

TO INVESTIGATE RATES

WHOLE QUESTION OF TELEGRAPH TOLLS
WILL COME UP FOR ADJUSTMENT
BEFORE THE RAILWAY BOARD

A national investigation of the methods of the telegraph corporations doing business in Canada will doubtless follow the ruling of Chairman Mabee, of the board of railway commissioners for Canada, which was in session at Winnipeg, September 26, on the complaints made by the Winnipeg board of trade and Winnipeg grain exchange, to the effect that the companies in their tolls were discriminating against the West in order to make up for the small percentage of profits reaped in Eastern Canada.

Chairman Mabee, after hearing the evidence of several witnesses, postponed the case, and stated that he would petition the minister of justice at Ottawa to appoint counsel to represent the public in a complete and thorough investigation into the workings of every telegraph company doing business in the Dominion, to be held before the commission. This investigation will involve the C. P. R., C. N. R. and Great Northwestern Telegraph companies and smaller companies.

Generally speaking, the decision of the railway commission, means a complete review of the rates in every part of the country.

The above decision will come with a glamour of delight to South Fort George and the numerous suburbs that have their banking and business centre here. We published a complaint from Winnipeg in our issue of October 1, voicing the general sentiment, not only locally, but inter-provincial, that the rates exacted by telegraph and telephone companies having South Fort George and the Cariboo district generally as a base of operations, as excessive. While it would be unfair to assert that discrimination is indulged by any of three links that serve this point—the C. P. R., the Yukon line and the Alberta Telephone Co.—yet we believe the tent was pitched too high, and the service, to a degree, rendered abortive. Especially is this so in the case of the Alberta Telephone Company, an institution that is as yet uncompleted to the business centre of the district. The latter company charge 75c for 10 words to Blackwater Crossing, 60 miles, where a connection is made with the Yukon line. From Blackwater to Quesnel, 50 miles, 10 words, the rate is 50c. From Blackwater to Ashcroft, a distance, approximately, 300 miles, the rate is 75c.

DISTANCE	TARIFF
C.P.R., Winnipeg to Ashcroft	75c & 5c
Government line, Ashcroft to	
Blackwater - - - -	75c & 5c
Telephone Co., Blackwater to	
Fort George - - - -	75c & 5c

"It is not distance that accounts for the seemingly high charge on the government and local telephone lines," says a letter from the department of public works, Ottawa. "On the government line the charge is in accordance with the scale settled upon for the Yukon line, in view of the cost of operation and limited volume of traffic to be handled, and the charge on the local telephone company's line, which has but recently been in operation, is likely governed by similar considerations."

The above is no good reason why the scale settled upon for the Yukon ten years ago should be the same one obtaining today. The Yukon line was constructed for the purpose of serving the Dawson goldfields. Dawsonites did not object to paying \$1 a word for a wire any more than they did 25c for a paper. They made their money by digging it out of the ground, like farmers dig potatoes. They were wealthy, and a good many found delight in burning their money over the government wire. The government knew this and in consequence a "good scale of prices" was not difficult to obtain. That was ten years ago. Things have changed since then. Dawson has ceased to be the greatest placer streak on earth, and the once lucrative telegraphic business has departed from that source. But, mark you, there has arisen another field and source to take the place of the ephemeral gold camp—one that cannot be washed away like tailings from a sluice box. It is an agricultural empire that has risen to perpetuate the dividends of the government telegraph wire. But we want agricultural prices. Not goldmining-camp-prices.

BREWERY FOR CARIBOO

A COMPANY INCORPORATED TO BUILD AND
EQUIP A MODERN PLANT—WAIT-
ING FOR A LICENSE

On May of the present year a company was organized in Quesnel to build a brewery at that point. The company was duly incorporated as the Northern Interior Brewing Co., Ltd., with an authorized capital of \$30,000. Since May the promoters have been endeavoring to secure a license for their brewery from the Department of Inland Revenue, at Ottawa, but without success. This matter comes within the sphere of activity of the Hon. William Templeman, the defeated cabinet minister, who was enabled to retain his grasp on the portfolio by the resignation of a confrere in his favor, after the results of the last election. There is no plausible reason why this license should be withheld. Truly, the board of directors are all men prominently identified with the progressive cause of the British Columbia Conservative party in this district. This may appeal to the Honorable Bill as an excellent reason against the fulfillment of the company's request.

