NORTH VANCOUVER, B. C., TUESDAY, NOVEMBER 21, 1911.

NUMBER 21

QUIET SESSION OF CITY FATHERS

City and District to Hold Joint Meeting Friday Evening Next

The spirit of unrest, during its ceaseless circuit, usually drops in at the city hall on Monday night to coax the councillors into interesting moods and to generally wrench the proceedings out of the rut of tranquillity. Last night, however, the said spirit evidently lost its bearings; at any rate it did not enter the city hall portals. Consequently the conclave was a somewhat desultory one.

The first item of correspondence which the clerk presented for consideration was a letter from Captain Cates petitioning for nothing more remarkable than the clearing of Fell avenue from Keith road to 15th street, so that he might proceed to build. The matter was relegated to the Board of Works.

Contractor A. R. Gibson then brought twenty more days' suspension of the work on 2nd street on account of the bad weather. Granted.

Mr. J. Sidney Rogers wrote in a descriptive vein reminding of "The Falls of Lodore" of Saturday's heavy rain which, so it happens, causes the creek running down Ridgeway to overflow and meander in Mr. Rogers' basement to the extent of 3 feet of water. The damage done amounted to \$25 and Mr. Rogers argued that certain obstructions in the ditch which had not been removed were responsible for the behaviour of the creek. He asked the council to see that the creek was cleared of obstructions as the next heavy rainfall would cause the same trouble to repeat itself.

The city engineer rose modestly and said it was private property that was involved. He did not think the council was liable. On the suggestion of Ald. Henderson the letter was laid temporarily aside in case others of the same nature should be among the correspondence.

There was a communication from F. T. Salsbury briefly intimating that he had secured for North Vancouver the 1912 convention of the Arctic Brotherhood.

Mayor McNeill expressed his gratification and Ald. McRae voiced the same feeling on behalf of the council paying a tribute to Mr. Salsbury's initiative.

Mr. J. Stephen, manager of the Bank of British North America, wrote to the effect that the general manager had authorized the granting of the loan of \$67,000 in regard to the civic bylaws recently passed.

A letter containing a directly anti-theatrical purport came from Mr. Alexander Philip, representing the joint civic advertising committee. It asked for a further grant of \$50 for the purchase of necessary incidentals.

Then the Horticultural Society's secretary petitioned the council for financial aid to the extent of \$390.85, which request was at once handed over to the finance committee.

The deputy minister of the marine and fisheries department at Ottawa wrote relative to the city's application for water lots in front of Fell and Winch avenues and Mackay road. Before conceding to the application the department considered it necessary that plans of the lots in question be forwarded, sworn to by a duly qualified land surveyor.

It was immediately resolved that these steps be taken.

A communication came from the local board of trade calling attention to the advisability of installing a weighing machine in the city. The board pronounced this to be an "urgent necessity" and exhorted the council to take the matter up with the district council.

The mayor considered that though they would not be able to get one this year, it would be interesting to get all the information possible on the subject. A motion was carried, referring it to the finance committee.

A recommendation also came from the Ratepayers' Association. At a meeting of the executive it had been pointed out that a city balance sheet had not in the past been obtainable by ratepayers until the end of January. The association therefore, urged the council to instruct the treasurer to prepare an itemized statement of the city's expenditure up to and including November 30th, to be obtainable not later than Dec. 15th.

Ald. Dick thought this a reasonable suggestion, but indicated that such a balance sheet would only be a partial statement, inasmuch as it would not account for the month of December. He would like to see all the information possible given to the ratepayers.

Ald. McRae also considered the request reasonable, but did the council

think it would do much good? As a matter of fact the finance committee intended dealing with the subject at its next meeting.

Ald. Henderson laid stress on the importance of the publication of such a balance sheet on the eve of the elections. "A financial statement of the kind described, even if incomplete, would be of great service to the ratepayers. It would doubtless afford them an immense amount of satisfaction if they had, in the middle of December, an accurate statement of the city's expenditure so far. He was in favor of granting the request.

There was some discussion as to the precise meaning of an "itemized statement," the mayor pointing out that if it implied the setting forth of every small detail of expenditure, the task would be too colossal a one for the treasurer. It was decided, however, after a dissertation from Ald. Henderson, that the balance sheet would not need to be prepared on such minute lines as this. Eventually the matter was referred to the finance committee with a recommendation that the request be granted if found possible.

The city clerk intimated that Mr. J. G. Farmer had returned to him the names of all registered owners to be placed on the 1912 assessment roll as far as had been ascertained from the books and records in the Land Registry office. The council being asked to suggest a date for the court of revision in January next, fixed upon the 4th, and appointed Ald. Dick and Henderson to constitute that court.

There followed a series of recommendations from the city engineer, all of which were referred to committee.

Firstly, Mr. Hanes recommended a bylaw for the obtaining of \$50,000 for street clearing and another to the amount of \$5,000 for the clearing and grading of lanes.

At this point Ald. Henderson intervened with the suggestion that they should have an estimate on all the sidewalks and road clearings that they had been unable to attend to during the year. He thought the engineer might prepare the list tabulated, so that it might be a guidance to their successors.

Mr. Hanes then recommended a bylaw for the raising of \$175,000 for waterworks purposes, mentioning that they had not been able to make the necessary water main extension this year. He further advocated the construction of a storm sewer on St. David's from the waterfront to Keith road at an estimated cost of \$18,000.

Additional recommendations had relation to sanitary sewers with lot connections in the following sections of the city:

Fourth street, from Forbes to St. Andrew's, at an estimated cost of \$45,000; Fifth street from Forbes to St. Andrew's, at an estimated cost of \$45,000; Sixth street from Forbes to St. Andrew's, \$45,000; Eighth and Tenth streets from Lonsdale to Ridgeway, \$25,000; Eleventh street from Lonsdale to Ridgeway, \$22,000; Twelfth street from Lonsdale to St. George's, \$8,500; Thirteenth street from Eighth to Lonsdale, \$8,500; Nineteenth St. from Fifteenth to Seventeenth streets \$8,000; Lonsdale Ave. from First St. to the waterfront, \$6,000; the total estimated cost being \$230,000.

Mr. Hanes further recommended that a city dock be constructed at the waterfront end of Chesterfield avenue at a cost of \$10,000, to be utilized for the storage of water pipes and municipal articles of every description; the dock to be extended far enough out to allow steam boats to land at any tide.

The mayor then made reference to Ald. Kittson's local improvement motion under section 22 of section 256 of the Municipal Clauses Act discussed at the last session of the council. The following recommendations were involved:

1. That Lonsdale avenue be paved from the waterfront to the north side of 3rd street with material considered most suitable by the city engineer.

