imaginary foe and ordered his own regiments of Romans to kill them and rewarded the victors. Caligula was the limit, and very properly he was murdered in cold blood.

Claudius, another Emperor from the same stable, was a fool. He used to get drunk at the table and go to sleep and whilst snoozing he was pelted by his courtiers with olives and dates. He had for third wife the Messaline of immoral story, who after her marriage lived publicly with another gentleman. Claudius gave instructions for her execution one evening, and by the next morning had forgotten all about it and wanted to know where she was. He was poisoned by wife number four.

Then came Nero, another branch of the same old Imperial firm. But you know all about Nero or think you do, and if you do not you must address yourselves to Sir Herbert Tree who does, or thinks he does.

There were royal madmen before the Caesars, descendants of men and women of genius, and there have been many others since.

There is light relief to the general nerve-wracking darkness in Dr. Rappoport's book—much of it concerned with that Christian VII. of Denmark, who was known as the Northern scamp, who looked like a girl in boy's clothes but was the idol of the ladies wherever he went and especially in England, although he neglected his English wife and drove her to the arms of a lover and all sorts of indiscretions, who travelled incog. as "Count of Gotterf" and kissed cherry girls in the streets and took up with "Milady" the most racketty woman in Copenhagen and ran about the streets with her of nights, breaking windows and assaulting other females in the same branch of commerce, and who had a headdress called the "Denmark Fly" invented in his honor.

Weird and distressing for the most part on the other hand are the tales of "the captive of Tordesillas"—Queen Juana La Loca, who nearly married Henry VII. of England, who was the mother of several leading sovereigns and a man woman for fifty years living in seclusion, arrived in a coarse linen coat with a leather apron; of Don Carlos, son of Philip II. who killed everything and everybody and who made the cobbler eat a pair of boots that he had made, and that did not fit the royal feet and who bribed a barber to get him some physic to enable him to prove that he was not unmarriageable and Eric of Sweden who wanted to marry our Queen Elizabeth and being refused was willing to give his hand to Mary Queen of Scots and Ivan the Terrible, the hooligan Tsar.

I do not recommend "Mad Majesties" as a very good bed book.

WILLIAM PURVIS.

NOTICE

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation was approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second-class lands at $10 and $5 per acre respectively.

This regulation further provided that the prices fixed therein should apply to all lands with respect to which the applications to purchase were given favourable consideration after the date of said regulation, namely April 3rd, 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor in Council on the 10th of May, 1911, that the regulation dated the 3rd April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd, 1911, and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd, 1911.

ROBT. A. RENWICK,
Deputy Minister of Lands.

Department of Lands,
Victoria, B. C., 16th of May, 1911.

The WARBURNITZ PIANO

MADE SPECIALLY FOR US

If you were standing before a Warburnitz Piano you would doubtless be struck with its handsome case of exquisite design. You would also find the most thorough workmanship and best materials.

This piano possesses a scientifically made sound board quite different to any other piano which causes it not only to retain its original purity of tone but to improve with age.

Our low rent and expenses enable us to sell these instruments at considerably lower prices than other high grade pianos are sold for.

Prices $350 to $400.

GUN TO SHOOT BUILDINGS INTO PLACE

Novel Plan Proposed to Build Skyscrapers With Rapid Fire Guns Which Will Fire Cement and Sand —New Elevators to House Expected Harvest

(From our own correspondent)

Montreal, June 17.—While skyscrapers have shot up here in the past to such an extent that an eight storey building has been erected in forty-eight working days, they will instead of shooting up be shot up in the future, if a recent invention makes good. This does not mean, however, that wild west scenes will be enacted in the tall buildings here but merely that a new rapid fire method of construction has appeared which may smash all building records existing at present. So great is the demand for quick work that it is actually proposed to shoot walls into place with a rapid fire gun. The present cement mixer, it is claimed, is to give way to the cement gun which will shoot liquid cement into place by means of compressed air twenty-four times as rapidly as is possible under the present system. The gun itself consists of a long tube of great strength. Into this is admitted compressed air through a valve near the breech, and water through another valve near the muzzle. At about the point of the vent in the ordinary breech-loading cannon a tube-like connection is established with a hopper. Dry cement and sand are thrown into this hopper by two men, and here, aside from valve manipulation and directing the cement stream, the human element ends. The hopper vibrates, mixing its contents before it drops down through the tube connection. Once in the gun barrel the mixture is shot forward by the compressed air fed through the valve. At the muzzle a stream of water is encountered that mixes with the sand and cement, the whole driving out the gun with sufficient force to carry it to the desired point. As a result of this rapid fire method of construction building records never before dreamed of may soon be established here.