Many years ago, during the great gold rush to Williams Creek, there were several breweries in this northern country. They were temporary affairs, designed to provide a passable substitute for malt liquors. In those bygone days the politicians did not weigh the pros and cons for the effect of party interests against industrial progress. The intention of the Northern Interior Brewing Company is to erect a permanent brewery, well equipped, and in charge of a capable brewer, to supply the northern trade with a commodity which is in ever-increasing demand. The Department of Inland Revenue will gain an addition to their surplus by the granting of the licence. Cariboo will gain the revival of a dead industry, labor-employing and creating a demand for agricultural produce.

The Dominion treats this district to a limit of their studied negligence in the matters of the public's requirements from the few vital utilities and departmental affairs which it controls in this province, but we have not previously heard of such unreasonable treatment of a private organization.

A Migratory Bird

Three maps issued by the Natural Resources Security Company at different periods were among the exhibits laid before Justice Middleton, at Toronto, by counsel for Saturday Night. Said maps show that the Natural Resources Company had moved the projected station and other proposed buildings of the Grand Trunk Pacific from the Indian reserve, where the Grand Trunk Pacific officials anticipate building, to land located on their own townsite of Fort George. These maps clearly indicate that this much-discussed station, with its appurtenances, had been a migratory bird. It had started upon the Indian reserve, according to the first map in our possession issued by this land-selling organization, says Toronto Saturday Night of September 24. The next exhibit, map No. 2, shows it located up near the river front, this time on the property of the Natural Resources Company, while map No. 3 indicates the location several blocks away from map No. 2, but still on the land of the Natural Resources Company.

Saturday Night appears to rest content with the judgment, and expresses the hope that Mr. Hammond, president of the Natural Resources Security Company, Ltd., is equally well satisfied.

The Bank of British North America have moved into their new quarters at the corner of Second street and Hamilton avenue. The building presents a most attractive appearance, and has the distinction of being the first painted building in South Fort George.

"Bruce" of the Saturday Sunset, a paper devoted to the interests of "promoters," stated in Quesnel that he intended to explode, by puncture with his pen, the advertising-inflated-townsite of West Quesnel, a promotion of the McNair Realty Co., of Vancouver. The "Sunset" now carries the ad. of the McNair Realty Co., advertising their infantile lot-selling game, but has ventured NO COMMENT on that doubtful proposition.

BETTER MAIL FACILITIES

SOUTH FORT GEORGE BOARD OF TRADE
TAKES UP THE MATTER—A WEEKLY
WINTER SERVICE WANTED

Acting on a resolution passed by the South Fort George Board of Trade this week, a petition to the Honorable Postmaster-General is being circulated, and has already been signed by every live man in this community, advocating a weekly mail service throughout the winter months.

The "winter months," as regulating the postal service to South Fort George, extend over the season of closed navigation on the Fraser, from November 1 until May 1—exactly half the year. For this period the federal authorities have decreed that South Fort George shall receive mail once in every two weeks—twelve mails in half a year.

Perhaps the postoffices at this point represent the most remote from railroad facilities or water transportation of any listed in the postal guide. Apparently for this reason the postal authorities wish to pass up the town until transportation facilities are improved. The idea, from a point of view of political economy, does credit to the Laurier government, but to the five hundred odd people affected by this service, the matter assumes a different aspect.

South Fort George is the nucleus of a future city, where the postoffice department will some day reap a rich harvest from the city delivery system. The mail service then will be pronounced excellent, as it is in other centres of industry, where the mail service pays, but in the hinterlands, the "young" cities, any old service will suffice until such time as development changes the nature of the territory.

In the thickly-populated cities, where the people's mail business is the big asset to the postal department's revenues, the postmasters receive munificent salaries. In the minor offices the postmasters hardly receive enough salary to keep them in tobacco. At South Fort George the postmaster receives a quarterly salary warrant of \$23.25—\$7.75 a month—together with a rent allowance of fifty cents a month for the postoffice, a building which would rent to any other tenant than the government of this broad Dominion, at from \$25 to \$35 a month. Postoffice hours are longer than union working hours. Postmasters are human beings. In order that we may enjoy the luxury of a postoffice here, therefore, the owners of the postoffice building philanthropically "rent" half their building for 50c a month at a loss to them of about \$300 a year. Some other philanthropist pays the postmaster a living salary, whilst the postal department keeps him in tobacco. And now the spectacle is presented of a city-in-the-rough, on its bended knees, praying Postmaster-General Rudolph Lemieux to arrange to let them have their mail twenty-four times in the half year, beginning November 1, next.

