THE FERNIE LEDGER

VOL II NUMBER 42 FERNIE, B. C., SATURDAY, JUNE 1, 1907 PRICE $2 A YEAR IN ADVANCE

CASE FELL THROUGH

Jaffray Attempted-Murder Case Turns out to be Very Small Potatoes--Fine $40

The case against George Congdon for striking a man named Gunderson over the head with a straight edge at the North Star Sumber company's mill near Jaffray some days ago was up before Magistrate McMullen yesterday for preliminary hearing and the accused man was sent up for trial before Judge Wilson last night.

The injury received by Gunderson turns out to be not so serious as at first reported, and he is in attendance at the trial.

Dr. King, who has been attending the wounded man came down last night to give evidence in the case. The accused man's daughter is also here, having come over from Spokane to be with her father through the trial.

Mr. Congdon is a man about 58 years of age, and appears to be an intelligent and peaceably disposed man.

L. P. Eckstein defended the accused man, and Sherwood Herchmer represented the Crown.

The charge was wounding, and the evidence showed that the wounded man had assaulted the accused while the latter was attending to his work and using in connection therewith a straight edge which he held in his hand.

Gunderson, coming up behind the accused, assaulted him, and at the same time used very offensive language.

In a clash, and yielding to irresistable impulse, the man threw back his straight edge, inflicting a severe wound upon the head of the man Gunderson, resulting in his having to be taken to the Cranbrook hospital.

FINE WAS IMPOSED.

The court found that an assault had been committed, but under extreme provocation, and in consequence let the accused off with a fine of $40.

ADDITIONAL LOCALS.

Mrs. Doran, mother of Mrs. Lawry, left for Minot, N. D., Thursday evening.

Mr. Wright, father of C. C. Wright, who has been visiting his son, returned to Medicine Hat Thursday evening.

Peck's Bad Boy will be here next week, Tuesday, and as he will be the only bad boy in town, all the good boys will be there to see him.

Miss Gates, Miss Anderson and Mrs. W. J. Blundell, are leaving next week for their eastern homes to enjoy a summer vacation.

Magistrate Whimster, after hearing the testimony of the prosecuting witness in the case against R. Kerr, bound him over last night for trial before Judge Wilson.

F. W. Sheldon, who has been the day operator here since Frank Dunn left, has been transferred to Elko and H. H. Wickett, of Michel, has taken his place.

Mrs. Jemson left yesterday orning over the Northern bound for her former home in Ontario, where she expects to spend a few pleasant months visiting friends and relatives.

An adjourned meeting of the court of revision will be held Tuesday evening. Some appeals by the Crow's Nest Electric light and Power company, and one by A. B. Trites will be considered.

The Moore Concert and Vaudeville company gave two entertainments here during the week. The first night drew a large audience, but on the second, Wednesday evening, drew forth a very small crowd.

Constable Parks was up from Elko yesterday and reports the three smallpox patients under his care as progressing rapidly to recovery. The cases are all of a very mild nature, and he hopes to be out of his job soon.

The third entertainment of the W. C. T. U. medal contest will be given in the opera house next Thursday night, when another treat may be expected. The occasion is sure to bring out a large audience. Everybody will be there.

Mr. Maclean has transferred the Palace drug store from the Crow's Nest Trading company building to the room next to the Bank of Hamilton across the street, and the Trading company are preparing the vacated premises for their gents' furnishing department. This gives the big company much needed room, and will add greatly to the appearance of the store.

Digby and Waldie have been awarded the contract for building Wm. Ingram's new fireproof building. Scott and Ross have purchased the old building on condition that the city allow them to move it to their lot opposite the C. P. R. station, and until permission is granted by the council to do this, nothing can be done at starting work on the new building.

The session of county court Wednesday, was held in the Todd block. The hall formerly occupied by Gladstone Miners' union has been rented by the provincial gokernment until the new building is ready for occupancy. The old buildings will be moved away and the provincial offices will be located in the Todd block in the meantime. The hall has been so fitted up that it makes a much more convenient and commodious court room than the one in the old building.

Dr. Mewburn, who has been very ill with blood poisoning, returned to Lethbridge a few days ago from St. Paul, where he went for treatment. He is very much improved in health and will soo be back at his post as superintendsnt of the Galt hospital.

Frank Dunn late of the C. P. R. staff here, now train despatcher at Cranbrook, was in town yesterday seeing his many friends. He was accompanied by an old friend, Charles Howell, of Havre, Mont. Mr. Dunne is looking slick and fine, a result, we suppose, of a straight banana diet.

The Western Federation of Miners will furnish funds for the defense of the Texada striking miners, who are charged with going on strike contrary to the provisions of the new conciliatinn law. Mr. Bird, of the law firm of Bird and Bryden-Jack, has the case in hand. The result of this case will be watched for with interest, as it is the first instance of a criminal prosecution under the act.

The mayor and all the city aldermen were present at the adjourned meeting of the council last Saturday, when the bids for the construction of the city sewer system were opened and the contract awarded to Hugh Macdonald, of Victoria. There were two other bids, one by Mr. Oldlands, of this city, and one from Blake, of Spokane, but Mr. Macdonald's being the lowest the contract went to him.

Mrs. and the Misses Davies were entertained at a luncheon given them by some of the Cranbrook boys during their recent trip to the banana belt city. The luncheon was decorated in the violet scheme, and each one present was presented with a bunch of the violets. After the lunch the party went to the Tennis club, where they were received by Mrs. Pinkham, the hostess for the afternoon.

CARD OF THANKS.

James Bennie desires to extend to all friends and sympathizers his thanks for their many kindnesses during the recent illness and death of his brother Matthew, who died in Fernie hospital of typhoid fever after eight weeks illness.

JAMES BENNIE.

HAIR SPLITTING.

The decision of the United States supreme court in the eight-hour case from Massachusetts is about as brilliant an example of hair splitting as could be imagined. It deals with the federal law limiting a day's work for laborers and mechanics upon any of the public works to eight hours. The case in point had to do with employees on dredges in the Boston harbor. The majority opinion, by Justice Holmes, which is decisive, holds that the men were not laborers or mechanics, but seamen, and that dredging is not a "public works" within the meaning of the law. It is public work, but not "works," not a structural utility or something having a permanent existence. Justice Moody takes the opposite view, and is supported by two others, holding that dredging is an essential part of the public works represented by the harbor, and that the men employed are simply laborers using the dredger for a platform and in no sense are seamen. The decision will not please the administration any more than the labor unions, but presumably will be satisfactory to the contractors. Doubtless there will be an effort to cure the defect in the law in the next congress.