2. That the Esplanade, 1st, 2nd and 3rd streets be paved with wood blocks one block east and west of Lonsdale Avenue.

3. That cement sidewalk be laid on Lonsdale avenue from the waterfront to 3rd street and on 1st street from St. George's avenue to Chesterfield avenue from curb to building line.

(Continued on page six)

Mr. B. Burton, real estate, car terminus, North Lonsdale, wishes to inform his many business friends that he has joined forces with Palmer, Burmeister and von Graevenitz, cor. 5th street and Lonsdale Avenue, and his office will in future, bear the sign of that well known firm over his own name.

SUBSIDIZING OF SECOND NARROWS BRIDGE

Federal Government Approached --- Revote of Original Appropriation and Additional Subsidy Next Year.

Mr. Wm. McNeill, vice-president of the V. W. & Y. Railway, had an interview on Saturday with Hon. R. L. Borden and Hon. Frank Cochrane. He was accompanied by Mr. H. H. Stevens, M.P. and applied for a subsidy for the Second Narrows bridge.

It developed in the discussion that it was very unlikely that any new subsidies would be provided for at the present session. On this account Mr. McNeill's request on behalf of the Burrard Inlet Bridge and Tunnel Company for an increased bridge subsidy was unfavorably received.

Mr. McNeill then approached the

ministers with a request for a revote of the old appropriation provided for in the original V. W. & Y. application which has lapsed, namely \$200,000 for the bridge and \$6,400 per mile for the railway for the first hundred miles north from Vancouver.

This proposal was favorably received and Mr. McNeill was practically assured of this revote this session, and a favorable consideration for an additional subsidy next session.

Mr. Cochrane promised Messrs. Stevens and McNeill that he would visit Vancouver next summer.

Mr. McNeill left for Montreal on Sunday.

The North Vancouver Ratepayers' association have arranged to meet in the city hall at 8 p.m. on Friday next. It is anticipated that a number of interesting and vital matters will come up for discussion.

The managers of the North Lonsdale Presbyterian church urgently request the presence of all members and adherents at a congregational meeting to be held in the church on Wednesday evening (tomorrow) Nov. 22nd, at 8 p.m., to discuss ways and means of obtaining a man to take exclusive charge of the premises.

The "red" and "blue" contest which has been carried on in the Methodist Sunday school for the past six weeks, closed last Sunday with a victory for the "red" side. The score being "red" 50, blue "34." The captain of the "red" side and her lieutenants wish to thank all those who so kindly assisted them.

Ex-Mayor May has been petitioned by 150 district ratepayers to allow his name to be placed in nomination for reeve of the municipality for 1912. Mr. May has not so far given his answer, but it is understood that he is not averse to the proposition, considering it emanates from such a goodly group of ratepayers.

A Mexican named Henrik Gurearo, who had used his knife too freely upon an associate in a house on Pender street, Vancouver, apparently considered the North Shore to be a safe retreat wherein to evade the arm of the law. Chief of Police Davies and Detective Jewitt rid his mind of this delusion, however, for after wading through the mud on the waterfront for three hours, they located the Mexican, arrested him, and accompanied him gently across the Inlet.

Another enjoyable dance organized by the St. Andrew's and Caledonian Society took place on Friday night in the Horticultural Hall. Despite the weather clerk's ungracious mood, there was a merry assembly, and to the lively harmonies of Mr. D. Evans' orchestra dancing was sustained until midnight. The next fixture under the auspices of this society is a dance on November 30th, arranged by the ladies who, by the way, do a tremendous amount of unadvertised charity work in this city.

Express Classified Ads.

FOR SALE

FOR SALE—Open fireplace stove, nearly new. Apply Warburnitz Piano House Ltd.

FOR SALE—Fir Wood, \$4.50 per cord. Apply John Campbell, 227—6th street west or phone 361. 12-12

FOR SALE—First growth dry wood for \$4.75 per cord, 4 ft. G. McDade, Phone 62. t.f.

FOR SALE—Three 50-foot lots on Queen street, five minutes' walk from Lonsdale. Terms. Apply K., Express Office. 24-11

FOR SALE—Fir Wood, \$5 a cord. Mill Wood, 16 inch cedar, \$4 a load. C. O. D. Leave orders at barn, 7th and Ridgeway. 24-11

FOR SALE—Two lots, block and a half west of Lonsdale on 22nd street, \$750 for both. Terms. Apply owner, 42 Lonsdale Avenue. 20-11

WANTED

WANTED—A lady to work noon hours. Apply at the Rainbow Cafe. 24-11

WANTED—Girl for bookbinding department at Express Printing Office, 1st street west.

TENDERS WANTED

WANTED—Tenders for clearing and grading lot 6, block 12, district lot 786. G. Hughes, P. O. Box 2453. t.f.

For erecting five framed houses on 6th street for Mrs. McNeill. Apply H. B. Watson, architect, 602 Homer Building, Vancouver. Tenders close November 25th. The lowest or any tender not necessarily accepted. 24-11

MUSHROOMS fresh daily at the

Grotto. 24-12
Sewer connections done by expert pipe-layers. Work guaranteed to pass city engineer's office inspection. Only first class Scotch pipe and prime Portland cement used. Estimates furnished. Apply K. R. Fayat at office of North Vancouver Coal and Supply Co., Ltd. 1-12

Messrs. Palmer, Burmeister and Von Graevenitz of 457 Lonsdale Avenue announce that Mr. B. Burdon has amalgamated his business with theirs and that his office situated at Lonsdale car terminus will in future be carried on under the firm's name. 21-11

Imported tailoring. Gent's suits to measure from \$12, freight and duty paid, hundreds of samples. A post card will bring them to your door. Robert Smith, 2516 Clark Drive, Vancouver. Phone Fairmont 1863R. 10-12

ARCTIC BROTHERHOOD HERE IN 1912

As briefly announced in Friday's issue, North Vancouver has been selected as the 1912 rendezvous of the Arctic Brotherhood. The decision was arrived at during the brotherhood's session in Portland last week, where the city's representative, Mr. F. T. Salsbury, must have most effectively chanted the praises of North Vancouver. It is at any rate due to Mr. Salsbury's initiative that next year's mustering of the brethren will take place here. He contrived to get in the thin edge of the wedge last year by persuading the Brotherhood who were then convening in Vancouver, into visiting the North Shore and sampling the delights of the Canyon View hotel surroundings. Mr. Salsbury last week managed apparently to revive the memory of that day's excursion with the satisfactory result already announced. Hats off to Mr. Salsbury, and to all men who bring North Vancouver into the limelight.