Although the harvest is many moons away preparations are already being made to look after what is hoped and expected will be Canada's banner year in the way of crops. The millers are particularly active and extending their spheres in all directions. The International Milling Company of Canada, which was brought into being a short time ago by the merging of the International Milling Company Limited of Saskatchewan and Minnesota and of the Canadian Cereal and Milling Company through the efforts of A. J. Nesbitt of the Investment Trust Company, report rapid progress in their plans throughout the west in the way of acquiring new elevators and enlarging mills, and say that they will be ready and waiting for the farmers when the farmers are ready with their crops. Mr. Nesbitt is abroad just now but is expected back shortly with an announcement which will be of interest to all Canadians.

Fresh Buttermilk daily at the Grotto, 5 cents per quart.

EUROPEAN VIEWS OF CANADA AS INVESTMENT FIELD

After a continental tour of six months duration, Mr. F. W. Heubach, President of the Winnipeg Industrial Bureau, has returned to Winnipeg. In the course of a brief interview he said: "Investors in Great Britain, Germany, France, and, in fact, throughout Europe, show similar sentiments so far as Canada is concerned. All these countries are looking for good Canadian investments. City property, well situated, in any of the rapidly growing towns throughout western Canada is immensely popular, although perhaps at present the most popular form of investment, from a speculative standpoint, is farm lands. As far as immigration is concerned, there is only one thing that can be said, and that is, that every steamship which can be pressed into the Atlantic service has its capacity already overbooked far into the latter part of the season with future citizens of Canada, and thousands who are anxious to come out cannot get passage."

COAST DISTRICT, RANGE I

TAKE NOTICE that the Vancouver Timber & Trading Company, Limited, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the Northwest corner of Lot 725, thence running south 20 chains, thence west 80 chains, thence north 28.09 chains, thence east 80 chains, thence south 8.09 chains to place of commencement.

NORTH VANCOUVER, B. C. - - - JUNE 20 1911

BRIDGE MATTERS—A TIME TO BUILD

Now that the respective municipalities which have voted public moneys for the purchase of shares in the capital stock of Burtard Inlet Tunnel and Bridge Company have taken upon themselves the responsibilities of active participation in the counsels of the Company, the public will consider the prospects of an early removal of all remaining obstacles greatly increased. While it is doubtless essential that every minute detail of those differences still existing between Burrard Inlet Tunnel and Bridge Company and the V. W. & Y. Railway Company should be adjusted to a nicety at the same time it would be extremely unfortunate, from the viewpoint of the public at large, now that the major difficulties have been satisfactorily overcome, if minor matters of detail were allowed to arrogate to themselves an influence altogether out of proportion to their real importance to the extent of causing further vexatious delay in the actual commencement of building operations.

The field of fiction has developed many ingenious situations in which some luckless offspring of the author's imagination has been doomed to the harrowing experience of seeing some long coveted good continually just within his grasp but at the same time always just beyond his reach, but it is safe to say that the North Shore is not desirous of providing an example of that particular role in real life. The elusive features which have characterized the Second Narrows bridge project since its inception ten years ago have been so often discussed that they have well nigh become a proverb and it is desirable that this tantalizing process be brought if possible to a speedy termination by means of immediate steps toward bridge construction. The general concensus of opinion amongst those who are in position to judge is to the effect that this perpetual "failure to conclude" this seemingly interminable absence of finality with reference to negotiations is engendering a lack of confidence in the North Shore generally upon the part of investors from which it will be slow to recover even when the bridge is actually under way and whose harmful influence is a serious matter for North Shore interests.

It is therefore to be hoped that the influence which the representatives of the municipalities interested will bring to bear upon the situation will be sufficiently potent to bring to a sudden termination the obstructive tactics which hitherto have prevented Burrard Inlet Tunnel and Bridge Company from carrying into effect their desire to proceed at once with the call for tenders for the substructures for the bridge and which will promptly clear the way for substantial operations.