Keep Minard's Liniment in the house.

NEW UNIONS.

President Sherman and Secretary Macdonald, of District 18, U. M. W. of A., arrived in Fernie Tuesday after an extended trip to the locals at Bankhead, Canmore, Taber and Lethbridge.

The trouble at Canmore was adjusted with little difficulty, a misunderstanding of the laws of the new agreement being the cause of the men not going to work. It seems that the manager had not received a correct copy of the document.

Three new locals are to be organized in the lignite field in the Lethbridge district.

At Unionville, north of Edmonton, 400 tons of lignite coal is being taken out per day, and one hundred men are employed.

Thomas Williams, who used to be a fire boss at Coal Creek, is manager at Woodpecker for a new coal company which is opening up a new mine at that place.

Rapid development of the mining of domestic coal is going on all over Alberta, notably a new mine at Magrath.

All told there will be seven new local branches of the U. M. W. of A. combining a membership of four to five hundred men added to the district organization in the next three months. The backhand system is to be abolished at Canmore as Lille.

The great demand for coal in the prairie provinces has stimulated the development of new mines in the lignite field, but it will take time to catch up with the demand.

President Sherman reports the several unions visited during his trip as being in the best of condition, and the demand for labor good.

District 18 will soon be the most important body of organized labor in Canada, and the experiences through which it has passed during its short existence has been of great value as an educator along mine lines.

SPECIAL MEETING OF COUNCIL.

A special meeting of the city council was held yesterday afternoon at halfpast 3 o'clock.

There were present the Mayor, Aldermen Gates, McIntyte, Trites and Tuttle.

On motion of Tuttle and Trites the mayor was instructed to try to make arrangements with Mr. McMullen for the keep of all city prisoners at 50c per day per man.

On motion, Aldermen Trites and Tuttle were appointed a committee to complete water tank and running gear.

On motion of Alderman Gates, seconded by Alderman Tuttle, nominations for alderman to fill the vacancy caused by the resignation of ex-Alderman Stork be held in the city hall on Saturday, June 1, from 12 o'clock noon to 2 p.m. Pacific standard time, and that J. W. Nunn be returningofficer, and that if a poll becomes necessary, said poll to be held in the city hall on Tuesday, June 4, 1907, from 9 o'clock a.m. to 7 o'clock p.m., Pacific standard time....The motion carried.

The council then adjourned.

COLEMAN WILL CELEBRATE.

The enterprising citizens of Coleman have resolved upon holding a record-breaking celebration of Dominion Day on the 1st of July. Committees have been appointed to make all arrangements, and all particulars will be announced in a few days.

When those Coleman boys start out to do the celebration act there is no doubt about what it will be. Nothing will be spared to make it the best meeting ever held in the Pass. Look out for the announcement of program and all other particulars next week. There is only one other place the Ledger would prefer to see doing its best to beat all the othir places in the Pass on a 1st of July celebration, and that place is Fernie.

John B. Wilkie is secretary of the reliminary committee, and will announce through the Ledger the permanent committee and program next week.

BOARD MEETING.

The district board of District 18 was in session in Fernie on Wednesday. Business of a routine nature was transacted.

There were present President Sherman, Vice-President Galvin, Secretary Macdonald, Board Members Sullivan and Morgan and International Board Member P. Patterson.

Mr. Graham, of Coleman, and Miller, of Lethbridge, could not attend.

The Lethbridge case will be referred to a board of conciliation, and it is expected that a satisfactory settlement will be arrived at as a result of investigation.

TABER NOT TABERING OFF.

Ed Wildman was up from Taber at the beginning of the week. He reports business of all kinds booming down there, especially the business of building houses. Taber now claims 200 people, and is looking for more.

Messrs. Kellar and Wildman have constructed 20 houses for the Coal company, besides many other buildings in the new town.

Three steam plows have been unloaded at that place within the last month, and the prairie sod is being turned over in every direction.

DUTHIE WILL RUN

At the solicitations of numerous of his friends, Mr. Robert Duthie has consented to become a candidate for the position of alderman, made vacant by the resignation of Mr. Stork, and will be put in nomination today at the city hall. Mr. Duthie needs no introduction to the people of Fernie. He has been an honored and most respected citizen of our town from its beginning. His reputation as an officer and as a citizen is without a blemish.

No reason can be stated against his becoming an alderman, and upon the board he will be as honest, upright and straightforward as he has been in any and every capacity in which he has been called upon to serve the people of the town.

No more competent or fitting man could be selected, and the Ledger but voices the opinion of every well-wisher of the town when it unqualifiedly endorses the candidacy of so honorable and upright a citizen as Mr. Robert Duthie for the vacant chair at the city council board.

If there should be a contest, let the friends of good, clean city government see to it that a full vote is cast.

Put every vote possible in the ballot box next Tuesday for Mr. Duthie.

MICHEL NOTES.

District Board Member Sullivan was in Fernie a day or two this week.

John Turner and A. C. Day were here working on the telephone line Wednesday.

Abour three score of immigrants arrived in charge of an agent looking for work one day this week.

H. H. Depew and Dick Hammond, the electrical experts, were in town a day or two during the week.

Mr. and Mrs. A. B. Trites, Mrs. Spout and Miss McKinley came up on the Wednesday train and returned to Fernie on the delayed Thursday train.

Dan McNish, the government road superintendent for this district was a Michel visitor the other day. He was accompanied by Mrs. McNish and children.

The Moore concert company gave us one of their concerts Tuesday evening, and after the show they furnished music for a social dance. Their dance music was excellent.

The Elk river shows an inclination to rise in the world these warm days and is now as high as it has yet been this year. The lumberjacks are still dumping logs in the water, and unless it gets much higher they will not stop.

Richard Lane and Miss Simister were married at the residence of the bride's father by Rev. Geo. Kinney Wednesday. Miss Lane acted as bridesmaid, and Mr. J. Simister supported the groom. They are both well known here and will make Michel their future home.

KILLED BY SISTER.