LYNN VALLEY WASH OUT

Mill Flume Damaged B. C. E. R. Tracks

The recent heavy rains inflicted serious damage on Sunday upon the Lynn Valley flume. Adjacent to the terminus of the B. C. E. R. car line in the Valley the Hastings Mill flume, used for floating shingle bolts to tide water runs underneath the tracks. The deluge sent down a great impetus of water which quickly choked the bridge and flooded the line, eventually carrying away the wooden supports. Some small buildings in the neighborhood were damaged but the B. C. Electric tracks suffered most seriously, some 500 feet of line being washed away. Fortunately the terminus is only a short distance east of the damaged section and thus no considerable inconvenience was caused by residents of the upper part of the Valley.

LYNN VALLEY NOTES

Mr. W. T. Stein is building an addition to his residence.

Mr. Brown's residence on Ross road is well high completed.

Mr. D. G. Hattis has accepted a position with the Merchants Trust and Trading Co. Ltd.

The concrete basement of the new institute hall is completed and the frame is now being erected.

The meeting which is to take place in the Institute Hall tomorrow evening at 8 o'clock will be of great interest to the Conservatives of Lynn Valley. The purpose is to organize a Conservative Association. Everybody invited, 8 p.m. at the Institute Hall.

The unusually heavy rains of Friday and Saturday caused considerable inconvenience through the Valley. Some of the roads were flooded and several washouts caused considerable delay to traffic. The side walk on Ross road is guaranteed level and is now answering the place of a raft. The car service was cut off above the hotel owing to a washout opposite Mr. Underwood's residence.

There is at present an abundance of game in the neighborhood of North Vancouver as exemplified by the numerous kills made since the heavy fall of snow recently. Last week Mr. Gernyn shot a fine buck above Rice Lake, while the Ellington Brothers brought down two deer from the same vicinity. In West Capilano Mr. B. McKay also shot a couple of deer.

EFFECTS OF THE HEAVY RAINFALL

The recent downpour of rain had its dire effect on Lonsdale avenue. In the vicinity where Nye street intersects the avenue, the water from the cross streets came down in such great quantities that the drains were unable to cope with it and effectually carry it away. Consequently it cut a deep course on its own account through the macadam thoroughfare which has been locally improved of late. Lonsdale Avenue is by no means an isolated sufferer from the recent rain. The deluge, in collaboration with the melted snow, has caused washouts of various sizes in several portions of both the city and the district. The smallest of streams have swollen to quite important dimensions and citizens who live near a watercourse speak bitterly of the very decided difference between the musical tinkle of a week ago and the Niagara-like tumult of today.

SOCIAL AND PERSONAL

Mrs. V. C. Rainsford and Mrs. Akin will receive on Friday, the 24th, and not again until further notice.

Mrs. A. Campbell Hope of 1st street will be at home on the 22nd of this month and on the 22nd of each following month.

Mr. James McKay of 6th street departed from North Vancouver on Friday on an extended trip through southern California.

Messrs. E. McMillan, J. Grant, E. Peers and R. Evans left here on Saturday in Mr. McMillan's yacht, intent upon a hunting expedition around Jarvis Inlet.

HOCKEY

North Vancouver v. British Isles

North Vancouver won their second match in the B. C. League last Saturday defeating the British Isles team by 4 goals to 2 after a good game.

At half time the score was 2 to 1 in favor of the local team, goals being scored by H. McPherson and P. Baylis, while in the second half a lead of 4 to 1 was obtained from goals scored by E. Baylis and Ward, the visitors obtaining another shortly before time.

The British Isles have considerably improved since their last visit and had almost as much of the game as North Vancouver, but found the latter's defence too strong.

The standing of the league to date is as follows:

	Played	Won	Lost	Drawn	For	Against	Points
N. Vancouver	2	2	0	0	7	3	4
British Isles	2	1	1	0	12	4	2
Vancouver	1	0	1	0	1	3	0
72nd Highlanders	1	0	1	0	0	10	0
Victoria	0	0	0	0	0	0	0

IN THE MOUNTAINS

There was considerable snowfall in the mountains last week and extremely cold weather was reported both east and west, which is considered unprecedented by old and experienced men in the mountains. Traffic is now moving satisfactorily over the C. P. R., but the company was caught unprepared for the extreme cold and snow thus early in the fall. All trains ran late through the mountains, although a great deal of the difficulty was on the prairie, making the trains late on reaching the mountain division.

THE EXPRESS

NORTH VANCOUVER, BRITISH COLUMBIA

Published Tuesdays and Fridays by North Shore Press, Limited.
GEO. H. MORDEN, EDITOR AND MANAGER.Rates of Subscription:—One year, \$1.00. Six months, 50c. Three months, 25c.
United States and Foreign, \$2.00 per year.

Advertising Rates Will Be Quoted on Application.

The Express is devoted to the interests of the North Shore of Burrard Inlet exclusively. It constitutes an advertising medium of exceptional value for reaching in a thorough and effective manner the population of North Vancouver City and District. Every effort is made to give advertisers the most satisfactory service.

All changes in contract advertisements should be in the printers' hands not later than 10 a. m. Monday and 5 p. m. Wednesday to ensure insertion in the following issue.

North Vancouver, B. C. November 21, 1911.

WEST CAPILANO DISTRICT

The fact that the council of the district of North Vancouver has decided not to present any objection to the constitution of a new district out of a portion of the municipality as at present constituted, clearly intimates that the departure is one which has good grounds of justification.

The proposition itself is not new in that it has been recognized for very many years by those who were versed in the resources and advantages of the North Shore that it was destined to undergo a process of partitioning and repartitioning into municipalities of smaller and smaller territorial area as its resources became developed to a greater and greater degree.

This process actually began with the segregation of a portion of the district and its incorporation as the municipality of the city of North Vancouver. The proposition which is now in hand for the division of the remaining area is but the second step and it is likely to be followed by several others before all adjustments are made and municipal boundaries upon the North Shore have reached a permanent form.

The present proposed division has been before the ratepayers in an unofficial way and in a somewhat indefinite form for approximately two years, but during the past few months it has been reduced to concrete lines by the selection of definite boundaries for the new municipality and the circulation of a petition among the property owners within those boundaries requesting that the described area be constituted a separate municipality.

The fact that the district council has decided not to oppose the petition makes it practically certain that the petition will be granted and that the necessary legislation will be enacted by the provincial government constituting the new district.

Roughly speaking, the area which it is proposed to create into a separate municipality includes all that portion of the present district of North Vancouver lying west of Capilano river although it has not been considered wise to attempt to follow the meandering of that stream in defining the eastern boundary thereof. The new district contains about 20,000 acres, representing an assessed valuation of \$2,000,000. The portion remaining and lying within the altered boundaries of the original district contains 45,000 acres, representing an assessed valuation of \$7,000,000.