Whether South Fort George will get the service from Postmaster-General Lemieux or not remains to be seen. Here are business houses, newspapers, banks, and the great Canadian people awaiting anxiously the decision of the department in the matter.

We would commend this to the attention of Senator Hewitt Bostock, who has not yet failed in his duty to this place. To Martin Burrell, our member at Ottawa who, representing a Conservative district in a Liberal government, usually gets the "baby stare," when he suggests improvements in federal matters in Yale-Cariboo.

Mr. Richardson, from the Kamloops office of the Federal Government's Department of Public Works, arrived here on Tuesday last to make a reconnaissance of the Nechaco river between this point and the Isle-de-Pierre rapids, about 35 miles west of here, on the Nechaco river, for the works department. There are several obstructions to navigation on this river, which, we understand, can be removed without serious difficulty in the winter season.

"Bob" Edwards, editor of the "Eye-Opener," his notorious-paper-reputation-smasher, that is famous in Canada, was acquitted on a charge of publishing obscene paragraphs, brought against him by the Lord's Day Alliance, in Winnipeg, on September 30.

Rev. C. M. Wright will organize a Sunday school class in the school room at 2 p.m. tomorrow. Services will likewise be held in the same room at 3.

NORTHERN INTERIOR PRINTING CO.

J. B. DANIELL, PRESIDENT

Devoted to the interests of Fort George and the entire Northern Interior.

J. B. DANIELL, Editor.

October 15, 1910.

Practically \$40,000 is represented in the sale of Fort George farm lands at Spokane, Wash., last week, says an exchange. The land is selling at \$10.50 an acre to bona fide settlers, not more than one hundred acres being disposed of to any one purchaser. This speaks well for Fort George farm lands, but we can see no object in the restrictions placed by the operators, whoever they may be, on the amount sold to any individual. Land sold in such small blocks is usually represented to be fruit land. If the people selling this land are representing it to be fruit lands they are swindlers. This is not a fruit country, but one of the greatest mixed farming countries in Canada. Until the Dominion government establishes an experimental farm in this section the possibilities of fruit raising will not be known. It is a criminal offence to obtain money under false pretences, but misrepresenting townsites, mining propositions and "fruitlands" appear to be offences proof against His Majesty's law.

It takes considerable money to run a real live real estate business in South Fort George. A license is necessary. The government's pound of moose comes in the shape of \$50 a year, or a fraction below \$5 for thirty days. Most of the real estate agents in South Fort George do not mind this tax, but others, however, are inclined to the opinion that bucket-shop promoters and townsite schemers from the milling centre of the big republic, who make a specialty of outside townsites to a clientele of defenceless widows and orphans, should pay a tax to the province for every bunco agent they have stationed in the rural villages from the state of Maine to Alaska. If such a tax were exacted the Honorable Richard would have funds sufficient with which to build a transcontinental railway. It used to be gold bricks; now it is green townsites. And worse of all the government of British Columbia is a party to this work.

We have received from Nelson subscription lists to the John Houston memorial fund. It is the intention of the old-timers in Nelson, who are the prime movers and the initiators of the movement, to obtain, by public subscription, of one dollar from each subscriber, a sum sufficient to erect a monument to the memory of the man who was for years both the father of their city and their representative in the Provincial Legislature. John Houston was a man amongst men. Deceit and subterfuge, narrow-mindedness and hypocrisy he abominated. His actions and his life spoke eloquently of the broadness of his vision, of his disregard for the conventions he viewed as a shroud behind which so many of us hide our secret waywardness. Houston's name will stand for all time in the history of British Columbia and the Western States, synonymous with an intense and earnest desire to

ory will ever be revered as a man by whose energy, experience and brilliant editorial work, the germination of the seed of optimism and stability was sown on the site of his last pioneer work.

The Fort George Lumber and Navigation Co.