Grand Forks, May 30.—Emma Donnan was killed with a stick of stovewood by her sister Bella this morning. The latter is about 30 years old and is an epileptic subject and subject to attacks of excitement and temper incidental to the disease. The murdered girl was about 19. The affair occurred in the kitchen, and was subsequent to a small dispute that Bella Donnan flung the stick at her sister, striking her above the left ear, death following within five minutes. Drs. Kingston and Truax tried artificial respiration unsuccessfully. The mother and two sisters were in the house at the time. The father works in the Canadian Pacific railroad shops at Kholt. An inquest will be held tonight.

CLEVER CAPTURE.

Provincial Constable A. Sampson made a clever capture last Tuesday in French camp, a part of the old town across the tracks. The United States authorities were looking for a man named Julius C. Beasley, and had offered a reward of $400 for his apprehension.

The man was charged with the crime of burglary, and it seems has been in hiding in this district for some time.

The man will be handed over to the officers from the States and Constable Sampson will receive the promised $400 reward.

This is one more bright feather in the cap of an efficient officer of the law, and Mr. Sampson is entitled to congratulations.

CARD OF THANKS.

Mr. and Mrs. Jas Thomson, of Coal Creek, desire to thank all friends and acquaintances for numerous kindnesses at the time of the loss of their young son, Frank Allan Thomson, who was drowned on Tuesday last.

L. P. Eckstein left this morning via the C. P. R. for Spokane on a flying business trip.

WE REGISTER A KICK.

Government Agent McMullen received the plans and specifications for the new provincial building a few days ago, and local contractors are busy figuring on them, preparatory to submitting tenders for the construction.

The proposed building is to be a very imposing one in appearance, and will be large enough for the requirements of this district for several years.

The building is to be 50 feet 6 inches by 59 feet 8 inches, with basement under the whole. The basement will be 10 feet in height. The walls of the basement are to be of concrete, and the superstructure of wood. The basement will have a boiler room, coal room and room for two or more offices and lavatories.

The ground floor will be divided into offices. The government agent's office will be 28 by 20 feet, with a smaller private office in connection.

The registrar's office will be 19 feet 9 inches by 21 feet 10 inches, with a private office adjoining.

The sheriff's office will be 17 feet by 12 feet 4 inches. There will also be a vault on this floor.

The upper floor will be occupied by the court room, 32x32 feet, a jury room, witness room, judges' room, and barrister's room, and a large hall with stairway leading up to the gallery at one end of the court room.

The ceiling of the court room will be about 20 feet high in the centre, and a large semi-circle toped stained glass window will light this room from the west. The coat of arms of British Columbia will constitute a portion of the decoration scheme of this window.

The Ledger is nothing, if not a kicker, and it wishes to register a mild kick or two at these plans.

The provincial architect has evidently fallen into the same error into which the Dominion architect stumbled when he drew the plans for the new Federal building now under construction.

The most imposing elevation of this new provincial building is the one proposed to face the alley between the government lot and the Fernie club building, and away from the business portion of the town. The fine, large stained glass window will be on the west side instead of facing either Cox street or Pellatte avenue.

This seems to the Ledger to be a serious mistake, and inasmuch as the change will cost nothing aside from drawing new plans, it suggests that the board of trade, city council, Conservative association and everybody else request that this be done.

The Ledger also suggests that a building of the size that is proposed by these plans, and which is to be finished in first-class style throughout, should be of brick or stone instead of wood as is proposed.

The extra cost over wood will be eaten up in paint and repairs in ten years time, and why not economize by using the more lasting material in the beginning. The heating of so large a wooden structure will also entail extra expense, and besides all these considerations of expense, we believe that fine big stained glass windows will look out of place in its setting of shingles and siding.

The Ledger makes these suggestions for the consideration of those who are sitting in high places, and hopes its kicks will be taken as kindly as they are intended. At least the changing of the elevations of the building to harmonize with the surroundings will entail no great cost, and should be insisted upon by every one who has an interest in the beautifying of our city.

This may have been an oversight by the architect, and can be easily remedied without retarding the construction of the building.

We have an example of the cost of heating and keeping in repair of a large frame school building, and our school board is seriously considering a proposition of calling for the power to issue debentures for the purpose of replacing it with a more modern one of brick or stone. This building has been a constant source of expense by way of heating, painting and repairing, and over $500 is called for to repair it this year. With this experience before us it would seem the part of wisdom to insist that the new provincial building shall be constructed of brick or stone, even though we have to wait a few months longer for the completed structure.

IN FOREIGN LANGUAGE.

While 20 of the Conservative members of the house of parliament at St. Petersburg were at Tsarskoe-Selo congratulating the Emperor upon his narrow escape from not being emperor any more, the radical members of the house took advantage of the absence of the congratulating delegation to table the resolutions condemning the terrorists who came so near making it unnecessary for the delegation to do any congratulating.

How ridiculous
Must Emperor Nicholas
Feel at Tsarskoi-Selo
He would feel more at ease,
And might do as he pleased,
If he went to try living below.

Keep Minard's Liniment in the house.

DROWNED IN COAL CREEK

Little Frank Thomson Drops from Log into Creek while Bringing Mother Flowers.

Frank Allan Thomson, aged 8 years and 10 months, son of Mr. and Mrs. James Thomson, of Coal Creek, was drowned in that raging little torrent last Wednesday. He, in company with some other children, had been playing and gathering wild flowers, and on the way home, while crossing the creek on a slippery log, he lost his balance and fell into the swift current and was drowned before aid could reach him.

STILL HELD FLOWERS.

The little fellow's hand was still grasping his flowers when taken out of the water.

The body was brought down to the city and funeral services were conducted by Rev. H. R. Grant Thursday afternoon.

His parents have the sympathy of a whole community in their deep sorrow.

FROM HIS TEACHER.

Coal Creek, May 29, 1907.

Dear Mr. and Mrs. Thomson:

The deepest sympathy is felt for you in your terrible loss by the pupils, trustees and teachers of the school.

We all grieve with you, for we, too, knew what a dear, good boy Frank was.

The many expressions of deep sorrow from the little children show how dearly beloved he was by all his playmates. His diligence and goodness, and, above all, his loving kindness, endeared him to pupil and teacher alike. Words cannot express our grief at your sad bereavement. All we can say is this: "He was good, and we all loved him."