It will thus be seen that there is ample scope for two wealthy and prosperous districts, while the many advantages which will accrue from the closer attention to the needs of the respective communities which will naturally follow at the hands of two councils instead of one will redound to the mutual satisfaction of the property owners in each.

WOOD USED FOR SHINGLES

Ten species of wood are used in the manufacture of shingles in Canada, of which cedar is the most important. Reports received from the forestry branch at Ottawa show that over nine-tenths of the two billion shingles produced in Canada during 1910 were of this species, and that over one half of these were western Canada shingles cut in British Columbia. The consumption of spruce and white pine has decreased suddenly in 1910, 82 per cent. less of the former being made than in 1909, and scarcely one-fifth of the usual amount of white pine being produced. Nova Scotia and Quebec cut most of the spruce shingles. The white pine shingles are mostly of the species *Pinus monticola* and are cut in

British Columbia. Nearly three million more of hemlock shingles were produced in 1910 than during the year previous and of the total of fifteen million pieces, over nine-tenths was produced in Ontario and Quebec. The above four species furnished over 98 per cent. of the wood used in shingles. Balsam, Douglas fir, and jack pine, although of less importance were used during 1910 in increasing quantities and for the first time tamarack and red pine were reported as shingle wood. There was less fluctuation in the value of the species than formerly. Balsam shingles were the cheapest at \$1.48 per thousand and tamarack the most expensive at \$2.49.

MUSHROOMS fresh daily at the Grotto. 3-12

SCIENCE IN AGRICULTURE

According to the Farmers' Advocate, just what science has to give practical agriculture, what it will do in getting results in the way of larger yields, or better quality of crops, or what it will do towards raising better live stock or bringing larger returns for feed consumed or to sum it all up what it will do towards helping out the pay end of the farm is a problem many farmers are pondering over now, when young men from nearly every locality have decided to take a scientific course at one or other of the different colleges that have opened up or will open in different parts of the Dominion.

The question is not so much, Will these college graduates with a scientific training make a success of actual farm operations? as What is there in this science of agriculture and how can it be adapted and profitably put into practice on the average farm?—consisting, as the science does, of the why and the how of agricultural, natural and chemical processes that occur upon the farm, such as how food nourishes animals, why one gives more nourishment than another, and how one food will influence the food value of another, as a study of how plants obtain their food from the soil, why certain cultivation affects the availability of the food, as to study of the reproduction of life, of the factors that go to build up and maintain the qualities or characters in breeds of animals. But enough has been said to show that the science entails the study of the principles going to make the foundation of practical agriculture. Then all true farmers will admit it is well that some of our young men are making a minute study of one or more branches that make up this science. Through them, and them only, directly or indirectly, a general knowledge of the science must be given to the agricultural world—a knowledge sufficient to enable the active farmer to apply these scientific principles to average farm conditions with profit.

There is one point though, we cannot overlook. Science can never take the place of the practical or common-sense part of farm work. A scientist may work out a perfect ration for fattening a bullock, but it remains for the practical farmer, not the scientist, to feed this steer with this ration compounded by the scientist and make the feeding a success.

So there is a part of agriculture, call it the practical side or what you may, that science cannot fill. It requires years of active work on the farm to acquire this practical education. Science can greatly supplement it to develop more fully the possibilities of the farm, but it can never supplant it. It still remains, and always will, for the practical farmer to make the farm a paying proposition. However, we must sooner or later recognize the efficiency of the scientist in agricultural problems. He has already done much for which little credit has been given. We have a habit of taking scientific discoveries as of little moment once we have begun applying them to our everyday work; but we may by following his work through the student, or by the press, develop on the farm new sources of revenue, and close one more leak. Experience is already showing that to the farmer who follows most closely the work of the scientist is given the greatest measure of success.

THE THEOSOPHICAL SOCIETY

The Theosophical Society meets in North Vancouver in Room 18, Aberdeen Block (over the post office) every Wednesday evening at 8 o'clock. Attendance is entirely free and carries no obligations whatever. You are invited. Theosophical study and questions. tf

NOTICE TO PROPERTY OWNERS

Sewer Connections

PUBLIC NOTICE is hereby given that all owners of real property fronting or abutting upon a street or lane in which or under which a main or common sewer is laid are hereby required to connect any building or premises upon such property with such main or common sewer.

Permits may be obtained from the Plumbing Inspector at his office at the City Hall between the hours of 9 a. m. and 10 a. m. and 1 p. m. and 2 p. m.

The following regulations govern the construction of house or building connections with sewers:

No house sewer pipe shall have a less fall than 1 to 40, unless special permission is granted in writing by the Council. Said pipes between the iron pipe, to the connection of the public sewer to be of the best quality standard salt-glazed vitrified clay sewer pipe, and shall have a diameter of not less than 4 inches. All pipes shall be sound and well burned throughout their thickness, impervious to moisture, with a clear ring, smooth and well glazed on interior and exterior surfaces, free from flaws, cracks, blisters, fire checks or other imperfections.

The pipes must be so laid in the trench that after the sewer is completed, the interior surface thereof, shall be to a true and even grade.

In making the joints, a gasket of oakum or hemp, freshly dipped in cement grout, must first be used and packed into place. The joints shall afterwards be tightly packed full and bevelled off with mortar, composed of one part by volume of approved Portland cement to one part by volume of approved sand.

All joints shall be made water tight, so that they will stand a head of 10 feet of water, when tested by the Plumbing Inspector at the owner's, plumber's or contractor's expense.

By order of the Council:

THOMAS SHEPHERD, City Clerk. tf

Extract from Provincial and City Health Bylaws.

"Whenever any householder knows that any person within his family or household has smallpox, diphtheria, scarlet fever, cholera, typhoid, whooping cough, measles, mumps, glanders, or any other contagious or infectious disease, he shall (subject in case of refusal or neglect to the penalties provided), within eighteen hours, give notice in writing to the Medical Health Officer and no member of any household shall attend school until a certificate has been obtained from the Medical Health Officer that no infection any longer exists in the house, clothing and other effects have been disinfected to his satisfaction, and until such certificate shall have been obtained it shall be the duty of every member of the household, and of the Teacher, to use all reasonable efforts to prevent the association of members of the said household with other children.

2. The matron of a public or private Hospital, the keeper of every Boarding or Lodging House, every Inn-keeper or Hotel-keeper, shall, within six hours, report in writing to the Medical Health Officer, or any person being at one of the aforesaid houses or hotels and attacked with or suspected of having any contagious or infectious disease mentioned in the By-law; under the penalties provided for by such bylaw.

