PRICE 10 CENTS

EUROPEAN WAR THREATENS TO COMPROMISE ALL THE NATIONS OF THE WORLD

GERMANY AND AUSTRIA REPULSED ALL ALONG THE LINE
UNITED STATES OFFER TO MEDIATE. TWENTY
THOUSAND CANADIAN TROOPS TO
LEAVE FOR ENGLAND

Vancouver, Aug. 6, 2 p. m.— (Special to the Herald)— The European situation appears very one-sided, Russia, England, France, Servia, and Belgium, all at war with Germany and Austria.

King Albert of Belgium yesterday addressed his troops from the Palace steps in Brussels, declaring his intention to defend the honor and independence of Belgium against her perfidion and haughty neighbor Germany.

Practically all the small nations of Europe have declared war against Germany and Austria seeming to consider this the only means of preserving their sovereignty.

The hottest news of the wire say that German warships is reported to have destroyed 45 towns and places for embarkation of French troops on Algerian coast.

And now President Wilson of the United States has sent a wireless message to Emperor William offering to act as mediator in the present tangle. The United States have also despatched the armored cruiser Tennessee from New York with twenty-five million dollars to assist Americans stranded abroad.

According to the latest reports from St. Petersburg the Russian patrols have penetrated into Germany defeating many bodies of German cavalry and driving them before their onward march.

King Albert of Belgium has

mobilized his army and today invaded Germany. The King has placed his palace in Brussels at the disposal of the Red Cross Nurse.

Last night's late reports confirm naval battle in North Sea; but give no particulars; however as the Russian warship 'Virago' received instructions to prepare to receive two hundred wounded and prisoners it is believed that the naval engagement was between Russia and Germany. Puller reports of this will be given in tomorrow's issue.

Germany and Austria seem to be besieged on all sides and have both suffered any repulses. The Servians defeated the Austrian army near Belgrade, and a large number of Russians were killed, wounded and captured. The recent reports of the capture of a German battleship has been contradicted. Germany sent ultimatons to Italy.

The latest Canadian news is as follows:

From Winnipeg Col. Sir James Atkins says that he will raise a whole brigade for service in a short time to be placed at the disposal of the English army. Regina is ready to supply twenty thousand horses for use of war if wanted.

Lady Drummond has offered to support trained nurses at her own cost.

J. K. Ross Montreal millionaire has offered to equip an entire regiment at his own cost.

Canadian troops to the number of twenty thousand will leave for England in a few days equipped for active service.

German Navy Bombarded and Destroyed Wireless Station at Glace Bay Nova Scotia

German Mediterranean Fleet Destroyed by French. English Badly Cripple North German Fleet

Special wire to the Herald reports the Germans have bombarded and destroyed the wireless station at Glace Bay, Nova Scotia. This is a small fishing station on the coast of Nova Scotia, the receiving station of all European messages.

Another report advises that the French Navy have completely destroyed the German ships in the Mediterranean Sea, and that the North German Fleet is badly crippled. Had England declared war 48 hours earlier the entire German Fleet would have been bottled up and destroyed in the Baltic and Northern waters rendering that country absolutely harmless by sea and only her land forces to deal with.

With the German Fleet destroyed and with French troops re-enforced by troops landed from England and the Russian on her frontier would simplify the situation and put Germany at the mercy of her foes.

The United States Government has ordered the mobilization of her entire army and navy with the reserves from the States to protect the borders and outlying territories and to conserve the interests of the Monroe Doctrine on the American continent, from German aggregations.

The French Armies have repulsed German advances into French territory with great loss and captured many German troops. One German General so chagrined at the reverse sustained by his troops committed suicide rather than surrender to his French captors.

The Belgian Army also met repulse the Germans defeating two regiments and capturing the entire force remaining of the Germans.

Austria has thus far seemed to devote her entire attention to Servia leaving Germany the herculean task of meeting Russia, France and England and Belgium.

Even Switzerland has been drawn into the struggle by the action of Germany seizing one of her towns on the Frontier for an outpost.

Italy it is reported has thus far remained neutral although it was feared in the beginning that she would take side with Germany and Austria.

Mr. Campbell our well-known grocery merchant has been undergoing an operation for appendicitis. He is now rapidly recovering his strength.

Anderson Knocks - Out Hodgson in Six Rounds

**Halliday Serves His Adversary Cole
in the Same Manner**

A fast and clever mill was staged in the Ritts-Kifer Hall, on Monday night, between Harry Anderson and Dan Hodgson. Hodgson looked like a winner when he stepped into the ring being well-built and muscled, and appeared much heavier than his opponent. Anderson stepped into the ring in his usual calm and confident manner, and seemed to have no fear of his adversary.

During the entire fight Anderson was cool and quick, dodging the heavy swings of Hodgson and landing at will to the jaw and face until finally he knocked his man out in the middle of the sixth round. Anderson received a hard one to the kidneys, but came out without a mark while Hodgson is fit for the Hospital. Hodgson is a plucky boy and took a lot of punishment, declaring afterwards that he was not in training.

THE FIGHT BY ROUNDS

1.—The first round ended even, both men feeling each other out. Anderson does some clever foot work.