THE CLOSING DAYS

A Toronto daily last week contained a despatch from a neighboring city that, —— —— ——aged 101 years, had gone to the County Industrial Home there to end his days, and he is said to have gone at his own request. But how the report startles us, that a man after fighting the battle of life for over one hundred years has to end his days in a poorhouse! The despatch further stated that the old gentleman had a son of seventy-five and two grandsons of over fifty living in the same county. Naturally, the reader would think it strange that so sad a course could have been necessary. But if the inner history were known, it would probably be revealed that the son and grandsons are in almost as bad a plight as the old man and that he preferred to go to the poorhouse rather than to add to their burdens. The case is a pathetic one, but it is not unique—you hear of such every day—and the whole story emphasizes how terrible is an old age of penury, and how important it is that we should regard youth "as the springtime which soon departeth, and wherein we ought to plant and sow all provision for a long and happy life." If the old gentleman had been in receipt of a Canadian Government Annuity of only $200 his presence in the home of the son or grandson would have been a boon rather than a burden, and the cozy-corner would, no doubt, have been kept for him. He may have been a sober and industrious youth, but he had no system of investment which was absolutely safe, and which would yield him a bountiful return for the amounts which he might from time to time save, and so his money was spent or lost as fast as it was earned. But there is no such excuse for the boys or girls, men or women of Canada today, for by the Canadian Government Annuities Act they are provided with a system by which their savings will be taken care of and invested by the government, and under which they will receive a return larger than it would be possible to secure from any other safe investment, because when the Annuity begins each payment absorbs a portion of the purchase money as well as of the interest thereon, and if the Annuitant lives the average number of years he may be expected to live he will get back all that he had paid in with accumulated interest at 4 per cent. If he lives beyond this period, the Annuity will not cease but will be continued to him every three months so long as he may live. The plan is available at any Money Order Office in Canada. The postmaster will give you a booklet which will explain the system, and if you wish for information as to the cost, all you need do is to write to the Superintendent of Annuities, Ottawa, postage free, giving him your age last birthday, and he will advise you by first mail what this will be.

NOTICE

NOTICE is hereby given that application will be made to the Parliament of Canada at the present session thereof for an Act to incorporate a company under the name of The North Arm Bridge and Railway Company, with power to lay out, construct, operate, maintain, and use a bridge across the North Arm of Burrard Inlet from a point on the seashore commonly known as The Turtle's Head to a point on the west shore on Lot 575 directly north of the Island known as White Rock. Such bridge to be both for foot passengers, carriages, street railway and railway purposes with the necessary approaches, and with power to connect the said bridge with existing and future lines of street railway and railway and for the purposes of connecting with the said street railways and railways to lay out, construct and operate one or more lines of railway not exceeding ten miles in length.

And with power to construct, equip maintain and operate a line or lines of railway from some point on Lot 256 at the end of the Canadian Pacific Railway Company's branch line from Port Moody and following the North Shore of Burrard Inlet to a point in the City of North Vancouver or to connect with any railway that is or may be constructed on the North Shore of Burrard Inlet.

And for the purposes of its undertaking to acquire and develop water, electric or other power or energy, and to erect lines for the transmission of the same, and to transmit and deliver the same to any place in the Cities or Municipalities through which the works of the Company are authorized to be built, and to receive, transform, transmit, distribute and supply such power or energy in any form and to dispose of the surplus thereof, and to collect rates and charges therefor.

It is intended that the works of the said Company shall be declared to be for the general advantage of Canada.

Hon. Thomas Taylor at Kaslo

Minister of Public Works to Lay Corner Stone—Will Attend Coronation Celebration at Proctor.

The corner stone of the new $30,000 court house now being erected at Kaslo will be laid in due form on June 22nd. Hon. Thos. Taylor, minister of puqlic works, will officiate. After the conclusion of the ceremony at Kaslo the minister will journey to Proctor for the purpose of participating in the merchants' picnic and coronation celebration, to be held at that place. The minister of public works has been making an extensive tour of inspection of late through East Kootenay accomied by Harry Wright, M.L.A.

FACTS AND FANCIES

In casual reading the other day I came across an account of the dissolution of a bread trust which once operated in Bagdad. Until recently Persia was governed by the Shah as absolute monarch and the dispensation of Justice was summary as will later appear. Once a famine swept the country and bread became very dear, On top of this the bakers formed a ring to further raise the price. The Shah hearing of this move, summoned them to attend at his palace, and on arrival there they were agreeably relieved to find that nothing more formidable than a banquet awaited them and to this they did justice. At the conclusion of the repast the Shah observed that the chief baker of the city, president of the Association, did not appear to be present, and asked if any knew where he was. No one knew "Well," said the Shah, "you have just eaten him. Go home, let not the price of bread be further increased, else as he is so shall you be."

Adulterations of food or of articles of commerce were drastically dealt with in days gone by. During the early part of the 15th century two were accused of adulterating saffron were burnt at Prague. Nowadays this kind of practice appears to be thought a smart thing and men go on with impunity moneymaking at the expense of the health of the community. Have you noted how difficult it is for the Vancouver Medical officer of Health to enforce standards of cleanliness and prosecute the purveyors of adulterated or diseased foodstuffs? What is the use of building hospitals and sanatoriums and leaving one of the principal sources of infection practically unchallenged?