In deepest sorrow for your dear son and my dear pupil, I am, yours on behalf of the little school children,

LILY T. KEITH.

CORONER VISITS THE SCENE.

Coroner Bleasdell went up to Coal Creek to investigate the drowning accident, but found it unnecessary to hold an inquest. It appears that the log the boy used as a crossing was a very dangerous way of getting over the stream, and Mr. Bleasdell condemned the carelessness of leaving such a trap in place for children to cross over.

Dr. Keith examined the body of the little boy as soon as he was taken out of the water, and as there was very little water in the lungs it is probable that he lost his life from a severe blow from contact with rocks in the stream.

FUNERAL OF THOMAS MARKS.

Most Largely Attended Ever Held in Port Arthur.

Port Arthur, Ont., May 25.—The funeral of George T. Marks held Saturday afternoon was the most largely attended and impressive funeral ever held here. The funeral was conducted by the city. The remains reposed in state in the city hall from 10 to 2 p. m., and were viewed by hundreds of townspeople and strangers. At 2 o'clock the procession left the hall, headed by the band playing the dead march in Saul; following the band were the fire brigade and the regiment, and following the hearse, all of the city council, electric commissioners, city and government officials. The floral tributes included some most elaborate pieces, and filled high a wagon following the hearse. The pall-bearers were all old residents of Port Arthur, Messrs. Ray, Burke, Langworthy, Nelson, Munroe, Graham, Nigars and O'Connor.

The streets along which the cortege moved were lined by thousands of people, and the vicinity of St. John's church was black with a mass of humanity. Rev. Mr. Hedley read the solemn burial service of the Church of England. Shortly after leaving the church rain, which had threatened, fell in a downpour, preventing many from continuing on to the cemetery, though, despite the heavy rain, many followed the remains of Mr. Marks to its last resting place and participated in committing them to the ground.

The deceased was a nephew of our well-known fellow townsman, S. Marks, of West Fernie.

COUNTY COURT.

The following cases were disposed of before His Honor Judge Wilson at the sittings of the county court held here on Wednesday:

Monaghan etc al. vs. Lynch and McKenzie—Action upon a woodmen's lien for wages. Non-suit. Ross for plaintiffs, Eckstein for defendants.

Stevenson vs. Lynch and McKenzie—Action transferred from the supreme court for debt of $440.30 and counter claim of $249.40. Judgment reserved. Ross for plaintiff, Eckstein for defendant.

Trites vs. Garroan—Action for $52.00 debt. Defendant did not appear, judgment for plaintiff. Herchmer for plaintiff, Eckstein for defendant.

Kinney vs. Spalding—Action upon note; defence want of consideration; judgment reserved. Eckstein for plaintiff; Ross for defendant.

Vargo vs. Peach—Postponed until next court. Eckstein for plaintiff; Ross for defendant.

FAREWELL SERVICE.

As had been previously announced, Rev. H. L. Kempton preached his farewell sermon Sunday evening last. The services throughout the day were well attended, and in the evening the attendance was unusually large. The text chosen was from 2nd Timothy, 1st chap. 12th verse.

On Monday evening following, the members and friends of the congregation assembled in the church to say good-bye to their pastor. Many expressions of regret were passed on the occasion of the gathering, but coupled with this was the gift of a purse of gold to Rev. Mr. Kempton, while his most estimable wife was presented with a beautiful silver tea service, showing in a slight measure the appreciation of the Baptist people of the valuable work their beloved pastor had rendered in the accomplishments of the high standing in which the church is at present. Those of our citizens living in Fernie during Rev. Kempton's pastorate, and who, having his acquaintance, know him to be a man possessed of sterling character, and in his high calling will be found a shining light in any community in which he may labor. In every work that was for the uplifting of mankind he was diligent, and was ever willing to give a helping hand to those in distress. In going to his new field of labor in Vermillion, Alta., the people of Fernie commend Rev. Kempton, and wish him the success there that he has attained here. On Tuesday evening the start was made for their new home, and a large number of citizens were at the station to say farewell. The Ledger extends best wishes for their success.

Rev. I. C. Williamson and family arrived in the city Thursday morning and will settle down as permanent residents of our city. Rev. Williamson has been of late supplying in Winnipeg, and comes to Fernie highly recommended, not only as a fluent speaker, but a man among men. The Baptist people are to be congratulated on their happy choice.

THIS IS BETTER.

A tremendous sensation is being created by the announcement that Morris Friedman, private secretary of the notorious James McPartland, unable longer to stand the burden of the crime with which his mind was associated in connection with the Pinkerton work, turned spy upon the race of spies and exposed the work of the "inner circle" of the Pinkerton detective agency. Friedman gives original letters, documents, cash received, names and othir data relating to the operations of the thug agency among the unions.

WILL TAKE SOME HIMSELF.

It is reported that the powers that be have agreed that no indictment papers shall be served upon United States Senator Borah until June 17, when it is expected that the Haywood trial will be concluded. Should the Haywood trial still be occupying the attention of the court and jurors, it is understood that the serving of the indictment papers on Borah will be further postponed. Borah is accused of being connected with the Idaho land graft and is the principal prosecutor of the miners.

QUOIT COMPETITION.

In the quoit pitching contest at Coal Creek last Saturday there were so many contestants that the finals had to be pitched Monday evening, when John Myers took the first prize of $10.25; Dan ——— 2nd, $11.25; A. Waugh, 3rd, $6.25, and Beade 4th, $4.25.

The game between Dick Ray and Wm. McKay for a purse of $50 was won by Ray, who scored 41 against 3, by McKay. This contest created great interest and was witnessed by 200 people. The calipers were made use of several times to determine the winning quoit.

SATURDAY, JUNE 1, 1907

WE PASS IT UP TO CRANBROOK.

There is excellent prospect that The Pass will soon have one of the greatest conveniences that could be afforded it, namely, a long-distance telephone line through the entire Crow's Nest Pass and affording telephone communication between all parts of the province of Alberta and British Columbia.

If there is realization of the prospect, it will be brought about through the consummation of a project whereby the Cranbrook Electric Light company will build a line to Crow's Nest and the Alberta government will extend the line it is now building to The Pass to Crow's Nest, the two lines connecting at that point. There is good probability that the project will materialize.