2.—The second round was Anderson's by a wide margin. Hodgson played for a knock-out but Anderson is too quick for him, Hodgson swings wide.

3.—The third round was also Anderson's by a narrow margin. Anderson played right up to the big man and found the face three times in quick succession. Hodgson's right to the body three times.

4.—Round ended even. Both men were sparring for an opening Anderson landed to the face, but received a bad one to the kidneys.

5.—This was also Anderson's by a wide margin. Hodgson was groggy and collapsed but got to his feet again—His left eye was almost closed and his lip cut badly.

6.—Anderson came in fast and landed to the face in quick succession pushing his man to the ropes and with a right facer sent Hodgson to the floor for the count.

Anderson's victory was greeted with cheers by the crowd, and he seems to be getting quite a popular boy.

Jack Robarts refereed the match and was entirely satisfactory.

A six round preliminary preceded the main bout, between John Cole and Len Halliday. Cole although much larger than Halliday was a novice at the game and showed it by swinging wild and wasting his wind. Len stepped away from the hay-makers and drove to his face several times—keeping Cole balanced on the ropes till in the sixth round Halliday had his man almost in tears and Bert Hughes the referee declared Halliday the winner.

Royal Dominion and British Columbia Indian Commissioners at The Northern

The Hon. N. W. White, K. C., Chairman Royal Indian Commission; Dr. J. S. McKenna, L. L. D., and T. A. Carmichael, members of the Dominion Commission with Hon. J. P. Shaw, M. P., and D. H. McDonald, representing the British Columbia Indian Commission were in town the past week at the Northern Hotel accompanied by W. J. McAllan, Indian Agent for this district and Major McGraw, Inspector of Agencies for the South Eastern district of this Province.

The party also consisted of Mr. J. S. McArthur Secretary to the Dominion Commissioners and C. H. Gifford, secretary to the Provincial Commission.

There are within the district about 1400 Indians and throughout the Province 24,000 under the care of the two commissions.

Vexing questions as to the care and maintenance arise constantly and commissioners are at this time going through the various settlements inspecting their conditions and taking notes and testimony that it is planned will assist the government in dealing by statute on an enlarged scale with their necessities. It is the white men's burden of the north as the colored question is the burden of the great republic to the south.

We were impressed as we talked with the commissioners with their grasp of the solution and their evident purpose to deal with these Indian questions fairly and justly and to the best interests of the Indians.

The commissioners left in their own car for the south having planned to return in the fall for an extended trip into the Peace River country, Fort Connelley, Fort Graham, Iverly Lake, Findly and Parsnip River and Buckley Summit and Fort Fraser territory presided over by agent McAllan.

FORT GEORGE DAILY HERALD

PUBLISHED DAILY AT THE HERALD OFFICE FOURTH STREET

EVENING EDITION—PRICE TEN CENTS

NORTHERN INTERIOR PRINTING CO., LTD.
PUBLISHERS

SOUTH FORT GEORGE, B. C. FRIDAY, AUGUST 7, 1914

ANNOUNCEMENT.

The management of the Herald will publish a Daily Newspaper during the war, in order to supply its reading public with authentic reports on the general European situation. It is not our purpose to continue definitely in the daily field, but should we find that there is need of a daily newspaper here, we will most assuredly supply the public with that need.

This being our first attempt we crave your indulgence.

EDITOR.

WAR

It was the American Sherman of the Civil War of 1861-1864, who said "WAR IS HELL" and so it is—a relic of the ages of savagery, when man fought for his physical existence, but to add to it, or to retain it in this age, when existence is so much more complex in its mental strife for existence, in the survival of the fittest in the wants of the world, is adding HELL in double measure.

And yet we have the four or five leading nations of the European concert grappling at each others throats in the bloody butchery of War, destroying lives and property in a few days, weeks and months perhaps, that has taken many years to construct and develop, at great financial cost as well as mental and physical travail and effort.

The situation is complex in the extreme; Germany seems with unanimous opinion of non-combatants to have precipitated the trouble, in fact, she seems to be the blameable party to the present situation in all Europe. For years spoiling for a fight and further aggression, she has during the past fifteen or twenty years, on more than one occasion nearly embroiled Europe in just such a struggle as is promised in the despatches to hand.

It were well if in the coming struggle, the situation shall be so cleared that for a generation at least there shall be no more war, or fear of war, in the European arena.

To attain this result it would seem as if it were necessary that Germany should come out of this struggle the defeated nation; Her pride shall then have gone before her fall indeed, and it is recognized by many readers of the signs of the times, that her people are not by any means a unit in this seeking of power and prestige by the war party of that nation. Germany we have long looked upon as the most advanced in culture and the fine arts, of all the European countries. Within her borders are men of all the professions most advanced in learning in the Sciences, Surgery, and Medicine—War is not to their liking, and as for the common people, the burden of armament and the aggravating arrogance of the military has long been a burning question that has more than once broken out in unseemly strife among the people.

Whatever happens in the war zone we shall hope it will clear up the atmosphere and do away with the constant mutterings and fears that has afflicted the business world for so long.