WILL HONEYCOMB

HEALTH ACT

Regulations for the Sanitary Control of Lumber, Mining and Other Camps, Sawmills and Other Industries Situated in Unorganized Districts.

1. Every employer of labour on any work in any lumbering, mining, construction, or other camp, sawmill, or other industry situated in any portion of an unorganized district, shall, upon the establishment of each and every camp or work, forthwith notify the Sanitary Inspector of the Province of the establishment of the same, and when requested to do so shall furnish such particulars as may be required by the said Inspector.

2. The owner, manager, agent, or foreman of any lumber, mining or other camp, sawmill, or other industry located within an unorganized district shall, in connection with every such industry or works, be responsible for the execution and enforcement of any regulation herein contained or hereafter to be adopted.

3. If in the opinion of the Sanitary Inspector the site of any camp or works is unhealthy or unsanitary, he may order the removal of such camp or works to some other site to be selected by him.

4. Any house, tent, or dwelling occupied by the employees engaged in any industry located within an unorganized district shall contain sufficient cubic feet of air space for every occupant thereof as may in each instance be deemed necessary by the Sanitary Inspector, and shall further be provided with efficient means of ventilation. The floor of every dwelling shall be constructed of boards or planks or other material equally suitable for the purpose, raised on supports at least one foot from the ground, and so made that it shall be tight. Every dwelling other than a temporary tent shall be lighted by windows so constructed that they can be opened when necessary.

5. The method of ventilation of every dwelling in which a stove or furnace is used shall be such as will satisfy the Sanitary Inspector. The temperature of the room shall be maintained at from 60 to 65 degrees Fahr. and a shallow pan supplied with water shall be kept on the stove to supply air moisture.

6. Every camp or works of every industry coming under these regulations shall be equipped with a washhouse or laundry containing a stove and tubs for bathing purposes.

7. Every camp or works shall be supplied with a building or tent properly constructed and set apart as a kitchen, and having a dining-room in connection therewith, with proper conveniences for the cleanliness and comfort of the employees.

8. Proper receptacles must be kept on hand into which all refuse, whether liquid or solid, must be placed, and such refuse must be regularly destroyed by fire or removed to a safe distance from any building and be so deposited as to not create a nuisance or contaminate the drinking water.

9. Latrines, earth, or other closets must be located, constructed and maintained in a manner satisfactory to the said Sanitary Inspector.

10. Stables in connection with any camp or works must be located as not to contaminate the water supply, and must not be less than 125 feet distant from any dwelling or kitchen. This distance may be increased at the discretion of the Sanitary Inspector.

11. The water supply of any camp or works must be uncontaminated and obtained from a source satisfactory to the Sanitary Inspector.

12. Printed copies of these regulations may be obtained from the Sanitary Inspector.

13. Should the Sanitary Inspector find that any of these regulations are not complied with, he may, where necessary, take steps to enforce them, and the expense of such action shall be paid by the employer or his agent.

14. The penalties contained and provided in section 97 of the "Health Act" shall apply to the violations of any of these regulations.

15. The Sanitary Inspector may, where deemed necessary, obtain the services of any Provincial constable or constables to assist him in the performance of his duties and to aid in the enforcement of these regulations.

By Order,
L. T. DAVIS, M.D.,
Sanitary Inspector,
Victoria. 20-6

BANK OF HAMILTON

Capital Paid Up	$ 2750,000
Reserve & Undivided Profits	3250,000
Total Assets	40,000,000

The average man or woman seldom develops the habit of saving until a Savings Account has been opened. The possession of such an account acts as an incentive—your natural desire to see the fund grow encourages that tendency to thrift so necessary to success. No matter how little you can afford to lay aside from the weekly wage, open a Savings Account in the Bank of Hamilton.

C. G. HEAVEN, Agent, North Vancouver.

Local Items

First quality Ice Cream, wholesale and retail at the Grotto.

Brewer's XL Bread, 5c per 16 oz. Loaf (Union Made) only to be had from the Up-to-Date Grocery, 356 First street east. 9-7

Do you know that B. C. trade is the largest in the world for head of population.

Rain or shine you can get strictly fresh Eggs at 25c per doz. at the Up-to-Date Grocery till the 12th July next, S. Ritchie, the Up-to-Date Grocer, 356 First street east. 9-7

One cold, wintry morning a man of tall and angular build was walking down a steep hill at a quick pace. A treacherous piece of ice under the snow caused him to lose control of his feet, he began to slide and was unable to stop.