The Cranbrook company has a water power plant near Cranbrook from which power is to be supplied to Cranbrook and other places along the Crow's Nest line. One phase of its scheme of operations is to build a long-distance line through the Crow's Nest Pass, or through that portion of it lying in British Columbia. The line is now built as far as Elko and it is the intention to extend it to Crow's Nest.

The Alberta government, as is shown, is building a line to The Pass from Calgary. It was originally intended to make Frank the western terminus of the government line, but it has lately been decided to extend this line to Coleman, which would leave only about eight miles to build to make connection with the Cranbrook company's line. Representatives of the company will visit Edmonton in a few days to endeavor to induce the government to build to Crow's Nest and connect. Since it is so manifestly the disposition of the Alberta government to afford the people of the province the greatest possible benefits from its public works programme, there is little doubt that the new proposal will appeal to it sufficiently strong to warrant a decision to carry the line to the boundary.

One gratifying phase of the proposition is that if the scheme materializes at all it is most likely to come within the year, as the government is pushing work on the line it is building to The Pass. The pole line from Calgary south is well under way, with the poles up about half the distance. The holes are dug to Macleod and from there to Frank, and it is the intention to have the line in operation by fall. The Cranbrook people expect to reach Crow's Nest about the same time, and therefore if the through line is opened it will most likely be ready before winter.

The consummation of the project would be of the greatest possible benefit to not only the people along the Crow's Nest line, but to the whole public of Alberta and British Columbia, as the government's scheme is to give connection with all parts of the province, while the Cranbrook people expect to ultimately extend west to the coast, or at least to a connection with the coast. In view of the well night impossible service of the C. P. R. telegraph, which does not permit of a resident of The Pass sending a message a hundred miles and getting a reply inside of two days, the ability to transact business by telephone with any part of either province would be a boon indeed.—Frank Paper.

THREE GLIMPSES OF FIFTEEN CENTS.

Three small cottages, exactly alike, stood in the glaring heat of an August sun. Toward them walked three young workmen, carrying dinner pails.

First Glimpse—

As workman number one turned in at the first cottage, a tired mother's face brightened at the sound of his footsteps. Gently she put aside four clinging little hands and hurried to the door to greet papa with a kiss.

Papa gave her a peck on the cheek, in return, growled something indefinite at the babies, dropped heavily into the one rocking chair and sent the elder baby after a glass of water while the second toddler brought his slippers.

The wife stood longingly at his side brushing the damp hair from his forehead. If only he had drawn her down into his lap and cuddled her for one brief moment, all the dark cares of the day would have dropped from her shoulders like a heavy mantle.

He lighted his pipe and busied himself in the evening paper until supper was served.

Rested and refreshed, he sauntered around to the nearest barroom, where he paid 15c for a mug of superfluous beer and the social privilege of cracking jokes with his mates until bedtime. Meanwhile the babies slept. The little mother sat alone in the long twilight and no one but God saw her tears.

Second Glimpse—

As workman number two opened his door, a loving smile searched out a frowsy young wife and a sickly babe. He kissed them both, drouped fifteen cents into the frowsy one's lap.

"Thank the Lord," said she, "I feel as if I'd die if I couldn't git away from this squallin' kid onct in a while. You take her, an' I'll go and git ready right away. The girls is expectin' me. She's cried the hull blessed day."

The father took the fretful little one and gave her a cool bath. Then he spread a quilt in the shade of a tiny back porch, laid the babe upon it, and fanned her to sleep.

The frowsy one hurried into her cheap finery, topped her enormous "pompadour" with a flowered hat, waved a soiled glove at her husband, and left for her outing with "the girls."

A glass of soda water and a ticket to a ten-cent show disposed of the 15 cents.

Late in the evening she returned to the untidy home, more than ever discontented with the responsibilities of married life and motherhood.

Third Glimpse—

Workman number three was waylaid on his own doorstep by two small brigands who grabbed him by both knees, but his laughing first kiss was for the little wife.

"Have you had a hard day, darling?" The day had been unusually hard with the heat, the ironing and the care of two lively boys, but all at once the memory of its weariness left her mind.

"It seemed hard before you came, dearest, it doesn't seem so now." He swung both youngsters to his broad shoulders.

"I'll get cleaned up and dress the kiddies, while you put some bread and milk and cookies into the dinner pail. We'll have our supper in the park!"

The youngsters gave a squeal of delight. "But, John, you've lunched once today, you—" He interrupted her gaily—

"It will cost 15c to ride three miles, eat supper by the cool waters of the lake, visit the animals"—another squeal from the youngsters—"and listen to the music—three, and three fourth cents apiece. Isn't that cheap enough? At bed-time I'll put you and the babies on the car, and I'll walk home. Come, kiddies, a race for the bathroom!"

In the cool of the evening two happy boys and a little mother with a glorified expression, boarded the car and waved their little hands to a strong young workman, who swung away in the moonlight as if he might beat them home.

ANNA A. POWLESS in The Public.

THE NEW INQUISITION.

Trinidad, Colo., May 13, 1907.

Editor Mine Workers' Journal:

A few days ago a book entitled "Pinkerton's Labor Spy," just out, was handed the writer which gives an account of the war of the Pinkerton agency and its operatives within the organization during the Colorado strike both of the coal and quartz miners.

The book mentions a man named Robert M. Smith, an organizer for the United Mine Workers, whose loyalty to the union movement was beyond the slightest question. This man was always acquainted with the policies and schemes perfected to reach the men prior to the strike. He enjoyed the confidence of the men sent to Colorado, and those who were residents of the state, representing the organization. To this man can be attributed, to a very great degree, the failure of the Colorado coal strike. A casual perusal of the book will prove the above statement. His reports to the Pinkerton agency were of a detailed character, giving minute accounts of the work of conventions, as well as personal conversations held by the officers, other persons and himself. The leak in strike headquarters through which the information so accurately reached the officers of the coal companies of the movements of the officers and their programmes can be traced by any one who may look over the "Pinkerton Labor Spy" to this blackguard. Our friends, Farley, Mooney, Evans and Hardjon, may be interested in knowing who the men were that were instrumental in the brutal beatings sustained by them while in Colorado.

The other operative within the ranks of the mine workers, and who also shared the respect and confidence of the men in charge, was named Strong, came from Fremont county, and was a special friend of Board Member Gehr. But neither of the rogues knew the real occupation of the other.