THOMAS SHEPHERD, Secretary Board of Health.

PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Engineers and others who realize the advisability of having their Patent Business transacted by Experts. Preliminary advice free. Charges moderate. B. C. FISHERIES

Provincial Waters Paramount

Interesting comparisons with the fisheries of the British Isles are given in the monthly bulletin of the department of marine and fisheries just issued covering the month of September. Comparative figures for Newfoundland and Norway are also published. The total value of the catch in Canada was \$2,520,894, or \$1,176,110 for the six months ending September 30, this representing all sea fish caught and landed in a fresh or green state.

Of the salmon catch amounting to 144,879 cwts., practically all comes from this province, and is valued at \$1,115,234. Composing this total the northern district of British Columbia contributes 14,000 cwts., the southern 128,000, and the Vancouver district 4,500. Of course the season is practically over, or else the takings would have shown much larger results. However, the bulletin does not give comparative figures with other years. This total of British Columbia salmon includes 165,000 cases of canned fish and small quantities of dry salted and smoked varieties, about 8,000 cwts., only being used fresh, or frozen for dispatch to the east and to the orient.

Next to the salmon industry ranks that of halibut in importance in the province, and of the 23,744 cwts. taken, valued at \$124,791 throughout the Dominion, British Columbia contributes about 13,000 cwts., of which the value is about \$60,000, the whole of it being marketed. Nova Scotia is the only other province which affords any practical contribution to the halibut fisheries of the Dominion.

The third principal fishery of the province, that of the herring, which is confined to Vancouver Island, accounts for 6450 cwts. of fish fresh caught, and these are valued at \$3,000. This is but a small fragment of the herring catch for the Dominion which amounts to nearly 100,000 cts. Nova Scotia supplying 50,000, and New Brunswick 30,000 cwts. of the balance.

Cod ranks fourth in importance with 1667 cwts. valued at \$83,335, so far as British Columbia is concerned, a mere fraction of the 516,000 cwts. taken in the month throughout the Dominion, no less than 440,000 cwts. being taken in Nova Scotia, though the scarcity of bait and the abundance of dogfish made a considerable difference to some of the chief fishing counties of the Atlantic province.

Seven devilfish are reported to have been caught in the province, and apparently are valued at \$7 a head, though the majority of the fishermen would rather be without them, and are the only ones taken in the Dominion during the thirty days under review. The clam industry amounts to 447 barrels, worth about \$2 a barrel, and other fish frequent British Columbia

waters noticed in the report are flounders, smelts, soles, pollock and skate, while 137 cwts. of shell fish were captured. The total value of the British Columbia fisheries for September was thus \$1,234,240, or forty-nine per cent. of the fisheries of the Dominion.

BRITISH COLUMBIA'S INCREASED LUMBER PRODUCTION

The rapid exploitation of lumber in British Columbia is increasing yearly, and has almost made that province the equal of Ontario in point of lumber production during 1910. Statistics of the Dominion lumber cut for 1910, collected by the forestry branch of the department of the interior states that 1,820,000,000 feet of lumber, worth nearly \$25,000,000, was cut in British Columbia in 1910.

As a result of greatly increased cutting in the fir and cedar forests, the total amount cut was more than doubled in one year. In 1909 the British Columbia cut constituted one-fifth of the total; in 1910 the proportion formed by the western provinces was one-third, and it lacked only 45,000,000 feet of surpassing the cut in Ontario.

Seven important softwoods make up over 99 per cent. of the cut in British Columbia—Douglas fir, cedar, western yellow pine, tamarac, spruce, hemlock and jack pine. Nearly 45 per cent. of the total was made up by Douglas fir. This species was cut in 1910 to the extent of nearly 720,000,000 feet, and had the largest actual increase shown by any species.

Cedar composed one-fifth of the total, and was the second wood in magnitude of cut. The 315,000,000 feet of this species cut was an increase of 217,000,000 feet over the 1909 production. The cut of yellow pine amounting to 183,000,000 feet, was nearly six times as much as the amount cut in 1909, and was sufficient to raise it from fourteenth to sixth place in importance among the lumber producing trees of Canada.

FARM PHILOSOPHY

Education is our hope for better agriculture. Let us advance every interest that will help the cause of education.

Progress in farming is an individual problem from the solution of which the state, the nation and the world must benefit.

When planting trees about the house set them quite a distance off, say thirty feet. Let the sunshine in and save doctor's bills.

One of the first considerations in improving country life and in reducing the drudgery of farm work is the extensive use of improved farm machinery. Study your conditions and examine the implement catalogues for the tools you need. Efficient implements are the farmer's capital and usually bring profits when properly used.

WATER NOTICE

NOTICE is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a licence in the North Vancouver Division of New Westminster District.

(a) The name of applicant in full—The Corporation of the District of North Vancouver.

(b) For mining purposes Free Miner's Certificate No.

(c) The name of the lake, stream or source (if unnamed, the description is)—Unnamed stream commencing at or about the southeast corner of District Lot 624 and flowing thence through District Lot 471 and 543 to the North Arm of Burrard Inlet.

(d) The point of diversion is on the Keith road at or about the southeast corner of District Lot 624.

(e) The quantity of water applied for (in cubic feet per second) .03 cubic feet.

(f) The character of the proposed works—Small tank intake fed by wing ditches, with overflow into creek.

(g) The premises on which the water is to be used (describe same)—The District of North Vancouver.

(h) The purposes for which the water is to be used—Municipal purposes.

(i) If for irrigation describe the land intended to be irrigated, giving acreage—Not for irrigation.

(j) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return—Not for power or mining.

(k) Area of crown land intended to be occupied by the proposed works—None.

(l) This notice was posted on the 24th day of October, 1911, and application will be made to the Commissioner on the 28th day of November, 1911, at 11 a.m.

(m) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet—J. C. Keith, of Vancouver.

(n) The boundaries and area of the District of North Vancouver are as set forth in the letters patent of Incorporation dated 19th August, 1891, and published in the B. C. Gazette, but excepting the area of the City of North Vancouver specified in schedule "B" of the North Vancouver City Incorporation Act Amendment Act, 1907.

(o) Approximately the number of inhabitants of the District at present is 2,500.

THE CORPORATION OF THE DISTRICT OF NORTH VANCOUVER.

CAN I GET IN AT YOUR TELEPHONE DOOR?

Imagine a big store with so few doors that customers line up for a block waiting for admission. That is precisely the situation of a house which does not provide adequate telephone service for its business and the accommodation of its customers—for the telephone is a door to your business.

Is one telephone sufficient? There are about 12,000 telephones in the city and you may be called from any one of them; or you may be called by long distance from several thousand other telephones throughout the country.