Operating 3 Steamers on the Upper Fraser, Nechaco and Stewart Rivers. From Soda Creek to Tete Jaune Cache, on the Fraser River, and from Fort George to Fraser and Stewart Lakes on the Nechaco and Stewart Rivers.

This is the only company operating a complete through service from Soda Creek to all points on above-mentioned rivers and lakes.

The company's boats are running in connection with an automobile service from Ashcroft to Soda Creek, thus providing an up-to-date and pleasant method of travelling.

Advance charges will be paid on all freight shipped to the company's care at Soda Creek, B. C., and at the same time will be cared for and carried forward on first outgoing steamers.

Our branch office at Ashcroft will give intending settlers and travellers the fullest and most reliable information regarding all points in the interior of British Columbia. The company is prepared to furnish all kinds of Rough and Dressed Lumber at their mill at Fort George, or will deliver orders to any points on above-mentioned rivers and lakes.

For full information as to Freight, Transportation and Lumber Rates, apply at the Company's offices, Carter-Cotton Bldg., Vancouver, B. C., or at the Company's offices at Fort George, B. C.

NEIL GETHING.

interviewed by the Province. Mr. Moore spoke optimistically of the exhibit of agricultural produce which he had taken to New Westminster for the fair. The Province states that Mr. Moore represents the Fort George Commercial club. That is news. It was generally understood he represented the Natural Resources Security Co.

The Fraser river is rising here.

The first touch of an approaching winter has been felt here during the past few days, severe frosts being experienced at night. The days are still warm and sunshiny.

The Natural Resources Securities Co. are subdividing the Basque ranch, near Ashcroft, and have placed it on the market for fruit lands. This land will raise good fruit.

Maurice Quain, manager of the Fort George & Alberta Telephone Co., was amongst the arrivals on the steamer Chilco this week.

The steamer Chilco arrived from Soda Creek on Tuesday, bringing up a load of freight, principally consigned to Wm. Blair & Co.

Manager W. West, of the B. C. Express Co., came up from the stranded steamer "B.X." by canoe on Monday, accompanied by Mrs. West. He informs us that the big boat is now practically repaired and will proceed immediately to Soda Creek, and will load for South Fort George again, as soon as water conditions will permit. Mr. and Mrs. West left on Tuesday for Quesnel by the trail.

Mr. Sutton, of Mud River, is in town. During his absence from the ranch recently a fire started in which he lost most of his personal belongings, and one of his numerous agricultural implements—a washboard. We extend our sympathy. Personal belongings are useful, and a washboard helps to keep them so.

The following have been appointed commissioners for taking affidavits in the Supreme court for the purpose of acting under the Provincial Elections act in Cariboo: Hiram Carney, of Central Fort George; Otis A. Early, Frederick Sherman Shepherd, and William Hargrave Little, of Quesnel.

A man in Seattle recently found a \$600 pearl in a can of oysters. That's nothing. We once found a diamond in the soup, and have known a man who found money in a bank, and another who discovered a customer in the store of a merchant who did not advertise.—Greenwood Ledge.

H. Couture returned on Monday by the steamer Chilco from Clinton, where he went to attend the October assizes at that point, as a witness in the now long-drawn-out shooting case, between H. Jones and M. Shimerhorn in the Clark bunkhouse last January. The prisoner, Jones, has been detained at Kamloops since his removal from here. He came up for trial last May, but owing to several witnesses failing to put in an appearance, the case was laid over till October 4. At this last trial, it appears, Shimerhorn, the principal witness, failed to make an appearance, and in consequence the case was further remanded, while the prisoner was allowed out on \$2000 bail, \$1000 himself and two sureties of \$500 each.

J. Heden, in the employ of the Dominion Department of Public Works, who is at present engaged in improving the channel in the Fort George canyon, spent a few days in town this week. There is a sum of \$7000 at the disposal of Mr. Heden, which will be expended on the channel which follows the west shore of the Fraser. The appropriation is altogether too small to do any work on the eastern or main channel, work on which could not commence until the late spring, owing to the ice jam endangering the lives of rock-men working on the reef. The appropriations should be larger. Every year the federal authorities send in a party to nibble off the corners of these canyons. Much of the appropriations are expended in traveling expenses and equipment. One large appropriation would do the work thoroughly and well, and steamboatmen would no longer be troubled with insomnia.