Another whose business it was to take care of the men sent to Rock Springs, Wyoming, to organize was a man by the name of Williams, whose work in thwarting all attempts made to organize that camp were successful. This vampire seems to have become so weighed down or conscience-stricken by the blackness of his sins that he fell to drinking and lost his commission.

This story was divulged by a man who has been connected with the Pinkerton agency.

The above revelations will account, in a large measure, for the fruitless expenditure of money, time and energy, up to the present time, in Southern Colorado.

If these men were to get what is justly due them a large "T" would be branded on each cheek, indicating traitor. Very truly yours,

JOS. SHARP.

So long as employers resort to the detestable spying system, there can be no confidence between employers and employees. To pretend friendship for the laborer and at the same time set spies in his camp, is the meanest kind of hypocracy, which will breed nothing better than crops of discontent and auspicion between parties, where confidence and respect should reign.

The most despisable man is he who plays eavesdrouper, and this modern eavesdropping, reduced to a calling in which men are trained to deception, has become one of the curses of the business and industrial world.

An eavesdropper or a spy is only the more despisable because he makes it a business and does it for pay.

Many corporations employing large numbers of men adopt the spying system and put it in practice among their men, especially when the men are members of unions.

By this despiseable method they become possessed of knowledge which does not belong to them—steal it as it were, and the men from whom it is stolen can not entertain a very exalted opinion of their honesty.

From robbery of this kind to robbery of wages is only a short step and the man who knows he is being robbed of the one can be easily led to believe he is being robbed of the other by the man or management that will stoop to the low level of the eavesdropper.

With coal, iron, oil and gas, Southern Alberta will be the Pennsylvania of Canada, and Lethbridge will be the Pittsburg. Who will be the Carnegie.—Southern Alberta News.

Yes, and who will be the Thaw?

PALE AS A CORPSE.

Dr. Williams' Pink Pills Brought Back the Ruddy Glow of Health.

Thousands of young growing girls have pale, pasty complexions, distressing headaches, backaches and sideaches. Sometimes they are unable to sleep; their nerves are unstrung; they are languid, breathless, and the heart palpitates violently at the least exertion—that's anaemia—and it may develop into consumption unless promptly attended to. Anaemia means bloodlessness. Dr. Williams' Pink Pills make pure, red blood—that's the secret of their success. Miss Winnie Allen, Montreal, Que., says: "I was so weak and run down that my friends thought I was going into consumption. I was as pale as a corpse, had no appetite and did not sleep well. The least exertion tired me out, and if I walked a few blocks I was almost breathless. My sister advised me to take Dr. Williams' Pink Pills, and after using them for a few weeks, I am again enjoying good health and have a good color. I think every weak, sickly girl should take Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills make new, rich blood, and in this way strike right at the root of such troubles as anaemia, indigestion, rheumatism, St. Vitus dance, the secret ills of girlhood and womanhood and a host of other every-day troubles and cure them. But you must get the genuine with the full name, Dr. Williams' Pink Pills for Pale People, on the wrapper around every box—imitations never cure anyone, and sometimes they do much harm. If your dealer does not keep the genuine Pills they will be sent at 50c a box or 6 boxes for $2.50 from The Dr. Williams' Medicine Medicine Co., Brockville, Ont.

SORE, ACHING FEET

Soothed by Zam-Buk.

Men, women and girls engaged in stores, who have to be on their feet all day, often suffer agonies from chafing sores, soft corns, horny patches, etc. In other cases long standing and walking leads to bad leg, varicose veins and ulcers. Zam-Buk takes the pain out of chafed sores, prevents suppuration and poison from stocking dye, and generally heals.

Mrs. K. Watkins, of 26 Forgue avenue, Montreal, says: "My boy had a sore on his heel which was rubbed by his stocking until it became a very bad wound. Zam-Buk took the soreness out almost instantly, and healed the wound up wonderfully."

Zam-Buk is equally good for cuts, bruises, eczema, scalp sores, itch, barber's rash, blood poison and all skin injuries and diseases. All stores and druggists sell at 50c a box.

Has Stood the Test

The approval of the public is the final test of merit. This is the reason

NEW TRAINS, NEW TIME.

The through train service over the Soo, C. P. R., Crow's Nest and Spokane International route through Fernie is scheduled to begin June 17.

Through connections will be made at Spokane for Portland. The trains will be the best equipped of any crossing the continent, and they will have all the devices which have been invented in recent years for the purpose of making travel by railway train comfortable. On each car will be the words "Soo-Spokane." Six new trains for this service are now in process of completion, and as soon as they are finished they are put into service on the Soo line to be broken in. Each car as completed will make two trips on the present lines of the Soo, and will thus be thoroughly tested before being used on the through trains. All the sleeping cars of this class used on the Soo-Spokane line will be given names beginning with the letter "V." That arriving at Winnipeg this week was the "Viking." Next week there will arrive the "Venice" and the "Velva."

This will add one train a day each way through Fernie, and will bring by our doors many more travellers than passes us on the two Crow trains.

When the Kootenay Central shall have been constructed between Elko and Golden, still more trains and freight will pass this way. Add to this the extension of the G. N. from here to Calgary, and Fernie will be the greatest railway centre between the mountains and the coast.

The new Soo-Spokane train which starts on its regular run about the 17th, will pass through Fernie at 1.05 a.m., making only two stops between here and Medicine Hat—Macleod and Lethbridge. The time to Macleod will be three hours and the run to Medicine Hat will be made in eight hours.

The new westbound train will leave here at 7.45 a.m., and stop only at Cranbrook between here and the Landing, making fast time on its run to the west.

The regular Crow line service will remain practically the same as it is now.

THE LAST SHALL BE FIRST.

The new Japanese labor party's programme includes opposition to monopolies and favors universal male and female suffrage, a general increase of wages and reduction of hours, the abolition of capital punishment and of titular distinctions, fundamental reform in taxation and arbitration of all international disputes.

That is a pretty good platform for any party to stand on, and when we consider that it is the platform of a labor party in a country which half a century ago was a land of oppression and ignorance, we begin to realize at what a rate the human race is travelling in the direction of reform. It is also worthy of note that even in Japan the leaders of reform are the intelligent working classes.

SOMEWHAT STUCK UP.