At a cross-street half-way down the decline he encountered a large, heavy woman with her arms full of bundles. The meeting was sudden, and before either realized it a collision ensued and both were sliding down hill, a grand ensemble—the thin man underneath, the fat woman and bundles on top. When the bottom was reached and the woman was trying in vain to recover her breath and her feet, these faint words were borne to her ear: "Pardon me, madam, but you will have to get off here. This is as far as I go."

OH YOU SECOND STORY MAN!

"Clang! Bing! Biff!" went the door bell and the Chief of Police rudely awakened from delightful repose hurriedly arose and donning his garb of office sallied down the front stairs to investigate the reason of the nocturnal disturbance—so was it with Chief of Police Davies this morning when at two o'clock he was called out to take charge of a wandering fellow who had a weakness for hens' eggs and the contents of meat safes, collectively and individually. Mr. Mills, a neighbor of the Chief heard early this morning a man prowling around the house, so taking a weapon into his hand he proceeded to investigate and discovered a miscreant purloining the contents of the meat safe on the back porch. Ordering him to linger Mr. Mills called the chief and gave his prisoner over to the embrace of the long arm of the law. The prisoner was brought up this morning in the police court but was remanded until tomorrow morning to obtain evidence.

Dr. Thompson, assisted by two nurses, is in attendance on Mrs. J. H. English of 12th street, who is dangerously ill. Mr. and Mrs. English had only returned from their wedding tour a few days when Mrs. English was taken ill.

Spokane, Was., June 19th.—The Northern Coal syndicate has recently located a group of claims in Pine river pass on the boundary line between Alberta and British Columbia, 405 or 500 miles northwest of Edmonton and a block of shares to the value of one hundred thousand dollars is now being placed on the market by Andrew Laidley, a well known Spokane mining man. The stock is being underwritten by the Canadian-American Securities Company of New York. Pine River Pass is at present far removed from transportation facilities, but the natural advantages of the pass are attractive to railway companies, the elevation being only 2,800 feet as compared with the Yellowstone, 3,600 feet and three railway surveys have already been completed through the pass.

BIG TIMBER DEAL

Nelson, June 19th.—It is reported that the papers have been signed which conclude one of the largest lumber deals yet recorded in the interior. The limits transferred comprise 37 square miles on Shuswap lake and four square miles on Snow Creek, a tributary of Cariboo creek, which flows into Arrow Lake near Burton city. The cruiserje report at a conservative shows 425,000,000 feet of standing timber. The limits were were purchased by coast capitalists, the price not being announced.

CANADIAN NORTHERN EXPENDITURES

Construction Program for the West This Year

A dispatch from Winnipeg states that the expenditures of the Canadian Northern Railway Company upon its western lines this year will reach the heavy total of $30,000,000. This sum will be expended upon the construction of new lines and the improving of existing road.

BAND CONCERT TOMORROW EVENING

The usual Wednesday evening concert of the North Vancouver city band will be held at Victoria Park tomorrow night at 8 p.m. The new seats in the park have been completed so that those attending may listen to the music without any physical discomfort to mar their mental pleasure.

At Monday evening's band practice the band boys were presented with two boxes of cigars donated by the proprietors of the Burrard Cigar Company. Three rousing cheers were given for the donors and the cigars were pronounced excellent.

T. C. HOLT LTD.

The firm of T. C. Holt Limited are now settled in their newly completed offices in the Horne block, corner of Lonsdale Avenue and Esplanade and are ready for business. The active members of the firm are all well known men locally, namely T. C. Holt, formerly in the employ of the B. C. Electric Ry. Co. Ltd., W. D. McFarland, for some years past associated with local real estate firms and until recently in the employ of W. J. Dick and H. C. Baker, formerly manager of Hotel North Vancouver. A limited amount of the capital stock of the company has been placed on the market with excellent success. Mr. Holt is at present in England in the interests of the company.

IMPERIAL CONFERENCE

Hindu Immigration to Other Dominions — Freedom Suggested Within Defined Limit.

At the Imperial Conference yesterday Earl Crewe Colonial Secretary and Secretary for India, dealing with the matter of Hindu immigration to the self governing dominions stated his conviction that the question was an extremely difficult and in some respects a very critical one. He suggested as a measure to relieve the situation that the Dominions might lay down certain restrictions and make the entrance of the Hindu more easy and pleasant within the limitations defined. This would do a great deal to establish better relations between India and the other portions of the Empire without which we could not become a united empire.

A dispatch from Victoria gives a summary of car loads of lumber imported by the Grand Trunk Pacific through one port of entry during the month of April from Puget Sound mills. The list consists of twenty-two car loads which would average 20,000 superficial feet making a total of 440,000 feet.

District of North Vancouver.