The needs—The growing needs of your business must determine the number of telephone lines you require. Your business is hampered by inadequate telephone facilities. Before the rush comes, you should decide how many lines you need.

Ltd., Utility CanManufacturing Co. Ltd., Yellowhead Pass Light and Power Co. Ltd.

The P. C. Construction Co. Ltd. is licensed as an extra-provincial company to carry on business in this province.

VERB. SAP

Do it your way, says the "British News of Canada." Don't let people talk you out of your gift. Be a non-conformist in character if not in ecclesiastical matters. Remember there are certain matters in which no person can instruct you. Be true to the instincts of your own soul.

You'd think, to hear people talk, that a man could buy a book of rules and make up a fine brand of Success, just as a woman gets a pie out of a cook book. But there's no rule for making success.

The plodder is alright—sometimes; the hustler is alright sometimes; the schemer is all right—sometimes. But more people have gone broke following other people's rules than you can count on an eight-column adding machine.

And don't forget that there are all kinds of opportunities. What is an opportunity for one may in no sense be an opportunity for another. On a road to success that is dead easy for your neighbor you might stumble and break your neck, while he'd find his feet slipping on the road that suits you. You've got to hunt up your own road and make your own set of rules and it's a practical certainty that you'll have a back-yard full of both rules and opportunities before you hit it right.

MATCH PRODUCING IN B. C.

A new industry that will mean much to the Fraser Valley has been announced for location at New Westminster, and a few months will see a match factory on the banks of the river, sending British Columbia made matches from Montreal to the Orient. The name of the new company is the Dominion Match Co., Ltd.

The basis of the new industry is that by a new process of match cutting and holding, the native woods, such as alder, cottonwood and spruce, can be utilized by a rapid economical method that results in enormous saving in the cost of production. It is due to this fact that British Columbia is able to appear in the new role of a match producer for the Dominion of Canada.

The new plant to be constructed will have a capacity of one carload of matches per day. Under the new process it is expected to clear in profits not less than \$1,000 per car. As the capitalization is only \$1,000,000 per value, this will mean that the company would pay some 30 per cent. dividends, and considerably better on the basis at which the stock is temporarily being sold locally in accordance with the request of the company. The material used will be common alder, with which the region is plentifully supplied, and the wonderful new process is simplicity itself.

It sometimes happens that when a man loses his reputation he is lucky.

A SPECIALIST

The dust-begrimed tramp saw the good lady of the house pottering about in the garden; so he approached her on the subject of alms. "And where have you been, and how do you live?" she asked.

"Well, ma'am, I've been all over the world—Europe, Asia, Africa, America; and have had a most varied experience in the chase of the elusive meal."

"Then, my man, you should have an interesting story to tell."

"Quite right, ma'am, but I am essentially an after-dinner speaker."

Mr. William Loutet, C.E. in Persia

Former City Engineer at Work on Mesopotamian Dam

The following item is rendered locally interesting inasmuch as Mr. William Loutet, formerly city engineer for North Vancouver, who has for the past two years been under Mr. Arthur Whitley in charge of bridge work on the La Paz railway, has arrived in Persia and will be on the staff of engineers in connection with this great dam.

Sir William Willcocks, who in the interests of the Turkish government, has spent about three years surveying in Mesopotamia, has discovered, he thinks, the locality of the Garden of Eden, namely, in the district between Babylon and Bagdad. In the time of our first parents this region must have been a fertile paradise, but, now, like many other places, it has been better days—in fact, it is almost a desert. But that does not suit the purpose of the Turkish government, which has opened up an era of reform, and it is going to do for Mesopotamia what the Anglo-Egyptian government has already done for the country of the lower Nile. The late Sir John Aird was the contractor who built the great dam at Assuan, so as to subside the arid regions around with the fertilizing waters of the Nile; and Sir John Jackson is the man who is to perform corresponding feats on the Euphrates, under a job contract, which will run into something like \$100,000,000. Already what soldiers call an "advance party" of about 3,000 men, is engaged in rough preliminary work—laying out the camp, so to speak, and the executive staff of the enterprise is now being selected by Mr. John Jackson, assisted by his first-in-command of the constructive army of Mesopotamia. This is Mr. Arthur Noel Whitley, another Yorkshireman, who has just reached London from South America, where he was second in command of another great Jackson enterprise—the construction of a railroad 300 miles long, across the Andes, from Arica, in Chili, to La Paz, the capital of Bolivia. Having thus variously exercised, his genius, Mr. Arthur Whitley is now about to address himself to what his friends are sure will prove his masterpiece. He is going to put the spade in at Hidia, the Assuan of the Euphrates; but that will be only one of the three great barrages at this ancient river and the Tigris. At first a district of 60,000 acres will be irrigated, at a cost of \$7,250,000, after which the value of

the land now practically nil, will be then at least \$5,000,000. When entirely irrigated, Sir William Willcocks, its surveyor, estimates that his Garden of Eden will have acquired a value of \$190,000,000.

MR. BALFOUR'S SUCCESSOR

The Canadian Acclaimed by the British Press

"It is not fanciful," says the Morning Post, "to imagine that Mr. Bonar Law may be destined to win for the mother country a great victory for the cause of national and imperial union corresponding with the triumph achieved by the Conservative party in Canada and the Unionists may confidently look to him to display the same devotion to principles and the same resolution in placing the policy of his party before the electorate as marked the successful campaign conducted by Premier Borden."

The Chronicle, Liberal: "The Canadian is by far the ablest exponent in either house and his succession to Mr. Balfour means the substitution of whole heartedness for the tepid enthusiasm of Mr. Balfour. Mr. Law may be trusted on all matters to keep things on a high temperature."

"Bonar Law," remarks the Express, "is the first son of our great Dominion to become the leader of one of our great political parties. When the direction of our imperial policy is of such critical importance as now, nothing could be better than the choice of a son of Canada as a leader of the Unionists."

CANADA'S FINANCES

The Dominion financial statement for October shows a revenue during the month of \$12,221,653.27, as against \$9,666,192.95 in October last year. The ordinary expenditure for the month was \$4,364,903.11, as compared with \$6,099,436.69 in the same month of 1910.

The revenue for the seven months is \$76,291,178.04, as compared with \$65,814,386.28 in the same period of last year, while the expenditure for the seven months has been \$40,298,359.13, against \$41,208,109.65.

The capital expenditure for the month was \$2,561,812.30, against \$3,548,278.93, and it is worthy of note that there were no payments on account of bounties. For the seven months the capital expenditure has been \$14,889,839.43, as against \$15,978,415.24. The public debt increased by \$5,334,844.59 during the month.