Among the happy outcomes of the many questions of the hour, we note with pleasure, that at home in England and Ireland - friends and neighbors for the moment have forgotten their troubles and differences in the Irish question and joined hands for the honor of the Empire, and in this we may see the blowing away in fraternal feeling; this vexed question and the saving of a situation that bid us look with fear and trembling for bloodshed among brothers. Let us hope that in the larger question of the European situation this home matter may find its solution and death to strife within the Empire.

Premier Borden to Tour Western Canada During September and October With Hon. W. T. White And Hon. L. P. Pelletier

Arrangements Now Being Made—Exact Itinerary Not Yet Decided Upon—Yukon Trip is Abandoned

Ottawa, Ont., July 31.—Arrangements for a tour of Sir Robert Borden in Western Canada are being made at the present time. While the itinerary has not yet been mapped out, the premier expects to leave Ottawa about September 8 or 9, and to return around October 22. He is returning at that time in order to bid farewell to the Duke of Connaught and to welcome Prince Alexander of Teck to Canada.

The present plan is for the premier to be accompanied by Hon. W. T. White and Hon. L. P. Pelletier. Mr. White intended to make a western trip last year, but owing to a pressure of business was unable to do so. He is thus planning to accompany the premier this fall and in order, as the finance minister, to get at first hand, views of Western Canada. Under the conditions, it is felt that there should be a Quebec cabinet minister included in the party, and Mr. Pelletier is the natural choice. There will likely be several private members accompany

the premier, though they have not been selected.

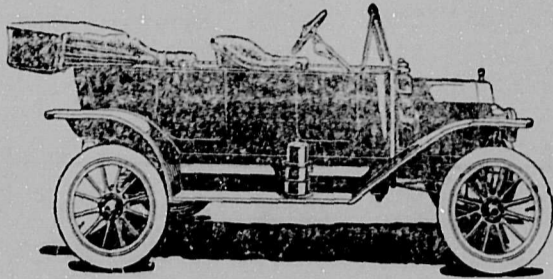

Some of the western members will also accompany the premier. The time is short and the ministers would like to cover as much country as possible.

It is probable that after a big Winnipeg meeting the ministers will divide, the premier will go one direction and Hon. Mr. White will cover another itinerary. The western ministers will divide, some going with the prime minister and others with Mr. White.

The exact itinerary will be arranged within the next couple of weeks, but Sir Robert will speak at all the larger cities in the western provinces, including Winnipeg, Regina, Calgary, Edmonton, Vancouver and Victoria. Whether he goes to Prince Rupert is a matter of time, but the proposed Yukon trip has, of course, had to be called off. As soon as the Hindu question is settled the premier will slip away for a few week's holiday before starting on his western trip

The Ladies' Auxiliary are preparing for a sale of work in Pool Room, Blair Block, on Thursday, August 20th. They have some fine articles made locally, some from the east and some from India and Scotland. A beautiful quilt (silk) is to be given to nearest estimate on a jar of beans.

EARTH TREMBLES IN NOVA SCOTIA

Buildings Violently Shaken—People Rushed into the Streets

Halifax, July 28.—Earth tremors which violently shook the buildings and so alarmed the inhabitants that in one place they fled from their houses fearing immediate collapse, were felt at noon yesterday on the southwestern shore of Nova Scotia, from Mahone Bay to Shelburne. The disturbances occurred a few minutes before noon and were in most places felt in two distinct shocks.

The earthquake came from an easterly direction and spent its force near Shelburne, where only one shock was felt.

Mahone Bay, Maders' Cave, the Narrows, all reported shocks severe enough to rattle the dishes.

At Bridgewater the shock was very severe, but no damage was done. The distance between Mahone Bay and Shelburne is about 100 miles. At Sable River, which is half way between the two places, the shock was so severe that pictures were disarranged on the walls and houses shook so violently that people rushed into the streets, fearing their buildings would collapse. It was in this vicinity, a radius of 20 miles, that the disturbances were greatest.

At Liverpool, which is the most important station East of Sable River, on the Halifax Southwestern Railway, there were two distinct shocks, one of twelve seconds and another following of six seconds duration. All buildings in this town were more or less shaken, but no damage reported.

EIGHT HUNDRED NOW UNDER ARREST

Socialists in Paris Hold a Violent Demonstration Against War

Paris, Aug. 1.—The war tension has caused more than the ordinary number of withdrawals of savings, in whole or in part, from various banks. There has been however, no semblance of excitement at the banks.

The Socialist party last night issued a general manifesto denouncing war and has called meetings to protest against hostilities between Austria and Servia.

Acting Premier Bienvenu Martin and the ministers of war and marine met yesterday and received reports on the military defensive measures. The minister of war issued a circular regarding the equipment of French soldiers in case of mobilization.

The newspapers also published detailed instructions.

At the end of the demonstrations last night the streets were littered with canes, umbrellas, hats, handbags and torn overcoats. A large number of police received injuries while repressing the demonstrators, of whom 800 were arrested.

Violent anti-war demonstrations occurred on the boulevards, accompanied by the singing of revolutionary songs. Large forces of police and mounted Republican guards frequently charged the crowds. Many persons were knocked down and injured.