Did you ever notice that if weather conditions were particularly severe elsewhere, generally, all over the country, by the time the cold wave or hot wave, or electrical storm or what not, reached Phoenix, it moderated so that it was not nearly as objectionable as in other places and localities. It seems queer, but it is a simple fact, nevertheless, and is something which Phoenicians can be thankful for.—Phoenix Pioneer.

We had not noticed it, but we have noticed that some people are thankful for very small favors. Phoenix is so high up in the world that even an electrical storm gets tired before it gets up the hill. They are awfully stuck up," those Phoenicians.

MUST HAVE BEEN WOMAN'S.

The longest distance the human voice has been transmitted is believed to be from Montreal to Winnipeg, 1,430 miles, over a special copper wire along the line of the Canadian Pacific railway. This wire, which has intermediate connections only at North Bay and Ft. William, was installed by the railroad company for its telegraphone system, by means of which two messages, one by telephone and the other by telegraph, can be transmitted simultaneously over the wire. A number of tests have been made of the new outfit, it being found quite easy to converse from end to end of the line, while at the same moment, operators at an intermediate station (Ft. William) were sending a telegraphic message to Montreal.

ARE YOU ONE?

John Wanamaker says—"If there is one enterprise on earth that a 'quitter' should leave severely alone, it is advertising. He should know before he begins it that he must spend money—lots of it. Somebody must tell him, also, that he cannot hope to reap results commensurate with his expenditures early in the game. Advertising don't jerk; it pulls. It begins very gently at first, but the pull is steady. It increases day by day and year by year, until it exerts an irresistible power."

NOT THE SAME.

A mountaineer of one of the back counties of North Carolina was arraigned with several others for illicit distilling. "Defendant," asked the court, "what is your name?"

"Joshua," was the reply.

"Are you the man who made the sun stand still?"

Quick as a flash came the answer, "No, sir, I am the man who made the moonshine."

DEPARTING GLORY.

The old-time round'ups on the prairie are fast dwindling away and loosing their pomp and splendor. This year the outfits met at eight-mile lake, there being represented the Circle, Bar U, Oxley, Cowdry and Mansell, and the Little Bow outfits.

The job of gathering the cattle this year will be a difficult ont, as the severe winter has driven them far out of their usual ranges, and many cattle have drifted across the International line.

A few more years and what was once an extensive range business will have dwindled to nothing.

Bob Moore's Dream of Future Bliss Has Now Been Realized—It is a Man.

SAFETY FOR CHILDREN.

Baby's Own Tablets contain no opiate, no narcotic, no poisonous drug. The mother who uses these Tablets for her children has the guarantee of a government analyst as to the truth of these statements. This medicine can therefore be used with absolute safety, and it always cures such troubles as indigestion, sour stomach, constipation, diarrhoea and colic. The Tablets cure simple fevers, break up colds, destroy worms and make teething easy. Mrs. W. H. Young, Rodlin, Ont., says: "I have used Baby's Own Tablets as needed for mort than a year and would not be without them in the house. They are just the thing for teething babies and other minor ailments." The Tablets cost only 25 cents a box and may be had from medicine dealers or by mail from The Dr. Williams Medicine Co., Brockville, Ont.

BRITISH COLUMBIA TIMBER REVENUE

The revenue of the province of British Columbia for the fiscal year ending June 30, 1906, was $3,044,442.49. Of this amount $306,076.66 was received from the Dominion, and the remainder was contributed from local sources. The largest item last year was from timber royalties and licenses, the amount being $509,043.44, a gain of nearly 100,000 over the previous year. Timber leases yielded $10,499.83. Thus the timber industry contributed in all $609,543.25 to the revenue. From lands, including survey fees and rents, $301,678.48 were received, making the revenue from the two sources of timber and land $911,221.75, or nearly as much as the total revenue of the province ten years ago. This clearly indicates the rapid development of the province. The chief sources of revenue are as follows: Direct taxation, $616,074.31; from timber, $609,543.27; from mining, $440,686.39; from the Dominion, $306,976.66.—B. C. Lumberman.

A Cough Medicine

Ayer's Cherry Pectoral is a regular cough medicine, a strong medicine, a doctor's medicine. Good for easy coughs, hard coughs, desperate coughs. If your doctor endorses it for your case, take it. If not, don't take it. Never go contrary to his advice.

Ayer's

We publish our formulas
We banish alcohol from our medicines
We urge you to consult your doctor

The dose of Ayer's Pills is small, only one at bedtime. As a rule, laxative doses are better than cathartic doses. For constipation, biliousness, dyspepsia, sick-headaches, they cannot be excelled. Ask your doctor about this.

—Made by the J. C. Ayer Co., Lowell, Mass.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

Placer mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $1000.

W. W. CORRY,
Deputy Minister of the Interior.

NEWS OF THE CITY

W. R. Ross, M. P. P., returned from Victoria Tuesday evening.

Mr. and Mrs. J. C. Silverman, of Frank, were in the city on Tuesday.

Mr. and Mrs. James R. Lawry have moved into the Stork residence.

A. R. McRae, of Frank, was in town Tuesday. He expects to accompany J. A. Bricker on his northern trip.

C. W. Davey arrived in the city Friday morning, after an absence of several weeks at Edmonton and Calgary.

Mrs. McKinley, widow of President McKinley, died at Canton, Ohio on the 26th inst, after a stroke of paralysis.

President Sherman is at Taber and Lethbridge in connection with the investigating commission now in session at Lethbridge.

Rev. George Kinney, of Michel, has been in the city a day or two this week, and will take the morning service at the Methodist church tomorrow.

A brand new Irishman arrived at the Waldorf Wednesday, and is registered as Bob Moore, Jr. He brought with him the usual Irish thirst for a fight.

Mrs. Gus Rochfort came down from Frank to act as godmother for little Miss Mildred Syble Barnes, granddaughter of Mr. and Mrs. Reading, of this city.

Mrs. G. G. S. Lindsey was at home to a few friends on the 24th of May. Bridge was indulged in during the early evening, and afterwards dancing was the enjoyment of those present.

J. A. Macdonald, secretary, John Galvin, vice-president Dist. 18, are at Hillcrest, and will endeavor to arrive at some understanding with C. P. Hill, manager of the mine at that place.

Board Member Sullivan, of Michel, left Wednesday evening after the session of the district board, and Mr. Morgan, of Bankhead, and Miller, of Lethbridge, left for their homes Thursday evening.