It Doesn't Cost You Anything to See Hastings Grove

HASTINGS STREET LINE EXTENSION

Carline to Port Moody Projected, With Motor Bus Line For Immediate Service Over Stone Road to D. L. Two Hundred and Eight.

Residents of the district tributary to Hastings street east will have transportation facilities of the best character in the near future, according to plans now under consideration.

At the meeting last evening of the Burnaby City Council, the offer of Mr. George Simons, a capitalist of Hastings Townsite, was taken under consideration and the matter referred to the city solicitor, and in case the solicitor advise that the city has the right to grant the franchise it will be further considered.

Mr. Simon's proposition is to build a line from the present terminus of the street railway east through D. L. 208 and 209 and on to Port Moody.

Meantime a 30 minute motor car service will be put on, beginning not later than March 15 and running from Hastings Grove in D. L. 208 to the present car line terminus.

The contract for the stone-paved road on East Hastings street is well along and will be completed as far as the Pole Line road by December 31, adding very greatly to the facilities for reaching this rapidly growing section of the city.

AND KNOW

We Urge You to see HASTINGS GROVE

Over 300 LOTS SOLD in FOUR WEEKS

It Looks Better Than Anything We Can Tell You. Lots on or Close to Hastings Street East, D. L. 208

\$90 Cash, Bal. one and two Years, or
\$40 Cash, Bal. 6, 12, 18 and 24 months, or
\$10 Cash and \$5 a month, Bal. in 2 Years

LOTS
\$245

One of the best features about investing in Hastings Grove is that it is right here at home. You can go out with us and pick your lot, and KNOW exactly what you are buying. You know what the city of Vancouver is—what it has done in the past five years—and it does not require much faith to see the future of this progressive city. Property all over Vancouver will naturally advance in price for years to come, the outside property much more rapidly than that close in, as it does in every growing city. You owe it to yourself and family to buy one or more of these lots, if only as an investment. There are many things we should like to tell you about this tract. Drop in today or this evening.

Come at 1:15 in the Afternoon, Rain or Shine, and Go Out With Us.

QUIET SESSION OF CITY FATHERS

(Continued From Page One.)

4. That cement sidewalks six feet wide be laid on 2nd and 3rd streets from St. George's avenue to Chesterfield avenue.

5. That 3rd street be macadamized from its intersection with Keith road on west to Queensbury Ave. on east, and that Queensbury avenue be macadamized from 3rd street connecting with the Lynn Valley road.

Ald. Kittson had given estimates of the proposed works amounting to \$216,520.

Ald. Henderson had moved an amendment that proceedings in the matter should be deferred until next year's council came into office.

On a division the vote was equal on both sides, and the mayor said he would give his casting vote at the next session.

Last night His Worship decided against Ald. Kittson's motion. He expressed himself as desirous as anyone else that North Vancouver should have pavements, but he did not feel justified in supporting Mr. Kittson's motion when there were so many pressing matters to be attended to in the city.

The fire chief submitted his estimated requirements for 1912 at \$12,847.

Mr. W. H. Langley of Victoria wrote in the interests of the North Arm Bridge and Railway company asking the council for a resolution of support in relation to the bill which is to be submitted to the government during this session of the Dominion parliament. "It is the intention," wrote Mr. Langley, "of those at the back of this enterprise, should this bill become law, to at once take the necessary steps to carry out the construction of the works comprised, more particularly with respect to the bridge and the railway."

The letter further stated that Mr. H. H. Stevens had been interviewed and

that he had announced himself to be heartily in accord with the project and the petition for the bill itself was to be placed in his hands to be presented in the House. As the contemplated works would so very materially affect the interests of North Vancouver Mr. Langley felt that if the council would pass a strongly worded resolution supporting the project, it would be every helpful. The feasibility of the scheme was beyond all doubt the greatest pains having been taken in its formation.

Ald. Dick said he would like more information on the subject. He considered that it was a matter upon which the city and district should be at unity. He proposed that before this letter was replied to, the district council be asked to meet the city council in the city hall on Friday night. This course was adopted, it being resolved that a meeting be arranged.

A tender from Kennedy Brothers to the amount of \$256 for laying a cement sidewalk in front of the new theatre on Lonsdale avenue was accepted; subject to the approval of Mr. W. J. Irwin, who is paying for the cost of the work.

Ald. Dick then referred to the recent flooding of Lonsdale avenue. This had been due to the district turning the water from the cross streets into Lonsdale where it overflowed.

Ald. Henderson thought it should be brought to the notice of the district council. It was too bad that they should get all the surplus water drainage of the district. He considered that the district should do something towards repairing the damage.

It was pointed out that this could be discussed on Friday night when the two councils met.

Ald. Henderson mentioned the dividing of the municipality. He proposed that at the joint meeting on Friday the question be discussed of extending the city's boundaries so as to avoid if possible a number of separate municipalities growing up on the North Shore, and thus lessening the effect of municipal concentrated influence.

Ald. McKee then related his and the mayor's experiences while in Victoria attending the convention of municipalities. It had, said the alderman, been a very interesting convention, and many useful matters had come under discussion. The government now looked to this union as a source from which to derive suggestions as to the compiling of municipal laws. The next convention will take place in Revelstoke.

The mayor added that he had noticed during the discussions, that the recommendations which were most applauded were nearly all of them everyday practices in North Vancouver. He was thoroughly convinced that North Vancouver was as far advanced as any municipality there.

The council then adjourned.

COMMUNICATION

Editor Express:

Sir,—In view of the impression created by certain remarks made by His Worship the Mayor on the evening of the 13th inst., I am directed by my executive to forward you the enclosed letter for publication in the Express, the contents of which explain the position taken up by the deputation referred to.

Thanking you in anticipation.
Yours faithfully,
R. McKENZIE.

Mr. Kemp,
Secretary North Vancouver City
Ferries, Ltd.

Dear Sir,—Yours of the 14th inst. duly to hand and contents noted.

My executive are pleased at the prompt action of your board of directors in adopting several of the suggestions put forward by the deputation.

In regard to negotiations with the Grand Trunk Railway company in reference to the overhead bridge, the members of the deputation take exception to the statement made by His Worship the Mayor in the city hall on the evening of the 13th inst. to the effect that they agreed to any negotiations between your board of directors and the Grand Trunk Railway Company and further wish to emphasize the fact that they emphatically declined to commit themselves until they were in possession of fuller information bearing on this arrangement. The executive of the Ratepayers' Association hope nothing definite will be consummated in this connection until they have had an opportunity of discussing the proposition with the members of your board.

Yours faithfully,
R. McKENZIE,
Acting Secretary.

WINSTON AND WINNIPEG

The opinion of the Winnipeg Telegram, one of the most powerful of Conservative organs in western Canada, on the recent shuffle of the British cabinet, is set forth as follows under the heading of "A Grave Error."

The appointment of Winston Spencer Churchill, former Home Secretary, to the very important post of First Lord of the Admiralty in the British cabinet, will come as a decided shock to the overseas dominions. It is an appointment which will not command

confidence of those overseas Dominions which have taken the measure of Winston Churchill—and it is not a flattering nature. The new First Lord of the Admiralty has a certain superficial ability; he is not a broad man; he is a representative of the group of "little Englanders" who are not in harmony with the tremendous sentiment which is cementing the ties of the empire. His selection for a post which should be filled by the most capable man it is possible to find in the United Kingdom cannot fail to produce a distinct feeling of disappointment in British dominions everywhere.

A recent request to the B. C. E. R. from the city council of Vancouver to heat the cars during the cold weather has been turned down by the company through a letter to the city fathers across the Inlet on Monday evening. Transportation Manager Roosevelt claims the cars of Portland, Tacoma and Seattle are not heated, why Vancouver?

DURBAR DIFFICULTIES

The fates seem to be conspiring against the durbar. First there were rumors that the King and Queen would not arrive in person, and many persons consequently changed their plans about going. Then Scotland Yard and the India officers became a prey to fears that some untoward incident might occur, and a general feeling of uneasiness became prevalent.

Everything possible has been done to counteract the effect of these reports but the public interest in the coming pageant is relatively small. The editor of one paper frankly confessed that he is sending a special correspondent to India, not because of any keen desire for descriptive news but as a method of insurance against the unexpected.

Two more facts transpired this week in connection with the durbar preparations which are calculated to deprive it of some of its glory.

Queen Mary, as everybody knows, possesses a will of her own, and has put her foot down in a manner which is causing the officials arranging the show no end of trouble.

One of the features of the celebration was to be a procession of elephants. The elephant procession was the most conspicuous feature at the last durbar, and it was felt such a parade should be an equally distinctive feature at the coming one.

Queen Mary decidedly objects to riding an elephant. Indeed she is reported to have said nothing on earth could induce her to take part in such a procession. King George's personal solicitations, it is reported, have been in vain, and the officials responsible for the arrangements of the ceremonies are at their wits' end.

To the Indian mind a procession of elephants is invested with more than a ceremonial meaning. The most important potentes must ride the biggest beasts. At the last durbar the question of inches in the relative stature of the elephants ridden by Lord Curzon and the Duke of Connaught assumed the proportions of a state controversy.

HEATERS

PIONEER MINISTER DEAD

The death occurred Saturday morning of Rev. Thomas Wellington Hall, pastor of the Carman Methodist church, Sardis, and one of the pioneer ministers of British Columbia. The news of his death was a great shock to his friends as he was apparently in good health until he was stricken with heart failure. His first charge in this province was at Clinton on the Cariboo Road in 1883. He has since held appointments at Kamloops, Grand Forks, New Westminster, Nanaimo, Chilliwack and Sardis, and was once president of the British Columbia Conference. He is survived by a widow, four sons and one daughter.

People get tired of everything, and of nothing sooner than what they most like.

District of North Vancouver.

NOTICE

NOTICE is hereby given that a meeting of all the ratepayers of the proposed new municipality lying west of the Capilano river, will be held at the Municipal Hall, Lynn Valley, on Wednesday, November 22nd, at 3 p.m. to consider and discuss the resolution of the Council regarding the subdivision of the municipality, and to appoint a committee to arrange for a proper division of the present assets and liabilities of the whole municipality.

IF YOU HAVE A BABY

(OR EXPECT ONE)

"THE NEW BABY"

GIVES INFORMATION YOU NEED

It tells how much baby should weigh each month, how many inches and how fast it should grow, when baby should get its first tooth, and each of the other thirty-one.

It shows the difference between human and cow's milk how to make the latter like the former, just how often and how much food baby needs, from the first week to the eighteenth month.

"The New Baby" tells the expectant mother about her diet, proper exercise and clothing, how to prepare for her accouchment, just the things she needs in advance.

It is written by doctors who are recognized authorities on their various subjects and all this is told in the fewest words, in the plainest language, intended for the busy women.

"The New Baby" is illustrated by 433 beautiful half-tone reproductions of all the newest inventions for baby, for instance, it shows a crib that goes over a bed without touching it, allowing a mother to tend her babe without arising.

A bath-tub without a hard surface, that folds in a two-inch space in one movement, a hot water bag that needs no water and will stay hot for a week, etc.

SEND FOR IT NOW

"The New Baby" is NEW; you need it; every woman needs it who is interested in a baby. It gives the information a mother wants every day. We will deliver it to your home, an advanced copy, on receipt of 25 cents.

The Trail to Economy in Buying Good Clothes

Leads straight to this establishment. We are determined to build up the biggest and most popular Clothing Business in Western Canada, and are doing it by selling the best of Suits and Overcoats at the smallest possible margin of profit. The fabrics are the good, honest English stuffs—Tweeds, Worsteds, Bannockburns, and, for some of the Overcoats, fine Friezes. You can select from all the latest and most attractive patterns, and can have a style and fit that will please you, no matter how fastidious. When you try on one of our suits or overcoats, and see how excellent it is in all respects, and then learn the price, you will be astonished.

Fine Scotch Tweeds \$9.75 These well made suits are sold in many establishments for \$15.00, and would satisfy a man at \$20.00.	Blue Suits, Indigo Dyed \$17.75 I call these "Johnson's Specials" and am proud of them. Other prices in Blue Suits are \$10.75, \$15.00 and \$22.50.	Best English Tweeds, Worsteds and Bannockburns, \$21.75 These suits are sold by many tailors at from \$25.00 to \$35.00, and have all the real quality that can be put into a suit.
Fine English Worsteds \$13.50 You have often paid \$20.00 for a suit inferior to these.	Overcoats, Black Vicunas \$8.75, \$10.75, \$15.00 and \$16.90 (extra long). These are fine, serviceable coats for all occasions.	Exceptionally Fine Worsteds and Tweeds, \$16.90 Plenty good enough for millionaires
Overcoats in Scotch, English and Irish Fabrics at \$8.75, \$10.75, \$12.50, \$14.75 and \$16.50. These are big, essentially warm and comfortable coats that look fine and wear like iron.		Men's Umbrellas, a Beautiful Assortment Just Received at \$1, \$2.00, \$3.00, \$4.00 and \$5.00. English coverings with Paragon frames and the newest American handles.

JOHNSON'S BIG 3 131 HASTINGS ST. West
At the SIGN of the UNION JACK. Look for it!