The music furnished by the Moore concert company for the social dance after the entertainment last Monday night was the best that the dancers of Fernie have had the pleasure of dancing to for a long time.

Dr. R. Stanhope Gladwin, of Providence, Rhode Island, arrived in town last Sunday and has gone to Waldo where he takes charge of the medical practice at all the mills in that locality, under Drs. Higgins and Cartwright.

Oscar Kirkpatrick and family will leave in a few days to take up their abode in Nelson. Mr. Kirkpatrick has been a resident of Fernie for nearly eight years, and leaves many friends behind who will wish him and his family success in their new home.

Parents should bear in mind that the curfew bell rings every night now at 9 o'clock, and all children are expected to be at home by that time. Do your duty as parents, and the police will have little to do to see that the ordinance is properly observed.

Willie Corson is going about all tied up. He had been scaling the high wire fence in the park and took a tumble from the top and got a scraping acquaintance with all the wire in the fence as he came down. No very serious damage was done, however.

Charles Klingensmith, of the Elk hotel, Elko, was in the city yesterday. An addition is to be built to the Elk hotel, adding ten more rooms which the increasing business of the hotel renders necessary. Digby and Waldie have the contract and will begin operations at once.

As yet nobody has had the courage to take up the challenge of the printers to a game of baseball. The nearest to an acceptance so far has been an offer from that tough butcher crowd to play a game of football. Are there no sports left in town after Bob Moore has reached the state of daddyhood?

The C. P. R. announce on June 2, when summer time card becomes effective, they will run a sleeper, Banff to Vancouver, daily. Several sections of this car has been reserved for the accommodation of the Kootenay passengers. Berths can be secured through the Nelson city office, or J. S. Carter, D.P.A., Nelson, B.C.

Matthew Bennie, aged 27 years, died of typhoid fever in the Fernie hospital last Saturday after an illness of several weeks. He was buried from [illegible] Ross on Sunday, Rev. H. R. Grant conducting a short service. Matthew Bennie leaves a brother at Michel and a wife and one small child in Scotland.

Ross Ruttan died at the home of his parents at the Cedar Valley mill last Saturday. The young man was but 21 years old, and his sudden death from acute pneumonia was a great shock to his family. Mr. and Mrs. Ruttan left Sunday morning with the remains, which were shipped to their old home at Enderby for interment. The family have the sympathy of a very large circle of friends in their bereavement.

Wm. Wilmot returned from Seattle Wednesday morning. He reports everything to be lively in and around the big Sound city.

International Board Member Patterson is feeling better again, and is able to be in attendance upon the meetings of the district board.

J. H. Gray, late of Kewatin, Ont., arrived in the city this week with his family, and will take a position in D. Quail's hardware store.

Work has begun on the construction of a concentrating plant of 200 tons capacity for the treatment of ore from the Blue Bell mine at Pilot Bay on Kootenay lake.

The monthly tea of the Ladies' Aid of the Methodist church will be given by Mrs. A. B. Trites at her residence on Howland avenue on Tuesday, June 4, from 3 to 6 p.m., and 8 to 10 p.m.

Seth Thornley, of the Pincher Creek Echo staff, has been in town for several days visiting friends. He reports fall wheat looking fine in the Pincher Creek district, and business good in all lines.

The Sunday morning service at the Methodist church will be conducted by the Rev. G. Kinney, of Michel. In the evening a song service will be given, commencing punctually at 7.30 p.m., folowed by a gospel address delivered by Mrs. (Rev.) Lashley Hall. All very welcome....

President Sherman, Vice-President Galvin, Secretary Macdonald and Board Member Morgan and Sullivan arrived in town Wednesday morning to attend a meeting of the district board of District 18, U. M. W. of I. All the members except Graham, of Coleman, and Miller, of Lethbridge, were present.

Bowling seems to be the rage now, and everybody has the disease. The fence along the court house grounds is lined every evening with a crowd of spectators, who watch the progress of the games while the playerss are totally oblivious to the balance of the world. When darkness settles down on the spot electric lights are turned on.

Mrs. F. C. Lawe entertained a number of friends on Wednesday evening at her home on Howland avenue. The rooms were decorated with flowers and evergreens, and the guests enjoyed a game of cards the first part of the evening, and after partaking of a dainty little supper, dancing was indulged in until the clock grew stingy with its chimes.

It is stated that the $101,250 which the G. T. P. agreed to pay to the 200 Metlakalitta Indians for the 13,500 acres of land on Kaien and Digby islands, is now ready, and half of it is to be paid at once to those over 21 years old, and the remainder to be held in trust, the interest to go to the younger ones of the tribe as they arrive at the age of 21 years.

The first sitting of the coal commission was held at Lethbridge last Tuesday. From there the commissioners will go to Coleman, thence to Bankhead. While the commission is at Lethbridge, the evidence from Taber will also be heard. Hon. W. H. Cushing will attend the initial session and will then visit the various points in the south in the interests of the public works department.

According to an authorized statement by Mayor Ashdown, of Winnipeg, published a day or two ago, the total debenture and floating debt of that city is about $12,500,000, or as much as the total indebtedness of the Province of British Columbia, and still those Winnipegers are howling about the high price of lumber. People who can afford such luxuries as $12,000,000 indebtedness should not be so nigardly about the price of a board or two.

THE MASTERPIECE OF MIRTH.

The Bad Boy in Story and on the Stage.

When George W. Peck was applied to for the sole permission to dramatize his phenomenally successful "Peck's Bad Boy," written a short time prior to his election as governor of Wisconsin, he consented to entertain the proposal provided the book was satisfactorily dramatized and the play, under the title name, staged in first-class style and in the manner that would receive the approval of good people and the press. Twenty years of continuous and enormously popular production are behind the farce comedy of "Peck's Bad Boy," which comes to the Stork opera house on Tuesday, June 4, to prove not only the governor's entire satisfaction with the theatrical result, but the spotless delight that countless thousands have found therein as well. The play not only differs essentially from the Buster Brown and other inferior imitations thereof, none of which are original, and, therefore, must be relegated to the second class, but the current version has been rewritten, in order to admit of the introduction of additional mischief, mishaps and incidents from the governor's inimitable story and of a stronger cast and many exceedingly novel and attractive features. It is now as perfect as combined genius, versatile talent, long practical experience and abundant outlay can make it.
